A statement is herewith submitted of all vouchers filed in the Department of Finance on this date, in which is shown the Department of Finance voucher number, the date of the invoices or the registered number of the contract, the name of the payee and the amount of the claim. Notice of Public Hearing.

FRANCHISE MATTERS.

PUBLIC NOTICE IS HEREBY GIVEN PURSUANT to law that at a meeting of the Board of Estimate and Apportionment held July 2, 1914, the following petition was received:

Kings County Refrigerating Co. (Wallabout Stores), 22-38 Hall Street at Wallabout Market, Brooklyn, N. Y., June 25, 1914.

Board of Estimate and Apportionment, New York City:

Gentlemen—On August 13, 1907, we entered into a contract under a franchise granted by your Honorable Board for laying certain pipes and supplying refrigeration to the Wallabout Market District. This franchise was for a period of 15 years with certain privileges of renewal for ten years on the following basis:

\$500 cash payment.
An annual payment for the first five years, 5% of gross earnings with a minimum of \$750.
An annual payment for the second five years, 6% of gross earnings with a minimum of \$1,000.
An annual payment for the third five years, 7% of gross earnings with a minimum of \$1,300.
25 cts. per running foot of conduit laid.
\$2 for each manhole.

At the time this contract was made our Company had no way of ascertaining as to whether this contract would be favorable one or not other than the fact that it was the best that could be obtained from your Honorable Board on the recommendations of the Bureau of Franchises.

The Bureau of Franchises undoubtedly at that time were not fully conversant with the value to the grantee of such a franchise and especially as applied to a scattered district.

Our Company installed machinery and equipment at the expense of about \$100,000 and have given to the district in the territory covered by our franchise good service to all that have asked for it.

This operation has resulted in a loss to the Company in direct operation during the six years of over \$110,000, as shown by an audit made by Certified Public Accountants employed at the direction of a committee, independent of the officers, which was appointed by the stockholders to investigate the causes of the Company's depressed financial condition. There is over and above this amount a considerable additional loss on depreciation of machinery and equipment.

Early this spring the stockholders and directors of the Company found themselves in

financial difficulties, their quick liabilities being several times more than their quick assets, and the fixed assets being fully covered by mortgage and their first mortgage bonds being sold as low as 50 cts. on the dollar.

The Company at that time was indebted to the City in Taxes on its real estate, and on this franchise to the extent of about \$13,000. While it was argued by a great many that the Company should be liquidated, it was finally decided by men who were active in the welfare of Brooklyn and Wallabout Market to get together and pay off the indebtedness of the Company and endeavor to put the business on a paying basis; such a Committee has been actively at work for the last three months, and on June 11, 1914, the committee turned over to the Honorable W. H. Prendergast, Controller, the last payment of the taxes on this franchise amounting to about \$3,600, covering 25 cts. per running foot for four years, from 1910 to 1914.

In consideration of the foregoing and in view of the terms under which other franchises are now being granted in more densely built up sections of New York City, we hereby request that your Honorable Board grant us a franchise for a term of fifteen (15) years, with the privilege of renewal on re-valuation of ten years, based on the following principal points:

Annual payment 1st 5 years: 2% of gross earnings with a minimum of \$500.
Annual payment 2nd 5 years: 3% of gross earnings with a minimum of \$600.
Annual payment 3rd 5 years: 3% of gross earnings with a minimum of \$700.
Payment for conduit per linear foot: 10c.
Payment for each manhole: \$2.
Maximum rates to be charged for refrigeration to be furnished under properly insulated conditions: 32 degrees Fahrenheit, freezing:
500 cu. ft. or less, 4c. per month.
500 to 1,500 cu. ft. 2c. per month.
1,500 to 2,500 cu. ft., 1½c. per month.
2,500 cu. ft. and over, 1c. per month.

The basis of percentage on gross earnings noted above is in line with the franchises that are at present being given by the City in the densely populated section of lower Manhattan, and the minimum payments specified are greater than are provided for in those franchises.

The rate of 10c. per linear foot is asked for as equitable on account of the long distances of pipe which are required in this district as compared with the densely built up section of lower Manhattan; for instance, on one section of our line 1,300 feet long, there are only four customers, and on another section 700 feet long, there is only one customer. Many of these boxes are very small and the franchise tax per running foot of piping is entirely out of proportion to the returns.

