## COMMISSIONERS OF ACCOUNTS.

OFFICE OF THE COMMISSIONERS OF ACCOUNTS,  
STEWART BUILDING, NO. 280 BROADWAY,  
NEW YORK, February 28, 1906.

Hon. GEORGE B. McCLELLAN, Mayor, and the Honorable Board of Aldermen of The City of New York:

SIRS—Section 195 of the Charter reads as follows:

" \* \* \* The accounts of the Chamberlain shall be annually closed on the last day of December, and shall be examined in the month of January in each year by the Commissioners of Accounts. Such Commissioners shall examine the accounts and vouchers of all moneys received into and paid out of the City Treasury during the year ending on the last day of December next preceding such examination, and shall certify and report to the Mayor and Board of Aldermen in the following month of February the amount of moneys received into the treasury during such year, the amount of moneys paid out during the same period by virtue of warrants drawn on the treasury by the Comptroller, the amount of moneys received by the Chamberlain who shall be in office at the time of such examination, if he entered upon the execution of his duties since the last preceding report; the balance in the treasury on the last day of December preceding such examination, the amount of moneys borrowed for or on the credit of the City during such year, and the amount of the bonds of the City issued during such year, with the purposes for which and the authority under which such bonds were issued. Such Commissioners shall also compare the warrants drawn by the Comptroller on the treasury during the year ending on the last day of December preceding such examination, with the several laws and ordinances under which the same shall purport to have been drawn, and shall in like manner certify and report whether the Comptroller had power to draw such warrants; and if any shall be found which, in their opinion, he had no power to draw, they shall specify the same in their report, with their reasons for such opinion."

The magnitude of the work involved in this mandatory provision of the Charter is much greater than was appreciated by the framers thereof, and it has not been found feasible to await the end of the year before making the examination and comparison of vouchers and warrants demanded. As a matter of practice and to fully comply with the requirements of the law, the Commissioners of Accounts employ six Accountants on their staff to perform this duty, and their work is continuous from the beginning to the end of the year.

### Certification.

The Commissioners of Accounts do hereby certify that they have complied with the law as quoted above, and that for the year 1905 they have examined 119,492 vouchers paid by the Comptroller, and have examined and compared 119,492 warrants drawn by the Comptroller on the treasury in payment thereof, making a total of 238,984 papers examined; they do further certify and report that in their opinion the Comptroller was duly authorized by the several laws and ordinances to draw the warrants examined, and that none was found which was improperly drawn, and finally they do certify and report that they have made from the books of account of the City Chamberlain a compilation of the moneys received into and paid out of the City Treasury, from which the following condensed statement is prepared:

## BOARD OF ESTIMATE AND APPORTIONMENT.

MINUTES, MEETING OF THE BOARD OF ESTIMATE AND APPORTIONMENT, CITY OF NEW YORK, HELD IN ROOM 16, CITY HALL, FRIDAY, MARCH 23, 1906.

The Board met in pursuance of an adjournment.

Present—George B. McClellan, Mayor; Herman A. Metz, Comptroller; Patrick F. McGowan, President of the Board of Aldermen; John F. Ahearn, President of the Borough of Manhattan; Bird S. Coler, President of the Borough of Brooklyn; Louis F. Haffen, President of the Borough of The Bronx; Joseph Bermel, President of the Borough of Queens; George Cromwell, President of the Borough of Richmond.

Hon. George B. McClellan, Mayor, presided.

After disposing of the public improvement calendar the following financial matters were considered by unanimous consent:

The Secretary presented the following report of the select committee consisting of the Comptroller and the President of the Board of Aldermen, to whom was referred, at the meeting held March 16, the matter of the application from the Board of Education for an issue of \$1,050,000 Special Revenue Bonds to meet the requirements of the General Repairs Accounts, Special School Fund, 1905 and 1906.

CITY OF NEW YORK—DEPARTMENT OF FINANCE,  
COMPTROLLER'S OFFICE,  
March 22, 1906.

## To the Honorable Board of Estimate and Apportionment:

GENTLEMEN—The undersigned, a select committee appointed by your Honorable Board at the meeting held on March 16, 1906, to consider the subject matter of a communication from the Board of Education requesting the Board of Estimate and Apportionment to recommend to the Board of Aldermen an issue of Special Revenue Bonds for \$1,050,000, find that of the said amount \$550,000 is asked for to be applied in substitution for an issue of Corporate Stock for the same amount authorized by the Board of Aldermen January 17, 1905, and for the further purpose of anticipating a deficit in the Special School Fund, General Repairs Accounts, 1906, the estimate of the Board of Education for this item having been reduced \$500,000 in the allowance made in the annual Budget.

Your committee have examined into the facts in connection with this situation and find that the Board of Estimate and Apportionment in 1904, in considering the departmental estimates for Budget purposes, after a conference with representatives of the Board of Education, appropriated the full amount asked for by the Board of Education for repairs to school buildings, but, basing their action upon information to the effect that certain of the contemplated repairs might properly be regarded as permanent betterments, allowed \$550,000 of the amount in Corporate Stock (see section 47 of the Charter, as amended by chapter 409 of the Laws of 1904), the balance, \$641,126.40 being included in the annual tax Budget for the year 1905.

In November of 1905 a number of small claims for repair work, ranging from \$1 to \$500 in amount, was transmitted to the Finance Department for audit and payment. Upon examination of these claims by Mr. Francis R. Clair, Auditor of Accounts, it was found that the character of the work performed, as described in the bills accompanying the claims, was not such as should be charged to Corporate Stock, as directed by the Auditor of the Board of Education. Hon. Edward M. Grout, former Comptroller, then caused an examination to be made, the result of which is fully set forth in the report of the Investigations Division, Department of Finance, dated December 28, 1905, which was presented to the Board of Estimate and Apportionment at the meeting held December 29, 1905. Copies of said report and subsequent correspondence had between the Comptroller and the Board of Education relating to the matter may be found attached to this report.

From the said report of December 28, 1905, it appears that the action of the Board of Estimate and Apportionment in 1904, in making allowance for repairs to school buildings to be made during 1905 partly out of Appropriation Account and partly out of Corporate Stock Account, was in error and probably based upon a misapprehension of the facts. As no question was raised as to the propriety of charging the cost of repairs of the character described to the Corporate Stock issue provided by the Board of Aldermen and the Board of Estimate and Apportionment until November, 1905, similar action was taken by the Board of Estimate and Apportionment with regard to the estimate of the Board of Education for general repairs for 1906, when the 1906 Budget was prepared in October, 1905.

Your committee are of the opinion that the General Repairs Accounts of the Board of Education for 1905 should be reimbursed to the extent of \$550,000, so that the moneys thus far expended from Corporate Stock Account for these purposes may be ascertained and restitution made to the Corporate Stock Account to this amount, and, further, that an allowance should be made to the Board of Education for General Repairs, 1906, in whatever amount may appear to be necessary. To this end your committee have requested the Corporation Counsel to prepare, in behalf of the City, a bill for presentation in the Legislature enabling the Board of Aldermen and the Board of Estimate and Apportionment to authorize the Comptroller to issue Special Revenue Bonds to the amount asked for, this issue to in no wise affect the provisions of section 188, subdivision 8 of the Charter, which places a limitation of \$2,000,000 upon the amount of Special Revenue Bonds to be issued in one year.

In the meantime, in order that the claims of contractors, builders and others who have rendered service to the Board of Education, accepting the orders of said Board in absolute good faith, may be liquidated, we hereby recommend that the Board of Aldermen be forthwith requested to pass a resolution favoring an issue of Special Revenue Bonds, as provided in section 188, subdivision 8 of the Charter, to the amount of \$80,000, a schedule of the unpaid claims of the Department of Education for general repairs, 1905, submitted to the Comptroller on January 24, 1906, by Hon. Henry N. Tift, President of the Board of Education, showing that approximately that amount is now due said contractors, builders and others.

We would respectfully urge that prompt action be taken in this matter in common justice to the parties who furnished material and rendered services to the City during 1905, many of whom have submitted evidences of the fact that they are on the verge of financial distress by reason of the withholding of the moneys due them.

Respectfully,

H. A. METZ,  
Comptroller.  
P. F. McGOWAN,  
President of the Board of Aldermen.

The following was offered:

Whereas, The Board of Education has requested the Board of Estimate and Apportionment to recommend to the Board of Aldermen its application for an issue of Special Revenue Bonds to the amount of \$1,050,000 to reimburse Corporate Stock Account to the amount of \$550,000, and to provide for a possible deficiency of \$500,000 in the General Repairs Accounts of the Special School Fund, 1906; and

Whereas, A Select Committee of the Board of Estimate and Apportionment, consisting of the Comptroller and the President of the Board of Aldermen, have made examination into the facts concerning the said application of the Board of Education; and

Whereas, The said Select Committee of the Board of Estimate and Apportionment have requested the Corporation Counsel to prepare and cause to be introduced in the Legislature, in behalf of The City of New York, a bill to enable the Board of Aldermen and the Board of Estimate and Apportionment to authorize the Comptroller to issue Special Revenue Bonds to the amount of \$1,050,000 for the purposes above specified; and

Whereas, There are now outstanding and unpaid claims against the City to the amount of \$80,000 for goods furnished and services rendered during the year 1905 by persons acting in good faith and at the request of the Board of Education; be it

Resolved, That the Board of Estimate and Apportionment hereby requests the Board of Aldermen to adopt a resolution calling for the issue of Special Revenue Bonds to the amount of \$80,000 to be applied to the payment of said claims for goods furnished and services rendered, as aforesaid, during the year 1905, but to the payment of no other indebtedness.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

The Secretary submitted the following resolution of the Board of Aldermen and report of the Investigations Division, Department of Finance, approved by the Comptroller, to whom was referred at the meeting held March 16, 1906, a resolution requesting an issue of Special Revenue Bonds to the amount of \$10,200 for the payment of salaries for the year 1906 of the Female Probation Officers now doing duty in the City Magistrates' Courts in the Second Division of The City of New York.

#### In the Board of Aldermen.

Resolved, That the Board of Estimate and Apportionment be and hereby is requested, in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, to authorize the Comptroller to issue Special Revenue Bonds to the amount of ten thousand two hundred dollars (\$10,200), the proceeds whereof shall be applied to the payment of the salaries for the year 1906 of the Female Probation Officers now doing duty in the City Magistrates' Courts in the Second Division of The City of New York.

Adopted by the Board of Aldermen February 28, 1906, three-fourths of all the members elected voting in favor thereof, having been first advertised as required by law.

Approved by the Mayor, March 7, 1906.

P. J. SCULLY, Clerk.

CITY OF NEW YORK—DEPARTMENT OF FINANCE,  
COMPTROLLER'S OFFICE,  
March 19, 1906.

Hon. HERMAN A. METZ, Comptroller:

SIR—In the matter of a resolution of the Board of Aldermen, relative to the issue of Special Revenue Bonds to the amount of \$10,200 for the payment of the salaries of the Female Probation Officers in the various Magistrates' Courts in the boroughs of Brooklyn, Queens and Richmond, which was referred by the Board of Estimate and Apportionment to the Comptroller for examination, I beg to report as follows:

At a meeting of the Board of Estimate and Apportionment held April 7, 1905, the said Board passed a resolution authorizing the Comptroller, pursuant to the provisions of subdivision 8, section 188 of the Charter, to issue Special Revenue Bonds to the amount of \$13,000 for the payment of salaries of the Female Probation Officers in the City Magistrates' Courts in all the boroughs.

At the same meeting of the Board, pursuant to the provisions of chapter 508 of the Laws of 1904, passed a resolution fixing the salaries of the said Female Probation Officers as follows:

In the Boroughs of Manhattan, The Bronx and Brooklyn, \$900 per annum.

In the Boroughs of Queens and Richmond, \$600 per annum.

There were employed in all boroughs in the year 1905 twenty Female Probation Officers, fifteen of whom were in the Magistrates' Courts in the Boroughs of Manhattan, The Bronx and Brooklyn, each at a salary of \$900 per annum, and five in the Boroughs of Queens and Richmond, each at a salary of \$600 per annum. The proceeds of the Revenue Bond issue authorized April 7, 1905, were for the purpose of paying the salaries of the said officers for the balance of the year 1905. These bonds were never issued for the reason that the Municipal Civil Service Commission refused to pass the pay-rolls of Female Probation Officers until they had first taken an examination and qualified to fill said position. Consequently said Female Probation Officers received no compensation from the City during 1905.

I am informed by a representative of the Municipal Civil Service Commission that on January 12, 1906, a non-competitive examination was held for Female Probation Officers and that those who passed said examination are entitled to compensation from that date, but that, as said Commission has not as yet received the proper notification of appointment of any of the Probation Officers who passed said examination, they will refuse to pass said pay-rolls until given notice of said appointments by the appointive authority.

From information received from the Magistrates' Courts of the various boroughs, it would appear that the services of Female Probation Officers are necessary to the welfare of the City. In view of the fact that there is no increase in the amount requested for salaries in 1906 over that allowed in 1905, I would respectfully recommend that the resolution of the Board of Aldermen be approved by the Board of Estimate and Apportionment.

Respectfully,

CHARLES S. HERVEY,  
Auditor of Accounts, Investigations Division.

Approved:

H. A. METZ, Comptroller.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment hereby approves of and concurs in the resolution of the Board of Aldermen, adopted February 28, 1906, and approved by the Mayor March 7, 1906, in relation to the expenditure of ten thousand two hundred dollars (\$10,200) for the payment of the salaries for the year 1906 of the Female Probation Officers now doing duty in the City Magistrates' Courts in the Second Division of The City of New York, and that for the purpose of providing means therefor the Comptroller be and is hereby authorized, pursuant to the provisions of subdivision 8 of section 188 of the Greater New York Charter, to issue Special Revenue Bonds of The City of New York, to the amount of ten thousand two hundred dollars (\$10,200), redeemable from the tax levy of the year succeeding the year of their issue.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

The Secretary presented the following resolution of the Board of Aldermen and report of the Investigations Division, Department of Finance, approved by the Comptroller, relative to an issue of Special Revenue Bonds to the amount of \$7,500 for the use of the Register of Kings County for the purpose of purchasing typewriters and installing a system of copying records by typewriting:

#### In the Board of Aldermen.

Resolved, That, in pursuance of the provisions of subdivision 8 of section 188 of the Amended Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue Special Revenue Bonds to the amount of seven thousand five hundred dollars (\$7,500), for the use of the Register of Kings County, for the purpose of purchasing typewriters and installing a system of copying records by typewriting.

Adopted by the Board of Aldermen, February 28, 1906, three-fourths of all the members elected voting in favor thereof, having been first advertised as required by law.

Received from his Honor the Mayor, March 13, 1906, without his approval or disapproval thereof; therefore, as provided in section 40 of the Greater New York Charter, the same took effect as if he had approved it.

P. J. SCULLY, Clerk.

CITY OF NEW YORK—DEPARTMENT OF FINANCE,  
COMPTROLLER'S OFFICE,  
March 19, 1906.

Hon. HERMAN A. METZ, Comptroller:

SIR—In the matter of the resolution adopted by the Board of Aldermen February 28, 1906, requesting the Comptroller to issue Special Revenue Bonds to the amount of \$7,500 for the use of the Register of Kings County, for the purpose of purchasing typewriters and installing a system of copying records by typewriting, and referred to the Investigations Division March 16, 1906, I beg to report as follows:

The installation and use of typewriting machines in the office of the Register of Kings County was made the subject of a report by the Investigations Division, under date of March 20, 1905, in connection with a communication to the Board of Estimate and Apportionment from the Brooklyn League, said report being printed in the proceedings of the Board of Estimate and Apportionment, under date of April 28, 1905, page 780.

The serious condition of the work of the office and consequent delay in the return of instruments has increased materially since the date of said report, the work of copying having fallen steadily behind, so that at this time it takes practically ten months to one year for the return of a recorded instrument.

It is the opinion of your Examiner that the proper installation and use of typewriting machines in the copying of records will serve to expedite the work of the office, and I therefore respectfully recommend that the request of the Board of Aldermen be granted.

Respectfully yours,

CHARLES S. HERVEY,  
Auditor of Accounts, Investigations Division.

Approved:

H. A. METZ, Comptroller.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment hereby approves of and concurs in the resolution of the Board of Aldermen, adopted February 28, 1906, in relation to an expenditure of seventy-five hundred dollars (\$7,500), for the purpose of purchasing typewriters and installing a system of copying records by typewriting in the office of the Register of Kings County, and that for the purpose of providing means therefor the Comptroller be and is hereby authorized, pursuant to the provisions of subdivision 8 of section 188 of the Greater New York Charter, to issue Special Revenue Bonds of The City of New York, to the amount of seventy-five hundred dollars (\$7,500), redeemable from the tax levy of the year succeeding the year of their issue.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

The Secretary presented the following communication from the Register of the County of New York, requesting authority to award a contract for book typewriting machines to other than the lowest bidder, together with report of the Engineer of the Department of Finance, approved by the Comptroller, to whom this matter was referred at the meeting held March 2, 1906; also a request from the Remington Typewriter Company, asking that the consideration of the matter be laid over one week, in order that they might be heard.

Mr. E. K. Baird, representing the Remington Typewriter Company, appeared and protested against the award of the contract to the Elliott-Fisher Company.

