Statement of Basis and Purpose

The New York City Department of Environmental Protection (DEP or Department) proposes to amend its rules governing house/site connections to the sewer system (Chapter 31 of Title 15 of the Rules of the City of New York (RCNY)) to clarify language, update peak flow requirements, provide alignment with new construction/post-construction requirements, provide alignment with recent updates to the New York City Plumbing Code, and provide more detailed and comprehensive information in order to make it easier for the regulated community to determine what needs to be done to attain compliance.

Background

New York City’s 2012 house/site connection stormwater rule had the goal of reducing the adverse impacts on City sewers from runoff during rainstorms more severe than combined sewers are designed to handle. Sewer overflows, floods, and sewer backups can occur when excessive stormwater from impervious surfaces enters too quickly into the sewer system. The rule set forth a new performance standard, which applied to development in combined sewer areas of the City, allowing the City to more effectively manage stormwater runoff by prescribing standards for the permitting, construction and inspection of sewer connections to the City’s combined sewer system.

Since adoption of this rule, the New York State Department of Environmental Conservation issued to the City a Municipal Separate Storm Sewer Systems (MS4) permit, which required the City to

implement measures to reduce pollution in stormwater runoff from developments in the MS4 areas of the City (Chapter 19.1 of Title 15 of the RCNY, construction/post-construction stormwater management requirements), with the goal of protecting and improving water quality in the City’s waterbodies.

The department is proposing these amendments to Chapter 31 of Title 15 of the RCNY as part of a unified approach to stormwater regulation, to be administered citywide, which will align Chapter 31 stormwater quantity and flow rate requirements with Chapter 19.1 construction/post-construction permitting program water quality requirements, encouraging re-development projects greater than or equal to 20,000 square feet (sf) to use green infrastructure to meet the requirements of both chapters, where feasible. These amendments will allow for reduction in combined sewer overflows and flooding, increase in green space, greater consistency across stormwater programs, flexibility in design options and improvements in water quality.

These amendments to Chapter 31 will update onsite stormwater volume requirements and maximum stormwater release rates for both combined and storm sewer systems and reference the New York City Stormwater Manual (Appendix to Chapter 19.1 of Title 15 of the RCNY) for applicable stormwater technical requirements, including stormwater management practice hierarchies and stormwater management practice selection checklists.

The proposed amendments to §31-01(b) Definitions would:

- Add a definition for “building drain” to align with the definition in the New York City Plumbing Code.
- Add a definition for “building sewer” to include both combined and sanitary sewers.
- Revise the definition of “detention system” to align with the Chapter 19.1 definition of “detention system.”
- Revise the definition of “house connection proposal” to limit applicability to plans for existing or proposed developments of one (1), two (2) or three (3) family dwelling units less than 20,000 sf in total site area connecting to a sewer that fronts the site.
- Revise the definition of “indirect discharge” to align with the Chapter 19.1 definition of “indirect discharge.”
- Delete the definition for “interceptor-collector,” and any references to this term.
- Revise the definition of “internal drain,” to clarify that such definition applies to any drainage system which is not located in a final mapped street, a record street or an easement under the jurisdiction of the DEP.
- Add a definition for “NYC Stormwater Manual.”
- Revise the definition of “non-plumbing work,” to reference new definition for “plumbing work.”
- Add a definition for “plumbing work.”
- Clarify the definition for “retention system” to align with expanded opportunities to apply volume managed through non-detention systems toward total stormwater volume requirements.
- Add a definition for “shared sanitary sewer connection.”
- Add a definition for “site.”
- Revise the definition for “site connection proposals” to be applicable to all plans other than those in house connection proposals.
- Add a definition for “stormwater management facility.”
- Add a definition for “stormwater volume requirement” to replace references to “required stormwater volume to be detained.”

