The Secretary presented the following report of the Appraiser of Real Estate, Department of Finance, relative to the acquisition of lands at Court and Joralemon streets for Municipal Building, Borough of Brooklyn:

CITY OF NEW YORK—DEPARTMENT OF FINANCE,
COMPTROLLER'S OFFICE,
July 14, 1903.

Hon. EDWARD M. GROUT, Comptroller:

SIR—The President of the Borough of Brooklyn, in a communication to the Secretary of the Board of Estimate and Apportionment, under date of June 26, requests that the Board of Estimate and Apportionment authorize the Corporation Counsel to institute condemnation proceedings for the acquisition of the land situated on the southeast corner of Joralemon and Court streets, in the Borough of Brooklyn, which is adjacent to property now owned by the City and which is required for part of a site for the construction of a new municipal building in that borough.

When this property, for which condemnation proceedings are requested to be instituted, is acquired by the City, the new municipal building will have then a full frontage on Court street as well as upon Joralemon street, and I see no reason why condemnation proceedings should not be instituted, in accordance with the request of the Borough President.

Respectfully submitted for approval,

MORTIMER J. BROWN,
Appraiser of Real Estate in Charge of Bureau.

The following was offered:

Whereas, The question of the construction of a new municipal building in the Borough of Brooklyn was referred by the Board of Estimate and Apportionment to the President of the said borough; and

Whereas, The President of the said borough, in a communication to the Board of Estimate and Apportionment has requested that condemnation proceedings be instituted for the acquisition of a plot of ground on the corner of Joralemon and Court streets in the said Borough of Brooklyn, adjoining City property, which is intended to be used in addition to the property now owned by the City as a location for a new municipal building; therefore be it

Resolved, That the Board of Estimate and Apportionment hereby approves of the selection of the following described property:

All those certain lots, pieces or parcels of land, with the buildings thereon erected, bounded and described as follows:

Beginning at a point at the intersection of the southeast corner of Joralemon street and Court street, and running thence easterly twenty-four (24) feet seven (7) inches to land of The City of New York, running thence southerly along the land of The City of New York one hundred and sixty (160) feet nine (9) inches more or less to other land of The City of New York, thence running westerly along the land of The City of New York twenty-six (26) feet eleven (11) inches more or less to Court street, thence running northerly along the easterly side of Court street one hundred and fifty-six (156) feet nine (9) inches, to the point or place of beginning

—and the Corporation Counsel is hereby authorized to institute condemnation proceedings for the acquisition of the said described premises, which are assessed for the year 1903 at \$128,000.

Which was adopted by the following vote:

The Mayor, Comptroller, President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

The Secretary presented the following report of the Appraiser of Real Estate, Department of Finance, relative to the acquisition of a part of the property within the area of site selected for stables for the Department of Street Cleaning:

CITY OF NEW YORK—DEPARTMENT OF FINANCE,
COMPTROLLER'S OFFICE,
July 14, 1903.

Hon. EDWARD M. GROUT, *Comptroller*:

SIR—The Board of Estimate and Apportionment approved of the selection of a site bounded by Little Nassau street, Kent avenue, Flushing avenue and Graham street, in the Borough of Brooklyn, for stables for the Department of Street Cleaning, in the Borough of Brooklyn.

Resolutions were adopted authorizing the purchase by the Comptroller of all the parcels of land within this area. After examination of the title to the property it was discovered that title to one of the lots vested in an infant, and is otherwise in such a condition that it is doubtful whether a good title could be given even if Infant's Proceedings to sell were had. I would therefore respectfully recommend that the Board of Estimate and Apportionment adopt a resolution authorizing condemnation proceedings to be instituted to vest the title of the property, located on Little Nassau street, 75 feet west of Kent avenue and being 25 feet by 65 feet, in The City of New York.

Respectfully submitted for approval,
MORTIMER J. BROWN,
Appraiser of Real Estate in Charge of Bureau.

The following was offered:

Whereas, The Board of Estimate and Apportionment, having heretofore approved of the selection of a site for stables for the Department of Street Cleaning in the Borough of Brooklyn, bounded by Little Nassau street, Kent avenue, Flushing avenue and Graham street, and authorized the Comptroller to purchase the property located within said area; and

Whereas, It has been found that title to one of the parcels of land is defective and condemnation proceedings will have to be instituted to vest the title in The City of New York; therefore be it

Resolved, That the Corporation Counsel be and he hereby is authorized to institute condemnation proceedings for the acquisition of the following described premises:

Beginning at a point on the northerly side of Little Nassau street, distant seventy-five (75) feet five (5) inches westerly from the northwesterly corner of Little Nassau street and Kent avenue, and running thence northerly parallel with Kent avenue sixty-five (65) feet seven (7) inches; thence westerly and parallel with Little Nassau street twenty-five (25) feet; thence southerly and again parallel with Kent avenue sixty-five (65) feet to the northerly side of Little Nassau street, and thence easterly along the northerly side of Little Nassau street twenty-five (25) feet to the point or place of beginning, be the said several dimensions more or less, being the same premises conveyed to Philip Bello and Michael Pascarello by a deed recorded in the Register's Office of the County of Kings, in Liber 2139 of Conveyances, page 117, on the 30th day of September, 1892, which premises are assessed for the year 1903 at \$1,100.

