DEPARTMENT OF HEALTH.

REPORT FOR WEEK ENDING NOVEMBER 8, 1913.

MILK BOTTLE ORDINANCE SUSTAINED BY HIGHEST STATE COURT.

The Court of Appeals on October 21, 1913, decided that the provision of the Sanitary Code of the City of New York, making it a misdemeanor for any person to "receive or have in his possession" any receptacle used in the transportation and delivery of milk or cream which has not been washed and cleansed immediately after emptying, is to be read "receive and have in his possession," and as thus construed violates no constitutional right and is within the police power of the State. The duty of cleansing the receptacle is cast first upon the person who empties it. If he fails to perform the duty, it then extends to any person into whose possession the uncleansed receptacle subsequently comes. The particular case, which has just been decided by the highest court of the State, originated from the prosecution of certain drivers of a milk company for leaving unwashed milk cans on the platform of a railway station. The case was first tried in the Court of Special Sessions, which found the defendant guilty. An appeal was taken to the Appellate Division of the Supreme Court, which upheld the decision of the Court of Special Sessions. Upon final appeal to the highest court of the State, the order and judgment of the Supreme Court has now been affirmed. The decision of the Court of Appeals was handed down by Mr. Justice A. Cuddeback, and reads in part as follows:

"The ordinance is challenged by the defendant in this action as being in violation of the constitution, for the reason that the concluding clause thereof prevents the owner of a receptacle, which has contained milk, from reclaiming his property, if the receptacle is unclean. I think that is an unreasonable interpretation to put upon the ordinance.

"The object of the enactment is in the highest degree commendable. When the receptacle containing milk is emptied, it quickly becomes foul and offensive, and will breed disease if used again as a milk container without being thoroughly cleansed. Therefore, it is provided that the receptacle must be cleaned immediately after it is emptied. That duty the ordinance first casts upon the person who has emptied the receptacle. If he fails to perform his duty he is subject to the prescribed penalty. Then, in order to make the ordinance effective, it extends the duty of cleansing from the person emptying the receptacle to any person in whose possession it may come. The duty follows the change of possession.

"The word 'receive' in the final clause of the ordinance should not be construed so as to render the bare taking or acceptance of the receptacle unlawful. The words 'nor shall any person receive or have in his possession' should be read 'nor shall any person receive *and* have in his possession' any such unclean milk receptacle. The idea is to prevent a possession continued beyond the time necessary to do what the ordinance requires. * * *

"The defendant in this case was employed by a corporation to deliver milk in bottles to its customers, and it was his duty, when on his rounds, to collect the bottles that had been emptied by customers. Empty bottles so collected, and some of them dirty, the defendant on the day in question carried to a railroad depot and left them there upon the freight platform. A short time afterward they were found loaded on a car. The inference is irresistible that the bottles were in the course of transportation to the farm or dairy where the defendant's employer obtained milk.

"The defendant's excuse is that the railway platform was the place where he and other milk drivers received milk for distribution, and the place where they returned the empty milk bottles, and that the master employed another servant who assorted the bottles on the railroad platform and sent those that were unclean to a sterilizing plant about three miles distant to be cleansed. If the defendant had taken the bottles directly to the sterilizing plant, probably he would not have been interfered with, but he says to take them there would have made 'too much trouble' for the drivers. The defendant was undoubtedly performing the master's work in the way the master directed, but he is none the less liable on that account. The delivery at the railroad platform evinced at the best an intention on the part of the master to clean the bottles at his convenience and not immediately as the law required. The act was the act of the defendant, and for that he was properly convicted."

Justices Gray, Chase and Hogan concurred with Justice Cuddeback, and Chief Justice Cullen concurred in result. Justice Willard Bartlett read a dissenting opinion, which follows, and in which Justice Miller concurred:

"It is unnecessary to commend the purpose of municipal legislation designed to insure the purity of milk furnished to the community. Of course the motives which induce such enactments are commendable. But the worthiest of motives does not legalize an unreasonable ordinance.

"This enactment forbids the purveyor of milk from resuming possession of the bottles in which the milk has been furnished to the customer unless such bottles have been cleaned before they are taken back. The vendor is not given a reasonable time within which to clean them; he is not given any time at all. If he has such receptacles in his possession which have not been washed after holding milk, he is liable to fine and imprisonment. no matter how short may be the duration of his possession, and although he proceeds to cleanse the bottles with the utmost celerity, he may not *receive* them if they are unwashed. It seems to me too clear for argument that such an ordinance deprives the milk dealer of his property without any neglect or wrongdoing on his part. He cannot lawfully regain it unless the consumer, over whom he has no legal control, has previously cleansed the receptacle in which the milk was furnished.

"No doubt the ordinance could be reconstructed so as to be reasonable. This has been attempted in the prevailing opinion. It is the duty of the court, however, to pass upon the ordinance as it has been framed by those who enacted it. In my judgment, we are without power, however easy it might be, to make a good ordinance instead of a bad one."

ELIMINATION OF RAW MILK FROM GRADE B.

Holding that the protection of the public health now requires that all milk used in New York City, except certified milk and similar special grades, should be either

pasteurized or brought to the boiling point before it is consumed, the Board of Health at its last meeting adopted a resolution forbidding the sale of any raw milk for consumption on the premises, and amended the Sanitary Code and the rules and regulations for the sale of milk to remove from Grade B the class of raw milk which was formerly permitted to be sold under that designation. The effect of this amendment of the milk regulations, which takes effect February 1, 1914, is to limit the sale of raw milk in New York City to milk which conforms to the requirements of Grade A. Only milk produced under exceptionally stringent requirements as to cleanliness can now be sold in the raw state.

The requirement relating to the sale of milk for consumption on the premises, which is to take effect immediately, is a matter which particularly concerns the patrons of restaurants, hotels and lunch counters as well as the proprietors of these places. Hereafter when a glass of milk is purchased at a restaurant, hotel, lunch counter, milk booth or any similar place the purchaser may know that the law requires that this milk should be pasteurized unless it is Grade A milk. This grade includes certified milk, guaranteed milk and inspected milk which has been pasteurized.

A study of the cases of typhoid fever which occurred east of Broadway and south of 40th st. during September indicated to the Department beyond any reasonable doubt that a certain supply of Grade B raw milk was the means of transmitting the infection in a large number of the cases, and raw milk has therefore been eliminated from Grade B. This action should be considered as the latest step in the execution of a carefully developed program under which the Department of Health for the last four years has endeavored gradually to bring about the pasteurization of the entire supply of general market milk of New York City. Commissioner Lederle has repeatedly expressed the opinion that under the present conditions of production and consumption of the milk supply of New York City, the only means of insuring safety from the transmission of infection while keeping down the price of milk was to adopt the requirement of pasteurization on a large scale. By the adoption of the grading system and by increasingly stringent regulations the Department in the last four years has been able to raise the proportion of pasteurized milk to the total supply of New York City from 7 per cent. to 75 per cent. At the present time, out of a total average daily supply of 2,000,000 quarts of liquid milk it is estimated by the Department that an average of 1,500,000 quarts is pasteurized. The adoption of the latest regulation requiring the paseurization of all except the highest special grades of milk (which constitute an almost negligible percentage of the total supply) will mean that practically all milk sold in the City after February 1, 1914, must be pasteurized.

SUMMARY FOR WEEK ENDING NOVEMBER 8, 1913.

There were 1,281 deaths and a rate of 12.44 per 1,000 of the population reported during the past week as against 1,302 deaths and a rate of 13.13 for the corresponding week of 1912, an absolute decrease of 21 deaths and a relative decrease of 71 deaths.

The figures showing the deaths from contagious and infectious diseases varied very little compared with those of last year. There were 47 deaths all told reported from measlles, scarlet fever, diphtheria and croup, whooping cough and typhoid fever, as compared with 38 deaths during the corresponding week of 1912. The deaths from the acute respiratory diseases amounted to 152 against 174, a decrease of 22 deaths. There were 140 deaths reported from pulmonary tuberculosis as against 135. There were 295 deaths reported from organic heart and kidney diseases combined as against 294. There were 114 deaths reported from violence as against 94 deaths, an increase of 20 deaths.

Viewed from the point of age grouping, there were exactly the same number (231) of deaths of infants under one year of age in the two weeks under comparison. There were 324 children died under five years of age as against 332. There were 245 deaths reported of old people as against 253.

The death rate for the first forty-five weeks of 1913 was 13.84 per 1,000 as against 14.15 for the corresponding period of 1912.

A former colleague, expectant of renewing his connection with this Board, has been suddenly called from among us:

JAMES H. FINNIGAN.

He served as a member of this Board for four years from 1908 to 1911, and subsequently in the Assembly. Active and diligent, he was a faithful worker in committee and on the floor. Genial and kindly, his repeated return to legislative office shows the esteem in which he was held by his constituents.

Resolved, That this Board of Aldermen desires to express its sense of the sterling merits of the deceased and of its sympathy with his widow and children.

Resolved, That a copy of this preamble and resolutions, properly engrossed and duly authenticated, be transmitted to the family of the deceased.

Adopted by the Board of Aldermen October 21, 1913.

Approved by the Mayor November 11, 1913.

AN ORDINANCE to transfer certain members of the Board of Water Supply Police force to the police force of The City of New York.

Be it Ordained, by the Board of Aldermen of The City of New York, as follows:

Section 1. The members of the police force of the Board of Water Supply of The City of New York, upon the termination of their service on such force by reason of the completion of the work for which they were appointed by said Board of Water Supply, shall be severally eligible for transfer to the position of Patrolman in the Police Department of The City of New York, upon the written request in each case of the Board of Water Supply, accompanied by the consent, also in writing, of the person to be transferred, and the further consent of the Police Commissioner of The City of New York. The time served as a member of said Board of Water Supply police force shall be included and counted as service in the Police Department of The City of New York, in determining salary and eligibility for advancement, promotion, retirement and pension as hereinafter provided, provided, however, that no person becoming a member of the Police Department of The City of New York in the manner herein provided shall be entitled to participate in the benefits of the relief or pension fund of the Police Department, unless he shall pay into such fund the total sum that he would have been required to pay, in order to participate therein, had he been a member of such force from the time he entered the service of such Board of Water Supply.

Sec. 2. No person, however, not a member of the police force of the Board of Water Supply of The City of New York at the time this ordinance has taken effect shall be eligible for transfer to the position of Patrolman in the Police Department of The City of New York, in accordance with the provisions of section 1 of this ordinance.

Sec. 3. This ordinance shall take effect immediately.

AN ORDINANCE to Amend the Code of Ordinances of The City of New York in Relation to the Duties of the Clerk to the Board of Aldermen.

Be It Ordained, By the Board of Aldermen of The City of New York, as follows:

Section 1. Part 1, article 2 of the Code of Ordinances of The City of New York is hereby amended by adding at the end thereof a new section, to read as follows:

Section 7a. It shall be the duty of the Clerk to the Board of Aldermen to have printed, within four days after the introduction thereof, five hundred copies of each ordinance introduced in the Board of Aldermen by any member thereof, which adds to, amends, alters or repeals the Code of Ordinances of The City of New York. All ordinances amending or repealing any existing law or ordinance shall, when printed, contain in brackets the part repealed, and the new part inserted, in italics. Each ordinance printed in accordance with the provisions of this section shall bear the name of the introducer, and the introductory number thereof, and briefly state the disposition made thereof upon its introduction.

A copy of each ordinance printed in accordance with the provisions hereof shall be delivered or mailed to the head of every Department and Bureau in The City of New York by the Clerk to the Board of Aldermen. The balance shall be retained by the Clerk to the Board of Aldermen for distribution, within his discretion, to persons desiring copies of the same; provided, however, that he shall always retain at least fifty printed copies until such time as the ordinance shall have been either enacted into law, or the term of the members of the Board of Aldermen during which it was introduced shall have expired.

DEPARTMENT OF FINANCE.

WARRANTS MADE READY FOR PAYMENT IN DEPARTMENT OF FINANCE FRIDAY, NOVEMBER 14, 1913.

Below is a statement of warrants made ready for payment on the above date showing therein the Department of Finance voucher number, the date or dates of the invoices or bills, the date the voucher was filed in the Department of Finance, the name of the payee and the amount of the claim.

Where two or more bills are embraced in the warrant, the dates of the earliest and latest are given.

All of the warrants mentioned are forwarded through the mail unless some reason exists why payment is to be made in person, in which event written notice will be promptly given to the claimant.

In making a written or verbal inquiry at this office as to any of the below mentioned warrants, it is requested that reference be made by the Department of Finance voucher number.

VOUCHERS RECEIVED IN DEPARTMENT OF FINANCE FRIDAY, NOVEMBER 14, 1913.

A statement is herewith submitted of all vouchers filed in the Department of Finance on this date in which is shown the Department of Finance voucher number, the date or dates of the invoices or bills, the name of the payee and the amount of the claim. Where two or more bills are embraced in one voucher, the dates of the earliest and latest are given.

If the vouchers are found to be correct, and properly payable to the respective claimants, it will be my endeavor to have the warrants therefor made ready for payment within the next seven days.

If any claimant within the time stated does not receive his warrant or a written notice in relation thereto, then written or verbal inquiry may be made at this office, using the Department of Finance voucher number as a ready means of reference.

WM. A. PRENDERGAST, Comptroller.

DEPARTMENT OF FINANCE.

Corporation Sale of Privilege.

CORPORATION SALE BY SEALED BIDS OF THE PRIVILEGE TO MAINTAIN A LUNCH COUNTER IN THE COUNTY COURT HOUSE IN THE BOROUGH OF MANHATTAN.

SEALED BIDS FOR THE PRIVILEGE TO maintain a lunch counter on the northeast side of the rotunda, on the first floor of the County Court House, in the Borough of Manhattan, for a period of one year commencing December 1, 1913, will be received by the Comptroller on

SATURDAY, NOVEMBER 29, 1913.

at 11 a. m., at the office of the Collector of City Revenue, Department of Finance, Room K, 280 Broadway, Borough of Manhattan, upon the following

TERMS AND CONDITIONS.

Bids must be made in the amount of rent per month which the bidder is willing to pay for said privilege for each and every month of the full term of one year, and each bid must be accompanied by cash or certified check for one month's rent in advance, which shall be forfeited if the successful bidder does not sign the rental agreement when notified that it is ready for execution.

He will also be required to give an undertaking in the amount of the rental bid for the full term of one year, with two sufficient sureties to be approved by the Comptroller, conditioned for the payment of the rent monthly in advance and for the performance of the provisions of the agreement.

No person shall be received as lessee or surety who is a delinquent on any former lease from the corporation, and no bid shall be accepted from any person who is in arrears to the corporation upon debt or contract, or who is a defaulter as surety, or otherwise, upon any obligation to the corporation, as provided by law.

The agreement will be in the usual form of agreements for like privileges, and will contain in addition thereto the following provisions:

1. That the party to whom the privilege is granted shall do no cooking upon the premises.

2. That he shall be subject to the rules and regulations laid down by the President of the Borough of Manhattan affecting the care and maintenance of the building.

The Comptroller shall have the right to reject any or all bids if deemed to be to the interest of The City of New York.

Corporation Sales of Real Estate.

CORPORATION SALE OF REAL ESTATE.

BRYAN L. KENNELLY, Auctioneer.

PUBLIC NOTICE IS HEREBY GIVEN THAT the Commissioners of the Sinking Fund of The City of New York, by virtue of the powers vested in them by law, will offer for sale at public auction on

FRIDAY, NOVEMBER 28, 1913.

at 12 o'clock m., at the New York Real Estate Exchange, Nos. 14 and 16 Vesey st., Borough of Manhattan, all that certain piece or parcel of land situate in the Borough of Manhattan, City of New York, bounded and described as follows:

Beginning at a point on the northerly side of E. 129th st., distant 245.38 feet easterly from the intersection of the northerly side of E. 129th st. with the easterly side of 3d ave.; running thence northerly on a curve deflecting to the left whose radius is 160.13 feet, a distance of 116.26 feet to a point distant 106.31 feet northerly from and on a line at right angles to the northerly side of E. 129th st.; running thence northeasterly on a line drawn at right angles with the northerly side of E. 129th st. 63.36 feet; running thence northeasterly on a line deflecting 24 degrees 51 minutes 10 seconds to the right from the last mentioned line 6.54 feet to the southwesterly side of Exterior st., as shown on the H. V. Southard map of 1858 and 1859; running thence southeasterly along the said southwesterly side of Exterior st. to its intersection with the easterly side of property acquired by The City of New York for an approach to the Third Avenue Bridge over the Harlem River; running thence southerly along a curve deflecting to the right whose radius is 216.13 feet, a distance of 185.38 feet; running thence southwesterly 13.75 feet to a point on the northerly side of E. 129th st., distant 295 feet easterly from the intersection of the northerly side of E. 129th st. with the easterly side of 3d ave.; running thence westerly along the said northerly side of E. 129th st. 49.62 feet to the point or place of beginning.

The minimum or upset price at which said property shall be sold is hereby fixed at twenty-eight thousand dollars ($28,000), plus the cost of advertising the sale. The sale to be made upon the following

TERMS AND CONDITIONS.

The highest bidder will be required to pay ten (10) per cent. of the amount of his bid, together with the auctioneer's fees, at the time of the sale, the balance to be paid upon the delivery of the deed, which shall be within sixty (60) days from the date of the sale.

The Comptroller may, at his option, resell the property if the successful bidder shall fail to comply with the terms of the sale, and the person failing to comply therewith will be held liable for any deficiency which may result from such resale.

The conveyance shall contain a proviso that the same is without prejudice to the provisions of a deed or grant made by the Mayor, Aldermen and Commonalty of The City of New York to William H. Colwell and bearing date the 24th day of December, 1866, and recorded in the office of the Register of the County of New York on the 29th day of December, 1866, in Liber 993, at page 297; and as to the land lying within Exterior st. in front of that portion of the premises abutting thereon, the City shall have the same rights and the grantees and their successors in interest shall be under the same obligations as now exist or heretofore existed by virtue of the provisions of said deed to William H. Colwell, and the obligations of the said provisions of the said grant in so far as applicable to said Exterior st. shall be deemed an obligation imposed upon and running with the land hereby conveyed.

The right is reserved to reject any and all bids.

Maps of said real estate may be seen on application at the Comptroller's office, Stewart Building, 280 Broadway, Borough of Manhattan.

By order of the Commissioners of the Sinking Fund, under resolution adopted at meeting of the Board held October 8, 1913, and amended November 5, 1913.

EUGENE W. SCHEFFER, Secretary. n8,15

AT A MEETING OF THE BOARD OF Health of the Department of Health, held October 28, 1913, the following resolution was adopted:

Resolved, That Section 26 of the Sanitary Code be and the same is hereby amended so as to read as follows:

Section 26—Every keeper or proprietor of a hotel or boarding house, and every other person having for use a bathing house upon any beach or shore of the ocean, for the accommodation of his guests or other persons for pay, shall provide for the safety of such bathers two lines of sound, serviceable and strong manila or hemp rope, not less than one inch in diameter, anchored at some point above high water, at the same distance apart as the line of bathing houses, or space fronting on such beach occupied by him is in width; and from the two points at which such life lines are so anchored, such line shall be made to extend as far into the surf as bathing is ordinarily safe and free from danger of drowning to persons not expert in swimming, and at such points of safety such lines shall be anchored and buoyed. From the two points of such lines so extended, anchored and buoyed, a third line shall be extended, connecting the two extremities, and buoyed at such points as to be principally above the surface of the water, thereby inclosing a space within such lines and the beach within which bathing is believed to be safe. Every such keeper or propretor or other such person shall cause to be painted and put up in some prominent place upon the beach near such bathing houses, the following words: "Bathing beyond the lines dangerous." Such lines so placed, anchored and buoyed, and such notice so put up, shall continue and be so maintained by every such keeper, proprietor or other person during the entire season of surf bathing. The owner of a bathing house shall not be subject to the provisions of this section where it is used, occupied or maintained by a lessee for hire, but such lessee shall be deemed the keeper or proprietor thereof. Bathing suits shall not be hired out, nor any bathing establishment maintained anywhere in The City of New York without a permit in writing from the Board of Health and subject to the conditions thereof.

PUBLIC SERVICE COMMISSION.

Proposals.

INVITATION TO CONTRACTORS.

PART OF THE SEVENTH AVENUE-LEXINGTON AVENUE RAPID TRANSIT RAILROAD.

THE PUBLIC SERVICE COMMISSION FOR the First District (hereinafter called "the Commission") invites proposals to construct Section No. 2 of Routes 4 and 38, a part of the Seventh Avenue-Lexington Avenue Rapid Transit Railroad.

The points within The City of New York between which the said part is to run and the route or routes to be followed are briefly as follows:

Section No. 2. Beginning at a point under Greenwich st., in the Borough of Manhattan, near the intersection of West Broadway, about seventy (70) feet south of the southerly building line of Vesey st., and extending thence northerly under Greenwich st., West Broadway and Varick st. to a point about one hundred (100) feet south of the southerly building line of Beach st.

Also a branch to this line, beginning at a point under Park place, in the Borough of Manhattan, about one hundred and seventeen (117) feet east of the easterly line of West Broadway and curving thence northwesterly under Park place, private property and West Broadway to a connection with the main line.

The general plan of construction calls for a subsurface railroad having two and four tracks. The details of the construction of the railroad and appurtenances are more particularly indicated on the contract drawings.

Bidders will not be required to provide or lay tracks, ties or ballast, nor to do station finish work.

The work of construction under the contract will include the construction of all necessary sewers and connections along or off the route of the railroad; also the necessary support, maintenance, readjustment and reconstruction of vaults adjacent to buildings, pipes, tubes, conduits, subways or other subsurface structures; the support and care, including underpinning or the maintaining, protecting and securing where necessary of all buildings, monuments, surface and elevated railroads and other surface, subsurface and overhead structures of any kind, etc., affected by or interfered with during the construction of the work; also the restoration of the sidewalks and roadways.

The method of construction will be by trench excavation under cover, unless otherwise permitted by the Commission, as set forth in the form of contract.

Bidders must examine the form of contract and the specifications, maps and plans; must visit the location of the work and inform themselves of the present conditions along the line thereof and make their own estimates of the facilities and difficulties attending the execution of the proposed work.

A fuller description of the work to be done is set forth, and other requirements, provisions, details and specifications are stated in the printed form of contract and in the contract drawings therein referred to. Printed copies of the form of contract, bond and contractor's proposal may be had on application at the office of the Commission, No. 154 Nassau st., Borough of Manhattan, City of New York. The contract drawings may be inspected at the same office, and copies thereof may be purchased by prospective bidders on payment of five dollars ($5). The printed form of contract and the contract drawings are to be deemed a part of this invitation.

The City and the Interborough Rapid Transit Company will both be parties to the contract; the Interborough Rapid Transit Company being a party for the purpose of disbursing part of its contribution toward the cost of construction, as provided in the contract dated March 19, 1913, between The City of New York, acting by the Commission, and Interborough Rapid Transit Company for the equipment, maintenance and operation of additional rapid transit railroads. The liability of Interborough Rapid Transit Company under the contract for which bids are now invited will be limited to an amount equal to ninety-five (95) per centum of the aggregate sum arrived at by multiplying the estimated approximate quantities by the Unit Prices as contained in the Schedule of Unit Prices in the contractor's proposal. The contractor is to accept the obligation of the Interborough Rapid Transit Company to make payments to the amount and in the manner provided in the contract and is to agree not to look to the City, except to the extent that the amounts earned under the contract may exceed the amount for which the Interborough Rapid Transit Company is liable.

The Commission is informed by the Department of Docks and Ferries that docks and bulkheads along the East River or along the North River may be available for dumping purposes. Information in regard thereto may be obtained by any intending bidder upon inquiry at the office of the Department of Docks and Ferries, with whom all arrangements must be made with respect to utilizing such docks and bulkheads as may be available.

Partial payments to the Contractor will be made monthly as the work proceeds, as provided in the form of contract.

The Contractor will be required to complete the work as soon as practicable and within a period of thirty-six (36) months from the date of the delivery of the contract.

Sealed bids or proposals will be received at the office of the Commission at No. 154 Nassau street, Borough of Manhattan, City of New York, until the 2d day of December, 1913, at twelve fifteen (12.15) o'clock p. m., at which time, or at a later date to be fixed by the Commission, the proposals will be publicly opened.

Proposals must be in the form prescribed by the Commission, copies of which may be obtained at the office of the Commission.

A statement based upon estimate of the Engineer, of the quantities of the various classes of the work and of the nature and extent as near as practicable of the work required is to be found in the schedule forming a part of the form of contractor's proposal. The quantities given in such schedule are approximate only, being given as a basis for the uniform comparison of bids and no claim is to be made against the City on account of any excess or deficiency, absolute or relative, in the same, except as provided in the specifications and form of contract.

All proposals must, when submitted, be enclosed in a sealed envelope endorsed "*Proposal for Constructing Part of Rapid Transit Railroad —Routes Nos. 4 and 38, Section No. 2,*" and must be delivered to the Commission or its Secretary; and in the presence of the person submitting the proposal, it will be deposited in a sealed box in which all proposals will be deposited. No proposal will be received or deposited unless accompanied by a separate certified check drawn upon a national or state bank or trust company having its principal office in The City of New York satisfactory to the Commission and payable to the order of the Comptroller of The City of New York for the sum of fifteen thousand dollars ($15,000). Such check must not be enclosed in the envelope containing the proposal.

The unit prices must not be improperly balanced, and any bid which the Commission considers detrimental to the City's interests may be rejected.

No proposal, after it shall have been deposited with the Commission, will be allowed to be withdrawn for any reason whatever.

The award of the contract will be made by the Commission as soon as practicable after the opening of the proposals.

Bidders whose proposals are otherwise satisfactory, in case the sureties or securities named by them are not approved by the Commission, may substitute in their proposals the names of other sureties or securities approved by the Commission, but such substitution must be made within five (5) days after notice of disapproval, unless such period is extended by the Commission.

