The following communication was received from Mr. Robert Maynicke, Architect in charge of the work of the New Criminal Court Building:

No. 111 FIFTH AVENUE, December 12, 1895.

Hon. JOHN W. GOFF, Recorder:

DEAR SIR—I have personally made a preliminary examination of a part of the wiring and appliances for the electric lighting of the Criminal Court Building and find that the wiring, cut-outs, distribution boxes and other parts relating thereto, where exposed to view, are not in accordance with the rules and regulations of the New York Board of Fire Underwriters and not in compliance with the rules and requirements of the Board of Commissioners of the Fire Department, New York City.

Inclosed I beg to hand you report of Messrs. Pattison Bros., Electrical Experts, who made an examination at my request.

I would suggest that you be authorized by the Commissioners of the Sinking Fund to have the electric-lighting system tested and examined by an expert, for the purpose of ascertaining exactly what the defects and shortcomings are.

Such an examination and tests can be made at an expenditure not exceeding \$350.

With the data thus obtained I can then prepare drawings and specifications for remedying the defects and for the installation of an electric-light plant, for the lighting of the entire building.

Respectfully yours, R. MAYNICKE.

No. 113 LIBERTY STREET, December 11, 1895.

MR. ROBERT MAYNICKE, No. 111 Fifth avenue:

DEAR SIR—In accordance with your request, we have made a preliminary examination of the electric-light work at the Criminal Court Building, and we beg to report that there are many things in connection with this work that are not in accordance with the present rules and regulations of the Board of Fire Underwriters and the rules and requirements of the Fire Department. We give you the following few items as examples:

The tubing on the main risers from the switchboard is not properly joined together, and in many cases the insulated wires are resting upon iron pipes.

Mouldings and boxings are put in without any paint of any description, and a number without covers.

Tubes are in many places fastened to or resting upon the pipes of the gas, water or heating system.

The wires, where they are brought into the switchboard, are not properly protected.

Fuses in various parts of the building are blown, showing that trouble does or has existed on those lines.

The wires at some outlets are left with the ends untaped.

The existence of these defects renders it necessary to test the entire system, and remedy all the existing faults, bringing the system up to the present requirements before the current can be turned on to the various parts of the building.

Yours truly,
PATTISON BROS.

Whereupon the Recorder offered the following:

That the Architect be directed to prepare drawings and specifications for remedying and making good all defective materials and work and for new materials and work that may be necessary for the wiring for the electric lighting, the cut-outs, distribution boxes and other parts relating thereto for the lighting in all parts of the Criminal Court Building, and for the installation of an electric-light plant of suitable size for the effective lighting of the entire building; said electric-light plant to consist of engines, dynamos, switch-board, and other apparatus and appliances of all kinds pertaining thereto of proper size and properly proportioned to produce an economic and efficient method of illumination; also to include the necessary wiring and fixtures for the desk lights in the office of the District Attorney.

And that an expert be employed to test, experiment and ascertain the situation and location of all electric wires, conductors, etc.; expense of the same not to exceed three hundred and fifty dollars.

Which was unanimously adopted.

The Comptroller then offered the following:

Resolved, That the Commissioner of Public Works be and hereby is directed to prepare, with the approval of the Counsel to the Corporation, the forms of contract and specifications for furnishing the New Criminal Court Building and making certain alterations, in accordance with the

different resolutions this day adopted, and to submit the same to the Commissioners of the Sinking Fund for approval, as required by section 5 of chapter 371 of the Laws of 1887.

Which was unanimously adopted.