Which was adopted by the following vote:

The Mayor, Comptroller, President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

The Secretary presented the following report of the Appraiser of Real Estate, Department of Finance, relative to the acquisition of property at the corner of Hicks and Middagh streets, Borough of Brooklyn, as a site for school purposes:

CITY OF NEW YORK—DEPARTMENT OF FINANCE,
COMPTROLLER'S OFFICE,
July 14, 1903.

Hon. EDWARD M. GROUT, *Comptroller*:

SIR—The Board of Estimate and Apportionment by resolution adopted March 13, 1903, approved of a site selected by the Board of Education for school purposes, located on Hicks street, between Poplar and Middagh streets, and authorized the Comptroller to purchase the property at a price not exceeding \$103,000.

The house and lot located on the corner of Hicks and Middagh streets has a three years' lease upon the same, with two years to run, and the price asked by the owner of the property has advanced from the price he originally agreed to sell to the City to an amount which would include the payment for the length of time the lease is to run, thus bringing the value of the property far beyond its real market value.

The City having acquired all the rest of the property within the area of said site, I would respectfully recommend that condemnation proceedings be authorized by the Board of Estimate and Apportionment for the purpose of vesting the title to this property in The City of New York.

Respectfully submitted for approval.

MORTIMER J. BROWN,
Appraiser of Real Estate in Charge of Bureau.

The following was offered:

Whereas, The Board of Estimate and Apportionment at a meeting held the 13th day of March, 1903, approved of the selection of a site for school purposes in the Borough of Brooklyn, located on Hicks street, between Poplar and Middagh streets, and authorized the Comptroller to purchase the property located within said area; and

Whereas, The Comptroller, acting under such resolution, has purchased part of the premises, and in a letter to this Board has stated that it will be impossible for the City to obtain the corner of Hicks and Middagh streets at a fair and reasonable price; therefore be it

Resolved, That the Corporation Counsel be and he hereby is authorized to institute condemnation proceedings for the acquisition of the premises described as follows:

All that certain lot, piece or parcel of land, with the buildings thereon erected, situate, lying and being in the Borough of Brooklyn, County of Kings, City and State of New York, bounded as follows:

Beginning at a point on the northeasterly corner of Hicks and Middagh streets and running thence easterly along the northerly side of Middagh street one hundred (100) feet four (4) inches; thence northerly twenty-five (25) feet six (6) inches; thence westerly and parallel with Middagh street one hundred (100) feet four (4) inches to the easterly side of Hicks street; thence southerly along the easterly side of Hicks street twenty-five (25) feet six (6) inches to the point or place of beginning, being premises known as Lot No. 1, in Block 211, Section 1, on the maps in the office of the Commissioners of Taxes in the Borough of Brooklyn, which is assessed for the year 1903 at \$7,500.

Resolved, That the Board of Estimate and Apportionment hereby approves of the requisition of the Board of Education, by resolution adopted July 13, 1903, for the appropriation of eight thousand one hundred and forty dollars (\$8,140) from proceeds of Corporate Stock of The City of New York, issued pursuant to the provisions of section 48 of the Greater New York Charter, said sum to be applied in payment of the contract to be entered into by the Committee on Buildings, for and on behalf of the Board of Education, with Jere J. Deady, contractor, for sanitary work in Richmond Borough High School No. 1, Borough of Richmond.

Which was adopted by the following vote:

The Mayor, Comptroller, President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

The Secretary presented a communication from the Police Commissioner requesting an appropriation of \$13,000 to enable him to place the wires of the Police Department under ground on eleven streets in the Borough of Brooklyn.

Laid over with instructions that this request and the request of the Fire Commissioner for an appropriation for similar purposes be referred to the Board of Aldermen, with the suggestion that said Board make request for an issue of Special Revenue Bonds to provide for this expense.

The Secretary presented the following communication from the New York Zoological Society relative to an appropriation of \$30,000 for providing for the development and improvement of the Aquarium Building in Battery Park:

NEW YORK ZOOLOGICAL SOCIETY,
GENERAL OFFICE, NO. 11 WALL STREET,
NEW YORK, July 16, 1903.

To the Board of Estimate and Apportionment:

DEAR SIR:—To supplement the application made by this society on December 29, 1902, and addressed to the Hon. William R. Willcox, President of the Park Board, asking for \$30,000 for certain alterations and new construction in the building known as the New York Aquarium, and situated in the Battery Park, Borough of Manhattan, I wish to enclose the following schedule:

We have found, on further investigation, that we can do without a large amount of new piping, and possibly engines, and effect a great economy in coal, by arranging for cisterns, placed outside of the building and in the Park itself, holding a large amount of water, which can be pumped through the tanks and back again into the cisterns. By a system of filtering this water can be freed from all solid matter and consequently will be much clearer than otherwise. As it will remain at an approximately uniform temperature a large amount of steam energy will be saved which would otherwise be devoted to raising the temperature of the water in winter twenty or thirty degrees.

