MESSAGES FROM HIS HONOR THE MAYOR.

The President laid before the Board the following message from his Honor the Mayor:

No. 826.

City of New York,
Office of the Mayor,
June 2, 1908.

To the Honorable the Board of Aldermen of The City of New York:

Gentlemen—I respectfully urge upon your Honorable Body the importance of favorable consideration of the several applications of the Department of Water Supply, Gas and Electricity now before you, and the necessity for action thereon before adjournment is taken for the summer vacation.

Several of the items referred to herein deal with out-of-door work which must be undertaken soon if it is to be begun at all this year. The money asked for will give work to hundreds of unskilled laborers who are so much in need of employment, and to all divisions of the building trades in localities where operations are suspended because of lack of water supply. It will be apparent by an examination of the items that unless they are allowed the Boroughs of Brooklyn and Queens will be denied money for the ordinary yearly development of the water system, when, as a matter of right and of good finance, the City should do even more to keep pace with the growth and expansion in these Boroughs. The actual safety of the water system of all Brooklyn and of all parts of Manhattan and The Bronx that are sixty feet above tide water is threatened by failure to provide funds for repairs to pumping stations. Statements of the economies to be served and the revenue increases to be gained by passing the several applications have been presented to your Board and its committees. Not only as a matter of financial gain—the Water Department turned into the City Treasury nearly \$11,000,000 last year—but as a matter of safety to public health and protection to property from fire hazard, these requests should have your serious and immediate consideration. I refer to the following items:

The issue of \$170,000 of Corporate Stock to provide a delivery main in Trotting Course lane and Myrtle avenue to connect with the pumping station now in course of construction, certified to the Board of Aldermen by the Board of Estimate and Apportionment on December 6, 1907. By the time this main can be laid the Department will be prepared to deliver five to ten million gallons of water a day directly into the distribution system of Brooklyn, a quantity having a money value to the City of \$500 to \$1,000 a day.

The issue of \$100,000 Corporate Stock for the extension of water mains in the Borough of Queens, submitted by the Board of Estimate and Apportionment on April 24. These mains are to be laid in streets and avenues already improved with dwellings and business buildings. Delay will retard development and work an injustice to citizens who have a right to expect such accommodation from the City.

The issue of \$2,500,000 Corporate Stock for the improvement of the water supply of the Borough of Brooklyn, certified by the Board of Estimate and Apportionment on March 27. Such stock issues are customary in order to continue a well-defined plan for water main extensions and the gridironing of the present system, a process which has already produced a reduction of fire insurance rates in that Borough. Without the appropriation no extensions can be made, and the City will be deprived of the revenue accruing therefrom.

The expenditure of \$46,500 without the formality of advertising for competitive bids for the repair of engines, boilers and appurtenances of pumping stations, submitted to the Board on January 30. The custom of the Department is to issue open orders for such repairs to the manufacturers of the engines. It is emergency work in the fullest sense. Of late, I am advised, the pump makers have been reluctant to accept such orders, as their bills have been held up for lack of funds. There are thirty-six pumping stations to be cared for, so the allowance for each is small, while the importance of each is incomparably greater.

The application of March 21 for Revenue Bonds in the sum of \$2,367, to enable the Department to pay the prevailing rate of wages to its Machinists.

The issue of \$80,000 of Revenue Bonds to provide for the purchase of water for Queens, and the setting of additional hydrants for fire protection in the newly built-up sections of that Borough.

The expenditure of \$65,000, without advertising, to reinforce the foundations of the Ridgewood Pumping Station, the character of the soil necessitating a change in the original plans for the new station. The new station is to handle 90 per cent. of the Brooklyn water supply, and the Engineers advise that it will be unsafe to construct the building without strengthening the foundations.

The establishment of the position of Electrical Engineer in charge of the high-pressure pumping stations. This new and highly important place is made necessary by the completion of the system in Brooklyn and Manhattan which is shortly to be put in service.

The establishment of a new scale of water rents and charges, submitted February 20. Because of disputes arising as to the legality of certain charges for unmetered water, it is essential that your Honorable Board should make some enactment as provided for by the Charter.

The issue of \$30,000 Revenue Bonds to pay for lighting the Brooklyn Bridge. Under the arrangement made by the Department with a lighting company the City saves over \$20,000 a year. Unless money is provided the City must return to the old system, paying the Brooklyn Rapid Transit Company \$100 a day for steam, and bearing also the expense of operating the Bridge Department's power plant which, under the new arrangement, can be shut down.

I am confident that your Honorable Body will recognize the relation of these requests to the efficiency of the Department of Water Supply, Gas and Electricity.

Respectfully,

GEO. B. McCLELLAN, Mayor.