Hon. John R. Fellows, District Attorney, requested that provision be made temporarily for the holding of Part IV. of the Court of General Sessions. He said:

All the members of the Board know the necessity of providing the Fourth Part for the Judge who will take his office on the 1st of January. That law provided not only for the election of a Judge, but for the appointment of the necessary Stenographers, Officers of Court, etc., who on the 1st of January will come into office and go upon the pay-rolls, and, unless something is done, will for many months have nothing to do. The plans have now been approved by this Board for the Fourth Part; but in a consultation last night between the Judges and myself and the Clerk of the Court, it was thought a method might be adopted by which we could hold the Part at once. The room designated for the library, already set apart for the library, is a room formerly occupied by the Street Cleaning Commission—a very large room. I can supply that from my office in a rude way—what is absolutely essential for the holding of a court; that is, I can provide two or three tables from my office, and a desk and chairs for the Court, the Clerk and the jury, and seats enough for the witnesses may be arranged. It will be understood that the room has been designated. The law creates the Court, and I really do not know that there is any authority at all, but I do not care to move furniture from one department to which it has been assigned without at least calling the attention of the proper authorities to it. I can equip that court-room so that on the first Monday of January we can begin Court, and there is no greater necessity exists now in this city than that. The Tombs prison is overcrowded, the Courts are entirely inadequate to try the cases. We have, indeed, but one Part in this city now that is dealing with the present current cases. We ought to have four or five.

Whereupon the Chairman, Committee on Finance, Board of Aldermen moved that this Board approve of the course suggested by the District Attorney.

Which was agreed to.

The Mayor called up the matter of the location of the approaches of the bridge of the New York and New Jersey Bridge Companies in the City of New York, under authority of the act of Congress, approved June 7, 1894 (Minutes, September 4, 1895, page 214; October 9, 1895, page 263; November 7, 1895, page 299, and November 20, 1895, page 311).

Hon. Andrew H. Green, Luke F. Cozans, Esq., attorney, and representatives of the companies were present.

A map or diagram, showing proposed location of approaches, etc., was presented for the consideration of the Board.

After discussion, the matter was laid over until the next meeting.

The Board then adjourned to meet on Wednesday, December 18, 1895, at 3 o'clock P. M.

"Resolved, That the Commissioners of the Health Department be and they are hereby respectfully requested to suspend operation of the rule or law of said Department in relation to the hanging of meats and poultry on the sidewalks, near the curb, in front of butcher shops, so that butchers and marketmen may be permitted to hang poultry, game and meats of all descriptions on their hooks during the holiday season, such permission to continue until January 10, 1896; provided, always, that a free passageway for pedestrians be maintained through the streets and thoroughfares"; and

Whereas, The law referred to in above resolution is a part of the Sanitary Code of this City, reading as follows:

"Section 32—That no meat or dead animal above the size of a rabbit shall be taken to any public or private market for food until the same shall have fully cooled after killing, nor until the entrails, head and feet (except of poultry and game, and except the head and feet of swine) shall have been removed; nor shall the body or any part thereof of any animal which is to be used for food be carted or carried through the streets, except it be covered so as to protect it from dust and dirt, and no meat or poultry shall be hung or exposed for sale outside of any shop or store in this city or in the open windows or doorways thereof"; therefore

Resolved, That the Honorable the Board of Aldermen be respectfully informed that the Board of Health has no authority or power to suspend for any period any sanitary ordinance; and, further, that in the opinion of the Board of Health such ordinance should not be suspended, as it has been approved by the New York Retail Butchers' Mutual Protective Association and by the community generally, and is believed to be necessary, in the interest of the public health, for the protection of the food supply of this city from street dust and other contamination.

RESOLUTION.

Resolved, That upon the retirement, on November 1, 1895, of Foreman John A. Cowie, of Engine 40, and Fireman Theodore Dakin, of Engine 6, at their own request, the Board deems it

appropriate that attention be called to the long and exemplary service of these faithful members of the city's fire extinguishing force, who, having entered the Department at its organization, and neither having had a complaint of misconduct served against them, will each have served more than thirty years and left behind them an unblemished record.

Foreman Cowie was appointed Assistant Foreman upon his entry into the Department on September 14, 1865, and promoted Foreman March 1, 1873.

Fireman Dakin entered as Fireman September 8, 1865, and has the additional distinction that his name stands inscribed on the Roll of Merit for bravery in the rescue of a fellow being from a burning building.