In storing it in this manner we can obtain the necessary degree of salinity. The water which we have at present, and which is obtained from the bay under and in front of the Aquarium, is brackish, and it is impossible to keep alive in it invertebrates.

Trusting that the application of the society for \$30,000 may be granted, we remain,

Yours very truly,

NEW YORK ZOOLOGICAL SOCIETY,
By MADISON GRANT, Secretary.

Schedule Showing Proposed New Construction and Alterations in the Aquarium Building, and New Construction in Battery Park.

Construction of new gallery, south side of building.....	2,000 00
Total.....	\$30,000 00

The painting and repairs will have to be done from maintenance fund. Electric lighting and wiring has been abandoned for the present, but must be done next year. The construction of outside tanks will take the place of new boilers and engines asked for in the original application.

NEW YORK ZOOLOGICAL SOCIETY,

The following resolution was offered:

The Secretary presented the following report of the Engineer of the Department of Finance in regard to an agreement with the Jamaica Water Supply Company to supply water in the Fourth Ward, Borough of Queens, together with communication from the Commissioner of Water Supply, Gas and Electricity, under date of July 8, 1903, transmitting forms of agreement:

CITY OF NEW YORK—DEPARTMENT OF FINANCE,
COMPTROLLER'S OFFICE,
July 13, 1903.

Hon. EDWARD M. GROUT, Comptroller:

SIR—The Hon. Robert Grier Monroe, Commissioner of Water Supply, Gas and Electricity, in communication to the Board of Estimate and Apportionment July 2,

1903, transmits a proposed agreement in triplicate with the Jamaica Water Supply Company for a supply of water in the Fourth Ward of the Borough of Queens, for five years from the 1st of July, 1903, at the rate of eighteen dollars (\$18) per hydrant.

The agreements have been approved as to form by the Corporation Counsel. They are, substantially, the same form as the agreement heretofore approved by the Board and executed by the Woodhaven Water Supply Company, whose territory is contiguous to and west of the territory of the Jamaica Water Supply Company, the only difference, practically, being as to pressure, which is specified in clause two (2).

The agreement is submitted to the Board for approval, under section 471 of the Greater New York Charter, which also requires the separate written consents and approvals of both the Mayor and Comptroller of the proposed contract in all its details.

The contract is drawn with great care and minuteness and may in my opinion be properly approved by the Board of Estimate and Apportionment and receive the separate written consents and approvals of the Mayor and Comptroller "in all its details," as required by section 471 of the Greater New York Charter.

For convenience of reference I give the following resume of its requirements:

Clause 1—The company to furnish through its hydrants now or hereafter to be set, all water that may be required by the City for sanitary purposes, for extinguishment of fires, the testing of fire apparatus, the practice, drill and exhibition of firemen, and for use in any fire-house or police station, and for flushing and cleaning the streets, sewers and sidewalks and for sprinkling the streets.

Clause 2—The company at all times to maintain a pressure of at least 25 lbs. per square inch at the hydrants at elevation, not exceeding 115 above mean high tide, and an adequate pressure above said line, and for every failure to maintain such pressure when such failure is not due to unavoidable contingency, to pay the sum of \$5 for each day or fraction of a day of such failure, all such amounts to be deducted from any moneys due the company.

Clause 3—The company at all times to keep its reservoirs, stand pipes, mains, wells, pumping machinery and pipes in good repair and working order, and in case of failure so to do after ten days' notice in writing from the Commissioner, the City may do the work and charge the cost thereof to the company; provided, however, that if any hydrant, pipe or other apparatus of the company be damaged by any agent of the City, in the performance of his duties as such, reasonable wear and tear excepted, the cost of repair or of necessary new apparatus shall be paid by the City.

Clause 4—Hydrants hereafter set to be connected with the mains by pipe not less than 4 inches inside diameter, and all such hydrants to be of same pattern as now used in the eastern sections of the Borough of Brooklyn.

Clause 5—All mains hereafter laid to be not less than 6 inches inside diameter, to be of first quality, cast iron, tested to a hydrostatic pressure of 300 lbs. to the square inch, and to be thoroughly coated with approved coating at temperature of 300 degrees Fahrenheit.

Clause 6—New mains shall be laid by the company at its own expense within the Borough of Queens, when requested by the Commissioner, but not between November 1 and April 1, unless the ground be free from frost, and the Commissioner shall not require the laying of new mains unless at the same time he requires the erection by company upon its mains (new or old) of new hydrants averaging one for each 352 feet of new mains required to be laid. No extension of mains to be made or work commenced thereon in the way of opening any street or otherwise until and unless the Commissioner shall have issued his permit to the company to open the street or do such work as may be necessary.

