PUBLIC NOTICE IS HEREBY GIVEN THAT applications will be received by the Municipal Civil Service Commission from

**WEDNESDAY, APRIL 7, 1915, TO WEDNESDAY, APRIL 21, 1915,**  
for the position of

**INSPECTOR OF FIRE ALARM BOXES, GRADE 2.**

No applications delivered at the office of the Commission, by mail or otherwise, after 4 P. M. WEDNESDAY, APRIL 21, 1915, will be accepted.

Application blanks will be mailed upon request, provided a self-addressed stamped envelope or sufficient postage is enclosed to cover the mailing. The Commission will not guarantee the delivery of the same. Applications forwarded by mail upon which full postage is not prepaid will not be accepted.

Applicants must be citizens of the United States and residents of the State of New York.

The subjects and weights of the examination are: Experience, 4; 70% required; Technical, 3; 75% required; Practical Test, 3; 75% required.

Applications for this examination must be filed on a special blank, Form C, with insert. Experience blanks will be issued with the applications and must be filed with the Commission at the time of filing applications. Applicants will be required to first pass a physical examination; those who fail in this will not be summoned for the practical test, which will precede the written examination.

The duties of the position call for the inspection of boxes both in the shop and in the field; the making of repairs to minor parts; testing circuits and ascertaining the location of breaks in the electrical lines; to examine and clean boxes and remove causes of mechanical or electrical trouble. Candidates should have had at least three years' experience in electrical testing laboratories, the manufacture of cables or insula-

tion, fire alarm boxes or similar signaling apparatus, or in the construction and repair departments of electrical, telephone or signaling companies. Candidates who have served as Inspectors of Electrical Conduits or Cables for municipalities or operating companies must in addition have had at least one year's factory work as indicated above. Two years' factory, laboratory or inspection experience as called for in the foregoing will be required of candidates who have been graduated in electrical or mechanical engineering from an institution of recognized standing. From the foregoing conditions, it will be seen that mere knowledge of the apparatus or inspectional experience is not sufficient; candidates must have had actual experience in the making or assembling of apparatus. A sufficient knowledge of the Morse Code is essential, such as would enable the Inspector to maintain a conversation from a box to headquarters.

Candidates will be tested on their knowledge of the various types of fire alarm boxes, the electrical connections to lamp posts and conduit cables; the methods of detecting breaks and other trouble in circuits; the general alarm systems from buildings and boxes to headquarters; the fundamental principles of battery, electric wiring, insulations and connections.

Several vacancies will occur soon at an entrance salary of \$1,200 in the Fire Department, with assignments to any of the five Boroughs.

Minimum age, 21 years.

PUBLIC NOTICE IS HEREBY GIVEN THAT applications will be received by the Municipal Civil Service Commission from

**TUESDAY, APRIL 6, 1915, TO TUESDAY, APRIL 20, 1915,**  
for the position of

**ENGINEER (with a knowledge of sewage disposal).**

No applications delivered at the office of the Commission, by mail or otherwise, after 4 P. M. TUESDAY, APRIL 20, 1915, will be accepted.

Application blanks will be mailed upon request, provided a self-addressed stamped envelope or sufficient postage is enclosed to cover the mailing. Applications forwarded by mail upon which full postage is not prepaid will not be accepted.

Applicants must be citizens of the United States and residents of the State of New York.

The duties of the Engineer, Bureau of Sewer Plan, will involve the organization of a staff to utilize, to the best possible advantage, the vast heritages of documentary information, material records and investigations bearing on harbor pollution. He will continue the work of the recently disbanded Metropolitan Sewerage Commission and institute such constructive work as may be determined upon for the purification of the waters surrounding the city.

The active duties of the Engineer will not involve the design of tanks, the application of processes of local treatment, bacteriological research or the planning of sewer systems—as they constitute the primary elements of the problem. To cope with the situation the candidate must show an extended study of municipal problems of sewage disposal and an experience of ten years as Sanitary Engineer, five years of which should have been in sewage disposal work.

The subjects and weights are: Experience, 5; 70% required Technical, including a report, 5; 75% required.

A qualifying physical examination will be given.

Applications for this examination must be filed on a special blank, Form C, with insert. Experience blanks will be issued with the applications and must be filed with the Commission at the time of filing applications. The Experience will then be rated. Candidates failing to receive 70% on the Experience paper will not be summoned for the physical examination. Candidates failing to pass the physical examination will not be summoned for the mental test.

The candidate must be thoroughly familiar with the particular problem of New York City and the plans heretofore offered for its solution; should have an intimate knowledge of the different methods of sewage treatment which are generally recognized as most successful; should know the general methods of solution adopted by other tidal water cities, as Baltimore, Boston, etc.; and should be reasonably acquainted with the main drainage systems of foreign cities, as London, Birmingham, Dublin, etc.

The technical examination will consist of a searching test along the lines indicated above, together with the writing of a report or discussion of some phase of the problem of river or harbor pollution as applied to the surrounding waters of this city.

One vacancy—Bureau of Sewer Plan, Board of Estimate & Apportionment, at \$4,000 per annum. Minimum age, 21 years.

