(15) EAST RIVER TERMINAL RAILROAD COMPANY—APPLICATION.

1051

The Secretary presented the following application for a certificate of approval to operate a railroad in Brooklyn, and petition for approval of an issue of stock to the amount of \$10,000.00, of the East River Terminal Railroad Company, which were referred to Commissioner Bassett:

Before the Public Service Commission of the State of New York, First District.

In the Matter

of

The application of East River Terminal Railroad for a franchise to operate a railroad in the Borough of Brooklyn, and to lay down and maintain tracks in connection therewith on North Fourth Street, Kent Avenue and Wythe Avenue in said Borough, and to obtain a certificate of necessity therefor under Section 53 of the Public Service Commission Law.

To the Honorable the Public Service Commission of the First District:

The petition of the East River Terminal Railroad respectfully shows to your Honorable Board:—

I. That your petitioner is a corporation duly organized under and by virtue of the laws of this State as a railroad corporation for the transportation and carriage of freight exclusively, with an office and principal place of business located at No. 113 Wall Street, in the Borough of Manhattan, City of New York, and that William Butler Duncan, Jr., of Port Washington, New York, is the President, and John McCafferty of the Borough of Brooklyn, is the Secretary thereof.

II. That said company was duly incorporated as a street surface railroad, and articles of incorporation of said company were duly filed in the office of the Secretary of State of the State of New York, on the 19th day of November, 1907, and in the office of the County Clerk of Kings County on the 26th day of November, 1907.

III. That no statements have at any time been filed with reference to procuring extensions, nor have any such extensions ever been authorized to be constructed by this Company.

IV. That heretofore and on the 24th day of January, 1908, your petitioner made application to the Board of Estimate and Apportionment of the City of New York, for a franchise to lay down and maintain tracks in the hereinafter named streets, and for a franchise to operate a street surface railroad thereon, in the Borough of Brooklyn, City of New York, which application was referred to the chief engineer of said Board, and is held in abeyance pending the granting of an application for a certificate of necessity under Section 53 of the Public Utility Laws.

V. That said surface railroad is to be operated within the Borough of Brooklyn, City of New York, on and along North Fourth Street and across Kent Avenue and Wythe Avenue in said Borough, the road so to be operated along North Fourth Street to be a single track road entering upon said highway at the southeast corner of Kent Avenue and North Fourth Street, and running thence easterly along said North Fourth Street about three hundred (300) feet to a point about midway between Kent Avenue and Wythe Avenue, and across the sidewalk of said North Fourth Street into terminal premises, the property of the firm of Havemeyers and Elder, the Western termini of said track being on the easterly side of the East River at a point between North Third and North Fourth Streets, and the Eastern termini to be at the hereinbefore mentioned point on North Fourth Street midway between Kent Avenue and Wythe Avenue. Also for a franchise for a railroad for freight purposes exclusively across Kent Avenue, a public highway, between North Third and North Fourth Streets in the Borough of Brooklyn, City of New York, from the westerly side or house line thereof to the Easterly side or house line thereof, which shall consist of six tracks; and also a franchise for a railway on Wythe Avenue, a public highway, in the said Borough and City, between North Third and North Fourth Streets from the westerly side or house line thereof to the easterly side or house line thereof, which shall consist of three tracks, and for all of said purposes to lay down and maintain tracks of regulation or conventional width. A map of said streets with the tracks as proposed to be laid down and maintained thereon is hereto annexed and made a part of this petition and referred to as "Plans showing proposed tracks on North Fourth Street, Kent Avenue and Wythe Avenue, Borough of Brooklyn, New York City, dated, April 27th, 1908, to accompany application of the East River Terminal Railroad to the Public Service Commission."

VI. That the consent of all the abutting property owners has been obtained and recorded in the office of the Register of the County of Kings, on the 6th day of May, 1908.

VII. That no previous application has been made for a certificate of public convenience and necessity for any purpose by said corporation, and no franchise by this Company has heretofore been exercised for the reason that it was incorporated on November 19th, 1907.