Clause 7—All pipes and hydrants before being laid to be subject to inspection by the City, and when not in accordance with agreement, may be rejected. The Department of Water Supply, Gas and Electricity shall be informed at all times of location of all mains and hydrants set, or to be laid or set. When new hydrants are set and water ready to be turned on, written notice to be given. The company to furnish the Commissioner within sixty days after execution of this agreement, a map, plan or blue print showing location of all mains, hydrants, gates, blow-offs, specials, pumping stations, stand pipes and reservoirs, sizes of mains and other details which the Commissioner may require, by written notice within five days after execution of this agreement, and also within ten days after commencement of work, on any alterations of system or apparatus by way of extension, elimination or otherwise a map showing portion of such system as so altered. The Commissioner, through his engineers or agents, to have right to inspect at all reasonable times during day or night, and at any season of the year, the pipes, hydrants, walls, pumping stations, stand pipes, reservoirs and all other property and apparatus of the company.

Clause 8—The company to lower or raise and relay and reset its mains, pipes and hydrants whenever necessary in the course of grading or regrading of any street or highway, and shall care for and protect those mains, pipes and hydrants while such grading is being done.

Clause 9—The company at all times to guard all openings made by it in any street or highway, and cause the same to be packed and refilled, and all roadbeds, sidewalks, gutters and pavements to be replaced in as good condition as they were previously, and shall remove all surplus stone, dirt and other substances, and in case of failure so to do within five days after completion of work, the Commissioner may cause same to be done, the reasonable cost of which to be deducted from any moneys due the company under this agreement.

Clause 10—Gates and valves shall be placed by the company on all mains and pipes hereafter laid, whenever and wherever directed by the Commissioner, so as to allow water to be shut off in case of accidents, etc., from one part of system without affecting other portions of same.

Clause 11—The company to furnish bond and sureties, to be approved by the Comptroller in the sum of fifteen thousand dollars (\$15,000), conditioned on the faithful performance of this agreement in every respect.

Clause 12—The City to pay and the company to receive in full compensation for water supplied as provided in Clause 1, the sum of eighteen dollars (\$18) per year, and at same rate per fractions of a year for each and every hydrant now erected on its pipes and mains, and which may hereafter be erected in accordance with this agreement.

Clause 13—The company to furnish, on and after the 1st day of July and the 1st day of January each year during continuance of agreement, proof to the satisfaction of the Commissioner that the water has been furnished up to date mentioned in accordance with agreement, whereupon the Commissioner to certify to fact and state amount due the company less any deductions; amount to be paid within thirty days.

Clause 14—At all times during continuance of agreement the company to supply to inhabitants of the Borough of Queens residing on streets in which mains are located, pure and wholesome water for domestic and other purposes, and will charge for all water so supplied at rates not exceeding those now charged its consumers in the several districts, as per schedule attached to agreement marked "A."

Clause 15—The agreement to continue for the term of five years from July 1, 1903, unless sooner terminated in consequence of the City establishing its own system of water supply, of which sixty days' notice shall be given, or by condemnation proceedings, or by breach of any of the covenants of this agreement.

Clause 16—On the execution and delivery of this agreement all other prior contracts and agreements are canceled.

Clause 17—Nothing in this agreement to be considered to give the company any exclusive right or privilege to lay mains and pipes and erect hydrants and maintain the same in the Borough of Queens, or to supply water, or to limit right of City to establish its own water supply system within the Borough of Queens.

Clause 18—This agreement preliminary to its execution, submitted in all its details to the Board of Estimate and Apportionment and to the Mayor and Comptroller of the City, and assent of said Board been given by resolution passed July 1, 1903, and agreement has also received the separate written consents and approvals of said Mayor and said Comptroller.

Clause 19—The agreement not to be binding or of any force unless the Comptroller of the City shall endorse thereon his certificate that there remains unexpended and unapplied, as provided in the Greater New York Charter, a balance of the appropriation or fund applicable thereto sufficient to pay the estimated expense of executing this agreement, as certified by the officers making the same.

Respectfully,

EUG. E. McLEAN, Engineer.

BOROUGH OF MANHATTAN, July 15, 1903.

Hon. J. W. STEVENSON, Deputy Comptroller, No. 280 Broadway, New York City:

SIR—I am directed by Commissioner Sturgis to inform you, in reply to your communication of July 9 in regard to St. Albans Hook and Ladder Company No. 1, of the Borough of Queens, which has applied for an appropriation of the sum of \$1,000, that the said St. Albans Hook and Ladder Company No. 1 was incorporated as a volunteer company in The City of New York, pursuant to the provisions of section 722 of the Greater New York Charter. At the time of the incorporation the condition of the company and the territory to be covered by it were investigated by officers of this Department, and their reports showed this company to be properly equipped for the purpose of performing fire service, and that they were actually engaged in the performance of such duty. It also appeared that the territory to be covered by the company was in need of fire protection.

Respectfully,

HUBERT F. BREITWIESER, Secretary to the Commissioner.

Application returned herewith.

The Secretary presented the following report of the Engineer of the Department of Finance relative to the application of the Bridge Commissioner for an appropriation for the construction of the proposed approach to the Willis Avenue Bridge from the Southern Boulevard, in the Borough of The Bronx, together with a communication from the Commissioner of Bridges:

CITY OF NEW YORK—DEPARTMENT OF FINANCE,
COMPTROLLER'S OFFICE,
July 1, 1903.