Which was referred to the Committee on Finance.

The President laid before the Board the following message from his Honor the Mayor:

No. 784.

City of New York—Office of the Mayor,
June 1, 1908.

To the Honorable, the Board of Aldermen of The City of New York:

Gentlemen—I return herewith, with my disapproval, a resolution adopted by your Honorable Board on May 19, 1908, entitled:

"Resolution permitting J. A. Schatz to maintain a watering trough in the Borough of Brooklyn."

The passage of a resolution of this character is clearly forbidden by section 50 of the Charter.

Respectfully,

GEO. B. McCLELLAN, Mayor.

Resolved, That permission be and the same is hereby given to J. A. Schatz to place a watering trough near the curb in front of his premises, No. 194 Irving avenue on the northwest corner of Himrod street, Borough of Brooklyn, the work to be done and the water supplied at his own expense, under the direction of the President of the Borough of Brooklyn, such permission to continue only during the pleasure of the Board of Aldermen.

Which was laid over, ordered to be printed in the minutes and published in full in the CITY RECORD.

PETITIONS AND COMMUNICATIONS.

No. 828.

State of New York—Public Service Commission for the First District,
Tribune Building, No. 154 Nassau Street,
New York, May 28, 1908.

Hon. PATRICK F. McGOWAN, President, Board of Aldermen, City Hall, New York:

Dear Sir—In reply to the resolution adopted by the Board of Aldermen, requesting the Public Service Commission to order the New York City Railway Company to refrain from storing cars on the Lexington avenue line, from One Hundred and Sixteenth street to One Hundred and Twenty-ninth street, I beg to state that the matter has been considered by the Commission.

Investigation has developed the following facts. Within the past year or so the New York City Railway Company has lost, by fire, a number of large car barns, which has greatly decreased the capacity of their barns for storing cars. Certain of them are now being rebuilt, and because of this reconstruction it is difficult to use any large portion of the sites for storage purposes. It has become necessary, therefore, to adopt other means and the Commission has made several suggestions, particularly in the direction of the utilization of vacant blocks. But owing to the fact that the surface cars are operated by underground conduit, a large amount of construction work would be necessary for the utilization of such vacant lots as storage yards. If the cars were overhead trolleys, this would be a simple and easy matter, but as these cars must be used every day, the vacant lots could not be adequately equipped to handle all of the cars very much before the barns themselves will have been reconstructed.

Furthermore, the Commission has directed the receivers to overhaul and repair every one of their cars, amounting to upwards of 2,000 in all. This work has required the employment of a large number of men and a great increase in their shop facilities for repairing and painting the car bodies and the overhauling of the electrical equipments. Much of the space in the car houses which ordinarily might be used for storage has been converted, therefore, into shops.

The Commission has also ordered the companies to operate a larger number of cars than they have been running, which has necessitated the storing of the cars during the night where they can be run out when needed in the morning, and makes it impossible to remove the cars any great distance from the lines upon which they are being used.

The total result of these facts is that it has been necessary for the company to store many of their cars in the streets. We have had this in mind for some time and would gladly have issued an order requiring the adoption of some other method, but it seems impossible to repair the cars as rapidly as the public desires, to operate as many cars as we think should be operated to meet the demands of the public—and the number is being increased from week to week—without temporarily storing cars in streets. The Commission feels positive that when the Board of Aldermen understands the conditions, they will agree with the Commission that it is preferable, temporarily, to undergo the inconvenience due to storing of cars in the streets rather than to interfere with the work of overhauling the cars and to make necessary the operation of a less number from day to day. I wish to assure you that as soon as it is possible to order the companies to cease using the streets for storage purposes, this will be done.

Very respectfully,

W. R. WILLCOX, Chairman.

Which was ordered on file.

The Honorable Board of Aldermen:

Dear Gentlemen—Last Saturday I saw an article in the "New York Times," that the Woman's Democratic Club had sent to you a petition asking you to change the name of Seventh avenue, above the park, to Jefferson boulevard. You may remember that I have been pleading for a number of years, that this beautiful part of Seventh avenue shall be called for our distinguished President, "Roosevelt Parkway" (from One Hundred and Tenth street to the speedway); and I earnestly trust that you will consider it to be most appropriate to name the avenue for the President of our Country, especially as he was born in this City and State.

COMMUNICATIONS FROM CITY, COUNTY AND BOROUGH OFFICERS.

The President laid before the Board the following communication from the President, Borough of Manhattan:

No. 831.