Such excellent records as examples of devotion to duty and good conduct are worthy of emulation by all members of the Department.

The best wishes of the Commissioners go with Foreman Cowie and Fireman Dakin for their future welfare in their well-earned retirement from an arduous and exacting service.

The Chief of Department will promulgate the foregoing in General Orders.

AQUEDUCT COMMISSION.

Minutes of Stated Meeting of the Aqueduct Commissioners, held at their office, No. 209 Stewart Building, on Wednesday, December 18, 1895, at 3 o'clock P. M.

Present—The Commissioner of Public Works, and Commissioners Duane, Tucker and Cannon.

The Committee of Finance and Audit reported their examination and audit of bills contained in Vouchers Nos. 10721 to 10724, inclusive, and Vouchers Nos. 10726 to 10738, inclusive, amounting to \$548.04, and of estimates contained in Vouchers Nos. 10725, 10739 and 10740, amounting to \$20,820.06.

On motion of Commissioner Tucker, the same were approved and ordered certified to the Comptroller for payment.

The Construction or Executive Committee recommended the adoption of the following resolution:

Resolved, That, upon the recommendation of the Chief Engineer, the following bills are hereby approved and ordered certified to the Comptroller for payment, viz.:

1st. Of Skinner & Connelly, for square iron washers, used at Shaft No. 25, amounting to \$4.25.

2d. Of G. Schumacher, for hire of horse and carriage, amounting to \$11.75.

3d. Of R. D. Philbin, for transportation and board, amounting to \$28.54.

4th. Of William James, for transportation and board, amounting to \$28.

5th. Of Bert Tompkins, for transportation and board, amounting to \$22.29.

On motion of Commissioner Tucker, the same was adopted.

The Committee presented the following communication, received from the Chief Engineer:

NEW YORK, December 18, 1895.

To the Honorable the Committee on Construction:

GENTLEMEN—The barn adjacent to the office recently built at the New Croton Dam requires urgent repairs. After a careful examination it is found that it can be repaired to good advantage, and, as the office building and dependencies are most probably to be used permanently for the maintenance of the reservoir, I respectfully submit that the repairs be made. The removal of the present barn and the substitution of a new building of much smaller size would cost more than twice the cost of the repairs recommended. Moreover, owing to the daily sheltering of horse and carriage and the necessity of room for miscellaneous storage, the size of the present barn is none too large.

In order to give you a positive statement as to the proposed expenditure, a full description has been prepared of the work to be done and three (3) bids have been received as follows:

Washburn Brothers, of Peekskill, \$746.74; Daniel Carpenter, Sing Sing, \$662; Charles Halstead, Sing Sing, \$603.

Mr. Halstead's bid is reasonable, and I submit that the Engineer be authorized to order the work to be done by him.

Yours, respectfully,

A. FTELEY, Chief Engineer.

And recommended the adoption of the following resolution:

Resolved, That the Chief Engineer be and hereby is authorized to order Charles Halstead, of Sing Sing, N. Y., to do the necessary repairs to the barn adjacent to the office recently built at the

New Croton Dam, at his bid of six hundred and three dollars, it being the lowest received for doing said work.

On motion of Commissioner Tucker, the same was adopted.

The Committee also recommended the adoption of the following preamble and resolution: Whereas, Application has been made by John Twine, contractor for constructing new highways and their appurtenances, fences, etc. (Line No. 1 and Line No. 4), in the Town of Cortlandt, Westchester County, New York, for an extension of time in which to complete said contract; and the Chief Engineer having recommended that an extension of time to August 1, 1896, be granted; therefore be it

Resolved, That an extension of time to August 1, 1896, be and hereby is granted to John Twine in which to complete his contract for constructing new highways and their appurtenances, fences, etc. (Line No. 1 and Line No. 4), in the Town of Cortlandt, Westchester County, New York, provided his bondsmen shall, within ten days from the date hereof, enter into stipulations continuing their obligations for and during the completion of said contract under said extension of time, which is hereby allowed to him as further time for the performance of said contract; and provided, also, that, in view of the non-completion of the permanent fences, he will, at his own expense, on the requisition of the Engineer, and under his direction, erect such temporary fences as may be found by the latter necessary for the proper protection of the public.

