STATE INDUSTRIAL COMMISSION—DEPARTMENT OF LABOR.

Resolutions Adopted.

Whereas, the Bureau of Inspection has submitted to this Commission the following appeals by the appellants named herein from orders issued by the Division of Factory Inspection against the premises noted; and

Whereas, the said Bureau of Inspection has had a reinspection made of the premises in each case, and upon the reports submitted gives the conditions existing and recommends as follows:

1. Premises affected: Amsterdam, Kennedy ave.; appellant, Blood Knitting Co. 3—Skiylint at top of elevator shaft, three-fourths the area of shaft. There is an iron grating on top of elevator shaft on which machinery rests for operating elevator; to reach this machinery it is necessary to go up tower stairway and cross roof to elevator tower and enter by means of door. Machinery covers practically all of the grating surface; light is procured from the openings, which are protected by swinging firedoors and a 5-foot 6-inch lattice gate.

Recommendation: Waive order on condition that door leading from roof to tower where elevator is installed is provided with a window 3 feet long and as wide as the dimensions of the door will permit.

2. Premises affected: Amsterdam, Chuctanunda st.; appellant, A. V. Morris & Sons. 31—Approved additional means of exit from 5th floor storeroom. 5-story, nonfireproof; open lots; sprinkler; combustibles; no fire alarm. Occupancy, 17; above 1st floor, 17; above 2d floor, 17; above 3d floor, 17; exits, one interior and one exterior stairway. This is a small end of building 1, approximately 30 by 30 feet; 5th floor used for storage; two men occasionally go there; other floors have legal exits; wooden stairs at 4th floor heretofore accepted as per variation granted in October, 1917.

Recommendation: There being no regular occupancy, not more than two persons making an occasional visit to this floor, accept, while conditions and occupancy remain unchanged, a stationary ladder extending from window on 5th floor, said ladder to be erected outside of building and connect with balcony of wooden stairs leading from 4th floor to bridge giving access to adjoining building.

Premises affected: Hamburg; appellant, Hamburg Motor Sales Co. 1—Enclose sides of elevator shaft. 2—Self-closing gates at elevator. Elevator of carriage-hoist type, located about center of workroom; operated by electric power; seldom used. Material other than automobiles carried to 2d floor by means of this elevator; 2d floor used for dead storage; car used three or four times per month; when not in use car is left at 2d floor.

Recommendation: Accept enclosure 3½ feet high set back 12 inches from hoistway and a bar 3½ feet high set back 12 inches on sides used for loading; said enclosure and bar to be installed on 2d floor; dogs to be provided under 2d floor at corner of the car, so placed that the dog at each corner will project under the car platform when car is at 2d floor and manually released when car is to be operated; said dogs to be so constructed as to automatically extend under car platform when car returns to 2d floor.

4. Premises affected, Hamlin; appellant, New Hartford Canning Co. According to variation heretofore granted, the occupancy of the 2d floor was limited to ten persons. This is a request to employ 20 persons on the 2d floor during the months of September and October only of 1918. 2-story building erected since Oct. 1, 1913; no sprinkler; no combustibles; no fire alarm; occupancy, 37; exits, one interior unenclosed stairway and two exterior unenclosed

stairways constructed of wood; exits remote; no safe egress from roof.

Recommendation: That variation be granted permitting the employment of not to exceed twenty persons on the 2d floor of this building during the months of September and October, 1918.

5. Premises affected: Herkimer (Gem Department); appellant, Union Mills, Inc. Provide suitable and convenient dressing room for use of females on 2d, 3d and 4th floors. (Feb. 1, 1918.) On floors mentioned there is a cloak room, and on 1st floor is a hospital; fully equipped with bed, chairs and First Aid Kit. The room measures 6 feet 6 inches; is enclosed to ceiling and provided with door. The Inspector visited each floor and indicated space on 2d and 3d floors where suitable dressing room could be provided; no space on 4th floor without removing considerable machinery.

Recommendation: That rest room measuring 11 feet by 22 feet with window to outer air be provided where indicated on 3d floor for the 60 females employed thereon; that rest room measuring 9 feet by 18 feet with window to outer air be provided where indicated on 2d floor for the 63 females employed thereon; there is a stairway from 3d to 4th floors near where dressing room on 3d floor is to be located, and would recommend that order be waived in so far as it relates to 4th floor and the 40 females on 4th floor use rest room on 3d floor.