REGISTER'S OFFICE, COUNTY OF NEW YORK,  
No. 116 NASSAU STREET,  
February 28, 1906.

To the Honorable the Board of Estimate and Apportionment of The City of New York:

On the 21st day of July, 1905, the Board of Estimate and Apportionment adopted the following resolution:

"Resolved, That the Board of Estimate and Apportionment hereby approves of and concurs in the resolution of the Board of Aldermen, adopted July 11, 1905, and approved by the Mayor July 18, 1905, in relation to the expenditure of eight thousand two hundred and sixty-five dollars (\$8,265), to provide means to pay the net cost of procuring fifty-nine book-typewriting machines for the use of the Folio Writers in the office of the Register of the County of New York, and that for the purpose of providing means therefor the Comptroller be and is hereby authorized, pursuant to the provisions of subdivision 8 of section 188 of the Greater New York Charter, to issue Special Revenue Bonds of The City of New York, to the amount of eight thousand two hundred and sixty-five dollars (\$8,265), redeemable from the tax levy of the year succeeding the year of their issue."

Under date of February 8 last I advertised, as the Charter requires, in the CITY RECORD a notice that I would receive sealed bids or proposals for fifty-four (54) book-typewriting machines, together with fifty-four (54) suitable roll-top desks for the same. Said bids are called for in pursuance of a contract and specifications approved as to form by the Corporation Counsel. Tuesday, February 27, was the last day for the reception of bids under the above mentioned advertisement, copy of which, with copy of specifications, are hereunto annexed. The only bidders and the amounts were:

	Amount.
<b>Elliott-Fisher Company—</b>	
Machines .....	\$7,830 00
Desks .....	1,620 00
	<hr/>
Allowed for old machines.....	\$9,450 00
	1,860 00
	<hr/>
	\$7,590 00
	<hr/>
<b>Remington Typewriter Company—</b>	
Machines .....	\$5,103 00
Desks .....	1,620 00
	<hr/>
Allowed for old machines.....	\$6,723 00
	1,620 00
	<hr/>
	\$5,103 00

The bid of the Remington Typewriter Company, as it will be seen, was lower than that of the Elliott-Fisher Company, and, for the reasons hereinafter given, I request your honorable Board to determine that it is for the public interest that in this case "a bid other than the lowest should be accepted."

The machines of the Elliott-Fisher Company have been used for the past eight years in the Register's office, and I am informed that the Elliott-Fisher machine is the only one made that will typewrite in bound volumes such as are used in this County and elsewhere. In my opinion the bid of the Remington Typewriter Company does not comply with the specifications, which are for book-typewriting machines to be as "satisfactory in every respect as the machines now employed." As the Remington machines proposed to be supplied cannot be used on the libers in use in this office, nor on any other libers that would be serviceable, it is apparent that they are not as satisfactory as the machines now employed, and hence do not comply with the specifications. The Remington machine typewrites on separate sheets to be inserted in bound books. I have personally investigated the possibilities and adaptability of the Remington machine offered under the proposed contract, and I am satisfied that to use it would not only not mean economy, but it would be impracticable, and in my judgment would be liable to result in the commission of serious errors in handling thousands of separate sheets. As Register of the County of New York I should hesitate to have the responsibility for the commission of such errors. At present, under the law, I am held responsible for the errors of my subordinates.

Your favorable action in this matter will be simply in effect a re-indorsement of the resolution above quoted, as the money therein specified was appropriated virtually, if not actually, for machines of the Elliott-Fisher Company.

I beg to add that the Register's office is in urgent need of new typewriting machines and that the urgency is growing more emphatic every day. For your further information I would respectfully call attention to the correspondence in relation to the subject of typewriting machines, which appears in your printed minutes under date of August 23, 1905, showing that at that time the matter of the purchase of the Elliott-Fisher machines was fully considered by the Board of Estimate and Apportionment, after recommendation by the Finance Department. A public letting, it appears, was necessary under the law, and as the lowest bidder at the said letting on February 27 last was neither the Elliott-Fisher Company nor a manufacturer of typewriting machines to conform with the specifications, it becomes necessary to appeal to you for the adoption of such a resolution as will enable me to award the contract to the Elliott-Fisher Company.

Respectfully,  
FRANK GASS, Register.

#### Specifications.

1. To furnish and deliver to the office of the Register of the County of New York, No. 116 Nassau street, in The City of New York, County of New York, and install in location or locations to be designated by the said Register, fifty-four (54) book typewriting machines, together with fifty-four (54) suitable roll-top desks for the same. These desks to be oak finish and each provided with serviceable lock and key.

The machines to be bid upon must be capable of writing with facility in libers or books used for recording instruments authorized to be recorded by law in said office, and must be as durable and satisfactory in every respect as the machines now employed.

2. As partial payment for the new machines, fifty-four (54) old typewriting machines now in the custody of the said Register must be taken in part payment.

3. The contractor must furnish a written guarantee to maintain all machines covered by these specifications in perfect repair for one year from date of purchase, without charge.

CITY OF NEW YORK—DEPARTMENT OF FINANCE,  
COMPTROLLER'S OFFICE,  
March 7, 1906.

Hon. HERMAN A. METZ, Comptroller:

SIR—In a communication dated February 28, 1906, addressed to the Board of Estimate and Apportionment, the Hon. Frank Gass, Register of the County of New York, requests that he be allowed to award a contract for fifty-four (54) book-typewriters to other than the lowest bidder.

Two bids were received on February 27, 1906, in response to an advertisement in the CITY RECORD, and were as follows:

Elliott-Fisher Company—

Machines .....	\$7,830 00
Desks .....	1,620 00
	<hr/>
Allowed for old machines .....	\$9,450 00
	1,860 00
	<hr/>
	\$7,590 00

Remington Typewriter Company—

Machines .....	\$5,103 00
Desks .....	1,620 00
	<hr/>
Allowed for old machines.....	\$6,723 00
	1,620 00
	<hr/>
	\$5,103 00

I have looked up this matter in detail, and I find that the Register's office adopted the Elliott-Fisher machines in 1898. The original machines were so nearly worn out in 1903 that fifty-nine (59) of them were exchanged with the Elliott Company for fifty (50) new machines of an improved type and were paid for with the understanding that the old machines would be repaired and returned to the Register's office for service. Twenty (20) of them were so repaired and returned, but the manufacturers reported that the remaining thirty-nine (39) were not worth repairing.

On May 19, 1905, in a letter to the Register, the local manager of the Elliott-Fisher Company offered to equip the Register's office "with fifty-nine (59) of the latest model Elliott book-typewriter, with outfits complete, including roll-top desks, at the price of \$175 each, less an allowance of \$40 for each of the said thirty-nine (39) old style machines, and of \$25 for each of the said twenty (20) old style machines, thus making the net price for thirty-nine (39) new style machines, complete, \$135 each, and the net price for twenty (20) more new style machines, complete, \$150 each, such new machines to be guaranteed against any defect in manufacture and to be kept in repair free of expense for labor and material, for a period of one year from date of delivery.

The cost of fifty-nine (59) machines under this agreement would be \$8,265, and on July 21 1905, the Board of Estimate and Apportionment authorized the issue of Special Revenue Bonds to this amount and for this purpose.

The Register purchased last year five (5) machines under this offer, and the Comptroller paid therefor \$675 on this Bond account. The balance, \$7,590, is the amount of the bid of the Elliott-Fisher Company under consideration.

It will be noticed that, as an offset to their failure to repair the thirty-nine (39) old machines in 1903, the Elliott-Fisher Company offered \$15 more for these machines than for the twenty (20) which they did repair; and, furthermore, they loaned the Register's office twenty-one (21) new machines, without charge, for use until such time as the office should be fully equipped by purchase.

There are now in the Register's office some of the original machines purchased in 1898, fifty-nine (59) purchased in 1903, twenty (20) repaired in 1903, twenty-one (21) loaned in 1905 by the Elliott-Fisher Company, and five (5) purchased in 1905. Of them all, some sixty (60) are in service at the present time.

The machines in this office are subjected to extremely hard usage, need frequent repairs, and, at the best, last no more than three or four years. In an office doing a large and increasing business, like the Register's, there is great need of some reserve machines for use in emergencies and when others are undergoing repair.

The five (5) machines purchased last year, together with the fifty-four (54) it is proposed to purchase now and the sixty-six (66) which are contracted for in the equipment of the New Hall of Records, make one hundred and twenty-five (125) in number. I understand that there are now in the Register's office some eighty (80) qualified operators of these machines. Considering the hard usage which the machines get and the exigencies of the service I think that one hundred and twenty-five (125) ought to fully equip the office for several years to come.

In view of the foregoing and of the further fact that the Remington people do not make or sell a machine adapted to writing in bound volumes, I am of the opinion that it would be for the public interest to accept the higher bid, and I think the Board of Estimate and Apportionment may, in compliance with section 419 of the Charter, properly authorize the Register to accept other than the lowest bid.

Respectfully,

CHANDLER WITHINGTON,  
Principal Assistant Engineer.

REMINGTON TYPEWRITER COMPANY,  
Nos. 325 AND 327 BROADWAY, NEW YORK,  
March 23, 1906.

Hon. GEORGE B. MCCLELLAN, Chairman of Board of Estimate and Apportionment,  
City Hall, City:

SIR—The undersigned respectfully request that the matter of granting permission to the Registers of the Counties of New York and Queens to accept the bid of other than the lowest bidder on the contracts for supplying typewriting machines to the offices of the said Registers be put over for one week in order that this company have an opportunity to be heard.

Respectfully,

THE REMINGTON TYPEWRITER COMPANY,  
Per A. T. ROSE, Manager.

The following resolution was offered:

Resolved, That, pursuant to the provisions of section 419 of the Greater New York Charter, the Board of Estimate and Apportionment, deeming it for the best interests of the City that other than the lowest bid should be accepted for furnishing fifty-four (54) book typewriting machines, together with fifty-four (54) suitable roll-top desks for the same, hereby authorizes the Register of New York County to accept the bid of the Elliott-Fisher Company at seven thousand five hundred and ninety dollars (\$7,590).

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

The Secretary presented communications from the different Park Commissioners, requesting issues of Corporate Stock for various improvements, as follows:

Boroughs of Manhattan and Richmond .....	\$1,324,000 00
Boroughs of Brooklyn and Queens .....	1,406,395 35
Borough of The Bronx .....	696,000 00

Which were referred to the Comptroller for consideration and report.

On behalf of the Select Committee, consisting of the President of the Board of Aldermen, the Comptroller and the President of the Borough of Brooklyn, to whom was referred at the meeting of March 16, the matter of considering a suitable site for the Department of Public Charities in the Borough of Brooklyn, the Comptroller reported that the Committee had ascertained that the building formerly occupied by Public School 47, on Schermerhorn street, was available, and had written to the Board of Education requesting them to turn said property over to the Commissioners of the Sinking Fund so that proper proceedings could be taken for its use and occupancy by the Department of Public Charities in that borough.

The Secretary presented the following communication from the Board of Rapid Transit Railroad Commissioners, containing a resolution requesting the Board of

Estimate and Apportionment to appoint a Committee of Conference for the purpose of conferring with the Committee on Plans and Contracts of said Commission in the matter of the proposed certificate to be issued to the New York Connecting Railroad Company, and that said proposed certificate be recommitted to the Committee on Plans and Contracts, with instructions to confer with the Committee of the Board of Estimate and Apportionment when appointed, and requesting notification of the appointment of such Committee.

BOARD OF RAPID TRANSIT RAILROAD COMMISSIONERS,  
No. 320 BROADWAY, NEW YORK,  
March 23, 1906.

Board of Estimate and Apportionment, No. 280 Broadway, New York:

GENTLEMEN—I beg leave to inform you that at the meeting of the Rapid Transit Board, held on the 22d of March, 1906, the following resolution, proposed by his Honor the Mayor, was unanimously adopted:

Resolved, That the Board of Estimate and Apportionment be requested to appoint a committee of conference for the purpose of conferring with the Committee on Plans and Contracts of this Board, on the matter of the proposed certificate to be issued to the New York Connecting Railroad Company, and that the proposed certificate to be issued to the New York Connecting Railroad Company be recommitted to the Committee on Plans and Contracts, with instructions to confer with the committee of the Board of Estimate and Apportionment when appointed.

In accordance with the above I therefore respectfully request you to appoint such a committee of conference, and if you will kindly notify me when such committee shall have been appointed and a convenient date for such conference, I will call a meeting of the joint committees for the purpose of taking up again the consideration of the said certificate.

Yours respectfully,  
A. E. ORR, President.

The President of the Board of Aldermen moved that the request of the Rapid Transit Railroad Commissioners for the appointment of a Conference Committee be agreed to; that the Chair appoint such Committee of Conference, and that the Secretary of the Board be instructed to so inform the Board of Rapid Transit Railroad Commissioners, which motion was agreed to.

The Chair appointed as such Committee the President of the Board of Aldermen and the Presidents of the Boroughs of Brooklyn, The Bronx and Queens, and stated that the President of the Board of Aldermen would act as Chairman of the Committee.

The Secretary presented the following communication from the President of the Borough of The Bronx, submitting an estimate of his Chief Engineer of the amounts necessary for the purpose of expediting the computations, draughting and monumenting and the preparation of final maps of the section of the Borough of The Bronx east of the Bronx river, together with a report of the Principal Assistant Engineer of the Department of Finance relative thereto, which were ordered on file.

This matter was referred to the Comptroller at the meeting held March 16, 1906.

OFFICE OF THE PRESIDENT OF THE BOROUGH OF THE BRONX,  
MUNICIPAL BUILDING, CROTONA PARK,  
NEW YORK, March 12, 1906.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman Board of Estimate and Apportionment:

DEAR SIR—I transmit herewith for the consideration and approval of the Board of Estimate and Apportionment an estimate of funds submitted to me this day by Chief Engineer Briggs for the purpose of expediting the computations, draughting and monumenting necessary to the preparation of the final maps of the section of the Borough of The Bronx, east of the Bronx river, and would respectfully request that necessary action be taken by the Board of Estimate and Apportionment for the purpose of providing these funds without delay.

Yours truly,  
LOUIS F. HAFFEN,  
President of the Borough of The Bronx.

NEW YORK, March 12, 1906.

Mr. JOSIAH A. BRIGGS, Chief Engineer of the Borough of The Bronx:

SIR—In accordance with your oral request, I beg to transmit herewith an estimate of funds required for the purpose of expediting the computations, draughting and monumenting in relation to the preparation of the final maps of that part of the Borough of The Bronx, lying easterly of the Bronx river.

The force of the Topographical Bureau should be so increased that a fair result can be obtained as soon as possible.

The plan for the street system has been approved by the Board of Estimate and Apportionment, and since that time, through the obtaining of franchises for railroads, work, which has taken months and months to accomplish, has to be remodeled.

In addition, I wish to suggest that the final maps be lithographed and printed on such a scale as was done for the district west of the Bronx river, and that those sections of the final maps west of the Bronx river which are out of print be reprinted.

CITY OF NEW YORK—DEPARTMENT OF FINANCE,  
COMPTROLLER'S OFFICE,  
March 21, 1906.

Hon. HERMAN A. METZ, Comptroller:

SIR—Hon. Louis F. Haffen, President of the Borough of The Bronx, in communication under date of March 12, 1906, requests the Board of Estimate and Apportionment to authorize the issue of Corporate Stock to the amount of \$72,000, for the use of the Topographical Bureau of the Borough of The Bronx, for the purpose of preparing and completing maps of all territory within said borough; and at meeting of the Board held March 16, 1906, \$50,000 was authorized for this purpose. I would report:

The following amounts have been allowed in the Budgets for the respective years, for the topographical work in the Borough of The Bronx:

For the year 1902.....	\$64,000 00
For the year 1903.....	65,000 00
For the year 1904.....	65,000 00
For the year 1905.....	65,000 00
For the year 1906.....	65,000 00

In addition to the above, the Board of Estimate and Apportionment have authorized Corporate Stock to the amount of \$65,000, as follows:

On July 15, 1904.....	\$50,000 00
On March 13, 1905.....	15,000 00

Of the \$65,000 authorized, \$41,000 has been issued, leaving a balance of \$24,000 still unissued.

The additional authorization, \$50,000, allowed by the Board of Estimate and Apportionment on March 16, 1905, will, in my opinion, be ample to carry on the work for the current year, and permit of an increased force and additional work, as suggested by the President of the Borough of The Bronx.

Respectfully,  
CHANDLER WITHINGTON,  
Principal Assistant Engineer.

The Secretary presented the following report of the Appraiser of Real Estate, Department of Finance, approved by the Comptroller, relative to the rescinding of a resolution adopted at the meeting of the Board held June 30, 1905, authorizing the institution of condemnation proceedings for the acquisition of certain property within the area of East Fifteenth and East Sixteenth streets, Avenue C and the East river, Borough of Manhattan, for the use of the Department of Health.

CITY OF NEW YORK—DEPARTMENT OF FINANCE,  
COMPTROLLER'S OFFICE,  
March 16, 1906.

