THE LOYAL REPUBLICAN CLUB OF HARLEM, No. 172 East One Hundred and Twenty-Eighth Street, New York, June 1, 1897. *Hon. ELIAS GOODMAN:*

The inclosed resolutions were unanimously adopted by the Loyal Republican Club of Harlem and, as you will notice, there is contained in the resolutions a request that you exert every effort to bring about the desired change and relief asked for, and trust that you will kindly do so.

I remain yours very truly, M. G. BURBANK, Secretary.

NEW YORK, May 13, 1897. *To the Loyal Republican Club of Harlem:*

The undersigned, Committee on Public Improvements, conformably with the purposes of its appointment, submits herewith a report and recommendations relating to a matter of public interest and welfare, that will, it is hoped, result in effecting a remedy of existing evils at as early a date as practicable.

The transfer system in vogue at the corner of Third Avenue and One Hundred and Twenty-fifth Street, from the main or Third Avenue line of cars to the Cross-town or One Hundred and Twenty-fifth Street line, has become a menace to the safety of life and limb. The large number of cars which cross at this point, and the vast amount of travel and transfer in consequence, has occasioned such discomfort, annoyance, confusion and danger, that it seems imperative for an entire change of system that will insure through travel, and thereby avoid the necessity of change of cars.

It seems to your Committee that, without much difficulty and comparative small outlay of money, the Third Avenue Company could so change the methods now employed to a continuous ride around a proper and safe curve, that will enable passengers intending to travel eastward or westward on One Hundred and Twenty-fifth Street, and up and down town, to do so without any transfer at all at this point.

There would be no occasion of stationing a force of men at the corner, as is now done, to protect the public from the dangers of passing cars, trucks, etc., and the noise and shouting and the clanging of bells now necessary would be entirely avoided; besides, the constant rushing of men, women and children from one car to another and the assembling of crowds awaiting the arrival of cars would be a thing of the past.

The many children who have occasion to pass this point going to and from School No. 39, at One Hundred and Twenty-fifth Street, between Second and Third Avenues, would be protected against the dangers that now threaten them.

The Committee feels that the railroad company ought to appreciate the advantages that would accrue from such a change as is here suggested and hopes that the importance thereof will be fully recognized.

We offer the following:

Resolved, That the Loyal Republican Club of Harlem earnestly and respectfully appeals to the Directors of the Third Avenue Railroad Company to consider the foregoing suggestions and to comply with the request therein contained.

Resolved, That a copy of this report and the resolutions attached thereto be transmitted to Hon. COMMUNICATIONS FROM DEPARTMENTS AND CORPORATION OFFICERS AGAIN RESUMED.

The Vice-President laid before the Board the following communication from the Department of Public Works:

DEPARTMENT OF PUBLIC WORKS—COMMISSIONER'S OFFICE, No. 150 NASSAU STREET, NEW YORK, June 21, 1897. *Hon. JOHN JEROLMAN, President, Board of Aldermen:*

DEAR SIR—On the resolution adopted by the Board of Aldermen June 8, requesting the Commissioner of Public Works to allow the Perfection Sewer Device Company, of No. 468 Cherry Street, to test their system of sewerage in Stanton Street in accordance with the accompanying petition and diagram, and to make necessary excavations for the construction of the same at their own expense, under the direction of the Commissioner of Public Works, I have the honor to report:

The Perfection Sewer Device Company claim that their system will be a remedy for back-water in cellars, but the Engineer in Charge of Sewers reports that this is only an old scheme under a new name, which has been hawked about the city for nearly ten years. Mr. Sheermeister, the inventor, is a plumber, who claims that he has discovered a new force in hydraulics by which water can be forced above its level and caused to flow out from tide-locked sewers without diminution in velocity when opposed by the rising tide. In the opinion of the Engineer in Charge of Sewers no new law of hydraulics has been discovered, and the interposition of Mr. Sheermeister's valve and so-called siphon would not produce any additional power but rather serve as an obstruction. The Engineer of Sewers is further of opinion that the scheme is absolutely worthless; that there is nothing in it to warrant any waste of time experimenting with it; and that its owners should not be allowed to open streets, obstruct business and destroy the efficiency of the Stanton street sewer by conducting experiments.