Hon. EDWARD M. GROUT, Comptroller:

SIR—Hon. G. Lindenthal, in communication under date of June 29, 1903, transmits to the Board of Estimate and Apportionment for its approval two prints, dated May 11, 1903, showing plan, elevation and sections of the proposed approach to Willis Avenue Bridge from the Southern Boulevard, in the Borough of The Bronx, also a brief description and an estimate of cost of its construction. The Commissioner states that the original plan of this improvement contemplates a very handsome structure, costing over \$300,000. This has been modified in the present plan to a less elaborate though equally serviceable approach in harmony with the design of the existing Willis Avenue Bridge, which can be built at a cost not to exceed \$157,000. The general description furnished by the Commissioner reads as follows:

"The approach will begin on the south side of the Southern Boulevard, distant 500 feet easterly from Willis avenue. An entrance will be graded and paved across the block to the line of One Hundred and Thirty-second street, not yet opened. On the south side of the block, parallel with the line of One Hundred and Thirty-second street, the approach will be an earth fill between masonry retaining walls for a distance of 276 feet. The remainder of the distance, 226 feet 6 inches, to the existing bridge will be a viaduct construction in harmony with the work which it adjoins. The roadway will be 42 feet wide, paved with asphalt blocks on Portland cement concrete foundation, and there will be one sidewalk 9 feet wide of Portland cement. There will be an ascending grade from the Southern Boulevard to the present bridge of 2 36-100 per cent.

"The railing and lamp-posts will be of the same design as those now in use on Willis Avenue Bridge, and a sufficient number of modern arc lamps will be used for lighting."

I would report that the proposed approach is within a site authorized by the Board of Estimate and Apportionment at meeting of January 16, 1903 (see Minutes, page 90), to be acquired for the approach to the Willis Avenue Bridge, in the Borough of Manhattan, bounded by Willis avenue, Southern Boulevard, Brown place and East One Hundred and Thirty-second street, commencing 245 feet west of Brown place, and running 575 feet to Willis avenue, in accordance with the plans approved by the Board of Estimate and Apportionment on September 12, 1902.

On March 4, 1903, the order of the Commissioners of Appraisal was entered. On March 18 the oath of the Commissioners was filed. The Commissioners at present are taking testimony for the acquisition of the property.

The plan submitted meets with my approval, and I think the Board of Estimate and Apportionment may properly authorize the issue of Corporate Stock, pursuant to section 47 of the amended Greater New York Charter, to the amount of \$100,000, to provide for the commencement of the work, as requested by the Commissioner.

Respectfully,

EUG. E. McLEAN, Engineer.

DEPARTMENT OF BRIDGES—CITY OF NEW YORK,

The original plan of this improvement completed a very handsome structure, costing over \$300,000. This has been modified in the present plan to a less elaborate though equally serviceable approach in harmony with the design of the existing Willis Avenue Bridge, which, I believe, can be built at a cost not to exceed \$157,000.

I therefore respectfully recommend that the plan herewith submitted be approved by your Honorable Board and by the Board of Aldermen, and that an issue of stock to the amount of \$100,000 be authorized for beginning the work.

Respectfully,

G. LINDENTHAL, Commissioner of Bridges.

The Secretary presented the following communication from the Secretary to the President of the Borough of Queens requesting the transfer of \$10,000 to "Bureau of Sewers—Labor, Maintenance and Supplies":

THE CITY OF NEW YORK,
OFFICE OF THE PRESIDENT OF THE BOROUGH OF QUEENS,
LONG ISLAND CITY, July 14, 1903.

J. W. STEVENSON, Esq., Secretary, Board of Estimate and Apportionment:
DEAR SIR—I forward you herewith resolution authorizing the transfer of the sum of \$10,000 from the Salary Fund of the Sewer Department to the Labor, Maintenance and Supplies Fund of the same Bureau, which I would ask that you kindly have placed on the Calendar for the next meeting of the Board of Estimate and Apportionment, and thereon oblige,

Yours respectfully,

GEO. S. JERVIS, Secretary to President.

The following resolution was offered:

Resolved, That the sum of ten thousand dollars (\$10,000) be and the same is hereby transferred from the appropriation made to the President of the Borough of Queens for the year 1903, entitled "Bureau of Sewers—Salaries," the same being in excess of the amount required for the purposes thereof, to the appropriation made to President of the Borough of Queens, entitled "Bureau of Sewers—Labor, Maintenance and Supplies," for the year 1903, the amount of said appropriation being insufficient.

The Secretary presented the following communication from the Commissioner of Jurors, County of Kings, requesting the transfer of \$2,800 to "Salaries of Employees":

OFFICE OF THE COMMISSIONER OF JURORS FOR THE COUNTY OF KINGS,

July 14, 1903.