Hon. HERMAN A. METZ, Comptroller:

SIR—The Board of Estimate and Apportionment, at a meeting held June 30, 1905, adopted a resolution authorizing the institution of condemnation proceedings for the acquisition of certain property within the area of East Fifteenth and East Sixteenth streets, Avenue C and the East river, Borough of Manhattan, for the use of the Department of Health. It was found inexpedient to acquire the property, 275 feet 11¾ inches, on East Fifteenth and East Sixteenth streets, beginning on the westerly side of Avenue D, in view of the fact that the Consolidated Gas Company, the owner of the property, had already let contracts for the erection of a gas tank on the property, and after consultation with the Commissioner of the Department of Health, he was of the opinion that if the City acquire property 191 feet on both East Fifteenth and East Sixteenth streets, west of Avenue D, it would be sufficient for the needs of his Department for the extension of the Willard Parker Hospital, and pursuant to this suggestion, the Board of Estimate and Apportionment, at a meeting held December 20, 1905, adopted a resolution authorizing the institution of condemnation proceedings for the acquisition of property described in that resolution, but no action has been taken to rescind the resolution of June 30, 1905.

I would, therefore, respectfully recommend that the Board of Estimate and Apportionment adopt a resolution rescinding the resolution of the Board on June 30, 1905, authorizing the institution of condemnation proceedings for the acquisition of certain property located within the area of East Fifteenth and East Sixteenth streets, Avenue C and the East river, in the Borough of Manhattan.

Respectfully submitted for approval,  
MORTIMER J. BROWN,  
Appraiser of Real Estate, Department of Finance.

The following resolution was offered:

Resolved, That the resolution adopted by the Board of Estimate and Apportionment June 30, 1905, and which reads as follows:

"Resolved, That the Board of Estimate and Apportionment hereby approves of the action of the Department of Health of The City of New York in the selection of a site as an addition to the Willard Parker Hospital on East Fifteenth and East Sixteenth streets, Avenue D and the East river, in the Borough of Manhattan, which site is bounded and described as follows:

"Beginning at the point of intersection of the northerly line of East Fifteenth street with the westerly line of Avenue D, and running thence westerly along the northerly side of East Fifteenth street 300 feet, running thence northerly parallel with Avenue D 206 feet 6 inches to the southerly side of East Sixteenth street, running thence easterly along the southerly line of East Sixteenth street 300 feet to the southwesterly corner of East Sixteenth street and Avenue D, running thence southerly along the westerly side of Avenue D 206 feet 6 inches to the point or place of beginning.

"Also that other parcel bounded and described as follows:

"Beginning at the point of intersection of the northerly side of East Fifteenth street with the easterly side of Avenue D, and running thence easterly along the northerly side of East Fifteenth street and the easterly extension thereof 329 feet 3 inches to the pierhead line as modified and established by the Secretary of War, June 9, 1903; thence northwesterly along said pierhead line as modified to the easterly prolongation of the southerly line of East Sixteenth street; thence westerly along the easterly prolongation and along the southerly side of East Sixteenth street 275 feet 11¾ inches to the easterly side of Avenue D; thence southerly along the easterly side of Avenue D 206 feet 6 inches to the point or place of beginning, together with all the riparian rights, rights of wharfage, shippage and cramage in any wise appertaining to said premises, and in, to, or in respect of the pierhead aforesaid, and to the water rights in the lands under water of the East river adjacent thereto, said premises being shown on a survey map made by Francis K. Ford, City Surveyor, dated New York, May 23, 1905.

"—and the Board of Estimate and Apportionment, deeming it for the public interest so to do, hereby requests the Corporation Counsel to make application to a Special Term of the Supreme Court for the appointment of Commissioners of Estimate and Appraisal to take the necessary proceedings, in the name of The City of New York, to acquire title, wherever the same has not heretofore been acquired, to the lands, tenements and hereditaments as shall or may be required for the purpose of an addition to the said Willard Parker Hospital, which is assessed with other property for the sum of \$600,000.

"Nothing in this resolution contained shall be construed as preventing the Comptroller of The City of New York from entering into contracts for the acquisition of any portion of the above-described property at private sale, subject to the approval of this Board.

"And be it further

"Resolved, That the Board of Estimate and Apportionment, deeming it for the public interest that the title to the above-described property shall be acquired at a fixed or specified time, it is hereby directed, in accordance with the provisions of section 1439 of the Greater New York Charter, as amended, chapter 512 of the Laws of 1905, that the same shall vest in The City of New York one day after the filing

of the oaths of the Commissioners to be appointed in accordance with the provisions of section 1439 of said amended Greater New York Charter."

The Secretary presented the following communications from the Board of Education, under dates of January 11 and 20, 1906, resolution of said Board adopted at a meeting held January 4, 1906, and report of the Appraiser of Real Estate, Department of Finance, under date of March 6, 1906, approved by the Comptroller, relative to the acquisition at private sale of certain property located at Concord street and Nutria alley, adjoining Public School 1, Borough of Brooklyn, for \$9,500, as a site for school purposes:

BOARD OF EDUCATION,  
PARK AVENUE AND FIFTY-NINTH STREET,  
NEW YORK, January 11, 1906.

Hon. HERMAN A. METZ, Comptroller, No. 280 Broadway, New York:

DEAR SIR—Your letter of the 9th inst., in reference to a strip of land adjoining Public School 1, Borough of Brooklyn, which was regularly selected by the Board of Education on September 27, 1905, as an additional site for school purposes, was received by me so short a time before the meeting of the Board of Education held yesterday that it was not practicable to act upon your request that the Board decide at said meeting as to what is intended to be done with old Public School 1, and whether when certain new schools are completed Public School 1 will be abandoned.

I note your statement that "If the Board of Education intends this addition to old School 1 merely for light and air, they should have stated so in their request to the Board of Estimate and Apportionment." Apparently the facts regarding the action of the Board of Education have not been fully laid before you. The report adopted by the Board of Education on September 27, 1905, stated that the property above referred to adjoining Public School 1 was to be acquired "to insure suitable light and air space for said school building," and further stated that "It is the intention of the Board of Education to improve said additional property for school purposes as soon as title thereto shall have been acquired by The City of New York, provided sufficient funds are available therefor."

I beg to call your attention to the resolution adopted by the Board of Estimate and Apportionment on December 22, 1905, probably following the report from your office dated December 18, 1905, to which you refer, and relating to the above mentioned site, recommending that the Board of Education rescind its action taken on September 27, 1905, in selecting this property as a site for school purposes. This resolution is now pending before the Committee on Sites, and will undoubtedly receive very careful consideration.

With this statement of facts I think it will be obvious to you that the Board of Education could not, with propriety, act upon the matter at yesterday's meeting, and I beg to assure you that its decision will be in line with the best interests of The City of New York and of this Department, and your suggestions will, at all times, have most careful attention.

Very respectfully yours,

HENRY N. TIFFT, President, Board of Education.

BOARD OF EDUCATION,  
PARK AVENUE AND FIFTY-NINTH STREET,  
NEW YORK, January 20, 1906.

Hon. HERMAN A. METZ, Comptroller, The City of New York:

DEAR SIR—Referring further to your letter of the 9th inst., in reference to a strip of land adjoining Public School 1, Borough of Brooklyn, which the Board of Education desires to be acquired as an additional site for school purposes, I have to inform you that the matter mentioned by you, together with the resolution adopted by the Board of Estimate and Apportionment on December 22, 1905, recommending that the Board of Education rescind its action taken September 27, 1905, selecting and determining said property as a site for school purposes, was carefully considered by the Committee on Sites at a meeting held on the 18th inst., and said committee decided that the property referred to is necessary for the protection of the light and air of said Public School 1, and will present a report to that effect to the Board of Education at its meeting to be held on the 24th inst.

Your suggestions in regard to the abandonment of Public School 1 received very careful consideration, and the committee was very strongly of the opinion that it would be necessary to continue the use of said school building after the erection of new Public School 8, and the new building to be erected at Bridge, Lawrence and Tillary streets. It is recognized on all hands that the location of Public School 1 is most undesirable, but conditions in that neighborhood will not permit us to give it up.

Very truly yours,

HENRY N. TIFFT, President, Board of Education.

To the Board of Education:

The Committee on Sites respectfully reports that on September 27, 1905, the Board of Education selected as an addition to the site of Public School 1, Borough of Brooklyn, a strip of land 22 feet by 100 feet, adjoining the said school building on the east, and running from Concord street to Nutria alley. On December 22, 1905, on the recommendation of the Appraiser of Real Estate in Charge of Bureau, Department of Finance, approved by the Comptroller, the Board of Estimate and Apportionment adopted a resolution recommending that the Board of Education rescind the action taken in selecting this site.

Your Committee has given this matter very careful consideration, and is of the opinion that the erection of the proposed new school buildings on Hicks, Middagh and Poplar streets and on Lawrence, Tillary and Bridge streets will not make the retention of Public School 1 unnecessary, as stated by the Appraiser of the Department of Finance, but that the conditions in that neighborhood will compel the Department of Education to continue the use of this building for school purposes, and that, as the property selected is required to insure suitable light and air space, the same should be acquired by the City.

The following resolution is submitted for adoption:

Resolved, That the Board of Education hereby reaffirms its action taken on September 27, 1905 (see Journal, page 2051), in selecting and determining as a site for school purposes a strip of land 22 feet by 100 feet, on Concord street and Nutria alley, adjoining Public School 1, Borough of Brooklyn.

A true copy of report and resolution adopted by the Board of Education January 24, 1906.

A. EMERSON PALMER, Secretary, Board of Education.

CITY OF NEW YORK—DEPARTMENT OF FINANCE,  
COMPTROLLER'S OFFICE,  
March 6, 1906.

Hon. HERMAN A. METZ, Comptroller:

SIR—The Board of Education, at its meeting held September 27, 1905, adopted the following resolution:

"Resolved, That the Board of Education hereby selects and determines as a site for school purposes the following-described lands and premises on Concord street and Nutria alley, adjoining Public School 1, in Local School Board District No. 27, Borough of Brooklyn, the assessed valuation of which, as shown by the books of record on file in the Department of Taxes and Assessments, is \$4,000:

"Beginning at a point formed by the intersection of the southerly line of Concord street with the easterly line of the lands of Public School 1, which point is distant 75 feet westerly from the westerly line of Pearl street, and running thence southerly along the said easterly line of the lands of Public School 1, 100 feet to the northerly line of Nutria alley; thence easterly along the northerly line of Nutria alley 22 feet; thence

northerly and parallel with the said easterly line of the lands of Public School 1 100 feet to the southerly line of Concord street; thence westerly along the southerly line of Concord street 22 feet to the easterly line of said lands of Public School 1, the point or place of beginning.

"Resolved, That the Board of Estimate and Apportionment be and it is hereby respectfully requested to take such action as may be necessary and proper for the acquisition of the lands and premises above described."

A report was made thereon on December 18, 1905, in which it was recommended that the Board of Estimate and Apportionment decline to act on the acquisition of this site, and that the Board recommend to the Board of Education the rescinding of the above resolution and await the erection of the two new schools, in order to see whether Public School 1 should be abandoned entirely and a new site selected elsewhere. This action was concurred in by the Board of Estimate and Apportionment at its meeting held December 22, 1905, and the matter was referred back to the Board of Education. The Board of Education, at its meeting held January 24, 1906, adopted the following resolution:

"Resolved, That the Board of Education hereby reaffirms its action taken on September 27, 1905 (see Journal, page 2051), in selecting and determining as a site for school purposes a strip of land 22 feet by 100 feet, on Concord street and Nutria alley, adjoining Public School 1, Borough of Brooklyn."

The preamble of said resolution recites that the Committee on Sites has given this matter very careful consideration and is of the opinion that the erection of the proposed new school building on Hicks, Middagh and Poplar streets and Lawrence, Tillary and Bridge streets will not make the retention of Public School 1 unnecessary, and that the conditions in that neighborhood will compel the Department of Education to continue the use of this building for school purposes, and that, as the property selected is required to insure suitable light and air space, the same should be acquired by the City.

After negotiation with the owners I am of the opinion that the property can be acquired at a price not exceeding \$9,500, which, in my opinion, would be reasonable, in view of the value of property in that locality. I would therefore respectfully recommend that the Board of Estimate and Apportionment approve of the selection of the site heretofore described for school purposes and authorize the acquisition of the same at private sale at a price not exceeding \$9,500.

Respectfully submitted for approval,

THOMAS F. BYRNES,

Appraiser of Real Estate, Department of Finance.

H. A. METZ, Comptroller.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment hereby approves of the action of the Board of Education in the matter of the selection of the following-described premises for school purposes, in the Borough of Brooklyn:

Beginning at a point formed by the intersection of the southerly line of Concord street with the easterly line of the lands of Public School 1, which point is distant 75 feet westerly from the westerly line of Pearl street, and running thence southerly along the said easterly line of the lands of Public School 1, 100 feet to the northerly line of Nutria alley; thence easterly along the northerly line of Nutria alley 22 feet; thence northerly and parallel with the said easterly line of the lands of Public School 1, 100 feet to the southerly line of Concord street; thence westerly along the southerly line of Concord street 22 feet to the easterly line of said lands of Public School 1, the point or place of beginning, together with all the right, title and interest of the owners of said premises of, in and to the streets in front thereof to the centre thereof,

—and that the Comptroller of The City of New York is hereby authorized to enter into a contract for the acquisition of the property at a price not exceeding ninety-five hundred dollars (\$9,500), said contracts to be submitted to the Corporation Counsel for his approval as to form.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

The Secretary presented the following report of the Appraiser of Real Estate, Department of Finance, approved by the Comptroller, relative to the acquisition at private sale, for \$80,000, of property located at Pearl and Front streets, in the Borough of Brooklyn, for the use of Manhattan Bridge (Bridge No. 3), in the Borough of Brooklyn; together with report of the President of the Borough of Brooklyn, to whom this matter was referred at the meeting of March 16, relative thereto:

CITY OF NEW YORK—DEPARTMENT OF FINANCE,  
COMPTROLLER'S OFFICE,  
March 1, 1906.

Hon. HERMAN A. METZ, Comptroller:

SIR—Condemnation proceedings have been authorized by the Board of Estimate and Apportionment for the acquisition of a strip of land as an approach to Manhattan Bridge No. 3 in Brooklyn. Included within the area of said approach is a parcel of land located on the easterly side of Pearl street 99.92 feet southerly from the southeasterly corner of Pearl and Front streets. The property is owned and occupied by Mr. Carpenter as a machine and forge shop. The property owned by Mr. Carpenter is 74.4 feet in width in front on Pearl street, the rear line being 74.21 feet, and the depth of the lot on the northerly and southerly sides 103.42 feet. The line of the approach as laid out almost divides the property in half. Mr. Carpenter first offered to dispose of this property to the City for \$106,000, but after repeated negotiations he has finally reduced his price to \$80,000.

The property being in condemnation proceedings, this office brought the Assistant Corporation Counsel who had charge of the proceeding, in consultation with the representative of the owner at a meeting held in the Corporation Counsel's office in Brooklyn.

The building will be a total destruction. The value of the land taken by the City is the greater value, being the front half of the lot. The consequential damages caused by the irregular line as it runs diagonally through the lot, makes the value of the part taken almost equivalent to the value of the entire plot.

The Corporation Counsel in charge of the proceeding submitted an appraisal made by the expert of his office; also there was submitted by the Corporation Counsel the appraised value of the machinery and this office submitted the proposition as to the value of the land. Against this proposition, which amounted to \$75,028.12, was the value placed upon the land and building and machinery by the expert of the property owner, amounting to \$99,989.38.

As a result of that interview the property owner agreed to accept the sum of \$80,000 for his property, which, in my opinion, should be accepted by the City. I therefore respectfully recommend that the Board of Estimate and Apportionment adopt a resolution authorizing the acquisition of the land required as an approach to the Manhattan Bridge in Brooklyn, owned by Mr. Carpenter, together with all of the building, both on the land acquired and that remaining on the part not taken, and the entire machinery contents within the entire building, at a price not exceeding \$80,000.

Respectfully submitted for approval,

MORTIMER J. BROWN,

Appraiser of Real Estate, Department of Finance.

THE CITY OF NEW YORK,  
OFFICE OF THE PRESIDENT OF THE BOROUGH OF BROOKLYN,  
BROOKLYN, March 22, 1906.

To the Honorable the Board of Estimate and Apportionment, New York City:

GENTLEMEN—There was referred to me, at a meeting of your Board, held on March 16, 1906, a report of the Appraiser of Real Estate, Department of Finance, recommending the acquisition by purchase, at a price not to exceed \$80,000, of property located at Pearl and Front streets, in this Borough, for the use of the Manhattan Bridge. At my request the Commissioner of Public Works has had appraisals of the property made by various real estate experts, and as a result of these appraisals I wish to report that I concur in the recommendation of the Comptroller that he be authorized to acquire the property by purchase, at a price not to exceed \$80,000.

Yours very respectfully,

BIRD S. COLER,  
President, Borough of Brooklyn.

THE CITY OF NEW YORK,  
OFFICE OF THE PRESIDENT OF THE BOROUGH OF BROOKLYN,  
BROOKLYN, March 22, 1906.

Hon. BIRD S. COLER, President, Borough of Brooklyn:

DEAR SIR—In compliance with your request, I have examined the property described by the accompanying colored diagram.

