#### STATE INDUSTRIAL COMMISSION—DEPARTMENT OF LABOR.

##### Resolutions Adopted.

Whereas, the Division of Factory Inspection has submitted to this Commission appeals filed from orders issued by said Division of Factory Inspection against the premises cited below, the granting of which appeals would necessitate a variation of law; and

Whereas, the said Division of Factory Inspection has had a reinspection made of the premises in each case, and upon the reports submitted gives the existing conditions and recommends as follows:

1. Premises affected, Auburn, Genesee and Osborn sts.; appellant, International Harvester Co. 3—Provide additional means of exit from "Patter" Shop; Building No. 4. 3-story non-fireproof building; open lofts; sprinkler; combustibles; no fire alarm; occupancy, 41; above 1st floor, 30; above 2d floor, 20; exits, one interior stairway on machinery building on the north, running from 2d to 3d floors; one interior stairway on the west in pattern shop from 1st to 3d floors; horizontal exit to adjacent machinery building on the north; exit from 3d floor to roof of low section on south; stair in machinery building does not extend to grade, and horizontal exit has fire door on one side only; exits remote; no safe egress from roof.

Recommendation: Accept a doorway to be provided in fire wall which gives access to stairway in Sales Department; fireproof self-closing door to be installed at said opening, said doorway to open outwardly, doorway to be unobstructed and door to be kept open at all times when anyone is at work in building.

2. Premises affected, Brooklyn, 1114 DeKalb ave.; appellant, S. Liebmann's Sons Brewing Co. Provide suitable water closet, constructed as per Code Rules. As to compliance with this order, appellant has provided a long hopper closet of the Kelly anti-freezing type, which is located in the yard of the premises, and conforms in all other respects to the Industrial Code rules.

Recommendation: Acceptance of long hopper closet of the Kelly anti-freezing type in lieu of inside flush water closet.

3. Premises affected, Buffalo, 546 Seneca st.; appellant, F. N. Burt Co., Ltd. 1—Arrange swing fire doors at entrance to stair hall on Myrtle st. side to swing outwardly. (Orders May 14, 1917.) These are double leaf swinging doors opening in on one side of stair hall and sliding doors on other side of stair hall. Sliding doors are always open.

Occupancy of building is as follows: 2d floor, 48 males, 42 females; 3d floor, 13 males, 189 females; 4th floor, 15 males, 70 females. On 2d floor there are four horizontal exits, none of which is perfect. On 3d floor are two horizontal exits. The high occupancy of the building is in close proximity to this stairway.

Recommendation: Sliding doors be accepted if kept open at all times when anyone is at work in the building, the swinging doors to be made to swing outwardly.

4. Premises affected, Buffalo, 1317 Elk st.; appellant, Rolt. I. Reidpath & Son. 29—Make stairway in four-story part of incombustible material. 31—Provide skylights in stairway enclosures three-quarters area of enclosure. 32—Continue stairs in two-story part to roof. 33—Make stairs in two-story part at least 44 inches wide. 34—Make stairs in two-story part not more than 7.34 inches rise. (March 1, 1918.) Two and four-story nonfireproof building erected before Oct. 1, 1913, with open lofts; sprinkler; no combustibles; no fire alarm; occupancy, 116; above 1st floor, 28; above 2d floor, 20; exits, two interior stairways properly enclosed with fireproof partitions, doors to which open outwardly and are self-closing; exits remote. This building was originally three- and four-story building, each separate, but since

reconstruction the premises consist of one, two and four-story parts, known as "A," "B," "C" and "D," and was inspected as one building for the reason that the 1st floor (except at the extreme north end, where the one-story engine, compressor and cooler rooms are located) the story runs right through without partition or fire wall. In reconstruction, stairways were changed as to location and made new, elevators were changed and new shafts made; a large part of the old structure was taken down, and the new construction is more than 50 per cent of the old. Stairs are enclosed with fireproof material with proper fire doors at all openings; existing new stairs are of wood; stair enclosures have exterior windows which give plenty of light and air; if stairs were continued to roof, it would make a continuous passageway over roof, but there would be no other egress from roof, the windows in the four-story portion not being accessible. On the 2d floor of this portion of the building two persons are usually employed. Stairs are 42 inches wide, risers 7.34 inches high to 8 inches high.