A bidder whose proposal shall be accepted shall, in person or by duly authorized representative, attend at the said office of the Commission within ten days after the delivery of a notice by the Commission that his proposal is accepted and that the contract is consented to by the Board of Estimate and Apportionment, and such bidder shall then deliver a contract in the form referred to, duly executed and with its execution duly proved.

At the time of the delivery of the contract, the Contractor will be required to furnish security to the City by giving a bond for seventy-five thousand dollars ($75,000). At the option of the successful bidder, cash or approved securities may be deposited instead of giving a bond. If securities are deposited in place of a bond under this contract, they must be of the character of securities in which savings banks may invest their funds and must be approved by the Commission.

The Contractor's bond must be in the form annexed to the form of contract.

In addition and as further security, fifteen (15) per centum of the amounts certified from time to time to be due to the Contractor will be deducted until the amounts so deducted and retained shall equal ten (10) per centum of the sum of the amounts resulting from the product of the estimated approximate quantities and the unit prices as contained in the schedule of unit prices in the contractor's proposal. Thereafter there shall be so deducted and retained for such purpose ten (10) per centum of the amounts certified from time to time to be due to the Contractor. The Contractor may from time to time withdraw portions of the amount so retained upon depositing in lieu thereof corporate stock of The City of New York equal in market value to the amount so withdrawn.

In case of failure or neglect to execute and deliver the contract or to execute and deliver the required bond or to make the required deposit, such bidder will, at the option of the Commission, be deemed either to have made the contract or to have abandoned the contract. In the latter case, the Commission will give notice thereof to such defaulting bidder, and the Commission may thereupon proceed to make another contract with such, if any, of the original bidders, as, in the opinion of the Commission, it will be to the best interests of the City to contract with, or may by new advertisement invite further proposals. The defaulting bidder shall thereupon be liable to the City for all loss and damage by it sustained, including the excess, if any, of the amount it shall pay any other contractor over the amount of the bid of such defaulting bidder.

If the Commission shall give notice to any bidder that his or its proposal is accepted and that the contract is consented to by the Board of Estimate and Apportionment and if the bidder shall fail within ten days thereafter or within such further period, if any, as may be prescribed by the Commission, to execute and deliver the contract and to execute and deliver the bond with sureties, or to make the required deposit, then the invitation to contractors and proposal accepted as aforesaid shall be a contract binding the bidder to pay to the City the damage by it sustained by reason of such failure, and in such case the bidder shall by the terms of the proposal, absolutely assign to the City the ownership of the check accompanying his or its proposal as a payment on account of such damages.

All such deposits made by bidders whose proposals shall not be accepted by the Commission will be returned to the person or persons making the same within five days after the contract shall be executed and delivered. The deposit of the successful bidder will be returned when the contract is executed and its provisions in respect of the bond or deposit are complied with.

The right to reject any and all bids is reserved.

PUBLIC SERVICE COMMISSION. FOR THE FIRST DISTRICT. By EDWARD E. McCALL, Chairman.

TRAVIS H. WHITNEY, Secretary. n14,d2

INVITATION TO CONTRACTORS.

PART OF THE SEVENTH AVENUE-LEXINGTON AVENUE RAPID TRANSIT RAILROAD.

The Public Service Commission for the First District (hereinafter called "the Commission") invites proposals to construct Section 1 of Route 16, a part of the Seventh Avenue-Lexington Avenue Rapid Transit Railroad.

The points within The City of New York between which the said part is to run and the route or routes to be followed are briefly as follows:

Section 1. Beginning at a point in property owned by the City on the easterly side of River avenue, in the Borough of The Bronx, about one hundred and twenty (120) feet south of the southerly building line of East 157th street and extending thence northerly along and over private property, River avenue and Jerome avenue to a point about forty-five (45) feet north of the northerly building line of East 182d street.

The general plan of construction calls for an elevated railroad. The details of the construction of the railroad and appurtenances are more particularly indicated on the contract drawings.

Bidders will not be required to provide or lay any tracks or ties, nor to do station finish work.

The work of construction under the contract will include the construction of all necessary sewers and connections, along or off the route of the railroad; also the necessary support, maintenance, readjustment and reconstruction of vaults adjacent to buildings, pipes, tubes, conduits, subways or other subsurface structures; the support and care, including underpinning or the maintaining, protecting and securing where necessary, of all buildings, monuments, surface railroads and other surface, subsurface and overhead structures of any kind, etc., affected by or interfered with during the construction of the work; also the restoration of the sidewalks and roadways.

Bidders must examine the form of contract and specifications, maps and plans; must visit the location of the work and inform themselves of the present conditions along the line thereof and make their own estimates of the facilities and difficulties attending the execution of the proposed work.

A fuller description of the work to be done is set forth, and other requirements, provisions, details and specifications are stated, in the printed form of contract and in the contract drawings therein referred to. Printed copies of the form of contract, bond and contractor's proposal may be had on application at the office of the Commission, No. 154 Nassau street, Borough of Manhattan, City of New York. The contract drawings may be inspected at the same office, and copies thereof may be purchased by prospective bidders on payment of five dollars ($5). The printed form of contract and the contract drawings are to be deemed a part of this invitation.

The City of New York (hereinafter called the "City") and the Interborough Rapid Transit Company will both be parties to the contract; the Interborough Rapid Transit Company being a party for the purpose of disbursing part of its contribution toward the cost of construction as provided in the contract dated March 19, 1913, between The City of New York, acting by the Commission, and Interborough Rapid Transit for the equipment, maintenance and operation of additional rapid transit railroads. The liability of Interborough Rapid Transit Company under the contract for which bids are now invited will be limited to an amount equal to ninety-five per centum (95%) of the aggregate sum arrived at by multiplying the estimated approximate quantities by the UNIT PRICES as contained in the SCHEDULE OF UNIT PRICES in the contractor's proposal. The contractor is to accept the obligation of the Interborough Rapid Transit Company to make payments to the amount and in the manner provided in the contract and is to agree not to look to the City except to the extent that the amounts earned under the contract may exceed the amount for which the Interborough Rapid Transit Company is liable.

Partial payments to the contractor will be made monthly as the work proceeds as provided in the form of contract.

The contractor will be required to complete the work as soon as practicable and within a period of eighteen (18) months from the date of the delivery of the contract.

Sealed bids or proposals will be receivep at the office of the Commission at No. 154 Nassau street, Borough of Manhattan, City of New York, until the 28th day of November, 1913, at twelve fifteen (12.15) o'clock p. m., at which time, or at a later date to be set by the Commission, the proposals will be publicly opened.

Proposals must be in the form prescribed by the Commission, copies of which may be obtained at the office of the Commission.

A statement based upon estimate of the Engineer, of the quantities of the various classes of the work and of the nature and extent as near as practicable of the work required is to be found in the schedule forming a part of the contractor's proposal. The quantities given in such schedule are approximate only, being given as a basis for the uniform comparison of bids and no claim is to be made against the City on account of any excess or deficiency, absolute or relative, in the same, except as provided in the specifications and form of contract.

All proposals must, when submitted, be enclosed in a sealed envelope endorsed "*Proposals for Constructing Part of Rapid Transit Railroad —Route No. 16, Section No. 1,*" and must be delivered to the Commission or its Secretary; and in the presence of the person submitting the proposal, it will be deposited in a sealed box in which all proposals will be deposited. No proposal will be received or deposited unless accompanied by a separate certified check drawn upon a national or state bank or trust company having its principal office in The City of New York, satisfactory to the Commission and payable to the order of the Comptroller of The City of New York for the sum of fifteen thousand ($15,000) dollars. Such check must not be enclosed in the envelope containing the proposal.

The Unit Prices must not be improperly balanced, and any bid which the Commission considers detrimental to the City's interests may be rejected.

No proposal, after it shall have been deposited with the Commission, will be allowed to be withdrawn for any reason whatever.

The award of the contract will be made by the Commission as soon as practicable after the opening of the proposals.

Bidders whose proposals are otherwise satisfactory, in case the sureties or securities named by them are not approved by the Commission, may substitute in their proposals the names of other sureties or securities approved by the Commission, but such substitution must be made within five (5) days after notice of disapproval, unless such period is extended by the Commission.

A bidder whose proposal shall be accepted shall, in person or by duly authorized representative, attend at the said office of the Commission within ten (10) days after the delivery of a notice by the Commission that his proposal is accepted and that the contract is consented to by the Board of Estimate and Apportionment, and such bidder shall then deliver a contract in the form referred to, duly executed and with its execution duly proved.

At the time of the delivery of the contract, the contractor will be required to furnish security to the City by giving a bond for one hundred thousand ($100,000) dollars. At the option of the successful bidder cash or approved securities may be deposited instead of giving a bond. If securities are deposited in place of a bond under the contract, they must be of the character of securities in which savings banks may invest their funds and must be approved by the Commission.

The contractor's bond must be in the form annexed to the form of contract.

In addition and as further security fifteen (15) per centum of the amounts certified from time to time to be due to the contractor will be deducted until the amounts so deducted and retained shall equal ten (10) per centum of the sum of the amounts resulting from the product of the estimated approximate quantities and the Unit Prices as contained in the schedule of unit prices in the contractor's proposal. Thereafter there shall be so deducted and retained for such purpose ten (10) per centum of the amounts certified from time to time to be due to the contractor. The contractor may from time to time withdraw portions of the amounts so retained upon depositing in lieu thereof corporate stock of The City of New York equal in market value to the amount so withdrawn.

In case of failure or neglect to execute and deliver the contract or to execute and deliver the required bond or to make the required deposit, such bidder will, at the option of the Commission, be deemed either to have made the contract or to have abandoned the contract. In the latter case, the Commission will give notice thereof to such defaulting bidder, and the Commission may thereupon proceed to make another contract with such, if any, of the original bidders as, in the opinion of the Commission, it will be to the best interests of the City to contract with, or may by new advertisement invite further proposals. The defaulting bidder shall thereupon be liable to the City for all loss and damage by it sustained, including the excess, if any, of the amount it shall pay any other contractor over the amount of the bid of such defaulting bidder.

If the Commission shall give notice to any bidder that his or its proposal is accepted and that the contract is consented to by the Board of Estimate and Apportionment, and if the bidder shall fail wihin ten (10) days thereafter or within such further period, if any, as may be prescribed by the Commission, to execute and deliver the contract and to execute and deliver the bond with sureties, or to make the required deposit, then the Invitation to Contractors and proposal accepted as aforesaid shall be a contract binding the bidder to pay to the City the damage by it sustained by reason of such failure, and in such case the bidder shall, by the terms of the proposal, absolutely assign to the City the ownership of the check accompanying his or its proposal as a payment on account of such damages.

All such deposits made by bidders whose proposals shall not be accepted by the Commission will be returned to the person or persons making the same within five (5) days after the contract shall be executed and delivered. The deposit of the successful bidder will be returned when the contract is executed and its provisions in respect of the bond or deposit are complied with.

The right to reject any and all bids is reserved.

PUBLIC SERVICE COMMISSION OF THE FIRST DISTRICT, By EDWARD E. McCALL, Chairman.

TRAVIS H. WHITNEY, Secretary. n5,28

INVITATION TO CONTRACTORS.

PART OF THE WHITE PLAINS ROAD, RAPID TRANSIT RAILROAD.

The Public Service Commission for the First District (hereinafter called "the Commission") invites proposals to construct Section No. 2 of Route 18, a part of the Seventh Avenue-Lexington Avenue Rapid Transit Railroad.

The points within The City of New York between which the said part is to run and the route or routes to be followed are briefly as follows:

Section No. 2. Beginning at a point in White Plains Road, in the Borough of The Bronx, about two hundred and eighty-five (285) feet north of the centre line of Burke avenue and extending thence northerly along and over White Plains road to a point about one hundred and forty-five (145) feet north of the centre line of East 241st street.

The general plan of construction calls for an elevated railroad. The details of the construction of the railroad and appurtenances are more particularly indicated on the contract drawings.

Bidders will not be required to provide or lay any tracks or ties, nor do station finish work.

The work of construction under the contract will include the construction of all necessary sewers and connections, along or off the route of

the railroad; also the necessary support, maintenance, readjustment and reconstruction of vaults adjacent to buildings, pipes, tubes, conduits, subways or other subsurface structures; the support and care, including underpinning or the maintaining, protecting and securing where necessary, of all buildings, monuments, surface railroads and other surface, subsurface and overhead structures of any kind, etc., affected by or interfered with during the construction of the work; also the restoration of the sidewalks and roadways.

Bidders must examine the form of contract and the specifications, maps and plans; must visit the location of the work and inform themselves of the present conditions along the line thereof and make their own estimates of the facilities and difficulties attending the execution of the proposed work.

A fuller description of the work to be done is set forth, and other requirements, provisions, details and specifications are stated, in the printed form of contract and in the contract drawings therein referred to. Printed copies of the form of contract, bond and contractor's proposal may be had on application at the office of the Commission, No. 154 Nassau street, Borough of Manhattan, City of New York. The contract drawings may be inspected at the same office, and copies thereof may be purchased by prospective bidders on payment of five dollars ($5). The printed form of contract and the contract drawings are to be deemed a part of this invitation.

The City and the Interborough Rapid Transit Company will both be parties to the contract; the Interborough Rapid Transit Company being a party for the purpose of disbursing part of its contribution toward the cost of construction as provided in the contract dated March 19, 1913, between The City of New York, acting by the Commission, and Interborough Rapid Transit Company for the equipment, maintenance and operation of additional rapid transit railroads. The liability of Interborough Rapid Transit Company under the contract for which bids are now invited will be limited to an amount equal to ninety-five (95) per centum of the aggregate sum arrived at by multiplying the estimated approximate quantities by the unit prices as contained in the schedule of unit prices in the contractor's proposal. The contractor is to accept the obligation of the Interborough Rapid Transit Company to make payments to the amount and in the manner provided in the contract and is to agree not to look to the City except to the extent that the amounts earned under the contract may exceed the amount for which the Interborough Rapid Transit Company is liable.

Partial payments to the contractor will be made monthly as the work proceeds as provided in the form of contract.

The contractor will be required to complete the work as soon as practicable and within a period of eighteen (18) months from the date of the delivery of the contract.

Sealed bids or proposals will be received at the office of the Commission at No. 154 Nassau street, Borough of Manhattan, City of New York, until the 26th day of November, 1913, at twelve fifteen (12.15) o'clock p. m., at which time, or at a later date to be fixed by the Commission, the proposals will be publicly opened.

Proposals must be in the form prescribed by the Commission, copies of which may be obtained at the office of the Commission.

A statement based upon estimate of the Engineer, of the quantities of the various classes of the work and of the nature and extent as near as practicable of the work required is to be found in the schedule forming a part of the form of contractor's proposal. The quantities given in such schedule are approximate only, being given as a basis for the uniform comparison of bids, and no claim is to be made against the City on account of any excess or deficiency, absolute or relative, in the same, except as provided in the specifications and form of contract.

All proposals must, when submitted, be enclosed in a sealed envelope endorsed "*Proposals for Constructing Part of Rapid Transit Railroad —Route No.* 18, *Section No.* 2," and must be delivered to the Commission or its Secretary; and in the presence of the person submitting the proposal, it will be deposited in a sealed box in which all proposals will be deposited. No proposal will be received or deposited unless accompanied by a separate certified check drawn upon a national or state bank or trust company having its principal office in The City of New York, satisfactory to the Commission and payable to the order of the Comptroller of The City of New York for the sum of fifteen thousand ($15,000) dollars. Such check must not be enclosed in the envelope containing the proposal.

The Unit Prices must not be improperly balanced, and any bid which the Commission considers detrimental to the City's interests may be rejected.

No proposal, after it shall have been deposited with the Commission, will be allowed to be withdrawn for any reason whatever.

The award of the contract will be made by the Commission as soon as practicable after the opening of the proposals.

Bidders whose proposals are otherwise satisfactory, in case the sureties or securities named by them are not approved by the Commission, may substitute in their proposals the names of other sureties or securities approved by the Commission, but such substitution must be made within five (5) days after notice of disapproval, unless such period is extended by the Commission.

A bidder whose proposal shall be accepted shall, in person or by duly authorized representative, attend at the said office of the Commission with ten (10) days after the delivery of a notice by the Commission that his proposal is accepted and that the contract is consented to by the Board of Estimate and Apportionment, and such bidder shall then deliver a contract in the form referred to, duly executed and with its execution duly proved.

At the time of the delivery of the contract, the contractor will be required to furnish security to the City by giving a bond for one hundred thousand ($100,000) dollars. At the option of the successful bidder cash or approved securities may be deposited instead of giving a bond. If securities are deposited in place of a bond under the contract, they must be of the character of securities in which savings banks may invest their funds and must be approved by the Commission.

The contractor's bond must be in the form annexed to the form of contract.

In addition and as further security fifteen (15) per centum of the amounts certified from time to time to be due to the contractor will be deducted until the amounts so deducted and retained shall equal ten (10) per centum of the sum of the amounts resulting from the product of the estimated approximate quantities and the Unit Prices as contained in the schedule of unit prices in the contractor's proposal. Thereafter there shall be so deducted and retained for such purpose ten (10) per centum of the amounts certified from time to time to be due to the contractor. The contractor may from time to time withdraw portions of the amounts so retained upon depositing in lieu thereof corporate stock of The City of New York equal in market value to the amount so withdrawn.

In case of failure or neglect to execute and deliver the contract or to execute and deliver the required bond or to make the required deposit, such bidder will, at the option of the Commission, be deemed either to have made the contract or to have abandoned the contract. In the latter case, the Commission will give notice thereof to such defaulting bidder, and the Commission may thereupon proceed to make another contract with such, if any, of the original bidders, as, in the opinion of the Commission, it will be to the best interests of the City to contract with, or may by new advertisement invite further proposals. The defaulting bidder shall thereupon be liable to the City for all loss and damage by it sustained, including the excess, if any, of the amount it shall pay any other contractor over the amount of the bid of such defaulting bidder.

If the Commission shall give notice to any bidder that his or its proposal is accepted and that the contract is consented to by the Board of Estimate and Apportionment, and if the bidder shall fail within ten (10) days thereafter or within such further period, if any, as may be prescribed by the Commission, to execute and deliver the contract and to execute and deliver the bond with sureties, or to make the required deposit, then the Invitation to Contractors and proposal accepted as aforesaid shall be a contract binding the bidder to pay to the City the damage by it sustained by reason of such failure, and in such case the bidder shall, by the terms of the proposal, absolutely assign to the City the ownership of the check accompanying his or its proposal as a payment on account of such damages.

All such deposits made by bidders whose proposals shall not be accepted by the Commission will be returned to the person or persons making the same within five (5) days after the contract shall be executed and delivered. The deposit of the successful bidder will be returned when the contract is executed and its provisions in respect of the bond or deposit are complied with.

The right to reject any and all bids is reserved.

PUBLIC SERVICE COMMISSION FOR THE FIRST DISTRICT, By EDWARD E. McCALL, Chairman.

TRAVIS H. WHITNEY, Secretary. n5,26

INVITATION TO CONTRACTORS.

PART OF THE SEVENTH AVENUE-LEXINGTON AVENUE RAPID TRANSIT RAILROAD.

Part of Route No. 19 *and* 22.

The Public Service Commission for the First District (hereinafter called "the Commission") invites proposals to construct Section No. 1-A of Route 19 and 22, a part of the Seventh Avenue-Lexington Avenue Rapid Transit Railroad.

The points within The City of New York between which the said part is to run and the route or routes to be followed are briefly as follows:

Section 1-A. Beginning at a point under Southern boulevard in the Borough of The Bronx about two hundred and seventy (270) feet north of the northeast corner of East 147th street and extending thence northerly under Southern boulevard, Hunts Point road, the public park, Dongan street and Whitlock avenue to a point over Whitlock avenue about one hundred and thirty (130) feet south of the southerly building line of Bancroft street.

The general plan of construction calls for a subsurface and elevated railroad having three tracks. The details of the construction and appurtenances are more particularly indicated on the contract drawings.

Bidders will not be required to provide or lay tracks, ties, or ballast, nor to do station finish work.

The work of construction under the contract will include the construction of all necessary sewers and connections, along or off the route of the railroad; also the necessary support, maintenance, readjustment and reconstruction of vaults adjacent to buildings, pipes, tubes, conduits, subways or other subsurface structures; the support and care, including underpinning or the maintaining, protecting and securing where necessary, of all buildings, monuments, surface railroads and other surface, subsurface and overhead structures of any kind, etc., affected by or interfered with during the construction of the work; also the restoration of the sidewalks and roadways.

The method of construction, unless otherwise permitted by the Commission, will be partly by trench excavation under cover and partly by open trench excavation without cover as set forth in the form of contract.

Bidders must examine the form of contract and specifications, maps and plans; must visit the location of the work and inform themselves of the present conditions along the line thereof and make their own estimates of the facilities and difficulties attending the execution of the proposed work.

A fuller description of the work to be done is set forth, and other requirements, provisions, details and specifications are stated, in the printed form of contract and in the contract drawings therein referred to. Printed copies of the form of contract, bond and contractor's proposal may be had on application at the office of the Commission, No. 154 Nassau street, Borough of Manhattan, City of New York. The contract drawings may be inspected at the same office, and copies thereof may be purchased by prospective bidders on payment of five dollars ($5). The printed form of contract and the contract drawings are to be deemed a part of this invitation.

The City and the Interborough Rapid Transit Company will both be parties to the contract; the Interborough Rapid Transit Company being a party for the purpose of disbursing part of its contribution toward the cost of construction as provided in the contract dated March 19, 1913, between The City of New York, acting by the Commission, and Interborough Rapid Transit for the equipment, maintenance and operation of additional rapid transit railroads. The liability of Interborough Rapid Transit Company under the contract for which bids are now invited will be limited to an amount equal to ninety-five per centum (95%) of the aggregate sum arrived at by multiplying the estimated approximate quantities by the UNIT PRICES as contained in the SCHEDULE OF UNIT PRICES in the contractor's proposal. The contractor is to accept the obligation of the Interborough Rapid Transit Company to make payments to the amount and in the manner provided in the contract and is to agree not to look to the City except to the extent that the amounts earned under the contract may exceed the amount for which the Interborough Rapid Transit Company is liable.

Partial payments to the contractor will be made monthly as the work proceeds as provided in the form of contract.

The contractor will be required to complete the work as soon as practicable and within a period of thirty (30) months from the date of the delivery of the contract.

Sealed bids or proposals will be received at the office of the Commission at No. 154 Nassau street, Borough of Manhattan, City of New York, until the 1st day of December, 1913, at twelve fifteen (12.15) o'clock p. m., at which time, or at a later date to be fixed by the Commission, the proposals will be publicly opened.

Proposals must be in the form prescribed by the Commission, copies of which may be obtained at the office of the Commission.

A statement based upon estimate of the Engineer, of the quantities of the various classes of the work and of the nature and extent as near as practicable of the work required is to be found in the schedule forming a part of the form of contractor's proposal. The quantities given in such schedule are approximate only, being given as a basis for the uniform comparison of bids, and no claim is to be made against the City on account of any excess or deficiency, absolute or relative, in the same, except as provided in the specifications and form of contract.

All proposals must, when submitted, be enclosed in a sealed envelope endorsed "*Proposals for Constructing Part of Rapid Transit Railroad —Route No.* 19 *and* 22, *Section No.* 1-*A*," and must be delivered to the Commission or its Secretary; and in the presence of the person submitting the proposal it will be deposited in a sealed box in which all proposals will be deposited. No proposal will be received or deposited unless accompanied by a separate certified check drawn upon a national or state bank or trust company having its principal office in The City of New York, satisfactory to the Commission and payable to the order of the Comptroller of The City of New York for the sum of fifteen thousand ($15,000) dollars. Such check must not be enclosed in the envelope containing the proposal.

The Unit Prices must not be improperly balanced, and any bid which the Commission considers detrimental to the City's interests may be rejected.

No proposal, after it shall have been deposited with the Commission, will be allowed to be withdrawn for any reason whatever.

The award of the contract will be made by the Commission as soon as practicable after the opening of the proposals.

Bidders whose proposals are otherwise satisfactory, in case the sureties or securities named by them are not approved by the Commission, may substitute in their proposals the names of other sureties or securities approved by the Commission, but such substitution must be made within five (5) days after notice of disapproval, unless such period is extended by the Commission.

A bidder whose proposal shall be accepted shall, in person or by duly authorized representative, attend at the said office of the Commission within ten (10) days after the delivery of a notice by the Commission that his proposal is accepted and that the contract is consented to by the Board of Estimate and Apportionment, and such bidder shall then deliver a contract in the form referred to, duly executed and with its execution duly proved.

At the time of the delivery of the contract, the contractor will be required to furnish security to the City by giving a bond for one hundred and fifty thousand ($150,000) dollars. At the option of the successful bidder cash or approved securities may be deposited instead of giving a bond. If securities are deposited in place of a bond under the contract, they must be of the character of securities in which savings banks may invest their funds and must be approved by the Commission.

The contractor's bond must be in the form annexed to the form of contract.

In addition and as further security fifteen (15) per centum of the amounts certified from time to time to be due to the contractor will be deducted until the amounts so deducted and retained shall equal ten (10) per centum of the sum of the amounts resulting from the product of the estimated approximate quantities and the Unit Prices as contained in the schedule of unit prices in the contractor's proposal. Thereafter there shall be so deducted and retained for such purpose ten (10) per centum of the amounts certified from time to time to be due to the contractor. The contractor may from time to time withdraw portions of the amounts so retained upon depositing in lieu thereof corporate stock of The City of New York equal in market value to the amount so withdrawn.

