## DEPARTMENT OF HIGHWAYS.

### Report for the Quarter ending March 31, 1900.

CITY OF NEW YORK,  
DEPARTMENT OF HIGHWAYS—COMMISSIONER'S OFFICE,  
Nos. 13 to 21 PARK ROW, BOROUGH OF MANHATTAN,  
May 11, 1900.

Hon. ROBERT A. VAN WYCK, Mayor:

DEAR SIR—In accordance with section 1544, of the Charter of The City of New York, I respectfully submit the following report of the operations of the Department of Highways for the quarter ending March 31, 1899:

#### BOROUGH OF MANHATTAN.

During the quarter the Department entered into three paving contracts, involving an estimated cost of \$17,857, and nine regulating and grading contracts, the estimated cost of which is \$68,159.41.

Work was completed on six paving contracts at a total cost of \$38,513.37, and on seven regulating and grading contracts costing \$122,366.53.

The repair force took up and relaid about 40,051 square yards of stone pavement, which was found to be defective; relaid a large number of crosswalks, and made a great many examinations of defective pavements complained of by residents of various localities.

The mileage of paved streets was increased as follows: Asphalt pavement, 35, and asphalt-block pavement, 14.

Permits were issued as follows: For vaults, 36; for repairs to vaults, 48; for placing guy posts, 6; for placing kettles on streets, 172; for placing boilers and engines on streets, 86; for repairs to pavement at expense of property-owners, 6; for making and repairing house service connections for gas, electricity, steam, etc., 2,603; for making openings to repair all mains other than Croton water-mains and main sewers and for making and repairing house service connections for water, sewage, gas, electricity, steam, etc., 5,661, and for making openings to repair Croton water-mains and main sewers, 360.

The number of inspections of pavements made was 13,071, and 200 notices were served on corporations and others to repair defects in pavements where openings had been made by them.

There have been many washouts on the unpaved and macadamized roads during the quarter, particularly on the Boulevard Lafayette and Terrace View avenue. These washouts have been repaired as promptly as possible, and most of the material used in the work has been obtained without expense to the City.

A number of crosswalks of a temporary character have been constructed at the most important crossings on unpaved roadways, the material used being steamed ashes.

Seventh avenue, being the main driveway from Central Park to the Speedway, has received special attention. The resurfacing of the upper section, from One Hundred and Forty-fifth to One Hundred and Fifty-third street, is about to be begun, and it is expected that the work will be finished during the early summer.

The more important macadamized and gravel roadways are regularly sprinkled to prevent dust, and the surfaces are frequently scraped and rolled to keep them clean and in good condition.

During the quarter the Bureau of Incumbrances received and attended to 818 complaints of obstructions; seized and removed obstructions in 218 cases where notices to make the removals were not complied with; issued 787 permits to place building material on streets; 126 permits to cross sidewalks and two permits to cut down dead or dangerous trees. Eight notices were also served to repair defective vault covers, and 113 permits were issued to erect temporary sheds over sidewalks.

For information in detail regarding the operations of this Department in the Borough of Manhattan during the quarter, I refer you to documents "A," "B," "C," "D," "E," "F," "G" and "H."

#### BOROUGH OF THE BRONX.

The Department awarded during the quarter 14 contracts for regulating and grading streets in this Borough, the total estimated cost of these improvements being \$320,048.83.

Work has been in progress under 26 contracts for regulating and grading streets, involving an estimated expenditure of \$1,775,613.61. Of these, two have been completed; also one contract for fencing vacant lots.

In maintaining macadamized and unpaved streets the following items of work have been done: 215,547 square feet of macadamized roadways repaired, scraped and cleaned; 10,184 square feet of paved roadway repaired with granite and trap-block pavement; 62,372 square feet of unpaved roadway repaired, surfaced and scraped; 392,604 linear feet of gutters formed and cleaned; 745 linear feet of curbstones reset and formed with native stone; 231,171 square feet of sidewalks repaired, formed and surfaced with ashes; 9,767 linear feet of sidewalks planked and repaired; 8,628 square feet of bridges replanked, and 56,364 square feet of bridges cleaned.

The Bureau of Incumbrances issued 231 permits to place material on streets and for other purposes.

Upon complaints made to this Department, 38 loads of street obstructions, chiefly brick and lumber, were removed.

Full details of the work accomplished may be found in documents "I," "J," "K," "L" and "M."

#### BOROUGH OF BROOKLYN.

Contracts have been entered into as follows: Five for grading and paving streets with Belgian-block pavement; 4 for grading and paving streets with asphalt pavement, and 1 for grading and paving with macadam pavement.