Recommendation: Waiver orders Nos. 29, 31, 32, 33 and 34, and accept stairways at present constructed.

5. Premises affected, Cortlandt, 106, 108, 110 Main st.; appellant, W. H. Clark. 1—Additional exit remote from existing exit on 2d and 3d floors of 110 Main st. 2—Class "A" fire alarm signal system. 3—Organize and maintain fire drills. (Jan. 7, 1918.) Four-story nonfireproof building; divided lofts; no sprinkler; combustibles; imperfect fire alarm signal system; occupancy, 62, 49 of whom are factory employees; above 1st floor, 53; above 2d floor, 45; exits, one interior stairway enclosed fire-resisting from 1st to 2d and from 3d to 4th floors, doors to which open out and are double swing, self-closing; imperfect rear fire escape, openings to which are nonfireproof; exits not remote; safe egress from roof (the roof at rear of building slopes, but at front is level and adjoining building can be reached); on 3d floor is a perfect horizontal exit, which is not remote from stairway; the floors are divided, and factory occupancy all floors is south of center fire wall. Standard Printing Co. also occupy 3d and 4th floors north of fire wall; remainder of building occupied by store on ground floor and storage on 2d floor; both sides of fire wall 4th floor used for storage; no one employed thereon; occasionally one or two persons go to this floor. Orders for fire alarm signal system and fire drill are in the hands of Fire Prevention Engineer Outley and will be acted on when his report is received.

Recommendation: Accept fire escape if made to conform to Rule 4-b, except that same need not be carried to roof with balcony, because of unsafe condition caused by slope of roof at rear of building; horizontal exit conforming to Section 79-1-9 to be provided at east end of building through center fire wall at 3rd floor; door to be cut through wall separating workrooms in southwest corner of building.

6. Premises affected, Elmira, 159-167 Lake st.; appellant, H. C. Mandeville. Approved fire alarm signal system. Organize and maintain fire drills. (March, 1918.) Five-story building with a two-story addition at the rear; Custer & Kinstler use part of this building as a laundry; front of 1st floor used as office; rear of 1st and 2d floors proper used as laundry, which part is not open to office section; there is a door which may be used in case of necessity, leading from 2d floor to main hallway in office building; above 2d floor are three floors of offices; on the 1st and 2d floors rear are 43 persons at work in the laundry; one open stairway leading from 1st to 2d floors and fire escape from 2d floor to ground. There is a fire alarm signal system, installed some years ago, consisting of one large gong in open stairway midway between 1st and 2d floors. At 3 different points on 1st floor are installed jack-knife switches that can be thrown in, any one of which will start this gong ringing; wiring not in rigid conduit, but open wiring in small gauge, i. e., 19 B. & S. gauge.

Recommendation: Accept present fire alarm signal system and treat laundry separate from office building when said system has been reconstructed as follows: Break-glass boxes substituted for present three jack-knife switches; present wiring to be torn out and wire of 14 B. & S. gauge used either in rigid or soft conduit, the use of soft conduit probably making a better condition owing to many turns necessary; battery to be enclosed in metal battery cabinet with lock and key.

7. Premises affected, Gloversville, 67 East Fulton st.; rear; appellant, Lehr & Wilson. Organize and maintain monthly fire drills. 2—Additional exit. 3—Prohibit occupancy. 4—Approved fire alarm system. 5—Additional water-closet for females. (Oct. 2, 1917.) Four-story nonfireproof building; divided lofts; sprinkler; no combustibles; unapproved fire alarm signal system; occupancy, 51; above 1st floor, 25; above 2d floor, 25; exits, one interior stairway, doors to which open out but are not self-closing; imperfect fire escape on side; exits remote; no egress from roof. Order No. 1 has been complied with; fire escape conforms to Rule 4-b, except that same does not extend to 4th floor and openings are nonfireproof; order on fire alarm signal system in hands of Fire Prevention Engineer Outley. Watercloset formerly used by males assigned to females, and watercloset off of office set apart for males, thus establishing compliance with order.