In case of failure or neglect to execute and deliver the contract or to execute and deliver the required bond or to make the required deposit, such bidder will, at the option of the Commission, be deemed either to have made the contract or to have abandoned the contract. In the latter case, the Commission will give notice thereof to such defaulting bidder, and the Commission may thereupon proceed to make another contract with such, if any, of the original bidders, as, in the opinion of the Commission, it will be to the best interests of the City to contract with, or may by new advertisement invite further proposals. The defaulting bidder shall thereupon be liable to the City for all loss and damage by it sustained, including the excess, if any, of the amount it shall pay any other contractor over the amount of the bid of such defaulting bidder.

If the Commission shall give notice to any bidder that his or its proposal is accepted and that the contract is consented to by the Board of Estimate and Apportionment, and if the bidder shall fail within ten (10) days thereafter or within such further period, if any, as may be prescribed by the Commission, to execute and deliver the contract and to execute and deliver the bond with sureties, or to make the required deposit, then the Invitation to Contractors and proposal accepted as aforesaid shall be a contract binding the bidder to pay to the City the damage by it sustained by reason of such failure, and in such case the bidder shall, by the terms of the proposal, absolutely assign to the City the ownership of the check accompanying his or its proposal as a payment on account of such damages.

All such deposits made by bidders whose proposals shall not be accepted by the Commission will be returned to the person or persons making the same within five (5) days after the contract shall be executed and delivered. The deposit of the successful bidder will be returned when the contract is executed and its provisions in respect of the bond or deposit are complied with.

The right to reject any and all bids is reserved.

PUBLIC SERVICE COMMISSION OF THE FIRST DISTRICT, By EDWARD E. McCALL, Chairman.

TRAVIS H. WHITNEY, Secretary. n5,d1

INVITATION TO CONTRACTORS.

PART OF THE BROADWAY-FOURTH AVENUE RAPID TRANSIT RAILROAD.

THE PUBLIC SERVICE COMMISSION FOR the First District (hereinafter called "the Commission") invites proposals to construct Section No. 2 of Route No. 39, a part of the Broadway-Fourth Avenue Rapid Transit Railroad.

The points within The City of New York between which the said part is to run and the route or routes to be followed are briefly as follows:

Section No. 2—Beginning at a point near the intersection of 10th ave. and 39th st., in the Borough of Brooklyn, and extending thence southwesterly over and along 10th ave. to New Utrecht ave., thence southerly over and along New Ufrecht ave. to a point therein at or near 81st st., and thence extending southerly over private property, 84th st., private property, 18th ave., private property, 85th st., private property and 86th st. to a point in 86th st. near 19th ave.; thence southeasterly over and along 86th st. to a point at or near the intersection of 86th st. with Bay 41st st., thence curving southeasterly into Stillwell ave.; continuing thence along and over Stillwell ave. to a point about one hundred and fifty (150) feet north of the centre line of Avenue Y, where a connection may be made with a railroad which will be provided and kept available for use by the New York Municipal Railway Corporation.

The general plan of construction calls for an elevated railroad. The details of the construction of the railroad and appurtenances are more particularly indicated on the contract drawings.

Bidders will not be required to provide or lay tracks or ties, nor to do station finish work.

The work of construction under the contract will include the construction of all necessary sewers and connections along or off the route of the railroad; also the necessary support, maintenance, readjustment and reconstruction of vaults adjacent to buildings, pipes, tubes, conduits, subways or other subsurface structures; the support and care of all buildings, monuments, surface railroads and other surface, subsurface and overhead structures of any kind, etc., affected by or interfered with during the construction of the work; also the restoration of the sidewalks and roadways.

Bidders must examine the form of contract and the specifications, maps and plans; must visit the location of the work and inform themselves of the present conditions along the line thereof, and make their own estimates of the facilities and difficulties attending the execution of the proposed work.

A fuller description of the work to be done is set forth, and other requirements, provisions, details and specifications are stated, in the printed form of contract and in the contract drawings therein referred to. Printed copies of the form of contract, bond and contractor's proposal may be had on application at the office of the Commission, No. 154 Nassau st., Borough of Manhattan, City of New York. The contract drawings may be inspected at the same office, and copies thereof may be purchased by prospective bidders on payment of five dollars ($5). The printed form of contract and the contract drawings are to be deemed a part of this invitation.

Partial payments to the Contractor will be made monthly as the work proceeds, as provided in the form of contract.

The Contractor will be required to complete the work as soon as practicable and within a period of eighteen (18) months from the date of the delivery of the contract.

Sealed bids or proposals will be received at the office of the Commission at No. 154 Nassau street, Borough of Manhattan, City of New York, until the 21st day of November, 1913, at twelve fifteen (12.15) o'clock p. m., at which time, or at a later date to be fixed by the Commission, the proposals will be publicly opened.

Proposals must be in the form prescribed by the Commission, copies of which may be obtained at the office of the Commission.

A statement based upon estimate of the Engineer, of the quantities of the various classes of the work and of the nature and extent as near as practicable of the work required is to be found in the schedule forming a part of the form of contractor's proposal. The quantities given in such schedule are approximate only, being given as a basis for the uniform comparison of bids, and no claim is to be made against the City on account of any excess or deficiency, absolute or relative, in the same, except as provided in the specifications and form of contract.

All proposals must, when submitted, be inclosed in a sealed envelope endorsed "*Proposals for Constructing Part of Rapid Transit Railroad —Route No.* 39, *Section No.* 2," and must be delivered to the Commission or its Secretary; and in the presence of the person submitting the proposal, it will be deposited in a sealed box in which all proposals will be deposited. No proposal will be received or deposited unless accompanied by a separate certified check drawn upon a national or state bank or trust company having its principal office in The City of New York, satisfactory to the Commission and payable to the order of the Comptroller of The City of New York, for the sum of fifteen thousand dollars ($15,000). Such check must not be enclosed in the envelope containing the proposal.

The unit prices must not be improperly balanced, and any bid which the Commission considers detrimental to the City's interests may be rejected.

No proposal, after it shall have been deposited with the Commission, will be allowed to be withdrawn for any reason whatever.

The award of the contract will be made by the Commission as soon as practicable after the opening of the proposals.

Bidders whose proposals are otherwise satisfactory, in case the sureties or securities named by them are not approved by the Commission, may substitute in their proposals the names of other surities or securities approved by the Commission, but such substitution must be made within five (5) days after notice of disapproval, unless such period is extended by the Commission.

A bidder whose proposal shall be accepted shall, in person or by duly authorized representative, attend at the said office of the Commission within ten (10) days after the delivery of a notice by the Commission that his proposal is accepted and that the contract is consented to by the Board of Estimate and Apportionment, and such bidder shall then deliver the contract in the form referred to, duly executed and with its execution duly proved.

At the time of the delivery of the contract the Contractor will be required to furnish security to the City by giving a bond for one hundred thousand dollars ($100,000). At the option of the successful bidder, cash or approved securities may be deposited instead of giving a bond. If securities are deposited in place of a bond under the contract, they must be of the character of securities in which savings banks may invest their funds, and must be approved by the Commission.

The Contractor's bond must be in the form annexed to the form of contract.

In addition and as further security, fifteen (15) per centum of the amounts certified from time to time to be due to the Contractor will be deducted until the amounts so deducted and retained shall equal ten (10) per centum of the sum of the amounts resulting from the product of the estimated approximate quantities and the unit prices as contained in the schedule of unit prices in the contractor's proposal. Thereafter there shall be so deducted and retained for such purpose ten (10) per centum of the amounts certified from time to time to be due to the Contractor. The Contractor may from time to time withdraw portions of the amounts so retained upon depositing in lieu thereof corporate stock of The City of New York equal in market value to the amount so withdrawn.

In case of failure or neglect to execute and deliver the contract or to execute and deliver the required bond or to make the required deposit, such bidder will, at the option of the Commission, be deemed either to have made the contract or to have abandoned the contract. In the latter case, the Commission will give notice thereof to such defaulting bidder, and the Commission may thereupon proceed to make another contract with such, if any, of the original bidders, as, in the opinion of the Commission, it will

be to the best interests of the City to contract with, or may by new advertisement invite further proposals. The defaulting bidder shall thereupon be liable to the City for all loss and damage by it sustained, including the excess, if any, of the amount it shall pay any other contractor over the amount of the bid of such defaulting bidder.

If the Commission shall give notice to any bidder that his or its proposal is accepted and that the contract is consented to by the Board of Estimate and Apportionment, and if the bidder shall fail within ten (10) days thereafter or within such further period, if any, as may be prescribed by the Commission, to execute and deliver the contract and to execute and deliver the bond with sureties, or to make the required deposit, then the invitation to contractors and proposal accepted as aforesaid shall be a contract binding the bidder to pay to the City the damage by it sustained by reason of such failure, and in such case the bidder shall, by the terms of the proposal, absolutely assign to the City the ownership of the check accompanying his or its proposal as a payment on account of such damage.

All such deposits made by bidders whose proposals shall not be accepted by the Commission will be returned to the person or persons making the same within five (5) days after the contract shall be executed and delivered. The deposit of the successful bidder will be returned when the contract is executed and its provisions in respect of the bond or deposit are complied with.

The right to reject any and all bids is reserved.

PUBLIC SERVICE COMMISSION FOR THE FIRST DISTRICT. By EDWARD E. McCALL, Chairman.

TRAVIS H. WHITNEY, Secretary. o31,n21

INVITATION TO CONTRACTORS.

PART OF THE STEINWAY TUNNEL RAPID TRANSIT RAILROAD.

THE PUBLIC SERVICE COMMISSION FOR the First District (hereinafter called "the Commission") invites proposals to construct Route 50, a part of the Steinway Tunnel Rapid Transit Railroad.

The points within the City of New York between which the said part is to run and the route or routes to be followed are briefly as follows:

Lying wholly in the Borough of Queens and beginning at a point in 4th st., west of Van Alst ave., at about the portal of the present Steinway Tunnel and extending thence in a general easterly direction through private property, intervening streets and the North Shore Yard of the Long Island Railroad to about Davis st., thence extending in a general northerly direction through Davis st. and Ely ave. to the easterly approach to the Queensboro Bridge, where a connection may be made with Section No. 1 of Route Nos. 36 and 37.

The general plan of construction calls for a subsurface and elevated railroad having two tracks. The details of the construction of the railroad and appurtenances are more particularly indicated on the contract drawings.

Bidders will not be required to provide or lay tracks, ties or ballast, nor to do station finish work.

The work of construction under the contract will include the construction of all necessary sewers and connections along the route of the railroad; also the necessary support, maintenance, readjustment and reconstruction of vaults adjacent to buildings, pipes, tubes, conduits, subways or other subsurface structures; the support and care, including underpinning or the maintaining, protecting and securing where necessary, of all buildings, monuments, surface and subsurface railroads and other surface, subsurface and overhead structures of any kind, etc., affected by or interfered with during the construction of the work; also the restoration of the sidewalks and roadways.

The method of construction for the subsurface portion of the railroad will be by open trench excavation without cover, as set forth in the contract and specifications.

Bidders must examine the form of contract and the specifications, maps and plans; must visit the location of the work and inform themselves of the present conditions along the line thereof, and make their own estimates of the facilities and difficulties attending the execution of the proposed work.

A fuller description of the work to be done is set forth and other requirements, provisions, details and specifications are stated in the printed form of contract and in the contract drawings therein referred to. Printed copies of the form of contract, bond and contractor's proposal may be had on application at the office of the Commission, No. 154 Nassau st., Borough of Manhattan, City of New York. The contract drawings may be inspected at the same office and copies thereof may be purchased by prospective bidders on payment of five dollars ($5). The printed form of contract and the contract drawings are to be deemed a part of this invitation.

The City and Interborough Rapid Transit Company will both be parties to the contract; the Interborough Rapid Transit Company being a party for the purpose of disbursing part of its contribution toward the cost of construction, as provided in the contract dated March 19, 1913, between The City of New York, acting by the Commission, and Interborough Rapid Transit Company for the equipment, maintenance and operation of additional rapid transit railroads. The liability of Interborough Rapid Transit Company under the contract for which bids are now invited will be limited to an amount equal to ninety-five (95) per cent. of the aggregate sum arrived at by multiplying the estimated quantities by the unit prices

Partial payments to the Contractor will be made monthly as the work proceeds, as provided in the form of contract.

The Contractor will be required to complete the work as soon as practicable and within a period of eighteen (18) months from the date of the delivery of this contract.

Sealed bids or proposals will be received at the office of the Commission at No. 154 Nassau street, Borough of Manhattan, City of New York, until the 18th day of November, 1913, at twelve fifteen (12.15) o'clock p. m., at which time, or at a later date to be fixed by the Commission, the proposals will be publicly opened.

Proposals must be in the form prescribed by the Commission, copies of which may be obtained at the office of the Commission.

A statement based upon estimate of the Engineer of the quantities of the various classes of the work and of the nature and extent as near as practicable of the work required is to be found in the schedule forming a part of the form of Contractor's Proposal. The quantities given in such schedule are approximate only, being given as a basis for the uniform comparison of bids and no claim is to be made against the City on account of any excess or deficiency, absolute or relative, in the same, except as provided in the specifications and form of contract.

All proposals must, when submitted, be enclosed in a sealed envelope endorsed *"Proposal for Constructing Part of Rapid Transit Railroad—Route No.* 50," and must be delivered to the Commission or its Secretary; and in the presence of the person submitting the proposal it will be deposited in a sealed box in which all proposals will be deposited. No proposal will be received or deposited unless accompanied by a separate certified check drawn upon a national or State bank or trust company having its principal office in The City of New York, satisfactory to the Commission and payable to the order of the Comptroller of The City of New York for the sum of fifteen thousand dollars ($15,000). Such check must not be enclosed in the envelope containing the proposal.

The Unit Prices must not be improperly balanced, and any bid which the Commission considers detrimental to the City's interests may be rejected.

No proposal, after it shall have been deposited with the Commission, will be allowed to be withdrawn for any reason whatever.

The award of the contract will be made by the Commission as soon as practicable after the opening of the proposals.

Bidders whose proposals are otherwise satisfactory, in case the sureties or securities named by them are not approved by the Commission, may substitute in their proposals the names of other sureties or securities approved by the Commission, but such substitution must be made within five (5) days after notice of disapproval, unless such period is extended by the Commission.

A bidder whose proposal shall be accepted shall, in person or by duly authorized representative, attend at the said office of the Commission within ten days after the delivery of a notice by the Commission that his proposal is accepted and that the contract is consented to by the Board of Estimate and Apportionment, and such bidder shall then deliver a contract in the form referred to, duly executed and with its execution duly proved.

At the time of the delivery of the contract the Contractor will be required to furnish security to the City by giving a bond for fifty thousand dollars ($50,000). At the option of the successful bidder cash or approved securities may be deposited instead of giving a bond. If securities are deposited in place of a bond under this contract they must be of the character of securities in which savings banks may invest their funds and must be approved by the Commission.

The Contractor's bond must be in the form annexed to the form of contract.

In addition and as further security fifteen (15) per centum of the amounts certified from time to time to be due to the Contractor will be deducted until the amounts so deducted and retained shall equal ten (10) per centum of the sum of the amounts resulting from the product of the estimated approximate quantities and the Unit Prices as contained in the Schedule of Unit Prices in the Contractor's Proposal. Thereafter there shall be so deducted and retained for such purpose ten (10) per centum of the amounts certified from time to time to be due to the Contractor. The Contractor may from time to time withdraw portions of the amounts so retained upon depositing in lieu thereof corporate stock of The City of New York equal in market value to the amount so withdrawn.

In case of failure or neglect to execute and deliver the contract or to execute and deliver the required bond or to make the required deposit, such bidder will, at the option of the Commission, be deemed either to have made the contract or to have abandoned the contract. In the latter case the Commission will give notice thereof to such defaulting bidder, and the Commission may thereupon proceed to make another contract with such, if any, of the original bidders, as, in the opinion of the Commission, it will be to the best interests of the City to contract with, or may by new advertisement invite further proposals. The defaulting bidder shall thereupon be liable to the City for all loss and damage by it sustained, including the excess, if any, of the amount it shall pay any other Contractor over the amount of the bid of such defaulting bidder.

If the Commission shall give notice to any bidder that his or its proposal is accepted and that the contract is consented to by the Board of Estimate and Apportionment, and if the bidder shall fail within ten days thereafter or within such further period, if any, as may be prescribed by the Commission, to execute and deliver the contract and to execute and deliver the bond with sureties, or to make the required deposit, then the Invitation to Contractors and proposal accepted as aforesaid shall be a contract binding the bidder to pay to the City the damage by it sustained by reason of such failure, and in such case the bidder shall, by the terms of the proposal, absolutely assign to the City the ownership of the check accompanying his or its proposal as a payment on account of such damages.

All such deposits made by bidders whose proposals shall not be accepted by the Commission will be returned to the person or persons making the same within five days after the contract shall be executed and delivered. The deposit of the successful bidder will be returned when the contract is executed and its provisions in respect to the bond or deposit are complied with.

The right to reject any and all bids is reserved.

NOTICE IS HEREBY GIVEN THAT AT THE meeting of the Board of Estimate and Apportionment held on October 23, 1913, the following resolutions were adopted:

Whereas, The Board of Estimate and Apportionment of The City of New York is considering the advisability of instituting proceedings to acquire title to the lands and premises required for the opening and extending of Sherman street, from Terrace place to Seeley street, in the Borough of Brooklyn, City of New York; and

Whereas, The Board of Estimate and Apportionment is authorized and required at the time of the adoption of the resolution directing the institution of proceedings to acquire title to the lands required for the foregoing improvement to fix and determine upon an area or areas of assessment for benefit for said proceeding.

Resolved, That the Board of Estimate and Apportionment, in pursuance of the provisions of section 980 of the Greater New York Charter, hereby gives notice that the following is the proposed area of assessment for benefit in this proceeding:

Beginning at a point on the southerly line of Terrace place where it is intersected by a line bisecting the angle formed by the intersection of the prolongations of the easterly line of Prospect avenue and the westerly line of Sherman street as these streets are laid out between Seeley street and Terrace place, and running thence northwardly at right angles to Terrace place to a point distant 100 feet northerly from its northerly side; thence eastwardly and parallel with Terrace place to the intersection with the prolongation of a line distant 100 feet easterly from and parallel with the easterly line of Sherman street as this street is laid out where it meets Seeley street, the said distance being measured at right angles to Sherman street; thence southwardly along the said line parallel with Sherman street and along the prolongations of the said line to the intersection with a line distant 100 feet southerly from and parallel with the southerly line of Seeley street, the said distance being measured at right angles to Seeley street; thence westwardly along the said line parallel with Seeley street to the intersection with a line at right angles to Seeley street and passing through a point on its northerly side where it is intersected by a line bisecting the angle formed by the intersection of the prolongations of the easterly line of Prospect avenue and the westerly line of Sherman street as these streets are laid out between Terrace place and Seeley street; thence northwardly along the said line at right angles to Seeley street to the intersection with its northerly line; thence northwardly along the said bisecting line to the point or place of beginning.

Resolved, That this Board consider the proposed area of assessment at a meeting of the Board to be held in The City of New York, Borough of Manhattan, in the City Hall, on the 20th day of November, 1913, at 10.30 a. m., and that at the same time and place a public hearing thereon will then and there be had.

Resolved, That the Secretary of this Board cause these resolutions and a notice to all persons affected thereby to be published in the CITY RECORD and the corporation newspapers for ten days prior to the 20th day of November, 1913.

Dated November 7, 1913.

NOTICE IS HEREBY GIVEN THAT AT THE meeting of the Board of Estimate and Apportionment held on October 23, 1913, the following resolutions were adopted:

Whereas, The Board of Estimate and Apportionment of The City of New York is considering the advisability of instituting proceedings to acquire title to the lands and premises required for the opening and extending of Debevoise avenue, from Beadel street to a point about 75 feet north of Withers street, in the Borough of Brooklyn, City of New York; and

Whereas, The Board of Estimate and Apportionment is authorized and required at the time of the adoption of the resolution directing the institution of proceedings to acquire title to the lands required for the foregoing improvement to fix and determine upon an area or areas of assessment for benefit for said proceeding.

Resolved, That the Board of Estimate and Apportionment, in pursuance of the provisions of section 980 of the Greater New York Charter, hereby gives notice that the following is the proposed area of assessment for benefit in this proceeding:

Bounded on the north by a line midway between Lombardy street and Beadel street; on the east by a line midway between Debevoise avenue and Morgan avenue and by the prolongation of the said line; on the south by a line midway between Frost street and Withers street; and on the west by a line bisecting the angle formed by the intersection of the prolongations of the easterly line of Kingsland avenue and the westerly line of Debevoise avenue as these streets are laid out between Frost street and Withers street.

Resolved, That this Board consider the proposed area of assessment at a meeting of the Board to be held in The City of New York, Borough of Manhattan, in the City Hall, on the 20th day of November, 1913, at 10.30 a. m., and that at the same time and place a public hearing thereon will then and there be had.

Resolved, That the Secretary of this Board cause these resolutions and a notice to all persons affected thereby to be published in the CITY RECORD and the corporation newspapers for ten days prior to the 20th day of November, 1913.

NOTICE IS HEREBY GIVEN THAT AT THE meeting of the Board of Estimate and Apportionment held on October 23, 1913, the following resolutions were adopted:

Whereas, The Board of Estimate and Apportionment of The City of New York on May 3, 1907, instituted a proceeding for acquiring title to Buck street, from Zerega avenue to Seddon street; Lyvere street, from Zerega avenue to West Farms road; Fuller street, from Zerega avenue to Seddon street; Maclay avenue, from Parker street to West Farms road; Stearns street, from Glover street to Parker street; and Dorsey street, from Zerega avenue to Seddon street, Borough of The Bronx, and directed that the entire cost and expense of the proceeding be assessed upon an area described in the resolution authorizing the proceeding, and which proceeding was amended on May 4, 1911, so as to relate to the foregoing streets as shown upon a map or plan adopted by the Board of Estimate and Apportionment March 23, 1911, and approved by the Mayor March 30, 1911; and

Whereas, The Board of Estimate and Apportionment is considering the advisability of reconsidering its action with respect to the distribution of the cost and expense of the aforesaid proceeding and of making a new determination therein by placing ten (10) per cent. of the entire cost and expense of acquiring title to Maclay avenue, from Parker street to West Farms road, upon the Borough of The Bronx; this relief to apply to property having a frontage upon said Maclay avenue;

Resolved, That the Board of Estimate and Apportionment will hold a public hearing in Room 16, City Hall, Borough of Manhattan, City of New York, on Thursday, November 20, 1913, at 10.30 o'clock a. m., at which all persons interested will be given an opportunity to be heard upon the proposed reconsideration and redetermination concerning the distribution of the cost and expense of the aforesaid proceeding so as to place ten (10) per cent. of the expense involved in acquiring title to Maclay avenue, from Parker street to West Farms road, upon the Borough of The Bronx; this relief to apply to property having a frontage upon said Maclay avenue;

Resolved, That the Secretary of this Board cause these resolutions and a notice to all persons affected thereby to be published in the CITY RECORD for ten days continuously, Sundays and legal holidays excepted, prior to the 20th day of November, 1913.

NOTICE IS HEREBY GIVEN THAT AT THE meeting of the Board of Estimate and Apportionment held on October 23, 1913, the following resolutions were adopted:

Whereas, The Board of Estimate and Apportionment of The City of New York on June 18, 1909, instituted a proceeding for acquiring title to Mary street, from Flushing avenue to the northerly property line of the Long Island

Railroad, and from the southerly property line of the Long Island Railroad to Metropolitan avenue, Borough of Queens, which proceeding was amended on June 15, 1911, so as to relate to Mary street, as shown upon a map or plan adopted by the Board of Estimate and Apportionment April 20, 1911, and approved by the Mayor April 28, 1911; and

Whereas, The Board is considering the advisability of further amending the said proceeding so as to conform to a map or plan adopted by the Board of Estimate and Apportionment July 10, 1913, and approved by the Mayor July 21, 1913, under which a further change was made in the lines of Mary street, at the Long Island Railroad; the proceeding as amended providing for the acquisition of title to Mary street, from Flushing avenue to Metropolitan avenue, as now laid out;

Resolved, That the Board of Estimate and Apportionment, in pursuance of the provisions of the Greater New York Charter, as amended, hereby gives notice that the following is the proposed area of assessment for benefit in this proposed amended proceeding:

Beginning at a point on the southerly line of Flushing avenue where it is intersected by a line midway between Mary street and Clermont avenue and running thence southwardly along the said line midway between Mary street and Clermont avenue and along the prolongation of the said line to the intersection with a line midway between Hebberd avenue and Mount Olivet avenue; thence eastwardly along the said line midway between Hebberd avenue and Mount Olivet avenue to the intersection with the prolongation of a line midway between Mary street and Fresh Pond road as these streets are laid out between Pacific street and Baltic street; thence southwardly along the said line midway between Mary street and Fresh Pond road and along the prolongations of the said line to the intersection with a line midway between Adriatic street and Arctic street; thence westwardly along the said line midway between Adriatic street and Arctic street to the intersection with the prolongation of a line midway between Mary street and Gage place; thence southwardly along the said line midway between Mary street and Gage place and along the prolongations of the said line to the intersection with the southerly right of way line of the Montauk Division of the Long Island Railroad; thence eastwardly along the said right of way line to the intersection with a line at right angles to Metropolitan avenue and passing through a point on its northerly side midway between Mary street and Fresh Pond road; thence southwardly along the said line at right angles to Metropolitan avenue to a point distant 100 feet southerly from its southerly side; thence westwardly and parallel with Metropolitan avenue to the intersection with a line at right angles to Metropolitan avenue and passing through a point on its northerly side distant 100 feet westerly from its intersection with the westerly line of Mary street; thence northwardly along the said line at right angles to Metropolitan avenue to the intersection with the southerly right of way line of the Montauk Division of the Long Island Railroad; thence westwardly along the said right of way line to the intersection with a line bisecting the angle formed by the intersection of the prolongations of the westerly line of Mary street and the easterly line of Collins avenue as these streets are laid out between Adriatic street and Baltic street; thence northwardly along the said bisecting line to the intersection with a line bisecting the angle formed by the intersection of the prolongations of the northerly line of Hebberd avenue and the southerly line of Hemlock place as these streets are laid out between Collins avenue and Mary street; thence eastwardly along the said bisecting line to the intersection with the prolongation of a line midway between Eva place and Mary street; thence northwardly along the said line midway between Eva place and Mary street and along the prolongations of the said line to the intersection with a line distant 100 feet northerly from and parallel with the northerly line of Flushing avenue, the said distance being measured at right angles to Flushing avenue; thence eastwardly along the said line parallel with Flushing avenue to the intersection with a line at right angles to Flushing avenue and passing through the point of beginning; thence southwardly along the said line at right angles to Flushing avenue to the point or place of beginning.