Under the supervision of this Department, 9,209 square of bluestone flagging have been laid, as well as 9 driveways across sidewalks. Inspections were made and reports rendered on 674 complaints, 102 notices to repair sidewalks were served, also 204 notices to correct house numbers.

Authority has been granted by the Board of Public Improvements to repave with asphalt 27 streets or parts of streets, and with granite 7 streets or parts of streets. Ten contracts have been entered into for flagging sidewalks in various localities and the work is now in progress.

Under the supervision of the Bureau of Streets and Roads, defective pavement was taken up and relaid as follows: Cobble-stone, 4,595 square yards; granite blocks, 3,831 square yards; Belgian blocks, 899 square yards; brick, 30 square yards.

The Bureau of Incumbrances received and attended to 263 complaints; issued 170 permits to place building material on streets, 181 permits to cross sidewalks, 152 permits to cut down trees, and 1,856 permits for miscellaneous purposes.

For additional information relative to the work done by this Department in the Borough of Brooklyn, I refer you to Documents "N," "O," "P," "Q," "R" and "S," hereto attached.

#### BOROUGH OF QUEENS.

In repairing and maintaining the streets and roads under the charge of the Department of Highways, Borough of Queens, the following items of work were done: 36 square yards of granite-block pavement repaired; 13 square yards of cobble-stone gutter repaired; 570,596 square yards of macadam streets sanded; 29,958 square yards of macadam pavement scraped and cleaned; 1,491 square yards of macadam pavement repaired; 4,572 square yards of unpaved streets repaired, crowned and graded; 171,963 linear feet of gutters formed and cleaned, and 274 linear feet of wooden culverts built.

While the winter season was not severe, the storms were so violent that great damage was done to the macadam streets throughout the borough, especially those in the Fifth Ward extending to the ocean front.

The maintenance force has been energetically employed restoring washouts and other defects in these roadways, which are speedily being restored to excellent condition.

I refer you to documents "T," "U," and "V," hereto attached, for detailed statements of the work of the Department in the Borough of Queens.

#### BOROUGH OF RICHMOND.

The macadamized and unpaved roads in the Borough of Richmond have been kept in fairly good condition during the quarter. The washouts caused by the heavy storms were filled up as promptly as possible to avoid accidents; 13,635 square yards of roadway were surfaced with sand; 63 square yards of defective roadway were repaired in patches, and about 2 miles of roads were scraped and cleaned.

Permits were issued as follows: 31 to open streets to tap water-pipes; 213 to open streets to repair water connections; 21 to open streets to make sewer connections; 17 to open streets to repair sewer connections; 13 to place building material on streets, and 196 to lay flagging, curb and gutter and to lay and repair gas-pipes; making a total of 491.

Document "W," hereto attached, shows in detail the amount of work accomplished.

Very respectfully,

JAMES P. KEATING, Commissioner of Highways.

DEPARTMENT OF HIGHWAYS—BUREAU OF STREETS AND ROADS,  
BOROUGH OF MANHATTAN, Nos. 13 to 21 PARK ROW,  
NEW YORK, April 5, 1900.

Hon. JAMES P. KEATING, Commissioner of Highways:

DEAR SIR—I respectfully submit the following statement of the financial condition of the bureau, accompanied with an accounting of the work done and the materials used during the quarter ending March 31, 1900:

The operations of this Bureau consist of the maintenance of 21.60 miles of gravel and macadamized roads and 33.26 miles of dirt roads in the Borough of Manhattan. This includes the repairing of washouts, repaving the gutters where necessary to insure proper drainage, also resetting curbing and flagging where necessary.

An examination of these reports will show that a great amount of work of this bureau cannot well be tabulated, yet calls for a considerable expenditure on the part of the City, such as the sprinkling, scraping and rolling of the macadam and gravel roadways; this work, particularly on Lenox, Seventh and St. Nicholas avenues, is very important, owing to large building interests along these avenues, necessitating a very careful and constant attention on the part of this bureau to prevent the roadway being irretrievably ruined by the repeated tearing up of the roadway for house connections and the excessive traffic of heavy building material trucks.

Seventh avenue being the main driveway from Central Park to the Speedway has received careful attention from this bureau, the resurfacing of the upper section, from One Hundred and Forty-fifth to One Hundred and Fifty-third street, is about to begin and will be finished during the early summer.

