A report was presented from Mr. Thomas C. The recommendation was adopted.

A report was presented from Mr. Thomas C. Murray, Assistant Chief Examiner in Charge of Promotions, dated October 7, in relation to the request of the President of the Borough of Manhattan that the name of Harvey J. Kutz, Mechanical Draftsman employed in the Bureau of Sewers, be placed upon the promotion list for Assistant Engineer. It appeared that the candidate, who was the only Mechanical Draftsman employed in the drafting room of the Bureau of Sewers, had filed an application for promotion to Assistant Engineer in October, 1908, and had been admitted to the examination, but that his name could not be placed upon the eligible list for the reason that the examination had not been requested by the head of the Department, in accordance with the Commission's rule in such cases. A report was presented from Mr. Thomas C. After consideration of the matter it was

Resolved, That, in the absence of any definite information from the Fire Department as to the filing of applications for promotion to Battalion Chief and Deputy Chief, the said examinations be indefinitely postponed.

A report was presented from the Certification Clerk, dated October 7, in relation to the request of George M. Schumacher, Clifford H. Keep and James F. On motion, it was

Resolved, That the Secretary be and he hereby is directed to proceed with a special open competitive examination for the position of Assistant Alienist, in accordance with paragraph 6 of Rule XII., the duties of that position being of a peculiar and unusual character, to which no classified title is applicable.

A letter was presented from the Secretary of the Department of Public Charities, dated October 1, requesting authority to appoint Miss Mary R. It appeared from the communication that a separate telephone system had been installed in the Hall of Records for the Law Department and that a switchboard had been placed which required the services of three Operators; that although there was a balance of the appropriation for "Salaries and Wages" of the Law Department more than sufficient to pay the salaries of the three Operators, the Board of Estimate had declined to allow the money to be used in that manner for either permanent or temporary appointment, but that, in the Budget for 1910 provision had been made for the three positions, and the salaries fixed by the Board of Estimate and the Board of Aldermen in accordance with section 56 of the Charter, so that permanent appointments could be made from the eligible list on January 1, 1910. On motion, the Secretary was directed to advise the Commissioner of Correction to nominate a person for non-competitive examination, under paragraph 3 of Rule XII., and, on motion, it was

Resolved, That the Secretary be and he hereby is directed to proceed with an open competitive examination for Physician (Resident), at a salary of $1,200 per annum.

Department of Education (Nautical School), September 1.

Department of Education, October 1.

Department of Public Charities, September 28, 28, October 5, 5.

Department of Correction, October 1.

The Secretary called the attention of the Commission to the application of Theodore H. H. Schroeder, of No. 3919 Broadway, New York City, for the position of Disinfector, and stated that the application had been received before the closing date (October 5, 1909), but through inadvertence had not been stamped until October 7, at 11.17 a. m. It appearing from the dates of the vouchers' certificates and the affidavit of the applicant that the application had been received before the closing date, the same was accepted.

The Secretary called the attention of the Commission to the bill of Dr. Emily Dunning Barringer, who had been employed as an expert to conduct the physical examination for the positions of Nurse and Police Matron, and stated that the same was in excess of the compensation specified at the time of appointment. Bartholemew Curran, No. 343 East Fifty-fifth street, Manhattan, application for Patrolman.

James E. Corby, No. 38 Maple street, Richmond Hill, N. Y., application for Patrolman.

Joseph F. Ulmer, No. 1530 Second avenue, Manhattan, application for Fireman.

Joseph B. McNamara, No. 179 West One Hundred and First street, Manhattan, application for Patrolman.

The request of William James Owens, No. 2504 Seventh avenue, Manhattan, for permission to amend his application for Fireman by setting forth his name as William James Owens, instead of James Owens, was granted, it appearing from the baptismal certificate furnished that the former name was correct.

The Secretary presented the application of Michael Allen, No. 101 South Portland avenue, Brooklyn, for Police Doorman and Prison Keeper, in which the applicant stated that he had been born on December 2, 1876, together with a baptismal certificate, furnished by the applicant, substantiating said date. It appeared that in an application filed for Patrolman in October, 1907, he had given the date of his birth as December 2, 1880, thereby making himself four years younger. On motion, the Secretary was instructed to direct the applicant to appear at the next meeting and show cause why his application should not be rejected, under paragraph 14 of Rule VII., for attempting to deceive the Commission as to his age.

The Secretary stated that Christopher J. Acer, No. 237 Nassau street, Brooklyn, an applicant for the position of Disinfector, had previously filed an application for the position of Lay Sanitary Inspecor under the name Christopher J. Assa. On motion, the Secretary was directed to inform the candidate that he would have to file the application in his correct name, or produce some official authorization for the change.

The following requests for restoration to the eligible lists indicated, were granted:

Morris Glassberg, No. 19 University avenue, Rochester, N. Y., Rodman, Board of Water Supply. Report from the Board of Estimate and Apportionment that he had failed to reply, incorrect.

An affidavit was presented from Miss Katherine G. Bradley, No. 1605 Forty-ninth street, Brooklyn, with further reference to her request for restoration to the eligible list of Stenographer and Typewriter, Board of Water Supply. In view of the unusual circumstances in the case, the Commission rescinded their action of October 6 in denying the application on the ground of laches, and directed the Secretary to restore Miss Bradley's name to the list.

