HEADQUARTERS
FIRE DEPARTMENT, CITY OF NEW YORK,
(155 AND 157 MERCER STREET)
NEW YORK, March 7, 1881.

SEALED PROPOSALS FOR FURNISHING TO this Department seven steam fire engines, will be received at these Headquarters until 10 A. M., on Tuesday, the 22d instant, when they will be publicly opened and read.

The engines are to be what is known as fourth size single pump and cylinder "Crane Neck" vertical steam fire engines, and each engine is to be fully supplied with all necessary tools.

The boilers to be vertical, each 32 inches diameter and 62 inches high, to be made of best steel boiler plate, having copper smoke-flues, and hanging tubes of lap-welded iron, each hanging tube having circulating strips. To be of sufficient strength to bear twice the pressure ever required in doing fire duty, and to have ample steaming capacity to keep up a full head of steam while doing the heaviest work. To be covered with Russia iron, properly banded with brass bands, nickel-plated. To have safety-valves made of composition, nickel-plated, and to be surmounted with domes of brass, bottom mouldings nickel-plated. They are to be hung on half elliptic springs, similar to those on engines numbers 7 and 33 of this Department, and are to be in all respects, as to form and construction, exactly similar to the boilers now on those engines, being M. R. Clapp's Circulating Tubular Boiler, patent of 1878.

Each engine is to have a steam cylinder, 9¼ inches in diameter, and 6 inches stroke, to be fitted to a bed-plate containing the steam passages.

The steam cylinders, steam-chests, and bed-plates of each engine are to be based in brass, nickel-plated.

All stuffing-boxes are to be so constructed as to take up while engine is running.

The main pump of each engine is to be double acting, made entirely of composition, with cylinder 5½ inches in diameter and 6 inches stroke, and to have two (2) discharge gates.

The air-chamber of each engine is to be made of copper, nickel-plated.

Each engine is to have sixteen (16) feet (in two lengths) of smooth-bore suction hose; each length to have suitable couplings, with thread, the same as on suction and hydrants in use by this Department. Also, to have a fresh-water tank to connect with feed-pumps, with suitable fresh-water connections.

The hydrant connection of each engine is to have two (2) female couplings, one 4½ inches diameter, and one 2½ inches diameter, and to have same thread as suction on large coupling, and regulation thread on the 2½-inch.

The engines are to be drawn by horses, and are to be fitted up with poles and whiffletrees, with suitable seats, for drivers, on forward parts, and fitted with cushions and whip-sockets.

The wheels are to be made of selected timber, prepared in the best manner, and are to be painted with English vermilion and striped with gold leaf; the tires to be 2½ inches wide.

The brakes are to be so arranged as to bear upon the rear wheels, and so constructed as to be controlled by the driver.

The coal-bunkers are to be made of strong iron, and to have a step and are to be painted same as the wheels.

The axles, frames, braces, etc., are to be of Bessemer steel.

The safety-valves, throttle-valves, feed-pumps, eccentric-straps, connecting-rod bearings and pipe-holders are to be of composition.

All parts of the engines are to be painted with English vermilion and striped with gold leaf, except air-chambers, boilers, domes, steam-cylinders, bed-plates, and working parts of machinery.

Each engine to be supplied with—
One nickel-plated steam-gauge.
One nickel-plated water pressure gauge.
One glass-water gauge.

One nickel-plated foam pipe. Four gauge-cocks.
One surface blow-cock and attachment for thaw-hose.
Two heater connection pipes.
One nickel-plated signal whistle.
One variable exhaust nozzle and steam-jet.

Two brass hose pipes, to have regulation thread.
Five nozzles.
One pipe holder stick.
One length thaw hose, 18 feet, and nozzle.
One fresh water connection of composition.
One bell.
Four lanterns.
One automatic controlling valve.

The first engine is to be delivered at the Repair Shops of the Fire Department within sixty days after the execution of the contract, and one in each month thereafter, in complete working order, with a guarantee that the material and workmanship are of the best character, and to replace, at the expense of the contractor, such parts, if any, as may fail, if such failure is properly attributable to defective material or inferior workmanship. Said engine shall have a full and complete trial of their working powers at New York, under the superintendence of a competent engineer.

No proposals will be received after the hour named, or considered if not made in strict compliance with the terms of this advertisement.

Two responsible sureties will be required upon each proposal, who must each justify in one-half the amount thereof, upon the proposal prior to its presentation.

—or any part thereof, will be received at the office of the Department of Public Charities and Correction, in the City of New York, until 9:30 o'clock A. M., of Friday, the 18th day of March, 1881. The person or persons making any bid or estimate shall furnish the

same in a sealed envelope, indorsed "Bid or Estimate for Dry Goods, Groceries, Tin, etc.," and with his or her name or names, and the date of presentation, to the head of said Department, at the said office, on or before the day and hour above named, at which time and place the bids or estimates received will be publicly opened by the head of said Department and read.