I would also call your attention to the large number of washouts, particularly on the Boulevard Lafayette and Terrace View avenue. All the material used in these repairs has been obtained without cost to the City; also numbers of crosswalks of a temporary nature have been constructed across unpaved roadways at the most important crossings of steamed ashes, making a very economical and efficient crossing.

Respectfully,  
JOHN J. SULLIVAN, Superintendent, Streets and Roads.

The following is a statement of the work performed and materials used on boulevards, roads and avenues, maintenance of; and roads, streets and avenues, maintenance of and sprinkling, during the quarter ending March 31, 1900:

*Grading and Paving.*

Berriman street, from Atlantic avenue to New Lots road, belgian-block.  
Fifty-seventh street, from First to Second avenue, asphalt.  
Logan street, from Atlantic avenue to New Lots road, belgian-block.  
Richmond street, from Jamaica avenue to Fulton street, asphalt.  
Sackman street, from Eastern parkway to Livonia avenue, belgian-block.  
Snediker avenue, from Liberty to Dumont avenue, belgian-block.  
St. Nicholas avenue, from Hart street to Flushing avenue, belgian-block.  
Sutter avenue, from Rockaway to Alabama avenue, asphalt.  
Utica avenue, from Twenty-fourth to Thirty-second Ward line, macadam.  
Vermont avenue, from Jamaica avenue to Eastern parkway, asphalt.

*Repaving.*

Bedford avenue, from Heyward street to DeKalb avenue, asphalt.  
Bedford avenue, from Quincy street to Atlantic avenue, asphalt.  
In addition to the above contracts, a number of other street improvements have been ordered by the Municipal Assembly, and specifications, contracts and plans have been forwarded for advertising, as follows:

Avenue D, from Ocean parkway to Coney Island avenue, macadam.  
Georgia avenue, from Liberty to Glenmore avenue, granite-block.  
Meeker avenue, from Kingsland avenue to Meeker Avenue Bridge, granite-block.  
Prescott place, from Atlantic avenue to Herkimer street, regulating and grading.  
Second avenue, from Thirty-ninth to Sixty-fifth street, asphalt.  
Vernon avenue, from Flatbush to Rogers avenue, asphalt.

Authority has also been given for the grading and paving of the following streets, plans for which are under way, and several of which are virtually completed, and will be forwarded within a few days:

Centre street, from Hamilton avenue to Clinton street, granite-block.  
Cooper street, from Hamburg avenue to Borough line, asphalt.  
Essex street, from Arlington to Atlantic avenue, asphalt.  
Fifty-fourth street, from Seventh to Fort Hamilton avenue, regulating and grading.  
Granite street, from Bushwick to Evergreen avenue, granite.  
Grant street, from Flatbush to Nostrand avenue, asphalt.  
Newkirk avenue, from Flatbush avenue to East Twenty-sixth street, asphalt.  
Nichols avenue, from Jamaica to Atlantic avenue, asphalt.  
Second avenue, from Thirty-ninth to Fifty-eighth street, asphalt.  
Schenck avenue, from Atlantic to Livonia avenue, trap-block.  
Schenck avenue, from Livonia avenue to New Lots road, asphalt.  
Stanhope street, from Myrtle to Hamburg avenue, granite.  
Watkins street, from East New York avenue to New Lots road, asphalt.

In addition to the above, the grading and paving of De Sales place, from Bushwick to Evergreen Cemetery, with asphalt has been authorized, but the resolution calls for asphalt pavement with a provision for 15 years of maintenance, and I have several times called attention to the fact that it will be unwise, if not illegal, to provide for maintaining an original pavement, put down by assessment, for 15 years, and suggesting that the ordinance be changed to provide for 5 years of maintenance. No change, however, seems to have been made thus far.

It will be seen from the above lists that a large number of original improvements will probably be made in this borough this year, and in addition to those named a large number of others have been approved by the Board of Public Improvements, but have not yet been acted upon by the Municipal Assembly. It is also a matter for congratulation that in only one instance do the resolutions call for macadam pavement, nearly all the others being for asphalt or granite block.

Authority has also been given by the Board of Public Improvements for the repaving of quite a number of streets, and plans and specifications have been prepared and forwarded for all but the last eight streets in the list of those to be paved with asphalt. The selection of the streets to be thus repaved will, I think, commend itself to any one who will examine it impartially, a conscientious effort having been made to select only streets which would be of decided benefit to the general public, as the public or the city at large is paying the entire expense.

I do not think that the few cases where pavement is to be laid on single blocks in front of public schools can be considered an exception to this general rule.