A letter was presented from Louis F. Suskyn, No. 99 Avenue D, Manhattan, with further reference to his request that his name be restored to the eligible list of Court Attendant, Borough of Manhattan. The request was denied.

The Commission then adjourned, to meet Wednesday, October 20, 1909, at 10 o'clock a. m.

—the said boundaries being more clearly shown by a broken red line on the map or plan attached to this contract, dated March 21, 1908, signed by W. K. Rossiter, Vice-President, and Henry E. McGowan, Engineer of the Company, and made a part hereof.

The underground conduit above referred to is the underground conduit laid by the Company in the Ocean parkway under an greement entered into between the Commissioner of the Department of Parks of the City of Brooklyn and the Company on August 4,1897, which agreement was held by the Court of Appeals on December 17, 1907, in People *ex rel.* Flatbush Gas Company against Bird S. Coler *et al.* (190 New York Reports, 268), not to have given the Company the privilege of laying or erecting conduits or conductors for the purpose of supplying electricity to private consumers.

Sec. 2. The grant of this privilege is in consideration of and subject to and conditioned upon the performance and observance of the following conditions which shall be complied with by the Company:

First—The said right to lay, construct, maintain and operate the said conduit, wires, conductors and connections for furnishing and supplying electricity in the above described territory shall be held and enjoyed by the Company, its successors and assigns, for a period of twenty-five (25) years from December 17, 1907, with the privilege of renewal of said contract for a further period of twenty-five (25) years upon a fair revaluation of said right and privilege. Such revaluation shall be of the right and privilege to maintain and operate said conduit, wires, conductors and connections, constructed, maintained and operated under and in pursuance of this contract.

If the Company shall determine to exercise its privilege of renewal it shall make application to the Board, or any authority which shall be authorized by law to act for the City in place of the Board. Such application shall be made at any time, not earlier than two years and not later than one year before the expiration of the original term of this contract. The determination of the revaluation shall be sufficient if agreed to in writing by the Company and the Board, but the annual sum to be paid by the Company to the City under such renewal shall not be less than the sum required to be paid during the last year of this original contract.

If the Company and the Board shall not reach such agreement on or before the day one year before the expiration of the original term of this contract, then the annual rate of compensation for such succeeding twenty-five (25) years shall be reasonable, and either the City (by the Board) or the Company shal be bound, upon request of the other, to enter into a written agreement with such other fixing the rate of such compensation at such amount as shall be reasonable, but no annual sum thus fixed shall in any event be less than the sum required to be paid by the Company to the City during the last year of this original contract, and if the parties shall not forthwith agree upon what is reasonable, then the parties shall enter into a written agreement fixing such annual rate at such amount as shall be determined by three disinterested freeholders, selected in the following manner:

One disinterested freeholder shall be chosen by the Board, one disinterested freeholder shall be chosen by the Company; these two shall choose a third disinterested freeholder, and the three so chosen shall act as appraisers and shall make the revaluations aforesaid. Such appraisers shall be chosen at least six months prior to the expiration of this original contract, and their report shall be filed with the Board within three months after they are chosen. They shall act as appraisers and not as arbitrators. They may base their judgment upon their own experience and upon such information as they may obtain by inquiries and investigations without the presence of either party. They shall have the right to examine the books of the Company and its officers under oath. The valuations so ascertained, fixed and determined shall be conclusive upon both parties, but no annual sum to be paid thereunder shall, in any event, be less than the sum required to be paid for the last year of this original contract. If, in any case, the annual rate shall not be fixed prior to the termination of the original term of this contract, then the Company shall pay the annual rate theretofore prevailing until the new rate shall be determined, and shall then make up to the City the amount of any excess of the annual rate then determined over the previous annual rate. The compensation and expenses of the said apraisers shall be borne jointly by the City and the Company, each paying one-half thereof.

Second—The Company shall pay to the City for the privilege hereby granted, the following sums of money:

1. The sum of five hundred dollars ($500) for the privilege hereby granted within thirty (30) days after the signing of this contract by the Mayor.

2. The further sum of one hundred and fifty dollars ($150) for the privilege of operating during the year ending December 16, 1908, within thirty (30) days after the signing of this contract by the Mayor.

3. During the period between December 17, 1908, and December 16, 1912, an annual sum which shall in no case be less than one hundred and fifty dollars ($150), and which shall be equal to one (1) per cent. of the gross receipts of the Company in the territory in which it is authorized to operate under the terms of this contract, if such percentage shall exceed the sum of one hundred and fifty dollars ($150).

4. During the succeeding five years of this original contract an annual sum, which shall in no case be less than two hundred and fifty dollars ($250), and which shall be equal to two (2) per cent. of the gross receipts of the Company in the territory in which it is authorized to operate under the terms of this contract, if such percentage shall exceed the sum of two hundred and fifty dollars ($250).

5. During the succeeding five years of this original contract an annual sum, which shall in no case be less than four hundred dollars ($400), and which shall be equal to three (3) per cent. of the gross receipts of the Company in the territory in which it is authorized to operate under the terms of this contract, if such percentage shall exceed the sum of four hundred dollars ($400).