VIII. That your petitioner is desirous of establishing and maintaining large freight terminals or stations in the Borough of Brooklyn, City of New York, where all classes of freight may be shipped and received by the public, and delivered to and received from the trunk lines traversing the United States and Canada, which said freight terminals or stations when established will connect with and be used in conjunction with the freight terminal stations already established in the same locality of the New York Central and Hudson River Railroad, West Shore Railroad, Vermont Central Railroad, Lehigh Valley Railroad, Erie Lines, Central Railroad of New Jersey, Grand Trunk Lines and other railroad and transportation companies.

IX. That public convenience and necessity requires the granting of leave to install the tracks as hereinbefore set forth.

X. Said terminals or freight stations are to be for the use of the public for the shipment, receipt and distribution of all classes of freight, and are designed to relieve conditions in the Eastern District or Williamsburgh section of the Borough of Brooklyn, which has grown almost unprecedentedly in an industrial way in the last seven years, and has increased almost a quarter of a million in population in the same time, while the facilities for the handling of freight are practically as they were twenty-five years ago, and therefore totally inadequate to respond to present requirements. Numerous large industries have recently located their manufactories in this section, with the result that the present facilities are unequal to the large volume of freight being shipped, received and distributed there, and in order to meet the imperative needs of the locality, your petitioner proposes to establish and maintain the aforesaid terminals, and in order to render a plan of operation which will admit of the receipt and distribution of freight directly to and from the cars upon said premises affected, it will be necessary to haul the cars from the point of delivery from the floats upon which they are ferried to Brooklyn, from the termini of the various trunk lines, which point of delivery is on the East River water front between North Third and North Fourth Streets in said Borough, and that your petitioner is desirous of presenting the reasons why public convenience and necessity requires that these railroads should be installed.

XI. That no commission has been appointed pursuant to Section 94 of the Railroad Law, and consequently no report has been made thereunder.

Wherefore, your petitioner prays that the Commission shall fix a time and place for a hearing upon this application, giving your petitioner notice thereof.

Dated April 30th, 1908.

In the Matter  
of

The application of East River Terminal  
Railroad for procuring the approval of  
issues of stock, bonds and other forms  
of indebtedness by the Public Service  
Commission.

To the Honorable the Public Service Commission of the First District:

The petition of the East River Terminal Railroad respectfully shows to your  
Honorable Board:

I. That your petitioner is a corporation duly organized under and by virtue  
of the Laws of this State as a railroad corporation for the transportation and carriage  
of freight exclusively, with an office and principal place of business located at No.  
113 Wall Street, in the Borough of Manhattan, City of New York, and that William  
Butler Duncan, Jr., of Fort Washington, New York, is the President, and John  
McCafferty of the Borough of Brooklyn, is the Secretary thereof.

II. That said Company was duly incorporated as a street surface railroad, and  
articles of incorporation of said Company were duly filed in the office of the Secre-  
tary of State of the State of New York, on the 19th day of November, 1907, and in  
the office of the County Clerk of Kings County on the 26th day of November, 1907.

III. That the incorporation of said Company was for the sum of Ten thousand  
(\$10,000) dollars, all of which sum was actually paid in in cash.

IV. That heretofore and on or about the 24th day of January, 1908, your peti-  
tioner applied for a franchise for a street surface railroad to the Board of Estimate  
and Apportionment of the City of New York, the said Board being the local authority  
under Chapter 629 of the Laws of 1905, in whom the power resides in the City of  
New York to grant the same, and that said surface railway was to be operated wholly  
within said City, to wit, in the Borough of Brooklyn, City of New York, and County  
of Kings, and was to consist of seven tracks across Kent Avenue between North  
Third and North Fourth Streets, from the Westerly side or house line thereof across  
said Kent Avenue to the Easterly side or house line thereof, and also a single track  
surface railway from the southeast corner of Kent Avenue and North Fourth Street;  
running thence easterly about three hundred (300) feet to a point about midway be-  
tween Kent Avenue and Wythe Avenue in said Borough; and also a street surface  
railway on Wythe Avenue, a public highway, in said Borough and City, between  
North Third and North Fourth Streets from the Westerly side or house line thereof  
to the Easterly side or house line thereof to the terminal premises, now the property  
of the firm of Havemeyers and Elder, said road to be used exclusively for freight  
purposes, and to be used in conjunction with freight terminals already established  
and to be established, in which all classes of merchandise and freight will be received  
and distributed in connection with the various trunk lines operating throughout the  
United States and Canada.