#### Invitation to Contractors.

##### Part of the Eastern Parkway Rapid Transit Railroad.

The Public Service Commission for the First District (hereinafter called the "Commission") invites proposals to construct Section No. 2 of Route No. 12, a part of the Eastern Parkway Rapid Transit Railroad.

The points within the City of New York between which the said part is to run and the route or routes to be followed are briefly as follows:

Section No. 2. Beginning at a point under the Prospect Park Plaza in the Borough of Brooklyn about twenty-five (25) feet north of the southerly line of St. John's Place extended, and extending thence easterly under Eastern Parkway to a point about six hundred and thirty-five (635) feet east of the center line of Nostrand Avenue, and including a spur curving southeasterly under Eastern Parkway for a connection to Nostrand Avenue subway.

The general plan of construction calls for a subsurface railroad having four tracks.

The Contractor will not be required to provide or lay tracks, ties or ballast nor to do station finish work.

The work under the contract will include the care and support of buildings, vaults, sewers, pipes, railroads and other surface, subsurface and overhead structures, the maintenance of traffic and the restoration of pavements and other surfaces.

The method of construction will be chiefly by open trench excavation, but partly by trench excavation under cover. Certain trees are to be maintained in place, and at such points undercutting methods may be necessary.

Bidders must examine the form of contract and the specifications and contract drawings, must visit the location of the work and inform themselves of the conditions along the line of the work and make their own estimates of the facilities and difficulties attending the execution of the work.

A fuller description of the work and other requirements, provisions, details and specifications are given in the form of contract and in the contract drawings therein referred to. Copies of the forms of contract, bond and contractor's proposal and of the contract drawings may be inspected and purchased at the office of the Commission, No. 154 Nassau Street, Borough of Manhattan, New York City. The forms of contract, bond and contractor's proposal and the contract drawings are to be deemed a part of this invitation.

The City of New York (hereinafter called the "City") and the Interborough Rapid Transit Company will both be parties to the contract; the Interborough Rapid Transit Company being a party for the purpose of disbursing part of its contribution toward the cost of construction as provided in the contract dated March 19, 1913, between the City and said Company for additional rapid transit railroads. The liability of Interborough Rapid Transit Company will be limited to an amount equal to ninety-five per centum (95%) of the total estimated amount to be paid to the Contractor under the contract.

Partial payments to the Contractor will be made as the work proceeds as provided in the contract.

The Contractor must complete the work within twenty-two (22) months from the delivery of the contract.

At the time of the delivery of the contract the Contractor must furnish security to the City by depositing a bond, cash or securities in the sum of two hundred and fifty thousand dollars (\$250,000). As further security fifteen per centum (15%) of the amounts certified from time to time to be due to the Contractor will be deducted until the amounts so deducted and retained shall equal ten per centum (10%) of the total estimated amount to be paid to the Contractor under the contract. Thereafter there shall be so deducted and retained for such purpose ten per centum (10%) of the amounts certified from time to time to be due to the Contractor.

Sealed bids or proposals will be received at the office of the Commission, No. 154 Nassau Street, Borough of Manhattan, New York City, until the 26th day of April, 1915, at twelve fifteen (12:15) o'clock p. m., at which time and place, or at a later date to be fixed by the Commission, the proposals will be publicly opened.

Proposals must be in the form prescribed by the Commission.

A statement, based upon the estimate of the Chief Engineer of the Commission, of the quantities of the various classes of the work and of the nature and extent as near as practicable of the work is to be found in the schedule in the form of contractor's proposal. The quantities given in such schedule are approximate only, being given as a basis for the uniform comparison of bids, and no claim is to be made against the City on account of any excess or deficiency, absolute or relative, in the same except as provided in the specifications and form of contract.

Every proposal must be submitted by the Contractor in a sealed envelope endorsed "Proposal for Constructing Part of Rapid Transit Railroad—Route No. 12, Section No. 2," and must be delivered to the Commission or its Secretary; and in the presence of the person submitting the proposal, it will be deposited in a sealed box in which all proposals will be deposited. No proposal will be received unless accompanied by a separate certified check for twenty-five thousand dollars (\$25,000), payable to the order of the Comptroller of the City and drawn upon a national or state bank or trust company satisfactory to the Commission and having its principal office in New York City. Such check must not be enclosed in the envelope containing the proposal.

The Unit Prices must not be improperly balanced, and any bid which the Commission considers detrimental to the City's interests may be rejected.

No proposal, after it shall have been deposited with the Commission, will be allowed to be withdrawn for any reason whatever.

The award of the contract will be made by the Commission as soon as practicable after the opening of the proposals.

Deposits made by bidders whose proposals are not accepted will be returned within three (3) days after the contract is executed and delivered and its provisions in respect of the bond or deposit are complied with, unless all proposals shall be rejected, in which event such deposits will be returned within three (3) days after such rejection. The deposit of the successful bidder will be returned when the contract is executed and delivered and its provisions in respect of the bond or deposit are complied with. The right to reject any and all bids is reserved.