It will be necessary in the near future to replace the present pipe line system with a new brine pipe line of larger diameter, to overcome the friction consequent upon the long distances the pipe is carried; and a large amount will have to be expended for new machinery.

It is generally admitted that the pipe line refrigeration which we have supplied to Wallabout Market is a public necessity, and it has been the most important single factor in the success of this Market, and if the service can be continued, it will still further aid in the growth of a very important public institution.

As before stated the men connected with this reorganization are paying to the City the full amount agreed upon, and are making an endeavor to keep the Company a going concern in the belief that your Honorable Board will give relief from the burden of the onerous terms of the franchise which has resulted in such great losses to the Company.

Very truly yours,
KINGS COUNTY REFRIGERATING CO.
P. MAXWELL, SAYFORD,
Treasurer.

INVITATION TO CONTRACTORS

Part of the Broadway-Fourth Avenue Rapid Transit Railroad

The Public Service Commission for the First District (hereinafter called the "Commission"), acting for and on behalf of The City of New York (hereinafter called the "City"), invites proposals to construct Section No. 5 of Routes Nos. 4 & 36, a part of the Broadway-Fourth Avenue Rapid Transit Railroad.

The points within the City between which the said part is to run and the route or routes to be followed are briefly as follows:

Section No. 5. Beginning at a point under Central Park, in the Borough of Manhattan, about seventy-nine (79) feet east of the easterly building line of Seventh Avenue extended and about one hundred and thirty-seven (137) feet north of the south building line of West 59th Street, thence extending easterly under Central Park and West 59th Street to a point in West 59th Street about half way between Fifth Avenue and Sixth Avenue where the route separates into two branches, one branch extending easterly under West and East 59th Street to a point near Second Avenue, thence curving northerly under East 59th Street and Second Avenue to a point approximately on the easterly curb line of Second Avenue; the other branch extending northeasterly under West 59th Street, Central Park and Fifth Avenue and easterly under East 60th Street to a point near Second Avenue, thence curving southerly under East 60th Street and Second Avenue to a point approximately on the easterly curb line of Second Avenue.

The general plan of construction calls for a subsurface railroad having one and two tracks. The Contractor will not be required to provide or lay tracks, ties or ballast nor to do station finish work, or to construct that part of the route underneath the rapid transit subway now being built under Lexington Avenue.

The work under the contract will include the care and support of buildings, vaults, sewers, pipes, railroads and other surface, subsurface and overhead structures, the removal and restoring of the Sherman statue at the Plaza, the maintenance of traffic and the restoration of pavements and other surfaces.

The method of construction will be partly by tunneling and partly by trench excavation under cover, unless otherwise permitted by the Commission.

The Contractor will be required to prosecute the work of construction from working shafts located at the points specified in the contract.

Bidders must examine the form of contract, the specifications and the contract drawings, must visit the location of the work and inform themselves of the conditions along the line of the work and make their own estimates of the facilities and difficulties attending the execution of the work.

A fuller description of the work and other requirements, provisions, details and specifications are given in the form of contract and in the contract drawings therein referred to. Copies of the forms of contract, bond and contractor's proposal and of the contract drawings may be inspected and purchased at the office of the Commission, No. 154 Nassau Street, Borough of Manhattan, New York City. The forms of contract, bond and contractor's proposal and the contract drawings are to be deemed a part of this Invitation.

Partial payments to the Contractor will be made monthly as the work proceeds.

The Contractor must complete the work within twenty-nine (29) months from the delivery of the contract.

At the time of the delivery of the contract the Contractor must furnish security to the City by depositing a bond, cash or securities, in the sum of three hundred thousand dollars (\$300,000). As further security fifteen (15) per centum of the amounts certified from time to time to be due to the Contractor will be deducted until the amounts so deducted and retained shall equal ten (10) per centum of the total estimated amount to be paid to the Contractor under the contract. Thereafter there shall be so deducted and retained for such purpose ten (10) per centum of the amounts certified from time to time to be due to the Contractor.