V. That it is the intention of the said Company, upon procuring a certificate  
of your Honorable Board that public convenience and necessity requires the con-  
struction and maintenance of said tracks, to expend the full amount of said capital, to  
wit, Ten thousand (\$10,000) dollars, in the construction of said railroad, and it desires  
to issue stock to the amount of said capital to be apportioned among its stockholders  
on the basis of shares of one hundred each for each One hundred (\$100) dollars of  
capital contributed, and to sell the same for not less than the par value thereof, and  
to that end in compliance with Section 55 of the Public Service Commission Law, it  
desires to procure the consent of your Honorable Board for the issuance of said stock  
to the total amount thereof upon the hereinbefore mentioned basis or proportion.

Wherefore, your petitioner prays that a hearing may be accorded to it, whereby  
it may show cause for the issuance of said stock, and why the said permission should  
be granted.

Dated, April 30, 1908.

- (3) CONTRACT NO. 1.—PARK AVENUE DEVIATION. 3200  
The Secretary presented the following letter from Joseph Haag, Secretary of the Board of Estimate and Apportionment, which was ordered filed:

BOARD OF ESTIMATE AND APPORTIONMENT,  
277 BROADWAY,  
May 15, 1908.

Hon. W. R. WILLCOX, Chairman, Public Service Commission for the First District:

SIR—I transmit herewith certified copy of resolution this day adopted by the Board of Estimate and Apportionment, consenting to and approving of the making of an agreement by and between the City of New York, acting by the Public Service Commission for the First District, and John B. McDonald and the Interborough Rapid Transit Company, whereby in consideration of the City paying certain damages arising from a change of route of the Rapid Transit Railway under Park Avenue, between 34th and 42nd Streets, Borough of Manhattan, the Interborough Rapid Transit Company agrees to consider the amount so paid as part of the cost of the construction of such railway, and agrees to pay interest thereon at the rate of four per cent., subject to the rental provisions of the contract.

This action was taken in accordance with opinion dated April 28, 1908, from the Corporation Counsel, which was presented to the Board at its meeting of May 1, 1908.

Respectfully,  
(Signed) JOSEPH HAAG, Secretary.

- (4) The Secretary stated that the following letter had been sent by the Chairman to the Board of Aldermen: C-1920  
May 18, 1908.

To the Honorable the Board of Aldermen of The City of New York:

SIRS—The Public Service Commission for the First District is in receipt of a copy of the following resolution adopted by your Honorable Body on April 28, 1908:

"Whereas, The condition of the streets between and surrounding the tracks on Water Street, from Fulton street to Washington street, Borough of Brooklyn, and also Front street, from Fulton street to Adams street, Borough of Brooklyn, and which are dangerous for vehicles to travel through;

Whereas, The railroad companies have long neglected making repairs on these streets, as required by law, be it

Resolved, That the Board of Aldermen do hereby request the Public Service Commission to notify the railroad companies operating on above named streets that said railroad companies be instructed to make the necessary repairs immediately between the tracks, as required by law."

The Commission is advised by Counsel that upon the facts stated in the resolution and under Section 98 of the Railroad Law and Sections 45 and 383 of the Greater New York Charter, the duty of requiring these street railroad corporations to repair that portion of the streets used by them between their tracks, the rails of their tracks and two feet in width outside of their tracks, rests with the President of the Borough of Brooklyn, and that it would be better to withhold any order of the Commission until the President of the Borough of Brooklyn has exercised his authority by requiring the repairs to be made in such manner as he may prescribe. If the companies fail to comply, the Commission may then take necessary action.

Section 98 of the Railroad Law referred to above provides as follows:

"Every street surface railroad corporation so long as it shall continue to use any of its tracks in any street . . . shall have and keep in permanent repair that portion of such street . . . between its tracks, the rails of its tracks, and two feet in width outside of its tracks, under the supervision of the proper local authorities, and whenever required by them to do so, and in such manner as they may prescribe."