6. During the succeeding five years of this original contract an annual sum which shall in no case be less than five hundred dollars ($500), and which shall be equal to four (4) per cent. of the gross receipts of the Company in the territory in which it is authorized to operate under the terms of this contract, if such percentage shall exceed the sum of five hundred dollars ($500).

7. During the last five years of this original contract an annual sum, which shall in no case be less than than six hundred and fifty dollars ($650), and which shall be equal to five (5) per cent. of the gross receipts of the Company in the territory in which it is authorized to operate under the terms of this contract, if such percentage shall exceed the sum of six hundred and fifty dollars ($650).

All annual sums as above shall be paid into the treasury of the City on February 1 of each year, and shall be for the amount due to December 31 next preceding.

Whenever the percentage required to be paid shall exceed the minimum amount as above, then such sum over and above such minimum shall be paid on or before February 1 in each year for the year ending December 31 next preceding.

Any and all payments to be made by the terms of this contract to the City by the Company shall not be considered in any manner in the nature of a tax, but such payments shall be in addition to any and all taxes of whatsoever kind or description now or hereafter required to be paid by any ordinance of the City or resolution of the Board or any law of the State of New York.

Third—The said annual charge or payments shall continue throughout the whole term of the privilege hereby granted, as hereinbefore provided, notwithstanding any clause in any statute or in the charter of any electric or other company providing for payments for similar rights or franchises at a different rate, and no transfer, sale, assignment, lease or sublease of the rights or franchises hereby granted, or of any part thereof, shall be valid or effectual for any purpose unless the said transfer, sale, assignment, lease or sublease shall contain a covenant on the part of the transferee, purchaser, assignee or lessee that the same is subject to all the conditions of this contract, and that the transferee, purchaser, assignee or lessee assumes and will be bound by all of said conditions, anything in any statute or in the charter of such assignee or lessee to the contrary notwithstanding, and that the said transferee, purchaser, assignee or lessee waives any more favorable conditions created by said statute or its charter, and that it will not claim by reason thereof or otherwise exemption from liability to perform each and all of the conditions of this contract.

Fourth—Nothing in this contract shall be deemed to affect in any way the right of the City to grant to any individual or other corporation a similar right or privilege upon the same or other terms and conditions, in the same territory in which the Company is authorized to operate by this contract.

Fifth—The rights and privileges hereby granted shall not be assigned, either in whole or in part, or leased or sublet in any manner, either by the act of the Company, its successors or assigns, or by operation of law, whether under the provisions of the statute relating to the consolidation, merger or sale of corporations or otherwise, to any person or corporation whatsoever, nor shall the Company, its successors or assigns, in any manner consolidate or pool its stock, business or interests, or enter into any agreement for a division of business, interest or territory, or to prevent competition or a reduction in rates, or acquire, own or make use of or in any manner exercise control over any of the rights, privileges, franchises or stock, or use, own, control or operate any of the property, works, plants or appliances of any such persons or corpoartions without the consent of the City, acting by the Board, evidenced by an instrument under seal, anything herein contained to the contrary thereof in any wise notwithstanding, and the granting, giving or waiving of any one or more of such consents shall not render unnecessary any subsequent consent or consents.

Sixth—Upon the termination of this original contract, or if the same is renewed, then upon the termination of the said renewal term, or upon the termination of the rights hereby granted for any other cause, or upon the dissolution of the Company before such termination, the conduits, wires, conductors, connections and street lamps laid, erected and located by the Company, and including all property laid, erected or located by it in the streets or avenues, shall become and be the property of the City, without compensation therefor, and the same may be used by the City for any purpose whatsoever. If the Board shall so elect, upon the termination of this grant for any cause, the plant, stations and property erected and located by the Company in the Borough of Brooklyn and used exclusively to supply electricity to the territory described in section 1 of this contract, but which are not situated in any street or avenue thereof, including the buildings, plants, stations, meters, house fittings and all property not situated in the streets or avenues so used by the Company in the generation, conversion and distribution of electricity to street lamps and public and private buildings in said territory, shall become and be the property of the City on payment to the Company of the value of the same, as fixed by three disinterested freeholders, appointed and paid in the same manner and with the same powers as appraisers appointed upon any renewal of this original contract, as above set forth, but such valuation shall in no case be greater than the value of such property as shown by the last report submitted by the Company to the Board, as required by the terms of this contract, and shall not include any compensation for any value which such property may have by reason of this grant. But the provisions of this paragraph shall not apply to the buildings, plant or other property of the Company in the Twenty-ninth Ward of the Borough of Brooklyn, and shall only apply to such plant or other property as may be erected and operated exclusively to supply the territory described in section 1 of this contract.

If, however, at the termination of this grant for any cause, as aforesaid, the City, by the Board, shall so order by resolution, the Company shall, upon thirty (30) days' notice from the Board, remove its conduits, wires, conductors and connections from all the streets and avenues and restore said streets at its own cost and expense.

Seventh—The Company shall construct and operate its electric system subject to the supervision and control of all the authorities of the City who have jurisdiction in such matters, as provided by the Charter of the City.