The residents of Stanton street have been subjected to no trouble, annoyance or loss by the defective condition of the present system of drainage, except what is due to their location near tide level. The street level is about seven feet above high tide, and the inner bottom of the sewer is about one foot below the same. The cellars are about three feet above the bottom of the sewer. No complaints have reached this office within a year and a half except of deposits of dirt in the sewer, which were removed as soon as complained of.

For the reasons herein advanced, this Department must decline to grant permission to the Perfection Sewer Device Company to open Stanton street and test its system there.

Very respectfully, HOWARD PAYSON WILDS, Deputy Commissioner of Public Works.

NEW YORK, June 1, 1897. *To the Honorable the Board of Aldermen:*

The Perfection Sewer Device Company, of No. 468 Cherry Street, New York City, respectfully shows to this Honorable Board that much trouble, annoyance and loss is being experienced by the residents and property-holders on and about Stanton street, in the Eleventh Ward of New York, on account of the defective condition of the present drainage and lack of a proper sewage system, which causes the flooding of cellars and basements throughout the whole vicinity—a state of affairs that spreads disease, at the same time damaging property. The annexed petition of property-owners on and near Stanton street to this Board bears out the above statement.

This company submits that by the adoption of their system of drainage the present difficulties will be completely overcome and the district relieved from its present flooded condition. They claim that the present sewer at Stanton street can be used as it stands and that their patent device needs merely to be attached to the sewer in order to bring about the desired result. The work can be done within a short time, and if the result is not satisfactory to the Department of City Works in so far as the drainage of the property affected is concerned no pay will be demanded. Their estimate for the work to be done is three thousand dollars. Respectfully submitted,

THE PERFECTION SEWER DEVICE CO., THOMAS PAULSON, President.

To the Honorable the Board of Aldermen:

We, the undersigned property-owners and residents on and about Stanton street, in the Eleventh Ward of the City of New York, certify that our premises are frequently flooded by reason of the defective condition of the adjacent street sewers, and we respectfully petition this Board to take some steps toward remedying this condition of affairs, which is the cause of much loss and inconvenience.

Dated NEW YORK, May 25, 1897.

Resolved, That the Commissioner of Public Works be and he is hereby requested to allow the Perfection Sewer Device Company, of No. 468 Cherry Street, New York City, to test their system of sewerage in Stanton street, in accordance with the accompanying petition and diagram, and to make the necessary excavations for the construction of the same, the work to be done at their own expense, under the direction of the Commissioner of Public Works.

The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated therein are in all respects true. Where more than one person is interested it is requisite that the verification be made and subscribed by all the parties interested.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person making the estimate, they will, upon its being so awarded, become bound as his sureties for his faithful performance, and that if he shall omit or refuse to execute the same they will pay to the Corporation any difference between the sum to which he would be entitled on its completion and that which the Corporation may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting, the amount in each case to be calculated upon the estimated amount of the work by which the bids are tested. The consent above-mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of this contract, over and above all his debts of every nature and over and above his liabilities as bail, surety or otherwise, and that he has offered himself as a surety in good faith and with the intention to execute the bond required by section 27 of chapter 8 of the Revised Ordinances of the City of New York, if the contract shall be awarded to the person or persons for whom he consents to become surety; the adequacy and sufficiency of the security offered to be approved by the Comptroller of the City of New York.

No bid or estimate will be received or considered unless accompanied by either a certified check upon one of the State or National banks of the City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be included in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited and retained by the City of New York as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid the amount of his deposit will be returned to him.