Section 383 of the Greater New York Charter provides that the Borough President is the proper local authority referred to in said section 98 of the Railroad Law.

Very truly yours,  
(Signed) WM. R. WILLCOX, Chairman.

- (5) The Secretary presented a communication, dated May 15, 1908, from Henry B. Seaman, Chief Engineer, stating that he had instructed the contractors to stop further work, except excavation, on the Chambers Street station of the Brooklyn Loop. The letter was ordered filed, and on motion, duly seconded, it was

Resolved, That the action of the Chief Engineer, as stated in the above-mentioned letter, be approved.

Ayes—Commissioners McCarroll, Bassett, Maltbie, Eustis.

Nays—None.

- (8) The Secretary presented the following petition and supplementary petition of the Manhattan Railway Company for leave to issue bonds: O-501

In the Matter  
of

The petition of the Manhattan Railway Company for leave to issue bonds to the amount of \$10,818,000, pursuant to the terms and provisions of its Consolidated Mortgage, dated February 26th, 1890.

To the Public Service Commission for the First District:

I. The petition of the Manhattan Railway Company respectfully shows that your petitioner is a rapid transit railway corporation, duly incorporated, organized and existing under and by virtue of the provisions of Chapter 606 of the Laws of 1875, known as the Rapid Transit Act of 1875, and the acts amendatory thereof and supplementary thereto, as appears from the volume known as Statutes and Documents Affecting the Elevated Railways in the City of New York, heretofore duly filed with this Commission on the 13th day of January, 1908.

That your petitioner constructed, maintained, acquired by lease and merger and otherwise, and operated elevated railways in the County of New York, from about the year 1879 down to April 1st, 1903, when it leased its property to the Inter-

borough Rapid Transit Company by indenture of lease, dated January 1st, 1903, and recorded in the Register's Office of the County of New York, on April 1st, 1903, in Liber 2, page 35 of General Conveyances, and filed in the Office of the Secretary of State on April 4th, 1903, a copy of which was filed with this Commission on the 13th day of January, 1908.

That since said April 1st, 1903, said railways have been operated by said lessee.

That your petitioner is still the owner of its said property, subject to said last mentioned lease.

That a portion of said elevated railway system of your petitioner was acquired by lease dated May 20th, 1879, from the Metropolitan Elevated Railway Company, a corporation duly incorporated, organized and existing under and by virtue of acts of the Legislature of the State of New York, as appears in the volume of Statutes and Documents filed as above mentioned.

II. Your petitioner further shows that on February 26th, 1890, together with said Metropolitan Elevated Railway Company, it duly executed and delivered to the Central Trust Company of New York, as Trustee, a Consolidated Mortgage, a copy of which is herewith submitted and filed.

That said Consolidated Mortgage was executed pursuant to authorization of the stockholders of said mortgagors, as appears by the proof of consent of stockholders, also herewith submitted and filed.

That the bonds to be secured by said Consolidated Mortgage were, as therein provided, to be executed by the officers, for the time being, of the Manhattan Railway Company and to be certified by the Trustee, at the request of said Manhattan Railway Company, as and when needed for use in the manner provided in said Mortgage.

That said Consolidated Mortgage was executed for the purpose, among other things, of taking up "by exchange or otherwise" \$10,818,000 of the "then outstanding First Mortgage Bonds of the Metropolitan Elevated Railway Company."

That said \$10,818,000 First Mortgage Bonds of the Metropolitan Elevated Railway Company were issued under the First Mortgage of said Company on the 10th day of July, 1878, and will mature on the 1st day of July, 1908.

That pursuant to the terms of said Consolidated Mortgage (Paragraph Sixth), various amounts of the bonds thereby secured have from time to time been executed, certified and issued, and the avails thereof applied in accordance with the terms of said Mortgage, to wit: In 1895, "\$8,925,000 \* \* \*" to take up by exchange or otherwise the outstanding First Mortgage Bonds of The New York Elevated Railroad Company"; in 1899, "\$4,000,000 \* \* \*" to take up by exchange or otherwise the \* \* \* outstanding Second Mortgage Bonds of the Metropolitan Elevated Railway Company"; in 1892, "\$1,905,000 \* \* \*" to take up by exchange or otherwise the \* \* \* outstanding registered bond certificates of the Manhattan Railway Company."