Resolved, That this Board consider the proposed area of assessment at a meeting of the Board to be held in The City of New York, Borough of Manhattan, in the City Hall, on the 20th day of November, 1913, at 10.30 a. m., and that at the same time and place a public hearing thereon will then and there be had.

SUPREME COURT — FIRST DEPARTMENT.

Filing Preliminary Abstracts.

FIRST DEPARTMENT.

In the matter of the application of The City of New York, relative to acquiring title, wherever the same has not been heretofore acquired for the same purpose in fee, to the lands, tenements and hereditaments required for the opening and extending of COTTAGE PLACE, from Crotona Park South to East One Hundred and Seventieth street, in the Twenty-third Ward, Borough of The Bronx, City of New York, as amended by an order of the Supreme Court, First Department, dated the 19th day of June, 1913, and entered in the office of the Clerk of the County of New York on the 23d day of June, 1913, so as to relate to Cottage place, between the aforesaid limits, as shown upon a map or plan adopted by the Board of Estimate and Apportionment on the 17th day of October, 1912, and approved by the Mayor on the 24th day of October, 1912.

NOTICE IS HEREBY GIVEN TO ALL PERsons interested in the above entitled proceeding, and to the owner or owners, occupant or occupants of all houses and lots and improved and unimproved lands affected thereby, and to all others whom it may concern, to wit:

First—That the undersigned, Commissioners of Estimate, have completed their estimate of damage, and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby, having any objection thereto, do file their said objections in writing, duly verified, with them, at their office, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in The City of New York, on or before the 5th day of December, 1913, and that the said Commissioners will hear parties so objecting, and for that purpose will be in attendance at their said office on the 8th day of December, 1913, at 2.30 o'clock p. m.

Second—That the undersigned, Commissioner of Assessment, has completed his estimate of benefit, and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby, having any objection thereto, do file their said objections in writing, duly verified, with him at his office, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in The City of New York, on or before the 5th day of December, 1913, and that the said Commissioner will hear parties so objecting, and for that purpose will be in attendance at his said office on the 9th day of December, 1913, at 2.30 o'clock p. m.

Third—That the Commissioner of Assessment has assessed any or all such lands, tenements and hereditaments and premises as are within the area of assessment fixed and prescribed as the amended area of assessment for benefit by the Board of Estimate and Apportionment on the 9th day of January, 1913, and that the said area of assessment includes all those lands, tenements and hereditaments and premises situate and being in the Borough of The Bronx, in The City of New York, which, taken together, are bounded and described as follows, viz.:

Bounded on the north by the southerly line of Crotona Park South; on the east by a line distant 100 feet easterly from and parallel with the easterly line of Cottage place, the said distance being measured at right angles to Cottage place; on the south by the northerly line of East One Hundred and Seventieth street; and on the west by a line distant 100 feet westerly from and parallel with the westerly line of Cottage place, the said distance being measured at right angles to Cottage place.

(The lines of Cottage place hereinbefore referred to are intended to be those as laid out upon the City map prior to October 17, 1912.)

Fourth—That the abstracts of said estimate of damage and of said assessment for benefit, together with the damage and benefit maps, and also all the affidavits, estimates, proofs and other documents used by the Commissioners of Estimate and by the Commissioner of Assessment in making the same, have been deposited in the Bureau of Street Openings in the Law Department of The City of New York, Nos. 90 and 92 West Broadway, in the Borough of Manhattan, in said City, there to remain until the 8th day of December, 1913.

Fifth—That, provided there be no objections filed to either of said abstracts, the reports as to awards and as to assessments for benefit herein will be presented for confirmation to the Supreme Coort of the State of New York, First Department, at a Special Term thereof, Part III, to be held in the County Court House in the Borough of Manhattan, in The City of New York, on the 15th day of January, 1914, at the opening of the Court on that day.

Sixth—In case, however, objections are filed to the foregoing abstracts of estimate and assessment, or to either of them, the motion to confirm the reports as to awards and as to assessments shall stand adjourned to the date to be hereafter specified in the notice provided in such cases to be given in relation to filing the final reports, pursuant to sections 981 and 984 of the Greater New York Charter, as amended by chapter 658 of the Laws of 1906.

Dated Borough of Manhattan, New York, November 12, 1913.

JAMES F. DONNELLY, Chairman; WILLIAM CARL, JAMES J. McMAHON, Commissioners of Estimate; JAMES F. DONNELLY, Commissioner of Assessment.

—as amended by a map altering the street lines and grades in the territory bounded by Beaufort avenue, Hamilton avenue, Liberty avenue and Oxford avenue, approved by the Board of Estimate and Apportionment April 3, 1913, by the Mayor April 11, 1913, copies of which were filed at the office of the Topographical Bureau July 11, 1913, at the office of the County Clerk at Jamaica July 11, 1913, as Map No. 1038, and at the office of the Corporation Counsel July 10, 1913, and by map altering the street lines and grades in the territory bounded by Huntington street, Rockaway boulevard, Kimball avenue, Vanderveer avenue, Liberty avenue, Thedford avenue, Dalrymple avenue, Perkins street, Liberty avenue and Digby street; approved by the Board of Estimate and Apportionment July 10, 1913, by the Mayor July 10, 1913, copies of which were filed at the office of the President of the Borough of Queens September 23, 1913, and in the offices of the Clerk of the County of Queens and of Corporation Counsel on or about the same day.

The Board of Estimate and Apportionment on the 10th day of July, 1913, duly fixed and determined the area of assessment for benefit in this proceeding as follows:

Beginning at a point on the prolongation of a line midway between Beaurort avenue and Jerome avenue as these streets are laid out immediately west of Van Wyck avenue where it is intersected by a line midway between Lowell avenue and Longfellow avenue, and running thence southwardly along the said line midway between Lowell avenue and Longfellow avenue and along the prolongation of the said line to the intersection with a line midway between Dean street and Baltic street; thence southeastwardly along the said line midway between Dean street and Baltic street to the intersection with a line midway between Humboldt boulevard and South street; thence southwestwardly along the said line midway between Humboldt boulevard and South street and along the prolongation of the said line to the intersection with a line midway between West street and Wells avenue; thence southeastwardly along the said line midway between West street and Wells avenue to the intersection with the prolongation of a line midway between First street and Second street; thence southwestwardly along the said line midway between First street and Second street and along the prolongations of the said line to the intersection with a line distant 100 feet easterly from and parallel with the easterly line of Van Wyck avenue, the said distance being measured at right angles to Van Wyck avenue; thence southwardly along the said line parallel with Van Wyck avenue to the intersection with the prolongation of a line distant 100 feet southerly from and parallel with the southerly line of Metropolis avenue as this street immediately adjoins Lefferts avenue on the west, the said distance being measured at right angles to Metropolis avenue; thence westwardly along the said prolongation of a line parallel with Metropolis avenue to the intersection with a line midway between Maure avenue and Morris avenue as these streets immediately adjoin Mills street on the south; thence southwardly along the said line midway between Maure avenue and Morris avenue to the intersection with the prolongation of a line midway between Metropolis avenue and Sutter avenue as these streets immediately adjoin Hamilton avenue on the west; thence westwardly along the said line midway between Metropolis avenue and Sutter avenue and along the prolongation of the said line to the intersection with a line midway between Dalrymple avenue and Sutter avenue; thence westwardly along the said line midway between Dalrymple avenue and Sutter avenue and along the prolongation of the said line to the intersection with a line distant 100 feet easterly from and parallel with the easterly line of Genesee street, the said distance being measured at right angles to Genesee street; thence northwardly along the said line parallel with Genesee street to the intersection with a line midway between Glenmore avenue and Pitkin avenue as these streets are laid out east of the borough line; thence westwardly along the said line midway between Glenmore avenue and Pitkin avenue and along the prolongation of the said line to a point distant 100 feet westerly from the westerly line of Elderts lane, the said distance being measured at right angles to Elderts lane; thence northwardly and always distant 100 feet westerly from and parallel with the westerly line of Elderts lane to the intersection with a line distant 100 feet northerly from and parallel with the northerly line of Magenta street, the said distance being measured at right angles to Magenta street; thence eastwardly along the said line parallel with Magenta street to the intersection with a line distant 100 feet westerly and parallel with the westerly line of Drew avenue, the said distance being measured at right angles to Drew avenue; thence northwardly along the said line parallel with Drew avenue to the intersecion with the prolongation of a line distant 100 feet northerly from and parallel with the northerly line of Beaufort avenue, the said distance being measured at right angles to Beaufort avenue; thence eastwardly along the said line parallel with Beaufort avenue and along the prolongation of the said line to the intersection with a line midway between Weymouth street and Halifax street; thence southwardly along the said line midway between Weymouth street and Halifax street to the intersection with a line midway between Beaufort avenue and Jerome avenue; thence eastwardly along the said line midway between Beaufort avenue and Jerome avenue to the intersection with a line midway between Canal avenue and Boyd avenue; thence southwardly along the said line midway between Canal avenue and Boyd avenue to a point distant 100 feet northerly from the northerly line of Jerome avenue; thence eastwardly and parallel with Jerome avenue to the intersection with a line midway between Walker avenue and Woodhaven avenue; thence southwardly along the said line midway between Walker avenue and Woodhaven avenue to the intersection with a line midway between Jerome avenue and Kimball avenue; SECOND DEPARTMENT.

In the matter of the application of The City of New York relative to acquiring title, wherever the same has not been heretofore acquired for the same purpose in fee, to the lands, tenements and hereditaments required for the widening of FLATBUSH AVENUE EXTENSION, from Concord street to Nassau street, in the Fourth Ward, Borough of Brooklyn, The City of New York.

NOTICE IS HEREBY GIVEN TO ALL PERsons interested in the above entitled proceeding, and to the owner or owners, occupant or occupants of all houses and lots and improved and unimproved lands affected thereby, and to all others whom it may concern, to wit:

First—That the undersigned Commissioners of Estimate have completed their estimate of damage, and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby, having any objection thereto, do file their said objections in writing, duly verfied, with them at their office, No. 166 Montague street, in the Borough of Brooklyn, in The City of New York, on or before the 28th day of November, 1913, and that the said Commissioners will hear parties so objecting, and for that purpose will be in attendance at their said office on the 1st day of December, 1913, at 2 o'clock p. m.

Second—That the undersigned Commissioner of Assessment has completed his estimate of benefit and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby, having any objection thereto, do file their said objections in writing, duly verified, with him at his office, No. 166 Montague street in the Borough of Brooklyn, in The City of New York, on or before the 28th day of November, 1913, and that the said Commissioner will hear parties so objecting, and for that purpose will be in attendance at his said office on the 2d day of December, 1913, at 2 o'clock p. m.

Third—That the Commissioner of Assessment has assessed any or all such lands, tenements and hereditaments and premises as are within the area of assessment fixed and prescribed as the area of assessment for benefit by the Board of Estimate and Apportionment on the 7th day of March, 1912, and that the said area of assessment includes all those lands, tenements and hereditaments and premises situate and being in the Borough of Brooklyn, in The City of New York, which, taken together, are bounded and described as follows, viz.:

Beginning at a point on the easterly line of Bridge street where it is intersected by a line midway between High street and Nassau street, and running thence eastwardly along the said line midway between High street and Nassau street to the intersection with the prolongation of a line midway between Bridge street and Duffield street; thence southwardly along the said line midway between Bridge street and Duffield street and along the prolongation of the said line to the intersection with a line always distant 100 feet easterly from and parallel with the easterly line of Flatbush avenue, the said distance being measured at right angles to Flatbush avenue; thence southwardly along the said line parallel with Flatbush avenue and always distant 100 feet therefrom to a point distant 100 feet southwesterly from the southwesterly line of Fulton street, the said distance being measured at right angles to Fulton street; thence northwestwardly and always distant 100 feet southwesterly from and parallel with the southwesterly line of Fulton street to the intersection with a line always distant 100 feet westerly from and parallel with the westerly line of Flatbush avenue, the said distance being measured at right angles to Flatbush avenue; thence northwardly along the said line parallel with Flatbush avenue and always distant 100 feet therefrom to the intersection with a line midway between Chapel street and Cathedral place; thence westwardly along the said line midway between Chapel street and Cathedral place to the intersection with the prolongation of a line midway between Jay street and Bridge street, as these streets are laid out immediately south of Cathedral place; thence northwardly along the prolongation of the said line midway between Jay street and Bridge street to the intersection with a line midway between Concord street and Chapel street; thence westwardly along the said line midway between Concord street and Chapel street to the intersection with a line midway between Pearl street and Jay street; thence northwardly along the said line midway between Pearl street and Jay street to the intersection with a line midway between High street and Nassau street; thence eastwardly along the said line midway between High street and Nassau street to the intersection with the westerly line of Jay street; thence southwardly along the westerly line of Jay street to the intersection with the northerly line of Nassau street; thence eastwardly along the northerly line of Nassau street to the intersection with the easterly line of Bridge street; thence northwardly along the easterly line of Bridge street to the point or place of beginning.

Fourth—That the abstracts of said estimate of damage and of said assessment for benefit, together with the damage and benefit maps, and also all the affidavits, estimates, proofs and other documents used by the Commissioners of Estimate and by the Commissioner of Assessment in making the same, have been deposited in the Bureau of Street Openings in the Law Department of The City of New York, No. 166 Montague street, in the Borough of Brooklyn, in said city, there to remain until the 8th day of December, 1913.

Fifth—That, provided there be no objections filed to either of said abstracts, the reports as to awards and as to assessments for benefit herein will be presented for confirmation to the Supreme Court of the State of New York, Second Department, at a Special Term thereof, to be held in the County Court House, in the Borough of Brooklyn, in The City of New York, on the 30th day of December, 1913, at the opening of the Court on that day.

Sixth—In case, however, objections are filed to the foregoing abstracts of estimate and assessment, or to either of them, the motion to confirm the reports as to awards and as to assessments shall stand adjourned to the date to be hereafter specified in the notice provided in such cases, to be given in relation to filing the final reports, pursuant to sections 981 and 984 of the Greater New York Charter, as amended by chapter 658 of the Laws of 1906.

Dated Borough of Brooklyn, New York, November 8, 1913.

SECOND DEPARTMENT.

In the matter of the application of The City of New York, by the Corporation Counsel, for the appointment of Commissioners of Estimate and Assessment to ascertain and determine the compensation which should justly be made for the closing and discontinuing of BENNETTS LANE, from Eighty-fourth street to Gravesend Bay, in the Thirtieth Ward, Borough of Brooklyn, The City of New York.

WE, THE UNDERSIGNED, COMMISSIONers of Estimate and Assessment in the above entitled matter, hereby give notice to all persons interested in this proceeding, and to the owner or owners, occupant or occupants of all houses and lots and improved and unimproved lands affected thereby, and to all others whom it might concern, to wit:

First—That we have completed our supplemental and amended estimate and assessment, and that all persons interested in this proceeding, or in any of the lands, tenements and hereditaments and premises affected thereby, and having objections thereto, do present their said objections in writing, duly verified, to us at our office, No. 166 Montague street, in the Borough of Brooklyn, in The City of New York, on or before the 15th day of November, 1913, and that we, the said Commissioners, will hear parties so objecting, and for that purpose will be in attendance at our said office on the 18th day of November, 1913, at 3 o'clock p. m.

Second—That the abstracts of our said estimate and assessment, together with our damage and benefit maps, have been deposited in the office of the Clerk of Kings County, in the Borough of Brooklyn, in said City, there to remain until the 15th day of November, 1913.

Third—That the limits of our assessment for benefit include all those lands, tenements and hereditaments and premises situate, lying and being in the Borough of Brooklyn, in The City of New York, and contained within the lines of the discontinued and closed Bennetts lane extending from Eighty-fourth street to Gravesend Bay. Also so much of those lots or parcels abutting on Bennetts lane in Blocks 6396 and 6429 as lies between the northerly line of Bennetts lane and the middle line of the blocks between said Bennetts lane and Bay Eleventh street. The said lots or parcels being designated on the tax maps of The City of New York as Lots Nos. 32, 31, 54, 29, 26, 24, 21, 18, 16, 14, 12 and 2 in Block 6396; and Lots Nos. 42, 49, 51, 53 and 19, in Block 6429.

Fourth—That our supplemental and amended final report herein will be presented for confirmation to the Supreme Court of the State of New York, Second Department, at a Special Term thereof for the hearing of motions, to be held in the County Court House, in the Borough of Brooklyn, in The City of New York, on the 23d day of December, 1913, at the opening of the Court on that day, or as soon thereafter as counsel can be heard.

Dated Borough of Brooklyn, New York, October 24, 1913.

SUPREME COURT—NINTH JUDICIAL DISTRICT.

Application for Appointment of Commissioners.

NINTH JUDICIAL DISTRICT.

In the matter of the application of CHARLES STRAUSS, CHARLES N. CHADWICK and JOHN F. GALVIN, constituting the Board of Water Supply of The City of New York, to acquire real estate for and on behalf of The City of New York, under chapter 724 of the Laws of 1905, and the acts amendatory thereof, in the Towns of Mount Pleasant, Harrison and North Castle, Westchester County, New York, for the purpose of providing an additional supply of pure and wholesome water for the use of The City of New York.

KENSICO RESERVOIR.
(Highways.)

Notice of Application for Commissioners of Appraisal.

PUBLIC NOTICE IS HEREBY GIVEN THAT it is the intention of the Corporation Counsel of The City of New York to make application to the Supreme Court for the appointment of Commissioners of Appraisal under chapter 724 of the Laws of 1905 and the laws amendatory thereof.

Such application will be made at a Special Term of said Court to be held in and for the Ninth Judicial District, at the Chambers of Mr. Justice Keogh, in the City of New Rochelle, Westchester County, New York, on the 29th day of November, 1913, at 10 o'clock in the forenoon of that day, or as soon thereafter as counsel can be heard.

The object of such application is to obtain an order of the Court appointing three disinterested and competent freeholders, at least one of whom shall reside in the County of New York, and at least one of whom shall reside in the county in which the real estate hereinafter described is situated, as Commissioners of Appraisal to ascertain and appraise the compensation to be made to the owners of and all persons interested in the real estate (as the term real estate is defined by said act) hereinafter described, as proposed to be taken or affected in connection with the construction of the dam and reservoir on the Bronx River, to be known as Kensico Reservoir, for the purpose of supplying The City of New York with an additional supply of pure and wholesome water, as provided for in said act.

The real estate sought to be taken or affected is situated in the Towns of Mount Pleasant, Harrison and North Castle, County of Westchester, and State of New York.

The real estate used for public highway purposes, the fee of which has been heretofore taken by The City of New York, and the possession of which is required and its use for public highway purposes discontinued by reason of the construction of said dam and reservoir, is shown on a map entitled "Board of Water Supply of The City of New York, map showing highways to be discontinued and real estate to be substituted therefor situated in the Towns of Mount Pleasant, Harrison and North Castle, County of Westchester and State of New York, under the provisions of chapter 724 of the Laws of 1905, as amended, in connection with the construction of Kensico Reservoir and appurtenances," prepared June 10, 1913, which map was duly filed in the office of the Register of the County of Westchester on the 7th day of October, 1913, as Map No. 2035, and is described as follows

All those portions of public highways situated in the Towns of Mount Pleasant, Harrison and North Castle, which lie within the exterior boundaries of the real estate heretofore acquired by The City of New York for the construction of Kensico Reservoir and its appurtenances, shown and designated on the above entitled map filed in the office of the Register of the County of Westchester on the 7th day of October, 1913, as aforesaid, as parcels 1 to 22, inclusive, and more particularly described as follows:

1.

Road known as North Castle road, situated in the Towns of Mount Pleasant and North Castle, beginning at a point in Kensico avenue near the Valhalla station and running thence in an easterly direction to the State road, including the Y at its connection with the said State road. Length, .2 mile.

2.

Road known as West Lake drive, situated in the Towns of Mount Pleasant and North Castle, beginning at a point in about the middle of North Castle road and running in a northerly direction along the westerly and northerly shores of Kensico Lake (as the lake was prior to 1907) to a point in Mile Square road near its junction with the State road. Length, 3.98 miles.

3.

Cross road connecting North Castle road and West Lake drive, situated in the Town of Mount Pleasant, beginning at a point near the westerly end of North Castle road and running in a northerly direction to West Lake drive, intersecting the same about 350 feet from its point of beginning in North Castle road. Length, .05 mile.

4.

Road known as First street, situated in the Town of Mount Pleasant, beginning at a point in the easterly boundary of the substituted new road designated on the map herein referred to as Road C, and running in an easterly direction to the southerly end of Mount Pleasant avenue. Length, .02 mile.

5.

NOTICE TO BIDDERS AT SALES OF OLD BUILDINGS, ETC.

TERMS AND CONDITIONS UNDER WHICH BUILDINGS, ETC., WILL BE SOLD FOR REMOVAL FROM CITY PROPERTY.

THE BUILDINGS AND APPURTENANCES thereto will be sold to the highest bidder, who must pay cash or certified check, drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of $50, the sum of $50 shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstance of vacating the structures of their tenants will permit.

All the material of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations and the sidewalks and curb in front of said buildings, extending within the described area shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street, and the opening of the main sewer in street shall be properly closed in compliance with the directions of the Bureau of Sewers in the Borough in which the buildings are situated, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any part thereof, within thirty days from the day of possession will work forfeiture of ownership of such buildings, appurtenances, or portion as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed, and the cost and expense thereof charged against the security above mentioned.

The work ot removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the day of possession, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless, The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beamholes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs and adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the contractor.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids; and it is further

Resolved, That, while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.

PROPOSALS FOR BIDS AND ESTIMATES FOR THE CITY OF NEW YORK.

NOTICE TO CONTRACTORS.

GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department, and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, and names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a Department, chief of a Bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

No bid or estimate will be considered unless as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money or corporate stock or certificates of indebtedness of any nature issued by The City of New York, which the Comptroller shall approve as of equal value with the security required in the advertisement, to the amount of not less than three nor more than five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The amount shall be as specified in the proposals or instructions to bidders and shall not be in excess of 5 per cent.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately.

The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.

Increase requested, $5,850.

Salaries, Executive.

The total sum asked for for salaries for next year, you will observe, is just $10,250 in excess of the sum allowed for this year. Divided into two accounts—executive force and inspection force—the figures show, in the former account, a decrease of $1,650, and in the latter account an increase of $11,900, or a net increase, as stated, of just $10,250.

For the Chief Clerk I have provided an increase of $500, and have offset it with a decrease of $500 in the salary of the Secretary. This is simply a readjustment of salaries operating to recognize the service of an employee on whom the bulk of the office duties fall, and debiting the cost to the salary of a position less useful. You will recall that we sought to bring about this result months ago. The Board of Estimate is familiar with it. It is simply a matter of justice. The work being done by the Chief Clerk entitles him to it.

For four Clerks now receiving $1,050 each, I have provided an additional increase of $150 each, bringing their respective salaries up to $1,200 per annum. Not one has received an increase in salary since his appointment, and three of them have been employed here for several years.

For a young woman Stenographer who is now receiving only $750 per annum and who equally divides the stenographic and typewriting portion of the Bureau's work with three associates of similar title, each of whom is receiving $1,200 per year, I have made provision of a $900 salary.

Two Messengers who have been with the Bureau, one for fifteen and the other for thirteen years, and both of whom at one time received $1,200 per year, I have arranged for an increased income of $150 each. They are now receiving $1,050 per year each.

The Bureau's one Process Server, who is now receiving $1,050 per year, is scheduled for an advance of $150 in the 1914 Budget. As this provision has just been approved by the Board of Estimate and will take effect this year, it does not really figure as an increase in 1914 Budget, although it shows as an increase over the June, 1913, schedule line.

Salaries, Inspection.

For the Senior Chief Inspector I have provided for an increased salary of $500. This recognition, it is within your knowledge, is fully deserved. The proposition, like one other mentioned above, was before the Board of Estimate some months ago. The occupant of the position, as you know, is made by law the Acting Superintendent in the Superintendent's absence. As a matter of fact, he comes in direct supervisory contact with all the Inspectors and is charged with much more work and responsibility than his associate Chief Inspector, who receives an equal salary, or the Division Inspectors, most of whom receive almost the same salary. The position now pays $2,500 per annum. I sincerely hope that the $3,000 salary I have here asked for for this member of the Bureau's staff will be allowed. In one of the other city's Building Bureaus the Senior Chief Inspector receives $5,000, and his associate Chief Inspector, $4,000.

For one Inspector of Carpentry and Masonry, who is now receiving a salary of $1,800 per year, I have asked for an advance of $300. I have recently assigned him to the examination of plans. He is one of the oldest in point of service, and one of the best qualified employees here. Besides being a practical builder, he is an architect. He has occupied supervisory positions of various characters in the Bureau for many years. He is receiving to-day but little more salary than he was appointed at twenty years ago. The Board of Estimate has had a request for the establishment of a grade to meet this advance before it for several months.