The proposed amendments to § 31-02(b) Sewer Availability Certification/Specific Requirements would:

- allow self-certified sewer certification applications except in certain circumstances, which would include applications for projects not filed with the Department of Buildings, for proposed developments where the sewer does not front the property but is available, and for proposed developments where storm or combined sewer extension is feasible.
- require certification applications to include a site plan, the stormwater volume requirement, the actual stormwater release rate from the site, and the maximum stormwater release rate.
- require computation of the stormwater release rate for connections in a combined or storm sewer system.
- provide that, if the department determines that the allowable flow is less than the maximum release rate outlined in 15

RCNY § 31-03(a)(1), then the maximum release rate will be equal to the allowable flow.

- clarify that lot numbers shall correspond to the most recent records supplied by the Department of Finance
- require site plans to be prepared in accordance with the latest standards and requirements of the Department, including Chapter 19.1 of Title 15 of RCNY and the stormwater technical requirements outlined in the NYC Stormwater Manual (Appendix to Chapter 19.1 of these rules).

The proposed amendments to § 31-03 Stormwater performance standard would:

- extend the stormwater performance standard's applicability to connections to the storm sewer system.
- set maximum stormwater release rates for both combined and storm sewer systems.

The proposed amendment to § 31-07 Inspections aligns with the New York City Plumbing Code and clarifies that the Department of Buildings will inspect the building drain(s) and the Department will inspect the building sewer(s).

The proposed amendments add a § 31-09 Effectiveness. Zoning map amendments potentially change the sewer hydraulics for the areas covered by rezoning. The unified stormwater rule is designed to maximize stormwater management during and post-construction and to reduce stormwater runoff from new and redevelopment sites to the drainage system, a smart growth strategy that utilizes the opportunity of redevelopment to retrofit the volume and pollutant loading from stormwater to benefit the drainage system and water quality.

Accordingly, DEP proposes to distinguish recently rezoned areas (after November 15, 2021 but before the effective date of this rule) by requiring sites taking advantage of that rezoning that have submitted any application for certification or have been issued a certification under the rules in effect prior to the effective date of the rule, to submit a new application for certification in compliance with Sections 31-02 and 31-03 of this Chapter.

Material being deleted is shown below in [brackets] and material being added is underlined.

"Shall" and "must" denote mandatory requirements and may be used interchangeably in the rules of this department, unless otherwise specified or unless the context clearly indicates otherwise.

Section 1. - (2) [All sewer certification applications for new construction under the jurisdiction of the DOB may be submitted to the DEP or to the DOB. All other sewer certification applications for construction that is not under the jurisdiction of the DOB and do not require DOB project identification number(s) (DOB PIN(s)) shall be submitted to the DEP.]

[(3)]A professional engineer or registered architect shall not self-certify sewer certification applications for the cases listed below. Such applications shall be submitted to the DEP for review and certification:

A. DEP will provide runoff coefficients to be used in computing site storm flow.]

[B.] (iii) DEP will accept for review applications

that minimize the runoff coefficient of the entire site by maximizing open areas, and areas with grass or vegetative cover, green roofs, permeable pavements with suitable infiltration, or other techniques based on the runoff coefficients published by DEP. Further runoff coefficient reductions must be substantiated by soil borings taken at the location of the proposed areas in addition to a permeability test performed in situ.

[C.] iv. Overall site runoff coefficients must not be decreased without the express written approval of DEP.

[(iii)] v. Applicants shall specify the method(s) of disposal of all developed site storm flow in conformance with the provisions of local laws governing such disposal.

(5) Block and lot numbers shall correspond to the most recent records supplied by the DOF. Any applicant proposing to alter an existing block and/or lot layout shall submit to the [DOB] DEP a Tentative Lot Number(s) Request Form bearing the applicant's signature and seal and showing the proposed block or lot modifications. [Such forms shall be approved by the DOB.]

- (6) All existing and proposed sewer connections shall be shown on the site plan and supporting documents. The minimum size of pipe for proposed connections to the sewer system shall be an eight (8) inch pipe in the Borough of Manhattan and a six (6) inch pipe in all other Boroughs.