III. Your petitioner further shows that prior to the 7th day of May, 1894, it took a surrender or transfer of the entire capital stock of the Metropolitan Elevated Railway Company and duly filed a certificate to that effect in the office of the Secretary of State on said 7th day of May, 1894, a copy of which was heretofore filed with this Commission on the 13th day of January, 1908.

IV. Your petitioner further shows that on or about the 13th day of June, 1899, an indenture supplemental to said Consolidated Mortgage of February 26, 1890, was entered into between the Manhattan Railway Company and the Central Trust Company of New York, as Trustee, for the purpose of allowing the bonds issued under said Consolidated Mortgage to be, at the option of the holder thereof, registered both as to principal and interest; said indenture being duly recorded in the office of the Clerk of the County of New York on July 12, 1899, in Liber 7 of General Mortgages, page 265, a copy of said indenture being herewith submitted and filed.

V. Your petitioner further shows that no part of said \$10,818,000 of the First Mortgage Bonds of the Metropolitan Elevated Railway Company has been paid, and that the entire amount thereof will mature and become payable on the 1st day of July, 1908.

VI. Your petitioner further shows that in order to meet and pay said First Mortgage Metropolitan bonds falling due as aforesaid, it will be necessary for it to issue bonds to the amount of \$10,818,000 under and as provided in its said Consolidated Mortgage, and to exercise its rights, as secured to it by said Mortgage, to have said bonds certified and delivered to it by the said Trustee.

To the Public Service Commission for the First District:

GENTLEMEN—The Manhattan Railway Company, as a supplement to its petition in the above entitled matter, duly made and verified by its President on the 14th day of May, 1908, respectfully shows:

First—That your petitioner's lines of elevated railroad mentioned in said petition extend from the Battery northwardly through various streets and avenues, forming in the main four lines of railroad, known, respectively, as the Second Avenue, Third Avenue, Sixth Avenue and Ninth Avenue lines, which extend to the Harlem River, all in the City and County of New York, said lines of railroad being more particularly described in the volume known as Statutes and Documents Affecting the Elevated Railways in the City of New York, which is mentioned in the petition herein, and of a further line of elevated railroad extending from the Harlem River northward to Bronx Park, as already specified by your petitioner; and that the equipment of said railroad consists of a system of electric traction using the third rail for transmission of the current, power houses for generating electricity, substations for converting the same, and motor cars and other cars adapted to such electric traction, all of which equipment is held and controlled by your petitioner's lessee, the Interborough Rapid Transit Company, under the lease dated January 1st, 1903, as set forth in the petition herein.

Your petitioner further shows that on or about the 13th day of June, 1899, an indenture supplemental to said Consolidated Mortgage of February 26th, 1890, was entered into between the Manhattan Railway Company and the Central Trust Company of New York, as Trustee, for the purpose of allowing the bonds issued under said Consolidated Mortgage to be, at the option of the holder thereof, registered both as to principal and interest; said indenture being duly recorded in the office of the Clerk of the County of New York, on July 12, 1899, in Liber 7 of General Mortgages, page 265, a copy of said indenture being herewith submitted and filed.

V. Your petitioner further shows that the Suburban Rapid Transit Company was a corporation, duly incorporated, organized and existing under and by virtue of said Chapter 606 of the Laws of 1875, and the acts amendatory thereof and supplementary thereto; that said Suburban Rapid Transit Company was the owner of estates, property, rights, privileges and franchises for the construction, maintenance and operation of various lines of railway; that said Suburban Rapid Transit Company had, previous to the 4th day of June, 1891, constructed and erected a part of its line of railway extending in a general direction northerly from Second Avenue and Harlem River, in the Borough of Manhattan over and across said Harlem River, and northerly in the Borough of the Bronx as far as the intersection of Tremont Avenue or 177th Street with Third Avenue.