In support of my provision for an advance in salary to $1,500 per year each for all Inspectors now receiving less than that sum, twenty-eight are receiving only $1,200 per year, and thirteen receiving $1,350 per year. I wish to say with emphasis, that in order to secure the services of experienced men for these positions, they should be offered the inducement of salaries amounting to at least as much as they can earn at their respective trades. Bricklayers are now, and have been for several years, receiving $5.60 per day. Following their trade they are not called on to dress with the care of a Building Inspector. Is it fair to assume that the City can command the services of first-class mechanics at salaries below their trade wage rate? Plumbers are being paid in the trade at the rate of $5.50 per day, and the same rate of wages holds for steel and iron workers, plasterers and elevator mechanics and carpenters. It requires practical men in all these trades for Building Inspectors. Every one should receive a salary equal to the wage he can command at his trade. I would not appoint, and have not appointed a single man as an Inspector who is not qualified by experience derived from mastering his trade. Every Inspector for whom I now seek a $1,500 yearly salary, most of whom were appointed by my predecessors, I have found, is thoroughly fitted by knowledge and experience for the position he holds in this Bureau.

There is another important phase to this matter—when a fair salary is paid to a Building Inspector, he is lifted above the temptation of petty graft. You know how prone the general public is to charge official wrongdoing to a Building Inspector—in isolated cases here, perhaps, rightfully, but generally my experience has been, without foundation in fact, notwithstanding their inadequate salaries. They should not be subjected to this temptation. Fair salaries would help to keep their hands clean.

As further reason why the Brooklyn Building Inspectors should receive this proposed increased salary, I wish to point out that they all have very large districts to cover, proportionately larger, considering the work under their supervision, than in any of the other boroughs. In Manhattan, for instance, which figures next to Brooklyn in the number of permits issued yearly, 146 Inspectors had supervision in 1912 over operations covering only 3,970 permits, while here we approved of 8,625 permits, with 89 Inspectors. With the same number of Inspectors, Brooklyn, for the first six months of 1913, issued 4,769 permits to Manhattan's 2,325. It might be stated incidentally that of Manhattan's 146 Inspectors, only one-sixth are receiving less than $1,500 a year each, while here more than one-half of the 89 Inspectors are being paid less than that sum yearly.

Supplies, Equipment and Repairs.

The increased sum of $2,703.10 requested in the above account is in the main made necessary by the need of additional filing cabinets of a fireproof character, supplies for the Bureau Laboratory, a year's supply of stamped envelopes—the latter an expense we were not called on this year to incur because of a 1912 purchase of this character which carried us over 1913—and an improved quality of supplies for the Bureau's automobile.

I have omitted from this Budget provision for the realization of a block index system in this Bureau—a project to which I called special attention in my annual report of last year—with the thought that such an expense at this time would not meet with favor, and calculating that the head of the Bureau, early next year, might ask for a special appropriation for the purpose. It will cost at the outset approximately, requiring, as it will, the exclusive services of a complement of employees, $7,500. It should be realized it will require several years to perfect, but when once in operation, it will be, as I pointed out in my 1912 report, of incalculable worth, and compared with its value, the expense would be insignificant. Very respectfully yours,

P. J. CARLIN, Superintendent.

PRESIDENT OF THE BOROUGH OF MANHATTAN.

October 25, 1913.

To the Honorable Board of Estimate and Apportionment:

Sirs—I beg to submit herewith the budget estimates for the President of the Borough of Manhattan for the year 1914. The estimate covering the corresponding items in the 1913 budget amounts to $3,017,736.01. In addition to this, there is included the sum of $280,212.80 to cover the cost of operating the Municipal Building, making a total of $3,297,948.81.

Leaving out of consideration this sum of $280,212.80, which is requested for a new activity, the above shows an actual decrease of $40,037.93 in the budget for 1914, as compared with the budget for 1913, covering approximately the same work.

Yours very truly, GEORGE McANENY, President, Borough of Manhattan.

DEPARTMENT OF FINANCE.

The Honorable Board of Estimate and Apportionment:

Gentlemen—I transmit herewith the departmental estimate of the Department of Finance, exclusive of the City Chamberlain's office, for the year 1914.

The estimate provides for total appropriations amounting to $1,527,310.

The actual expenditures by the Department for 1909—the last year of the previous administration—and 1910, 1911 and 1912—the first three years of the present administration—have been respectively as follows:

a1909 (from Budget and special revenue bond funds)		$1,537,830 92
1910 (from Budget and special revenue bond funds)		1,457,833 94
1911 (from Budget and special revenue bond funds)		1,378,689 70
1912 Budget and special revenue bond funds	$1,494,828 68	
From other funds	10,673 31	
		$1,505,501 99

aLast year of previous administration.

The total allowance, properly chargeable for 1913, to the Department of Finance (Comptroller's office) is $1,617,428 21, of which a large amount—made up of salary accruals and balances from other than salary accounts, will, as in previous years, be returned after December 31 to the General Fund.

A comparison (First) 1914 departmental estimate with total Budget appropriations for 1913 and (Second) 1914 departmental estimate with total allowance for 1913 (total Budget appropriations, including transfers) is as follows:

1913 Budget appropriations	$1,560,150 00
1914 departmental estimate	1,527,310 00
Decrease in estimate 1914 over Budget appropriation 1913	$32,840 00
1913 Budget appropriations, including transfers	$1,617,428 21
1914 departmental estimates	1,527,310 00
Decrease in 1914 estimate over total allowance for 1913	$90,118 21

Respectfully, WM. A. PRENDERGAST, Comptroller.

BOARD OF EDUCATION.

New York, September 25, 1913.

Mr. JOSEPH HAAG, *Secretary, Board of Estimate and Apportionment:*

Dear Sir—I have the honor to transmit herewith the departmental estimate of the Board of Education for the year 1914 (three volumes), which was adopted at a meeting held on September 24, 1913, with amendments as set forth in the following resolutions, which were also adopted at said meeting:

Resolved, That Special School Fund Schedule 31, "Soap and Towels for Public School Baths," be stricken from the departmental estimate for the year 1914.

Resolved, That Special School Fund Schedule 63, "Office of the Supervisor of Lectures, Salaries," be amended by striking therefrom the item "Clerk (new), $300."

Resolved, That Special School Fund Schedule 6, "Public Lectures," be amended by inserting an item "Publicity Agents, $750."

Resolved, That Special School Fund Schedule 58, "Office of the City Superintendent of Schools, Salaries," be amended by inserting "Statistician, $4,000 per annum."

Resolved, That an item of $359 for printing cards of instruction for handling the ventilating systems in classrooms be inserted in its appropriate place in the Special School Fund.

Resolved, That, in submitting this estimate to the Board of Estimate and Apportionment, the Board of Education reserves the right to augment or modify any item therein should the facts and conditions warrant amendment.

Respectfully yours, A. E. PALMER, Secretary, Board of Education.

To the Board of Education:

The Committee on Finance presents herewith the estimate of the financial requirements of the Board of Education for the year 1914, amounting to forty million one hundred and eighty-nine thousand twenty-one dollars and seventy-three cents ($40,189,021.73).

Section 1060 of the Revised Charter provides that all monies raised for educational purposes in The City of New York shall be raised in two funds, to be known as the General School Fund and the Special School Fund, respectively. The estimate for 1914 is divided, therefore, as follows:

	Estimate 1914.	Appropriation 1913.	Increase.
General School Fund	$32,626,182 46	$29,195,810 70	$3,430,371 76
Special School Fund	7,562,839 27	6,011,036 26	1,551,803 01
Total	$40,189,021 73	$35,206,846 96	$4,982,174 77

Attention is called to the fact that all additional expenses other than those considered absolutely necessary have been eliminated from the foregoing estimates. Therefore, all proposed increases in the compensation of officers and employees have been stricken out, except in the case of Draftsmen, whose compensation is regulated by schedule. It is to be hoped that the economies thus instituted will offset the possibility of heavy reductions in the volume of appropriations for other purposes. In order, however, that the claims of those in the service of the Board to increased compensation may have proper consideration, statements have been sent to the Committee on Standardization of Salaries and Grades of the Board of Estimate and Apportionment. The Committee on Finance is convinced that many of the employees of the Board are underpaid in comparison with employees of City Departments, a fact demonstrated by the numerous applications for transfers. The information transmitted to the Committee on Standardization of Salaries and Grades comprises the following: (a) Name, (b) Title of Position, (c) Salary now paid, (d) Date of entering service, (e) Age, (f) Description of duties, (g) Salary which should be paid for position, etc.

In connection with the matter of "salary accruals" exact and precise records have been kept since January 1, 1913, showing the cash saving each month between the salaries of outgoing teachers and the cost of filling such positions either by substitutes or by regularly appointed teachers. The cash savings each month since January 1, 1913, have been as follows:

January	$1,934 10
February	19,108 42
March	22,717 17
April	22,747 77
May	24,218 52
June	25,113 78
July	34,770 42
August	34,007 28
Total	$184,617 50

It should be borne in mind that the amount of "salary accruals" is dependent upon the number of cessations of service, the salaries of such persons, the salaries of their successors, the ellapsed time between cessations of service and appointments and the cost of substitute service in the interim. The "equal pay" law operates to increase the amount of "salary accruals" by reason of more early maturity of the schedules, and by reason of greater range between the minimum and maximum rates.

GENERAL SCHOOL FUND, 1914.

The following is a summarized statement of the General School Fund for 1914 inserted for the purpose of exhibiting the amount required in excess of the "three-mill" tax.

DOCUMENT A.

Day Elementary Schools, Including Special Branches Therein.

Hon. JOHN GREENE, Chairman, Committee on Finance:

Dear Sir—I beg to advise you that at a meeting of the Committee on Elementary Schools held on July 22, 1913, the City Superintendent of Schools submitted a statement (copies of which are enclosed in triplicate) of items relating to the elementary schools for insertion in the Budget for 1914.

It was decided that the maximum salary of the Director of Physical Training be increased from $4,000 to $4,500 (see page 15, item 15), that the maximum salary of Assistant Directors of Music, Manual Training and Drawing, and Physical Training be increased from $3,000 to $3,300 per annum (see page 16, item 16) and that the salary for the proposed position of Assistant Director of Cooking be fixed at $2,000 per annum (see item 22, page 18).

The statement, as amended, was approved, with the understanding that, in connection with the statement of the amount required for teachers' salaries for 1914, the difference between the amount needed for the salaries of permanent teachers and substitute teachers be accounted for in the salary accrual statement and that it shall be so mentioned.

The Committee on Elementary Schools requests that in presenting this matter to the Board of Education special attention be called to all proposed increases in salaries.

A copy of a communication from the Committee on By-Laws and Legislation dated July 21, 1913, informing the Committee on Elementary Schools of its action

in regard to increasing the salaries of members of the supervising and teaching staff, is enclosed. The Committee on Elementary Schools approved the proposed increased salaries. Respectfully yours, A. E. PALMER, Secretary, Board of Education.

To the Committee on Elementary Schools:

I beg leave to present the following statement of items relating to the elementary schools, for insertion in the Budget for 1914:

In the case of the following items information will be supplied, as in former years, by the Auditor of the Board of Education:

1. The salaries for the year 1914 of principals, assistants to principals, regular teachers, kindergartners and additional teachers (clerical assistants) employed May 31, 1913.

2. The salaries for the year 1914 of directors of special branches, assistant directors, inspectors and teachers of special branches employed May 31, 1913.

3. Increase in salaries due to the operation of the salary schedules during the year 1914.

4. Estimated amount required to pay substitutes in charge of classes of absent teachers and for teachers in training during the year 1914.

In the following statement the term "new teachers" is used to indicate additions to the teaching corps; and the term "additional teachers" wherever used refers to clerical assistants in the schools.

The following items represent members of the teaching and supervising force needed in addition to the principals, teachers, etc., employed on May 31, 1913.

1. To fill vacancies existing in the teaching and supervising force on May 31, 1913, as follows:

(a) Principals 1

The vacancy is P. S. 54, Queens.

(b) Assistants to Principals..... 8

The vacancies are as follows:

P. S. 30, 169, 171, 172, Manhattan

P. S. 9, 32, The Bronx

P. S. 46, 59, Brooklyn.

Excess Assistant to Principals..... 3

These excesses are in the following schools:

P. S. 98, Manhattan, and P. S. 2, 4, The Bronx.

(c) Regular teachers 169

(d) Kindergartners 12

(e) Teacher of the Deaf (Printer)..... 1

It will, therefore, be necessary to provide in the Budget for 1914 an amount sufficient to pay the salaries of the following members of the teaching and supervising force in the elementary schools for the entire year:

Principal (woman)	1
Assistants to Principals, 8 vacancies less 3 excesses equals 5 (women)...	5
Regular teachers (18 men, 151 women).....	169
Kindergartners (women)	12
Teacher of the Deaf (Printer) (woman).....	1

Of the 169 teachers needed for vacancies as shown above, 32 are needed for ungraded classes, 3 for classes of crippled children and 5 for open-air classes. Provision should be made for paying these teachers the bonus provided in the By-Laws for teachers of such classes. There are 452 vacancies in the grades of the last two years being taught by teachers serving temporarily on assignment from the grades of the first six years. When the matter of eligibility for promotion to the grades of the last two years is settled these vacancies will involve the promotion of 189 men from Schedule VI to Schedule VII and of 263 women from Schedule B1 to Schedule B2.

The principal, assistants to principals, regular teachers and kindergartners have all been appointed, appointment to take effect September, 1913, with the exception of the following: Two assistants to principals, P. S. 30, Manhattan, and P. S. 9, The Bronx: 33 regular teachers where vacancies are for teachers of ungraded classes, open-air classes and classes for crippled children.

2. Principals, assistants to principals and additional teachers (clerical assistants) for new schools and additions to old schools to be opened between September 1, 1913, and December 31, 1913.

(a) Principals for new schools to be opened between September 1, 1913, and December 31, 1913:

Men	5
Women	5
Total	10

Men: P. S. 45, 50, 52, 53, The Bronx, and P. S. 175, Brooklyn.

Women: P. S. 102, Manhattan, and P. S. 99, 172, 173, 174, Brooklyn.

(b) Assistants to Principals for new schools and additions to old schools..... 12

One each in P. S. 72, for addition to building, 102, Manhattan; P. S. 50, 52, 53, The Bronx; P. S. 28, for addition to building, 174, 175, Brooklyn.

Two each in P. S. 61, Manhattan, and P. S. 45, The Bronx.

(c) Additional Teachers (clerical assistants) for new schools..... 9

One each in P. S. 61, 102, Manhattan; P. S. 50, 52, 53, The Bronx; P. S. 172, 173, 174, 175, Brooklyn.

It will therefore be necessary to provide in the Budget for 1914 an amount sufficient to pay the salaries for one year (1914) of the following members of the teaching and supervising force in new elementary schools and additions to old schools to be opened between September 1, 1913, and December 31, 1913:

Principals (men)	5
Principals (women)	5
Assistants to Principals (women).....	12
Additional Teachers (clerical assistants) (women).....	9

The following positions have been filled by appointment for September, 1913: Principals, P. S. 45, The Bronx; P. S. 173, 174, Brooklyn; Assistants to Principals, one each, P. S. 61, Manhattan, and P. S. 45, The Bronx; Additional Teachers, P. S. 61, Manhattan, and P. S. 173, 174, Brooklyn. The teachers for these schools are included in Item 3.

3. It will be necessary to provide in the Budget for 1914 an amount sufficient to pay the salaries for one year (1914) of the following members of the teaching and supervising staff whom it will be necessary to appoint between September 1, 1913, and December 31, 1913, in order to reduce the size of large classes and to provide instruction for the increased attendance that invariably occurs during that period:

Assistants to Principals (women).....	7
Additional Teachers (clerical assistants) (women).....	4
Regular Teachers—	
1A to 8B, C, D and E (35 men, 237 women).....	272
Ungraded (Mental Defectives) (women).....	25
Blind (woman)	1
Open Air (women).....	5
Crippled (woman)	1
Deaf (women)	2
Kindergartners (women)	18
Total teachers	324

The classes of grades 1A to 8B involve the promotion of 47 men from Schedule VI to Schedule VII, and of 71 women from Schedule B1 to Schedule B2.

4. It will be necessary to insert in the Budget for 1914 an amount sufficient to pay for an average of four months the salaries of the following members of the supervising staff required for new schools and additions to old schools to be opened during that year:

	Men.	Women.
Principals	1	1
Assistants to Principals.....	..	4
Additional Teachers (clerical assistants).....	..	1

The schools for which this force will be required are as follows:

Principals: Man, P. S. 115, Manhattan; woman, P. S. 176, Brooklyn.

Assistants to Principals: P. S. 115, Manhattan; P. S. 71, 94, Queens, and P. S. 22, Richmond.

Additional Teacher: P. S. 115, Manhattan.

The teachers for these schools are included in Item 5.

5. It will be necessary to insert in the budget for 1914 an amount sufficient to pay for an average of five months the following members of the supervising and teaching staff whom it will be necessary to appoint during the year in order to reduce the size of large classes and to provide for increased attendance during that year:

Assistants to Principals (women).....	15
Additional Teachers (clerical assistants) (women).....	9
Regular Teachers—	
1A to 8B, C, D and E (45 men, 271 women).....	316
Ungraded (Mental Defectives) (women).....	20
Blind (women)	3
Crippled (women)	2
Deaf (women)	5
Open-Air (women)	11
Kindergartners (women)	25
Total members	382

The classes of Grades 1A to 8B involve the promotion of 58 men from Schedule VI to Schedule VII and of 87 women from Schedule B1 to Schedule B2.

The estimate of the need of teachers during 1914 has been made up with modification hereafter referred to, in accordance with the plan submitted by Mr. John Martin, member of the Board of Education, which was contained in a report adopted by the Board of Education on April 9, 1913, the application of the plan being confined to average register. This plan, briefly stated, involves ascertaining the average register for a period of years and, on the basis of the average for a given number of years (six years being cited by Mr. Martin) ascertaining the estimated average register for 1914. Assuming that 40.3, the average number of pupils per class on May 31, 1913, is accepted as a proper average size of class, we divide the estimated average register for 1914 by 40.3 to ascertain the average number of classes which will be required throughout the year 1914. Subtracting from this figure the number of classes on May 31, 1913, we have the number of new classes required to be provided for in the budget for 1914 for all of that year.

The number of pupils per class has been reduced from 40.6, the number on May 31, 1912, which furnished Mr. Martin with his divisor 40.6 in his report, to 40.3 on May 31, 1913. This has been accompanied by a most desirable reduction in the number of classes of over 50 on register from 1,209 on May 31, 1912, to 954 on May 31, 1913, or 255 less.

With reference to the period of years used to determine the estimated average register for 1914, it is found that to go back to 1906, as Mr. Martin suggests, would not be representative for the reason that the increase in the average register has been gradually growing smaller within the last six years. Taking a period of three years instead of six years to determine the average rate of increase in average register, we obtain an average increase in the average register of 13,085. Using this average increase as the probable increase during 1913 and 1914 we obtain an estimated average register of 678,952 for 1914 (652,782 average register 1912 plus 13,085 equals 665,867 estimated average register for 1913 plus 13,085 equals 678,952 estimated average register for 1914).

Dividing this estimated average register 678,952 by 40.3, the average number of pupils per class on May 31, 1913, we have an estimate of 16,847 teachers needed throughout the year 1914, or 553 over the number in service on May 31, 1913, 16,294.

It has been the practice to submit each year a budget estimate of teachers in two parts, i. e.:

(1) The increase in the teaching corps between May 31, upon which date the budget estimate is founded, and December 31. Such teachers must be paid during the entire year following.

(2) The increase between January 1 and December 31 of the year for which the estimate is being made.

The estimate of teachers to be appointed between May 31 and December 31, 1913, required that provision be made for their salaries during the entire year 1914 covered by the budget. The teachers estimated to be appointed between January 1 and December 31 of 1914, the budget year, serve for an average period of five months. This estimate requires that provision be made for paying these teachers for five months.

In order to check the estimate obtained by Mr. Martin's method, it is necessary to compare it with the number of teachers which such estimate represents, divided into these two items, i. e., the number of teachers to be appointed between May 31 and December 31, 1913, to serve for twelve months, and the number of teachers to be appointed during 1914 to serve for an average period of five months.

The average number of new classes (teaching positions) formed between May 31 and December 31 during the past three years has been 317.

The average number of new classes formed between January 1 and December 31 per year during the past three years has been 450, serving on an average five months.

Combining these figures, 317 teachers for twelve months and 450 teachers for five months, we find that they represent 505 teachers for 12 months. The figure 553, obtained by Mr. Martin's method, represents 348 teachers to be appointed between September and December of 1913 to serve throughout the whole of 1914, and 492 teachers to be appointed between January and December, 1914, to serve for an average period of five months.

The following figures with reference to average register are submitted:

Plans which have already been begun not only to reduce the size of large classes but to consolidate small classes will in all probability make possible the accommodation of the new pupils and the overflow from extra large classes in slightly fewer classes than the above estimate calls for.

I have accordingly placed the number of teachers which will probably be needed as follows:

The number needed for the balance of this year cannot safely be placed at less than 324. The number needed during 1914 I have placed at 382. These numbers, representing 483 teachers for the whole year of 1914 over and above the number in service May 31, 1913, also represent an increase in the teaching corps of 2.3 per cent. during 1913 and 1914. This figure exceeds the per cent. of the estimated increase in register during 1913 and 1914 by 4 per cent. This excess, representing 16 women teachers for the balance of 1913 and 66 women teachers during 1914, represents the number of teachers estimated over and above the number needed for increasing register. They will be available for the reduction of oversize classes.

The following additional statistical data are submitted:

It is estimated that the register for December 31, 1913, will be 679,531, or an increase of 12,895 over the register of December 31, 1912, 666,636. This increase is the average increase for the past three years and is the best indication of the probable growth in register. The increases December 31 over the previous December for the past five years have been as follows:

Year.	Register December 31.	Increase Over Previous Year.	Per Cent. of Increase.
1908	608,821	14,810	2.5
1909	627,951	19,130	3.1
1910	644,685	16,734	2.7
1911	656,598	11,913	1.8
1912	666,636	10,038	1.5
1913 (est.)	679,531	12,895	1.9
1914 (est.)	692,426	12,895	1.9

Average annual increase in register, calendar year:

On basis of 5 years preceding	14,525
On basis of 4 years preceding	14,554
On basis of 3 years preceding	12,895
On basis of 2 years preceding	10,975

It will be seen that this estimate is 1,630 below the average annual increase for five years and 1,559 below the average annual increase for four years.

It is possible to test the accuracy of an estimated register of 679,531 for December, 1913, by comparing it with the register for the month of May just closed.

The increase in the register for December over the register for May for the past five years has been as follows:

Year.	May.	December.	Increase	Per Cent. of Increase.
1908	587,465	608,821	21,356	3.6
1909	603,144	627,951	24,807	4.1
1910	620,422	644,685	24,263	3.9
1911	633,231	656,598	23,367	3.7
1912	646,096	666,636	20,540	3.2
1913	656,672	679,531 (est.)	22,859 (est.)	3.5 (est.)

Average increase in register, December over May:

On basis of 5 years preceding	22,867
On basis of 4 years preceding	23,244
On basis of 3 years preceding	22,723
On basis of 2 years preceding	21,953

It will be seen that the estimate heretofore given of 679,531 for December, 1913, is 22,859 above the register of May, 1913. This estimated increase is practically the average increase in register during this period for the past three years.

The estimated increase in register during 1914 will in all probability not vary greatly from the increase during 1913. It is therefore estimated at the same figure, 12,895.

It is estimated that the number of classes (teaching positions) in service December 31, 1913, will be 16,618, or an increase of 374 over the number of classes on December 31, 1912, 16,244; this is an increase of 2.3 per cent. The increase December 31 over the previous year for the past five years has been as follows:

Year.	No. of Classes December 31.	Increase Over Previous Year.	Per Cent. of Increase.
1908	14,660	456	3.2
1909	14,895	235	1.6
1910	15,285	390	2.6
1911	15,817	532	3.5
1912	16,244	427	2.7
1913 (est.)	16,618	374	2.3
1914 (est.)	17,000	382	2.3

Average annual increase in classes, calendar year:

On basis of 5 years preceding	408
On basis of 4 years preceding	396
On basis of 3 years preceding	450
On basis of 2 years preceding	479

It will be seen that this estimated increase in the number of classes of 374 is below the average annual increase for the past two, three, four and five years and that the rate of increase is also low in comparison with other years.

In order that this estimate may be tested by comparing it with the number of teaching positions for the month of May just closed, the following figures are given:

Year.	May 31.	Number of Classes December 31.	Increase Over May 31.	Per Cent. of Increase.
1908	14,128	14,660	532	3.8
1909	14,697	14,895	198	1.3
1910	15,059	15,285	226	1.5
1911	15,441	15,817	376	2.4
1912	15,896	16,244	348	2.2
1913	16,294	16,618*	324*	1.9*

*Estimated.

Average increase in number of classes December over May:

On basis of 5 years preceding	336
On basis of 4 years preceding	287
On basis of 3 years preceding	317
On basis of 2 years preceding	362

It will be seen that the estimate of 16,618 given for December, 1913, is 324 above the number of classes for May, 1913. This is in practical agreement with the average for the past three years.

So far as can be determined now the increase in the teaching corps during 1914 will not vary materially from the increase during 1913. It is therefore placed at 382, which is at the same rate of increase estimated for 1913, or 2.3 per cent.

The following tables bearing upon the need of teachers during 1914 are also submitted:

1. Average Attendance.

Increase in average attendance during the calendar year for the past four years:

Year.	Average Attendance.	Increase.	Per Cent. of Increase.
1908	540,388	.....	.....
1909	550,770	10,382	1.9
1910	558,991	8,221	1.5
1911	583,591	24,600	4.4
1912	593,097	9,506.	1.6

Average increase for four years, 13,177.

The fact that the increase in average daily attendance exceeds the increase in average register shows that the estimated increase in average register, 13,085, is not too large.