- (8) All sewer connections shall be gravity connections. Single structures utilizing an internal ejector shall follow provisions of the New York City Building Code and shall connect to the sewer by gravity for such use. In cases where multiple structure developments use internal ejectors, the internal ejector system shall discharge into a pressure relief manhole within the property lines, and then flow into the existing sewer by a gravity sewer connection.
- (9) All site plans submitted to the DEP with sewer certification applications shall be prepared in accordance with the latest standards and requirements of the DEP, as indicated below:
 - (i) Site plans shall be drawn to scale, and shall contain the original seal and signature of the filing professional engineer or registered architect.
 - (ii) All hydraulic computations, and the proposed method(s) of disposal for all sanitary and storm discharge, must be shown on the site plan.
 - (iii) Swimming pool(s) must be shown on the site plan, but are not reviewed as part of the sewer certification application(s). A separate approval for the discharge from swimming pools must be obtained from the DEP. All swimming pools must discharge to an internal sanitary system prior to discharge into the existing sewer or drain.
 - (iv) Computations and details for the stormwater management facilities [practices] proposed for the on-site retention and/or detention of stormwater runoff from the developed site necessary to ensure compliance with this rule and/or with Chapter 19.1 of this Title, must be shown on the site plan.
- (10) Subsoil boring logs and soil permeability testing information must be submitted, in accordance with the NYC Stormwater Manual, to substantiate any proposed on-site stormwater infiltration.
- (11) Any person constructing a new development abutting a waterway shall discharge its stormwater to that waterway. All direct discharges shall comply with all applicable laws and regulations.
- (12) For sites with industrial waste discharge, the applicant must obtain approval from the DEP for such discharge prior to the certification of the sewer certification application. For self-certified sewer certification applications, the approval for the discharge of industrial waste must be obtained prior to submission of the self-certified sewer certification application to the City.

§ 3. Section 31-03 of title 15 of the rules of the city of New York is amended to read as follows:

§ 31-03 Stormwater performance standard for connections to combined or storm sewer [system] systems.

(a) Stormwater release [rate] rates.

The following provisions apply to the issuance of permits for sewer availability certifications and connections to combined and storm sewer systems for new buildings and alterations as defined in the Construction/Plumbing Codes and related requirements for any horizontal building enlargement or any proposed increase in impervious surfaces.

- (1) The maximum Stormwater Release [Rate] Rates [must be no more than the greater of 0.25 cfs or 10% of the Allowable Flow or, if the Allowable Flow is less than 0.25 cfs, no more than the Allowable Flow] are set forth in the following table.

Sewer Type	Maximum Stormwater Release Rate
<u>Storm Sewer System</u>	<u>1 cfs per acre or 0.046 cfs, whichever is greater</u>
<u>Combined Sewer System</u>	<u>0.1 cfs per acre or 0.046 cfs, whichever is greater</u>

(2) For applications where the site is part of a lot [Alterations], the stormwater release rate for the altered area must be no more than the stormwater release rate for the entire site, determined in accordance with subparagraph (1) above, multiplied by the ratio of the altered area to the total site area. No new points of discharge are permitted.

- (3) For [proposed open-bottom detention systems] sites where stormwater management facilities other than detention systems are proposed, applicants [would] may be entitled to a reduction of the [required stormwater volume to be detained] stormwater volume requirement, [where stormwater will be infiltrated into the below soils provided that the applicant demonstrates to the satisfaction of the department that the existing soil surrounding and below the system has a favorable rate of permeation substantiated by soil borings taken at the location of the proposed system in addition to a permeability test performed in situ.] The NYC Stormwater Manual identifies eligible stormwater management facilities, which must provide a reliable reduction in peak runoff rates for large events, and sets forth methods for determining the amount of volume that may be reduced. Requests for any volume [credits] reduction must be shown on the site connection proposal application and reviewed by DEP and must be made in accordance with the NYC Stormwater Manual.