6. Premises affected: Lyndonville; appellant, The Lyndonville Canning Co., Inc. 5—Prohibit occupancy. 6—Additional exit. 7—Enclose exit stairs according to section 79-a-3. 8—Make roof of stairway enclosure of fireproof material 4 inches thick. 9—Self-closing fireproof doors at openings to stairway enclosure. 10—Stairs of incombustible material. (July 25, 1917.) Two-story non-fireproof building erected since Oct. 1, 1913; no sprinkler; combustibles; no fire alarm; occupancy, 15 to 50; above 1st floor, 2; exits 1 interior stairway not properly enclosed with fireproof partitions, and 1 exterior unenclosed wooden stairway. This matter was before the Industrial Commission on Sept. 26, 1916, and present interior stairway accepted on condition that a similar interior stairway be provided at a remote point, viz., the easterly end. In lieu of the interior stairway an exterior stairway from 2d floor to grade was provided. Business now under different management.

Recommendation: Inasmuch as there are but two persons on 2d floor, accept present exits on condition that occupancy be not increased. No. 5 to be automatically waived and Nos. 7, 8, 9 and 10 waived while occupancy remains unchanged.

7. Premises affected: Newark (DuBois Building); appellant, Newark Union Gazette. 1—Proper safety devices for elevator. (July 26, 1918.) Elevator suspended on two cables, each winding on separate drum overhead; two guide rails on one side of shaftway and car fitted with one guide shoe at each corner (4 in all), on one side of car only; hand-power elevator; limit of car 10 feet; used for freight only; two employees.

Recommendation: Waiver of orders while conditions and occupancy remain unchanged.

8. Premises affected: Mt. Morris; appellant, Winters & Prophet Canning Co. Additional exit. 1, 2- and 3-story building, wood construction; open lofts; no sprinkler; no combustibles; no fire alarm; occupancy, 152; above 1st floor, 33; above 2d floor, 2; exits, one interior wood-enclosed stairway at southeast corner of 3-story section extending from 1st to 3d floors; a cleared runway at northerly side of building extending from 3d floor level to adjoining 2-story building and thence by stairs to grade; opening at northeast corner on 2d floor leading to roof of 1-story building, from which an outside stairway extends to ground.

Recommendation: While conditions and occupancy remain unchanged, accept present exits, outside stairway to be kept free and clear of ice and snow at all times.

9. Premises affected: Newburgh, South Plank rd. and Wisner ave.; appellant, DuPont Fabrikoid Co. Re exits, section 79-a. 2-story building, constructed of wood with wood and concrete floors and roof of wood and corrugated iron; at southwest and northwest ends are interior unenclosed wooden stairs from 1st to 2d floors; automatic sprinkler provided; building located outside the fence line of the factory proper and is to be used by the female employees to change their clothing; at intervals from 50 to 250 women will use the building, but the entire number will not occupy the building at any one time; it is desired to erect an outside metal fire escape at the southeast corner as a means of exit.

Recommendation: Accept as a means of exit from this building an outside iron stairway leading from 2d floor to grade, with a nonfireproof door leading thereto, same to be constructed to open outwardly so as not to obstruct the stairway. said iron stairway to be located at the southeast corner of building; the interior unenclosed wooden stairways to be accepted as exits, conditioned on present character and use of the building.