No construction or repair of said electric system shall be commenced until written permits have been obtained from the proper City officials, where such permits are required by the Charter of the City. In any permits so issued such officials may also impose such conditions, as a condition of the granting of the same, as are necessary for the purpose of protecting any structures in the streets and avenues over which such officials have jurisdiction and the Company shall comply with such conditions.

The electrical equipment to be installed by the Company, whether the same be under streets and avenues or in private property, shall be constructed and maintained under the supervision and control of the Commissioner of Water Supply, Gas and Electricity.

The Company shall, within six months after the signing of this contract, prepare a map showing in detail the location of its underground conduits, the number of ducts in the same, the subsurface structures laying adjacent to or crossing over, under or through said underground conduits, and the size of the same, and such other information as the President of the Borough of Brooklyn may desire. Copies of this map are to be filed in the office of the Board of Estimate and Apportionment, in the office of the President of the Borough of Brooklyn, in the office of the Commissioner of Water Supply, Gas and Electricity and in the office of the Commissioner of Parks for the Borough of Brooklyn.

The Company shall, where it has opened any street or avenue for the purpose of laying or repairing any conduits or connections, or erecting lamps or for any other purpose, properly restore said pavement and maintain the same for a period of one year, all at its own expense. If the Company shall, after five (5) days' notice from the President of the Borough of Brooklyn, neglect to so restore or maintain said pavement, then the President of the Borough of Brooklyn shall be authorized to do so at the expense of the Company, and the cost of such restoration and maintenance shall be a proper charge against and may be deducted from the security fund hereinafter provided for.

Eighth—The electric plant, conduits, wires, conductors, connections and all appurtenances thereto, shall be constructed, maintained and operated in the latest approved manner, and with the most modern and improved appliances. The Company shall not construct any overhead wires, conductors or connections, or erect any poles for that purpose.

The supply of electricity furnished by the Company shall always be sufficient for public and private consumers and shall be continuous for twenty-four hours in each day during the term of this contract, or any renewal thereof, except for interruption from unavoidable causes over which the Company shall have no control.

Ninth—The Company shall, upon being directed to do so by the Commissioner of Water Supply, Gas and Electricity, extend its wires and conductors and furnish light, heat or power to any public building or street lamp.

Tenth—The Company shall file with the Board on or before the 1st day of February in each and every year a map, plan or diagram, showing the boundaries of the territory in which it is authorized to operate by this contract upon which shall be plainly marked in appropriate colors the wires and connections laid and erected by it up to December 31 of the second preceding year, and during the year ending December 31 next preceding. This map, plan or diagram shall have a statement thereon of the number of miles of conductors and connections laid and erected up to the 31st day of December of the second preceding year, and of the number of miles of conductors and connections laid and erected during the year ending on the 31st day of December next preceding the date of filing of the same, in the words and figures following, viz.:

Number of miles of conductors and connections laid and erected up to December 31, 19 : miles, feet.

Number of miles of conductors and connections laid and erected during the year ending December 31, 19 : miles, feet.

—and shall be certified by the Secretary of the Company. Copies of this map, plan or diagram shall also be filed in the office of the President of the Borough of Brooklyn, in the office of the Commissioner of Water Supply, Gas and Electricity, and in the office of the Commissioner of Parks for the Borough of Brooklyn.

Eleventh—It is a condition of this contract that the Company shall bear the entire expense of all work undertaken by reason of this grant. Any alteration to the sewerage or drainage system, or to any other subsurface or to any surface structures in the streets required on account of the construction or operation of the underground conduits herein authorized to be placed in the streets, shall be made at the sole cost of the Company and in such manner as the proper City officials may prescribe.

Twelfth—It is agreed that the right hereby granted to lay and maintain conduits shall not be in preference or in hindrance to public work of the City, and should the said conduits in any way interfere with the construction of public works in the streets and avenues, whether the same is done by the City directly or by a contractor for the City, the Company shall, at its own expense protect or move its conduits and their appurtenances in the manner directed by the City officials having jurisdiction over such public work.

Thirteenth—Should the grades or lines of the streets and avenues in which the Company is hereby authorized to operate be changed at any time during the term of this contract or any renewal thereof, the Company shall, at its own expense, change its conduits and appurtenances to conform with such new grades and lines, and during the construction of any public improvement upon said streets or avenues the Company shall take care of and protect its conduits and appurtenances at its own expense, all to be done subject to the direction of the City official having jurisdiction over the construction of such change.

Fourteenth—The Company shall provide in all future conduits to be laid by it, one (1) duct in every line laid for the exclusive used of the City for any purpose whatsoever, and free of any charge therefor. Provided, that the duct space required to be furnished shall not be more than one duct in every conduit of four (4) ducts laid, nor shall the total space required to be furnished exceed a space equal to two (2) ducts each three (3) inches in diameter.

