Vehicle Data from the monthly T-CCrash Reports
The following report lists the number of crashes reported to T-CC that involve a T-CC licensed vehicle. Below those lists, the number of T-CC licensed vehicles involved in those crashes are disaggregated by vehicle type. Please note that multiple T-CC licensed vehicles can be involved in a single crash.

Table with columns for months from Jul 2014 to Nov 2014 and rows for various crash categories: All crashes, Crashes involving injury of any severity, Crashes involving critical injury, and Crashes involving a fatality. Each row contains numerical data for each month.

* The total number of crashes may be smaller than the total number of vehicles because there could be multiple T-CC vehicles involved in a single crash.