12. Premises affected, Troy, 647-649 3d ave.; rear; appellant, Monarch Brush Co. 15. Premises affected: Watertown, Water st. (Main Building); appellant, J. B. Wise, Inc. 32—Self-closing fireproof doors at elevator shaft. 34—Self-closing fireproof doors at entrance to stairway tower. 35—Enclose stairways fireproof, eliminating glass. 36—Skylight in stairway enclosure. 37—Stairs to roof. 38—Four additional exits. 39—Prohibit occupancy. 40—Fire alarm signal system. 41—Fire drills. 2-story building erected since Oct. 1, 1913; on concrete construction (nonfireproof); open lofts; no sprinkler; no fire alarm; occupancy, 184; above 1st floor, 92; there will at times be as many as 150 above the 1st floor; exits, two interior stairways not properly enclosed with fireproof partitions, doors to stairway open outwardly; doors not self-closing; exits remote; no safe egress from roof; building measures 36 1/2 by 46 feet, with an "L" 172 feet 6 inches by 31 feet. Inspector Service took this matter up with J. B. Wise on July 5, 1915, and advised him to procure an Engineer. On August 24 the inspector took up the matter with Mr. Wise and his engineer named Staeger. Plans were drawn up but not submitted to the Department. Inspector went over the matter with Mr. Wise and the Engineer and it was agreed that Mr. Wise would meet his Engineer in Albany on Thursday of the week of Aug. 24, 1915, relative to filing plan. Neither stairway conforms to section 79-a; two elevator shafts; no skylight; no openings in space; no fireproof doors on 1st floor and two on 2d floor; gates provided to westerly elevator; no fireproofs; easterly elevator not in use, but has openings 1st and 2d floors; no fireproofs; no openings to outer air in either shaft. No. 34—2d floor has wooden door from watercloset to stairway; this should be fireproof; double fireproof doors provided at entrance to stairway towers, opening outwardly, but not self-closing. No. 35—Wall between factory proper and stairway is of concrete for a distance of 5 feet, balance of distance to roof is metal frames and wired glass. In several panels are windows with self-closing devices; some panels of glass were missing. The entire tower stairway, including time office, is surrounded by fire wall; all interior partitions in said tower on 1st floor are of wood with common glass; to make stairway a separate fireproof tower these partitions should be fireproofed; within the tower of the 2d floor is the draughting room. The wall to stairway enclosure is concrete, 14 inches thick and 5 feet high, with wired glass in metal frames for the remainder of the distance, which makes the wired glass a larger area than the concrete wall. The present construction, inasmuch as the building is but 2 stories high, would probably retard fire until the occupants of the 2d floor could escape. No. 36—No windows in exterior wall of tower on westerly side; tower on easterly side has window. Westerly stairway terminates directly to outer air, the only other opening being entrance to stairway at 2d floor. No. 37—Building isolated; no egress to adjoining roof. No. 38—Four exits not required now; only sufficient to have not more than 100 feet distant between points of exit. No. 39—Will be waived when work called for is done. No. 40 and No. 41 not required in 2-story building.

Recommendation: No. 32 to be complied with as issued. No. 34—Fireproof door to be provided on 2d floor, between toilet and stairway; also between draughting room and stairway, and all other fireproof doors at stairway entrances to be made self-closing; doors to be equipped also with fusible links. No. 35—Fireproof door between toilet and stairway, 2d floor, or brick up opening; all missing wired glass to be replaced in panels; all windows in wall between tower stairway and factory to be made non-openable. Enclosure around time office in tower to be made fireproof and provided with fireproof door at entrance and fireproof at 2d floor draughting room. When this work is completed the present partition with wired glass will be accepted. No. 36—Window or skylight to be provided in westerly tower; accept window in easterly tower. No. 37—No safe egress from roof; order waived by amendment to law. No. 38—Law amended; will accept a sufficient number of exits as per section 79-a-3, so that no point on a floor will be more than 100 feet from an exit. Orders No. 40 and No. 41 withdrawn.

And it appearing that there are practical difficulties and unnecessary hardship in complying with the strict provisions of law and of the Industrial Code on the premises noted herein, and that in granting the variations set forth in each case the spirit of the law and of the Code will be adhered to and public safety secured; and

It further appearing that each of the appellants herein has been advised that he would have an opportunity to appear and be heard at this time and place if he so desired, and such of the appellants who appeared having been heard by the Commission, therefore be it

Resolved, by the State Industrial Commission, That the variations noted herein be made, the same hereby are granted to the appellant in each case, affecting the premises noted, with the understanding that said variation is effective only so long as the conditions and occupancy remain as of this date.

Dated, Sept. 4, 1918.

The bidder shall also furnish with his bid a list of the locations at which he proposes to establish dumps, and a statement of the kind and character of the dumps.

The compensation to be paid to the contractor, which shall be in full for all work performed, shall be as follows for the various items:

For the removal and final disposition of ashes and street sweepings, at a price or sum per standard ash cart load (a) or in like proportion.

For the removal and final disposition of rubbish at a price or sum per standard paper and rubbish cart load (b) or in like proportion.

DAILEY AND DEWITT C. IVINS, COMPOSING THE FIRM OF DAILEY & IVINS, AND RENEWED FOR THE TWO-YEAR PERIOD.

The period of the work to be performed under this contract will be for three (3) months, commencing October 1, 1918.

