In order to grant such special permit, the Board shall find that the amount of open area and its distribution on the #zoning lot# conform to standards appropriate to the character of the neighborhood.

Additionally, in #lower density growth management areas#, the Board shall find that:

- the distribution of #bulk# on the #zoning lot# will not unduly obstruct access of light and air to adjoining properties or #streets#; and
- the scale and placement of the #building# on the #zoning lot# relates harmoniously with surrounding #buildings#.

The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

Residential Use in C4-1 Districts in Staten Island In the Borough of Staten Island, in C4-1 Districts that occupy at least four acres within a #block# and in other C4-1

Districts for #zoning lots# that, on December 21, 2005 reater than 20,000 square feet, had a #lot area# greater than 20,000 square feet on December 21, 2005, or on any subsequent date, the City Planning Commission may permit #residences#, provided such #residences# comply with the #bulk# regulations for R5 Districts as set forth in Article II, Chapter 3, or, for #mixed buildings#, Article III, Chapter 5.

- that the distribution of the #bulk# of the total #development# will not unduly obstruct the access of light and air in and to adjoining properties or public #streets#, and will result in satisfactory site planning and satisfactory urban design relationships of #buildings# to adjacent #streets# and surrounding #developments#;
- (b) that the architectural and landscaping treatment and the height of the proposed #building# containing such #uses# blends harmoniously with the topography and the surrounding area;
- (c) that the proposed #development# will not require any significant additions to the supporting services of the neighborhood or that provision for adequate supporting services has been made; and
- (d) that the #streets# providing access to such #use# are adequate to handle the traffic generated thereby or provision has been made to handle such traffic.

The Commission may request a report from appropriate governmental agencies with respect to #community facility uses# requesting a special permit under this Section. To minimize traffic congestion in the area, the Commission may require where necessary off-street parking facilities and #accessory# off-street loading berths beyond the amount required by the district regulations.

(3) Passengers must pay for the toll, [and must be informed of this fact before the trip begins,] but are only required to pay the actual amount (often a discounted toll) charged to the EZ-Pass®.

Statement of Basis and Purpose

These rules amend certain provisions which affect the riders of taxicabs and other vehicles regulated by the TLC and the experience of those rides. First, the rules replace the detailed list of prohibited apparel rules appearing in the prior taxicab drivers' rules with a general requirement that taxi drivers present a neat and professional experience. The TLC believes that a general requirement better states its concerns and that a detailed list is outmoded and impractical. In addition, the rule extends that standard to all drivers licensed by the TLC. The TLC believes that the public is entitled to drivers who present a neat and professional appearance

Second, the rule eliminates the requirement that a taxi driver must inform the passenger that the passenger must pay tolls prior to the commencement of a trip. The TLC believes this rule is outmoded both because the riding public is aware, generally, that passengers are responsible for tolls, and because tolls are clearly included in the fare as shown both on the Passenger Information Monitor and on the

This rule amends the version of the Commission's rules that becomes effective April 1, 2011.

Notice of Public Hearing and Opportunity to Comment on Proposed Rules

Notice is hereby given in accordance with section 1043(b) of the New York City Charter ("Charter") that the Taxi and Limousine Commission ("TLC") proposes amending the provisions of Title 35 of the Rules of the City of New York to create standard rules for handling lost passenger property.

These rules are proposed pursuant to sections 1043 and 2303 of the Charter and section 19-503 of the Administrative Code of the City of New York. The proposed rules were not included in the TLC's regulatory agenda for Fiscal Year 2011 as the need for them was not anticipated at the time the agenda was prepared.

NOTICE

PUBLIC NOTICE OF A CONCESSION OPPORTUNITY FOR THE OPERATION, MANAGEMENT AND MAINTENANCE OF PEDESTRIAN PLAZAS LOCATED AT NINTH AVENUE FROM GANSEVOORT STREET TO 14TH STREET, BOROUGH OF MANHATTAN

Pursuant to the Concession Rules of the City of New York, the Department of Transportation ("DOT") intends to enter into a concession for the operation, management, and maintenance of pedestrian plazas located at Ninth Avenue from Gansevoort Street to 14th Street in Manhattan ("Licensed Plaza"), including through DOT-approved events, sponsorships, and subconcessions including but not limited to providing for the sale of any of the following: prepared food, flowers, locally grown produce or locally manufactured products, merchandise (such as souvenirs or T-shirts) that helps brand or promote the neighborhood or the concessionaire, and other similar merchandise.

Subconcessions would be awarded based on solicitations issued by the concessionaire in the basic form of Request for Proposals or Request for Bids, subject to DOT's prior written approval of both solicitation and award.