[(3) Applicants would be entitled to a reduction of the required stormwater volume to be detained where stormwater will be recycled for on-site uses provided that the department finds that the recycling system is independent and does not result in total site discharge to the sewer system greater than the Stormwater Release Rate at any time. Such recycling systems cannot be modified or disconnected, without the express written approval of DEP. This restriction applies to both current and future owners and other persons in control of the property.]

§ 4. Paragraphs (1) and (2) of subdivision (a) of section 31-04 of title 15 of the rules of the city of New York are amended to read as follows:

- (1) No person or Owner shall connect to, make use of, or make an opening into any interceptor sewer, [interceptor collector,] or sanitary, storm, or combined sewer or drain; or install, repair, relay or plug sewer connections, except upon issuance of a permit consistent with the provisions of this Rule. - (iii) For six (6) inch diameter sewer connections to eight (8) inch diameter sewers or drains, if the existing eight (8) inch diameter sewer or drain is not supported by a concrete cradle, the connection method described in subparagraph (i) of this paragraph (7) shall apply. For sewers or drains on concrete cradles, a minimum of four (4) feet in length of the existing sewer or drain shall be encased in concrete from the point of connection. The concrete shall be allowed to set for [twenty-four (24)] forty-eight (48) hours, after which time, core drilling shall be performed.

READER'S GUIDE

The City Record (CR) is published each business day. The Procurement section of the City Record is comprised of notices of proposed New York City procurement actions, contract awards, and other procurement-related information. Notice of solicitations and other notices for most procurement methods valued at or above \$100,000 for goods, services, and construction must be published once in the City Record, among other requirements. Other procurement methods authorized by law, such as sole source procurements, require notice in the City Record for five consecutive editions. Unless otherwise specified, the agencies and offices listed are open for business Monday through Friday from 9:00 A.M. to 5:00 P.M., except on legal holidays.

NOTICE TO ALL NEW YORK CITY CONTRACTORS

The New York State Constitution ensures that all laborers, workers or mechanics employed by a contractor or subcontractor doing public work are to be paid the same wage rate that prevails in the trade where the public work is being done. Additionally, New York State Labor Law §§ 220 and 230 provide that a contractor or subcontractor doing public work in construction or building service must pay its employees no less than the prevailing wage. Section 6-109 (the Living Wage Law) of the New York City Administrative Code also provides for a "living wage", as well as prevailing wage, to be paid to workers employed by City contractors in certain occupations. The Comptroller of the City of New York is mandated to enforce prevailing wage. Contact the NYC Comptroller's Office at www.comptroller.nyc.gov, and click on Prevailing Wage Schedules to view rates.

CONSTRUCTION/CONSTRUCTION SERVICES OR CONSTRUCTION-RELATED SERVICES

The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed to the City's prestige as a global destination.

VENDOR ENROLLMENT APPLICATION

New York City procures approximately \$17 billion worth of goods, services, construction and construction-related services every year. The NYC Procurement Policy Board Rules require that agencies primarily solicit from established mailing lists called bidder/proposer lists. Registration for these lists is free of charge. To register for these lists, prospective suppliers should fill out and submit the NYC-FMS Vendor Enrollment application, which can be found online at www.nyc.gov/selltonyc. To request a paper copy of the application, or if you are uncertain whether you have already submitted an application, call the Vendor Enrollment Center at (212) 857-1680.

SELLING TO GOVERNMENT TRAINING WORKSHOP

New and experienced vendors are encouraged to register for a free training course on how to do business with New York City. "Selling to Government" workshops are conducted by the Department of Small Business Services at 110 William Street, New York, NY 10038. Sessions are convened on the second Tuesday of each month from 10:00 A.M. to 12:00 P.M. For more information, and to register, call (212) 618-8845 or visit www.nyc.gov/html/sbs/nycbiz and click on Summary of Services, followed by Selling to Government.