I find that the experts employed by the owners of the property in question have rendered a report as follows:

Experts.	
Land, David Porter.....	\$33,827 67
Building, John J. Allen.....	35,370 85
Machinery, Christian Hoffman.....	30,790 86
	\$99,989 38

Also I find that the experts employed by the City to prepare a valuation thereon find as follows:

Experts.	
Land, Isaac H. Carey.....	\$26,640 00
Building, Mr. Carlin.....	24,258 34
Machinery, Mr. Stagg.....	24,129 78
	\$75,028 22

Without cost to the City I secured the services of an established real estate appraiser, in whose judgment I have implicit confidence, and I submit herewith his report as to the land only.

My own judgment is, after an inspection of the premises in question, that the land, from the City standpoint, is worth:

Land .....	\$30,000 00
Buildings .....	30,000 00
Machinery and patterns.....	30,000 00
Good will.....	.....

Good will not taken into account.

In conclusion I would say I have been led to believe that the proposed sellers have agreed to accept \$80,000 for the entire collection; that is to say, land, buildings, machinery and patterns, and I reiterate it is my firm belief that if the City can secure the entire thing for \$80,000 they are securing a bargain.

Respectfully submitted,  
DESMOND DUNNE, Commissioner.

BROOKLYN, NEW YORK, March 22, 1906.

To DESMOND DUNNE, Esq., Borough Hall, Brooklyn:

DEAR SIR—I have examined the property as shown in the above diagram. The entire plot contains 7,679.44 square feet.

I estimate the land value of same to be..... \$34,584 46

The value of the part left, which contains 3,655.71 square feet, I value at..... 3,055 71

Estimated value of land taken..... \$30,928 75

Regarding the plot left, I feel that there is very little value attached to it and great uncertainty as to what purposes it may be used, it being too small a parcel for a factory, and also the fact that it will be largely shut in by the bridge structure. The demand for factory sites in the immediate vicinity of the above described property, the limited area, and also the fact of so much space being taken up by the Manhattan Bridge approach, I feel fully justified in my placing the above value on the property and that I consider it conservative.

For your information and guidance in the matter I might refer to the sale held November 18, 1905, at public auction of the plot northeast corner of Bridge and Water streets, being 75 by 100, and selling for \$37,500. The buildings were of little or no value. I attended the sale, and the bidding for the property was very active.

Very truly yours,

JAS. L. BRUMLEY.

The following was offered:

Whereas, The Board of Estimate and Apportionment at a meeting held January 20, 1905, in accordance with the provisions of section 1436A of the Greater New York Charter, approved of the selection by the Commissioner of Bridges of certain lands and premises for the use of the Manhattan Bridge (Bridge No. 3), in the Borough of Brooklyn, and authorized the institution of condemnation proceedings for the acquisition of all of the property within the area of said property selected by the Commissioner of Bridges and mentioned and described in said resolution; and

Whereas, The Comptroller of The City of New York has reported to this Board that the City has been offered a piece of property located on the easterly side of Pearl street, near Front street, in the Borough of Brooklyn, part of which is included within the area as laid down by said Commissioner and described in said resolution; and

Whereas, The Comptroller, in said report, has stated that, in his opinion, it would be advisable for the City to acquire the entire premises for said Bridge Commissioner; therefore be it

Resolved, That the Comptroller of The City of New York is hereby authorized to enter into a contract for the acquisition of the land and buildings thereon, bounded and described as follows:

Beginning at a point on the easterly side of Pearl street distant 99.92 feet southerly from the southeasterly corner of Pearl and Front streets; running thence easterly parallel with Front street 36.53 feet; running thence southeasterly 82.25 feet; running thence westerly again parallel with Front street 72.17 feet to the easterly side of Pearl street; running thence northerly along the easterly side of Pearl street 74.04 feet to the point or place of beginning, together with all of the building erected on the property above described, together with that on the balance of the plot owned by Thomas D. Carpenter, and together with all of the machinery in said entire building contained, being the machinery on the property taken and the machinery on the property not taken, and together with all the right, title and interest of the owner of said premises, of, in and to the streets in front thereof to the centre thereof, the said Carpenter hereby releasing The City of New York from all claims and damages on the part of the property not taken by reason of the construction of said bridge approach, or of said bridge, —at a price not exceeding eighty thousand dollars (\$80,000), said contract to be presented to the Corporation Counsel for his approval as to form.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

The Board adjourned to meet Friday, March 30, 1906, at 10.30 o'clock a. m.

JOSEPH HAAG, Secretary.

## EXTRACT FROM

MINUTES, BOARD OF ESTIMATE AND APPORTIONMENT, CITY OF NEW YORK, MARCH 30, 1906.

The Secretary presented the following:

UNION RAILWAY COMPANY OF NEW YORK CITY,  
No. 204 EAST ONE HUNDRED AND TWENTY-EIGHTH STREET,  
NEW YORK, March 19, 1906.

JOSEPH HAAG, Esq., Secretary, Board of Estimate and Apportionment, No. 280 Broadway, New York City:

DEAR SIR—We desire to acknowledge the receipt of your favor of March 16, inclosing certified copy of a resolution adopted by the Board of Estimate and Apportionment in connection with the operation of cars upon the Jerome avenue line of this company.

Yours very truly,

Which was ordered printed in the minutes and filed.

## United Dressed Beef Company.

By resolution, duly adopted by the Board January 12, 1906, approved by the Mayor January 17, 1906, permission was granted this company to construct, maintain and use a concrete conduit under and along East Forty-fourth street, Borough of Manhattan.

The Secretary presented the following:

UNITED DRESSED BEEF COMPANY,  
FIRST AVENUE, FORTY-THIRD TO FORTY-FOURTH STREETS AND EAST RIVER,  
NEW YORK, March 10, 1906.

Hon. GEORGE B. McCLELLAN, Mayor, and Chairman of the Board of Estimate and Apportionment, City Hall, New York City:

DEAR SIR—Regarding the permission given our company to construct a conduit in East Forty-fourth street, would say that we have decided not to go ahead with this work, and would, therefore, kindly request you to rescind the order given for the construction of this conduit.

Thanking you for the attention and courtesy given us in this matter, we remain,

Very truly yours,

UNITED DRESSED BEEF COMPANY,  
ISAAC BLUMENTHAL, President.

BOARD OF ESTIMATE AND APPORTIONMENT,  
BUREAU OF FRANCHISES,  
March 27, 1906.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—The United Dressed Beef Company, through its president, Mr. Isaac Blumenthal, in a communication dated March 10, 1906, states that it has decided not to accept the consent granted by the Board of Estimate and Apportionment, by resolution, adopted January 12, 1906, approved by the Mayor January 17, 1906, to construct and maintain a concrete conduit under East Forty-fourth street, beginning at the east building line of First avenue and running parallel to and 15 feet north of the south building line of East Forty-fourth street to a point 100 feet west of the west building line of First avenue.

The report of the Bureau of Franchises and the resolutions adopted by the Board granting the aforesaid permission are printed in full in the minutes of January 12, 1906 (Minutes, pages 6 to 10).

Under the circumstances, I am of the opinion that the Board should adopt a resolution rescinding its action of January 12, 1906, and I would recommend that such course be pursued. Attached hereto is a form of resolution for adoption.

Respectfully,

HARRY P. NICHOLS, Assistant Engineer.

The following was offered:

Whereas, The United Dressed Beef Company, through its president, Isaac Blumenthal, in a petition dated November 3, 1905, requested permission to construct and maintain a concrete conduit under and along East Forty-fourth street, beginning at the east building line of First avenue, and running parallel to and 15 feet north of the south building line of East Forty-fourth street to a point 100 feet west of the west building line of First avenue; and

Whereas, Such permission was granted by the Board of Estimate and Apportionment by a resolution adopted January 12, 1906, approved by the Mayor January 17, 1906; and

Whereas, The United Dressed Beef Company, through its president, Isaac Blumenthal, in a communication dated March 10, 1906, states that it has decided not to construct said conduit, and requests that the consent given for such construction be rescinded; now therefore be it

Resolved, That the resolution adopted January 12, 1906, approved by the Mayor January 17, 1906, granting such permission, be and it hereby is rescinded.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx and Queens—15.

## Quinroy Construction Company.

In the matter of the application of the Quinroy Construction Company for an extension of time in which to complete the construction of its single track railroad spur at Elm Park, Borough of Richmond, the permission to construct which was granted by resolution adopted December 15, 1905, and approved by the Mayor December 21, 1905.

The Secretary presented the following:

QUINROY CONSTRUCTION COMPANY,  
PORT RICHMOND, S. I.,  
March 21, 1906.

Franchise Department, No. 280 Broadway, New York:

DEAR MR. NICHOLS—I furnished a check for one year's rent and also security; I was forced to hold back until the Baltimore and Ohio Railroad Company would agree to construct the track into the quarry. I confess my delay, but, by paying the fifty dollars penalty, could you not accept the rent and security?

I plead your indulgence in this case; it is to the advantage of the City as well as to us to have this done, as the last letting for stone will show.

Yours very truly,

QUINROY CONSTRUCTION COMPANY,  
W. J. QUINLAN, President.

BOARD OF ESTIMATE AND APPORTIONMENT,  
BUREAU OF FRANCHISES,  
March 27, 1906.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—The Quinroy Construction Company, through its president, W. J. Quinlan, in a petition dated August 24, 1905, which was presented to the Board September 15, 1905, requested permission to construct, maintain and operate a single track railroad spur across Innis street and along Newark avenue, Borough of Richmond, to connect with the tracks of the Staten Island Rapid Transit Railroad, for the purpose of transporting materials from its quarry at Elm Park.

By resolution, duly adopted December 15, 1905, approved by the Mayor December 21, 1905, the company was granted the permission requested. The report of the Bureau of Franchises and the resolution adopted by the Board granting the aforesaid permission are printed in full in the Minutes of December 15, 1905 (Minutes, page 3098). Section 12 of the resolution provides that the company "shall apply to the proper local authorities for the necessary permits within thirty days from the date of the approval of this consent by the Mayor \* \* \* otherwise this consent shall be forfeited forthwith." I am informed that no action has been taken by the company in accordance with the privilege granted.

According to the provisions of section 12, the privilege granted under the resolution of December 15 is null and void.

The Quinroy Construction Company, through its president, W. J. Quinlan, in a communication dated March 21, 1906, states that it was compelled to await the decision of the Baltimore and Ohio Railroad Company to construct the track into its quarry, and pleads the indulgence of the Board. As the company claims the delay was occasioned through no fault of its own, I am of the opinion that the company should be given another opportunity to complete its road. I would therefore recommend that a resolution be adopted, rescinding the resolution adopted December 15, 1905, and a new resolution adopted granting the requested permission, with an additional proviso to the effect that the company shall pay a fee of \$25 for publication.

I append herewith resolutions for adoption.

Respectfully,

HARRY P. NICHOLS, Assistant Engineer.

The following was offered:

Resolved, That the resolution adopted by this Board December 15, 1905, approved by the Mayor December 21, 1905, granting permission to the Quinroy Construction Company to construct, maintain and operate a single track railroad spur, across Innis street and along Newark avenue, in the Borough of Richmond, to connect with the tracks of the Staten Island Rapid Transit Railroad, be and it hereby is rescinded.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx and Queens—15.

The following was offered:

Resolved, That the consent of the corporation of The City of New York be and the same is hereby given to the Quinroy Construction Company, a corporation, to lay and maintain a railroad track in Newark avenue and across Innis street, as shown and indicated upon the map marked "Map showing proposed track in Newark avenue and Innis street, in the Borough of Richmond, City of New York, to accompany the application of the Quinroy Construction Company to the Board of Estimate and Apportionment for the right to construct the same. Scale 1 inch, equals 50 feet. August 24, 1905. W. J. Quinlan, president," a copy of which is annexed hereto and which is made a part hereof, upon the following terms and conditions:

First—Said consent shall be for a term not exceeding ten (10) years from the granting of said consent; provided, however, that the same may be canceled and annulled upon six months' notice in writing to the Quinroy Construction Company, by the Board of Estimate and Apportionment, or its successors in authority, and thereupon all the rights of the said company in and upon the said street and avenue shall cease and determine.

Second—The Quinroy Construction Company shall pay into the Treasury of The City of New York the following sums of money:

During the first five years, the annual sum of two hundred dollars (\$200);

During the second five years, the annual sum of two hundred and fifty dollars (\$250);

—after which the consent, unless sooner revoked, shall expire by limitation. Such sums shall be paid into the Treasury of The City of New York on November 1 in each year, provided, however, that the first payment shall be only that proportion of two hundred dollars (\$200), as the time between the approval of this consent and November 1 following shall bear to the whole of one year.

Third—Upon the revocation or termination by limitation of this consent, the said company shall forthwith remove the track and appurtenances from the street, and the surface of the street shall be restored to a condition equal to that of the surrounding surface or pavement. In default of the performance of this condition by the said company, the Board of Estimate and Apportionment or the proper local authorities, may cause such track and appurtenances to be removed from the street aforesaid, and the surface thereof to be restored in the manner above described, at the expense of said company, and such expense may be deducted from the amount on deposit with the Comptroller, as hereinafter provided, or may be recovered by civil action.

Fourth—The consent hereby given shall not be assigned, either in whole or in part, or leased or sublet in any manner, nor shall title thereto, or right, interest or property therein, pass to or vest in any other person or corporation whatsoever, either by the acts of the Quinroy Construction Company, or by operation of law, whether under the provisions of the statutes relating to the consolidation or merger of corporations or otherwise, without the consent of The City of New York, acting by the Board of Estimate and Apportionment, or its successors in authority, evidenced by an instrument under seal, anything herein contained to the contrary thereof in anywise notwithstanding and the granting, giving or waiving of any one or more of such consents shall not render unnecessary any subsequent consent or consents.

Fifth—The Quinroy Construction Company shall not allow any railroad corporation which shall operate cars over the tracks hereby authorized, to run more than five (5) cars in any one train, exclusive of the motor car or engine, over said tracks, and said Quinroy Construction Company shall not permit any car to remain stationary or to be loaded or unloaded within the limits of any street. The speed of any such trains or cars shall not exceed six (6) miles per hour.

Sixth—The railroad track constructed under this consent shall be maintained solely for the purpose of the transportation of quarried material and for no other purpose, and especially for no purpose in connection with passenger or general freight traffic, as commonly understood.

Seventh—Such railroad track shall be constructed and maintained in the latest improved manner of street railroad construction, and solely upon the terms and according to the lines and surveys of the character of the rails and other parts of the construction, approved by the President of the Borough of Richmond. Such railroad track of the said company shall be maintained in good and safe condition throughout the term of this consent.

Eighth—Such railroad track shall be constructed and maintained subject to the supervision and control of the Board of Estimate and Apportionment and of all the authorities of The City of New York who have jurisdiction in such matters under the Charter of The City of New York, and subject to all laws or ordinances now in force or which may be hereafter enacted.

Ninth—The Quinroy Construction Company shall keep in permanent repair the pavement of the entire roadway of Newark avenue and the roadway of Innis street, between the extended lines of Newark avenue, under the supervision of the proper local authorities and in such manner as they may prescribe. The City of New York shall have the right to change the material or character of the pavement of the street, and in

that event the said company shall replace that portion of the pavement between the rails of the track and two (2) feet in width outside of the rails, with pavement of any desired character and in the manner directed by the proper City officer, at its own expense, and the provision as to repairs herein contained shall apply to such renewed or altered pavement for the entire width of the street.

Tenth—The said company shall at all times keep the street between the rails of its tracks, and for a distance of two (2) feet beyond the rails on either side thereof, free and clear from ice and snow, and shall remove the same without brushing it outside of the rails.

Eleventh—Said company shall be liable for all damages to persons or property and to the street and the sewers therein by reason of the construction, maintenance and use of said railroad track, and it is a condition of this consent that The City of New York assumes no liability to either persons or property on account thereby.

Twelfth—The said company shall apply to the proper local authorities for the necessary permits within thirty days from the date of the approval of this consent by the Mayor, and shall complete the construction of the railroad track under this consent within four months from the date of such approval, otherwise this consent shall be forfeited forthwith, and without any proceedings, either at law or otherwise, for that purpose, provided, however, that the time for the construction of said track may be extended by the Board of Estimate and Apportionment for a period not exceeding sixty days.

Thirteenth—This consent is upon the express condition that the said company, within thirty days after its approval by the Mayor and before anything is done in exercise of the rights conferred hereby, shall deposit with the Comptroller of The City of New York the sum of seven hundred and fifty dollars (\$750), either in money or in securities to be approved by him, which fund shall be security for the performance of the terms and conditions of this consent, and all penalties collectable from this fund shall be in addition to those now provided by law or ordinance. In case of default in the performance by said company of any of the terms and conditions, The City of New York shall have the right, after due notice, where it deems it advisable, to cause the work to be done and the materials to be furnished for the performance thereof, and shall collect the reasonable cost thereof from the said fund without legal proceedings, or after default in the payment of the annual charges shall collect the same with interest from such fund after ten (10) days' notice in writing to the said company. In case of any drafts so made upon the security fund, the said company shall, upon thirty (30) days' notice in writing, pay to the Comptroller of The City of New York a sum of money sufficient to restore the said fund to the original amount of seven hundred and fifty dollars (\$750); and in default thereof the consent hereby given may be canceled and annulled by the Board of Estimate and Apportionment, acting on behalf of said City. No action or proceedings or rights under the provisions of this section shall affect any other legal rights, remedies or causes of action belonging to The City of New York.