On motion of Commissioner Cannon, the same was adopted.

The Committee also presented a communication, received from the Secretary, reporting that the sum of \$405.33 had been received from Division Engineer Edward Wegmann, being for rental of buildings in the villages of Katonah and Croton Falls, Westchester County, New York, for the month of December, 1895, and that said amount, together with \$38.50, being proceeds of sale of reports of the Aqueduct Commissioners (1887-1895), had been transmitted by him to the City Chamberlain, for the credit of the "Additional Water Fund," and that his receipts therefor were on file.

On motion of Commissioner Cannon, the same was ordered filed.

On motion of Commissioner Cannon, the Commissioners then adjourned to meet on Tuesday next, December 24, 1895, at 3 o'clock P. M.

FIRE DEPARTMENT.

NEW YORK, December 27, 1895.
TO CONTRACTORS.

SEALED PROPOSALS FOR FURNISHING the materials and labor and doing the work required in making repairs, etc., to the fire-boat "William F. Havemeyer" (Engine Company No. 43) of this Department, will be received by the Board of Commissioners at the head of the Fire Department, at the office of said Department, Nos. 157 and 159 East Sixty-seventh street, in the City of New York, until 10 o'clock A. M.,

Wednesday, January 8, 1896, at which time and place they will be publicly opened by the head of said Department and read:

No estimate will be received or considered after the hour named.

For information as to the amount and kind of work to be done bidders are referred to the specifications, which form part of these proposals.

The form of the agreement, with specifications, showing the manner of payment for the work, may be seen and forms of proposals may be obtained at the office of the Department.

Bidders will write out the amount of their estimate in addition to inserting the same in figures.

The work is to be completed and delivered within fifteen (15) days after the execution of the contract.

The damages to be paid by the contractor for each day that the contract may be unfulfilled after the time specified for the completion thereof shall have expired, are fixed and liquidated at twenty (20) dollars.

The award of the contract will be made as soon as practicable after the opening of the bids.

Any person making an estimate for the work shall present the same in a sealed envelope to said Board, at said office, on or before the day and hour above named, which envelope shall be indorsed with the name or names of the person or persons presenting the same, the date of its presentation, and a statement of the work to which it relates.

The Fire Department reserves the right to decline any and all bids or estimates, if deemed to be for the public interest. No bid or estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

Each bid or estimate shall contain and state the name and place of residence of each of the persons making the same; the names of all persons interested with him or them therein; and if no other person be so interested, it shall distinctly state that fact; that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud; and that no member of the Common Council, head of a department, chief of a bureau, deputy thereof or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate, that the several matters stated therein are in all respects true. Where more than one person is interested it is requisite that the verification be made and subscribed by all the parties interested.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders of the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person making the estimate, they will, on its being so awarded, become bound as his sureties for his faithful performance in the sum of one thousand (1,000) dollars; and that if he shall omit or refuse to execute the same, they will pay to the Corporation any difference between the sum to which he would be entitled on its completion, and that which the Corporation may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting, the amount in each case to be calculated upon the estimated amount of the work by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of this contract, over and above all his debts of every nature, and over and above his liabilities as bail, surety or otherwise; and that he has offered himself as a surety in good faith, and with the intention to execute the bond required by law. The adequacy and sufficiency of the security offered is to be approved by the Comptroller of the City of New York before the award is made and prior to the signing of the contract.

No estimate will be considered unless accompanied by either a certified check upon one of the banks of the City of New York, drawn to the order of the Comptroller, or money to the amount of fifty (50) dollars. Such check or money must not be included in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited to and retained by the City of New York as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid the amount of his deposit will be returned to him.