The Department of Public Charities and Correction reserves the right to decline any and all bids or estimates if deemed to be for the public interest, and to accept any bid or estimate as a whole, or for any one or more articles included therein. No bid or estimate will be accepted from, or a contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

The award of the contract will be made as soon as practicable after the opening of the bids.

Delivery will be required to be made from time to time, at such times and in such quantities as may be directed by the said Department; but the entire quantity will be required to be delivered on or before thirty (30) days after the date of the contract.

Any bidder for this contract must be known to be engaged in and well prepared for the business, and must have satisfactory testimonials to that effect; and the person or persons to whom the contract may be awarded will be required to give security for the performance of the contract by his or their bond, with two sufficient sureties, in the penal amount of fifty (50) per cent. of the estimated amount of the contract.

Each bid or estimate shall contain and state the name and place of residence of each of the persons making the same; the names of all persons interested with him or them therein; and if no other person be so interested, it shall distinctly state that fact; that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud; and that no member of the Common Council, head of a Department, Chief of a Bureau, Deputy thereof or Clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate, that the several matters stated therein are in all respects true. Where more than one person is interested, it is requisite that the verification be made and subscribed by all the parties interested.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, with their respective places of business or residence, to the effect, that if the contract be awarded to the person making the estimate, they will, on its being so awarded, become bound as his sureties for its faithful performance; and that if he shall omit or refuse to execute the same, they shall pay to the Corporation any difference between the sum to which he would be entitled on its completion, and that which the Corporation may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting; the amount in each case to be calculated upon the estimated amount of the work by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of this contract, over and above all his debts of every nature, and over and above his liabilities, as bail, surety, or otherwise; and that he has offered himself as a surety in good faith and with the intention to execute the bond required by section 27 of chapter 8 of the Revised Ordinances of the City of New York, if the contract shall be awarded to the person or persons for whom he consents to become surety. The adequacy and sufficiency of the security offered to be approved by the Comptroller of the City of New York.

Should the person or persons to whom the contract may be awarded neglect or refuse to accept to contract within forty-eight (48) hours after written notice that the same has been awarded to his or their bid, or proposal, or if he or they accept but do not execute the contract and give the proper security, he or they shall be considered as having abandoned it, and as in default to the Corporation, and the contract will be re-advertised and relet as provided by law.

The quality of the articles, supplies, goods, wares, and merchandise must conform in every respect to the samples of the same respectively, at the office of the said Department. Bidders are cautioned to examine the specifications for particulars of the articles, etc., required, before making their estimates.

Bidders will state the price for each article, by which the bids will be tested.

Bidders will write out the amount of their estimate in addition to inserting the same in figures.

Payment will be made by a requisition on the Comptroller, issued on the completion of the contract, or from time to time as the Commissioners may determine.

Bidders are informed that no deviation from the specifications will be allowed, unless under the written instruction of the Commissioners of Public Charities and Correction.

The Department of Public Charities and Correction reserves the right to decline any and all bids or estimates if deemed to be for the public interest, and to accept any bid or estimate as a whole, or for any one or more articles included therein. No bid or estimate will be accepted from, or a contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

The form of the agreement, including specifications, and showing the manner of payment, can be obtained at the office of the Department.

APPLICATIONS FOR EXEMPTIONS WILL BE heard here, from 9 to 4 daily, from all persons hitherto liable or recently serving who have become exempt, and all needed information will be given.

Those who have not answered as to their liability, or proved permanent exemption, will receive a "jury enrollment notice," requiring them to appear before me this year. Estimates may be made for one or more of the above six classes.

The above materials are to be furnished in accordance with specifications, and are to be delivered as called for by orders from the Engineer-in-Chief.

The small cobble and rip-rap stone for the Bulkhead or River Wall is to be delivered and properly deposited around and between the piles, and in front and rear of the work, at such points on the North river, south of Thirty-fourth street, as may be designated by the Engineer. The small cobble only is to be placed between the piles, and the rip-rap is to be placed in front and rear of the foundation, and is to be properly mixed with small cobble.

The broken stone and sand are to be unloaded and delivered by the Contractor upon the scows of the Department, or upon piers or bulkheads, at such point or points along the North river water-front, south of Thirty-fourth street, as shall be designated, from time to time, by the Engineer.

The spruce and white oak timber are to be delivered upon piers or bulkheads, or in rafts in the water, at such points along the North river water-front, south of Thirty-fourth street, as shall be designated, from time to time, by the Engineer, but it is expected that about one-fifth of the whole quantity of the spruce and white oak will be ordered to be delivered at or near the foot of Laight street, North river, and about four-fifths at or near the foot of West Twenty-fifth street, North river.

The wrought-iron spikes and the rope will be delivered at the Department Store-house, near the foot of Bloomfield street, North river, in such quantities and at such times as shall be ordered by the Engineer.

All materials in Classes 1, 2, and 3, will be measured in bulk, on board the vessels of the Contractor, at the place of delivery.

All the spruce and white oak timber will be measured at the time and place of delivery.

All the wrought-iron spikes and rope will be weighed at the Department Store-house, near the foot of Bloomfield street, North river, at the time of delivery.