Fifteenth—The Company agrees that if at any time during the term of this contract or any renewal thereof, the City shall lay out and undertake the construction and maintenance of a general system of electrical subways in the Borough of Brooklyn, and for that purpose shall deem it advisable to acquire the conduits herein authorized to be laid and maintained, or shall be required to acquire the same, the Company shall by a valid deed in writing and under seal, surrender to the City all its right, title and interest in and to such conduits and their appurtenances upon payment to it of the value of such underground conduits as fixed by appraisers appointed and paid in the same manner and having the same powers as appraisers appointed upon any renewal of this contract as hereinbefore provided. Such value shall be fixed with due regard to the reversion of such conduits to the City at the termination of this contract or renewal thereof. If, however, the City, by the Board, so determines it may at any time after March 1, 1914, require the Company, by an instrument under seal entered into between the City and the Company, to surrender to the City the said conduits and their appurtenances free of all cost, in consideration of the City allowing the Company to use all the space necessary for its corporate purposes in said conduits so surrendered free of any and all charges, whether for rental or for maintenance, from the date of the surrender of said conduits and their appurtenances to the date of the expiration of this contract or any renewal thereof.

Any agreements made by the Company with any duly authorized individual or other corporation, whether under the provisions of this contract or otherwise, whereby said duly authorized individual or other corporation is granted or given the right or permission to use said conduits and their appurtenances, shall not in any manner affect the right of the City to acquire or take over the conduits and their appurtenances belonging to the Company, free and clear of any and all incumbrances whatsoever.

This provision shall not in any way affect the City's right to the reversion of all the property of the Company in the Ocean parkway and other public streets and places upon the expiration of this contract or any renewal thereof, or upon the happening of any of the other contingencies herein provided for.

Sixteenth—Should the City at any time acquire the conduits of the Company or construct a system of conduits for the accommodation of wires and conductors theretofore strung and constructed above the surface of the street, the Company agrees that upon being directed to do so, it will remove its overhead wires and place them in said conduits, under the supervision of the proper municipal authorities, paying for the use of such conduits, except as otherwise expressly agreed in this contract, a reasonable rental to be fixed by the Board.

The Company also agrees that if in the future any new or improved style of street lighting is available for use, it will furnish the same at such reasonable prices as may be fixed by the Board, subject to the provisions of this contract.

Eighteenth—The Company shall supply electricity to the public buildings and public lamps of all types situated on the line or lines of the conductors of said Company, if required by the Commissioner of Water Supply, Gas and Electricity, and said public buildings and lamps shall be lighted when required by the City at rates not to exceed those hereinbefore set forth, or such as may be hereafter established by the Board. As a condition of this contract the Company binds itself to submit bids or proposals for lighting the public buildings and furnishing and lighting public lamps of all types in the entire territory in which, during the term of this contract or any renewal thereof, it claims the right to operate along the lines of its conductors as they exist or may be extended, whenever the same are advertised or called for by the Commissioner of Water Supply, Gas and Electricity, or his successor in authority.

Nineteenth—During the term of this contract or any renewal thereof the Board shall have the power to regulate and fix the maximum and minimum rates to be charged by the Company throughout the territory in which it is hereby granted the right to operate, provided such rates shall be reasonable and fair.

The maximum rates herein fixed for electricity furnished by the Company shall continue until September 16, 1912, at which time and at the end of each period of five years thereafter during the term of the contract or any renewal thereof, the Board shall have the power to readjust such rates, provided the same shall not exceed those fixed by law or be unreasonable or unfair to the Company.

If for a period of two consecutive weeks the electric system of the Company shall not be operated, the Board may declare the right and franchise granted by this contract terminated without further proceedings in law or in equity, if it shall appear in the judgment of said Board that the same was not operated through the fault of the Company. Provided, however, that such action by the Board shall not be taken until the Board shall give notice to the Company to appear before it on a certain day not less than ten (10) days after the date of such notice, to show cause why such resolution declaring the contract forfeited should not be adopted. In case the Company fails to appear, action may be taken by the Board forthwith.

Twenty-fifth—If the said Company shall fail to give efficient public service at the rates herein fixed, or fail to maintain its structures in good condition throughout the full term of its occupancy of such streets, or fail to comply with any provision of this contract, except as hereinafter otherwise provided, the Board, if it so elects, instead of commencing proceedings to terminate this contract may give written notice to the said Company, specifying any default on the part of said Company, and requiring said Company to remedy the same within a reasonable time, and upon the failure of the Company to remedy said default within a reasonable time, said Company shall for each day thereafter during which the default or defect remains, pay to the City the sum of one hundred dollars ($100) as fixed and liquidated damages, or the said City, in case such structures which may affect the surface of the streets shall not be put in good condition within a reasonable time after notice by the Board, as aforesaid, shall have the right to make all needed repairs at the expense of the Company, in which case the said Company shall pay to the City the amount of the cost of such repairs, with legal interest thereon, and in default of such payment, the same shall be a proper charge against and may be deducted from the security fund to be deposited with the Comptroller as hereinafter provided.