Sealed bids or proposals will be received at the office of the Commission, No. 154 Nassau Street, Borough of Manhattan, City of New York, until the 24th day of July, 1914, at twelve fifteen (12.15) o'clock p. m., at which time, or at a later date to be fixed by the Commission, the proposals will be publicly opened.

Proposals must be in the form prescribed by the Commission.

A statement, based upon the estimate of the Chief Engineer of the Commission, of the quantities of the various classes of the work and of the nature and extent as near as practicable of the work is to be found in the schedule in the form of contractor's proposal. The quantities given in such schedule are approximate only, being given as a basis for the uniform comparison of bids, and no claim is to be made against the City on account of any excess or deficiency, absolute or relative, in the same except

as provided in the specifications and form of contract.

Every proposal must when submitted be enclosed in a sealed envelope endorsed "Proposal for Constructing Part of Rapid Transit Railroad—Routes Nos. 4 & 36, Section No. 5," and must be delivered to the Commission or its Secretary; and in the presence of the person submitting the proposal, it will be deposited in a sealed box in which all proposals will be deposited. No proposal will be received unless accompanied by a separate certified check for thirty thousand dollars (\$30,000), payable to the order of the Comptroller of the City and drawn upon a national or state bank or trust company satisfactory to the Commission and having its principal office in New York City. Such check must not be enclosed in the envelope containing the proposal.

The Unit Prices must not be improperly balanced, and any bid which the Commission considers detrimental to the City's interests may be rejected.

No proposal, after it shall have been deposited with the Commission, will be allowed to be withdrawn for any reason whatever.

The award of the contract will be made by the Commission as soon as practicable after the opening of the proposals.

Deposits made by bidders whose proposals are not accepted will be returned within three (3) days after the contract is executed and delivered and its provisions in respect of the bond or deposit are complied with, unless all proposals shall be rejected, in which event such deposits will be returned within three (3) days after such rejection. The deposit of the successful bidder will be returned when the contract is executed and delivered and its provisions in respect of the bond or deposit are complied with.

The right to reject any and all bids is reserved.

PUBLIC SERVICE COMMISSION FOR THE FIRST DISTRICT, By EDWARD E. McCALL, Chairman.

TRAVIS H. WHITNEY, Secretary. July 24, 1914.

INVITATION TO CONTRACTORS

FOR THE STATION FINISH WORK FOR PART OF THE BROADWAY-FOURTH AVENUE RAPID TRANSIT RAILROAD

The Public Service Commission for the First District (hereinafter called the "Commission") acting for and on behalf of The City of New York (hereinafter called the "City") invites proposals to construct station finish for the six stations on Sections Nos. 1 and 2 of Route No. 11-B, a part of the Broadway-Fourth Avenue Rapid Transit Railroad.

The location within the City at which the said work is to be performed is on Fourth Avenue in the Borough of Brooklyn, between Fortieth and Ninetieth Streets.

The Railroad for which the station finish is to be provided is now under construction. The Contractor shall begin actual work within thirty (30) days after the delivery of the contract on such stations and other parts of said Railroad as the Chief Engineer of the Commission may direct and shall begin actual work on any of the remaining stations or other parts of the Railroad within ten (10) days after notice and shall complete the entire work covered by the contract within six (6) months from the delivery of the contract, provided that an extension of time will be granted for completing the work at any station or other part of the Railroad upon which the Contractor shall not have been directed, within four (4) months after the delivery of the contract, to begin work, as provided in the contract.

The City has also entered into a contract for the installation of tracks in the Railroad and the work of installation will be in progress at the time that the station finish work is in progress. It will also be necessary for the New York Municipal Railway Corporation, its contractors or employees, to do work in the Railroad in connection with the equipment of the Railroad at the time that the station finish work is in progress. The Contractor must conduct his work so as not to impede or interfere with such other work, as provided in the contract.