The list of streets to be thus repaved is as follows:

*Asphalt.*

Greene avenue, from Clinton avenue to St. James place and from Grand to Classon.  
Greene avenue, from Stuyvesant avenue to Bushwick avenue.  
Willoughby avenue, from Bedford avenue to Nostrand avenue.  
Willoughby avenue, from Throop avenue to Broadway.  
Dean street, from Flatbush avenue to Franklin avenue.  
Amity street, from Hicks street to Court street, and Dean street, from Court street to Nevins street.  
Hancock street, from Howard avenue to Broadway.  
Suydam street, from Myrtle avenue to Knickerbocker avenue.  
Pacific street, from Nostrand to Brooklyn avenue.  
Carroll street, from Smith street to Prospect Park, West; Smith street, from First place to Carroll street, and Hoyt street, from Carroll street to Carroll street.  
St. Mark's avenue, from Albany avenue to Ralph avenue.  
President street, from Sixth avenue to Seventh avenue, on present pavement.  
Pacific street, from Kingston to Albany avenue.  
Fifty-fifth street, from First to Third avenue.  
Macon street, from Tompkins to Throop avenue.  
Summit street, from Hamilton avenue to Henry street.  
Sackett street, from Hoyt to Bond street.  
Degraw street, from Court to Bond street.  
Gold street, from Front to Water street.  
Keap street, from Wythe to Bedford avenue, and Division avenue to Broadway.  
McDonough street, from Stuyvesant to Reid avenue.  
Boerum street, from Manhattan avenue to Leonard street.  
Maujer street, from Manhattan to Graham avenue.  
McDougal street, from Rockaway avenue to Stone avenue.

Van Brunt street, from Irving street to Hamilton avenue.  
Harrison street, from the bulkhead to Columbia street.  
Stagg street, from Graham to Union avenue.  
Knickerbocker avenue, from Johnson avenue to Harrison place and from Flushing avenue to Thames street.

I regret that I must again report that the failure to make contracts for maintaining our asphalt pavements is resulting in a very serious state of affairs. These pavements, which are not covered by original maintenance contracts, have had no work whatever done on them since August 23, 1899, a period of over seven months, including an entire winter. The results are simply what might have been expected. A great many bad holes have developed which are extremely dangerous, and will, I fear, involve claims for many thousands of dollars for accidents, which will necessarily occur, or have already occurred. The reason for this delay is that an injunction has been issued restraining the Commissioner from awarding contracts for repaving with asphalt, bids for which were received on January 11, the date on which bids for repaving the Brooklyn pavements were submitted.

Complaints are being received every day by this Department from the Police and citizens, calling attention to dangerous holes now existing, and these complaints appear to place the responsibility for the present condition of our pavements upon this Department. The delay in the execution of these contracts may cost the City thousands of dollars, and I think it should be made clear that this Department is not responsible for the existing condition.

Besides the Street Improvement contracts above noted, ten others have been made for flagging sidewalks in various parts of the borough. Upon these contracts work has just been begun, and will be completed during the quarter.

A large number of other contracts for flagging sidewalks and fencing vacant lots have been forwarded, but have not yet been awarded.

Estimates for local improvements prepared and reported during the quarter were as follows:

CLASS OF WORK.	NUMBER.	ESTIMATED COST.
Grading and paving with asphalt.....	12	\$416,400 00
Grading and paving with granite blocks.....	3	54,200 00
Grading and paving with macadam.....	3	198,400 00
Grading and regulating.....	10	208,200 00

Fencing lots.....	10	2,519 00
Digging down lots.....	4	4,475 00
Total.....	127	\$1,820,074 00

Other miscellaneous work done by or under the supervision of this branch of the Department is as follows:

9,209 square feet of bluestone flagging laid.  
9 driveways across sidewalks laid.  
102 notices to repair sidewalks served.  
674 complaints inspected and reported upon.  
204 notices to correct house numbers served.

The attached reports will show in detail the work done by the different corporations under the supervision of the Department, and the amount of work done by days' labor in repaving, repainting and restoring pavements over openings, and caring for macadamized roads and unimproved streets.

Respectfully,  
N. P. LEWIS, Engineer of Highways.

All corporations are now active in making needed repairs in pavements where construction work of last year has left them in bad condition, and when, in the case of railroad companies, the conditions of their charter require them to keep the pavement in good repair perpetually. A great amount of repairs remains to be done. Miles of cobble-stone pavement between the rails of railroad tracks is now in such condition that small repairs are entirely ineffective, and the only way to put it in thorough repair is to entirely relay it. This the railroad companies are not disposed to do, and the general condition of the pavement grows steadily worse in spite of continual patching.