The concession agreement will provide for one (1) five-year term, with four (4) one-year renewal options. The renewal options shall be exercisable at DOT's sole discretion. DOT has identified the Meatpacking Improvement Association as a potential concessionaire, but DOT will consider additional expressions of interest from other potential not-for-profit concessionaires for the operation, management, and maintenance of the Licensed Plaza. In order to qualify, interested organizations should be active in the neighborhood of the Licensed Plaza and have demonstrated experience in the management, operation and maintenance of publicly accessible facilities, including but not limited to programming/events management and concession or retail operation/management.

Not for profit organizations may express interest in the proposed concession by contacting Andrew Wiley-Schwartz, Assistant Commissioner for Public Spaces, by email at awileyschwartz@dot.nyc.gov or in writing at 55 Water Street, 9th Floor, New York, NY 10041 by November 8, 2010. Mr. Wiley-Schwartz may also be contacted with any questions relating to the proposed concession by email or by telephone at (212) 839-6678.

Please note that the New York City Comptroller is charged with the audit of concession agreements in New York City. Any person or entity that believes that there has been unfairness, favoritism or impropriety in the concession process should inform the Comptroller, Office of Contract Administration, 1 Centre Street, New York, New York 10007, telephone number (212) 669-2323.

Determination and Findings by the City of New York Pursuant to Section 204 of the New York State Eminent Domain Procedures Law ("EDPL") with Respect to Certain Properties to be Acquired in Connection with the Proposed Atlantic Avenue Extension and Related Improvements ("Proposed Project").

The City of New York ("City") and its Department of Transportation ("DOT") have considered the use of the EDPL to the proposed acquisition of certain properties necessary for the Proposed Project.

Pursuant to EDPL § 203, the City held a public hearing on August 17, 2010 in the Borough of Queens in relation to the proposed acquisition of the following properties:

Borough	Block	Lot
Queens	9990	34
Queens	9990	46

The record of the hearing was concluded at $5~\mathrm{p.m.}$ on August $24,\,2010.$

Determination and Findings

Pursuant to EDPL § 204 the City makes the following determination and findings concerning the above-described acquisitions:

- (1) The Public Use, Benefit and Purpose to be Served by the Acquisitions: The purpose of the acquisitions is to: 1) allow the City to extend Atlantic Avenue to meet 95th Avenue, thereby rationalizing traffic flow along 94th and 95th Avenues between the Van Wyck Expressway and Sutphin Boulevard, adjacent to the Long Island Rail Road and AirTrain stations; 2) create a new public park; and 3) help create a framework for anticipated additions of commercial and residential density in the area. Public benefits include enhanced traffic safety and flow along a critical corridor, new recreational opportunities for existing residents and the potential for more orderly growth.
- (2) Location of Real Property and Reason for Selection of Location: The properties to be acquired in whole or in part are shown on the Tax Map of the City for the Borough of Queens and comprise the following: Queens Block 9990, Lot 34 and Block 9990, Lot 46. Atlantic Avenue cannot be extended to 95th Avenue at a safe and appropriate angle without traversing these properties, and therefore they are necessary

to carry out the project. There has been a mapped right-of-way along the route of the proposed extension since the 1930s. The road was never developed, and structures were built in the right-of-way in the intervening years. The City of New York chose to de-map the original Atlantic Avenue Extension and to instead re-map a narrower right-of-way more sensitive to neighborhood character. The Uniform Land Use Review Procedure for that action was successfully completed in 2007.

- (3) General Effect of the Proposed Project on the Environment and Residents of the Locality: Currently both 94th and 95th Avenues between the Van Wyck Expressway and Sutphin Boulevard are two-way, east-west thoroughfares. In order to rationalize traffic flow and create additional capacity, 94th Avenue will operate west-bound only between that stretch, and 95th Avenue will operate east-bound only. Atlantic Avenue will be extended in order to allow east-bound traffic to connect to 95th Avenue. A new public park will be created adjacent to the Atlantic Avenue Extension with three separate areas: a viewing park, a playground and a sitting park. In sum, the project will rationalize traffic along a critical corridor (adjacent to both the LIRR and AirTrain) and create new public green space in an area of Jamaica that is not considered "well-served" by parks under City Environmental Quality Review technical standards.
- (4) <u>Conclusion</u>: Based on due consideration of the record and the foregoing findings, it is determined that the City of New York should exercise its power of eminent domain to acquire the above described properties in order to promote and further the goals of the Proposed Project.

PLEASE TAKE NOTICE THAT:

Copies of this Determination and Findings by the City of New York are available and can be obtained without cost upon written request addressed to:

New York City Department of Transportation Legal Affairs 55 Water Street, 9th Floor New York, New York 10041 Attn: David Fenichel, Esq.

