February 2, 2009, Calendar No. 2

C 080197 MMX

IN THE MATTER OF an application, submitted by the Police Department; Fire Department; Department of Information Technology and Telecommunications; Department of Design and Construction; and Department of Citywide Administrative Services, pursuant to Sections 197-c and 199 of the New York City Charter, for an amendment to the City Map involving:

- the establishment of Marconi Street north of Waters Place;
- the adjustment of grades necessitated thereby; and
- any acquisition or disposition of real property related thereto,

Community District 11, Borough of The Bronx, in accordance with Map No. 13122 dated August 11, 2008, and signed by the Borough President.

The application (C 080197 MMX) for an amendment to the City Map involving the establishment of Marconi Street north of Waters Place in the Pelham Parkway neighborhood of The Bronx was filed on December 3, 2007, in order to facilitate the construction and operation of New York City's second Public Safety Answering Center (PSAC II), a 24-hour/7-day/week communications facility for 911 emergency phone calls.

RELATED APPLICATION

In addition to the amendment to the City Map which is the subject of this report, implementation of the applicants' proposal also requires action by the City Planning Commission on the following application which is being considered concurrently with this application:

C 090070 PCX	Site Selection and Acquisition for the construction of New York City's second Public Safety Answering Center (PSAC II)
---------------------	--

BACKGROUND

The proposed mapping of Marconi Street is necessary for the development of a Public Service Answering Center (PSAC II) being proposed under a related application for site selection and acquisition of property (C 090070 PCX) being considered concurrently with this application. The project site lies within an M1-1 zoning district. The adjacent zoning districts include R5 and R7-1 to the east, R3-2 and R6A to the north, R6 to the south, and R4 and R6 to the west.

Vehicular access to the site of the proposed PSAC II facility is currently provided from the south via a privately-owned, shared driveway called Industrial Street. This street serves the various existing facilities which adjoin it as a two-way road connecting at a signalized intersection with Waters Place to the south. In its entirety, Industrial Street extends for approximately 3,340 feet (0.63 mile) from an attended gatehouse located on the north side of Waters Place.

To ensure permanent access and to provide utility services to the proposed PSAC II site, the applicants are proposing to acquire the privately-owned land (portions of Lots 30, 35, and 40 in Block 4226) and State-owned property that comprise Industrial Street, and to amend the City Map to establish a new public two-way street to be called “Marconi Street” beginning at the northerly line of Waters Place and terminating at a hammerhead-shaped *cul-de-sac* on the secured southerly boundary of the development site. The proposed street would be mapped at a width of 60 feet for approximately 1,670 feet, and at a width of 50 feet for approximately 1,300 feet.

An interagency conference was held on January 11, 2008. No City agency had any objections to the proposal.

A full background discussion and overall project description appears in the report on the related Site Selection and Acquisition application (C 090070 PCX).