Very respectfully,

E. J. FORT, Assistant Engineer.

WM. H. McLAUGHLIN, Superintendent of Subsurface Construction.

While the past winter has been mild in a certain sense, yet the several storms were so violent that great damage was done to the macadam streets throughout the borough, especially those streets in the Fifth Ward, extending to the ocean front.

These conditions have had and are now having energetic attention from the Maintenance Department, and are fast being remedied. I would respectfully refer you to the accompanying statements of the Engineer and the Accountant for detailed reports of the expenditures of the Department and the operations of the Engineering Department.

At the close of the year 1899 this Department had under way the following contracts, namely:

**PROPOSALS FOR MATERIALS AND WORK** REQUIRED FOR COMPLETING THE INSTALLATION OF A COMPLETE HIGH-PRESSURE STEAM PLANT IN THE WORKHOUSE, AND A COMPLETE PUMPING OUTFIT FOR THE STONE QUARRY, BLACKWELL'S ISLAND.

**SEALED BIDS OR ESTIMATES FOR** materials and work required for completing the installation of a complete high-pressure steam plant in the Workhouse, Blackwell's Island, and a complete pumping outfit for the Stone Quarry, Blackwell's Island, New York City, in conformity with specifications, will be received at the office of the Department of Correction, No. 148 East Twentieth street, in The City of New York, until 12 o'clock M. of

### OCTOBER 18, 1900.

The person or persons making any bid or estimate shall furnish the same in a sealed envelope, indorsed "Bid or Estimate for completing the installation of a High-pressure Steam Plant for Workhouse and Pumping Outfit for the Stone Quarry, Blackwell's Island, New York City," with his or their name or names and the date of presentation, to the head of said department, at the said office, on or before the day and hour above named, at which time and place the bids or estimates received will be publicly opened by the Commissioner, or his duly authorized agent of said department, and read.

THE COMMISSIONER OF THE DEPARTMENT OF CORRECTION RESERVES THE RIGHT TO REJECT ALL BIDS OR ESTIMATES IF DEEMED TO BE FOR THE PUBLIC INTEREST. No bid or estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

The award of the contract will be made as soon as practicable after the opening of the bids.

Any bidder for this contract must be known to be engaged in and well prepared for the business, and must have satisfactory testimonials to that effect, and the person or persons to whom the contract may be awarded will be required to give security for the performance of the contract by his or their bond, with two sufficient sureties, each in the penal amount of TWO THOUSAND (\$2,000) DOLLARS.

Each bid or estimate shall contain and state the name and place of residence of each of the persons making the same, the names of all persons interested with him or them therein, and if no other person be so interested it shall distinctly state that fact; also that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Municipal Assembly, head of a department, chief of a bureau, deputy thereof or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the work to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate, that the several matters stated therein are in all respects true. Where more than one person is interested, it is requisite that the verification be made and subscribed by all the parties interested.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York or of a guaranty or surety company duly authorized by law to act as surety, with their respective places of business or residence, to the effect that if the contract be awarded to the person making the estimate, they will, on its being so awarded, become bound as his sureties for its faithful performance, and that if he shall omit or refuse to execute the same they shall pay to the Corporation any difference between the sum to which he would be entitled on its completion and that which the Corporation may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting; the amount in each case to be calculated upon the estimated amount of the supplies by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same that he is a householder or freeholder in The City of New York, and is worth the amount of the security required for the completion of this contract over and above all his debts of every nature and over and above his liabilities as bail, surety or otherwise, and that he has offered himself as a surety

in good faith and with the intention to execute the bond required by section 12 of chapter 7 of the Revised Ordinances of The City of New York, if the contract shall be awarded to the person or persons for whom he consents to become surety. The adequacy and sufficiency of the security offered is to be approved by the Comptroller of The City of New York.

No bid or estimate will be considered unless accompanied by either a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of One Hundred Dollars (\$100) being five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited to and be retained by The City of New York as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

Should the person or persons to whom the contract may be awarded neglect or refuse to accept the contract within five days after written notice that the same has been awarded to his or their bid or proposal, or if he or they accept but do not execute the contract and give the proper security, he or they shall be considered as having abandoned it and as in default of the Corporation, and the contract will be readvertised and relet, as provided by law.

For particulars as to the quantity and quality of the supplies or the nature and extent of the work required or of the materials to be furnished, bidders are referred to the printed specifications.