Twenty-sixth—This grant is upon the express condition that the Company, within thirty (30) days after the signing of this contract by the Mayor, and before anything is done in exercise of the rights conferred thereby, shall deposit with the Comptroller of the City the sum of seven hundred and fifty dollars ($750), either in money or securities to be approved by him, which fund shall be security for the performance by the Company of the terms and conditions of this contract, especially those which relate to the payment of the annual charge for the franchise granted, and requiring the removal of the Company's overhead wires; and in case of such default in the annual payment the City shall collect the same, with interest, from the said fund after ten (10) days' notice in writing to the said Company; or in case of default by the Company in the removal of its overhead wires, pursuant to the provisions of this contract, the City, after ten (10) days' notice to the Company, shall have the right to cause the said work to be done and collect the reasonable cost thereof from the said fund without legal proceedings. In case of the failure of the Company to comply with the terms of this contract relating to the filing of annual statements, or its neglect or refusal to comply with any demand or direction of the Board or other Municipal officials, made pursuant to the terms of this contract, or under the authority of any laws or ordinances now or hereafter in force, in such case and in any of these events, the Company, except as herein otherwise provided, shall pay to the City a penalty of fifty dollars ($50) for each violation.

The procedure for the imposition and collection of the penalties in this contract shall be as follows:

The Board, on its own motion or on complaint made, shall give notice to the Company, directing its president or other officer to appear before the Board on a certain day not less than ten (10) days after the date of such notice, to show cause why the Company should not be penalized in accordance with the foregoing provisions. If the Company fails to make an appearance, or, after a hearing, appears, in the judgment of the Board, to be in fault, said Board shall forthwith impose the prescribed penalties, and without legal procedure direct the Comptroller to withdraw the amount of such penalty from the security fund deposited with him.

In case of any drafts made upon the security fund, the Company shall, upon ten (10) days' notice in writing, pay to the City a sum sufficient to restore said security fund to the original amount of seven hundred and fifty dollars ($750), and in default thereof this contract shall be canceled and annulled at the option of the Board, acting in behalf of the City, in the same manner as provided for other breaches in section 2, twenty-fourth thereof. No action or proceeding or right under the provisions of this contract shall affect any other legal rights, remedies or causes of action belonging to the City.

Twenty-seventh—The words "notice" or "direction," wherever used in this contract, shall be deemed to mean a written notice or direction. Every such notice or direction to be served upon the Company shall be delivered at such office in the City as shall have been designated by the Company, or if no such office shall have been designated, or if such designation shall have for any reason become inoperative, shall be mailed in the City, postage prepaid, addressed to the Company at the City. Delivery or mailing of such notice or direction as and when above provided shall be equivalent to direct personal notice or direction, and shall be deemed to have been given at the time of delivery or mailing.

Twenty-eighth—Unless expressly so provided therein, none of the conditions or provisions inserted in this contract shall be deemed to apply to any other territory than that described in section 1 hereof, nor to bind the Company in regard to its operations, rights or property in such other territory.

Twenty-ninth—If at any time the powers of the Board or any other of the authorities herein mentioned, or intended to be mentioned, shall be transferred by law to any other Board, authority, officer or officers, then, and in such case, such other Board, authority, officer or officers shall have the powers, rights and duties herein reserved to or prescribed for the Board or other authorities, officer or officers.

Thirtieth—The grant of this privilege is subject to whatever right, title or interest the owners of abutting property or others may have in and to the streets, avenues and highways of the territory in which the Company is authorized to operate by this contract.

Thirty-first—The words "streets and avenues" or "streets or avenues," when and where used, shall be deemed to include the Ocean parkway and any and all streets, avenues, roads, highways, boulevards, parkways, parks and public places.

Sec. 3. Nothing in this contract shall be construed as in any way limiting the present or future jurisdiction of the Public Service Commission under the laws of the State of New York.

Sec. 4. The Company promises, covenants and agrees on its part and behalf to conform to and abide by and perform all the terms, conditions and requirements in this contract fixed and contained, in addition to all provisions of law pertinent hereto.

In witness whereof, the party of the first part, by its Mayor, thereunto duly authorized by the Board of Estimate and Apportionment of said City, has caused the corporate name of said City to be hereunto signed and the corporate seal of said City to be hereunto affixed, and the party of the second part, by its officers, thereunto duly authorized, has caused its corporate name to be hereunto signed and its corporate seal to be hereunto affixed, the day and year first above written.

WEDNESDAY, DECEMBER 29, 1909,

at 12 o'clock m, at the Brooklyn Real Estate Exchange, No. 189 Montague street, in the City of Brooklyn, the following described real estate belonging to and being part of the Common Lands of the Town of Gravesend, located in the Borough of Brooklyn, being known and distinguished as Boulevard Lot No. 10 on the map of the Common Lands of the Town of Gravesend, and bounded and described as follows, viz.:

Beginning at a point on the westerly side of Ocean parkway, distant 1,024 feet southerly from the southwesterly corner of Ocean parkway and Sheepshead Bay road, which point of beginning is where the westerly side of Ocean parkway is intersected by the southerly line of Lot No. 11, as shown on a map of Common Lands at Coney Island, belonging to the Town of Gravesend, surveyed 1878, William Kowalski, City Surveyor, running thence westerly along the southerly side of Lot No. 11 as laid down on said map at right angles to said Ocean parkway 200 feet to the easterly side of West First street; thence southerly along the easterly side of West First street 100 feet to the northerly side of Lot No. 9 as laid down on said map; thence easterly along the northerly side of said Lot No. 9 and at right angles to Ocean parkway 200 feet to the westerly side of Ocean parkway; thence northerly along the westerly side of Ocean parkway 100 feet to the point or place of beginning, being Lot No. 10 on the above mentioned map, excepting so much as was taken for the widening of West First street.