That on or about the 4th day of June, 1891, your petitioner took a surrender or transfer of the entire capital stock of the said Suburban Rapid Transit Company, and duly filed a certificate to that effect in the office of the Secretary of State, on the 30th day of June, 1891, as appears from the volume known as "Documents and Statutes Affecting the Manhattan Railway Company, as Transferee of the Estate, Property, Rights, Privileges and Franchises of the Suburban Rapid Transit Company," and thereby acquired all the said estate, property, rights, privileges and franchises, and became the owner thereof. That the said railroad lines of said Suburban Rapid Transit Company were connected with the lines of the Manhattan Railway Company in the year 1894 and then became an extension of the system of railroads of said Manhattan Company as the same existed on February 26th, 1890, and thereafter continuous and through trains were run from the southern extremity of Manhattan Island to the northern terminus of the former Suburban Rapid Transit Company's lines.

VI. That the bonds to be secured by said Consolidated Mortgage were, as therein provided, to be executed by the officers, for the time being, of the Manhattan Railway Company and to be certified by the Trustee, at the request of said Manhattan Railway Company, as and when needed for use in the manner provided in said Mortgage.

VII. That said Consolidated Mortgage provided for the issue of \$40,000,000 of Four Per Cent. Bonds for the purpose of taking up, by exchange or otherwise, outstanding bonds executed respectively by The New York Elevated Railroad Company, the Metropolitan Elevated Railroad Company, and by the Manhattan Railway Company, and for other corporate purposes of the Manhattan Company, and by the Seventh clause of the said Consolidated Mortgage further and additional bonds were provided to be issued, to be secured by the said mortgage, by the following language:

"Seventh—That further and additional bonds of the series hereby secured beyond the \$40,000,000 of bonds hereinabove provided for, but of the same general form and tenor and date, and bearing interest at not exceeding five per cent. per annum, the principal and interest thereof to be payable at like times and in like gold coin, may hereafter be created and issued by the Manhattan Company, and shall be and be deemed and taken to be secured by these presents equally with all other bonds issued under these presents, and to have like and equal lien, rights, powers and privileges with them. Said further and additional bonds shall be created and issued only for extensions of the present system of railroads of said Railway Companies, and only when and as said Railway Companies or either of them shall construct or acquire any such extension; but the word extension as used in these presents shall not be deemed or held to mean any side track or other addition to or enlargement or betterment of the railways mortgaged by these presents, or any part thereof. Such further and additional bonds shall be duly sealed and signed by the officers for the time being of the Manhattan Company, and be certified by the Trustee and issued and delivered by it at a rate not exceeding \$600,000 per mile of double track of elevated railway and \$300,000 per mile of single track of elevated railway of the extension so constructed or acquired and not otherwise. The fact of such construction or acquisition shall be evidenced for the purposes of these presents by the written certificate of the President or Vice-President and Chief Engineering officer of the Manhattan Company, and the ownership of the property constituting such extension shall be so vested as that the same shall form part of the mortgage security created by these presents, and become subject to the lien of these presents as a first charge thereon. \* \* \*

VIII. Your petitioner further shows that extensions of its said system of railroads have been constructed as follows:

First—Between the dates April 2d, 1900, and July 1st, 1901, from Tremont Avenue or 177th Street, in the Borough of The Bronx, to Pelham Avenue in said Borough, a distance of 5,680 feet, being 1.08 miles, all of two or more tracks.

Second—Between the dates February 18th, 1902, and May 21st, 1902, from said Pelham Avenue further northerly to Bronx Park in said Borough of The Bronx, a distance of 2,171 feet, being .41 miles, all of two or more tracks.

That said facts have been duly certified to the Trustee by the written certificate of the Vice-President and Chief Engineering officer of the Manhattan Railway Company.

IX. Your petitioner further shows that no bonds under said Consolidated Mortgage have heretofore been issued on account of said extensions or any part of them, and that the said extensions have become vested in your petitioner and form part of the mortgage security created by said mortgage and are subject to the lien thereof.