City of New York,
Office of the President of the Borough of Manhattan, City Hall, }
May 25, 1908. }

Hon. PATRICK F. McGOWAN, President, Board of Aldermen:

Dear Sir—There is transmitted herewith for consideration of your honorable Board, a request for an issue of Special Revenue Bonds of \$25,000 to replenish the appropriation for Maintenance of Asphalt Pavements, Including Fire Burns, 1908, to enable me to enter into a contract to make urgent and needed repairs to asphalt block pavements for the balance of this year. The contract which was made for this work in 1907 has expired, and the amount set apart for maintenance of sheet asphalt, asphalt block pavements, and fire burn damages is totally inadequate to do the work which is necessary.

The contract for repaving and maintaining sheet asphalt pavements which was recently entered into is estimated at \$228,102. This is approximately \$80,000 in excess of last year's contract for similar work owing to the increase in cost from 83 cents to \$1.48 per square yard.

The balance of this appropriation, a portion of which has already been expended for damages by fire burns and unknown causes, will be required for the remaining months of this year, thereby leaving no funds available for repairs to asphalt block pavements.

Yours very truly,

JOHN F. AHEARN,
President, Borough of Manhattan.

Resolved, That, pursuant to the provisions of subdivision 8, section 188 of the Greater New York Charter, the Board of Estimate and Apportionment is hereby requested to authorize the Comptroller to issue Special Revenue Bonds to the amount of twenty-five thousand dollars (\$25,000) for the purpose of replenishing the appropriation, President of the Borough of Manhattan, Maintenance of Asphalt Pavements, Including Fire Burns, 1908.

Which was referred to the Committee on Finance.

The President laid before the Board the following communication from the Fire Commissioner:

No. 832.

Headquarters Fire Department, City of New York, }
Nos. 157 and 159 East Sixty-seventh Street, }
Borough of Manhattan, May 25, 1908. }

Hon. PATRICK F. McGOWAN, President, Board of Aldermen:

Sir—I have the honor to make application to the Board of Aldermen to adopt a resolution requesting the Board of Estimate and Apportionment to authorize the Comptroller to issue Special Revenue Bonds to the amount of \$255,400, the proceeds of the bonds to be used for the purchase of supplies for and the maintenance of this Department for the remainder of the current year, as follows:

Borough of Manhattan	\$118,000 00
Borough of The Bronx	32,400 00
Borough of Brooklyn	84,000 00
Borough of Queens	21,000 00

Specifically the items for which the money is required are as follows:

Apparatus and Repairs To—	
Borough of Manhattan	\$13,600 00
Borough of The Bronx	4,000 00
Borough of Brooklyn	10,000 00
Borough of Queens	2,000 00

—For replacing worn out boilers of steam fire engines and for repairs to and renewing parts of engines, hose wagons, trucks, wheels, rubber tires, ladders, implements, etc.

Contingencies—	
Borough of Manhattan	\$1,500 00

—For the payment of sundry expenses and for which a sufficient sum was not appropriated.

Forage—	
Borough of Brooklyn	\$18,000 00
Borough of Queens	6,000 00

—The organization of new companies and increased price of forage necessitate the additional amount asked for.

Fuel—	
Borough of Manhattan	\$12,000 00
Borough of The Bronx	500 00

—To provide coal and wood for two new fire boats to be placed in service about June 1, 1908; one fire boat to be placed in service on September 1, 1908; two new companies to be organized in The Bronx, and for about 1,000 tons of coal required for companies in the Borough of Manhattan.

General Supplies—	
Borough of Manhattan	\$12,000 00
Borough of The Bronx	4,000 00
Borough of Brooklyn	24,000 00
Borough of Queens	10,000 00

—For the equipment of the quarters of new companies with furniture, bedsteads, mattresses, pillows, sheets, blankets, etc., and renewing old and worn out furniture.

In addition to the above articles we require in the several Boroughs, Croton, thaw and hydrant pump hose, horse blankets, horse sheets, reducers, nozzles, shovels, hammers, manure and wood forks, signal and national flags, lap robes, rubber pole mats, scoop and flat shovels, and numerous other articles carried under the term "General Supplies," which we were unable to purchase this year on account of the insufficient appropriation.

Horseshoeing—	
Borough of Manhattan	\$7,500 00

—This amount will be required to pay for shoeing the horses, and for the hire of horses for the remainder of the year:

Hose Shop Supplies—	
Borough of Manhattan	\$400 00
Borough of The Bronx	300 00

—These supplies are required for repairs to hose, couplings, washers, etc. In 1906 we expended for these supplies for the Boroughs of Manhattan, The Bronx and Richmond \$1,417.39. In 1907 we could only expend \$100 from the appropriation. The amount asked for is necessary to purchase and keep on hand a sufficient quantity of the supplies for the repair of hose.

Harness—	
Borough of The Bronx	\$600 00

—For new companies, and to renew worn out harness.