To the Board of Estimate and Apportionment, New York City, N. Y.:

GENTLEMEN—On January 15, 1903, I sent a letter to the Comptroller requesting a rearrangement of the salary accounts of this office, and was informed by him that this matter came under the jurisdiction of the Board.

The appropriation for this office for salaries for the present year, according to your statement, is divided into three (3) separate items, as follows:

Salary of the Commissioner, six thousand dollars (\$6,000); Clerks, eleven thousand and one hundred dollars (\$11,100); Jury Notice Servers, ten thousand eight hundred dollars (\$10,800), which requires the making up of three separate payrolls. The amount for Clerks and Jury Notice Servers are incorrect. Pursuant to chapter 564 of the Laws of 1902, a rearrangement of the force of the office became necessary and the amount required for Clerks is now thirteen thousand eight hundred dollars (\$13,800), and the Jury Notice Servers, whose number was reduced, is eight thousand dollars (\$8,000).

The amount necessary for the balance of the current year for employees will be six thousand nine hundred dollars and six cents (\$6,900.06); there is at present to the credit of that account (Clerks'), four thousand two hundred dollars and six cents (\$4,200.06), making a deficiency of two thousand eight hundred dollars (\$2,800), which will have to be transferred from the "Jury Notice Servers" account, there being a surplus of that amount to the credit of that account.

It will be necessary to make the transfer at once as the appropriation for employees' salaries will be exhausted by October 1, 1903.

Yours respectfully,

JACOB BRENNER.

The following resolution was offered:

Resolved, That the sum of twenty-eight hundred dollars (\$2,800) be and the same is hereby transferred from the appropriation made to the Commissioner of Jurors, County of Kings, for the year 1903, entitled "Jury Notice Servers," the same being in excess of the amount required for the purposes thereof, to the appropriation made to said Commissioner of Jurors, County of Kings, for 1903, entitled "Salaries of Employees," the amount of said appropriation being insufficient.

Werner be increased from \$2,620.80 to \$3,004.80 per annum, to take effect from and after September 1, 1902, the date on which he took charge of nine additional classrooms in buildings adjacent to the school mentioned; and

Whereas, The Board of Estimate and Apportionment on February 13, 1903, adopted a resolution containing a recommendation that the salary of the said John W. The Secretary presented the following communication from the Engineer of the Department of Finance relative to the plans, specifications, etc., for the construction of the Fourth Section of the Riverside drive extension:

CITY OF NEW YORK—DEPARTMENT OF FINANCE,
COMPTROLLER'S OFFICE,
July 21, 1903.

Hon. EDWARD M. GROUT, Comptroller:

SIR—Hon. Jacob A. Cantor, President of the Borough of Manhattan, in communication to the Board of Estimate and Apportionment July 14, 1903, pursuant to chapter 665, Laws of 1897, submits for the approval of the Board, contracts, specifications and plans for the construction of Riverside drive, from One Hundred and Fifty-second street to its junction with the Boulevard Lafayette.

This portion of the Riverside drive is designated in the contract as an extension of Riverside drive from the northerly termination of Section No. 3 at One Hundred and Fifty-second street up to the Boulevard Lafayette at One Hundred and Fifty-eighth street, being Section No. 4 of the extension of Riverside drive.

The time allowed for completing the work is 500 working days.

The amount of security required is \$150,000.

A provision of the contract requires the maintenance of the work in good condition for the period of one year from the final completion and acceptance thereof.

No estimate of the cost of the work is given by the Commissioner, but the Consulting Engineer, Mr. F. Stuart Williamson, submits a carefully prepared estimate, which amounts to \$940,000, including about 10 per cent. allowance above his calculated figures, which amount to \$853,204.

It will be noticed that in this estimate the amount given for steel beams, girders, posts, etc., pertaining to the structure over the railroad, is \$261,750.

The plans submitted are very complete, and are made in accordance with the law, and covering the land acquired for this improvement.

In my opinion they may be properly approved by the Board of Estimate and Apportionment.

The contract and specifications appear to be fully descriptive of the work to be done.

Respectfully,

EUG. E. McLEAN, Engineer.

The Comptroller here stated that the Board did not approve of the reference in Mr. McLean's report to Mr. Williamson as Consulting Engineer, and that the Board did not regard him as such until his contract had been approved by the Corporation Counsel.

CITY OF NEW YORK,
OFFICE OF THE PRESIDENT OF THE BOROUGH OF MANHATTAN,
CITY HALL, July 14, 1903.

JAMES W. STEVENSON, Esq., Secretary, Board of Estimate and Apportionment:

DEPARTMENT OF DOCKS AND FERRIES.

Transactions of the Department of Docks and Ferries for the Week Ending Saturday, June 20, 1903.

The following communications were received and ordered on file, action being taken thereon as stated, to wit:

From the Comptroller, transmitting bill of Frank S. Martin, No. 52 Beaver street, New York, amounting to \$375, for services in appraising for the City the ferry boats of the Staten Island Rapid Transit Company, and requesting that requisition be drawn by this Department for the amount. Comptroller requested to furnish Department with copy of appraisal.