Recommendation: Accept as second means of exit from 4th floor while no one permanently employed thereon a stationary iron ladder accessible from scuttle opening in floor, same to be located near where present fire escape now terminates; accept present fire escape if made to conform to Rule 4-b; present arrangement of toilets accepted. No. 4 to be taken up further when report received from Mr. Outley.

8. Premises affected, Kingston, Barmann ave.; appellant, Peter Barmann. 1—Ceiling over tops or extend partitions of waterclosets used by males, 2d floor, so that same will go to ceiling. 2—Properly ventilate to outer air watercloset compartments for males on 2d floor. 5—Additional exit from all floors, four-story building. 6—Prohibit occupancy. Four-story building; open lofts; no sprinkler; no combustibles; no fire alarm; occupancy of building, 11; above 1st floor, 1; above 2d floor, 1 occasionally. There are three interior stairways, doors to which open in; exits remote. Orders Nos. 1 and 2 refer to waterclosets located in small room on 2d floor, from which there is a large opening to floor above; the top of building is provided with several ventilators to roof; closets clean and no odor perceptible; owing to location of closet, proper compliance with order is impracticable. Orders Nos. 5 and 6 refer to top floor of building, consisting of small room wherein are located fermenting tanks; one man works on this floor not exceeding one hour a day for the purpose of cleaning tank; from this roof a door leads to roof of three-story section, from which another door leads to filtration room, in which there is a stairway leading to ground.

Recommendation: Waiver orders Nos. 1 and 2 and accept exit from 4th floor, provided door leading to filtration room is arranged to open easily from outside.

9. Premises affected, Kingston, 495 Broadway; appellant, American Tobacco Co. 2—Properly guard belts and pulleys on 16 tobacco strippers, 1st floor. 19—Remove unsanitary urinal in males' watercloset compartment, 1st floor. 23—Remove unsanitary trough waterclosets used by

males, 1st and 2d floors. 29—Properly re-enameled seats of male watercloset compartments, 3d floor. 34—Two waterclosets, 3d floor. 35—Unurinal, 3d floor. 31—Provide enclosure for dressing room for females on 2d floor, Buildings 1 and 2. (April 1, 1918.) No. 2—Guarding 1 and 2 floors, 2 inches wide, slow moving and practicable, belt 2 inches wide, slow moving and guarding would not be required under proposed Dangerous Machinery Code. 19—Urinal in bad condition, supply pipe disconnected; it should be entirely removed or replaced by proper installation. 23—Troughs of waterclosets referred to are in fair condition. 29—Order refers to iron framework on which wooden seats rest. 34-35—Orders require replacement of present installations ordered removed by order No. 30, which is not appealed, present closets being in fair condition. 31—Order refers to spaces on 2d floor, containing racks for hanging clothing of female employees; as dressing room and rest room are provided in other parts of plants, enclosure of these racks will in no way better conditions in view of the fact that ventilation is provided by their being left in their present condition.

Recommendation: Order No. 2 to be held in abeyance pending adoption of Dangerous Machinery Code. No. 19 to be complied with. If wood at back and sides of present trough waterclosets be removed and proper enameled seats provided, same will be accepted as compliance with No. 23, or in lieu thereof Department will accept proper closets to be installed and present closets removed. No. 29, iron framework on which wooden seats rest to be properly scraped, cleaned and covered with at least two coats of light-colored enameled paint. Nos. 34 and 35, accept installation of one closet, inasmuch as there are adequate closets in other parts of building, and these accommodations are used by four male employees only. No. 31 to be waived.

Three-story nonfireproof frame building; open lofts; sprinkler with one source of water supply; combustibles carried (sulphur); no fire alarm; occupancy, 18; above 1st floor, 2; above 2d floor, none regularly exists, one interior open stairway from 1st to 3d floor; one exterior open stairway from 3d floor to roof of shed, which is about 6 feet from ground; opening on 2d floor leading to roof of 1-story building not remote from interior stairway; exits from 3d floor remote; no egress from roof.

Recommendation: Accept exits when stairway is provided from roof of one-story building to ground.