Maintenance of Fire Boats—	
Borough of Manhattan	\$4,000 00

—Necessary for repairs required from time to time to keep the boats in good condition.

Repairs to Buildings—	
Borough of Manhattan	\$57,000 00
Borough of The Bronx	18,000 00
Borough of Brooklyn	22,000 00
Borough of Queens	3,000 00

—Nearly all of the buildings of the Department are in need of repairs more or less extensive, and repainting, which cannot be done with the present appropriation. The amount asked is based upon estimates prepared by the Superintendent of Buildings of the Department and is necessary to place the houses in fit and sanitary condition.

Telegraph Supplies, etc.—	
Borough of Manhattan	\$10,000 00
Borough of The Bronx	5,000 00
Borough of Brooklyn	10,000 00

—Required for additional new instruments, boxes, posts and repairs to same, wire for extensions, pipe for subsidiaries, etc., etc.

Attached hereto are comparative statements of the appropriations and expenditures for the years 1906-1907, and the appropriation and the amounts allotted for the year 1908; and attention is called to the fact that, while the appropriation for 1907 was \$491,778.81 for supplies of the kinds noted in the statement for the Boroughs of Manhattan, The Bronx and Richmond, an amount that we were forced to get along with to the detriment of the Department, we were allowed for the year 1908 but \$464,200, or \$27,578.81 less than for 1907.

In the Boroughs of Brooklyn and Queens, in 1907, there was expended \$282,116.61. Although the paid system was extended in the Borough of Queens in July, 1907, and ten new companies organized, there was appropriated in the Budget for 1908, for these two Boroughs, a total of \$287,000, or only \$4,883.39 more than was expended in 1907.

I enclose draft of resolution for the purpose, and urge the favorable action of your Honorable Board as early as practicable.

Respectfully,

NICHOLAS J. HAYES, Fire Commissioner.

Resolved, That, pursuant to the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Aldermen hereby requests the Board of Estimate and Apportionment to authorize the Comptroller to issue Special Revenue Bonds in an amount not exceeding \$255,400 to provide for deficiencies in the appropriation to the Fire Department for the year 1908, entitled "Apparatus and Supplies," as follows:

The President laid before the Board the following communication from the Department of Water Supply, Gas and Electricity:

No. 833.
Department of Water Supply, Gas and Electricity,
Commissioner's Office, Nos. 13 to 21 Park Row,
City of New York, May 25, 1908.

Hon. PATRICK F. McGOWAN, President, Board of Aldermen, City Hall, New York:

Dear Sir—Up to the early part of this year the arrangement for lighting the Brooklyn Bridge was that the Bridge Department receive steam from the Brooklyn Rapid Transit Company, by which they operated an electric plant of their own for lighting the bridge. The steam so supplied originally was furnished to the Bridge Department in return for certain services or privileges granted the Brooklyn Rapid Transit Company. On account of some changes in the terminals this arrangement had to be abrogated.

The Brooklyn Rapid Transit Company offered to furnish this steam at the time the old arrangement terminated for one hundred dollars (\$100) a day, or thirty-six thousand five hundred dollars (\$36,500) a year.

We can obtain this current from the New York Edison Company, under a wholesale contract which was put in effect this year, for between twenty and thirty thousand dollars a year. When you figure in the cost of operating the electric plant by the Bridge Department this will be a saving to the City of from twelve to fifteen thousand dollars a year.

Unfortunately the Bridge Department had let the matter go until the last possible moment, and the Brooklyn Rapid Transit Company stated that they would cut off the supply on a certain date. Commissioner Stevenson then appealed to this Department to help him out, and after a conference we decided we could do so temporarily.

The lighting of the bridge, therefore, was taken over by this Department under its contract with the Edison Company, and the Bridge Department's plant, in consequence, shut down.

On doing this we immediately made an application to the Board of Aldermen for an issue of thirty thousand dollars (\$30,000) Revenue Bonds to pay for this service, it not having been provided for in our appropriations in the Budget for 1908. The Bridge Department are not allowed to transfer to us from their funds, for the reason that the maintenance of the bridge is taken care of out of the earnings, and they are not allowed to transfer any of the funds so received.

Our appropriations are quite close this year, and we have practically no margin after the necessary increase in lighting is provided for. In consequence the Chief Engineer of Light and Power has advised me that unless we can obtain this appropriation of thirty thousand dollars (\$30,000) we shall be obliged to certify to the Bridge Department that we are no longer able to carry the burden of the bridge this year.

The resolution in regard to this matter is still in the Finance Committee of the Board of Aldermen, as it had not been reported out up to the last advice we received last week.