Fourteenth—This consent shall not become operative until said company shall duly execute, under its corporate seal, an instrument in writing, wherein said company shall promise, covenant and agree on its part and behalf to conform to and abide by and perform all the terms and conditions and requirements in this consent fixed and contained, and file the same in the office of the Comptroller of The City of New York within thirty (30) days after the approval of this consent by the Mayor.

Fifteenth—The compensation herein reserved shall commence from the date of the approval of this resolution by the Mayor. It is agreed that any and all payments to be made by the terms of the contract to The City of New York by the company shall not be considered in any manner in the nature of a tax, but that such payments shall be in addition to any and all taxes of whatsoever kind or description now or hereafter required to be paid by any ordinance of The City of New York or by any law of the State of New York.

Sixteenth—The Quinroy Construction Company shall notify the Secretary of the Board of Estimate and Apportionment, in writing, of the dates of commencement and completion of the work, at least six (6) days in advance thereof.

Seventeenth—The Quinroy Construction Company shall pay into the Treasury of The City of New York, within thirty (30) days after the approval of this consent by the Mayor, in addition to the sums hereinbefore mentioned, the sum of twenty-five dollars (\$25), as a fee for printing and publishing this resolution.

Failure to comply with any of the provisions of this grant will entail a penalty of fifty dollars (\$50) for each offense, which may be deducted by the Comptroller from the security fund for the benefit of The City of New York, as hereinbefore provided, or recovered in an action brought by The City of New York.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx and Queens—15.

#### Manhattan Refrigerating Company.

In the matter of the application of the Manhattan Refrigerating Company for a franchise to construct, maintain and operate a pipe line under and along certain streets and highways in the Borough of Manhattan for the purpose of supplying refrigeration to consumers along the lines of its mains.

The Secretary presented the following:

BOARD OF ESTIMATE AND APPORTIONMENT,  
BUREAU OF FRANCHISES,  
March 26, 1906.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—The Manhattan Refrigerating Company in a verified petition dated March 2, 1906, prays for the right to construct and operate pipe lines in the streets west of Hudson street, between Fourteenth and Horatio streets, in the Borough of Manhattan.

The application was referred to the Bureau of Franchises at a meeting of the Board of Estimate and Apportionment held March 2. This Bureau will be prepared to submit on April 13, 1906, a report upon the application, copies of which will be forwarded to the members at least one week previous thereto.

I would therefore recommend that the Board of Estimate and Apportionment, pursuant to the provisions of law, adopt a resolution fixing a date for a public hearing thereon, and that the same be advertised in the public press in two daily newspapers to be designated by the Mayor. Form of resolution is submitted for adoption.

Respectfully,

HARRY P. NICHOLS, Assistant Engineer.

The following was offered:

Whereas, A petition from the Manhattan Refrigerating Company, dated March 2, 1906, was presented to the Board of Estimate and Apportionment at a meeting held March 16, 1906.

Resolved, That, in pursuance of law, this Board sets Friday, the 20th day of April, 1906, at 10.30 o'clock in the forenoon, and Room 16 in the City Hall, Borough of Manhattan, as the time and place when and where such petition shall be first con-

sidered, and a public hearing be had thereon, at which citizens shall be entitled to appear and be heard; and be it further

Resolved, That the Secretary is directed to cause such petition and these resolutions to be published for at least two (2) days in two daily newspapers in The City of New York, to be designated by the Mayor, and for at least ten (10) days in the CITY RECORD, immediately prior to such date of public hearing. The expense of such publication to be borne by the petitioner.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx and Queens—15.

#### Kings County Refrigerating Company.

In the matter of the application of the Kings County Refrigerating Company for a franchise to construct, maintain and operate a pipe line under and along certain streets and avenues in the Borough of Brooklyn, for the purpose of supplying refrigeration to consumers along the lines of its mains.

The Secretary presented the following:

BOARD OF ESTIMATE AND APPORTIONMENT,  
BUREAU OF FRANCHISES, No. 280 BROADWAY,  
March 21, 1906.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman of the Board of Estimate and Apportionment:

SIR—The Kings County Refrigerating Company, under date of July 13, 1905, by its secretary and treasurer, Mr. James J. Phelan, petitioned the Board of Estimate and Apportionment for the right or franchise to lay pipes in certain streets in the Borough of Brooklyn, said pipes to be used for the purpose of furnishing cold air to various business enterprises in the vicinity of its plant and in Wallabout Market. The streets in which the company wishes to lay pipes are as follows:

"Park avenue, from Washington avenue to Hall street, under Hall street from Park avenue and across Flushing avenue from Ryerson street to Washington avenue, under Washington avenue from Park avenue, under and across Flushing avenue to a point on Washington avenue opposite Pier 1 of the Wallabout Basin, with connecting pipes to the different market streets of the Wallabout Market."

A map accompanied the petition, which shows the location of the proposed conduit line indicated by a dash line, and also Wallabout Market and the plant of the company, which is situated on Hall street, between Flushing and Park avenues. The map is entitled:

"Map showing proposed pipe line of the Kings County Refrigerating Company, to accompany the petition to the Board of Estimate and Apportionment, dated July 13, 1905."

—and signed by James J. Phelan, secretary.

The petition was presented to the Board of Estimate and Apportionment, at the meeting held July 14, 1905, and, pursuant to law, the Board fixed a day, to wit, September 29, 1905, for a public hearing, and notices of such hearing were published in the Brooklyn "Citizen" and the Brooklyn Daily "Eagle," newspapers designated by the Mayor, and also the CITY RECORD. Affidavits of publication are on file in the office of the Board of Estimate and Apportionment.

At the public hearing a representative of the Merchants' Association of Wallabout Market appeared in favor of the application and presented a petition signed by eighty-eight citizens and residents of the Borough of Brooklyn doing business in Wallabout Market and the immediate vicinity, stating that the applicant refrigerating company "has erected, at an expense of approximately \$300,000, a plant within 200 feet of Wallabout Market, and is a representative institution of the City. It is prepared to furnish the market with cold air at a reasonable price; in view of which we ask that their application be speedily granted."

No one appeared in opposition to the proposed grant.

This company, the principal office of which is at No. 16 Exchange place, Borough of Manhattan, was incorporated on the 20th day of June, 1898, pursuant to the provisions of the Business Corporations Law of the State of New York, for the purpose of maintaining and conducting a general storage and cold storage warehouse, ice manufacturing, refrigerating and freezing business in The City of New York. The certificate of incorporation was filed and recorded in the office of the County Clerk of New York County on July 1, 1898.

Other information regarding the company, which is either a matter of record or furnished by representatives of the company, is as follows:

The amount of capital stock is one hundred thousand dollars (\$100,000), all of which has been paid in cash, and the company has outstanding two hundred and fifty thousand dollars in bonds. The business in which the company is now engaged is conducting a cold storage warehouse, situated at No. 30 Hall street, Borough of Brooklyn. There is at present no pipe owned by this company which has been laid in public streets. In one case only does it supply cold air to a customer at his place of business, and that by means of a pipe on private property from the warehouse of the company to the rear of a warehouse on Washington street.

The capacity of the present refrigerating plant situated in the company's warehouse is about 100 tons of refrigeration daily, that is the same amount of refrigeration which would be produced by 100 tons of ice. This is in addition to that required for the warehouse itself. There is available space which may be utilized for increasing the capacity to 200 tons daily.

#### Previous and Present Applications.

On March 18, 1902, the Kings County Refrigerating Company, through its President, Ethan Allen Doty, applied to the Comptroller, who has sole charge and control of the Wallabout Market lands, by provision of the Greater New York Charter, for the privilege of installing a refrigerating plant in Wallabout Market by running a pipe through private property from the plant of the company to Flushing avenue; thence under and along Flushing avenue to Wallabout Market, and thence through the cellars of the buildings and crossing the streets of the market.

On April 16, 1903, the Corporation Counsel was requested by the Comptroller to advise him in regard to the necessary procedure for the refrigerating company to follow, in order to acquire the privilege of laying pipes across Washington and Flushing avenues, and in an opinion dated June 4, 1903, he advised the Comptroller that Washington and Flushing avenues were public streets, and that the franchise or right to occupy those streets with pipes for the transportation of refrigerating fluids and other appurtenances must be made by ordinance, and that the procedure be followed as provided for in sections 71 to 74 of the Greater New York Charter. These sections have since been amended by chapters 629 and 630 of the Laws of 1905, transferring the franchise granting power from the Board of Aldermen to the Board of Estimate and Apportionment.

Mr. James J. Phelan in a letter to this Bureau under date of October 21, 1905, states that in December, 1903, a tentative agreement permitting his company to supply the dealers of Wallabout Market was made with the Comptroller, on condition that the company obtain permission from the proper authorities to lay pipes in the streets between the company's plant and the Wallabout Market.

In accordance with the opinion of the Corporation Counsel above referred to, the company has now made application for the right to lay pipes in the public streets in the vicinity of the market and its plant, for the purpose of supplying refrigerant to patrons at their places of business either along the route of the proposed conduit line or in Wallabout Market. This application, therefore, applies only to streets outside of the market, in which it is proposed to lay mains, and also branch pipes from the main pipe line to private property and to the lands of the Wallabout Market.

On February 26, 1906, I reported upon the application of the Seaboard Refrigeration Company to lay pipes in certain streets in Coney Island, Borough of Brooklyn. The object of that company is to secure the right to enlarge and equip its existing system with the latest improvements in order to supply patrons with refrigerant. The proposed method of refrigeration and the method of construction of the conduit lines of both companies are similar.

The conduit line of the applicant is to consist of three pipes inclosed in one conduit twelve inches in diameter, and placed approximately three feet below the surface of the street. Manholes are to be provided at the principal joints of the pipe to insure

quick access in case of emergency. The method of refrigeration is to be the ammonia process, that is, ammonia is forced through the pipes at a high pressure and expanded at the cold storage box or room.

It was stated in the report above mentioned that an examination of franchises for pipe lines which have heretofore been granted by The City of New York showed that those franchises contained few restrictions and that the business of refrigeration through the pipes laid under the franchises was limited to a few companies.

Suggestions were made in the report as to terms and conditions which should be contained in a contract of this kind. Many of these conditions are applicable to the Kings County Refrigerating Company and I will therefore not discuss them here but shall recommend that they be inserted as well as the usual conditions in the contract to that company. They are:

Duration of contract not to exceed fifteen years, with provision for a renewal term of ten years at a revaluation.

The rights granted should be subject to right, title or interest which the abutting property owners may have in the street.

If the entire conduit line is not built within five years after the signing of the contract, the company shall forfeit the right for all lines not then constructed.

The company shall keep in repair for one year all pavement which it has removed for construction or repair.

All work to be done under the supervision of the President of the Borough and the Commissioner of Water Supply, Gas and Electricity, and all expense incurred for inspection of the work of construction, to be borne by the company.

The pipes to be tested after being laid to resist a pressure equal to three times that proposed to be used by the company.

A certificate of such test to be filed with the Board of Estimate and Apportionment.

The company should be required to extend its conduit line and furnish refrigeration to any applicant for service upon the route granted.

A map should be furnished by the company once each year showing the exact location of all conduit lines and manholes constructed, the same to be filed with the Board of Estimate and Apportionment.

The franchise and all conduit lines constructed to be used solely for the purpose of refrigeration and by the Kings County Refrigerating Company only.

The company should keep accurate books of accounts and furnish an annual report to the Comptroller giving the gross earnings during the year, the Comptroller to have access at all times to the books of the company and to examine its officers under oath.

A penalty of fifty dollars (\$50) daily for insufficient public service, said penalty to be for each default.

The amount of deposit in cash or securities to insure the faithful performance of the terms and conditions of the contract recommended in the case of the Seaboard Refrigeration Company was \$5,000. The number of feet of pipe proposed by this applicant is much less than that of the Seaboard Refrigeration Company, and in consequence less interference with public property in the construction and maintenance will be required. For this reason it seems that the amount of deposit from this company should be less than that of the Seaboard Refrigeration Company, and it is therefore recommended that the same be fixed at \$3,000.

The method of charging consumers proposed by the Kings County Refrigerating Company is different from that of the Seaboard Refrigeration Company. The latter company intends to charge a sum per ton of refrigeration. This company states that the charges to be made are to be based upon the capacity of the refrigerating box or room, and proposes that such annual charges shall be ten cents per cubic foot for boxes having a cubical contents of less than 1,000 feet; seven cents per cubic foot for boxes having a cubical contents of between 1,000 and 10,000 cubic feet, and five cents for boxes of over 10,000 cubic feet.

I have caused to be measured several cold storage rooms in use by the tenants of the market and find that the rate proposed will be slightly less than that now paid for the ice required. I would suggest that the maximum annual charge permitted by the terms of the grant shall not be greater than the above amounts for the space used as a refrigerator. As was recommended in the report referred to, the Board of Estimate and Apportionment shall reserve the right to decrease such maximum charges should it deem it advisable at any time during the existence of the contract and term of grant.

The question as to whether a corporation incorporated under the Business Corporations Law as the Kings County Refrigerating Company may lawfully be granted a pipe line franchise was submitted to the Corporation Counsel for an opinion, and in reply thereto, under date of March 19, 1906, he states that there is no alternative for a refrigerating company intending to do business in The City of New York except to incorporate under the Business Corporations Law, and is therefore of the opinion that the Board of Estimate and Apportionment is justified in granting a franchise to such a company. He recommended, however, that there be included as a condition of the franchise a clause requiring the corporation to comply with existing provisions and any future amendments of Article V. of the Transportation Corporations Law, in the same manner as if said company was actually incorporated under the said law. I have therefore drawn a clause such as is recommended by the Corporation Counsel.

#### Compensation.

A representative of the Kings County Refrigerating Company has stated that the probable receipts will be about \$15,000 per annum for this business. In the letter previously referred to from Mr. Phelan, he states that the tentative agreement with the Comptroller provided for a payment of five per cent. of the gross receipts of the company. Presumably the gross receipts mentioned mean the receipts from operation in the market alone. In this application, however, the company asks for rights in the streets other than those required to connect the company's plant with the market. It is evident then that the company expects to do some business outside of the market, and it would seem therefore that part of the charge should be a percentage of the gross receipts of the business done outside of the market lands. The receipts from refrigeration outside of the market lands will depend upon the future development of the district along the routes of the proposed conduit line. At present the greater part of the receipts as estimated by the company will come from the business within the market, the charge for which is under the supervision of the Comptroller, as provided by section 164 of the Greater New York Charter.

If the company were to do business in the market alone, a direct conduit line in the public streets between the company's plant in the market lands would be sufficient. Such a line would be about 300 feet in length, while the total length of the conduit line proposed is approximately 3,900 feet.

This application is similar in character to that of the Seaboard Refrigeration Company, and with due allowance for the differences in the extent of the business of the two companies, I would therefore propose that the compensation for the privilege be as follows:

1. \$5,000 in cash within thirty days after the signing of the contract.
2. A percentage of the gross receipts of the business done outside of the market lands, the minimum sums provided to include such percentages and any compensation which may be required by the Comptroller for privileges in the market.
- During the first five years, 5 per cent. of the gross receipts, which shall not be less, during any one year, than \$750.
- During the second five years, 6 per cent. of the gross receipts, which shall not be less, during any one year, than \$1,000.
- During the remaining five years, 7 per cent. of the gross receipts, which shall not be less, during any one year, than \$1,300.
3. An annual payment of 25 cents per foot of conduit line laid.
4. An annual payment of \$2 for each manhole constructed.

I have embodied all the foregoing terms and conditions in the tentative form of contract, which has been the subject of several conferences with Mr. Phelan, who has acted on behalf of the company, and he has expressed his willingness to accept the contract with the exception of "Section 2, Fourteenth," which provides that the City shall have the right to grant a similar privilege on the same or other terms to any person or corporation. Mr. Phelan wishes the clause to restrict the City from granting a similar privilege upon terms less favorable to it.

In granting franchises in the future, the Board of Estimate and Apportionment will undoubtedly take into consideration the terms upon which previous franchises have been granted. Then, too, it seems to me poor policy on the part of the Board of Estimate and Apportionment to limit future actions of the Board. I believe, therefore, that the clause should remain as it is now drawn.

It is recommended that the Board modify the proposed contract as it sees fit, and that the contract be then sent to the Corporation Counsel for examination and for such suggestions as he may deem it advisable to make, in order that the City's interest may be fully protected. When approved by the Corporation Counsel the contract should be returned to the Board, and if it is then the intention of the Board to grant the franchise, a resolution should be adopted approving of the proposed terms and conditions, and ordering the same entered upon the minutes and to be advertised for twenty days in the CITY RECORD and twice in two daily newspapers, and a day set for a public hearing, after which final action may be taken.

Respectfully,

HARRY P. NICHOLS, Assistant Engineer.

KINGS COUNTY REFRIGERATING COMPANY.