White & Sons. 1—Provide one additional wash basin for females, 11th floor. 2—Two additional wash basins for females, 9th floor. 3—One additional wash basin for females, 7th floor. 4—Additional watercloset for females, 7th floor. 5—Additional wash basin for females, 6th floor. 8—Additional wash basin for females, 5th floor. 7—"T" screen at 2d floor toilets. There are the same number of waterclosets and basins on each floor; north toilet room contains three seats; center room, one seat; south room, one seat. Toilets for sexes adjoin; entrance within 10 feet of each other; south closet contains one basin with two faucets, one without water supply; one sink 30 inches long on left side of toilet compartments with two faucets; one without water supply. All basins and sinks so located that two persons may use each one at the same time. Recommendation: Accept one basin or sink with two faucets as equivalent of two basins on condition that each faucet be provided with proper water supply, either hot or cold, that all broken faucets be replaced, that all faucets be so constructed as to permit of a constant flow of water when in use, and watercloset screening be rearranged and closets be designated as follows: No. 1 (11th floor, 10 males, 32 females), when water is turned on all faucets order will be complied with. No. 2 (9th floor, 6 males, 51 females), when water is turned on all faucets, north and south toilets designated for females, center compartment for males, screening rearranged so that partition between male and north female toilets will divide sink at center between the two faucets and new entrance to males' closet is cut through center of screen, order will be considered complied with. The Commissioner of Docks reserves the right to reject, by or before noon on Friday, May 17, 1918, any bid, if in his judgment he deems it to be for the interest of The City of New York so to do, and to return the deposit which accompanied the bid to the bidder who submitted same.

No person will be accepted as a successful bidder who is delinquent on any contract with The City of New York, or who is in arrears to The City of New York upon any debt or contract, or who is a defaulter as surety or otherwise upon any obligation to The City of New York.

The Commissioner of Docks expressly reserves the right to resell the lease of the premises bid for, by those failing, refusing or neglecting to comply with these terms and conditions, the party so failing, refusing or neglecting to be liable to The City of New York for any deficiency resulting from or occasioned by such resale.

The term for which the lease is sold will commence at the date mentioned, namely, June 1, 1918, and rent will be payable from that date.

No dredging will be done prior to the commencement of the lease in the slip or basin or water immediately adjacent to the premises, and the premises and the structures thereon must be taken in the condition which they are at the commencement of the term of the lease, and no claim or demand that the premises or property or any structures thereon are not in suitable and tenable condition at the commencement of the term will be allowed by the Commissioner of Docks.

THE LEASE SHALL CONTAIN THE FOLLOWING TERMS AND CONDITIONS:

The rent shall be payable in four equal quarterly payments in advance.

The lessee will not at any time assign the lease, nor sublet the premises demised, nor in any way charge or encumber the same without the consent, in writing, of the Commissioner of Docks and the approval thereof by the Commissioners of the Sinking Fund.

All structures erected upon the property during the term of the lease shall be and become the property of The City of New York at the expiration or sooner termination of the lease.

That the lessee will at all times do such dredging as may be considered by the Commissioner of Docks as necessary and proper to be done in the slip or basin or water immediately adjacent to the said premises.

All repairs, maintaining, rebuilding or painting required or necessary, in the opinion of the Commissioner of Docks, to be done to or upon the premises leased or the structures thereon, including the shed, shall be done by and at the sole expense of the lessee to the satisfaction of the Commissioner of Docks.

If, by reason of total or partial destruction from any cause, the premises hereby leased or the structures thereon, including the shed, shall require to be rebuilt, the same shall be so rebuilt under the direction of the Commissioner of Docks, in like manner and similar to the premises destroyed, by and at the expense of the lessee and in accordance with plans and specifications submitted to and approved by the Commissioner of Docks.

In case the lessee shall make default or shall neglect to make repairs or rebuilding, or to do such painting or dredging for the space of ten (10) consecutive calendar days after notice so to do shall have been given by the Commissioner of Docks, or any proper officer, agent or employee of the Department of Docks and Ferries, then the lease shall be null and void and the lessee shall pay to The City of New York such damages as it may have sustained, or the Commissioner of Docks may, at his option, make such repairs and rebuilding, or do such dredging or painting, and the full cost and expense thereof shall and will be paid by the lessee, on demand, to The City of New York, and no claim for damages or for reduction of rent shall be made by the lessee by reason thereof.