Will you kindly use what efforts you can in order to get this issue of Revenue Bonds through for us, as the arrangement now existing is really saving the City a considerable amount of money, and this issue of Revenue Bonds, instead of increasing the City's expenses, is decreasing them. The request for the issue is, in my opinion, just and proper.

As I have stated, however, if we cannot obtain the issue of bonds we must relieve ourselves of the burden of the bridge, as otherwise I seriously doubt that our appropriations will be sufficient for the balance of the year.

I am, respectfully yours,

JOHN H. O'BRIEN,

Commissioner, Department of Water Supply, Gas and Electricity.

The President laid before the Board the following communication from the Commissioner of Street Cleaning:

No. 834.
Department of Street Cleaning of The City of New York,
Nos. 13 to 21 Park Row, New York,
May 19, 1908.

Hon. PATRICK F. McGOWAN, President, Board of Aldermen, City of New York:

Sir—On February 25, 1908, application was made by me to the Board of Estimate and Apportionment for the necessary appropriation to take over to this Department the work of cleaning certain streets in the Borough of Manhattan, which had, up to that time, been cleaned by the Department of Parks, which streets are as follows:

West Seventy-second Street Parkway, west of Central Park.

Cathedral parkway (One Hundred and Tenth street), Fifth avenue to Riverside drive.

Property road (Riverside drive), Grant's Tomb to One Hundred and Twenty-ninth street.

Ninety-sixth street, from West End avenue to Riverside drive.

Plazas in front of Central Park, at One Hundred and Tenth street and Eighth avenue, One Hundred and Tenth street and Fifth avenue, Fifty-ninth street and Eighth avenue and Fifty-ninth street and Fifth avenue.

Ninety-seventh street transverse road under Central Park.

Eighty-sixth street transverse road under Central Park.

Seventy-ninth street transverse road under Central Park.

Eighty-sixth street transverse road under Central Park.

In addition to the above, Seventh avenue, from One Hundred and Tenth street to One Hundred and Fifty-third street, which is now being paved and is soon to be turned over to the Department of Street Cleaning.

The Board of Estimate and Apportionment referred the above application to the Comptroller of the City, and he procured a report from the Bureau of Municipal Investigation and Statistics relative to the request, which report he transmitted on April 1, 1908, to the Board of Estimate and Apportionment, together with his own report, setting forth that an allowance of \$24,500 is required by the Department of Street Cleaning for the care of the Park streets in question, in addition to appropriations made for the said Department in the Budget for 1908, and stating that the funds of the Department of Parks are not sufficient to permit of any transfer from the same to the Department of Street Cleaning, and he therefore recommended that the matter be referred back to the Commissioner of Street Cleaning, with the suggestion that application be made to the Board of Aldermen for the adoption of the necessary resolution to provide for an issue of Special Revenue Bonds to the required amount.

Acting upon the aforesaid report the Honorable Board of Estimate and Apportionment referred the Comptroller's report to me for consideration and action.

In pursuance of the above direction I respectfully apply to the Honorable Board of Aldermen for an issue of Special Revenue Bonds in the amount of twenty-four thousand five hundred dollars (\$24,500), as above recommended, to cover the expense of cleaning the streets in question.

I enclose a form of resolution for adoption by your Board.

Respectfully,

FOSTER CROWELL, Commissioner

Resolved, That, pursuant to subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment is hereby requested to authorize the Comptroller to issue Special Revenue Bonds to the amount of twenty-four thousand five hundred dollars (\$24,500), the proceeds thereof to be applied by the Commissioner of Street Cleaning for cleaning certain streets or portions of streets in the Borough of Manhattan, which until this year had been cleaned by the Department of

Parks, and for which, consequently, no appropriation for the Department of Street Cleaning was made in the Budget for 1908.

Hon. P. J. SCULLY, City Clerk:

Sir—Referring to the resolution adopted by the Board of Aldermen on May 5, 1908, requesting the Fire Commissioner to have installed in the Boroughs of Brooklyn and The Bronx lamps with ruby lanterns, to distinguish fire alarm signal boxes, I am directed by Commissioner Hayes to forward herewith copy of report thereon submitted by Mr. Andrew P. Martin, Chief Inspector of Fire Alarm Telegraph Bureau, for your information.

Respectfully,
WILLIAM A. LARNEY, Secretary.

Fire Department, City of New York, }
New York, May 27, 1908.

