THE BOARD OF PUBLIC CHARITIES RESERVES THE RIGHT TO REJECT ALL BIDS OR ESTIMATES IF DEEMED TO BE FOR THE PUBLIC INTEREST, AS PROVIDED IN SECTION 64, CHAPTER 410, LAWS OF 1882.

No bid or estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

The award of the contract will be made as soon as practicable after the opening of the bids.

Any bidder for this contract must be known to be engaged in and well prepared for the business, and must have satisfactory testimonials to that effect; and the person or persons to whom the contract may be awarded will be required to give security for the performance of the contract by his or their bond, with two sufficient sureties, each in the penal amount of two thousand five hundred (\$2,500) dollars.

Each bid or estimate shall contain and state the name and place of residence of each of the persons making the same; the names of all persons interested with him or them therein; and if no other person be so interested it shall distinctly state that fact; also that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud; and that no member of the Common Council, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated therein are in all respects true. Where more than one person is interested, it is requisite that the verification be made and subscribed by all the parties interested.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, with their respective places of business or residence, to the effect that if the contract is awarded to the person making the estimate, they will, on its being so awarded, become bound as his sureties for its faithful performance; and that if he shall refuse or neglect to execute the same, they will pay to the Corporation any difference between the sum to which he would be entitled upon its completion, and that which the Corporation may be obliged to pay to the person to whom the contract shall be awarded at any subsequent letting; the amount in each case to be calculated upon the estimated amount of the supplies by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York and is worth the amount of the security required for the completion of this contract over and above all his debts of every nature, and over and above his liabilities as bail, surety or otherwise; and that he has offered himself as a surety in good faith and with the intention to execute the bond required by section 12 of chapter 7 of the Revised Ordinances of the City of New York, if the contract shall be awarded to the person or persons for whom he consents to become surety. The adequacy and sufficiency of the security offered is to be approved by the Comptroller of the City of New York.

No bid or estimate will be received or considered unless accompanied by either a certified check upon one of the State or National banks of the City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful

bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited and retained by the City of New York as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

Should the person or persons to whom the contract may be awarded neglect or refuse to accept the contract within five days after written notice that the same has been awarded to him, or their bid or proposal, or if he or they accept but do not execute the contract and give the proper security, he or they shall be considered as having abandoned it and as in default to the Corporation, and the contract will be readvertised and relet as provided by law.

Bidders will write out the amount of their estimates in addition to inserting the same in figures.

Payment will be made by a requisition on the Comptroller, in accordance with the terms of the contract.

All repairs, maintaining or rebuilding required or necessary to be done to or upon the premises, or any part thereof, or structures erected thereon, during the continuance of the term of the lease, shall be done by and at the cost and expense of the lessee or purchaser.

No claim or demand will be considered or allowed by the Department for any loss or depreciation of wharfage or otherwise, resulting from or occasioned by any delay on account or by reason of the premises or any part thereof being occupied for or on account of any repairs, rebuilding or dredging.

The upset price of the parcels or premises exposed or offered for sale will be announced by the auctioneer at the time of sale.

The Department will do all dredging at lots Nos. 1 and 2, whenever it shall deem it necessary or advisable so to do, and the lessees of lots Nos. 3, 4 and 5 will be required at all times during the term of the leases, or any renewals thereof, to keep the slips adjacent to said land under water or structures erected thereon well and sufficiently dredged.

The term for which leases are sold will commence at the date mentioned in the advertisement, and the rents accruing therefor will be payable from that date in each case.

Each purchaser of a lease will be required, at the time of the sale, to pay, in addition to the auctioneer's fees, to the Department of Docks, twenty-five per cent. Motions to Fill Vacancies in Commissions.

It will be noticed that no reports have been confirmed during this quarter. The cause of this is that on March 11 a statute was passed by the Legislature changing the rate of compensation for referees from \$6 a session to \$10 a session. As section 1000 of the Consolidation Act provides that the Commissioner in Street Opening proceedings shall receive the like fees as are allowed by law to referees, there arose a question as to what rate the Commissioners, whose costs had been noticed for taxation, should be paid. This matter was not disposed of in time to have a number of reports in other respects ready, confirmed before the end of the quarter.

As appears from the report, there are 22 proceedings in which objections to the reports have already been heard, and 14 additional proceedings in which reports have been filed, but objections not yet fully heard. Of these 36 reports 25 were filed during the quarter—a greater number we believe than were ever filed in a quarter before, and involving more than five hundred and sixty-one thousand dollars in awards.

It seems proper for us to call attention here to the additional expense to this Bureau, caused by the change in the law referred to above, making the fees of commissioners \$10 instead of \$6 a session, although this matter has already been informally laid before you, and a bill dealing with the matter has, we believe, been prepared by you and submitted to the Legislature.