II. Register, Number of Classes and Average Number of Pupils Per Class, May 31, 1913.

	7A-8B	1A-6B	C. D. E.	Kind.	Ungr.
Register	104,043	491,626	24,586	32,080	2,220
Number of classes	2,757	11,610	785	868	146
Average number of pupils per class	38	42	31	37	15

	Blind.	Crip.	Open-Air.	Deaf.	Infectious Eye.	Total.
Register	136	642	1,048	264	27	656,672
Number of classes	12	36	45	27	2	*16,294
Average number of pupils per class	11	18	23	10	14	40.3

*Includes 6 speech improvement classes not shown in table.

The total 40.3 here given as the average number of pupils per class for all classes furnishes the divisor 40.3 used in the application of Mr. Martin's plan as given above.

III. Distribution of Classes Estimated as Necessary to be Formed by December 31, 1913, and December 31, 1914.

Grades.	(a) No. of Classes Dec. 31, 1913, Estimated.	(b) Increase or Decrease from May 31, 1913.	(c) No. of Classes Dec. 31. 1914, Estimated.	(d) Increase or Decrease from Dec. 31, 1913.
7A-8B	2,875	118	3,020	145
1A-6B, C, D, E	12,549	154	12,720	171
Kindergarten	886	18	911	25
Ungraded	171	25	191	20
Blind	13	1	16	3
Crippled	37	1	39	2
Open-Air	50	5	61	11
Deaf	29	2	34	5
Infectious Eye Diseases	2	.....	2	.....
Total	16,618*	324	17,000*	382

*Includes 6 special improvement classes not shown in table.

IV. Number of Classes with Register of Over Fifty.

May 31, 1912	1,209
May 31, 1913	954
	255

This reduction in the number of classes of over 50 on register accounts for the diminution of the average number of pupils per class from 40.6 on May 31, 1912, to 40.3 on May 31, 1913.

6. It will be necessary to insert in the budget for 1914 an amount sufficient to pay for one year the salaries of the following Assistant Inspector, Physicians and Teachers of special branches to fill vacancies existing on May 31, 1913:

Assistant Inspector of Ungraded Classes (for mental defectives)	1
Physicians for Ungraded Classes	2
Teachers of Drawing (women)	5
Teachers of Cooking (women)	17
Teachers of Shopwork (men)	34
Teachers of Physical Training (3 men, 6 women)	9
Teachers of German (3 men, 7 women)	10
Teachers of Sewing (women)	4
Teachers of Music (1 man, 2 women)	3

Note—It should be noted that the teachers of shopwork, cooking andd German teach pupils directly in these subjects.

7. It will be necessary to insert in the budget for 1914 an amount sufficient to pay the salaries for the term set opposite each item of the following special teachers teaching pupils directly, to teach pupils in new shops, kitchens and classes, which will be opened between September 1, 1913, and December 31, 1914.

		Time.
Teachers of Cooking, Sept.-Dec., 1913	5 (women),	12 months.
Teachers of Cooking, Feb.-Dec., 1914	9 (women),	average of 6 months.
Teachers of Shopwork, Sept.-Dec., 1913	12 (men),	12 months.
Teachers of Shopwork, Feb.-Dec., 1914	16 (men),	average of 6 months.

8. It is proposed by the Committee on Studies of the Board of Education to extend instruction in shopwork to 5,990 (estimated) boys of the seventh and eighth years who at present are not receiving instruction in shopwork, and to 5,400 (estimated) boys who are 13 or 14 years of age and will leave school to go to work after completing the 6B grade. If this is done it will be necessary to provide for the appointment of additional teachers of this subject. Provision should be made in the budget for 1914 for 25 teachers of shopwork for eleven months for this purpose.

9. It will be necessary to insert in the budget for 1914 an amount sufficient to pay the salaries for the term set opposite each item of the following teachers employed in supervising teachers in special branches, whom it is proposed to appoint in addition to the existing corps, between September 1, 1913, and December 31, 1914.:

		Time.
Teachers of Physical Training (3 men, 7 women)	10	12 months.
Teachers of Music (1 man, 1 woman)	2	12 months.

The reason for these proposed additions to the corps of special teachers is as follows:

Music.

The districts in The Bronx and the outlying sections of Brooklyn have grown so rapidly that it is impossible for the present corps of teachers of music to do their work efficiently. Two additional teachers are asked for in order that a readjustment of the corps may be made.

Physical Training.

The corps of teachers of physical training assigned to districts, 36 in number, is smaller than the corps of teachers in any other branch. It is desirable that ten additional teachers be provided permitting the assignment of one teacher for each district, in order that the work may be more efficiently carried on.

10. Provision should be made in the estimate for 1914 for the payment for three months of 30 substitutes, 15 in ungraded classes (classes for mental defectives) and 15 in classes of the regular grades, in order to make possible the proposed plan to instruct in the Brooklyn Training School or other institution 30 teachers for the purpose of preparing them properly for the work of teaching mentally defective pupils. It is intended that the teachers be granted in effect a leave of absence, with pay, while receiving instruction. The only expense entailed will be the pay of substitutes while these teachers are receiving the instruction. The time to be allowed will be three months. The need for securing an adequate supply of teachers of ungraded classes (classes for mental defectives), in which there are at present 32 vacancies and for which it is extremely difficult to secure properly trained teachers, makes this arrangement most necessary. This system of training teachers for service in ungraded classes has been tried during the past year with considerable success.

11. Provision should be made for the salaries of the two physicians with the rank and pay of Assistant Director of Physical Training, whose appointments are pending. The physicians are to organize the Department of Educational Hygiene. The business of the department will be to provide professional hygienic guidance in school administration and expert advice to teachers in dealing with exceptional children; in other words, to perform necessary hygienic school duties that are not now performed by the physicians of the department of Health.

12. Provision should be made for one physician, at a salary of $2,000, for the purpose of examining and attending anæmic children taught in open-air classes.

13. Provision should be made in the estimate for 1914 for $25,000 for the employment of 25 visiting teachers at $1,000 per annum. This item was included in the departmental estimate for 1911 by the adoption by the Board of Education on June 22, 1910, of a report presented by the Committee on Elementary Schools, and was also included in the estimate for 1912 and 1913. Two of the visiting teachers have already been appointed for September, 1913.

*14. Provision should be made for increasing the salaries of the District Superintendents from $5,000 to $5,500. The salary of this position is still that which obtained in the Boroughs of Manhattan and The Bronx prior to the passage of the Davis Law, thirteen years ago. Not only have the responsibilities and duties of the position increased greatly during the past thirteen years, but the salaries of practically all other members of the supervising and teaching staff have been increased during this period. Salaries of superintendents throughout the United States have been increased generally from 25 to 50 per cent. during the past ten years. The vital work done by our District Superintendents deserves recognition, especially in view of the fact that the cost of living has increased enormously during the past ten years.

Provision should also be made for the following items which are under consideration by the Committee on By-Laws and Legislation on the recommendation of the City Superintendent.

*15. To raise the maximum salary for the Director of Physical Training from $4,000 per annum to $4,500 per annum.

Reason: The distinguished services rendered by, and the weighty responsibility placed upon, the Director of Physical Training in directing physical training in the

schools, in developing public school athletics outside of school hours, and in organizing proper care for children's health in school (for which purpose two physicians are to be added to this corps of assistants at an early date), render such recognition timely and appropriate. It will be recalled that the Board of Education lost the service of Dr. Luther Halsey Gulick as director of Physical Training through failing to provide adequate remuneration for this office. The office of Director of Physical Training certainly ranks in importance with that of District Shperintendent.

*16. To raise the maximum salary for Assistant Director of Music, Manual Training and Drawing, and Physical Training from $3,000 to $3,300 per annum.

Reason: These offices should rank in dignity and importance with the office of Principal of an elementary school, while their incumbents are obliged to incur considerable traveling expenses to which principals are not subjected. The number of persons affected by this change is at present four.

*17. To change the salary of Inspector of Classes for the Blind from the following: First year, $1,800; annual increase, $200; maximum, $2,400; to the following: First year, $2,400; annual increase, $100; maximum, $2,600.

Reason: Miss Bingham, the Inspector of Classes for the Blind, has made a pronounced success of our experiment of teaching blind children in the company of sighted children in day school, and her success should meet with adequate recognition. She gives the following account of her duties, which affords ample justification for this slight increase. If adopted it will equalize her salary with that of the Inspector of Ungraded Classes.

"To one not familiar with the duties of the supervision of the classes for blind children, it might seem that on account of the small number of classes the task would not be difficult; but, on the contrary, the duties are of a peculiarly arduous nature. The special teachers are appointed from the elementary school list and are trained by the inspector. This requires constant supervision for several months and the conduct of conferences. There is a right way and a wrong way to use each special appliance, and a blind child is terribly handicapped if he is not taught the proper use of them. While I have only thirteen classes under my supervision, in effect I have just as many classes as there are children enrolled, as I must visit the classes for sighted children to which the blind children are assigned. If a blind child is not getting on in any subject I must visit the class to ascertain the difficulties the blind child is meeting and provide a remedy. As no special teacher is assigned to high schools. I must be prepared to coach the high school students in all subjects, visit their classes and be present at all examinations held, in order to interpret their work.

"The open list of text-books necessitates the embossing of many books, and I proof-read every book put into the hands of the blind children in the elementary and high schools. The success of these classes depends upon the ability of the inspector to train teachers for special work in every grade, from the kindergarten through the high school. Only one who has had experience in teaching blind children through all these grades can do efficient work as a supervisor of such classes."

18. To provide a bonus of $500 per annum for the special teacher assigned, under the By-Laws of the Board of Education, to the supervision of the teaching of modern languages in elementary schools. (Approved by Committee on Finance for $400.)

Reason: Mr. Hulshof, who has been assigned to this important duty, receives only the salary of a regular teacher of German, $1,600 per annum. He has performed his supervisory duties during the past two years with exemplary fidelity and ability. He has done much to systematize and to improve the teaching of German and French in elementary schools. While his responsibilities have been enormously increased his salary has actually been diminished, on account of the amount he has been obliged to spend in traveling expenses. Since Mr. Hulshof was placed in charge of the teaching of foreign languages in elementary schools, our high schools, for the first time, have found it possible to give advanced standing in German to pupils entering high school from elementary schools.

19. To pay to teachers of sewing the same salary that is now paid to teachers of music, drawing and physical training: namely, $880 per annum for the first three years of service, and thereafter in accordance with Schedule B2, together with additional compensation at the rate of $100 per annum.

Reason: Teachers of sewing are supervisory teachers, and should, therefore, be paid at the same rate as the other supervisory teachers.

20. To pay teachers of cooking in elementary schools $860 per annum for the first three years of service, and thereafter in accordance with Schedule B2.

Reason: Cooking in elementary schools is taught almost exclusively in the seventh and eighth years of the course. Teacher of cooking should, therefore, be paid in the same schedule as other teachers in the seventh and eighth grades.

*21. To increase the salary of the Principal of the Parental School from $3,000 to $3,500 per annum.

Reason: The present Principal of the Parental School has held the office for four years, and, as has been shown by the recent investigation conducted by officers of the State Department of Education, has made that school in many respects a model institution of its kind. In addition to the supervision of the Parental School, with its farm of one hundred acres, which supplies vegetables not only for the Parental School, but for the other truant schools; its workshops, its kitchen, which supplies bread to the other truant schools; its laundry, which does the laundry work for the other truant schools, the Principal was given, some three years ago, the supervision of the Brooklyn Truant School, which is situated about six miles from the Parental School. This additional labor, which was not contemplated when the present schedule was framed, has obliged the Principal to purchase an automobile at his own expense. The responsibilities of the position, involving, as they do, the care and productive use of farms, workshops, etc., which are worth to-day at least one million dollars, together with the onerous duty of supervising the training of 350 delinquent boys in average attendance, abundantly justify the proposed increase.

22. To appoint an assistant director of cooking. This work is too large for one director to perform. The compensation will be that provided for assistant directors of kindergarten.

23. To increase the salaries of teachers of ungraded classes (classes for mental defectives) from the amounts provided in Schedule B1 to the following: $860 per annum for the first three years, and thereafter in accordance with Schedule B2, plus $100. It has been found impossible to secure a sufficient number of teachers for the extension of this work, 30 to 35 classes being carried each year in charge of substitute teachers. The increased salary will undoubtedly induce some of the teachers of the regular grades who are fitted to perform this work to enter upon it.

24. To carry out the resolution of the Board of Education (9th April, 1913, Minutes of the Board of Education, pp. 621-622) to amend Schedule L2, "if and when the necessary funds are made available," in order to pay teachers of shopwork in elementary schools the following salaries: First year, $900; annual increment, $100, and the maximum, $1,900, to be reached in the eleventh year.

Reason: Skillful teachers of shopwork cannot be obtained at the present salaries. There are at the present time 31 vacancies for shopwork teachers, which are filled by substitutes.

25. To amend Schedule Q2 (Teachers in Schools for the Deaf, section 65, subdivision 34, paragraph 2), so that the minimum salary shall be $850, the annual increment $100 and the maximum, eleventh year, $1,850.

*26. Provision of $22,104 should be made for the employment of teachers to give the teachers in the schools instruction in penmanship.

Reason: Some two or three years ago a uniform system of teaching what is known as muscular movement penmanship was adopted for the schools of the city. This system of teaching penmanship has resulted in securing in many schools and classes penmanship on the part of pupils which a few years ago would have been thought impossible. It is only, however, where the class teachers have learned to use and teach thoroughly well this system that these fine results are obtained. Many principals and teachers have expended considerable sums of money for the purpose of securing instruction in this work. The Board of Education has provided normal classes in evening high schools, but these have not been well attended. The teachers who come from the training schools for teachers are now well prepared to teach this kind of penmanship, but the teachers who come from other institutions have not been so trained, and there are still thousands of older teachers who have not learned how to teach muscular movement penmanship well.

It is proposed to organize from among our own day school teachers a corps of about sixty (60) teachers who have been eminently successful in teaching this kind of penmanship, to give instruction in the afternoons in centrally located schools to teachers who have not attained the required efficiency. It is proposed to pay the leader or director of this corps the same salary that is paid to the principal of an evening high school, namely, $7 per session of actual service, and to each of the corps of sixty (60) teachers the same salary that is paid to teachers of evening high schools, namely, $5 per session.

Assuming that the service of this director and these teachers will be required for two sessions per week for thirty-six (36) weeks, an amount of $22,104 should be provided.

Respectfully submitted, WILLIAM H. MAXWELL, City Superintendent.

*Subsequently reconsidered and disapproved—See Document K.

DOCUMENT B.

Day High Schools.

Hon. John Greene, Chairman, Committee on Finance:

Dear Sir—I beg to advise you that at a meeting of the Committee on High Schools and Training Schools held on July 22, 1913, the enclosed statements from the Board of Superintendents, setting forth the items relating to

(a) High Schools,
(b) Training Schools,

for insertion in the Departmental Estimate for 1914, were considered, and, on motion, it was ordered that they be approved and referred to the Committee on Finance.

Respectfully yours, A. E. PALMER, Secretary, Board of Education.

To the Committee on High and Training Schools:

I beg leave to present the following statement of items relating to high schools for insertion in the budget for 1914:

In the case of the following items information will be supplied, as in former years, by the Auditor of the Board of Education:

Salaries during the year 1914 of principals, teachers et al., in service May 31, 1913.

Increase in salaries due to the operation of the salary schedules during 1914.

Estimated amount required to pay substitutes in place of absent teachers during 1914.

In addition to the above, funds should be provided for the following items:

1. Salaries during 1914 of teachers for vacancies existing in the several high schools on May 31, 1913.

	Men.	Women.
First Assistants	3	..
Assistant Teachers	61	48
Machine Shop Assistants	2	..
Laboratory Assistants	7	4
Library Assistants	..	1
Clerical Assistants	2	1
	75	54 (Total 129)

Of these the following have already been filled by appointment for September, the remaining positions to be filled by substitutes until regular appointments are made:

	Men.	Women.
Assistant Teachers	29	22
Laboratory Assistants	5	3
Library Assistants	..	1
Clerical Assistants	2	1
	36	27 (Total 63)

2. Salaries during 1914 of principals and teachers for new positions necessary to be established during the fall of 1913:

	Men.	Women.
Principals (Julia Richman and Evander Childs High Schools)	2	..
First Assistants	2	..
Assistant Teachers	42	53
Laboratory Assistants	..	1
Library Assistants	1	1
Clerical Assistants	2	3
	49	58 (Total 107)

Of these the following have been authorized for September. The number of places that have already been filled by appointment is also given.

Number Authorized.

	Men.	Women.
Principals	2	..
First Assistants	2	..
Assistant Teachers	35	54
Clerical Assistants	..	2
	39	56 (Total 95)

Number Filled by Appointment.

	Men.	Women.
Principals	2	..
First Assistants	1	..
Assistant Teachers	32	22
Clerical Assistants	1	3
	36	25 (Total 61)

3. Salaries for ten months of teachers for new positions necessary to be established during the spring of 1914:

	Men.	Women.
First Assistants	8	4
Assistant Teachers	46	54
Laboratory Assistants	4	..
Clerical Assistants	4	4
Library Assistants	1	1
	63	63 (Total 126)

4. Salaries for three months of teachers for new positions necessary to be established during the fall of 1914:

	Men.	Women.
First Assistants	2	1
Assistant Teachers	15	26
Clerical Assistants	2	2
Laboratory Assistants	1	..
Library Assistants	..	1
	20	30 (Total 50)

The estimate given above of teachers needed during the fall of 1913 and the spring and fall of 1914 is made up from the individual estimates of the several principals as found upon their budgetary reports and corrected by District Superintendent Bardwell and City Superintendent Maxwell. The following tabulation shows: (1) the number of teachers estimated by each of the several high school principals, (2) the number of teachers approved by District Superintendent Bardwell after a scrutiny of the data presented by the principals in support of their requests:

	1st Asst.	Asst.	Lab. Asst.	Lib. Asst.	Cler. Asst.	Total.
Estimate of Principals	2	90	1	1	4	98
Estimate of Dist. Supt. Bardwell	3	69	1	1	4	78
Estimate of City Supt. Maxwell	3	41	1	1	4	50

It will be seen that the estimates as prepared by the principals have been reduced to the following figures which are made the basis of my request for funds at the beginning of this report:

	From	To	Reduction.
Fall of 1913	138	105	33
Spring of 1914	159	126	33
Fall of 1914	98	50	48
Total reductions			114

Of the estimate of 105 teachers approved by me for the fall of 1913 a very large number is due to the opening of two new high schools, the Julia Richman High School in Manhattan, and the Evander Childs High School in The Bronx. While the Evander Childs High School requires the creation of but three new positions; the Julia Richman High School will require, according to the estimate of the principal, approved by District Superintendent Bardwell the creation of 75 new positions. A deduction of 14 positions has been made from this estimate because of a possible over-statement of the needs for the new Julia Richman High School, and because of probable consolidation of positions in the Washington Irving High School, although the principal of the latter school has asked for an increase of 19 teachers rather than a reduction of teachers as is anticipated. Inasmuch as 95 of the 105 positions asked for this coming fall have already ben authorized, it is not probable that the estimate above submitted can be reduced.

With reference to the number of new teachers estimated for the spring and fall of 1914 it will be seen that the average increase in register in the high schools during the past five years, March over March, has been 4,081. The average increase during the past five years, October over October, has been 4,023. The estimated increase in register for the year ending March, 1914, as given by the principals is 7,995. The estimated increase in register for the year ending October, 1914, over the estimated increase in register for October, 1913, as given by the principals, is 8,048. Assuming that the increase in register during 1914 will be at the same rate as the average increase during the past five years, we shall have an estimated increase in register during 1914 of 4,052. Allowing one instructor (exclusive of clerical and library assistants, et al.) for every 26 pupils, we have an estimated increase in the number of instructors needed during 1914 of 156. This number, with the necessary clerical assistants, laboratory assistants, et al., enumerated in the detailed estimate above, 20 in all, will give an estimate of 176 teachers needed during 1914, 126 for the spring term and 50 for the fall term. The divisor, 26, used above, represents the approximate average number of pupils per instructor (other than clerical and library assistants, et al.), on March 31, 1913.

I believe the above estimate of 176 teachers to be added during 1914 to be a most conservative one. While we have taken as the estimated increase during 1914 the average increase during the past 5 years 4,052, it is probable that with the opening of the two new high schools mentioned above the increase in register will be considerably more than that figure.

1909-1910	30,252	2,764	10.1
1910-1911	32,492	2,240	7.4
1911-1912	36,119	3,627	11.2
1912-1913	39,073	2,954	8.2

Average increase for 5 years, 3,322.

The following items presented last year to be included in the estimate for the present year are again presented to be included in the estimate for 1914.

5. $15,050 for the establishment of evening sessions in the High School of Commerce, Manhattan; said sum to be used for the payment of one principal of $7.50 per night and twenty teachers at $5 per night, four nights per week, for thirty-five weeks.

6. $22,000 for the establishment of five continuation high schools for boys and girls during the months of July and August, 1914; said sum to be used for the payment of five principals at $10 per day each and one hundred teachers at $5 per day each for forty days.

7. Provision should be made for 20 placement and investigation assistants at an average salary of $1,200 for the following high schools: Manhattan, The Bronx, Brooklyn and Richmond, one for each school; in Queens, Bryant, one; Flushing and Newtown, one; Richmond Hill, Jamaica and Far Rockaway, one. It is of the utmost importance that this practical and much needed phase of vocation guidance be begun in the high schools at the earliest possible time.

8. Provision should be made for an additional compensation of $500 per annum, to be paid to each of two first assistants to be assigned at large, one to assist in the supervision of the instruction in modern languages and the other to assist in the supervision of the instruction in commercial branches in high schools.

Respectfully submitted, WILLIAM H. MAXWELL, City Superintendent of Schools.

DOCUMENT C.

Training Schools for Teachers.

To the Committee on High Schools and Training Schools:

I beg leave to present a statement of the items relating to the training schools for insertion in the budget for 1914.

In the case of the following items information will be furnished, as in former years, by the Auditor of the Board of Education.

Salaries during the year 1914 of principals, teachers, etc., in service May 31, 1913.

Increase in salaries due to the operation of the salary schedules during 1914.

Estimated amount required to pay substitutes in place of absent teachers during 1914.

In addition to the above, funds should be supplied for the following items:

1. Salaries during 1914 of teachers for vacancies existing in the several training schools on May 31, 1913:

	Men.	Women.
Assistant Teachers	1	3
Model Teachers	..	5
Clerical Assistant	..	1
Total	1	9—10

Of these the following have already been filled by appointment for September, 1913, the remaining positions to be filled by substitutes until regular appointment is made.

	Men.	Women.
Assistant Teachers	1	1
Model Teachers	..	2
Total	1	3—4

2. Salaries during 1914 of teachers for new positions necessary to be established during the fall of 1913:

	Women.
Assistant Teachers	2

One of these positions has been filled by appointment for September 5, 1913.

3. Salaries during 1914 of teachers for new positions necessary to be established during the spring of 1914:

Assistant Teacher ..... 1 woman for 11 months

The following table shows the register of students in the three training schools for the past four years under date of March 31:

Year.	Register.
1910	2,218
1911	2,131
1912	1,865
1913	1,983
1914 (estimated)	2,080

4. Provision should be made for putting into effect the proposed amendments to the schedules of model and critic teachers in the training schools to pay model and critic teachers in the Training Schools for Teachers in accordance with the amendment to Schedule F4, reported by the Committee on By-Laws and Legislation, approved by the Committee on High Schools and Training Schools, and passed by the Board of Education on 9th April, 1913, "if and when the necessary funds are available." (See Minutes, Board of Education for 1913, pp. 621-622.) Under the proposed schedule the minimum salary is $1,050, the annual increment is $125 and the maximum (9th year) $2,050.

Reason: Since training schools were founded it has been the custom to pay model teachers and critic teachers higher salaries than those paid to teachers in the district schools. This policy was adopted originally in order to secure the best elementary school teachers in the system to serve as models and critics for the teachers-in-training. Under the "equal pay" law, in some years of the new schedule the salaries are actually lower than those paid under the Davis law; while, in view of the increase in the salaries of women teachers in the district schools, the salaries now paid to model and critic teachers are no longer attractive to our most accomplished teachers, who, alone, should be appointed in training schools for teachers.

Since the action taken by the Board of Education on April 9 with reference to these teachers the Committee on By-Laws and Legislation has decided that critic teachers should have an additional compensation of $100 per annum. Provision for this additional compensation for critic teacher should also be made.

5. Provision should be made for $25,000 to defray the expenses of courses of instruction in the Training Schools for teachers in service. It is proposed with this sum to organize in our Training Schools for Teachers supplementary courses for training teachers of shopwork, speech defects, physical training and mental defectives, because of the impossibility of obtaining from existing sources of supply a sufficient number of teachers trained in these particular kinds of school work, to supply the demand, or in other words, to fill vacancies in these teaching activities promptly as they occur. It is also proposed with part of this money, if granted, to establish post-graduate courses in these schools for the purpose of increasing the efficiency of grade teachers in the service. (Subsequently reduced to $5,000.)

(Signed) WILLIAM H. MAXWELL, City Superintendent of Schools.

DOCUMENT D.

Vocational Schools.

Hon. John Greene, Chairman, Committee on Finance:

Dear Sir—On behalf of the Committee on Vocational Schools and Industrial Training, I have the honor to transmit herewith the estimate of the number of teachers required for service in the Vocational School for Boys and the Manhattan Trade School for Girls during the year 1914, for insertion in the budget.

Yours very truly, MARTHA LINCOLN DRAPER, Acting Chairman, Committee on Vocational Schools and Industrial Training.

To the Committee on Vocational Schools and Industrial Training:

I beg leave to submit herewith a statement of the items which should be included in the departmental estimate for vocational schools for the year 1914:

In the case of the following items information will be supplied, as in former years, by the Auditor of the Board of Education.