Should the person or persons to whom the contract may be awarded neglect or refuse to accept the contract within five days after written notice that the same has been awarded to his or their bid or proposal, or if he or they accept but do not execute the contract and give the proper security, he or they shall be considered as having abandoned it, and as in default to the Corporation, and the contract will be readvertised and relet as provided by law.

(b) In which Commissioners were appointed since July 1, 1895.

SCHEDULE C.

Other Proceedings not above Classified.

We wish to particularly call your attention to the length of time required in the preparation of the necessary maps. There are 151 proceedings waiting for rule maps, 11 waiting for draft damage and benefit maps, and 12 waiting for final maps.

Of the rule maps not yet received three were requested in 1891, six in 1892, thirty-three in 1893, forty-two in 1894 and fifty-six between January 1 and July 1, 1895.

Of the eleven proceedings waiting for draft damage and benefit maps request was made nine months ago in one, six and a half months ago in two and nearly three months ago in two others; in the twelve proceedings waiting for final maps request was made nearly five months ago in two and two months ago in three others.

Taking the proceedings in Schedule B, subdivisions 2, 3 and 4, draft damage and benefit maps have been received in about fifty-eight, and the average time required after request was about eighty days. In about twenty-three proceedings in which final maps have been received, the average time required after request was also about eighty days.

Section 956 of the Consolidation Act, as amended in 1893, and again in 1895, gives the Board of Street Opening and Improvement the power to direct that the title to the lands to be condemned for street purposes shall vest in the City, in cases where there are no buildings, upon the filing of the oaths of the Commissioners and, in cases where there are buildings, upon a day not less than six months from the date of the filing of said oaths. Section 974 was, in 1893, so amended that unless the proceedings are completed within six months extensions of time must be obtained from the Supreme Court, and this act evidently contemplates that the proceedings shall terminate within six months from the filing of the oaths of the Commissioners.

Of course it is impossible to complete the proceedings within six months when on the average we have to wait more than five months for maps. The consequence is that great hardship results to the owners of improved property when their property is advertised for sale after the vesting of title, but before the Commissioners are ready to report and before the awards can be paid. The Commissioner of Street Improvements of the Twenty-third and Twenty-fourth Wards, at our request, has in many cases submitted to great inconvenience, and has retarded his improvements in order not to turn poor people out of their homes before the City was prepared to pay them for their property. We could recite many cases of peculiar hardship, but the mere statement of the situation seems sufficient to show the evil. The delay in obtaining maps also increases the amount which the City must eventually pay for the land taken.

As you will observe by comparing the reports from this Bureau, its work has enormously increased since its beginning. We have no doubt that the Commissioner of Street Improvements has responded to our requests for maps with as much promptness as possible, but his appropriations for the purpose of making maps for street openings have not been increased in proportion to the needs of this Bureau. It seems to us of such importance to the City, and also to the property owners in the Twenty-third and Twenty-fourth Wards, that this delay in obtaining maps for the use of the Commissioners should be obviated, that we feel it our duty to call your attention to the matter and venture to suggest that provision for a larger force of engineers should be made in the appropriations for the coming year.

We also wish to call your attention to the unequal valuation of property in the Twenty-third and Twenty-fourth Wards upon the tax books of the City. It is frequently the case that the testimony given by experts on behalf of the owners of property, part of which is to be taken, makes it appear that land is valued on the tax books of the City at not more than one-fourth of its true value, and sometimes even less. As section 981 of the Consolidation Act limits Commissioners of Estimate and Assessment in levying their assessments to one half of the tax valuation of the property assessed, it often follows that the City must pay a part of the awards in cases where they should be assessed entirely upon the property benefited, or the area of assessment has to be very much enlarged, thus burdening unduly property but slightly benefited, and allowing the property most benefited to escape its fair share of the assessment. When the tax valuation on unimproved property is within sixty per cent. of the market value we do not usually meet with any difficulty in laying assessments for benefit.

Yours, respectfully,
 JOHN P. DUNN and HENRY D. FOREST BALDWIN, Assistants in Charge.