No claim or demand will be considered or allowed by the Department for any loss or deprivation from use of said premises or otherwise resulting from or occasioned by any delay on account of or by reason of the premises or any part thereof being occupied for or on account of any repairs, rebuilding, painting or dredging.

The lessee will be required, upon the execution of the lease, to furnish a bond executed by a guaranty or surety company, to be approved by the Commissioner of Docks, in double the amount of the annual rent bid, for the faithful performance of all the covenants and conditions of the lease. In the event that the Commissioner of Docks shall, during the term of the lease, for any reason whatsoever, deem it advisable that other surety or sureties should be substituted in lieu of the surety or sureties upon the bond, then, and in such event, the lessee shall and will, whenever so ordered by the Commissioner of Docks, furnish a new bond with such surety or sureties as may be approved by him, in lieu of the bond originally furnished.

The premises demised, or any part thereof, shall not be used as a stable nor for the storing or storage of rags, barrels, boxes or refuse of any kind, and the premises shall at all times be kept in a clean and sanitary condition to the satisfaction of the Commissioner of Docks.

The establishment of violation of any of the terms and conditions herein contained as fact, in the judgment of the Commissioner of Docks, shall be sufficient ground for the cancellation of the lease, and in such event the lessee shall make no claim of any kind whatsoever for damages against The City of New York.

The lessee will be required to agree that if at any time during the term hereby created the Commissioner of Docks shall determine, to proceed with the work of building or rebuilding wharves, piers, bulkheads, basins, docks or slips within a section or district of the waterfront which shall include the premises hereinbefore described, according to any plan or plans now adopted or approved, or which may hereafter be adopted and approved, and pursuant to any existing or future law, and if the said Commissioner of Docks shall determine that for the purpose of such building or rebuilding it will be necessary to terminate the interest of the lessee in the property hereby leased, or any part thereof, then upon service upon the lessee of written notice from the Commissioner of Docks to that effect the interest of the lessee in the said property or part thereof shall be thereby terminated, and the rent hereby reserved shall cease from the date specified in said notice, and no claim for damages or compensation in favor of the lessee by reason

of the termination of such interest, or to or on account of any construction or improvement that may have been erected by the lessee shall at any time be made by the lessee or by any person or persons whomsoever.

The remaining terms and conditions of the lease shall be similar to those contained in leases of wharf property now used by the Department of Docks and Ferries, copies of which may be seen and examined at the office of the Department, Pier "A," foot of Battery pl., North River, Borough of Manhattan.

#### NOTICE TO BIDDERS AT SALES OF OLD BUILDINGS, ETC.

TERMS AND CONDITIONS UNDER WHICH BUILDINGS, ETC., WILL BE SOLD FOR REMOVAL FROM CITY PROPERTY.

**THE BUILDINGS AND APPURTENANCES** thereto will be sold to the highest bidder, who must pay cash or certified check, drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of \$50, the sum of \$50 will be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be at the condition of the property as it is delivered thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstances of vacating the structures of their tenants will permit.

All the material of buildings, sheds, walks, structures and cellars of whatever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations, and the sidewalks and curb in front of said buildings, extending within the described area, shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from the demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street, and the openings of the main sewer in street shall be properly closed in compliance with the directions of the Bureau of Sewers in the Borough in which the buildings are situated, and furnish the Department of Finance with a certificate from the Bureau of Sewers that this work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any part thereof, within thirty days from the day of possession will work forfeiture

of ownership of such buildings, appurtenances or portions as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the date of possession, and the successful bidder will provide and furnish all materials, labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold shall not be taken down. All furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beam holes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs and adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the Contractor.

No buildings, parts of buildings, fixtures or machinery sold for removal under these terms and conditions shall in any case be relocated or re-erected within the lines of any proposed street or other public improvement, and if any such buildings, parts of buildings, fixtures or machinery, etc., shall be relocated or re-erected within the lines of any proposed street or other public improvement, title thereto shall thereupon become vested in The City of New York and a resale at public or private sale may be made in the same manner as if no prior sale thereof had been made.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids, and be it further

Resolved, That while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.