N. B.—The prices must be written in the estimate and also stated in figures, and all estimates will be considered as informal which do not contain bids for all items for which bids are herein called or which contain bids for items for which bids are not herewith called for. Permission will not be given for the withdrawal of any bid or estimate. No bid will be accepted from or con-

tract awarded to any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

The Department of Public Parks reserves the right to reject any or all the bids received in response to this advertisement if it should deem it for the interest of the City so to do, and to readvertise until satisfactory bids or proposals shall be received, but the contract when awarded will be awarded to the lowest bidder.

Should the person or persons to whom the contract may be awarded neglect or refuse to accept the contract within five days after written notice that the same has been awarded to his or their bid or proposal, and that the adequacy and sufficiency of the security offered has been approved by the Comptroller, or if he or they accept but do not execute the contract and give the proper security, he or they shall be considered as having abandoned it and as in default to the Corporation, and the contract will be readvertised and relet, as provided by law.

No estimate will be received or considered unless accompanied by either a certified check upon one of the State or National banks of the City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be included in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. 1st. Bidders must satisfy themselves by personal examination of the location of the proposed work, and by such other means as they may prefer, as to the accuracy of the foregoing estimate, and shall not at any time after the submission of an estimate dispute or complain of the above statement of quantities, nor assert that there was any misunderstanding in regard to the nature or amount of the work to be done.

2d. Bidders will be required to complete the entire work to the satisfaction of the Commissioner of Street Cleaning, and in substantial accordance with the specifications of the contract and the plans therein referred to. No extra compensation beyond the amount payable for the work before mentioned, which shall be actually performed, at the prices therefor, to be specified by the lowest bidder, shall be due or payable for the entire work.

The work to be done under the contract is to be commenced within five days after the date of execution of the contract, and all the work to be done under the contract is to be fully completed within three calendar months from the date of said execution of this contract, or within such further time as may be allowed by the Commissioner of Street Cleaning for such performance and completion, and the damages to be paid by the contractor for each day that the contract may be unfulfilled after the time fixed for the fulfillment thereof has expired, are, by a clause in the contract, determined, fixed and liquidated at Fifty Dollars per day.

Bidders will state in their estimates a price for the whole of the work to be done in conformity with the approved form of agreement and the specifications therein set forth, by which price the bids will be tested. This price is to cover all expenses of every kind involved in or incidental to the fulfillment of the contract, including any claim that may arise through delay, from any cause, in the performing of the work thereunder. The award of the contract, if awarded, will be made to the bidder who is the lowest for doing the whole of the work, and whose estimate is regular in all respects.

Bidders will distinctly write out, both in words and in figures, the amount of their estimates for doing each class of the work.

The person or persons to whom the contract may be awarded will be required to attend at this office, with

the sureties offered by him or them, and execute the contract within five days from the date of the service of a notice to that effect; and in case of failure or neglect so to do, he or they will be considered as having abandoned it, and as in default to the Corporation; and the contract will be re-advertised and relet and so on until it be accepted and executed.

Bidders are required to state in their estimates their names and places of residence, the names of all persons interested with them therein, and if no other person be so interested, the estimate shall distinctly state the fact; also that the estimate is made without any connection with any other person or persons making an estimate for the same purpose, and is in all respects fair and without collusion or fraud; and also that no member of the Common Council, head of a department, chief of a bureau, deputy thereof or clerk therein, or any other officer or employee of the Corporation of the City of New York, or any of its departments, is directly or indirectly interested in the estimate, or in the supplies or work to which it relates, or in any portion of the profits thereof, which estimate must be verified by the oath, in writing, of the party making the estimate, that the several matters stated therein are in all respects true. *Where more than one person is interested, it is requisite that the verification be made and subscribed to by all the parties interested.*

In case a bid shall be submitted by or in behalf of any corporation, it must be signed in the name of such corporation by some duly authorized officer or agent thereof, who shall also subscribe his own name and office. If practicable, the seal of the corporation should also be affixed.

Each estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, with their respective places of business or residence, or of a guaranty or surety company duly authorized by law to act as surety, to the effect that if the contract be awarded to the person or persons making the estimate, they will, upon its being so awarded, become bound in the sum of six thousand (6,000) dollars as his or their sureties for its faithful performance; and that if said person or persons shall omit or refuse to execute the contract, they will pay to the Corporation of the City of New York any difference between the sum to which said person or persons would be entitled upon its completion and that which said Corporation may be obliged to pay to the person to whom the contract may be awarded at any subsequent letting, the amount in each case to be calculated upon the estimated amount of the work to be done by which the bids are tested. The consent above-mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of the contract, over and above all his debts of every nature, and over and above his liabilities as bail, surety and otherwise, and that he has offered himself as surety in good faith and with the intention to execute the bond required by law. The adequacy and sufficiency of the security offered will be subject to approval by the Comptroller of the City of New York after the award is made and prior to the signing of the contract.

No estimate will be received or considered unless accompanied by either a certified check upon one of the State or National banks of the City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of security required for the faithful performance of the contract. Such check or money must not be included in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited to and retained by the City of New York as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

Bidders are informed that no deviation from the specifications will be allowed, unless under the written instructions of the Commissioner of Street Cleaning.

No estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation, upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

In case there are two or more bids at the same price, which price is the lowest price bid, the contract, if awarded, will be awarded by lot to one of the lowest bidders.

THE RIGHT TO DECLINE ALL THE ESTIMATES IS RESERVED IF DEEMED FOR THE INTEREST OF THE CORPORATION OF THE CITY OF NEW YORK.

Bidders are requested, in making their bids or estimates, to use the blank prepared for that purpose by the Department, a copy of which, together with the form of the agreement, including specifications, and showing the manner of payment for the work, can be obtained upon application therefor at the office of the Department.

1. The construction and maintenance of said pneumatic tubes or pipes shall be subject to the terms, conditions and obligations imposed by the charter of said company and by the Laws of the State of New York and ordinances of the City of New York heretofore or hereafter enacted or adopted.

2. The laying and construction of said pneumatic tubes or pipes and appurtenances shall be so prosecuted as to cause as little inconvenience to public travel as practicable, and as may be directed by the Commissioner of Public Works, and so as not to interfere with the water-mains or service connections, or with the sewers or house connections, or with the subways or subway connections, in any of said streets, nor with such connections hereafter to be made.

3. Wherever water-mains or sewers, or connections therewith or other impediment are encountered, the work at such points shall be stopped until proper plans and specifications are prepared and submitted to and approved by the Commissioner of Public Works for necessary changes, for protection of the same and to clear the impediment thereof in the plan for laying said pneumatic tubes or pipes before entering on the work.

4. The trench or excavation for said pneumatic tubes or pipes may be 4 feet wide and from 3 to 7 feet deep; and immediately after said tubes or pipes shall be laid, said trench or excavation shall be filled with clean earth, well and thoroughly rammed while being put in, and the pavement shall be immediately replaced in a good and workmanlike manner, and to the entire satisfaction of the Commissioner of Public Works, and in all respects in accordance with the plans and specifications thereof of the Department of Public Works, and shall be so maintained by said company for two years after such pavement shall have been relaid; and the necessary materials and the labor for all said work shall be furnished by and at the expense of said Company.

5. In case said company shall fail or neglect to so replace the pavement, or to so maintain the same for two years, then the Commissioner of Public Works, or his successor in authority in reference thereto, after a lapse of forty-eight hours' notice served on any of the agents or employees of said company, shall make such repairs as he finds necessary, and the said company shall pay, on demand, to the Department of Public Works or its successor in authority in reference thereto, all cost incurred for labor and material in making such repairs.

6. The said company shall place sufficient and proper guards for the prevention of accidents, and shall put up and keep at night suitable and sufficient lights, and they shall indemnify and save harmless the City of New York, its officers, agents and servants, against and from all damages, costs and expenses which they may suffer or to which they may be put by reason of any injury to the person or property of another, resulting from carelessness or negligence on the part of said company.

7. The said company shall immediately remove from the line of work all surplus materials, earth, sand, rubbish and stones as rapidly as the work progresses.

8. The work shall be carried on only in such places and for such distances in each street as the Commissioner of Public Works or his representative shall from time to time designate; but the said company shall prosecute the work with all necessary force of labor at such times and places as said Commissioner may from time to time require.

9. All the frames and heads for manholes or other places for access to said tubes or pipes placed on the line of the work shall have noisless covers and plates.

10. All the work, from the time the excavation shall be commenced to the time the pavement shall be relaid, shall be under the supervision of Inspectors, who shall be appointed by, and receive their instructions from, the Commissioner of Public Works, and whose salaries shall be paid by said company.

11. If any contractor, foreman, mechanic, or laborer shall be insolent, or negligent in carrying out any instructions given by any properly authorized representative of the Department of Public Works, he shall be forthwith discharged, and not re-employed on the work without the consent of the Commissioner of Public Works. A notice or order given to any contractor or foreman in charge of any of the work shall be considered a notice or order to the said company.

Whenever, in consequence of the weather, or any process of law, or other unexpected obstacle, the work of laying said pneumatic tubes or pipes shall be stopped for so long a time that the public travel shall be obstructed, the street shall be immediately refilled and repaved by said company, upon notice or order from the Commissioner of Public Works, as if the work contemplated in this permit was actually completed.

13. The said company shall give forty-eight hours' notice to the Water Purveyor of their desire to commence work at any point, and shall not disturb the pavement, commence work, or deposit material anywhere until the Inspectors are on the ground to give the necessary instructions, and shall apply twenty-four hours in advance to the General Inspector for separate permit for each section to be opened.

14. The said company shall give the Health Department twenty-four hours' notice of the time and place of making excavation under each sectional permit issued from the Department of Public Works, and the said company shall provide and use such disinfectants as and when required by the Health Department.

15. If the said company, their contractor or agent, shall refuse or neglect to carry out any of the provisions or requirements of this permit, or of the Laws of the State of New York, or ordinances of the City of New York, in reference to said work, the Commissioner of Public Works shall have the right and power to do the same at the cost and expense of said company, which said company hereby agrees to pay to the Department of Public Works upon demand.

16. The Commissioner of Public Works reserves the right to revoke this permit in case of any violation of its terms and conditions, or of any Laws of the State of New York, or ordinances of the City of New York.

In consideration of the permission hereby given, the said Tubular Dispatch Company, their successors or assigns, shall keep an accurate account of their gross receipts, and shall report the same to the Comptroller of the City of New York in writing, under oath, of their President or Treasurer, annually, on or before the first day of February of each year, for the preceding calendar year; and also, at the time of making report of receipts, as aforesaid, shall pay into the Treasury of the City of New York, to the credit and for the benefit of the Sinking Fund thereof, one per centum of their gross receipts for the first twelve months after the commencement of the use of any portion of said pneumatic

tubes or pipes for transmission of mail or other matter, one and one-half per centum of their gross receipts for the next succeeding twelve months, and two per centum of their gross receipts for each succeeding year thereafter. And the said company, their successors or assigns, shall, whenever required by the said Comptroller, execute such further assurance of their obligation for payment of the percentage of their gross receipts as aforesaid as the Counsel to the Corporation of the City of New York may devise and advise in the interest of the City of New York.

It is made a condition of the issuance of this permit that its acceptance, in all its terms, conditions and provisions, is attested hereunder by the President and Secretary of the Tubular Dispatch Company, and certificate of such acceptance and agreement thereto, in all of its terms, conditions and provisions, by resolution of the Board of Directors of said company, shall be filed with the Commissioner of Public Works, and that thereupon this permit shall take effect.

Such check or money must not be inclosed in a sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited and retained by the City of New York as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid the amount of the deposit will be returned to him.

THE COMMISSIONER OF PUBLIC WORKS RESERVES THE RIGHT TO REJECT ALL BIDS RECEIVED FOR ANY PARTICULAR WORK IF HE DEEMS IT FOR THE BEST INTERESTS OF THE CITY.

The Engineer's estimate of the quantities of materials to be furnished is as follows:

SPRUCE PLANK FOR REPAIRS.

Three-inch and 4-inch plank, as ordered, in pieces varying in length from 11 feet to 26 feet, 9 inches wide and upward, about 150,000 feet, B. M.

The 3-inch and 4-inch plank called for shall be delivered in lots of not less than 500 feet, board measure, within six hours after receipt of an order that said delivery is to commence.

Where the City of New York owns the wharf, pier or bulkhead at which the materials under this contract are to be delivered, no charge will be made to the contractor for wharfage upon vessels conveying said materials.

N. B.—Bidders are required to submit their estimates upon the following express conditions, which shall apply to and become a part of every estimate received:

1st. Bidders must satisfy themselves, by personal examination of the location of the proposed delivery of materials, and by such other means as they may prefer, as to the accuracy of the foregoing Engineer's estimate, and shall not, at any time after the submission of an estimate, dispute or complain of the above statement of quantities, nor assert that there was any misunderstanding in regard to the nature or amount of the work to be done.

2d. Bidders will be required to complete the entire work to the satisfaction of the Department of Docks, and in substantial accordance with the specifications of the contract. No extra compensation, beyond the amount payable for the work before mentioned, which shall be actually performed at the price therefor, per thousand feet board measure, to be specified by the lowest bidder, shall be due or payable for the entire work.

The contractor shall be ready to commence the delivery of the materials called for under this contract within five days after the date of this contract, and the delivery shall be commenced and shall be continued in such manner and quantities and at such times and places as may from time to time be directed by the Engineer-in-Chief, and the entire work is to be fully completed on or before the 1st day of November, 1897, and the damages to be paid by the contractor for each day that the contract may be unfulfilled after the time fixed for the fulfillment thereof has expired are, by a clause in the contract fixed and liquidated at Fifty Dollars per day.

Bidders will state in their estimates a price per thousand feet, board measure, for spruce timber delivered, in conformity with the approved form of agreement and the specifications set forth, by which price the bids will be tested. This price is to cover all expense of every kind involved in or incidental to the fulfillment of the contract, including any claim that may arise through delay, from any cause, in the performing of the work thereunder.

Bidders will distinctly write out, both in words and in figures, the amount of their estimates for doing the work.

The person or persons to whom the contract may be awarded will be required to attend at this office with the sureties offered by him or them and execute the contract within five days from the date of the service of a notice to that effect, and in case of failure or neglect so to do, he or they will be considered as having abandoned it and as in default to the Corporation, and the contract will be readvertised and relet, and so on until it be accepted and executed.

Bidders are required to state in their estimates their names and places of residence, the names of all persons interested with them therein, and if no other person be so interested the estimate shall distinctly state the fact; also that the estimate is made without any consultation, connection or agreement with and the amount thereof has not been disclosed to any other person or persons making an estimate for the same purpose, and is not higher than the lowest regular market price for the same kind of labor or material, and is in all respects fair and without collusion or fraud; that no combination or pool exists of which the bidder is a member, or in which he is directly or indirectly interested, or of which he has knowledge, either personal or otherwise, to bid a certain price, or not less than a certain price, for said labor or material, or to keep others from bidding thereon, and also that no member of the Common Council, Head of a Department, Chief of a Bureau, Deputy thereof, or Clerk therein, or any other officer or employee of the Corporation of the City of New York, or any of its Departments, is directly or indirectly interested in this estimate, or in the supplies or work to which it relates, or in any portion of the profits thereof, and has not been given, offered or promised, either directly or indirectly, any pecuniary or other consideration by the bidder, or anyone in his behalf, with a view to influencing his action or judgment in this or any other transaction heretofore had with this Department, which estimate must be verified by the oath, in writing, of the party making the estimate that the several matters stated therein are in all respects true. *Where more than one person is interested it is requisite that the verification be made and subscribed to by all the parties interested.*

Each estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person or persons making the estimate, they will, upon its being so awarded, become bound as his or their sureties for its faithful performance, and that if said person or persons shall omit or refuse to execute the contract, they will pay to the Corporation of the City of New York any difference between the sum to which said person or persons would be entitled upon its completion and that which said Corporation may be obliged to pay to the person to whom the contract may be awarded at any subsequent letting, the amount in each case to be calculated upon the estimated amount of the work to be done by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of the contract over and above all his debts of every nature and over and above his liabilities as bail, surety and otherwise, and that he has offered himself as a surety in good faith and with the intention to execute the bond required by law. The adequacy and sufficiency of the security offered will be subject to approval by the Comptroller of the City of New York after the award is made and prior to the signing of the contract.

No estimate will be received or considered unless accompanied by either a certified check upon one of the State or National banks of the City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of security required for the faithful performance of the contract. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited and retained by the City of New York as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid the amount of his deposit will be returned to him.

Bidders are informed that no deviation from the specifications will be allowed unless under the written instructions of the Engineer-in-Chief.

No estimate will be accepted from or contract awarded to any person who is in arrears to the Corporation, upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

In case there are two or more bids at the same price, which price is the lowest price bid, the contract, if awarded, will be awarded by lot to one of the lowest bidders.

THE RIGHT TO DECLINE ALL THE ESTIMATES IS RESERVED IF DEEMED FOR THE INTEREST OF THE CORPORATION OF THE CITY OF NEW YORK.

Bidders are requested, in making their bids or estimates, to use the blank prepared for that purpose by the Department, a copy of which, together with the form of the agreement, including specifications, and showing the manner of payment for the work, can be obtained upon application therefor at the office of the Department.

N. B.—Bidders are required to submit their estimates upon the following express conditions, which shall apply to and become a part of every estimate received:

1st. Bidders must satisfy themselves by personal examination of the location of the proposed dredging, and by such other means as they may prefer, as to the accuracy of the foregoing Engineer's estimate, and shall not, at any time after the submission of an estimate, dispute or complain of the above statement of quantities, nor assert that there was any misunderstanding in regard to the nature or amount of the work to be done.

2d. Bidders will be required to complete the entire work to the satisfaction of the Department of Docks, and in substantial accordance with the specifications of the contract. No extra compensation, beyond the amount payable for the work before mentioned, which shall be actually performed at the price therefor, to be specified by the lowest bidder, shall be due or payable for the entire work.

The work to be done under this contract is to be commenced within five days after receiving a notification from the Engineer-in-Chief of the Department of Docks that any part or portion of the dredging herein mentioned is required. The damages to be paid by the contractor for each day that the contract, or any part thereof that may be ordered or directed by the Engineer, may be unfulfilled after the time fixed for the fulfillment thereof has expired, are, by a clause in the contract, determined, fixed and liquidated at Fifty Dollars per day.

Bidders will state in their estimates a price for the whole of the dredging to be done in conformity with the approved form of agreement and the specifications therein set forth, by which price the bids will be tested. This price is to cover all expenses of every kind involved in or incidental to the fulfillment of the contract, including any claim that may arise through delay from any cause in the performing of the work thereunder.

All material to be excavated or removed from the area to be dredged will become the property of the contractor, and bidders must estimate the value of such material when considering the price for which they will do the work under this contract.

Bidders will distinctly write out, both in words and in figures, the amount of their estimate for doing this work.