The work and materials must conform in every respect to the printed specifications and plans. Bidders are cautioned to examine the specifications for particulars of the articles, etc., required, before making their estimates.

Bidders will write out the amount of their estimates in addition to inserting the same in figures.

Payment will be made by a requisition on the Comptroller, in accordance with the terms of the contract.

Bidders are requested to make their bids or estimates upon the blank form prepared by the Commissioner, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Commissioner, No. 148 East Twentieth street, and by Horgan & Slattery, architects, No. 1 Madison avenue, New York City, where the plans and drawings, which are made a part of the specifications, can be seen. Bidders are cautioned to examine each and all of the provisions of the contract and specifications, as the Commissioner of the Department of Correction will insist upon its absolute enforcement in every particular.

The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in The City of New York, and is worth the amount of the security required for the completion of this contract, over and above all his debts of every nature, and over and above his liabilities as bail, surety or otherwise, and that he has offered himself as a surety in good faith and with the intention to execute the bond required by the Revised Ordinances of The City of New York, if the contract shall be

Should the person or persons to whom the contract may be awarded neglect or refuse to accept the contract within five days after written notice that the same has been awarded to his or their bid or proposal, or if he or they accept but do not execute the contract and give the proper security, he or they will be considered as having abandoned it and as in default to the Corporation, and the contract will be readvertised and relet, as provided by law.

For particulars as to the quantity and quality of the supplies or the nature and extent of the work required or of the materials to be furnished, bidders are referred to the printed specifications and plans. Such work and materials must conform in every respect to printed specifications and plans. Any person making estimates for the above work shall furnish the same in sealed envelopes to the Chairman of said Armory Board, indorsed "Proposals for Estimates for Materials and Work in Furnishing an Alteration and Improvement to the Fourteenth Regiment Armory Building, on Eighth Avenue, Fourteenth and Fifteenth Streets, in the Borough of Brooklyn, City of New York," and also with the name of the person or persons presenting the same, and the date of its presentation.

Any bidder for this contract must be known to be engaged in and well prepared for the business, and must have satisfactory testimonials to that effect; and the person or persons to whom the contract may be awarded will be required to give security for the performance of the contract, by his or their bond, with two sufficient reties, in the following amounts:

No. 1 ..... \$10,000 00  
No. 2 ..... 3,000 00  
No. 3 ..... 2,000 00

Bidders are required to submit their estimates upon the following express conditions, which shall apply to and become part of every estimate received:

1. Bidders must satisfy themselves by personal examination of the location of the proposed work, and by such other means as they may prefer, as to the accuracy of the estimate, and shall not at any time after the submission of an estimate dispute or complain of the statement of quantities, nor assert that there was any misunderstanding in regard to the nature or amount of the work to be done.

2. Bidders will be required to complete the entire work to the satisfaction of the Armory Board, and in substantial accordance with the specifications of the contract and the plans therein referred to. No extra compensation, beyond the amount payable for the work before mentioned, which shall be actually performed at the prices therefor, to be specified by the lowest bidder, shall be due or payable for the entire work.

Bidders will state in their estimates a price for the whole of the work to be done, in conformity with the approved form of contract and the specifications therein set forth, by which price the bids will be tested. This price is to cover all expenses of every kind involved in or incidental to the fulfillment of the contract, including any claim that may arise through delay, from any cause, in the performing of the work thereunder.

Bidders will distinctly write out, both in words and in figures, the amount of their estimates for doing this work.

The person or persons to whom the contract may be awarded will be required to attend at this office, with the sureties offered by him or them, and execute the contract within five days from the date of the service of notice to that effect, and in case of failure or neglect so to do, he or they will be considered as having abandoned it and as in default to the Corporation, and the contract will be readvertised and relet, and so on until it be accepted and executed.

Bidders are required to state in their estimates their names and places of residence, the names of all persons interested with them therein, and if no other person be

so interested the estimate shall distinctly state the fact; also, that the estimate is made without any connection with any other person making any estimate for the same purpose, and that it is in all respects fair and without collusion or fraud; and also that no member of the Municipal Assembly, head of a department, chief of a bureau, deputy thereof or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof, which estimate must be verified by the oath, in writing, of the party making the estimate, that the several matters stated therein are in all respects true. Where more than one person is interested it is requisite that the verification be made and subscribed to by all the parties interested.