During the past quarter there were held 950 meetings in proceedings pending in this Bureau. If all commissioners attended all meetings, the change in the law would add to the expense of opening streets for a single quarter the sum of \$11,400. If our work continues at the same rate during the whole year, the increased expense amounts to \$45,600, most of which will be assessed upon property in the Twenty-third and Twenty-fourth Wards, deemed to be benefited by the improvements.

But as the work of the Bureau is constantly increasing, the additional expense involved in this change of the law will probably be nearer \$50,000 than \$45,000 per annum.

While the bar for many years has felt that \$6 a day for referees is inadequate compensation, street opening proceedings are somewhat different from ordinary references, and the question naturally arises as to whether the increase indirectly made in the fees of commissioners by the change in the law affecting referee's fees is just and proper, and whether it would not be for the interest of the property-owners and the City to so amend section 1000 of the Consolidation Act as to leave the compensation of Commissioners the same as it was before chapter 90 of the Laws of 1896 was passed.

In our opinion, the number of necessary meetings at which, in even important proceedings, very little time or work is required of the commissioners, make their compensation at the rate of \$6 a session ample. If it is not, an application may always be made to the court, pursuant to section 1000, for an extra allowance. But, in most cases, every one who has had experience in these matters will agree that the compensation which was formerly the rule is adequate compensation.

We have not discovered that there is any difficulty in procuring competent and well-qualified commissioners to serve at the old rate. Among our commissioners during the past year have been most of the candidates for the high judicial offices before the people at the last election.

Section 984 of the Consolidated Act provides for the filing of the report of the Commissioners and also requires that "they shall publish a notice for fifteen days in the CITY RECORD" stating their intention to present their report for confirmation to the said Court at a time and place to be specified in said notice, and that all persons interested in such proceedings or in any of the lands affected thereby, having objections thereto, shall file the same in writing with said commissioners within twenty days after the first publication of said notice, and that the said commissioners will hear such objections within the ten week days next after the expiration of said twenty days. \* \* \* At the time and place named in said notice the said commissioners shall hear the person or persons objecting to the said report, and shall have power to adjourn, from time to time, until all such persons shall be fully heard."

This section is taken from the Laws of 1862, and the ten-day hearings are a survival from the times when, according to the old practice, claimants were not heard until after the filing of the preliminary report. At present claimants are fully heard before any report is made up.

It is to be noted that the Commissioners are required to sit ten consecutive week days; that the time within which to file objections expires before these ten-day hearings commence, and that in case there are no objections filed, the ten meetings must, notwithstanding, be held. There is

usually some actual work to be done at three or four of these ten-day hearings. If serious and important objections to the report have been filed, it is usually the case that counsel have to be given additional time, after the ten days have expired, when they can offer testimony and be heard, and as the evidence offered in support of the attack upon the report cannot be known beforehand, it is rarely the case that the City can put in its rebutting testimony within the ten days. We think all the lawyers who are engaged in these proceedings will agree, that while it is very important to have plenty of time for the purpose of hearing objections, the ten-day hearings as required by section 984 of the Consolidation Act are a useless expense. It is at that stage of the proceedings more than any other when reasonable adjournments should be taken to enable counsel to prepare their proofs and procure their witnesses. And in a case where no objections have been filed, no one has any standing to be heard; but the ten-day so-called hearings go on. The Bureau confirmed forty proceedings during the year 1895. Of these the awards were merely nominal in six; in seven no objections were filed; consequently, in these cases, the Commissioners had nothing to do at the ten hearings required by section 984, except to meet and earn their fees thereby.

It is also to be noted that the expenses of the proceedings are increased by reason of these ten-day hearings—not only to the amount of the fees of the Commissioners (\$300 if all attend), but also by additional office expenses which are thereby incurred.

We are therefore of the opinion that the ten-day hearings might be safely done away with, and section 984 amended so as to require the Commissioners to meet at a time to be stated in the advertised notice to hear objections as is the provision in the so-called Small Parks Act, chapter 320 of the Laws of 1887, and which is deemed sufficient in the condemnation of public parks.

The people in the district beyond the Harlem river have suffered for many years on account of the delay in opening their streets. They have now a population so large as to require the work to be pushed rapidly, and we are doing now the work which most people up there think should have been spread over the last twenty-five years. The consequence is, that the assessments for benefit are falling upon the real estate of that section of the city with startling rapidity and to an amount which often wipes out the equities of the imprudent. The property-owners in this part of the city would, we are sure, appreciate such relief as may be offered through reducing or, at least, not increasing the expense incident to opening streets.

JOHN P. DUNN, HENRY DE FOREST BALDWIN, Assistants in Charge of the Bureau of Street Openings.