The Railroad or a portion thereof may also be opened and operated for passenger traffic before the completion of the station finish work. In such event the Contractor must conduct his work so as to avoid interference with the operation of the Railroad and injury to passengers, as provided in the contract; and payment for all additional expense, loss, risk and damage due to such opening and operating for traffic will be made by increasing by the percentage stipulated in Item X in the Schedule contained in the Contractor's Proposal, the prices stipulated in said Schedule for the station finish work performed after the date of such opening and operating for passenger traffic at each station so opened and used for passenger traffic and at each portion of the Railroad between stations so opened and operated for passenger traffic, except as provided in the contract. Each bidder shall state in said Item X in the Schedule contained in the form of Contractor's Proposal the percentage required on such prices in payment for the additional expense, loss, risk and damage in the event of such opening and operating for traffic. For the purpose of comparing the bids only, and not for any other purpose, it will be assumed that the percentage so bid will be required to be paid on one-quarter (¼) of the estimated amount of the station finish work. If any bidder shall not desire any such increase in said prices on account of such opening and operating for traffic, he shall strike out said Item X in said Schedule contained in his Proposal.

Bidders must examine the form of contract and the specifications and the contract drawings and must visit the location of the work and inform themselves of the conditions and make their own estimates of the facilities and difficulties attending the execution of the work.

A fuller description of the work and other requirements, provisions, details and specifications are given in the form of contract and in the contract drawings therein referred to. Copies of the forms of contract, bond and contractor's proposal and of the contract drawings may be inspected and purchased at the office of the Commission, No. 154 Nassau Street, Borough of Manhattan, New York City. The forms of contract and the contract drawings and the form of bond and contractor's proposal are to be deemed a part of this Invitation.

Partial payments to the Contractor will be made as the work proceeds, as provided in the form of contract.

At the time of the delivery of the contract the Contractor must furnish security to the City by depositing a bond, cash or securities in the sum of fifty thousand dollars (\$50,000). As further security ten (10) per centum of the amounts certified from time to time to be due to the Contractor will be deducted.

Sealed bids or proposals will be received at the office of the Commission, No. 154 Nassau Street, Borough of Manhattan, New York City, until the 23d day of July, 1914, at twelve fifteen (12.15) o'clock p. m., at which time, or at a later date to be fixed by the Commission, the proposals will be publicly opened.

Proposals must be in the form prescribed by the Commission.

A statement based upon the estimate of the Chief Engineer of the Commission of the quantities of the various classes of the work and of the nature and extent as near as practicable of the work is to be found in the schedule in the form of contractor's proposal. The quantities given in such schedule are approximate only, being given as a basis for the uniform comparison of bids, and no claim is to be made against the City on account of any excess or deficiency, absolute or relative, in the same except

as provided in the specifications and form of contract.

Every proposal must when submitted be enclosed in a sealed envelope endorsed "Proposal for Constructing Part of Rapid Transit Railroad—Routes Nos. 4 & 36, Section No. 5," and must be delivered to the Commission or its Secretary; and in the presence of the person submitting the proposal, it will be deposited in a sealed box in which all proposals will be deposited. No proposal will be received unless accompanied by a separate certified check for thirty thousand dollars (\$30,000), payable to the order of the Comptroller of the City and drawn upon a national or state bank or trust company satisfactory to the Commission and having its principal office in New York City. Such check must not be enclosed in the envelope containing the proposal.

The Unit Prices must not be improperly balanced, and any bid which the Commission considers detrimental to the City's interests may be rejected.

No proposal, after it shall have been deposited with the Commission, will be allowed to be withdrawn for any reason whatever.

The award of the contract will be made by the Commission as soon as practicable after the opening of the proposals.

Deposits made by bidders whose proposals are not accepted will be returned within three (3) days after the contract is executed and delivered and its provisions in respect of the bond or deposit are complied with, unless all proposals shall be rejected, in which event such deposits will be returned within three (3) days after such rejection. The deposit of the successful bidder will be returned when the contract is executed and delivered and its provisions in respect of the bond or deposit are complied with.

The right to reject any and all bids is reserved.

NOTICE TO BIDDERS AT SALES OF OLD BUILDINGS, ETC.

TERMS AND CONDITIONS UNDER WHICH BUILDINGS, ETC., WILL BE SOLD FOR REMOVAL FROM CITY PROPERTY.

THE BUILDINGS AND APPURTENANCES thereto will be sold to the highest bidder, who must pay cash or certified check, drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of \$50, the sum of \$50 shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants.