#### Proposed Form of Contract.

This contract, made this \_\_\_\_\_ day of \_\_\_\_\_, 190\_\_\_\_, by and between The City of New York, party of the first part, by the Mayor of said City acting for and in the name of said City, under and in pursuance of the authority of the Board of Estimate and Apportionment of said City, and Kings County Refrigerating Company, a domestic corporation of the State of New York, hereinafter called the Company, party of the second part, witnesseth:

In consideration of the mutual covenants and agreements herein contained, the parties hereto do hereby covenant and agree as follows:

Section 1. The City of New York hereby grants to the Company, subject to the conditions and provisions hereinafter set forth, the right and privilege to construct, maintain and operate a conduit not to exceed twelve inches in diameter, with the necessary branches and connections therefrom, leading directly into private property, and also into the lands of the Wallabout Market, for the sole purpose of supplying refrigerant to consumers, said conduits and branches to be beneath the surface of each of the following named streets, avenues and highways, between the points described in the following route, all situate in the Borough of Brooklyn, City of New York, to wit:

Route—Beginning at a point in Hall street, about 325 feet north of the northerly line of Park avenue; thence southerly in, under and along Hall street to Park avenue; thence westerly in, under and along Park avenue to Washington avenue, and thence northerly in, under and along Washington avenue to a point in Washington avenue opposite Pier 1 in the Wallabout Basin, which point is about 1,750 feet northerly from the northerly side of Flushing avenue.

Also beginning at the point above described in Hall street; thence northerly in, under and along Hall street to Flushing avenue; thence westerly in, under and along Flushing avenue to and connecting with the pipe line before described in Washington avenue.

Also beginning at a point in the last described line, at the intersection of Flushing avenue and Hall street; thence easterly in, under and along Flushing avenue to Ryerson street, together with such branches from each of the above described routes leading directly into private property or lands of the Wallabout Market as may be necessary for the purpose of supplying patrons of the Company with cold air or refrigerant, said route being shown on a map entitled "Map showing the proposed pipe line of the Kings County Refrigerating Company, to accompany petition to the Board of Estimate and Apportionment, dated July 13, 1905," signed by James J. Phelan, secretary, copy of which is annexed hereto and made a part of this grant.

Sec. 2. The grant of this privilege is subject to the following conditions:

First—The said right to lay one conduit line in each of the streets, avenues or highways, and between the limits as hereinbefore described, and the privilege to maintain and operate the same shall be held and enjoyed by the said Company, its lessee or successors, for a term of fifteen years from the date of the signing of this contract, with the privilege of renewal of said grant for a further period of ten years upon a fair revaluation of said right and privilege.

If the Company shall determine to exercise its privilege of renewal it shall make application to the Board of Estimate and Apportionment of The City of New York, or any authority which shall be authorized by law to act for the City in place of the said Board. Such application shall be made at any time not earlier than two years and not later than one year before the expiration of the original term of this grant. The determination of the revaluation shall be sufficient, if agreed to in writing by the Company and the Board of Estimate and Apportionment, or such other authority in its place. If the Company and the Board, or such other authority in its place for the City, shall not reach such agreement on or before the day one year before the expiration of the original term of this grant, then the annual rate of compensation for such succeeding ten years shall be reasonable, and either the City (by the Board or such other authority in its place) or the Company shall be bound upon request of the other to enter into a written agreement with such other authority, fixing the rate of such compensation at such amount as shall be reasonable, and if the parties shall not forthwith agree upon what is reasonable, then the parties shall enter into a written agreement fixing such annual rate at such amount as shall be determined by three disinterested freeholders selected in the following manner:

One disinterested freeholder shall be chosen by the Board of Estimate and Apportionment or its successors in authority; one disinterested freeholder shall be chosen by the Company; these two shall choose a third disinterested freeholder, and the three so chosen shall act as appraisers and shall make the revaluations aforesaid. Such appraisers shall be chosen at least six months prior to the expiration of the contract, and their report shall be filed with the Board of Estimate and Apportionment or its successors in authority within three months after they are chosen. They shall act as appraisers and not as arbitrators. They may base their judgment upon their own experience and upon such information as they may obtain by inquiries and investigations without the presence of either party. They shall have the right to examine the books of the Company and its officers under oath. The valuations so ascertained, fixed and determined shall be conclusive upon both parties, but shall not in any event be less than the minimum amount fixed as the sum to be paid annually for the last year of this original grant. If in any case the annual rate shall not be fixed prior to the termination of the original term of this grant, then the Company shall pay the annual rate theretofore prevailing until the new rate shall be determined, and shall then make up to the City the amount of any excess of the annual rate then determined over the previous annual rate. The compensation and expenses of the said appraisers shall be borne jointly by the City and the Company, each paying one-half thereof.

Second—Upon the termination of this contract, or if the same is renewed, then at the termination of the said renewal term or upon the termination of the rights hereby granted, or for any other cause, all conduit lines and appurtenances thereto, constructed pursuant to this contract, shall be and become the property of The City of New York, without compensation therefor, and the same may be used by the City for any purpose whatsoever. If, however, at the termination of this grant, as above, the City, by the Board of Estimate and Apportionment, or its successors in authority, shall so order by resolution, the said Company shall remove, at its own expense, said conduit line and all appurtenances thereto, and shall restore the streets and pavements to their original condition.

Third—The Company, its successors or assigns, shall pay for this privilege to The City of New York, the following sums of money, to wit:

1. Five thousand dollars (\$5,000) in cash within thirty (30) days after the signing of the contract.
  2. During the first five years of this contract an annual sum which shall in no case be less than seven hundred and fifty dollars (\$750), and which shall be equal to 5 per cent. of the gross receipts of the Company, if such percentage shall exceed the sum of seven hundred and fifty dollars (\$750).
  - During the second five years of this contract an annual sum which shall in no case be less than one thousand dollars (\$1,000), and which shall be equal to 6 per cent. of the gross receipts of the Company, if such percentage shall exceed the sum of one thousand dollars (\$1,000).
  - During the third and remaining five years of this contract an annual sum which shall in no case be less than thirteen hundred dollars (\$1,300), and which shall be equal to 7 per cent. of the gross receipts of the Company, if such percentage shall exceed the sum of thirteen hundred dollars (\$1,300).
- The gross receipts as above shall be the total receipts of the Company from all business of furnishing refrigerant to consumers outside of its warehouse at No. 30 Hall street, and outside of the lands of the Wallabout Market. The

minimum sums provided to be paid annually shall include the percentages of such gross receipts as above and also such sums as may be paid under any agreement made with the Comptroller for privileges in the lands of the Wallabout Market.

3. An annual payment of twenty-five (25) cents for each linear foot of conduit line and two dollars (\$2) for each manhole constructed within the limits of any street, avenue or highway. The sums due shall be calculated from the day when permit is obtained to open the streets for any section of the work.

All sums herein provided for shall be paid into the Treasury of The City of New York on November 1 of each year, and shall be for the amount due to September 30 next preceding.

Any and all payments made by the terms of this franchise to The City of New York by the Company shall not be considered in any manner in the nature of a tax, but such payments shall be in addition to any and all taxes of whatsoever kind or description, now or hereafter required to be paid by any ordinance of The City of New York or by any law of the State of New York.

Fourth—The annual charges or payments shall continue throughout the whole term of the privilege hereby granted, whether original or renewal, as hereinbefore provided, notwithstanding any clause in any statute or in the charter of any other company, providing for payments for refrigerating rights or franchises at a different rate, and no assignment, lease or sublease of the rights or privileges hereby granted, whether original or renewal, or of any part thereof, or of any of the routes mentioned herein, or of any part thereof, shall be valid or effectual for any purpose unless the said assignment, lease or sublease shall contain a covenant on the part of the assignee or lessee that the same is subject to all the conditions of this grant; and that the assignee or lessee assumes and will be bound by all of said conditions, and especially said condition as to payments, anything in any statute or in the charter of such assignee or lessee to the contrary notwithstanding, and that the said assignee or lessee waives any more favorable conditions created by such statute or its charter, and that it will not claim by reason thereof or otherwise, exemption from liability to perform each and all of the conditions of this grant. Nothing herein contained shall apply to any mortgage or mere lienor, but shall apply to any purchaser upon foreclosure, or under or by virtue of any provision of a mortgage or lien.

Fifth—The rights and privileges granted hereby shall not be assigned either in whole or in part, or leased or sublet in any manner, nor shall title thereto or right, interest or property therein pass to, or vest in any other person or corporation whatsoever, either by the act of the Company, its successor or assigns, or by operation of law, whether under the provisions of the statutes relating to the consolidation or merger of corporations, or otherwise, without the consent of The City of New York, acting by the Board of Estimate and Apportionment, or its successor in authority, evidenced by an instrument under seal, anything herein contained to the contrary thereof in any-wise notwithstanding, and the granting, giving or waiving of any one or more of such consents shall not render unnecessary any subsequent consent or consents. This provision, however, shall not apply to the making of a mortgage, but shall apply to a sale under foreclosure.

Sixth—The grant of this privilege is subject to whatever right, title or interest the owners of abutting property or others may have in and to the streets, avenues and highways on the route heretofore described.

Seventh—The Company shall complete at least two hundred and thirty-five (235) feet of the conduit line and have the same in operation within one year from the date of the signing of this contract, otherwise this grant shall cease and determine.

If, upon any of the routes hereinbefore described or upon any portion thereof, there shall not be constructed and in actual operation on May 1, 1911, a conduit line as herein provided, the said route or portion thereof shall be conclusively taken to have been abandoned by the Company and so much of the rights hereby granted as pertain to such routes or parts of route not then constructed from and after May 1, 1911, shall be thereupon forthwith and immediately forfeited, without judicial or other proceedings.

Eighth—All construction which shall be made under this grant shall be done in a manner solely upon the terms and conditions hereafter to be imposed by the President of the Borough of Brooklyn and the Commissioner of Water Supply, Gas and Electricity, or their respective successors in authority. The said Company shall submit a working plan of construction to the said President and to the said Commissioner, which shall include and show in detail the method of construction of said pipe line, connections, manholes and other appurtenances, and the mode of protection of all sub-surface construction under the streets, avenues and highways described in the route.

Ninth—The said Company shall bear the expense of keeping in repair for one year after it has been replaced all pavement which may at any time be removed by said Company, either for the purpose of construction or for the repairing of the pipe line and its appurtenances.

Tenth—The said Company shall bear the expense of inspection, which may be required by the President of the Borough of Brooklyn and the Commissioner of Water Supply, Gas and Electricity, of all the work of construction required, or removal of the said pipe line, which shall be done under this grant.

Eleventh—The Company shall cause a test to be made of the pipes laid under this grant before said pipes shall be used for the conveyance of gas or fluid under pressure for refrigerating purposes. The pipes so tested shall be submitted to a pressure of 450 pounds per square inch, and such test shall be made under the supervision of the Commissioner of Water Supply, Gas and Electricity. A certificate showing that such a test has been made without injury to the pipes shall be executed by an officer of the Company, endorsed by the Commissioner of Water Supply, Gas and Electricity and filed with the Board of Estimate and Apportionment.

Twelfth—The Company, its successor or assigns, shall not charge consumers more than the following annual rates:

For boxes or rooms having a cubical contents of from 0 to 1,000 cubic feet, 10 cents per cubic foot; from 1,000 to 10,000 cubic feet, 7 cents per cubic foot; 10,000 cubic feet or over, 5 cents per cubic foot.

During the term of this contract the Board of Estimate and Apportionment, or its successor in authority, shall have absolute power to regulate the maximum rates, provided that such rates shall be reasonable and fair.

All refrigerant which may be required by The City of New York for its own use at any point along the route herein described, or within lands of the Wallabout Market, shall be furnished by the Company without cost to the City.

The Company, upon the application for refrigeration of any person or corporation located along the routes herein authorized, shall extend its conduit to such premises and furnish to said applicant refrigerant at the prices which are herein prescribed, or at which such prices may be hereafter fixed; otherwise this contract shall cease and determine at the option of the Board of Estimate and Apportionment.

Thirteenth—A correct map shall be furnished to the Board of Estimate and Apportionment by the Company, showing the exact location of all the conduit lines and manholes laid with reference to the curb lines of the streets and the street surface, and the same shall be furnished on the first day of November of each year until all pipe lines which are authorized by this grant are constructed, or until the right hereby authorized to construct pipe lines along the routes described have ceased by limitation, as herein provided.

Fourteenth—The grant of this privilege shall not affect in any way the right of The City of New York to grant a similar privilege upon the same or other terms and conditions to any other person or corporation.

Fifteenth—The Company shall assume all liability by reason of the construction and operation of the conduit line, and the City shall assume no liability whatsoever to either persons or property by reason of its construction.

As a condition of this grant the Company, its successor or assigns, hereby agrees to repay to the City any damages which the City shall be compelled to pay by reason of any acts or defaults of the Company, its successor or assigns.

Sixteenth—In case of any violation or breach or failure to comply with any of the provisions herein contained, this contract may be forfeited or avoided by The City of New York by a suit brought by the Corporation Counsel, on notice of ten days to the said Company.

Seventeenth—The conduit line hereby authorized shall be used only by the Kings County Refrigerating Company, and for no other purpose than for supplying refrigeration by the ammonia process, or such other process as may be consented to by the Board of Estimate and Apportionment.

Eighteenth—The Company shall at all times keep accurate books of accounts of the gross earnings from the privileges granted under this contract. The Company shall, on or before November 1 in each year, make a verified report to the Comptroller of The City of New York of the business done by the Company for the year ending Septem-

ber 30 next preceding, as he may prescribe. Such report shall contain the number of feet of conduit laid and the number of manholes constructed during the year, and also a statement of the gross receipts from all business of furnishing refrigerant to consumers outside of its warehouse at No. 30 Hall street, together with such other information and in such detail as the Comptroller may require.

The Comptroller shall have access to all books of the Company for the purpose of ascertaining the correctness of its report and may examine its officers under oath.

Nineteenth—The Company shall comply with the existing provisions of Article V. of chapter 566 of the Laws of 1890, and future amendments thereto, except in so far as the same are inconsistent with the provisions of this contract, and provided that all powers of the Company shall be limited by the provisions of this contract.

Twentieth—If the said Company, its successors or assigns, shall fail to give efficient public service at the rates herein fixed or fails to maintain its structures in good condition throughout the full term of its occupancy of such streets, the Board of Estimate and Apportionment of The City of New York may give written notice to the said Company specifying any default on the part of said Company and requiring said Company to remedy the same within a reasonable time, and upon the failure of the Company to remedy the said default within a reasonable time, said company shall, for each day thereafter during which the default or defect remains, pay to The City of New York a sum of \$50, as fixed or liquidated damages, or the said City, in case such structures, which may affect the surface of the streets, shall not be put in good condition within a reasonable time after notice by the Board as aforesaid, shall have the right to make all needed repairs at the expense of the Company, in which case the said Company shall pay to the City the amount of the cost of such repairs with legal interest thereon, all of which sums may be deducted from the fund hereinbefore provided.

Twenty-first—This grant is upon the express condition that the Company, within thirty days after the execution of this contract and before anything is done in exercise of the rights conferred thereby, shall deposit with the Comptroller of The City of New York the sum of three thousand dollars (\$3,000), either in money or in securities, to be approved by him, which fund shall be security for the performance by the Company of the terms and conditions of this grant, especially those which relate to the payment of the annual charge for the privilege and the penalties herein provided, and in case of default in the performance by said Company of such terms and conditions, The City of New York shall have the right, after due notice, to collect the same from the said fund without legal proceedings, or after default in the payment of the annual charges, shall collect the same, with interest, from said fund after ten days' notice in writing to the said Company. In case of any drafts so made upon this security fund, the said Company shall, upon thirty days' notice in writing, pay to the Comptroller of The City of New York a sum of money sufficient to restore the said fund to the original amount of three thousand dollars (\$3,000), and in default thereof, the grant hereby made may be canceled and annulled at the option of the Comptroller of The City of New York, acting on behalf of said City. No action or proceeding or rights under the provisions of this section shall affect other legal rights, remedies or causes of action belonging to The City of New York.

Twenty-second—The Company promises, covenants and agrees on its part and behalf to conform to and abide by and perform all the terms, conditions and requirements in this contract fixed and contained.

In witness whereof the party of the first part, by its Mayor, thereunto duly authorized by the Board of Estimate and Apportionment of said City, has caused the corporate name of said City to be hereunto signed, and the corporate seal of said City to be hereunto affixed, and the party of the second part, by its officers, thereunto duly authorized, has caused its corporate name to be hereunto signed, and its corporate seal to be hereunto affixed, the day and year first above written.

The Comptroller moved that the matter be laid over. There being no objection, it was so ordered.

Williams Terminal Railway Company.

The Secretary presented the following:

To the Honorable, the Board of Estimate and Apportionment:

The petition of the Williams Terminal Railway Company respectfully shows:

1. That your petitioner is a street surface railway corporation organized and existing under the laws of the State of New York, having filed its certificate of incorporation in the office of the Secretary of State of New York on the 29th day of July, 1905, for the purpose of constructing, maintaining and operating a street surface railway in the Borough of Brooklyn, City of New York.

2. That your petitioner desires to obtain from the Board of Estimate and Apportionment of The City of New York its consent to and a grant of the right, privileges and franchise to use a portion of Bowne street, in the Borough of Brooklyn, City of New York, for street railway purposes, and for the construction, maintenance and operation of a single track street surface railway upon and along the surface of said Bowne street, a description of such proposed railway being as follows: Beginning at a point southeast of Imlay street, where it will connect with the track of the New York Dock Company and running southeasterly along Bowne street to and into the property of J. H. Williams & Co., on the easterly side of Richards street, the entire length of said road not to exceed nine hundred feet, together with the necessary connections, switches, sidings, turn-outs, turn-tables, cross-overs and suitable standstills necessary for the accommodation and operation of the said railroad by the overhead system of electricity, or other power lawfully employed by connecting railroads, all in the Borough of Brooklyn, City and State of New York.