The compensation to be paid to the contractor, which shall be in full for all the work performed, will be as follows for the various items:
For the removal and final disposition of ashes and street sweepings, at a price or sum per ash cartload (a) or in like proportion.

For the removal and final disposition of rubbish at a price or sum per paper and rubbish cartload (c) or in like proportion.

For the loading, removal and final disposition of the ashes from Blackwells and Randall's Islands, at a price or sum for three (3) months commencing October 1, 1918.

In the comparison to ascertain the lowest bid, the following method will be used: Multiply the price or sum per bid per cartload for ashes and street sweepings by the total cartloads as shown in the table for the last three months of the year 1917, in the "Information to Bidders"; multiply the price or sum per cartload for rubbish by the total of cartloads, as shown in the said table during the same period; to the sums of these two items add the prices or sums bid for the three months commencing October 1, 1918, for the ashes from Blackwells and Randall's Islands and for the ashes and rubbish from steam tugs and other vessel in the harbor.

Each bid or estimate must be accompanied by certified check on a solvent banking corporation in the City of New York, payable to the order of the Comptroller of the City of New York, for five (5) per centum of the estimated amount for which the work bid for is proposed to be performed during the three months commencing October 1, 1918, as computed by the method above shown, to ascertain the lowest bid. This check must not be enclosed, but must be handed in separately from the bid.

The Commissioner of Street Cleaning reserves the right to select from the bids or estimates that bid or estimate, the acceptance of which will, in his judgment, best secure the efficient performance of the work, or he may reject any or all of said bids or estimates.

A special deposit of Ten Thousand Dollars (\$10,000) in cash will be required to be made to the Comptroller of the City of New York or before the signing, sealing and delivery of the contract; this amount, or the unexpended portion thereof, to be returned to the contractor at the completion of the contract or other termination thereof.

NOTICE TO BIDDERS AT SALES OF OLD BUILDINGS, ETC.

TERMS AND CONDITIONS UNDER WHICH BUILDINGS, ETC., WILL BE SOLD FOR REMOVAL FROM CITY PROPERTY.

THE BUILDINGS AND APPURTENANCES thereto will be sold to the highest bidder, who must pay cash or certified check, drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of \$50, the sum of \$50 will be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchman or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstances of vacating the structures of their tenants will permit.

All the material of buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations, and the sidewalks and curb in front of said buildings, extending within the described area, shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from the demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street, and the openings of the main sewer in street shall be properly closed in compliance with the directions of the Bureau of Sewers in the Borough in which the buildings are situated, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all openings in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any part thereof, within thirty days

from the day of possession will work forfeiture of ownership of such buildings, appurtenances or portions as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the date of possession, and the successful bidder will provide and furnish all materials or labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beam holes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs and adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the Contractor.

"No buildings, parts of buildings, fixtures or machinery sold for removal under these terms and conditions shall in any case be relocated or re-erected within the lines of any proposed street or other public improvement, and if any such buildings, parts of buildings, fixtures or machinery, etc., shall be relocated or re-erected within the lines of any proposed street or other public improvement, title thereto shall thereupon become vested in The City of New York and a resale at public or private sale may be made in the same manner as if no prior sale thereof had been made."

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids, and be it further

Resolved, That, while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.

The person or persons making a bid for any service, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the bids will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid shall contain the name and place of residence of the person making the same, and the names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also that it is made without any connection with any other person making a bid for the same purpose, and is in all respects fair and without collusion or fraud and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer or employee of The City of New York is, shall be, or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid must be verified by the oath, in writing, of the party or parties making the bid that the several matters stated therein are in all respects true.

No bid will be considered unless, as a condition precedent to the reception or consideration of such bid, it be accompanied by a certified check upon one of the State or National banks or trust companies of The City of New York, or a check of such bank or trust company signed by a duly authorized officer thereof, drawn to the order of the Comptroller, or money or corporate stock or certificates of indebtedness of any nature issued by The City of New York, which the Comptroller shall approve as of equal value with the security required in the advertisement to the amount of not less than three nor more than five percentum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

All bids for supplies must be submitted in duplicate.

The certified check or money should not be inclosed in the envelope containing the bid, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid.

For particulars as to the quantity or quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter as surety or otherwise upon any obligation of the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids in addition to inserting the same in figures. Bidders are requested to make their bids upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done or the supplies are to be furnished. Plans and drawings of construction work may be seen there.