PRE-QUALIFIED LISTS

New York City procurement policy permits agencies to develop and solicit from pre-qualified lists of vendors, under prescribed circumstances. When an agency decides to develop a pre-qualified list, criteria for pre-qualification must be clearly explained in the solicitation and notice of the opportunity to pre-qualify for that solicitation must be published in at least five issues of the CR. Information and qualification questionnaires for inclusion on such lists may be obtained directly from the Agency Chief Contracting Officer at each agency (see Vendor Information Manual). A completed qualification questionnaire may be submitted to an Agency Chief Contracting Officer at any time, unless otherwise indicated, and action (approval or denial) shall be taken by the agency within 90 days from the date of submission. Any denial or revocation of pre-qualified status can be appealed to the Office of Administrative Trials and Hearings (OATH). Section 3-10 of the Procurement Policy Board Rules describes the criteria for the general use of pre-qualified lists. For information regarding specific pre-qualified lists, please visit www.nyc.gov/selltonyc.

NON-MAYORAL ENTITIES

The following agencies are not subject to Procurement Policy Board Rules and do not follow all of the above procedures: City University, Department of Education, Metropolitan Transportation Authority, Health & Hospitals Corporation, and the Housing Authority. Suppliers interested in applying for inclusion on bidders lists for Non-Mayoral entities should contact these

entities directly at the addresses given in the Vendor Information Manual.

PUBLIC ACCESS CENTER

The Public Access Center is available to suppliers and the public as a central source for supplier-related information through on-line computer access. The Center is located at 253 Broadway, 9th floor, in lower Manhattan, and is open Monday through Friday from 9:30 A.M. to 5:00 P.M., except on legal holidays. For more information, contact the Mayor's Office of Contract Services at (212) 341-0933 or visit www.nyc.gov/mocs.

ATTENTION: NEW YORK CITY MINORITY AND WOMEN-OWNED BUSINESS ENTERPRISES

Join the growing number of Minority and Women-Owned Business Enterprises (M/WBEs) that are competing for New York City's business. In order to become certified for the program, your company must substantiate that it: (1) is at least fifty-one percent (51%) owned, operated and controlled by a minority or woman and (2) is either located in New York City or has a significant tie to New York City's business community. To obtain a copy of the certification application and to learn more about this program, contact the Department of Small Business Services at (212) 513-6311 or visit www.nyc.gov/sbs and click on M/WBE Certification and Access.

PROMPT PAYMENT

It is the policy of the City of New York to pay its bills promptly. The Procurement Policy Board Rules generally require that the City pay its bills within 30 days after the receipt of a proper invoice. The City pays interest on all late invoices. However, there are certain types of payments that are not eligible for interest; these are listed in Section 4-06 of the Procurement Policy Board Rules. The Comptroller and OMB determine the interest rate on late payments twice a year: in January and in July.

PROCUREMENT POLICY BOARD RULES

The Rules may also be accessed on the City's website at www.nyc.gov/selltonyc

HOW TO READ CR PROCUREMENT NOTICES

Procurement notices in the CR are arranged by alphabetically listed Agencies, and within Agency, by Division if any. The notices for each Agency (or Division) are further divided into three subsections: Solicitations, Awards, and Lists & Miscellaneous notices. Each of these subsections separately lists notices pertaining to Goods, Services, or Construction.

Notices of Public Hearings on Contract Awards appear at the end of the Procurement Section.

At the end of each Agency (or Division) listing is a paragraph giving the specific address to contact to secure, examine and/or to submit bid or proposal documents, forms, plans, specifications, and other information, as well as where bids will be publicly opened and read. This address should be used for the purpose specified unless a different one is given in the individual notice. In that event, the directions in the individual notice should be followed.

The following is a SAMPLE notice and an explanation of the notice format used by the CR.