X. The financial condition of your petitioner is as follows:

XI. Your petitioner further states that the use to which the capital secured by the issue of said bonds is to be put is the discharge or lawful refunding of its obligations and restoring to the general fund of the petitioner amounts expended for the construction of extensions of the system of railroads of said railway companies, as the same existed at the time of the making of said Consolidated Mortgage on February 26th, 1890.

XII. Your petitioner further states that no contract has yet been made for the sale of said bonds, which is proposed to issue.

Your petitioner, therefore, PRAYS for an order of the Commission authorizing the immediate issue of said \$894,000 of bonds, under and pursuant to said Consolidated Mortgage dated February 26th, 1890, and stating that in the opinion of the Commission the use of the capital to be secured by the issue of such bonds is required for the purposes of the corporation and for the discharge or lawful refunding of its obligations; and

Your petitioner further PRAYS that the Commission prescribe as short a notice as practicable for a hearing, if any hearing be deemed necessary on this application.

The Commission has recently issued a number of hearing orders and orders directing improvements in service upon several of the lines operated by the Receivers of the New York City Railway Co. The service orders particularly require a considerable amount of work in order that the new schedules shall be suited to the conditions upon that particular line, and I believe that the statements made by the Receivers, viz.: That it will be impossible to arrange new schedules prior to June 1, are made in good faith and that extension orders should be issued in each instance."

(23) Commissioner Maltbie presented the following report of A. W. McLimont, which was ordered filed and spread on the minutes in full:

Report Regarding the Overhauling of Open or Summer Cars of the N. Y. City R. R. Co.

May 16th, 1908.

Commissioner MILO R. MALTBIE, Public Service Commission:

SIR—I take pleasure in bringing to your attention the favorable conditions regarding the class of work being done in overhauling the open or summer cars of the N. Y. City Railway Co.

The organization for overhauling and renewing their open cars is in thorough working order and the results being attained are decidedly favorable for ensuring more reliable car service this season than the equipments of this company have been giving during the last two years. The placing of the electric equipment, auxiliary appliances and instruments upon the cars has been to a great extent standardized, so that a much better supervision can be maintained over them than heretofore. Also the car wiring has been greatly improved and is now done in a workmanlike and substantial manner, which has already shown good results, as during the bad weather which prevailed last week there was not one of the overhauled open cars that showed defective equipment which had to be taken in for emergency repairs.

All the cars repaired by the Stephenson Co. have been repainted and revarnished, and with the exception that the seats and backs have been painted, the appearance of which will deteriorate more rapidly than if it were natural wood varnished, the cars are practically as good as new.

The double truck cars overhauled by the N. Y. City Railway Co. compare very favorably in the methods and manner of the re-wiring and overhauling of the trucks with the cars which were overhauled and renewed at the Stephenson Company's works. The work done is generally of a first class character, but our inspection of each car overhauled shows there is considerable detail work which might still be done to the cars, but the age and condition of the car body would hardly warrant further outlay than that now being expended to put the car in a serviceable condition for this season.

The improvement in working methods and the Company's evident effort to do this overhauling work properly is gratifying. When the inspectors of this Commission first began to examine the cars overhauled by the N. Y. City Railway Company, it was found that in many instances they were not up to the standard which the inspector was instructed to expect. The inspectors refused to pass all such and they were kept in the shops until put in condition satisfactory to the Commission's inspector. This Bureau is inspecting at this time on an average of 18 cars per day, and the latest inspections show a continued improvement in the work being done by the Company. The single truck cars are very old, and considerable work has had to be done; they have practically been rebuilt.

In conclusion, I would say that every suggestion made by this Bureau relating to a change or improvement in the methods employed and the work done by the company has been readily accepted and adopted, and I believe that the cars which are now being turned out to-day are as well equipped for summer service as could be expected of any overhauled and renewed rolling stock which had deteriorated to the point that the equipment of the N. Y. City Railway Co. had reached.

Respectfully submitted,  
(Signed) A. W. McLIMONT,  
Electrical Engineer.

##### NOTICE TO CONTRACTORS.

#### GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, and names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, or the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
