standing that if the necessity should continue, this Board will apply for a similar extra appropriation at the end of the ensuing month, or for such a diminished sum as may seem requisite.

Whereas, The use of ashes, garbage, and street refuse, in their present condition, for filling sunken lots in the upper part of the city, is dangerous to life and detrimental to health; and

Whereas, The Board of Police has requested this Board to disinfect this material at the dumps before it is used for filling; and

Whereas, This Board recognizes the sanitary importance of such disinfection, and will gladly undertake the work, but has not the necessary means at its disposal; therefore,

Resolved, That the Board of Estimate and Apportionment be and is hereby respectfully requested to transfer from the unexpended balance of the Police Department, for the year 1874, to the fund for disinfection of the Health Department for the year 1875, the sum of five thousand dollars—the Board of Police having consented to such transfer.

That the attorney be directed to commence actions in the name of this Board against the following-named persons, etc., for violation of the Sanitary Code:

J. F. Jaeger, No. 46 Sullivan street.
Dr. G. Treskatis, No. 81 East Fourth street.
Third Avenue Railroad Co., car No. 180.
New York and Harlem Railroad Co. (city line), car No. 19.
New York and Harlem Railroad Co. (city line), car No. 37.

That the Sanitary Superintendent be directed to cause the disinfection of the ashes, garbage, and street sweepings now on the scows of the Street Cleaning Department, at the foot of Ninety-sixth street, East river; the contractors, Messrs. Mills & Ambrose, to provide the material.

That the attention of the several city railroad companies be called to section 167 of the Sanitary Code, and that the officers of said companies be requested to order the enforcement of the same upon their cars by the conductors.

That the Sanitary Superintendent be directed to cause the privy-vaults in the line of the Lexington avenue extension, to be emptied of their contents and properly filled with earth, at an expense not to exceed \$200.

Whereas, The number of patients with small-pox treated at the Riverside Hospital is so large

that the Resident Physician is unable to secure proper histories of the cases; and

Whereas, It is desirable to have an assistant in case of sickness of the Resident Physician; therefore

Resolved, That an Assistant Physician be appointed at the Riverside Hospital, at a salary of \$50 per month and board; that he reside at the Hospital, and that he assist the Resident Physician and keep an accurate record of the medical history of the patients treated there.

Whereas, A certain amount of prejudice exists against vaccination, and, through neglect, a number of children are unvaccinated; and

Whereas, Many of the poorer classes need to be informed of the necessity of revaccination particularly in times of epidemics of small-pox; therefore

Resolved, That a tract upon vaccination be published by this Board for distribution among the tenement-house population of the city; and that one copy of this tract in German and one in English be placed in a conspicuous place in each tenement house in this city. This tract shall contain such statistical information as shall be best adapted to the end in view; briefly and explicitly state the reasons for vaccination, the slight liability to harm that follows vaccination, and the statement that the Board of Health will perform gratuitous vaccination from 9 A. M. to 4 P. M.

That a copy of the report of the Sanitary Superintendent, in regard to the plots or parcels of land lying between and bounded by Seventh and Tenth avenues, One Hundred and Fortieth street and Harlem river, within the corporate limits of the City and County of New York, be placed on file in this Department, and that said Department be respectfully requested and directed to cause the said plots or parcels to be drained by other means than by sewers, under and by virtue of the provisions of chapter 566, of the Laws of 1866.

Resolved, 1st. That it is advisable to increase the number of Vaccinators by twenty, at least for the present month.

2d. To attempt the thorough vaccination of the people in the districts where the disease is most prevalent.

3d. To prepare a tract for distribution among the tenement-house population, stating the advantages of vaccination and revaccination, the necessity of their performance, and that the Board of Health will do it gratuitously.

4th. That a short tract be sent to the physicians of the city, notifying them of the presence of the disease, its intensity, and the localities where it is prevailing, requesting them, in their private practice, to vaccinate all children who need it.

Resolved, That in all cases where insufficient excuses are made for declining vaccination, the Vaccinator take the name and address of the people and of the family physician; and the Board notify the physician of the fact.

Resolved, That whenever any person sick with small pox is removed from any house, it be the duty of those removing such person to see that the halls are cleared of people, the doors shut, and that the people do not come within ten feet of the person removed. That, if unable to carry out this provision, they call upon the police to assist.

Resolved, That it be the duty of the Inspector sent to investigate any case of small-pox reported for the first time to ascertain the place or places at which the members of the family work, or to which they go, and that a Vaccinator be sent to these places and offer vaccination to the people there living or employed.

Resolved, That the Vaccinating office be open in the evening, and that one of the Vaccinators be detailed each day for this work.

Resolved, That the Vaccinating office be open on Sundays for the present, and that one of the Vaccinators be detailed each week for the performance of this work.

Resolved, That the route for driving cattle (not including sheep) from the cattle-yards on the North river to the slaughter houses, near the East river, be through Eleventh avenue to Sixty-third street; through Sixty-third street to Eighth avenue; Eighth avenue to transverse road through Central Park, at Sixty-fifth street, to Madison avenue; Madison avenue to Sixty-third street; Sixty-third street to First avenue; First avenue to slaughter houses, this regulation to continue in effect only for such reasonable time as will enable those engaged in the business of slaughtering near the East river to arrange for the transportation of their cattle by water.

That a permit be granted to Rafferty & Williams to render fat at the foot of East Forty-third and Forty-fourth streets.

That the Sanitary Superintendent be directed to cause the drainage-stream in the Twenty-third Ward, known as Mill Brook, to be cleaned and disinfected at a cost not to exceed \$300.

That the Sanitary Superintendent be authorized to grant a permit to Mills & Ambrose to fill lots on Harlem Flats under such sanitary regulations and restrictions as he may think proper and necessary in the premises.

That the application of Chas. T. White to correct a clerical error in the Death Register, in case of Thos. H. Boulton, be granted.

From Standing Committees.

The Sanitary Committee presented rules for the government of the Reception Hospital, which was adopted, as follows:
