A report was presented from Examiner Rafferty, dated May 12, in relation to the case of Godfrey J. Snyder, an applicant for Fireman (18006), who had been directed at a previous meeting to produce satisfactory evidence as to the date of his birth, a question having arisen in that regard. It appeared from the Examiner's report that the records of the Department of Health from January, 1885, to January, 1886, had been inspected, but that Snyder's name could not be found; that affidavits of his mother had been submitted to the effect that her son was born in New York City on May 19, 1885; that he had never been baptized, and consequently there was no record of the same to be obtained, and that it was his (the Examiner's) opinion that the affidavits of the candidate's mother had been made in good faith and to the best of her knowledge. After careful consideration of the matter, the affidavits were accepted and the Secretary was directed to certify the candidate's name in the regular order of percentage.

A report was presented from Examiner Rafferty, dated May 5, with reference to John A. The Secretary was directed to inquire the reason for extending such leave.

A letter was presented from the Commissioner of Street Cleaning, dated May 5, requesting permission to extend the temporary appointment of Joseph McDonald, Temporary Clerk, in order that he might complete the special work upon which he had been engaged. The Secretary was directed to authorize the continuation of the said employee's service for a period not to exceed thirty days.

Y., etc., compensation to be at the rate of \$15 a day and expenses, pursuant to the provisions of clause 6 of Rule XII. The Secretary was directed to communicate with the Department and state that the Commission considered the proposed compensation, \$15 a day and expenses, excessive, and that it was of the opinion that an appointment could be made from an appropriate eligible list.

The leave of absence without pay, from April 1 to June 1, 1908, granted Charles H. Ermentraut, M. D., Medical Inspector in the Department of Health, was approved, it appearing from the doctor's certificate furnished that the same was required on account of illness.

Short for services rendered as Engineer, Janitor and Elevatorman on premises Nos. 124 128 Canal street, during the months of March and April, 1908, amounting to \$80. It appeared that the said property had recently come into the possession of the City, and that it was considered good business policy by the Deputy in the Bureau of City Revenue to obtain the services of Mr. Short, who had been employed by the former owners of the buildings, as the tenants were to remain for but two months, and it was impracticable to secure a person from an eligible list. The Secretary was directed to certify the voucher as being exempt from the provisions of the Civil Service Rules.

A communication was presented from the Assistant Secretary of the Civil Service Reform Association, dated May 7, submitting a brief in opposition to the proposed exemption of the position of Assistant Superintendent of Public Buildings and Offices, Borough of Brooklyn. The matter was laid over.

The request was denied.

The request of Joseph A. Lee, No. 427 St. Marks avenue, Brooklyn, that his name be restored to the list of Attendant, was denied, he having declined appointment on August 9, 1907, on account of the temporary nature of the work.

On motion, the action of the Commission taken on March 11, 1908, in denying the request of Lena Kahn for restoration to the eligible list of Stenographer and Typewriter, was rescinded, and her request was granted, it appearing from an affidavit submitted by the candidate under date of May 5, that her reason for not accepting the appointment in the Department of Health offered her on June 6, 1907, was that she was unwilling to leave her then employer without two weeks' notice, to which the department was unwilling to accede.

A communication was presented from William P. Gaynor, No. 475 West One Hundred and Sixty-fifth street, dated May 5, protesting against the appointment of an eligible from the list of Inspector of Hydrants, Stop-cocks, etc., in the Department of Water Supply, Gas and Electricity on the ground that his name was No. 4 on the preferred list of Inspector of Pipe Laying, Pipes and Hydrants. The communication was ordered filed.

The request of John J. O'Brien, No. 525 West Fortieth street, to have his name restored to the regular eligible list of Blacksmith's Helper, was granted, it appearing from the doctor's certificate furnished that his failure to report for duty at the time of his certification to the Park Department was due to illness.

The Commission then adjourned, to meet at the Grand Central Palace on Tuesday, May 19, 1908, at 9 o'clock in the forenoon, to prepare questions for the examination for promotion to Sergeant of Police.

Commission for the First District, Chief Engineer's Office, Route 9-0-2, Drawing No. 25, November 27, 1907, George S. Rice, Chief Engineer."

Pursuant to a resolution of the Public Service Commission for the First District, adopted on May 26, 1908, the sale of the above described buildings will be held by said Commission on the premises on

THURSDAY, JUNE 18, 1908,

at 11 o'clock a. m., upon the following terms and conditions and subject to the approval of the Commissioners of the Sinking Fund:

The buildings and appurtenances thereto will be sold to the highest bidder, who must pay immediately cash or a certified check drawn to the order of the Comptroller of The City of New York and must also, at the time of the sale, give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of fifty dollars the sum of fifty dollars shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by The City of New York to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

All the materials of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the sidewalk and curb in front of said buildings extending within the described area and down to the level of the cellar bottom, shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point; also the foundation walls of all classes shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street, and the opening of the main sewer in street shall be properly closed in compliance with the directions of the Bureau of Sewers, Borough of Manhattan, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permits for all openings in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any portion thereof, within sixty days from the day of the sale, will work forfeiture of ownership of such buildings, appurtenances, or portion as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and the City of New York will, without notice to the purchaser, cause the same to be removed and the costs and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner and must be completed within sixty days from the day of sale, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of the said buildings.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls, are to be taken down and removed. The walls shall be made permanently self-supporting, beam holes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. ## BOARD OF ESTIMATE AND APPORTIONMENT.

**PUBLIC NOTICE IS HEREBY GIVEN** that at a meeting of the Board of Estimate and Apportionment, held June 5, 1908, the following petition was received:

To the Honorable the Board of Estimate and Apportionment:

The petition of the Union Railway of New York City respectfully shows:

First—That your petitioner is a street surface railway company, organized and existing under the laws of the State of New York, having been formed by the filing of articles of consolidation in the office of the Secretary of State of New York on the fifth day of July, 1892.

Second—That for many years it has been engaged in the operation of a double-track street surface railroad, with extensions and branches thereof, for the carriage of passengers in the Boroughs of Manhattan and The Bronx, in The City of New York, and using the overhead trolley system of electric traction as motive power thereon.

Third—That one of the lines of the petitioner's railroad has been operated for many years upon Fordham Avenue and Bailey Avenue, in the Borough of The Bronx, and afforded a convenient connection for public travel between the easterly portion of the Bronx Borough, in which are operated the steam lines of the New York and Harlem Railroad, the elevated lines of the Manhattan Railway and the Kingsbridge section of the Borough of The Bronx.

An additional line of the petitioner's railroad has been operated on Broadway, between Two Hundred and Thirtieth street and the northerly line of The City of New York, affording also a convenient line of travel to and from the terminus of the subway line to many thousands of people traveling daily thereon.

Fourth—Your petitioner now proposes to connect its road upon Fordham and Bailey avenues, which now terminates at the intersection of Two Hundred and Thirtieth street and Bailey Avenue, with the road upon Broadway, which now terminates at Two Hundred and Thirtieth street, by the construction of a double-track extension, or branch, in said Borough of The Bronx, in The City of New York, upon the following streets and avenues:

Beginning at and connecting with the petitioner's double-track road now constructed on Bailey Avenue, at the intersection thereof with West Two Hundred and Thirtieth street; running thence westerly in or upon the surface of West Two Hundred and Thirtieth street to its intersection with Broadway, there to connect with the petitioner's double-track road now operated thereon.

Fifth—That heretofore and on or about the 23d day of August, 1892, the Common Council of The City of New York gave its consent to the construction of an extension to the petitioner's railroad upon streets described in the resolution as "thence northerly along said (Sedgwick) Avenue to its intersection with Bailey Avenue; thence along Bailey Avenue to its intersection with Broadway at Kingsbridge."

Your petitioner believes that by such description the Common Council giving such consent intended to include the right to construct upon Two Hundred and Thirtieth street the extension herein applied for, but said resolution was not effective for such purpose by reason of failure to specifically describe the said street.

Sixth—That such extension or branch will be 750 feet in length and, when constructed, will enable the petitioner to operate a continuous line of cars upon and over its Bailey Avenue and Broadway lines above described.

Seventh—That your petitioner proposes to operate said extension or branch by the overhead system of electricity, similar in all respects to that now in use on its other lines of road.

Eighth—That for the purpose of constructing and operating such branch or extension of its road, your petitioner desires to obtain from your Honorable Board, and hereby applies for its consent to and a grant of the franchise or right for the construction, maintenance and operation of a double-track extension or branch of its existing railroad for public use in the conveyance of persons and property for compensation over the street and avenues above mentioned.

Wherefore your petitioner prays that public notice of this application and of the time and place when and where the same will be first considered be given, as required by law, and that a franchise or right be granted in accordance with the provisions of the Greater New York Charter.

**PUBLIC NOTICE IS HEREBY GIVEN** that at a meeting of the Board of Estimate and Apportionment, held June 5, 1908, the following petition was received:

To the Honorable the Board of Estimate and Apportionment:

The petition of the Third Avenue Railroad Company respectfully shows, on information and belief, as follows:

First—That your petitioner is a street surface railroad company, organized and existing under the laws of the State of New York, having filed its articles of association in the office of the Secretary of State on the 8th day of October, 1893.

Second—That for many years it has operated a double track street surface railroad for the carriage of passengers in the Borough of Manhattan, City of New York, from the City Hall, in said City, upon Park row, Bowery and Third avenue to the Harlem River; upon One Hundred and Twenty-fifth street and Manhattan street, from East River to North River, and upon Amsterdam avenue, from One Hundred and Twenty-fifth street to the northerly terminus thereof at Fort George, at or near the intersection of Fort George avenue, using the underground system of electrical traction as motive power for such operation.

Third—That your petitioner proposes to extend its road on Amsterdam avenue and construct a branch thereof with double tracks and such connections, switches and appurtenances as may be necessary for the accommodation and operation of the said extension or branch in, through and upon the surface of such streets, avenues and highways in the Borough of Manhattan, City of New York, as are described as follows: Beginning at and connecting with the double track road upon Amsterdam avenue, owned by the Third Avenue Railroad Company, at or near the connection of said avenue with Fort George avenue, running thence northerly, westerly and southerly in, upon and along said Fort George avenue, as it winds and turns to the connection thereof with St. Nicholas avenue, running thence southerly in, upon and along said One Hundred and Ninetieth (190th) street, and running thence easterly in, upon and along said One Hundred and Ninetieth (190th) street to the intersection of said street with Amsterdam avenue, there to connect with the existing railroad on said avenue, now owned by the said company.

When constructed it will enable the petitioner to operate cars over a continuous line of road, and avoid the inconvenience arising from the use of a stub end railroad terminal. The present operation will be accelerated thereby and quicker transportation given to the public seeking to depart from the Fort George territory.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, and names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, or the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done.