From the Corporation Counsel—

First—Returning bill of the Department against the New York Bridle Iron Works for \$40.41 for rent of property owned by the City and formerly occupied by a temporary structure foot of One Hundred and Thirty-second street, Harlem river, and stating that before action can be taken in the matter he must be furnished with information as to the circumstances under which permit was granted. Notified that remittance has been received in payment of above claim.

Second—Transmitting copies of orders of the Supreme Court, taxing costs and granting allowances to the Commissioners of Estimate and Assessment in the condemnation proceedings for the acquisition of property between Twentieth and Twenty-first, and Twenty-first and Twenty-second streets, East river, amounting to a total of \$6,507 for the parcel first above described, and a total of \$6,215 for the parcel between Twenty-first and Twenty-second streets. Auditor directed to draw requisition.

Third—Stating that under the terms of the lease of the Staten Island Ferry an appraisal of the boats, buildings and all other property of the lessee of said ferry franchise and wharf property should be made, irrespective of the amount which the present lessee was required to pay for the alterations, repairs and extensions made by the Staten Island Rapid Transit Railroad Company. Copy of the above opinion of the Corporation Counsel, dated June 15, 1903, and of memorandum agreement between the Staten Island Rapid Transit Railroad Company and the City, dated August 4, 1888, relating to repairs and alterations to the ferry premises at the foot of Whitehall street, Manhattan, forwarded to the Comptroller for his information in connection with the appraisal of the property of the Ferry Company.

Fourth—In relation to letter received by the Department from Isaac G. Johnson & Co., regarding ownership of land under water at Spuyten Duyvil, Harlem river, in the vicinity of the Johnson Foundry, and stating that in 1888, the Commissioners of the Land Office granted to the Mayor, Aldermen and Commonalty of The City of New York all lands under water not theretofore granted, from the City line on the North river to the City line on the Bronx, on the Westchester side of said rivers, and that until these letters patent are set aside or declared void in an appropriate action, he is of the opinion that the title to the lands under water in said letters patent described, is vested in the City. Mr. Walter Cox, attorney for Isaac G. Johnson & Co., notified in accordance with above opinion, and requested to confer with the Commissioner in regard to the matter.

From the Municipal Civil Service Commission—

First—Declining to authorize the transfer of John Noonan from the position of Laborer to that of Watchman, as there is at the present time a preferred eligible list of Watchmen.

Second—Submitting list of persons eligible for appointment as Recreation Pier Attendants. Said Commission notified of declinations, failures to report, and of appointments made June 16, 1903.

From the Commissioner of Bridges—

First—Requesting to be advised as to what wages are paid Carpenters and to men of the class of bridge mechanics, such as Housesmiths or Blacksmiths, and asking whether the Department contemplates a general increase in pay. List showing increases in pay made by the Commissioner to date transmitted to Commissioner of Bridges.

Second—Requesting that the bulkhead between Piers, new 31 and new 32, East river, be cleared of boats, and that the Maine Steamship Company be directed to discontinue the use of the slip on the southerly side of Pier, new 32, East river. The Department gave notice to the Maine Steamship Company, under date of June 16, 1903, of its intention to take possession on that date of the whole of the southerly side of Pier, new 32, East river, for the purpose of enabling the Department of Bridges to proceed with the erection of a tower in the slip south of said pier for the bridge to be erected across the East river thereat, and the rental for said pier, on and after June 16, 1903, was fixed at the rate of \$20,000 per annum, as provided in said lease.

From the President of the Borough of Manhattan—

First—Stating that the Board of Local Improvements for the Corlears Hook District is about to consider the question of acquiring title to the land bounded by Corlears street, Cherry street and East river as an addition to Corlears Park, and

asking to be advised if the Department has any objection to such change. Notified that the Department considers it very inadvisable that any portion of the water front at the above-mentioned locality should be taken for park purposes, the demand for docking facilities in that neighborhood being far greater than the supply, and that if any portion of the exterior street of the blocks between Cherry, Water and Corlears streets is taken for park purposes the City should retain the water front and sufficient space contiguous thereto for the accommodation of vessels and the discharging of cargoes.

Second—Transmitting letter from Horace E. Fox, No. 105 West Sixty-second street, New York, complaining of the erection of an additional platform in front of the Battery wall. Mr. Fox notified that the dock now being constructed is being put up by the contractors for the Rapid Transit tunnel to Brooklyn, and is a temporary structure to be used as a steamboat landing while the existing Battery landing is occupied by said contractors for the disposition of their excavation; that the private bath off the Battery has been there for about forty years, and that the other bath is a free public one, maintained by the Borough President, that being the only location therefor between the Battery and Little West Twelfth street on the North river, and between the Battery and Jackson street on the East river.

From the Commissioner of Public Charities—

First—Transmitting communication from the Superintendent of The New York City Farm Colony, suggesting the construction of a public dock on the north side of Staten Island, and naming two locations as being available for such construction, one at the foot of Van Pelt avenue and another at Watchogue, in the Third Ward of the Borough of Richmond. Second—Requesting that the repairs ordered to the sheathing of dock at the foot of East One Hundred and Twentieth street, Harlem river, be made. Notified that the work will be commenced within a few days.