Hon. NICHOLAS J. HAYES, Commissioner:

Sir—I have the honor to return herewith resolution of the Board of Aldermen, relative to the placing of red lamps on fire alarm signal boxes in the Boroughs of Brooklyn and The Bronx, with report as follows:

The placing of the ruby lanterns to distinguish fire alarm signal stations in the Borough of Manhattan does not come under the jurisdiction of the Fire Department, but under the jurisdiction of the Department of Water Supply, Gas and Electricity. The alarm boxes in this Borough being mostly underground, the same are placed in lamp-posts, and the ruby lantern also placed on the same post. In the Boroughs of Brooklyn and The Bronx, the boxes are, for the most part, overhead, and are placed on telegraph poles, and the same method of distinguishing fire alarm stations by the placing of ruby lanterns could not be carried out, but I would suggest that the Department of Water Supply, Gas and Electricity, in neighborhoods where gas is used for lighting purposes, have the nearest lamp-post to the fire alarm box supplied with a lantern with a red top, and where electricity is used for lighting purposes, a red globe placed on the nearest light to the fire alarm box, to distinguish the location of same.

Very respectfully,
(Signed) ANDREW P. MARTIN, Chief Inspector.

Hon. P. J. SCULLY, City Clerk, and Clerk of Board of Aldermen:

Dear Sir—Enclosed you will find copy of report of the Engineer of Street Openings in relation to resolution adopted by the Board of Aldermen changing the name of the portion of Edgecombe avenue to Colonial parkway. The Engineer states that the resolution is indefinite in that no special ending of the parkway is designated. Under the provisions of the Charter no action can be taken on the matter until December first. It is accordingly referred to you for whatever action you deem necessary after that date.

Yours very truly,
BERNARD DOWNING,
Secretary, Borough of Manhattan.

Office of President, Borough of Manhattan, }
Bureau of Street Openings, }
New York, May 16, 1908.

Mr. JOHN CLOUGHEN, Commissioner of Public Works:

Sir—The resolution of the Board of Aldermen adopted April 28, 1908, and approved by the Mayor, May 8, 1908, viz.:

“Resolved, That the name of that part of Edgecombe avenue commencing at the southerly end of Colonial Park, at One Hundred and Forty-fifth street and running north past the Jumel Mansion, the Old Fort, and other Colonial points of interest, in the Borough of Manhattan, be and the same is hereby changed to and shall hereafter be known and designated as Colonial parkway, and the President of the Borough of Manhattan is hereby authorized and requested to make the necessary changes on the maps and records of The City of New York in accordance therewith.”

The resolution is returned as being imperfect in its description, for no special ending of the parkway is designated. Edgecombe avenue ends at One Hundred and Fifty-fifth street. Edgecombe road commences at One Hundred and Fifty-fifth street and extends to One Hundred and Seventieth street, at a width of 80 feet; thence on the easterly side of Amsterdam avenue or Tenth avenue, at a width of 10 feet, to a point opposite West One Hundred and Seventy-fifth street.

This resolution is respectfully returned for correction, as no location is given for the Old Fort, etc.

Yours respectfully,
(Signed) JOS. O. B. WEBSTER,
Engineer of Street Openings.

No. 837.
Board of Education, }
Park Avenue and Fifty-ninth Street, }
New York, May 28, 1908.

Hon. PATRICK F. MCGOWAN, President, Board of Aldermen:

Dear Sir—I have the honor to transmit herewith a certified copy of report and resolution adopted by the Board of Education at a meeting held on the 27th inst., relative to issuing Special Revenue Bonds to the amount of \$60,000 for necessary improvements and repairs in various public school buildings in the Borough of Manhattan.

Respectfully yours,
A. EMERSON PALMER,
Secretary, Board of Education.

To the Board of Education:

The Committee on Buildings respectfully reports that the sum of \$450,512 was inserted in the Budget for 1908, for alterations, repairs, etc., to various school buildings in the Borough of Manhattan. This amount was reduced by the Board of Estimate and Apportionment to \$314,145.25.

According to the report of the Auditor of the Board of Education the balance on May 9, 1908, was \$190,411.58.

Contracts to be let for heating, electric and sanitary repairs will amount, approximately, to \$189,714, thus leaving a balance for the remainder of the year of \$697.58.

According to the most conservative estimates \$60,000 will be required to carry on important and absolutely necessary repair work.

The following resolution is submitted for adoption:

Resolved, That, in accordance with the provisions of subdivision 8 of section 188 of the revised Charter, the Board of Aldermen be and it is hereby respectfully requested to ask the Board of Estimate and Apportionment to authorize the issue of Special Revenue Bonds to the amount of sixty thousand dollars (\$60,000), the pro-

ceeds to be used by the Board of Education for necessary improvements and repairs in various public school buildings in the Borough of Manhattan.

A true copy of resolution adopted by the Board of Education on May 27, 1908.