Determination and Findings by the City of New York ("City") Pursuant to Section 204 of the New York State Eminent Domain Procedures Law ("EDPL") with Respect to Certain Properties to be Acquired in Connection with the Proposed Archer Avenue Station Plaza Project (the "Proposed Project").

The City and its Department of Transportation ("DOT") have considered the use of the EDPL for the proposed acquisition of certain properties necessary for the Proposed Project.

Pursuant to EDPL § 203, the City held a public hearing on August 17, 2010 in the Borough of Queens in relation to the proposed acquisition of the following properties:

Borough	Block	Lot
Queens	9994	38
Queens	9988	37
Queens	9988	38
Queens	9988	40
Queens	9986	70
Queens	9986	73

The record of the hearing was concluded at 5 p.m. on August 24, 2010.

Determination and Findings

Pursuant to EDPL § 204 the City makes the following determination and findings concerning the above-described acquisitions in connection with the Proposed Project:

- The Public Use, Benefit and Purpose to be Served by the Acquisitions: The acquisitions will allow for the widening and realignment of Archer Avenue between 144th Place and 147th Place in order to increase pedestrian and vehicular safety; rationalize traffic; ease sidewalk and street congestion; enhance intermodal connections for passengers; and create new public spaces, concession opportunities and a more appropriate framework for anticipated additional commercial density in the Station Plaza area.
- (2) <u>Location of Real Property and Reason for Selection</u>

of Location: The properties to be acquired in whole or in part are shown on the Tax Map of the City for the Borough of Queens and comprise the following: Queens Block 9994, Lot 38; Queens Block 9988, Lots 37, 38 and 40; Queens Block 9986, Lots 70 and 73. These properties are all adjacent to the stretch of Archer Avenue between 144th Place and 147th Place slated for improvement, and the acquisitions are necessary to carry out the Proposed Project.

(3) General Effect of the Proposed Project on the Environment and Residents of the Locality: The Proposed Project encompasses a stretch of Archer Avenue that is in need of safety and other improvements. The location represents a transit hub comprising the Long Island Railroad's Jamaica Station, with ten of the eleven LIRR commuter rail lines stopping at this station; the Sutphin Boulevard-Archer Avenue-JFK Airport subway station, serving the E, J and Z lines; and multiple bus routes. Fourteen surface bus routes pass by Jamaica Station along either Sutphin Boulevard or Archer Avenue, and ten of these routes turn at the intersection of Sutphin and Archer. The transit-related congestion is intensified by illegal pick-ups and drop-offs by livery cabs and vans at the intersection.

As a net result, the Archer Avenue-Sutphin Boulevard intersection has many pedestrian/ vehicular conflicts, ranking as the worst intersection in Queens at the time of DOT's environmental review of the Proposed Project performed pursuant to the City Environmental Quality Review ("CEQR") process. (CEQR review resulted in the issuance of a Negative Declaration dated January 12, 2007; CEQR No. 07DOT 002Q.) Bus turns create congestion. Pedestrian problems stem from insufficient sidewalk and crosswalk capacity, exacerbated by the location of subway stairs on the sidewalks, and pedestrian flows are frequently interrupted by the numerous bus movements. Bus stop spaces are inadequate and are located in close proximity to subway stairs, creating conflicts for passengers making intermodal transfers. At peak hours, pedestrian traffic frequently spills into the street.

To address the situation, Archer Avenue will be widened and realigned between 144th Place and 147th Place. Widening Archer Avenue will improve the intersection in several ways: by increasing capacity for vehicular traffic as it approaches the congested intersection with Sutphin Boulevard; by allowing for a new bus turn lane within Archer Avenue, and by increasing sidewalk area and adding approximately half an acre of public space. New medians in Archer Avenue will separate eastand westbound traffic and provide a refuge for pedestrians crossing the Avenue. Medians will also eliminate the disruptive and dangerous illegal Uturns made by livery vehicles and others. The new plaza areas will accommodate the relocation of the subway stairs on the northwest and northeast corners of the intersection, removing the entrances from their current locations within congested, narrow sidewalks. Bus transit improvements will include a dedicated bus lane on the south side of Archer Avenue, expanded bus stops and increased room for the turning movement of articulated

In sum, upon analysis the Proposed Project appears to represent a net benefit for residents of the locality and for the environment. The Proposed Project will provide safer and easier pedestrian access to a major transit hub; facilitate smoother intermodal transfers; reduce the potential for traffic accidents; and improve traffic flow, including bus traffic. Additionally, the Proposed Project will create new open public space and facilitate low-impact forms of transportation, such as bus, train and walking.

(4) <u>Conclusion</u>: Based on due consideration of the record and the foregoing findings, it is determined that the City should exercise its power of eminent domain to acquire the above described properties in order to promote the goals of the Proposed Project and permit them to be achieved.