3. Your petitioner further shows that there is no adequate means of transportation provided between the termini of the proposed railroad, and your petitioner believes there is a public demand for the construction and operation of this proposed railroad, and that such construction and operation will be a public convenience and benefit, the said railroad to be used for freight only.

Wherefore, your petitioner prays that the notice of the time and place when and where this application will be first considered be given, pursuant to provisions of section 92 of the Railroad Law, and all other laws applicable thereto, and that consent or grant be given in the form of an ordinance subject to the laws and ordinances applicable thereto, and upon terms and conditions to be fixed in accordance with the provisions of the Greater New York Charter.

THE WILLIAMS TERMINAL RAILWAY COMPANY,

By JAMES H. WILLIAMS, Vice-President.

Dated, City of New York, Borough of Brooklyn, February 23, 1906.

State of New York, County of Kings, ss.:

James H. Williams, being duly sworn, deposes and says, that he is the Vice-President of the Williams Terminal Railway Company, the petitioner named in the foregoing petition; that he has read the foregoing petition and knows the contents thereof; that the same is true of his own knowledge, except as to the matters therein stated to be alleged on information and belief, and as to those matters he believes it to be true.

JAMES H. WILLIAMS.

Sworn to before me this 23d day of February, 1906.

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx and Queens—15.

The following was offered:

Resolved, That the Board proceed to make inquiry as to the money value of the franchise or rights proposed to be granted to the Williams Terminal Railway Company and the adequacy of the compensation proposed to be paid therefor, and also as to the terms and conditions, including the provisions as to rates and charges that should be embodied in the form of contract to be entered into; and for the purpose of making such inquiry, be it further

Resolved, That the application be referred to the Bureau of Franchises for investigation and report.

• Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx and Queens—15.

#### *Bensonhurst, Bath Beach and Coney Island Route.*

The Secretary presented a communication from the Board of Rapid Transit Railroad Commissioners for The City of New York, transmitting resolutions as to route and general plans of a rapid transit railway along Fortieth street, New Utrecht avenue, Eighty-sixth street, Stillwell avenue and other streets in the Borough of Brooklyn and known as the "Bensonhurst, Bath Beach and Coney Island Route," and requesting the approval of the Board of Estimate and Apportionment.

BOARD OF RAPID TRANSIT RAILROAD COMMISSIONERS,  
No. 320 BROADWAY, NEW YORK.

To the Board of Estimate and Apportionment of The City of New York:

The Board of Rapid Transit Railroad Commissioners for The City of New York was heretofore duly organized pursuant to chapter 4 of the Laws of 1891, as amended, and since such organization it has conducted the inquests and investigations necessary to determine whether it is for the interest of the public and of the City that a rapid transit railway or railways for the conveyance of persons and property should be established therein; and, after such inquests and investigations, has duly determined, by resolutions adopted on the 22d day of March, 1906, by the concurrent vote of at least six of its members, that the rapid transit railway hereinafter described, in addition to any already existing, authorized or proposed, is necessary for the interest of the public and the City, and has duly determined and established the routes thereof and the general plans of construction; and it herewith transmits to your Honorable Body certified copies of the routes and general plans so determined and established.

Briefly stated, the proposed route begins at a point in Fourth avenue, in the Borough of Brooklyn, at which connections (without grade crossings) can conveniently be made with the projected subway running under Fourth avenue from Flatbush avenue to Fort Hamilton. From thence the new route runs under Fortieth street and New Utrecht avenue to Eighty-sixth street, then through Eighty-sixth to a point between Twenty-third and Twenty-fourth avenues, where it emerges from the ground and becomes an elevated railway, and continues thence over Eighty-sixth street and Stillwell avenue to Coney Island. In effect, the proposed route is an extension of the Fourth avenue and Fort Hamilton subway, the plans for which were approved by your Board on July 14, 1905, and by the Mayor on July 28, 1905. This latter route is so planned, as the records of your Board will show, that connections can be made with the subway now constructing and with the Prospect Park extension heretofore authorized, and also with the Brooklyn and Manhattan loop lines, approved by your Board on July 14, 1905. In this way direct communication may be established between all points along the new route herewith submitted, and the points in the boroughs of Brooklyn, Manhattan and The Bronx, which are reached either by the present subway or by the Brooklyn and Manhattan lines above referred to.

The proposed new route traverses a part of the Eighth Ward and practically all of the Thirtieth and Thirty-first Wards in the Borough of Brooklyn. The population of this district at the present time is said to be upwards of ninety thousand, and is increasing at a very rapid rate. Borough Park, Bensonhurst, Bath Beach, Blyth-bourne, Martense, Lefferts Park and Homewood are the local designations of various parts of the district through which the route passes after leaving Fourth avenue and before reaching Coney Island. It is stated that during the year 1905 building improvements in the district involved an actual expenditure of six million dollars, and that the average house constructed was built at an expense of from five thousand to ten thousand dollars. It is anticipated that the year 1906 will see a like increase.

The population of the district is made up almost exclusively of persons who are engaged in business in the Borough of Manhattan, and who go to and fro between their residences and their places of business every day. The present means of communication are overcrowded, uncomfortable, inadequate and probably incapable of being materially improved.

The figures above given as to the population of the district through which the road passes do not include the population of Coney Island nor the number of transient visitors. The Commission is informed that in the year 1905 twenty-eight million persons visited Coney Island, and that ninety-four per cent. of this number came from the Borough of Manhattan. It is, of course, unnecessary for the Commission to call the attention of your Honorable Board to the desirability of improving by every possible means the conveniences of travel between Coney Island and the rest of the City, nor to call attention to the delay and difficulty of reaching that point at the present time. The Coney Island traffic on the projected line of railway would, of course, be in itself a very great factor in making that a profitable line.

As above stated, the proposed new railway is to be in a subway from Fourth avenue to a point in Eighty-sixth street, between Twenty-third and Twenty-fourth avenues, where it will emerge from the ground. At certain points on this road it will necessarily be constructed at a very considerable depth below the surface, being as much as one hundred feet under Sixth avenue. This portion of the road, it is proposed, shall be of the type of subway already familiar to all the citizens of New York. Southeastern from the point where the line emerges from the ground it would be impossible, except at what might prove to be prohibitive expense, to construct a subway under the low-lying land near Coney Island and under the Gravesend Ship canal. It is therefore proposed to construct an elevated railroad of a type similar to that now in operation for the rapid transit railway in Westchester avenue, Southern Boulevard and the Boston road, in the Borough of The Bronx.

Between Twenty-third and Twenty-fourth avenues, where the railway emerges from the ground, it will be necessary to construct it partly in open cut and partly on an embankment, thus closing passage across Eighty-sixth street between the two avenues last mentioned. This mode of construction, which is similar to that on Broadway near One Hundred and Twenty-second street and One Hundred and Thirty-fifth street in Manhattan, will involve an occupation of about sixty feet in width of the entire street, leaving a very inadequate width on each side for sidewalks and roadways. It will consequently, probably, be thought expedient, if the route herewith submitted is approved, to provide for the widening of Eighty-sixth street between these two avenues. The property at that point is practically unimproved at the present time, and the necessary widening could be made without serious expense. It would doubtless be thought proper to charge the cost of such widening to the City at large, and not assess it upon the neighboring property; and it might

prove possible to recover the amount from the company operating the new railway by adding to its rental an annual sum equal to the interest on the bonds issued to pay for the street widening plus a suitable sinking-fund payment.

It is proper to add that a very large majority of the abutting property owners along the line have already consented to the construction and operation of the proposed railroad.

The route and general plans above set forth are submitted to your Honorable Body for its approval.

In witness whereof this Board has caused its seal to be hereto affixed and these presents to be signed by its President and Secretary this 22d day of March, 1906.

[SEAL OF THE BOARD.]

A. E. ORR, President.

#### *Resolutions Adopted.*

Whereas, The Board of Rapid Transit Railroad Commissioners for The City of New York has determined that a rapid transit railway or railways for the convenience and transportation of persons and property in addition to those already existing, authorized or proposed, are necessary for the interest of the public and of The City of New York, and should be established therein as hereinafter provided; and

Whereas, This Board has duly made the inquest and investigation necessary or proper in the premises and all such inquests and investigations as are necessary or proper for such determination; now therefore

This Board, by the concurrent votes of at least six members, does hereby adopt the following route or routes for an additional rapid transit railway or railways in The City of New York, and does hereby determine and establish the said additional route or routes thereof as follows, and does hereby adopt a general plan of construction of the said railway or railways, the route or routes of which are herein provided, and does in such general plan hereby adopted show the general mode of operation and such details as to manner of construction as may be necessary to show the extent to which any street, avenue or other public place is to be encroached upon and the property abutting thereon affected.

This Board, in adopting the said route or routes and general plans, expressly reserves all the powers in relation to the construction of the said route or routes which are conferred upon it by section 34 of the Rapid Transit Act. In particular it reserves the right to contract for the construction of the whole road or all the roads provided for in the following plans in a single contract; or by separate contracts, executed from time to time, to provide for the construction of parts of the said road or roads or for the construction at first of two or more tracks over a part or parts of such road or roads, and afterwards of one or more additional tracks over a part or parts of such road or roads, as the necessities of The City of New York and the increase of its population may in the judgment of this Board require; or to provide in a contract for any part of such railroad that, at a future time, upon the requirement of this Board, the contractor shall construct the remainder or any part of the remainder of said road as the growth of the population or the interests of the City may, in the judgment of this Board require.

#### *Route.*

A route the centre line of which shall begin in the Borough of Brooklyn at a point at or near the intersection of Fourth avenue and Thirty-sixth street, at which connections can conveniently be made with another subway or other subways to be hereafter constructed running southerly under Fourth avenue. The said centre line of the route hereby adopted shall thence run easterly and southeasterly, curving under Fourth avenue and private property, Thirty-ninth street and private property again, to a point in Fortieth street near the intersection of Fortieth street with the westerly line of Fifth avenue; running thence easterly under Fortieth street to a point at or near the intersection of Fortieth street with the easterly side of Ninth avenue; curving thence southeasterly and southerly under Fortieth street and private property to a point near the intersection of the westerly side of New Utrecht avenue with the northerly side of Forty-first street; thence running under and along New Utrecht avenue in a southerly direction to a point immediately south of its intersection with Eighty-first street; thence curving southeasterly and easterly under private property, Eighty-fourth street, private property again, Eighteenth avenue, Eighty-fifth street and private property again, to a point in Eighty-sixth street between Eighteenth and Nineteenth avenues; running thence southeasterly under and along Eighty-sixth street to a point about half way between Bay Thirty-fourth street and Bay Thirty-fifth street, where the said route will emerge from the surface and continue thence upon a viaduct structure; and from the said point running southeasterly along and over Eighty-sixth street to a point at or near the intersection of Eighty-sixth street with Bay Forty-first street; and then crossing southeasterly over private property, Twenty-sixth avenue and private property to a point in Stillwell avenue between its intersection with Eighty-sixth street and its intersection with Bay Forty-third street; and thence running southerly over and along Stillwell avenue and crossing the Gravesend Ship Canal on a bridge and continuing along Stillwell avenue to a point at or near the intersection of the centre line of Stillwell avenue with the southerly line of Surf avenue (Coney Island).

#### *Plan of Construction.*

The general plan of construction hereby adopted is as follows:

For the whole of the route above described there shall be four tracks.

All the above-mentioned tracks shall be substantially parallel with each other and on substantially the same level except that between the easterly side of Fifth avenue and the point of connection with the subway or subways to be constructed in Fourth avenue, the tracks shall be at such levels and on such alignments as to permit of proper connections; and except, also, that wherever else required by special necessities of surface or subsurface structures or other special or local necessities or for the purpose of avoiding grade crossings, any one or more of the tracks may be elevated above or depressed below the other track or tracks so far as necessary.

The tracks shall be placed in tunnels or subways, except that easterly and southerly from the point where the said route as above described emerges to the surface in Eighty-sixth street the tracks shall be carried upon a viaduct over and along the above described route on Eighty-sixth street and Stillwell avenue. Near the said point of emergence the said railroad will be constructed partly in open cut and partly on an embankment. If and when all the four tracks herein provided for are constructed, the said open cut and embankment will occupy a space in Eighty-sixth street about sixty feet in width, extending from Twenty-third avenue to Twenty-fourth avenue. The open cut portion will extend southeasterly from Twenty-third avenue to about half way between Bay Thirty-fourth street and Bay Thirty-fifth street; and the embankment will extend southeasterly from the end of the open cut to Twenty-fourth avenue. The said open cut and embankment will therefore occupy all but about forty feet in width of said Eighty-sixth street between Twenty-third avenue and Twenty-fourth avenue, leaving only about twenty feet on each side for a roadway and sidewalk and probably necessitating a widening of the said street between the said avenues by the legally constituted authorities of The City of New York.

The tracks shall be placed in general under or over the central part of the longitudinal streets and avenues forming a portion of the route above described so far as may be practicable and convenient, but wherever required by special or local necessities or for curves, the tracks or any one or more of them may be diverted as far as necessary to one side or the other of such streets or avenues, or any of them, and any part of said streets or avenues may be occupied so far as the purposes of this general plan require.

Wherever the tracks change from tunnel to viaduct or from viaduct to tunnel the change shall be made so as to involve the use of the surface to the least possible extent consistent with the proper gradient for the tracks.

Wherever necessary for the proper support of the surface of a street, the roof of the tunnels shall be of iron or steel with brick or concrete arches supported when necessary by iron or steel or masonry columns and resting upon masonry walls, or the roof shall be a masonry structure, or the whole of the lining may be of metal.

The roof of the tunnels when under a street shall in general be as near the street surface as street conditions and grades will conveniently permit, the base of the rail under Sixth avenue being, however, about one hundred feet below the surface, at Seventh avenue about ninety-five feet below the surface, at Eighth avenue about sixty feet below the surface and at Ninth avenue about forty feet below the surface.

The tunnels shall in no case be less than thirteen feet in height in the clear.

There shall be a width in the tunnels not exceeding fifteen feet for each track in addition to the thickness of the supporting walls, except that at stations, switches,

turn-outs, curves and cross-overs the width may be increased. Viaducts shall be built with a width of twelve and a half feet for each track except on curves or where greater width is required for special construction, and with an additional width of three feet on each side for outside footways. Viaducts may be built of metal or of masonry or of both.

The tracks shall be of standard gauge, that is to say, of the width of four feet and eight and one-half inches between the rails.

Adjacent tracks shall be connected by necessary and suitable switches and connections, and an additional track for siding accommodations may be constructed not to exceed in length one-quarter of a mile for each mile of roadway.

The tracks wherever constructed below the surface may at any point of the route be placed in the same tunnel; or there may be separate tunnels for one or more tracks, as shall be most convenient.

Stations and station approaches shall in general be at the intersections of streets and shall be built under or, if the positions of the tracks so require, over the streets and immediately adjoining private abutting property or through private property to be acquired for the purpose, or both under or over streets and through private property as aforesaid. The streets under which stations or station approaches shall be built may include cross streets, but no part of any cross street shall be used for a station approach at a distance greater than seventy-five feet from the exterior line or side of the longitudinal street or avenue of the route.

Wherever along any part of the routes above described it shall be necessary for the proper maintenance or accommodation of pipes, wires, sewers or other subsurface structures, the removal, construction or reconstruction of which shall be rendered necessary by the construction of the railway, the width of any tunnel or subway may be enlarged on either or both sides by an additional width on each side of the route, not to exceed fifteen feet on either side, provided always that the limits hereinbefore provided as to certain longitudinal streets of the route shall be observed. All or any pipes, wires, sewers or other subsurface structures may be placed in suitable galleries to be constructed within the additional widths hereinbefore permitted. At each cross street where accommodation for pipes, wires, sewers and other subsurface structures shall be those provided within the tunnels or subways, such tunnels or subways, in order to provide convenient access to the same, may have, within the limit of the sides or exterior lines of such cross streets or such lines produced, an additional width on each side of the routes not to exceed fifteen feet.

Pipes, wires, sewers, street railway tracks, poles for electric wires and other surface and subsurface structures at any part of the said routes shall be removed or disturbed only when necessary for the construction and operation of the railway above referred to, and if removed or disturbed shall be placed upon, over or under the several streets in such manner and in such location that the use and service thereof shall not be impaired. Pipes, wires, sewers and other subsurface structures shall be left or shall be so arranged as to give free access for their repair or alteration, or for the placing with them, so far as there may be space, of new pipes, wires, sewers and other like structures, and for making connections between the same and abutting buildings at any time.

The manner of construction of subways shall be by tunneling or open excavation. In parks, parkways and public places under the jurisdiction of the Department of Parks, all trees injured or destroyed in the course of construction shall be replaced, under the direction and to the satisfaction of said Department.

#### Mode of Operation.

The general mode of operation of the route or routes above described shall be by electricity or some other power not requiring combustion within the tunnels, and the motors shall be capable of moving trains at a speed of not less than forty miles per hour for long distances, exclusive of stops.

#### Definitions.

The word "streets," wherever used herein, shall include an avenue or public place.

The words "Rapid Transit Act," wherever used herein, shall be taken and held to mean chapter 4 of the Laws of 1891, entitled "An act to provide for rapid transit railroads in cities of over one million inhabitants," as amended by chapter 752 of the Laws of 1894 and other acts of the Legislature.