The said premises are sold subject to the restrictive clauses and conditions as respectively described in chapter 861, Laws of 1869; chapter 726, Laws of 1872; chapter 583, Laws of 1874; chapter 702, Laws of 1897, and of such other of the Laws of the State of New York as may affect the portion of the said premises fronting on the boulevard as to court yards, tree planting or other matters appertaining thereto.

The sale of the said premises to be made by the Comptroller in the following manner:

Lot A in Parcel 1 will be sold at public auction at an upset price of $7,000, the said sale not to include the sale of the building on the premises, the owner of the same having sixty days to remove the building therefrom from the date of the sale. That Lot B in Parcel 1 be sold at public auction at an upset price of $9,000, and that immediately the two properties shall then be put up as one parcel 100 by 200 feet, and if the amount received for the sale of Parcel 1 in its entirety be not equivalent to the amount received for Parcels A and B separately, then the said separate bids shall be accepted. If, however, the amount of said sale for the entire parcel be greater than the amount of the bids for the parcels separately, then the sale shall go to the person bidding the highest amount on the parcel in its entirety.

The minimum or upset price at which the said property shall be sold is fixed as follows:

For Parcel A, $7,000; for Parcel B, $9,000, aggregating the sum of $16,000, and such sale is made upon the following

TERMS AND CONDITIONS.

Lots A and B, inclusive, herein described, will be offered first in two separate parcels, as separately described, and then the same will be offered in one entire parcel, and unless the prices bid for the said Parcels A and B, inclusive, aggregate more than the price bid for the same as one entire parcel, the bid for the same as one entire parcel will be accepted. In the event, however, that the said aggregate amount of bids for said Lots A and B, inclusive, shall exceed the amount of the bid for same as one entire parcel, said separate bids shall be accepted.

The highest bidder will be required to pay 10 per cent. of the amount of his bid, together with the auctioneer's fees at the time of the sale; 20 per cent. upon the delivery of the deed, which shall be thirty days from the date of the sale; the remaining 70 per cent. either to be paid on the date of the delivery of the deed, or at the option of the purchaser to remain on bond and mortgage for five years, with interest at the rate of 6 per cent. per annum, payable semi-annually. The mortgage to contain the customary thirty days' interest and ninety days' tax, assessment, insurance and receiver's clauses. The bond and mortgage may be paid off at any time within the term thereof on giving thirty days' notice to the Comptroller, or may be paid in installments of not less than $5,000 at any date when interest is due, or on thirty days' notice.

The bond and mortgage will be prepared by the Corporation Counsel and the sum of $12.50 will be charged for drawing, acknowledging and recording the same.

The property is to be sold free and clear of taxes, assessments and water rates and sales for the same. The deed delivered by the City to be a quitclaim deed, granting the right, title and interest of The City of New York in and to the property described and sold.

Sealed bids (blank forms of which may be obtained upon application) will be received by the Comptroller at the office of the Collector of City Revenue, Room 141, No. 280 Broadway, Borough of Manhattan, until 11 a. m. on the 8th day of December, and then publicly opened for the sale for removal of the above described buildings and appurtenances thereto, and the award will be made to the highest bidder within twenty-four hours, or as soon as possible thereafter.

Each parcel must be bid for separately and will be sold in its entirety, as described in above advertisement.

Each and every bid must be accompanied by a deposit of cash or certified check in a sum equal to 25 per cent. of the amount of the bid, except that a minimum deposit of $50 will be required with all bids, and that a deposit of $500 will be sufficient to entitle bidders to bid on any or all of the buildings.

Deposits of unsuccessful bidders will be returned within twenty-four hours after successful bidders have paid purchase price in full and given security, and those of successful bidders may be declared forfeited to The City of New York by the Comptroller upon the failure of the successful bidder to further comply with the requirements of the terms and conditions of the sale as set forth hereinafter.

Successful bidders will be required to pay the purchase money and deposit the required security within twenty-four hours of the receipt of notification of the acceptance of their bids.

The Comptroller reserves the right to reject any and all bids and to waive any defects or informalities in any bid should it be deemed in the interest of The City of New York to do so.

All bids must state clearly (1) the number or description of the building or buildings bid for, (2) the amount of the bid, (3) the full name and address of the bidder.

All bids must be inclosed in properly sealed envelopes, marked "Proposals to be opened December 8, 1909," and must be delivered, or mailed in time for their delivery, prior to 11 a. m. of that date to the "Collector of City Revenue, Room 141, No. 280 Broadway, New York City," from whom any further particulars regarding the buildings to be disposed of may be obtained.

The buildings will be sold for immediate removal only, subject to the following

TERMS AND CONDITIONS.

The buildings and appurtenances thereto will be sold to the highest bidder, who must pay cash or a certified check drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of $50, the sum of $50 shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances, between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstance of vacating the structures of their tenants will permit.

All the material of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations and the sidewalks and curb in front of said buildings, extending within the described area shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street, and the opening of the main sewer in street shall be properly closed in compliance with the directions of the Bureau of Sewers, Borough of Manhattan, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any part thereof within thirty days from the day of possession will work forfeiture of ownership of such buildings, appurtenances, or portion as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed, and the costs and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the day of possession, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damge and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beam-holes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs of adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the contractor.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids; and it is further

Resolved, That, while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.