Each estimate shall be accompanied by the consent, in writing, of two householders or freeholders of The City of New York, with their respective places of business or residence, or of a guaranty or surety company duly authorized by law to act as surety, to the effect that if the contract be awarded by the person or persons making the estimate, they will, upon its being so awarded, become bound as his or their sureties for its faithful performance, and that if said person or persons shall omit or refuse to execute the contract they will pay to the Corporation of The City of New York any difference between the sum to which said person or persons would be entitled upon its completion and that which said Corporation or the Armory Board may be obliged to pay to the person to whom the contract may be awarded at any subsequent letting, the amount in each case to be calculated upon the estimated amount of the work to be done by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in The City of New York and is worth the amount of the security required for the completion of the contract, over and above all his debts of every nature, and over and above his liabilities as bail, surety and otherwise, and that he has offered himself as a surety in good faith and with the intention to execute the bond required by law. The adequacy and sufficiency of the security offered is to be approved by the Comptroller of The City of New York after the award is made and prior to the signing of the contract.

No estimate will be received or considered unless accompanied by either a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the following amounts:

No. 1 ..... \$500 00  
No. 2 ..... 150 00  
No. 3 ..... 100 00

Such checks or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Board who has charge of the estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned by the Comptroller to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited to and retained by The City of New York as liquidated damages for such neglect or refusal, but if he shall execute the contract within the time aforesaid the amount of his deposit will be returned to him by the Comptroller.

No estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation, upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

For particulars as to the quantity and quality of the supplies or the nature and extent of the work required or of the materials to be furnished, bidders are referred to the printed specifications and the plans. Such work and materials must conform in every respect to printed specifications and plans. #### PROPOSALS FOR BIDS OR ESTIMATES.

SEALED PROPOSALS WILL BE RECEIVED by the Committee on Supplies of the Board of Education of The City of New York, at the Hall of the Board, southwest corner of Park avenue and Fifty-ninth street, Borough of Manhattan, until 4 o'clock p. m., on

THURSDAY, OCTOBER 26, 1900,

for Furnishing and Delivering Books for School Libraries for the schools of The City of New York, boroughs of Manhattan and The Bronx, for year ending December 31, 1901.

No empty packages or cases are to be returned to bidders or contractors except as herein specified, and none will be paid for by the Department.

The person or persons making any bid or estimate shall furnish the same in a sealed envelope, indorsed "Bid or Estimate for Furnishing and Delivering Books for School Libraries," with his or their name or names, and the date of presentation, to the Secretary of the Board of Education, at the office of the said Board, on or before the day and hour above named, at which time and place the bids or estimates received will be publicly opened by the Committee on Supplies.

No bid or estimate will be accepted from, or contract awarded to any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

The award of the contract will be made as soon as practicable after the opening of the bids.

Any bidder for this contract must be known to be engaged in and well prepared for the business, and must have satisfactory testimonials to that effect, and the person or persons to whom the contract may be awarded will be required to give security for the performance of the contract by his or their bond, with two sufficient sureties, each in the amount of Five Thousand Dollars (\$5,000).

Each bid or estimate shall contain and state the name and place of residence or place of business of each of the persons making the same, the names of all persons interested with him or them therein, and if no other person be so interested it shall distinctly state that fact; also that it is made without any connection with any other person making an estimate for the same

purpose, and is in all respects fair and without collusion or fraud, and that no member of the Municipal Assembly, head of a department, chief of a bureau, deputy thereof or clerk therein, or other officer of the Corporation is directly or indirectly interested therein, or in the work to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate, that the several matters stated therein are in all respects true. Where more than one person is interested it is requisite that the verification be made and subscribed by all the parties interested.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders, or of a guaranty or surety company duly authorized by law to act as surety in The City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person making the estimate, they will, on its being so awarded, become bound as his sureties for its faithful performance, and that if he shall omit or refuse to execute the same, they shall pay to the Corporation any difference between the sum to which he would be entitled on its completion and that which the Corporation may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in The City of New York, and is worth the amount of the security required for the completion of this contract, over and above all his debts of every nature, and over and above his liabilities as bail, surety or otherwise, and that he has offered himself as a surety in good faith and with the intention to execute the bond required by the Revised Ordinances of The City of New York, if the contract shall be awarded to the person or persons for whom he consents to become surety.

No bid or estimate will be considered unless accompanied by either a certified check upon one of the National or State Banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited to and retained by The City of New York as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

Should the person or persons to whom the contract may be awarded neglect or refuse to accept the contract within five days after written notice that the same has been awarded to his or their bid or proposal, or if he or they accept but do not execute the contract and give the proper security, he or they will be considered as having abandoned it and as in default to the Corporation, and the contract will be readvertised and relet as provided by law.