#### Maps and Drawings.

It is further

Resolved, That the maps and drawings entitled "Board of Rapid Transit Railroad Commissioners of The City of New York—Routes and General Plan—Bath Beach Route," one of the said drawings being marked "Key Map No. 4, Borough of Brooklyn," and the other drawings being marked "Brooklyn No. 4, Sheets Nos. 1, 2, 3 and 4," be and they are hereby adopted as showing the foregoing route and general plan for convenience merely, and that said maps and drawings are not to be deemed a part of the description of the routes or a part of the general plans for any purpose whatever.

I certify that the above are true copies of resolutions adopted by the Board of Rapid Transit Railroad Commissioners, at its meeting held on the 22d day of March, 1906, six Commissioners being present and six voting in favor thereof.

In witness whereof, I have hereunto set my hand and the seal of the Board this 22d day of March, 1906.

[SEAL OF THE BOARD] BION L. BURROWS, Secretary.

The following was offered:

Resolved, That the communication be received and, in pursuance of law, this Board hereby appoints Friday, the 6th day of April, at 10.30 o'clock in the forenoon, as the time, and Room 16, in the City Hall, Borough of Manhattan, as the place, when and where such plans and conclusions will be considered; and be it further

Resolved, That the Secretary be directed to cause notice of such consideration to be published in the CITY RECORD.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx and Queens—15.

#### Traders' Hygiene Ice Company.

An application was received from the Traders' Hygiene Ice Company requesting permission to construct, maintain and use a ten-inch pipe under One Hundred and Thirty-sixth street, beginning at a point in the south side of One Hundred and Thirty-sixth street and continuing westerly 180 feet from the westerly line of Madison avenue to the bulkhead of the easterly One Hundred and Thirty-sixth street slip of the Harlem river, for the purpose of pumping salt water from the Harlem river to the ice plant of the company on the south side of One Hundred and Thirty-sixth street, 170 feet west of Madison avenue.

Which was referred to the Bureau of Franchises for investigation and report.

The Secretary presented the following:

CITY OF NEW YORK, OFFICE OF THE MAYOR, }  
March 26, 1906. }

To the Secretary of the Board of Estimate and Apportionment:

SIR—The Mayor directs me to acknowledge your letter of March 23, and to return herewith, duly approved by his Honor this day, copy of resolution granting to the Brooklyn City Railroad Company the right to construct, maintain and operate a single track railway in Fulton, Liberty and Washington streets, Borough of Brooklyn.

Respectfully,

WILLIAM A. WILLIS, Assistant Secretary.

Which was ordered printed in the minutes and filed.

The full minutes of the meeting of March 30, 1906, will appear in the CITY RECORD at a later date.

JOSEPH HAAG, Secretary.

## LAW DEPARTMENT.

The following schedules form a brief extract of the transactions of the office of the Corporation Counsel for the week ending March 10, 1906, as required by section 1546 of the Greater New York Charter.

Note—(The City of New York or the Mayor, Aldermen and Commonalty of The City of New York, is defendant, unless otherwise mentioned.)

## CORPORATION SALE OF BUILDINGS AND APPURTENANCES THERETO OF CITY REAL ESTATE.

AT THE REQUEST OF THE COMMISSIONER OF DOCKS, public notice is hereby given that the Commissioners of the Sinking Fund of The City of New York, pursuant to the resolution adopted at their meeting held March 8, 1906, and by virtue of the powers vested in them by law, will offer for sale at public auction the buildings, parts of buildings, etc., standing within the lines and on property owned by The City of New York, acquired for dock purposes, in the Borough of Manhattan, the property being the steel freight shed now located on Pier, old 10, between Cuyler's alley and Old Slip, East river, Borough of Manhattan, which consists of two parts—the office portion at the inshore end and the shed proper. The office portion is about 60 feet long by 37 1/2 feet wide, and is built in two stories; the centre height from the dock of the pier is about 35 feet. The shed proper is a single story structure, about 384 feet long and about 37 feet wide; its centre height from the dock of the pier is about 20 feet. The entire shed covers an area of about 16,458 square feet.

All the posts, studs, purlins, trusses and bracing composing the framing of the shed are of structural steel. The roof sheathing, window frames, partitions, walls, ceiling, office doors, etc., of the second story of the office portion are of woodwork, in first class condition. The sides of the building, not taken up by doors, are covered by galvanized corrugated steel. The roof of the office portion is covered with roofing tin laid on boards which rest on the wooden purlins. The roof of the shed proper is composed of double spruce covering and laid over with 1 1/2-inch tongue and grooved yellow pine flooring.

The principal parts or items composing the shed on Pier, old 10, East river, are all the trusses, columns, studs, purlins, bracing, corrugated steel folding doors, corrugated steel sheeting composing sides and end of shed, steel frames and all material of every description comprising the shed proper and office portion down to the decking of the pier, excepting the backing log, and any portion or portions of the pier proper which may be above the level of said decking of the pier.

The items enumerated above are believed to be approximately correct, but bidders must satisfy themselves as to the quantity, quality and condition of the material composing the shed, at the time of sale.

By direction of the Comptroller the sale of the above-described shed and appurtenances thereto will be made under the supervision of the Collector of City Revenue, Department of Finance. The sale will take place on

MONDAY, APRIL 16, 1906,

at 11 a. m., on the premises, the property being sold in the condition in which it is in on the day of the sale, possession of which will be given immediately, upon which date the purchaser shall begin the work of removal and shall complete all such work within thirty days from that date, and will be sold for the highest marketable price at public auction on the following

### TERMS AND CONDITIONS.

The buildings and appurtenances thereto will be sold to the highest bidder, who must pay immediately cash or a certified check drawn to the order of the Comptroller of The City of New York, and must give either a cash bond or an approved bond of a surety company in the amount of the purchase price as security for the proper performance of the work of removal, which must be completed within thirty working days thereafter.

All the buildings, structures and parts thereof, their fixtures of every class and description, within the described area, are to be torn down to the decking of the pier, excepting the backing log and any portion or portions of the pier proper which may be above the level of said decking of the pier. All tin from roofs, cornices, sides of buildings or partitions, sheds and fences shall be removed from the premises. All brick laid in mortar, all floor beams, joists, studding, flooring, ceiling, roofing, boards and woodwork of every description, and all gas, water, steam and soil piping shall be removed from the premises. All combustible matter, such as tar and felt roofing, broken lath and fragments of timber, chips, splinters, etc., which are of no value, shall be gathered together by the contractor and burned or carried away.

Failure to remove the said buildings and appurtenances, or any portion thereof, within said period will work forfeiture of ownership of such buildings or appurtenances, or any portion as shall then be left standing, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and the said City of New York will, without notice to the purchaser, cause the same to be removed and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against and from all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damages and costs to which it, they or any of them be put by reason of injury to the person or property of another resulting from negligence or carelessness in the performance of the work or in guarding the same, or from any improper or defective materials or machinery, implements or appliance used in the removal of the said buildings by the said suc-

cessful bidder, and the bidder's assent and agreement to the above conditions are understood to be implied by the act of bidding.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down, but all furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls shall be taken down and removed. The walls shall be made permanently self-supporting, without the aid of braces, the beamholes, etc., bricked up and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs of the adjacent buildings shall be properly flashed and painted and made water tight where they have been disturbed by the operation of the contractor.

The Comptroller of The City of New York reserves the right on the day of the sale to withdraw from sale any of the buildings or parts of buildings and machinery included in the foregoing parcel.

H. A. METZ,  
Comptroller.

### NOTICE TO PROPERTY OWNERS.

### NOTICE OF ASSESSMENT FOR OPENING STREETS AND PARKS.

IN PURSUANCE OF SECTION 1005 OF THE Greater New York Charter, the Comptroller of The City of New York hereby gives public notice of the confirmation by the Supreme Court, and the entering in the Bureau for the Collection of Assessments and Arrears of Assessment for OPENING AND ACQUIRING TITLE to the following-named avenue in the BOROUGH OF BROOKLYN:

THIRTY-FIRST AND THIRTY-SECOND WARDS, SECTIONS 20 AND 22, AND 23.

NOSTRAND AVENUE—OPENING, from Flatbush avenue to Avenue U. Confirmed February 7, 1906; entered March 30, 1906. Area of assessment includes all those lands, tenements and hereditaments and premises situate, lying and being in the Borough of Brooklyn, in The City of New York, which, taken together, are bounded and described as follows, viz.:

Beginning at a point on the southerly side of Germania place and distant 205 feet, more or less, westerly of the westerly line of Flatbush avenue; running thence southerly through the centre line of the block between East Twenty-ninth street and Nostrand avenue to the northerly side of the land of the New York, Bay Ridge and Jamaica Railroad; running thence easterly along the northerly side of the lands of the New York, Bay Ridge and Jamaica Railroad to the centre line of the block between Nostrand avenue and East Thirty-first street; running thence northerly through the centre line of the blocks between Nostrand avenue and East Thirty-first street to the southerly side of Flatbush avenue; running thence northwesterly along the southerly side of Flatbush avenue to its intersection with the southerly side of Germania place; running thence along the southerly side of Germania place to the point or place of beginning; also

Beginning at a point on the southerly side of the lands of the New York, Bay Ridge and Jamaica Railroad, where the same intersects the centre line of the block between East Thirty-first street and Nostrand avenue; running thence southerly through the centre line of the blocks between East Thirty-first street and Nostrand avenue and along its prolongation to the northerly side of Avenue U; running thence westerly along the northerly side of Avenue U to the centre line of the block between East Twenty-ninth street and Nostrand avenue; running thence northerly along the centre line of the block between East Twenty-ninth street and Nostrand avenue to the southerly side of the lands of the New York, Bay Ridge and Jamaica Railroad; thence easterly along the southerly side of the land of the New York, Bay Ridge and Jamaica Railroad to the point or place of beginning.

The above-entitled assessment was entered on the day hereinafter given in the Record of Titles of Assessments, kept in the Bureau for the Collection of Assessments and Arrears of Taxes and Assessments, and of Water Rents. Unless the amount assessed for benefit on any person or property shall be paid within sixty days after the date of said entry of the assessment, interest will be collected thereon, as provided in section 1006 of the Greater New York Charter.

Said section provided that "If any assessment shall remain unpaid for a period of sixty days after the date of entry thereof in the said record of Titles and Assessments it shall be the duty of the officer authorized to collect and receive the amount of such assessment, to charge, collect and receive interest thereon at the rate of seven per centum per annum, to be calculated to the date of payment from the date when such assessments became liens, as provided by section 159 of this act."

Section 159 of this act provides "An assessment shall become a lien upon the real estate affected thereby ten days after its entry in the said record."

The above assessment is payable to the Collector of Assessments and Arrears, at the Bureau for the Collection of Assessments and Arrears of Taxes and Assessments and of Water Rents, in the Municipal Building, Borough of Brooklyn, between the hours of 9 a. m. and 2 p. m., and on Saturdays from 9 a. m. until 12 m., and all payments made thereon on or before May 29, 1906, will be exempt from interest, as above provided, and after that date will be subject to a charge of interest at the rate of seven per centum per annum from the date when the above assessment became a lien to the date of payment.

#### CORPORATION SALE OF BUILDINGS AND APPURTENANCES THERETO, OF CITY REAL ESTATE.

**AT THE REQUEST OF THE PRESIDENT** of the Borough of Brooklyn, public notice is hereby given that the Commissioners of the Sinking Fund of The City of New York, by virtue of the powers vested in them by law, will offer for sale at public auction the buildings, parts of buildings, etc., standing within the lines and on property owned by The City of New York, acquired for street purposes, in the

##### BOROUGH OF BROOKLYN.

All of the buildings, parts of buildings, etc., standing within the lines of property acquired for the extension of Grand street, from the intersection of Havemeyer street and South Fourth street to Hooper street, in the Borough of Brooklyn.

A map showing the property to be sold is on file in the office of the Collector of City Revenue, Department of Finance, Room 141, No. 280 Broadway, Borough of Manhattan, and bidders should acquaint themselves with the extent and portions of the buildings to be sold and owned by the City.

By direction of the Comptroller, the sale of the above-described buildings and appurtenances thereto will be made under the supervision of the Collector of City Revenue. The sale will take place on

**TUESDAY, APRIL 17, 1906,**

at 11 a. m., on the premises, and will be sold for the highest marketable price at public auction on the following

##### TERMS AND CONDITIONS.

The buildings and appurtenances thereto will be sold to the highest bidder, who must pay immediately cash or a certified check drawn to the order of the Comptroller of The City of New York, and must give either a cash bond or an approved bond of a surety company in the amount of the purchase price as security for the proper performance of the work of removal, which must be completed within thirty working days thereafter.

All the buildings, structures and parts thereof, their fixtures and foundations of every class and description within the described area, are to be torn down to a level two feet below the existing curb; and any structures which may exist within any of the buildings, such as engine beds, boiler settings, etc., and all stoops and area walls shall also be torn down to the same level. All tin from roofs, cornices, sides of buildings or partitions, sheds and fences shall be removed from the premises. All brick laid in mortar, all floor beams, joists, studding, flooring, ceiling roofing, boards and woodwork of every description, and all gas, water, steam and soil piping shall be removed from the premises. All combustible matter, such as tar and felt roofing, broken lath and fragments of timber, chips, splinters, etc., which are of no value, shall be gathered together by the contractor and burned or carried away.

Failure to remove the said buildings and appurtenances, or any portion thereof, within said period, will work forfeiture of ownership of such buildings or appurtenances or portion as shall then be left standing, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and the said City of New York will without notice to the purchaser cause the same to be removed and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against and from all suits and actions, claims and demands, of every name and description brought against it, them or any of them, and against and from all damages and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work or in guarding the same, or from any improper or defective materials or machinery, implements or appliance used in the removal of the said buildings by the said successful bidder, and the bidder's assent and agreement to the above conditions are understood to be implied by the act of bidding.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down, but all furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls shall be taken down and removed. The walls shall be made permanently self-supporting, without the aid of braces, the beamholes, etc., bricked up and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs of the adjacent buildings shall be properly flashed and painted, and made water tight where they have been disturbed by the operation of the contractor.

The Comptroller of The City of New York reserves the right on the day of the sale to withdraw from sale any of the buildings or parts of buildings and machinery included in the foregoing parcel.

**CORPORATION SALE OF BUILDINGS AND APPURTENANCES THERETO OF CITY REAL ESTATE.**

**AT THE REQUEST OF THE DEPARTMENT** of Docks and Ferries, public notice is hereby given that the Commissioners of the Sinking Fund, by virtue of the powers vested in them by law, will offer for sale at public auction the buildings, parts of buildings, etc., standing within the lines and on property owned by The City of New York, acquired for the new marginal street in the

**Borough of Manhattan.**

All the right, title and interest of The City of New York in and to the buildings thereunto belonging acquired for the Department of Docks and Ferries, in the Borough of Manhattan, and erected upon land described as follows:

The four-story brick building at the northeasterly corner of Eleventh avenue and West Twentieth street, having a frontage on Eleventh avenue of about 100 feet and on West Twentieth street of about 75 feet.

By direction of the Comptroller the sale of the above-described building will be made under the supervision of the Collector of City Revenue on

**FRIDAY, APRIL 6, 1906,**

at 11 a. m. on the premises, and will be sold for the highest marketable price at public auction on the following

**TERMS AND CONDITIONS.**

The buildings and appurtenances thereto will be sold to the highest bidder, who must pay immediately cash or a certified check drawn to the order of the Comptroller of The City of New York, and must give either a cash bond or an approved bond of a surety company in the amount of the purchase price as security for the proper performance of the work of removal, which must be completed within thirty working days thereafter.

All the buildings, structures and parts thereof, their fixtures and foundations of every class and description within the described area are to be torn down to a level two feet below the existing curb, and any structures which may exist within any of the buildings, such as engine beds, boiler settings, etc., and all stoops and area walls shall also be torn down to the same level. All tin from roofs, cornices, sides of buildings or partitions, sheds and fences shall be removed from the premises. All brick laid in mortar, all floor beams, joists, studding, flooring, ceiling, roofing, boards and woodwork of every description, and all gas, water, steam and soil piping shall be removed from the premises. All combustible matter, such as tar and felt roofing, broken lath and fragments of timber, chips, splinters, etc., which are of no value, shall be gathered together by the contractor and burned or carried away.

Failure to remove the said buildings and appurtenances, or any portion thereof, within said period will work forfeiture of ownership of such buildings or appurtenances, or portion as shall then be left standing, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and the said City of New York will without notice to the purchaser cause the same to be removed and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against and from all suits and actions, claims and demands, of every name and description brought against it, them or any of them, and against and from all damages and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of the said buildings by the said successful bidder, and the bidder's assent and agreement to the above conditions are understood to be implied by the act of bidding.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down, but all furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls shall be taken down and removed. The walls shall be made permanently self-supporting, without the aid of braces, the beam-holes, etc., bricked up and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs of the adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operation of the contractor.

The Comptroller of The City of New York reserves the right on the day of the sale to withdraw from sale any of the buildings or parts of buildings and machinery included in the foregoing parcel.

#### PROPOSALS FOR BIDS AND ESTIMATES FOR THE CITY OF NEW YORK.

##### NOTICE TO CONTRACTORS.

##### GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, and names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein, are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 430 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