Sealed bids (blank forms of which may be obtained upon application) will be received by the Comptroller at the office of the Collector of City Revenue, Room 141, No. 280 Broadway, Borough of Manhattan, until 11 a. m. on the 3d day of December, and then publicly opened for the sale for removal of the above-described buildings and appurtenances thereto, and the award will be made to the highest bidder within twenty-four hours, or as soon as possible thereafter.

Each parcel must be bid for separately and will be sold in its entirety, as described in above advertisement.

Each and every bid must be accompanied by a deposit of cash or certified check in a sum equal to 25 per cent. of the amount of the bid, except that a minimum deposit of $50 will be required with all bids, and that a deposit of $500 will be sufficient to entitle bidders to bid on any or all of the buildings.

Deposits of unsuccessful bidders will be returned within twenty-four hours after successful bidders have paid purchase price in full and given security, and those of successful bidders may be declared forfeited to The City of New York by the Comptroller upon the failure of the successful bidder to further comply with the requirements of the terms and conditions of the sale as set forth hereinafter.

Successful bidders will be required to pay the purchase money and deposit the required security within twenty-four hours of the receipt of notification of the acceptance of their bids.

The Comptroller reserves the right to reject any and all bids and to waive any defects or informalities in any bid should it be deemed in the interest of The City of New York to do so.

All bids must state clearly (1) the number or description of the building or buildings bid for, (2) the amount of the bid, (3) the full name and address of the bidder.

All bids must be inclosed in properly sealed envelopes, marked "Proposals to be opened December 3, 1909," and must be delivered, or mailed in time for their delivery, prior to 11 a. m. of that date to the "Collector of City Revenue, Room 141, No. 280 Broadway, New York City," from whom any further particulars regarding the buildings to be disposed of may be obtained.

The buildings will be sold for immediate removal only, subject to the following

TERMS AND CONDITIONS.

The buildings and appurtenances thereto will be sold to the highest bidder, who must pay cash or a certified check drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of $50, the sum of $50 shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings or their appurtenances between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstance of vacating the structures of their tenants will permit.

All the material of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations and the sidewalks and curb in front of said buildings extending within the described area shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street, and the opening of the main sewer in street shall be properly closed, in compliance with the directions of the Bureau of Sewers, Borough of The Bronx, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances or any part thereof within thirty days from the day of possession will work forfeiture of ownership of such buildings, appurtenances or portion as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed, and the costs and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the day of possession, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beamholes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs of adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the contractor.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids; and it is further

Resolved, That, while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.

For the ferryboat "Castleton"..... 125,000 00

In no case shall the Department be deemed a co-insurer.

The boats to be confined to the use and navigation within the bay and harbor of New York and the Hudson and East Rivers, with the privilege to lay up and make additions, alterations and repairs while running or while laid up, or to go into dry dock. Any deviation beyond the limits named shall not void the policy, but no liability shall exist during such deviation; and upon the return of said vessels within the limits named above, no disaster having occurred, the policy shall be and remain in full force and effect unless a disaster occurs while deviating.

The policy shall provide for the full indemnification of all salvage expenses and loss, damage, detriment or hurt to said vessels for which the insurers are liable against the perils of the harbor, bay or rivers as above named, lightning and fires that shall occur to the hurt, detriment and damage of said vessels or either of them, or any part thereof, and for all damage which may be done by the vessels insured to any other vessel or property.

As the vessels to be insured are common carriers, the policy shall not contain any limitation as to the nature or kind of cargo or other material which shall be carried on the boats.

No claim shall be made by the Department for any damage to the vessels insured unless it exceeds $500.

Losses shall be payable in thirty days after proof of loss or damage, and of the amount thereof, and proof of the interest of the insured shall have been made and presented at the office of the insurer or its representative in The City of New York.

No bid will be received for insurance by or in behalf of any company not duly authorized by the Insurance Department to transact business in the State of New York.

Each bid must be accompanied by a copy of the policy upon which the bid is based.

The person or persons making a bid or estimate shall furnish the same in a sealed envelope indorsed as follows:

"Bid for insuring ferryboats employed on the Municipal Ferries."

The estimates received will be publicly opened by the Commissioner of Docks and read, and the award of the contract made according to the law as soon thereafter as practicable.

No bid or estimate will be considered unless as a condition precedent to the reception or consideration of any proposal it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Commissioner of Docks, or money to the amount of One Thousand Dollars.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope, addressed to the Commissioner of Docks, or submitted personally upon the presentation of the bid or estimate.

The bidders shall state a rate per cent. at which they will insure or contract for insurance for the ferryboats, as specified above, in accordance with the terms of this advertisement, and also in accordance with the form of policy submitted, which shall be considered in connection with and form part of the bid.

Bidders will write out the rate per cent. of their estimates in addition to inserting the same in figures.

The Commissioner reserves the right to reject all bids or estimates if he deem it for the interest of the City so to do.

ALLEN N. SPOONER, Commissioner.

The contract must be bid for separately.

The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done.