A. EMERSON PALMER,
Secretary, Board of Education.

In connection therewith Alderman Gunther offered the following resolution: Resolved, That, in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and hereby is requested to authorize the Comptroller to issue Special Revenue Bonds to the amount of sixty thousand dollars (\$60,000), the proceeds whereof to be used by the Board of Education for necessary improvements and repairs to various public school buildings in the Borough of Manhattan.

On motion of Alderman Gunther the above resolution was made a Special Order for 2.15 p. m.

Subsequently, the hour of 2.15 o'clock having arrived, the President put the question whether the Board would agree with said resolution.

Which was decided unanimously in the affirmative by the following vote: Affirmative—Aldermen Baldwin, Barton, Bent, Beyer, B. W. B. Brown, J. W. Brown, Carter, Case, Cole, Coleman, Colgan, Collins, Corbett, Crowley, Davis, Delancy, Doull, Dowling, Downing, Drescher, Emener, Esterbrook, Flanagan, Flynn, Gaynor, Goldschmidt, Grimm, Gunther, Handy, Hickey, Hines, Hochdorffer, Hogan, Johnson, Kavanagh, Levine, Linde, Loos, Martyn, McAleer, McCann, McDonald, Morrison, Moskowitz, Muhlbauer, Mulvaney, Murphy, Nagle, O'Reilly, Quinn, Rendt, Sandiford, Schloss, Smith, Stapleton, Stormont, Velten, Wentz, President Gresser, President Haffen, the Vice-Chairman and the President—62.

The President laid before the Board the following communication from the Department of Correction:

No. 838.
Department of Correction, }
Commissioner's Office, No. 148 East Twentieth Street, }
New York, May 29, 1908.

Hon. PATRICK F. MCGOWAN, President, Board of Aldermen, New York City:

Dear Sir—I would respectfully ask that, pursuant to the provisions of section 188 of the Charter of The City of New York, your Honorable Board will request the Board of Estimate and Apportionment to authorize the issue of Special Revenue Bonds to the amount of forty-two thousand dollars (\$42,000), to be applied to the appropriation for the year 1908, entitled Administration, Supplies and Contingencies.

In this connection, I beg to state that the necessity for this request is caused, primarily, by the fact that while the average census of the Department during the first four months of 1907 was 3,609, the average for the corresponding months of 1908 was 4,865, an increase of 1,256, or 34.8 per cent. The principal increase in amount required during the current year will be for meats and other food supplies, owing to this increase in census. The meat used during the first four months of 1908 cost \$46,708.12, and for the same period in 1907, \$35,057.77, an increase of \$11,650.35 for four months, or an apparent increase for the year 1908 over 1907 of \$34,951.05. This amount, however, will be reduced during the summer months and the increased cost of meat for year will probably not exceed \$27,000.

I would respectfully ask the careful attention of your Honorable Board to the inclosed statement, showing the necessity for this appropriation.

Trusting that this request will receive your approval, I am,
Very respectfully yours,
JOHN V. COGGEY, Commissioner.

THE CITY OF NEW YORK.

FOR CHARITABLE INSTITUTIONS.

Conditions Governing Payments to Charitable Institutions.

The appropriations in this Budget are made subject to the following conditions:

1. The accounts and records of all charitable institutions receiving public moneys shall be so kept as to show all receipts, disbursements and population in such form as shall be satisfactory to the Comptroller. Records must show the addresses of parents, guardians or nearest relatives of inmates and other information designed to facilitate inquiry into their financial inability to make provision for dependents in the institutions.

2. Moneys received from the City Treasury shall be used by such institutions for recurring expenses of "care, support, education and maintenance."

3. All institutions receiving public moneys and all their books of record and accounts shall at all reasonable times be open to the visitation, inspection and examination of duly authorized representatives of the Department of Finance and at all proper times the Department of Public Charities shall have access to the record of inmates.

4. Upon its appearing to the satisfaction of the Comptroller that it would be to the public interest to withhold payments to any charitable institution for which an apportionment has been made, he shall in his discretion suspend payments and give written notice to such institution of his intention to apply to the Board of Estimate and Apportionment for authority to cease making further payments, and upon the determination of said Board that such payments shall terminate, the right of any such institution to receive payment for services rendered thereafter shall thereupon end.

5. Except where appropriations are made in bulk and not upon the per capita basis, no payment shall be made for inmates of private charitable institutions unless the same shall have been accepted by the Commissioner of the Department of Public Charities as proper charges upon the City. Except in emergency cases in hospitals, the Commissioner of Charities shall not accept as proper charges against the City inmates capable of paying for their own support or for whose care adequate provision can be made in public hospitals. *The City shall not be liable for any payment to charitable institutions in excess of the apportionment which may have been made to such institutions, notwithstanding any per capita rates of payment that may have been fixed for the inmates thereof.*

6. All institutions receiving money from the City are required to state specifically the amount so received, as from the City Treasury, in their printed annual reports.