Salaries for the year 1914 of principals, teachers, etc., in service May 31, 1913.

Increases in salaries due to the automatic provision of the By-Laws during the year 1914.

Estimated amount required to pay substitutes in place of absent teachers during the year 1914.

In addition to the above items, the following additional items are submitted in order that funds may be provided:

1. To fill vacancies existing in the teaching and supervising force on May 31, 1913, as follows:

Vocational School for Boys—	Men.
Teachers	16
Placement and Investigation Teacher	1
Total	17

Manhattan Trade School for Girls—	Women.
Vocational Teachers	4
Non-vocational Teachers	2
Department Vocational Teachers	3
Trade Order Teachers	3
Assistant Trade Order Teachers	6
Teacher Clerks	1
Vocational Helpers	1
Total	20

2. Teachers, etc., for new positions necessary between September 1, 1913, and December 31, 1913:

Vocational School for Boys—	Men.
Teachers	4

3. Teachers, etc., for new positions necessary between January 1, 1914, and December 31, 1914:

Vocational School for Boys—	Men.
Teachers	4

For a period of eleven months.

Manhattan Trade School for Girls—	Women.
Teacher of Cooking	1
Teacher of Physical Training	1
Assistant in charge of annex (at salary of head of trade department)	1
Trade Order Teachers	5
Total	8

For a period of eleven months.

In support of the estimate for new teachers for these schools the following data are given:

Vocational School for Boys.

No increase is asked for the established activities of this school. An increase is asked for the following new activities:

(a) Four new positions to be established between September and December, 1913, as follows: Automobile repairs, sheet metal work, terra cotta modeling and tile laying.

(b) Four new positions to be established in February, 1914, as follows: Photo engraving and process work, linotype operation, electric sign making and operating, and sign painting.

These new activities will supply their own registers and will have the effect of increasing the number of pupils receiving instruction in other subjects taught in the school. A statement of the Principal of the Vocational School for Boys in support of the establishment of these new activities is given as an appendix to this report. The increase in register in March over the preceding March and of October over the preceding October since the school was established in September, 1909, is given below:

Increase in register—March over preceding March:

Year.	Register. March 31.	Increase.	Percent. of Increase.
1910	216	...	....
1911	382	166	76.9
1912	529	147	38.5
1913	547	18	3.4

Increase in register October over preceding October:

Year.	Register. October 31.	Increase.	Percent. of Increase.
1909	116	...	...
1910	245	129	111.2
1911	431	186	76
1912	478	47	10.9

Manhattan Trade School.

The teacher of cooking and the teacher of physical training asked for during 1914 are for the more efficient instruction of the pupils in the Manhattan Trade School in these two subjects and for the instruction of the new pupils in the proposed annex. The assistant in charge of annex and the five trade order teachers are needed for a proposed annex to the Manhattan Trade School.

There is at present a waiting list of 81 for admission to this school. If additional accommodations are provided there will be a very large increase in register. The rapid growth of this school after its opening in September, 1910, ceased only when the school had reached its capacity for instruction.

The increase in register of March over the preceding March and of October over the preceding October since this school was established in September, 1910, is given below:

Increase in register March over preceding March:

Year.	Register. March 31.	Increase.	Percent. of Increase.
1911	351	...	...
1912	420	69	16.8
1913	508	88	21

Increase in register October over preceding October:

Year.	Register. October 31.	Increase.	Percent. of Increase.
1910	293	...	...
1911	420	127	43.3
1912	431	11	2.6

4. Provision should also be made for the following item, which has been approved by the Committee on By-Laws and Legislation:

To pay to teachers assigned to teach non-vocational subjects in a vocational or trade school a salary of $980 per annum for the first five years of service, and thereafter in accordance with Schedule B2, together with additional compensation at the rate of $130 per annum. (To amend section 65, subdivision 35 of the By-Laws.)

Reason—Teachers in vocational or trade schools are required to teach seven hours a day, eleven months in the year instead of, as in the case of other teachers, five hours a day ten months in the year.

Respectfully submitted, WILLIAM H. MAXWELL, City Superintendent of Schools.

Explanatory Statement by the Principal of the Vocational School for Boys.

One teacher will be required for each of the following four new activities already authorized by the Board of Education for the September term. Funds for these new activities have been granted by the Board of Estimate but no provision has been made for teachers of the new subjects.

It is not essential to have any guarantee of large numbers of applicants at first for any one of these or any other branches of work we might undertake. The aim should be rather to so extend the scope of our work as to meet the rational needs of boys who desire to enter the industrial field. In a broadened field of industrial training opportunities will be presented for many who are perhaps groping at the present time.

The proposition presented includes provision for some boys who would like to enter the domain of industrial workers, but who are not fitted physically nor temperamentally for the heavier forms of manual labor. Such boys ought to be provided for.

These recommendations are in line with the report of the Special Committee on School Inquiry, which recommended broadening the scope of our work.

Automobile Repairing.

This work would be a most valuable addition to our course, and could be taken in connection with the machine and forge work now being done in the school. It would include the mechancal side of the work and the details of motor construction, engine adjustment and repairing. The boys so equipped and trained would be able to detect trouble in a car, adjust it and make any machine repairs required. It would qualify them to specialize as mechanics, auto salesmen, garage men or chauffeurs.

Cornice and Sheet Metal Work.

During recent years there has been such an increase in the use of sheet metal in building construction that to-day mechanics who handle this line of work are in a class by themselves.

Numerous shops have been opened by men who are prepared to install anything in the line of sheet metal from a simple window cornice to the entire casing of a building.

There are opportunities for boys in this industry which would make it well worth while to introduce it into the Vocational School for Boys.

Included in this course would be instruction in designing and making plain and ornamental cornices, wall and ceiling sheathing, pipe and tube work, etc., and there are splendid correlative possibilities in the departments of drawing and design, a feature that well merits attention.

Tile Laying.

The increased use of tile in the various lines of building construction has created a growing demand for efficiently trained tile setters. Each year sees this line of work extended but without corresponding provision being made for supplying competent workers, so that it offers an unusual opportunity for the extension of our activities.

I plan to include preparatory instruction, making bids, etc.; floor tile work: wall work and mantel setting. Supplementing this would be instruction in the principles of design as applied to tile work, mechanical drawing in relation to designing and laying tile, together with the elements of chemistry.

Plaster Modeling for Terra Cotta Workers, Stone Cutters, Etc.

During the last thirty-four years architectural terra cotta has been consistently developed until now it has reached a point where, in structural efficiency and in possibilities for architectural treatment in form and color, it comes close to being the ideal metropolitan building material.

During this period no technical school in the country has offered anything more directly applicable to this work than a course in elementary ceramics.

We have planned a course that includes a study of the entire field of terra cotta modeling for both interior and exterior purposes. Correlative work in drawing and design would make this a strong course. The architect's or designer's ideas as pictured in the flat would find expression in the round at the hands of our pupils through the medium of plaster models, plain or colored.

Models of this kind for use by ornamental plasterers, stonecutters, wood-carvers, metal-workers, etc., would also find an appropriate place in the course as I plan it. In fact, there is a very wide range of possibilities in this line, the object being to give the students a thorough training in the principles governing the proper modulations of surfaces and forms to produce pleasing and suitable effects of form and light and shade, together with practical experience in the application of this knowledge to various forms of plastic art. Taken in connection with our work in commercial design, this and the other proposed course in sign painting would form an industrial art department that well merits consideration.

The new activities planned for 1914, for which one teacher in each will be required, are:

1. Linotype Operating.
2. Electric Sign Making and Operating.
3. Photo-engraving and Process-work.
4. Sign Painting.

These are all desirable lines of work, which, together with those planned for 1913, will afford splendid opportunities for boys. They suggest varied possibilities; they are trades in which there are opportunities for employment for boys; they provide work and training for boys having varying and different aptitudes.

If these new lines of work be introduced we shall be able to offer instruction in

a. Several of the building trades.
b. Several typical lines of factory work.
c. Some lines of work based on art and its application.
d. Some trades which are out-door work, although they are not building trades.

DOCUMENT E.

Hon. John Greene, Chairman, Committee on Finance.

Dear Sir—I have the honor to advise you that at a meeting of the Committee on Athletics held on June 18, 1913, the following resolution was adopted:

"Resolved, That, while this Committee is of the opinion that in view of the fact that the work of the Director and Assistant Directors of Physical Training is intimately concerned with the success of after-school athletics, and believes that the services of Dr. C. Ward Crampton as Director of Physical Training are worth the sum of $5,000 per annum and that the Assistant Directors of Physical Training are worth a maximum salary of $3,500, yet in view of the present financial condition of the City, the Committee considers it is compelled to limit itself to recommending that the salary of Dr. Crampton be increased to $4,500 per annum, instead of $3,800, and that the Assistant Directors be granted an increase of $300, and that funds be provided for in the Budget Estimate for 1914 accordingly."

Respectfully yours, A. E. PALMER, Secretary, Board of Education.

DOCUMENT F.

Mr. Henry R. M. Cook, Auditor, Board of Education, 500 Park Avenue, New York.

Dear Sir—In accordance with your letter of July 22d addressed to Mr. Frederic C. Howe, I herewith enclose memorandum showing the details of the desired appropriations for janitorial costs in social centres.

The memorandum has been prepared and is subscribed to by the following persons:

Mr. Lee F. Hammer, Sage Foundation, Department of Recreation;
Mr. Orrin G. Cocks, Laity League Social Service (Federation of Churches);
Mr. Seymour Barnard, The Brooklyn Parks and Playgrounds Committee;
Mr. Clinton S. Childs, New York Social Centre Committee;
Mr. Frederic C. Howe, The People's Institute;
Mr. Edward Barrows and Mr. Lester F. Scott, People's Institute.

It has not been possible to assemble the Federation Committee of all the social centres agencies, but this Committee will, without doubt, endorse the enclosed memorandum *in toto*.

If there is any further detailed information of any kind that is needed will you kindly let us know?

Very truly yours, JOHN COLLIER.

We submit herewith on behalf of the various organizations interested in social centres, a recommendation as to appropriation for janitorial costs in social centres.

Though the movement to establish social centres is going ahead rapidly, the following recommendations are based wholly on established centres or centres for which definite and reliable plans have been made.

Our first recommendation is that, in preparing the budget, a schedule of compensation be adopted for janitors in social centres based on the schedule now in force for recreation centres. The work, so far as the janitor is concerned, is practically identical. We would therefore recommend the following schedule:

For indoor playground, including opening of building	$2 00
For outdoor playground, including opening of building	2 00
For auditorium, including opening of building	2 00
For indoor playground, not including opening of building	25
For outdoor playground, not including opening of building	25
For auditorium, not including opening of building	1 00
For rooms, from 1 to 12	1 00
For rooms, from 13 to 25	1 50
For rooms, from 26 up	2 50

In suggesting the above schedule, we would point out that it would apply to social centre work operating more or less continually, most of the expenses being met by voluntary subscription; and yet these centres will be open to the general public and will be in every sense public work. Under these conditions we feel that it would be reasonable to base the janitorial payments on a scale no higher than that which applies to recreation centres.

The following itemization of janitorial expenses, by schools, is based on the assumption that the above janitorial schedule is adopted:

P. S. 63, Manhattan, for 166 nights	$500 00
P. S. 41, Manhattan, for 166 nights	500 00
P. S. 7, Manhattan, for 133 nights	400 00
P. S. 66, Manhattan, for 150 nights	450 00
P. S. 66 or 101, Manhattan, for 83 nights	250 00
P. S. 95, Manhattan, for 75 nights	225 00
P. S. 62, Manhattan, for 100 nights	300 00
P. S. 150, Brooklyn, for 100 nights	300 00
Manual Training High School, Brooklyn, for 75 nights	225 00
Commercial High School, Brooklyn, for 75 nights	225 00
P. S. 8, Brooklyn, for 50 nights	150 00
P. S. 5, Brooklyn, for 50 nights	150 00
P. S. 91, Brooklyn, for 133 nights	400 00
P. S. 30, Bronx, for 100 nights	300 00
P. S. 45, Bronx, for 75 nights	225 00
P. S. 4, Bronx, for 75 nights	225 00
P. S. 16, Richmond, for 50 nights	150 00
For 50 concerts in the above named and in other schools, arranged for by the People's Music League	150 00
	$5,125 00

Explanatory Note—The above statement is as precise as it can be made, for the following reasons:

1. Only two social centres are now operating as many nights as it is planned they shall do during the coming year. These centres are Public Schools 63 and 41, Manhattan. The other centres represent beginnings that have been made or plans that have been definitely adopted by local groups and which we are assured will be carried out. The various groups expect to have the buildings open an increasing number of nights as the work develops.

In every case we have stated the number of nights on which the centre will be open *lower* than the actual probability. Both Public Schools 41 and 63 are operating about 275 nights during the year at present, but we have figured only 177 nights. In other words, in most or all the above cases the amount we suggest as a janitorial allotment will be insufficient and the difference will have to be raised by voluntary effort. But the amounts we have suggested will largely cover the janitorial costs and are free from the speculative element—that is, they will be below, not above, the actual expenditure in 1914.

2. Even when it is known that a building will be open a given number of nights during the year as a social centre it cannot be stated in advance how many rooms or what rooms will be opened. Every centre develops a distinct policy, and the activities vary at different times of the year. We suggest an allowance of three dollars ($3.00) per evening for each centre, which provides for the cost of opening the building, allowing the use of the auditorium, or indoor or outdoor playground, or a combination of these, and a limited number of rooms. Experience indicates that an average janitorial expense will be about three dollars ($3.00) according to the schedule which we have suggested be adopted.

In the case of each school recommended above, a detailed showing can be made as to the need for social centre work and for the fact that responsible groups stand ready to undertake the work, provide the local leadership and meet the additional expenses. If it be desired a full statement of the details in each case can be provided, but such a statement would be rather voluminous.

Respectfully, JOHN COLLIER, for the following-named persons, who subscribe to these recommendations: Frederic C. Howe, Lester F. Scott, Lee F. Hammer, Orrin G. Cocks, Edward M. Barrows, Seymour Barnard, John Collier.

DOCUMENT G.

Hon. John Greene, Chairman, Committee on Finance.

Dear Sir—I beg to transmit herewith a communication from the Board of Superintendents, under date of July 17, 1913, relating to budgetary items, which are made necessary by carrying out the provisions contained in the report of the Committee on Studies and Text-Books presented to the Board of Education on June 25, 1913, and respectfully ask that you include this in the Departmental Estimate for 1914.

Yours very truly,

IRA S. WILE, Chairman, Committee on Studies and Text-Books.

Hon. Ira S. Wile, M. D., Chairman, Committee on Studies and Text-Books, Board of Education, City of New York.

Dear Sir—Referring to the recommendations of your Committee (1) that shopwork be begun in the fifth year; and (2) that, pending proper facilities throughout the elementary system for carrying out the above, "shopwork be made immediately available for boys over thirteen years of age in all elementary schools where there are shops at present," I beg to advise you that these matters have been very carefully considered by the Board of Superintendents, and at a meeting held on the 16th inst. the following resolutions were adopted:

Resolved, That in order that shopwork may be taught to the boys of the 7th and 8th years who at present are not taking shopwork, and to boys of 13 years of age below the 7th year who are about to leave school, the Committee on Studies and Text-Books of the Board of Education be requested to ask the Committee on Finance of said Board to incorporate in the budget for 1914 the following items, under their appropriate headings:

Number of boys who can be taught in shop equipped for 30 boys at sixty minutes per week	750
Number of boys in the 5th and 6th years who went to work in the year ending June 30, 1911	5,388

Schools in Manhattan in which shops are not on full time: P. S. 21, 23, 26, 27, 29, 40, 43, 44, 52, 67, 75, 79, 114, 132, 169, 186.

Some of the schools in Manhattan in which there are shops but no eighth year pupils: P. S. 2, 7, 65.

Schools in Brooklyn in which shops are not on full time: P. S. 3 11, 12, 16, 27, 30, 31, 35, 45, 70, 72, 89, 91, 92, 98, 102, 103, 103, 104, 110, 112, 114, 119, 126, 127, 128, 130, 134, 139, 150, 152, 153, 157, 158, 160, 163, 164, 165, 168.

Schools in The Bronx in which shops are not on full time: P. S. 1, 6, 11, 16, 32, 33, 34, 36, 44, 47.

"In the case of the boys of the 7th and 8th years who have no shopwork outside rooms must be rented, because, to illustrate, in such large schools as Public School 22 and Public School 171, Manhattan, there are no shops; and because, in Public School 188, Manhattan, and Public School 73, Brooklyn, only 8th year boys can be instructed.

"To accommodate 5,990 boys, 13 rooms of 1½ units, accommodating 30 boys at a time, would have to be rented. If each of these rooms averaged about $700 rent it would mean an annual expense of $9,100 for rents.

"The shopwork supplies for each boy cost 77 cents per year, making an outlay of $4,612.30.

"The equipment of 13 shops to accommodate 30 boys each, at $670 per shop, will amount to $8,710.

"There will be needed 13 teachers at an average salary of $1,260, making annually $16,380.

"To accommodate 5,388 boys who leave at 14 years of age, and who are below the 7th year, it may be possible to find room for, say, one half of these in shops already equipped. This is a mere guess. But they will need teachers and supplies.

"For teaching 5,388 boys (assuming that a teacher can take 450 boys for 80 minutes a week) a sum must be provided to pay 12 teachers, at an average of $1,260	$15,120 00
"For supplies for 5,388 boys, at 77c. each	4,148 76
"Equipment for six rooms, to take care of one-half of 5,388 boys, viz., 2,699 boys, at $670 per room	4,020 00
"Supplies for 11,378 boys, at 77c. per day	8,761 00
"Teachers	31,500 00
"Equipment (Building Bureau) of 19 shops at $670	12,730 00
"Rents (Building Bureau) for 19 rooms at $700	13,300 00
Total	$66,291 00"

Resolved, That wherever possible and as soon as possible, all boys in the 6th year be given an opportunity to work in the shops, even if for only 60 minutes per week.

In connection with the foregoing, Associate City Superintendent Straubenmuller reported as follows:

"As to the latter (recommendation 2) it is very evident that only such boys are meant as do not expect to reach the seventh year, where they would have shopwork.

"In connection with the above, it should be remembered that there are now 5,990 boys in the 7th and 8th years who have no shopwork, and 5,388 boys who leave school in the 5th and 6th years to go to work (Report of Mr. George H. Chatfield, in Annual Report of the City Superintendent of Schools for the year ending June 30, 1911).

"It is evident that the first step to be taken should provide for the instruction of these 11,378 boys. To do this intelligently the following facts may be of service:

Number of shops in 198 school buildings	203
Number of shops used only part-time	110
Number of pupils in 7th and 8th years who have no shopwork	5,990
Number of schools without shops in which 7th and 8th years pupils receive instruction in neighboring schools	20
Number of shopwork teachers (including substitutes)	155
Number of shopwork teachers with spare time	None
Number of pupils below 7th year who now have shopwork	None
Cost per pupil per year for shopwork supplies	77c.
Cost of equipping a shop for 30 boys	$670
Space needed to accommodate 30 boys	1½ units
Number of pupils who can be taught in a shop equipped for 30 boys, at eighty minutes per week	450

"The total cost of introducing both plans will be:

For supplies		$8,761 00
For teachers		31,500 00
For equipment (Bureau of Buildings)		12,730 00
For rents (Bureau of Buildings)		13,300 00"

Respectfully submitted, WILLIAM H. MAXWELL, City Superintendent of Schools.

Committee on Finance of the Board of Education:

The Committee on Vocational Schools and Industrial Training desires the use of the premises and equipment of the Murray Hill Trade School for prevocational education. DOCUMENT I.

Committee on Finance of the Board of Education:

The Committee on Vocational Schools and Industrial Training has in mind the establishment of a home-making course in our elementary schools, to which girls about fourteen years of age are to be admitted. Such a course may be established in a centrally located school and draw its pupils from neighboring schools. The course is to be of a year's duration.

Aim: To perfect the future housewife by arousing an interest in homekeeping, by imparting knowledge of important theoretical and practical questions arising in homekeeping; by instilling habits of industry, honesty, order, cleanliness and thrift.

What Homekeeping Is: A labor of love, the chief requisite characteristic of which is unselfishness.

Means: A furnished flat consisting of a living room, a bedroom, a kitchen, a bathroom. In addition, a large kitchen accommodating a large class.

Cooking: Principles and processes of plain cooking; measuring and weighing. A dinner to be cooked each day for girls attending. Catering for small and large numbers (two to ten).

Laundry: Articles brought from home washed, starched, ironed, from unbleached muslin to fine muslin, laces, collars and cuffs, men's shirts, blankets. Scrubbing, sweeping, dusting.

Arithemetic: Accounts; purchasing of materials; comparison of cost of food to dietetic value. Bill of fare from standpoint of economy and income.

Hygiene and First Aid: Personal, household, municipal hygiene. Digestion. Water, ventilation, sanitation; clothing, care of habits, personal cleanliness; care of invalids and young children, management of the sick room. First aid.

Chemistry: Soap; presentation of foods; adulteration (how to detect common adulterations; bill of fare from standpoint of age and occupation of members of family; cleaning of kitchen utensils; balancing of foods; values of different kinds of fuel; food values.

English: Reading of books on cooking, sanitation, government reports, etc.; composition; ordinary reading of regular schools.

DOCUMENT J.

Committee on Finance of the Board of Education:

The Committee on Vocational Schools and Industrial Training requests that an item of $5,000 be included in the budget for 1914, as an emergency fund, said fund to be placed in charge of the Committee on Finance, and to be expended subject to the approval of the President of the Board of Education.

It has frequently occurred in the past that money has been needed for exhibits, for which no appropriation had been made and for certain supplies, such as machinery, for which no appropriation had been made in the budget, which had to be purchased immediately that they might be had cheap; for supplies demanded by certain new regulations in the course of study, etc. In short, we have been handicapped for money to be expended for purposes that could not be foreseen at the time the budget was made up. In other cities principals of vocational schools have money for expenditure at their discretion for such supplies as machinery and tools.

Yours respectfully, JOHN MARTIN, MARTHA LINCOLN DRAPER, on behalf of Committee on Vocational Schools and Industrial Training.

DOCUMENT K.

Hon. John Greene, Chairman, Committee on Finance:

Dear Sir—I have the honor to advise you that at the meeting of the Committee on Elementary Schools held on August 6, 1913, it was moved and adopted that the action taken at previous meetings recommending that the salary schedules for the position of District Superintendent, Director of Physical Training, and Assistant Directors of Manual Training, Physical Training and Music and Inspector of Classes for the Blind be increased, be rescinded.

It was further moved and adopted that the item relative to increasing the salary of the principal of the New York Parental School be omitted from the Departmental Estimate for the year 1914.

It was also moved and adopted that the action taken in requesting that $22,104 be inserted in the Departmental Estimate for the year 1914 for the purpose of employing teachers to give teachers in schools instructions in the muscular-movement penmanship be reconsidered, and that the City Superintendent be requested to take steps to the end that classes in penmanship for teachers may be organized and that they be taught by the special teachers without extra remuneration.

Respectfully yours, FRED H. JOHNSON, Assistant and Acting Secretary, Board of Education.

GENERAL SCHOOL FUND, 1914 (SCHEDULE NO. 155).

Vacancies in the Supervising and Teaching Corps May 31, 1913.

Estimated cost (for 1914 only) of salaries of persons required to fill vacancies existing in day schools and in supervising positions on May 31, 1913. These positions generally were in charge of substitutes on May 31, 1913, and consequently do not enter into the name by name computation shown in General School Fund Schedule No. 2, preceding. No funds are asked for substitute service in vacancies, but provision is made below for the cost (for 1914 only) of making permanent appointments to the vacancies existing May 31, 1913, thereby dispensing with the services of substitutes employed in vacancies on that date.

GENERAL SCHOOL FUND, 1914 (SCHEDULE NO. 166).

After-School Athletic Playgrounds and competitions.

(See separate volume for greater detail.)

In previous years two items have appeared in the Estimate of the Department of Education, as follows: First, under the item of Specific Professional Control has appeared, a sub-item, "Teachers assigned to control and management of after-school athletics," and, second, under the item of Vacation Activities has appeared a sub-item "Afternoon Playgrounds." The sum of $3,000 was apportioned under the first item for 1913; nothing was apportioned under the second item for 1913. It is proposed in 1914 to organize a greater number of After-School Athletic Playgrounds under the direction of the Director of Physical Training.

	Proposed No. of Sessions, 1913.	Recommended No. of Sessions, 1914.	Rate per Session.	Estimate for 1914.

Substitutes for Absentees and Other Per Diem Teachers.

(This item has no connection with the employment of substitutes in vacancies.)

Day Elementary Schools.

The cost of regular substitutes in place of absentees in Day Elementary Schools from January 1 to June 30, 1913, 121 school days, was $250,828.09; cost on same basis for 192 school days in 1914 will be	$398,008 20	
Add 10 per cent. for average increase of 1914 over present rate of January-June, 1913	39,800 82	
	$437,809 02	
The cost of special substitutes (pupil teachers) assigned from the several training schools for teachers to service in Day Elementary Schools from January 1 to June 30, 1913, 121 school days, was $33,239.88; cost on same basis for 191 school days in 1914 will be	52,469 55	
The cost of substitutes for absentees in special branches in Day Elementary Schools from January 1 to June 30, 1913, 121 school days, was $4,118.57; cost on same basis for 191 school days in 1914 will be	6,501 20	
The cost of 496 substitute additional Teacher-Clerks now employed at the rate of $3.50 each per day, and 2 at the rate of $4.50 each per day for 201 days in 1914 will be	350,745 00	
The cost of 4 substitute additional Clerks at large now employed at the rate of $4 each per day, and 13 at the rate of $3.50 each per day for 280 days in 1914, and 1 at the rate of $2.50 per day for 200 days in 1914 will be	17,720 00	
		$865,244 77

Day High Schools.