N. B.—As the above mentioned quantities, though stated with as much accuracy as is possible, *in advance*, are approximate only, bidders are required to submit their estimates upon the following express conditions, which shall apply to and become part of every estimate received:

1st. Bidders must satisfy themselves as to the accuracy of the foregoing Engineer's estimate, and shall not, at any time after the submission of their estimate, dispute or complain of such Engineer's estimate or statement, nor assert that there was any misunderstanding in regard to the nature or amount of the materials to be furnished.

2d. Bidders will be required to complete the contract to the satisfaction of the Department of Docks, and in substantial accordance with the specifications of the contract. No extra compensation beyond the amount payable for the work before mentioned, which shall be actually performed, at the price therefor per cubic yard, per 1,000 feet board measure, or per pound, to be specified by the lowest bidder, shall be due or payable for the entire work.

The bidder to whom an award is made shall give security for the faithful performance of his contract, in the manner prescribed and required by ordinance, in the sum of Seven thousand dollars for Class 1, in the sum of Fifteen hundred dollars for Class 2, in the sum of Three hundred dollars for Class 3, in the sum of Eight hundred dollars for Class 4, in the sum of Two hundred dollars for Class 5, and in the sum of Two hundred dollars for Class 6, and, in case the contract for more than one of the above named classes is awarded to him, in the sum of the aggregate amount required for the several classes awarded to him.

The contractor is to be prepared to commence the delivery of the materials to be delivered under this contract, as follows:

For the small cobble, rip-rap and broken stone, sand, wrought-iron spikes, and rope, on the 1st day of April, 1881.

For the spruce and white oak timber, on the 1st day of May, 1881.

The spruce and white oak timber, wrought-iron spikes, and rope, are to be wholly delivered and the contract or contracts therefor fully completed, on or before the 15th day of June, 1881, and the small cobble, rip-rap and broken stone and sand are to be wholly delivered and the contract or contracts therefor fully completed, on or before the 30th day of June, 1881.

The damages to be paid by the contractor for each day that the contract or any part thereof may be unfulfilled after the time fixed for the fulfillment thereof has expired, and for each day that the delivery of any part of the materials to be delivered under the contract has been delayed, through neglect to furnish the same within ten days after the delivery of the order therefor from the Engineer, Sundays and holidays not to be excepted, are, in all cases, by a clause in the contract, fixed and liquidated at Fifty dollars per day.

Bidders will state in their estimates the price per cubic yard, per 1,000 feet board measure, or per pound, as the case may be, for either or all of the above six classes of materials respectively, by which the bids will be tested. The price is to cover the expenses of freight, loading and unloading, towing, cartage, tools, run-ways, and all other expenses of furnishing all the necessary materials and labor, and the performance of all the work set forth in the approved form of contract and the specifications therein contained, including any claim that may arise through delay, from any cause, in the receiving of the material by the Department of Docks.

Bidders will distinctly write out in their bids, both in figures and in words, the amount of their estimates for furnishing this material.

Should the lowest bidder or bidders neglect or refuse to accept to contract within forty-eight (48) hours after written notice that the same has been awarded to his or their bid or estimate, or if, after acceptance, he or they shall refuse or neglect to execute the contract and give the proper security for forty-eight (48) hours after notice that the same is ready for execution, he or they will be considered as having abandoned it, and as in default to the Corporation; and the contract will be readvertised and relet, and so on until it is accepted and executed.

Bidders are required to state in their estimates their names and places of residence, the names of all persons interested with them therein; and if no other person be so interested, the estimate shall distinctly state the fact: also that the estimate is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair, and without collusion or fraud; and also that no member of the Common Council, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof; which estimate must be verified by the oath, in writing, of the party making the estimate, that the several matters stated therein are in all respects true. *Where more than one person is interested, it is requisite that the verification be made and subscribed by all the parties interested.*

Each estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, with their respective places of business or residence, to the effect that if a contract be awarded to the person or persons making the estimate, they will, on its being so awarded, become bound as his or their sureties for its faithful performance; and that if said person or persons shall omit or refuse to execute the contract, they will pay to the Corporation any difference between the sum to which said person or persons would be entitled on its completion, and that which the Corporation may be obliged to pay to the person to whom the contract shall be awarded at any subsequent letting; the amount in each case to be calculated upon the estimated amount of the material by which the bids are tested; the consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of the contract, over and above all his debts of every nature, and over and above his liabilities as bail, surety, and otherwise; and that he has offered himself as surety in good faith, and with the intention to execute the bond required by law. The adequacy and sufficiency of the security offered is to be approved by the Comptroller of the City of New York, after the award is made and prior to the signing of the contract.

Bidders are informed that no deviation from the specifications will be allowed, unless under the written instructions of the Engineer-in-Chief.

No estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation, upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

The right to decline all the estimates is reserved, if deemed for the interest of the Corporation.

Bidders are requested, in making their bids or estimates, to use the blank prepared for that purpose by the Department, a copy of which, together with the form of the agreement, including specifications, and showing the manner of payment for the materials to be furnished, can be obtained upon application thereto at the office of the Department.