The person or persons to whom the contract may be awarded will be required to attend at this office with the sureties offered by him or them, and execute the contract within five days from the date of the service of a notice to that effect; and in case of failure or neglect so to do, he or they will be considered as having abandoned it and as in default to the Corporation, and the contract will be readvertised and relet, and so on until it be accepted and executed.

Bidders are required to state in their estimates their names and places of residence, the names of all persons interested with them therein, and if no other person be so interested, the estimate shall distinctly state the fact; also that the estimate is made without any consultation, connection or agreement with and the amount thereof has not been disclosed to any other person or persons making an estimate for the same purpose, and is not higher than the lowest regular market price for the same kind of labor or material, and is in all respects fair and without collusion or fraud; that no combination or pool exists of which the bidder is a member, or in which the bidder is directly or indirectly interested, or of which the bidder has knowledge, either personal or otherwise, to bid a certain price, or not less than a certain price for said labor or material, or to keep others from bidding thereon, and also that no member of the Common Council, head of a Department, Chief of a Bureau, Deputy thereof, or Clerk therein, or any other officer or employee of the Corporation of the City of New York, or any of its Departments, is directly or indirectly interested in the estimate, or in the supplies or work to which it relates, or in any portion of the profits thereof, and has not been given, offered or promised, either directly or indirectly, any pecuniary or other consideration by the bidder or anyone in his behalf with a view to influencing the action or judgment of such officer or employee in this or any other transaction heretofore had with this department, which estimate must be verified by the oath, in writing, of the party making the estimate that the several matters stated therein are in all respects true. *Where more than one person is interested, it is requisite that the verification be made and subscribed to by all the parties interested.*

In case a bid shall be submitted by or in behalf of any corporation, it must be signed in the name of such corporation by some duly authorized officer or agent thereof, who shall also subscribe his own name and office. If practicable the seal of the corporation should also be affixed.

Each estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person or persons making the estimate, they will, upon its being so awarded, become bound as his or their sureties for its faithful performance; and that if said person or persons shall omit or refuse to execute the contract, they will pay to the Corporation of the City of New York any difference between the sum to which said person or persons would be entitled upon its completion and that which said Corporation may be obliged to pay to the person to whom the contract may be awarded at any subsequent letting; the amount in each case to be calculated upon the estimate.

Bidders are informed that no deviation from the specifications will be allowed unless under the written instructions of the Engineer-in-Chief.

No estimate will be accepted from or contract awarded to any person who is in arrears to the Corporation, upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

The adequacy and sufficiency of the security offered will be subject to approval by the Comptroller of the City of New York after the award is made and prior to the signing of the contract.

No estimate will be received or considered unless accompanied by either a certified check upon one of the State or National banks of the City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of security required for the faithful performance of the contract. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same, within three days after the contract is awarded. If the successful bidder shall refuse or neglect within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited and retained by the City of New York as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid the amount of his deposit will be returned to him.

Bidders are informed that no deviation from the specifications will be allowed unless under the written instructions of the Engineer-in-Chief.

No estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation, upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

In case there are two or more bids at the same price, which price is the lowest price bid, the contract, if awarded, will be awarded by lot to one of the lowest bidders.

THE RIGHT TO DECLINE ALL THE ESTIMATES IS RESERVED IF DEEMED FOR THE INTEREST OF THE CORPORATION OF THE CITY OF NEW YORK.

If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited and retained by the City of New York as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid the amount of his deposit will be returned to him.

Bidders are informed that no deviation from the specifications will be allowed, unless under the written instructions of the Engineer-in-Chief.

No estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation, upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

In case there are two or more bids at the same price, which price is the lowest price bid, the contract, if awarded, will be awarded by lot to one of the lowest bidders.

THE RIGHT TO DECLINE ALL THE ESTIMATES IS RESERVED IF DEEMED FOR THE INTEREST OF THE CORPORATION OF THE CITY OF NEW YORK.