From the Superintendent of School Buildings, stating that immediately upon the close of the public school sessions they will proceed to remove the partitions, etc., on the East Third Street Pier, so as to make same available for recreation purposes, and requesting that said pier be again turned over to the Board of Education at the earliest possible date in order to allow time for putting it in condition for school purposes for the term beginning September 14, 1903 (with communication from Jacob W. Mack, Chairman of Committee on Elementary Schools, asking what date the Department intends to close the recreation piers). Superintendent of School Buildings and Mr. Mack notified that the closing of the recreation piers depends somewhat upon the weather; that the earliest moment at which they will be closed is October 16, 1903, but that it is proposed to prolong the season by the week, according to the weather.

From the Fire Department, requesting the assignment of a berth in the vicinity of Hamilton avenue, Borough of Brooklyn, for a fireboat. Notified that the Department has no pier in that vicinity.

Notified that if general wharfage facilities are desired the same may be had on the North river at Thirty-fifth, Forty-fourth, Forty-eighth, Fifty-first and Fifty-second streets, and on the East river at Nineteenth, Twenty-first and Twenty-eighth streets; but if a lease of a pier is desired, with privilege of shedding, there is no pier which the Department could lease below Forty-eighth street on the North river or the Nineteenth Street Pier on the East river.

No. 79.

Petition to construct sewer as described in the following report from the Superintendent of Sewers:
City of New York, Borough of Brooklyn, Bureau of Sewers, Office of Superintendent,
June 25, 1903.

Hon. WILLIAM C. REDFIELD, Commissioner of Public Works:

Dear Sir—I herewith return a complaint from Mr. E. H. Dickey, Sanitary Inspector of the Department of Health, complaining about the ponding of water in the gutter on the southeast side of Greenpoint avenue, near Provost street, for a length of from 50 to 100 feet.

The Chief Engineer of Sewers, Borough of Brooklyn, reports to me as follows:
"It appears that this ponding is occasioned by the recent readjustment of the pavement in the vicinity, and is nearer the intersection of Diamond street and Greenpoint avenue than at the intersection of Provost street. There is no sewer nor sewer basins at the Diamond street intersection, which, if built, will relieve the condition existing. I therefore give an estimate of cost for the construction of a sewer in Greenpoint avenue, from Diamond street to Provost street, with sewer basins at the southeast and southwest corners of Greenpoint avenue and Diamond street, which is \$1,560, while the assessed valuation of the real estate within the probable area of assessment is \$144,400. The items of work necessary to be performed are:

- 160 feet 24-inch pipe sewer.
- 2 manholes.
- 2 sewer basins and appurtenances.

Another construction which would materially benefit this vicinity is that sewer basins reported upon from this office under date of March 27, 1903, on the northwest corner of Greenpoint avenue and Provost street."

Respectfully yours,
(Signed) JOHN THATCHER, Superintendent of Sewers.

Petition to construct sewer basins as described in the following report from the Superintendent of Sewers:
City of New York, Borough of Brooklyn, Bureau of Sewers, Office of Superintendent,
March 27, 1903.

Hon. WILLIAM C. REDFIELD, Commissioner of Public Works:

Dear Sir—I herewith return a communication, which you referred to me, the same being addressed to the Bureau of Sewers by the Secretary of the President of the Borough under date of March 16, 1903, requesting information in relation to the construction of a sewer basin at the northwest corner of Greenpoint avenue and Provost street. I also return original petition which accompanied said communication. The Chief Engineer of Sewers, Borough of Brooklyn, reports to me as follows:

"I beg to report that the estimated cost for above mentioned improvement is \$200, and the assessed valuation of the real estate within the probable area of assessment is \$7,700."

Respectfully yours,

Petition for the construction of sewer basins as described in the following report from the Superintendent of Sewers:
City of New York, Borough of Brooklyn, Bureau of Sewers, Office of Superintendent,
June 24, 1903.

Hon. WILLIAM C. REDFIELD, Commissioner of Public Works:

Dear Sir—I return herewith complaint of Mr. E. H. Dickey, Sanitary Inspector of the Department of Health, complaining of the necessity of a sewer basin on the northwest corner of Oakland and Ash streets.

I inclose a copy of a communication from Mr. Edw. A. Byrne, Assistant Engineer, Borough of Queens, and Newtown creek bridges, dated June 8, 1903, in regard to the same matter.

The Chief Engineer of Sewers, Borough of Brooklyn, reports to me as follows:

"It will be noted that the basin has been necessitated by the new approach of a temporary bridge crossing Newtown creek, from Oakland street, and as it has been rumored that a movement is on foot to continue said bridge as a permanent structure, it would be advisable to build a basin at this location. I give, therefore, an estimate of cost for same, which is \$180, and report also that the assessed valuation of the real estate within the probable area of assessment is \$120,166."

Respectfully,
(Signed) JOHN THATCHER, Superintendent of Sewers.