*For particulars as to the quantity and quality of the supplies or the nature and extent of the work required or of the materials to be furnished, bidders are referred to the specifications and the blank proposals and lists of articles, materials, supplies and apparatus to be furnished. Such work and materials must conform in every respect to the specifications and schedules. Bidders are cautioned to examine the specifications for particulars of the articles, etc., required before making their estimates. All books, maps, charts and globes required in this bid must be of the latest edition, bound in the most durable manner, and strictly in accordance with the samples submitted for adoption. Bidders must state the price of each item. Awards will be made to the lowest bidder on each item.*

*All estimates not conforming to these requirements may be considered as informal.*

Payment will be made by check by the Treasurer of the Board of Education, in accordance with the terms of the contract, or from time to time, as the Committee on Supplies may determine.

Bidders are requested to make their bids or estimates upon the blank proposal and lists of articles prepared by the Committee on Supplies, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the lists of articles or schedules and the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor, at the office of the Superintendent of Supplies, first floor, Hall of the Board of Education, corner of Park avenue and Fifty-ninth street, Borough of Manhattan.

The By-laws of the Board of Education may be examined at the office of the Secretary.

The Committee reserves the right to reject all bids or estimates submitted if deemed to be for the best interests of the City so to do.

#### TO CONTRACTORS.

PROPOSALS FOR BIDS OR ESTIMATES FOR COMPLETING THE ERECTION OF NEW PUBLIC SCHOOL 125, BOROUGH OF BROOKLYN.

SEALED PROPOSALS WILL BE RECEIVED by the Committee on Buildings of the Board of Education of The City of New York, at the Hall of the Board, southwest corner of Park avenue and Fifty-ninth street, Borough of Manhattan, until 4 o'clock P. M., on

MONDAY, OCTOBER 15, 1900,

for Completing the Erection of New Public School 125, Borough of Brooklyn.

No bid or estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

The award of the contract will be made as soon as practicable after the opening of the bids.

Any bidder for this contract must be known to be engaged in and well prepared for the business, and must have satisfactory testimonials to that effect, and the person or persons to whom the contract may be awarded will be required to give security for the performance of the contract by his or their bond, with two sufficient sureties, each in the amount of Twelve Hundred Dollars (\$1,200).

Each bid or estimate shall contain and state the name and place of residence or place of business of each of the persons making the same, the names of all persons interested with him or them therein, and if no other person be so interested it shall distinctly state that fact; also that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Municipal Assembly, head of a department, chief of a bureau, deputy thereof or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the work to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate, that the several matters stated therein are in all respects true. Where more than one person is interested it is requisite that the verification be made and subscribed by all the parties interested.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders, or of a guaranty or surety company duly authorized by law to act as surety in The City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person making the estimate, they will, on its being so awarded, become bound as his sureties for its faithful performance, and that if he shall omit or refuse to execute the same, they shall pay to the Corporation any difference between the sum to which he would be entitled on its completion and that which the Corporation may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in The City of New York, and is worth the amount of the security required for the completion of this contract, over and above all his debts of every nature, and over and above his liabilities as bail, surety or otherwise, and that he has offered himself as a surety in good faith and with the intention to execute the bond required by the Revised Ordinances of The City of New York, if the contract shall be awarded to the person or persons for whom he consents to become surety.

No bid or estimate will be considered unless accompanied by either a certified check upon one of the National or State Banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the

contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited and retained by The City of New York as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid the amount of his deposit will be returned to him.

Should the person or persons to whom the contract may be awarded neglect or refuse to accept the contract within five days after written notice that the same has been awarded to his or their bid or proposal, or if he or they accept but do not execute the contract and give the proper security, he or they will be considered as having abandoned it and as in default to the Corporation, and the contract will be readvertised and let as provided by law.

For particulars as to the quantity and quality of the supplies or the nature and extent of the work required or of the materials to be furnished, bidders are referred to the printed specifications and the plans. Such work and materials must conform in every respect to printed specifications and plans. Bidders are cautioned to examine the specifications for particulars of the articles, etc., required, before making their estimates.

Plans and specifications may be seen and blank proposals obtained at the estimating room, eighth floor, Hall of the Board of Education, corner of Park avenue and Fifty-ninth street, Borough of Manhattan.

The By-Laws may be examined at the office of the Secretary.

The Committee reserves the right to reject all proposals submitted if deemed for the best interests of the City so to do.