7. No money shall be paid to any private charitable institution which pays any salary to or gives any consideration, financial or of any kind, for services to, or that has any business dealing with, or secures goods or merchandise, directly or indirectly, from any officer or trustee or member of its Board of Managers.

8. That charitable institutions for children now carried in the Budget and not sending their inmates to the Public Schools, and not sharing in the Corporate School Fund, and not receiving teachers and school supplies from the Board of Education, but giving in their own buildings secular education to the children resident in the institutions, shall be paid a per capita of 7 cents per day, five school days in the week, for each child receiving such instruction of four years of age and over during ten months in the year. This money to be paid under the authorization of section 230 of the Charter, but under the general conditions relating to institutions receiving Corporate School money, as provided in section 1154.

9. Magistrates are requested to transfer dependent, and, when judicious, no proper guardianship children, and all cases coming to their attention in the courts where no crime is proven against the child to the Commissioner of Charities, who can commit to institutions. Magistrates are earnestly requested not to commit a dependent child to an institution on a court commitment.

10. The Commissioner of Charities is instructed to take such steps, either by appeal to the national authorities or by proper bills to the Legislature, as to provide

that the children of emigrants abandoned within one year after arrival in this City be returned to the country whence they came.

11. In determining the acceptance of patients in private hospitals as proper charges (see Rule 5) the Commissioner of Charities shall first consider the nature of the service actually rendered to the patients by the hospitals. The records of the institutions and the bed-card notes showing the treatment given shall be received as the essential evidence in deciding acceptances or rejections.

12. No dependent child under 16 years of age shall be accepted as a proper charge upon the City and no money will be paid for the care, support, maintenance or education of such child unless it shall have been lawfully committed to a suitable private charitable institution having its own plant and equipment for the proper protection and care of children, under the supervision of the State Board of Charities, and has been placed in this Budget by the action of the Board of Estimate and Apportionment.

This order has no relation to the class of children of such mental and physical condition as those cared for in the City Institution at Randall's Island.

13. The rates of payments to private charitable institutions, unless otherwise specially provided for, are fixed for the various classes of inmates as follows:

For infants in infants' hospitals, under two (2) years of age, and in general hospitals, under the age of five (5), per day.....	\$0 45

No. 844.

By Alderman B. W. B. Brown—

Whereas, Voting machines have satisfactorily demonstrated by their use in various cities and villages in this as well as other States that they are effective and reliable to register and canvass the vote of the electorate; and

Whereas, The use of voting machines would tend to protect the results of elections against accident and mistakes on the part of election officers in that every one must vote in a legal manner, and consequently there can be no defective ballots, no identifying marks can be placed on a ballot and justification thus given for rejection, for there are no ballots. The intent of the voter will in every instance prevail, and effectiveness of suffrage will not depend on someone's judgment as to the symmetry of the marks on the ballot. The voter cannot mar his ballot and therefore cannot lose it. Not only defective ballots will be impossible, but also disputed returns, complicated contests and expensive recounts; therefore be it

Resolved, That the Board of Elections of The City of New York be and hereby is requested to test the usefulness and efficiency of voting machines in this City by providing one in each Assembly District in The City of New York at the next general election.

Rice, Chief Engineer."

Pursuant to a resolution of the Public Service Commission for the First District, adopted on May 26, 1908, the sale of the above described buildings will be held by said Commission on the premises on

THURSDAY, JUNE 18, 1908,

at 11 o'clock a. m., upon the following terms and conditions and subject to the approval of the Commissioners of the Sinking Fund:

The buildings and appurtenances thereto will be sold to the highest bidder, who must pay immediately cash or a certified check drawn to the order of the Comptroller of The City of New York and must also, at the time of the sale, give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of fifty dollars the sum of fifty dollars shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by The City of New York to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

All the materials of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the sidewalk and curb in front of said buildings extending within the described area and down to the level of the cellar bottom, shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point; also the foundation walls of all classes shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street, and the opening of the main sewer in street shall be properly closed in compliance with the directions of the Bureau of Sewers, Borough of Manhattan, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permits for all openings in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any portion thereof, within sixty days from the day of the sale, will work forfeiture of ownership of such buildings, appurtenances, or portion as shall then be left standing, together

with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and the City of New York will, without notice to the purchaser, cause the same to be removed and the costs and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner and must be completed within sixty days from the day of sale, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless the City of New York, its officers, agents and servants and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of the said buildings.

Party walls and fences, when existing adjacent property not sold, shall not be taken down. All furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls, are to be taken down and removed.