The cost of substitutes in place of absentees in Day High Schools from January 1 to June 30, 1913, 121 school days, was $33,191.11; cost on same basis for 192 school days in 1914 will be	$52,666 87	
Add 10 per cent. for average increase of 1914 over rate of January-June, 1913	5,266 69	
		$57,933 56

Training Schools for Teachers.

The cost of substitutes in place of absentees in Training Schools for Teachers from January 1 to June 30, 1913, 121 school days, was $1,217.60; cost on same basis for 192 school days in 1914 will be	1,932 06
Gross Total, Substitutes for Absentees and Other Per Diem Teachers	$925,110 39

Attention is called to the difficulty of estimating in advance the cost of substitutes for absentees. Severity of winter weather and attendant illnesses largely influence the item. It is found by calculation that the cost for a succeeding year has been approximately 10 per cent. greater than the average rate for the first six months of a preceeding year, hence the method of calculation shown above.

*a*Decrease—Charges for all "personal" calls are collected and turned over to the Telephone Company, and the bills rendered by the Telephone Company are reduced to the extent of such amounts. In the instances indicated the deduction of personal calls has left the amount paid by the Board of Education below the minimum contract rate.

Telephones—New Item.

The following resolution was adopted by the Board of Aldermen, July 2, 1912:

"Whereas, It appears from credible information that not all of the public schools in The City of New York are provided with telephone communication; and

"Whereas, At any moment urgent need may arise for quick communication with parents or doctors, which, under the present condition, would be practically impossible; be it

"Resolved, That the Board of Education be and it is hereby requested to take up this subject at its earliest convenience, and take steps to place all the public schools in telephonic communication with the immense number of interested persons by placing at least one instrument in each school."

The New York Telephone Company has submitted an offer to install a telephone with direct line minimum rate service in buildings which are not at present equipped, as follows:

Manhattan, 157 buildings—Gross rate	$7,536 00
The Bronx, 43 buildings—Gross rate	2,064 00
Brooklyn, 153 buildings—Gross rate	7,344 00
Queens, 29 buildings—Gross rate	1,419 00
Richmond (now equipped)	.....
	$18,363 00
Less 25 per cent	4,590 75
Net Cost	$13,772 25
The cost of extra messages above the contract rate for telephones now installed in school buildings averages 34 per cent. of the net contract rate; therefore, add 34 per cent. to net contract rate	4,682 56
	$18,454 81

Definitions of Classifications of Buildings.

Class AA represents fireproof buildings as defined by Section 105 of the Building Code, and conforming thereto.

Class AC represents buildings partly conforming with the present high requirements of the Building Code, and, insofar as relates to that portion of their construction, are fireproof, but being a part of or extensions of older buildings, built of brick with wood floor beams, a difference in class of grade is created.

Class AD represents more than one building for the same school, but on one plot, i. e., a class A building and a class D building on the same plot.

Class B represents buildings of fireproof character up to the first story, the remainder of the building being constructed as described in class AC.

Class CC represents brick buildings with wood floor beams, mainly erected prior to the past two decades, built at times when fireproofing materials and construction had not reached their present state of excellence.

Classes CD and D are buildings of brick and frame construction, among which may be found many portables.

Chapter 683, Laws of 1906, and the laws amendatory thereof, provide that the State shall apportion to the City certain moneys for books and apparatus in high schools and for library books in elementary schools, provided the City raises and expends an equal amount. The basis of the State apportionment is as follows:

1. An amount equal to the sum of $250 multiplied by the total number of high schools and high school departments maintained by the City during the school year 1912-1913.

2. An additional amount equal to the sum of $18 and $2 multiplied by the total number of duly licensed teachers employed in the public schools of the City for the legal term (160 school days) during the school year 1912-1913.

The figure submitted below represents the maximum amount which the State can apportion to The City of New York:

23 high schools and high school departments maintained during the school year 1912-1913, at $250 each	$5,750 00
19,241 duly licensed teachers employed for the legal term (160 school days) during the school year 1912-1913, at $2 each, plus an initial allowance of of $18	38,500 00
Gross total, common school libraries and libraries and apparatus, Regents Schools	$44,250 00

SPECIAL SCHOOL FUND, 1914 (SCHEDULE NO. 9).

Special Emergency Fund—(New Item).

Committee on Finance of the Board of Education:

The Committee on Vocational Schools and Industrial Training requests that an item of $5,000 be included in the Budget for 1914 as an emergency fund, said fund to be placed in charge of the Committee on Finance, and to be expended subject to the approval of the President of the Board of Education.

It has frequently occurred in the past that money has been needed for exhibits, for which no appropriation had been made, and for certain supplies, such as machinery, for which no provision had been made in the Budget, which had to be purchased immediately that they might be had cheap; for supplies demanded by certain new regulations in the course of study, etc. In short, we have been handicapped for money to be expended for purposes that could not be foreseen at the time the Budget was made up. In other cities principals of vocational schools have money for expenditures at their discretion for such supplies as machinery and tools, $5,000.

Yours respectfully,

JOHN MARTIN, MARTHA LINCOLN DRAPER, on behalf of the Committee on Vocational Schools and Industrial Training.

SPECIAL SCHOOL FUND, 1914 (SCHEDULE NO. 10).

Fixed Charges and Contributions, Rental of Rooms for Shopwork Instruction—(New Item).

For extension of shopwork instruction to all boys of the 7th and 8th years who at present are not taking shopwork, and to boys of 13 years of age below the 7th year who are about to leave school. It is estimated that 19 outside rooms will require to be rented at $700 each per annum, $13,300.

SPECIAL SCHOOL FUND, 1914 (SCHEDULE No. 12).

Transportation of Pupils—Summary.

Allowance for 1913, including transfers and special revenue bond authorizations to June 30	$106,495 29	$126,491 20
Because of savings effected in 1912 on account of reducing the running time of stages, etc., and our inability to spend the entire issue of revenue bonds (same being allowed too late in the year) we were able to lay in a stock of tickets aggregating	4,589 36	
		111,084 65
Requested increase over total allowance available for 1913		15,406 55
Expenditures from and encumbrances against total allowance available for 1913, as of June 30, 1913 (from stock $3,752.67, appropriation, $64,122.56)		67,875 23
Unencumbered balance of total allowance available for 1913, as of June 30, 1913 (stock $836.69, appropriation $42,372.73)		43,209 42
Expended in twelve months from June 30, 1912, to June 30, 1913		100,722 53
Requested increase over expended in twelve months from June 30, 1913		25,768 67

Nature of Service.	Requested for 1914.	Expended in 12 Months Ending June 30, 1913, Including Special Revenue Bonds.	Comparison Between Request for 1914 and Expended in 12 Months Ending June 30, 1913. Increase in Request.	Decrease in Request.
Manhattan (stages, 14; trolley and train, 254)	$31,297 26	$16,356 03	$14,998 23	$57 00

Richmond (stages, 7; trolley and train, 431)	9,558 66	7,513 60	2,519 66	408 00
Total	$126,491 20	$100,722 53	$32,003 35	$6,302 59

Total, stage, 97; trolley and train, 1,494.

The increase of $15,406.55 for 1914 over the total amount available for 1913 is accounted for as follows:

Net number of additional stages for normal and crippled children	5	$8,146 20
Net number of additional pupils by train and trolley, normal, crippled, deaf, blind and guides	226	3,640 46
Required for 1913 to operate all items as now run for balance of 1913	$45,024 08	
Total balance at date:		
Cash	$42,372 73	
Tickets	836 69	
	43,209 42	
Estimated deficit for 1913		1,814 66
Provision is made for full time for all pupils		1,805 23
		$15,406 55

In 1912 we asked for	$109,390 96
Allowed	82,843 12

Realizing that all stages, train and trolley service as asked for in 1912 could not be operated with the amount allowed, the Board of Superintendents were requested to eliminate all stages possible, cut running time of others, reduce train and trolley tickets to the minimum. All stages possible were eliminated and running time reduced, thereby compelling children to walk long distances. In cases where two trolley tickets (one each way) had been given to a pupil, but one was given, the pupil being required to walk one way.

Owing to reductions made by the Board of Superintendents, there still remained an approximate deficit of $6,000, for which revenue bonds were asked in June, 1912. These bonds were not available until practically the last month of the year, too late to enable us to expend same between the time it was allowed and the end of the year, and as we were then aware that the amount allowed for 1913 would not be sufficient for our purposes, it was decided to lay in a stock of tickets with the balance available, thereby relieving the pressure on account of the present year (1913). The deficit at the present time is $1,814.66, and it would be $6,404.02 were it not that we had this stock of tickets.

These facts are presented, as the amount of expenditures for the six months of 1912 and six months of 1913 cannot be reconciled with the actual cost of each period without taking into consideration the tickets on hand in 1913.

Based upon contract cost.

The amount allowed for 1913 would be sufficient had it been possible to purchase two Auto Trucks for which money was allowed. It will be necessary to procure more money by transfer or otherwise to do all that will be necessary for balance of year (1913). It is estimated, as the contract has been let for the two Auto Trucks and they are likely to be in operation next year, that it will be possible to get along with same amount for 1914 as allowed for 1913.

Apparently there is an increase of $400 between the request for 1914 and the allowance for 1913. An analysis of the account will show that such is not the case. There was allowed under Code No. 3565 for 1913 $2,600. Only $2,400 is asked for that pur-

pose for the year 1914. The Telegraph Service and Delivery of Minutes were paid out of Contingencies in the past. As it is all Messenger Service, it is transferred for 1914 to Code No. 3565.

*a*Appropriation divided in 1913.

Note—Includes supplies and equipment for new buildings and additions with 652 classrooms. In 1910 it required, under the closest supervision, $77,245.99 to take care of the schools. Since that time it has been possible to run the schools only by making an all-round cut. The stock is very low and if the amount asked for is reduced it will not be possible to furnish the janitors with the necessary supplies and equipment, and they will have a legitimate excuse if buildings are not properly cleaned.

Estimated cost of supplies, etc., for 2 new classes for blind children, at $180 each	360 00
Estimated cost of supplies, etc., for new classes for deaf children	308 00
Estimated cost of supplies, etc., for new ungraded classes	7,893 50
	$22,981 50

Estimated Cost of Supplies, Etc., for Day High Schools in Operation as of June 27, 1913.

	Unit of Measure.	Requested for 1914. No. of Units.	Price Per Unit.	Cost Amount.
All grades	Pupil	50,563	*a*$4,482 00	$226,623 36

a This amount is based upon the actual deliveries from all sources to the high schools during 1912.

Note—The high school principals, in the early part of 1913, were much wrought up over their inability to procure all the supplies they asked for. They sent out a questionaire and prepared certain statistics which showed that, in the year 1908, 24,555 pupils received $190.562.73 worth of supplies; while in 1912, with 37,239 pupils, only $177,686.96 worth of supplies were furnished. These figures were presented to the Committee on Finance with a view of asking for revenue bonds to the amount of $75,000 to carry the schools to the end of 1913. The Committee on Supplies, after consultation with the Committee on Finance, decided to try to finance the high schools during the balance of the present year without requesting the Board of Estimate and Apportionment for any additional moneys. The Committee on Supplies is going to co-operate in every manner with the Board of Estimate and Apportionment and endeavor to furnish the high schools with all necessary supplies for the balance of the year 1913.

Estimated Cost of Supplies, Etc., for Day High Schools on Account of Increase in Registration.

	Unit of Measure.	Requested for 1914. No. of Units.	Price Per Unit.	Cost Amount.
All grades	Pupil	4,052	*a*$10 00	$40,520 00

a It is estimated that $10 is the lowest amount per pupil that should be allowed for a new pupil in a high school. Principals and others estimate that it should be as high as $15 or $20; but from the records in the Bureau of Supplies it is estimated that $10 would be sufficient.

Educational and Recreational Supplies (1913, Code No. 3482).

c. For Vocational and Trade Departments where the product is sold:

Dressmaking, Millinery, Clothing and Straw Machine Operating, Sample Mounting, Novelty Case Making and Lamp Shade Making—the proceeds from sales should be sufficient to cover the cost of materials, so that no special appropriation should be necessary.

Judging from the sales for the past year, which amounted to $11,609.99 (gross), there should be a balance above the cost of materials sufficiently large to carry the general and educational work mentioned above, from which there are no proceeds from sales.

If this balance is immediately available for the Manhattan Trade School on January 1, 1914, there should be no need for making a special appropriation for general and educational supplies. If not, the amount asked for this purpose is 1,860 72

The appropriation for new machines and janitors' supplies ($922.89) is very necessary if the standards are to be kept up, as many of the present machines are past repair.

Supplies—Soap and Towels for Public School Baths (New Item).

Hon. HENRY P. MORRISON, Chairman, Committee on Supplies:

Dear Sir—I have the honor to advise you that at the meeting of the Committee on Special Schools held on June 17, 1913, there was considered the communication from the Committee on Supplies, dated June 3, 1913, stating that the request of the first named committee, that soap and towels be provided for the baths in the elementary schools and in the recreation centres, has been denied on account of lack of funds.

It was moved and adopted that the Committee on Supplies be informed that it is the desire of the first named committee that an estimate of the cost of supplying soap and towels as above described, be made by the Committee on Supplies with a view to having inserted in the departmental estimate for the year 1914, a sufficient amount to provide for the same. Respectfully yours,

A. E. PALMER, Secretary, Board of Education.

Supplies, Housekeeping and Cooking in Sixth Year Schools for Girls (New Item).

Hon. HENRY P. MORRISON, Chairman, Committee on Supplies, Board of Education, City of New York:

Dear Sir—In compliance with the request of your Committee, the Board of Superintendents has considered the attached communication from Miss Mary L. Brady, principal of Public School 177, Manhattan, requesting that a special allowance be made to provide training in housekeeping and cooking in six-year schools for girls, and at a meeting held on the 18th inst., the following resolution was adopted:

"Resolved, That the Board of Superintendents recommends to the Committee on Supplies that an item for ten thousand dollars ($10,000) be inserted in the Budget for 1914 for supplies for cooking for girls between 13 and 14 years of age who are below the 7A grade. Respectfully submitted,

W. H. MAXWELL, Chairman, Board of Superintendents.

The Association of Women Principals of Public Schools of New York City.

Mr. HENRY P. MORRISON, Chairman, Committee on Supplies:

My Dear Mr. Morrison—I should like to make a special plea at this time, also, for a special allowance to provide training in housekeeping and cooking in 6th year schools for girls who leave with absolutely no training in this very important sphere of woman's work. The home of the present day in certain neighborhoods does not provide it. Respectfully yours MARY L. BRADY, Principal.

Last year $25,000 was requested to repair apparatus which had been in use for several years, and also to purchase other needed apparatus. Only $15,000 was granted. This sum has been most economically administered, and the results have given greater happiness and safety to the children of our crowded p'aygrounds. To continue the work a special appropriation is requested of $20,000.

Phonographs and supplies	One	273	$55 00	$15,015 00

It has been demonstrated to the utmost satisfaction of the Teachers, Principals, and members of the Board of Superintendents that the phonograph for the classroom, gymnasium, playground, and assembly, is appropriate and very much needed. Pianos are not generally supplied in gymnasiums, classrooms and playgrounds, and yet in these rooms much physical training work is done. The addition of folk dancing and other rhythmic work to the course of study has been one of the most widely appreciated and beneficial additions to the work. It has been copied not only throughout the United States but over the whole world. Nevertheless, in most of the schools the folk dancing is done without music, and the proper result cannot be obtained. In many schools not properly furnished with pianos, the Principals and Teachers have become discouraged and folk dancing has been eliminated. I am convinced that we can expect but little development in this most excellent form of exercise, if we do not provide at least occasionally some form of music.

Phonographs have been devised which are self-contained in durable form, and records of the folk dancing used in the course of study have been made under the direction of one of the members of this Department. They have been tried in the schools with most excellent results. In fact, many of the schools have already purchased phonographs, and the expense has been met privately.

One phonograph in a school could be carried from place to place, and would be in use practically the entire day.

The foregoing is to include proper service for the President, City and Associate Superintendents, Superintendents assigned to special investigations, Superintendents in charge of the Boroughs of Queens and Richmond, as well as other employees engaged in supervising capacity. The amount available for 1913 is wholly inadequate for a department so large as the Department of Education. Many schools are in isolated sections of the suburban parts of the City, and much time, which should be given to school work, is now wasted in slow travel.

ESTIMATE FOR 1914 BOARD OF EDUCATION—SUPPLEMENTARY SCHEDULES AND INFORMATION—VACATION AND RECREATIONAL ACTIVITIES.

Department of Education, The City of New York, Office of the City Superintendent of Schools, 500 Park Avenue, New York, June 20, 1913.

Hon. JAMES E. SULLIVAN, Chairman, Committee on Special Schools:

Dear Sir—I transmit herewith the budget requests for 1914 as prepared by District Superintendent Stitt for Vacation Schools, Vacation Playgrounds, Recreation Centres, Evening Playgrounds and Baths, and Afternoon Playgrounds.

I approve, after careful consideration, of all of these requests with the exception of the request for $52,000 for Afternoon Playgrounds. I ask that this amount be not placed in the budget for Vacation Schools and Playgrounds, etc., but that it be transferred to the budget of the Committee on Athletics.

My reason for making this request is that I find that in about twelve Centres most successful After-School Athletic Playgrounds have been maintained in the afternoon and Saturday forenoons under the direction of Dr. Crampton, Director of Physical Training, who assigns under section 42a, subdivision 2a, of the By-Laws, "persons holding licenses as teachers for the public schools to the control and management of after-school athletics" to manage these Centres.

Superintendent Stitt agrees that under present conditions as to eligible lists, these Centres may be best managed under the direction of the Department of Physical Training. I find that he is of opinion that these Afternoon School Centres may be better managed through the principals in the day schools and by the assignment of day school teachers than would be possible under any other plan that may be conveniently devised at present. I am convinced that the plan worked out by Dr. Crampton is so far the best yet devised for the management of the Afternoon Playgrounds. Hence, I recommend this change in the budget.

With regard to the other amounts requested, they are in my judgment necessary for the satisfactory management of the Vacation Schools, Vacation Playgrounds, Recreation Centres, Evening Playgrounds and Baths, for the next calendar year.

Very truly yours, WM. H. MAXWELL, City Superintendent of Schools.

Proposed Increases Necessary—Vacation Schools.

Five Additional Schools, Proposed for 1914—

Manhattan (2):

Public School 21—To take care of territory west of Bowery and south of Prince street (fed by Public Schools 38, 108, 111, 44, 29, 130, 23).

Public School 179—To take care of the district between 48th and 138th streets west of 8th avenue (fed by Public Schools 179, 54, 165, 93, 166, 9, 87, 94).

The Bronx (1):

Public School 42—To take care of territory west of 3d avenue, between Burnside avenue and 234th street (fed by Public Schools 42, 26, 28, 11, 4, 7, 24, 33).

Brooklyn (1):

Public School 5—To take care of territory between Navy Yard, Waverly avenue, Myrtle avenue and East River (fed by Public Schools 1, 5, 7, 8, 12, 14, 67).

Richmond (1):

Public School 14—To take care of east side of Staten Island (fed by Public Schools 14, 13, 12, 32, 15, 16, 10, 28, 34).

Cost of above $8,149 50

Clerks in Vacation Schools ($1.50 per day)—

The Principals of the vacation schools need Clerks to help in the admission of pupils, care and distribution of supplies, weekly reports, payrolls and so forth. It is proposed to employ substitute teachers at $1.50 per session. The plan will enable the principals to give more time to effective supervision. The cost of the additional clerical assistance would be.....$1,881.00

Continuation Class Teacher Salary (Increase $1.00)—

The teachers of the continuation classes have an extremely difficult task in preparing the over-age, backward and deficient children for promotion. We are in great need of the teachers of the higher grades for this special work, and in order to keep experienced teachers in the summer schools, the increase of $1.00 per session is requested. If the increase is granted, it is only proposed to give it to those who have been in the summer work and make the new ones start at the former salary of $3.00 per session. Amount requested to increase salaries is.....$6,386.00

Evening Recreation Centres (9)—

The increasing number of requests from Local School Boards, Principals, Clergymen, and various civic organizations, urging a larger use of our school buildings at night, is worthy of serious attention. Until more money is granted it will be necessary to deny these requests. Thousands of working men and women have no proper place for rest and recreation during the evening hours. To save these people from the dangers of the streets, saloons and places of evil resort, the school buildings should be opened at night. The following shows the location of the proposed centres:

Manhattan (3):

Evening Recreation Centre 66—For girls, 88th street, near 2d avenue. (None now open between 4th and 103d streets, east of 5th avenue).

Evening Recreation Centre 39—For girls. 126th street, near 3d avenue. (None now open in all Harlem, east or west, north of 103d street.)

Evening Recreation Centre 186—For men. 145th street, west of Amsterdam avenue. (None now open in Washington Heights.)

The Bronx (2):

Evening Recreation Centre 3—For girls. 157th street, east of Courtlandt avenue. (None now open west of 3d avenue, north of Harlem River.)

Evening Recreation Centre 40—For men. Prospect avenue, Jennings street. (None now open in District 25 from 168th street to Yonkers city line from 3d avenue to Eastchester Bay to Sound.)

Brooklyn (2):

Evening Recreation Centre 91—East New York and Albany avenues. (Now being operated on Friday night by Immigration Society.)

Evening Recreation Centre 171—Now open one night a week by private means.

Queens:

Evening Recreation Centre 4—For girls. (No centre for women in all Queens.)

Richmond:

Evening Recreation Centre 16—For girls. Tompkinsville. (No centre for women in all Staten Island.)

The cost of above would be..... $20,932 50

Evening Recreation Centres, Clubs in Summer (10)—

The recreation centres close about the middle of May and do not reopen until October. Several hundred clubs of young men and women use the class rooms of the school buildings as regular meeting places for literary, social and civic meetings. It is proposed to open ten (10) buildings, two nights a week, so that the clubs may not have their activities interfered with by the long vacation. The following reasons are presented showing the urgency of this request.

Many of the clubs become disorganized during the long interval between May 10 and October 13.

Numerous petitions have been received from clubs for this privilege.

Three school buildings are being continued in this manner by private enterprise. The City should take over this work.

The cost would be.....$1,690 00

Evening Playgrounds (Teachers)—

There has been a continuous demand for a greater use of the roofs and courtyards of the school buildings in congested districts from 7.30 to 10 p. m. The women and girls engage in folk and social dancing to the music of a small band, and derive splendid recreation from the opportunity afforded of dancing in the open air. It is proposed to open 20 of these evening playgrounds as follows:

Manhattan, 6; The Bronx, 1; Brooklyn, 11; Queens, 1; Richmond, 1.

Manhattan (6):

Public School 64—9th street, east of Avenue B—very crowded district.

Public School 66—East 88th street. (To be opened this summer by private means.)

Public School 159—East 119th street. (No evening playground has been provided for Harlem.)

Public School 179—West 102d street. (No evening playground in Manhattan from Battery to Harlem River, west of Mott street.)

Public School 184—West 116th street, near Lenox avenue. (Harlem is getting to be a very congested neighborhood, especially in this section.)

Public School 95—Clarkson street, near Hudson. (To do something for "Old Greenwich Village" and west side of lower Manhattan.)

The Bronx (1):

Public School 37—145th street, near Willis avenue. (A fine outer courtyard, well adapted for the purpose. Near 3d avenue and in a neighborhood needing this activity.)

Brooklyn (11):

Public School 5—Tillary, Bridge and Lawrence streets. (No evening playground in Districts 27, 28, 29, 30.)

Public School 6—Baltic and Warren streets, near Smith. (No evening playground in Districts 27, 28, 29.)

Public School 64—Berriman street and Belmont avenue. (No evening playground in Districts 26, 37, 38, 39, 40.)

Public School 143—Havemeyer and North 7th streets. (No evening playground in Districts 27, 28, 29, 30, 31.)

Public School 122—Harrison avenue and Heyward street. (No evening playground in Districts 31, 32. Very congested districts.)

Public School 149—Sutter avenue and Wyona street. (Congested district and no evening playgrounds within miles.)

Public School 146—18th street, near 7th avenue. (Excellent outer courtyard. No evening playground in entire District 30.)

Public School 148—Ellery and Hopkins streets. (No evening playground in Districts 31, 32.)

Public School 150—Christopher avenue and Sackman street. (Very congested district.)

Public School 156—Sutter avenue and Barret street. (Very congested district.)

Public School 157—Kent avenue, near Park avenue. (Italian neighborhood. No evening playground in Districts 27, 28, 29.)

Queens (1):

Public School 1—9th street and Van Alst avenue, Long Island City. (No evening playground in whole of Queens borough.)

Richmond (1):
Public School 18—Broadway, West New Brighton. (No evening playground in whole of Staten Island.)
The cost will be.....$7,200.00

Baths—
To make use of the baths in schools for which no provision is made at present owing to lack of funds. The following schools should be opened:
Manhattan—Public Schools, 3, 16*a*, 17, 27*a*, 40*a*, 64*a*, 65, 66, 90, 91, 172, 188.
Brooklyn—Public schools 6, 24, 66, 83, 104, 109, 126, 148, 150.
The cost for the above will be..... $7,812 00

Evening Playgrounds (Music)—
It is necessary to have small bands of music (one leader and four musicians) on the roofs and courtyards. Extra Teachers for these evening playgrounds are requested under another heading, and if money for them is granted, it should also be granted for the music.
The cost will be..... $23,040 00

Teachers Assigned to the Management of After-school Athletics.

		Increase.
600 sessions at $2.50—Boys' athletic competitions.....	$1,500 00	.....
800 sessions at $2.50—Girls' athletic competitions.....	2,000 00	$500 00
21679 sessions at $2.50—Opening athletic centers.....	54,197 50	54,197 50
	$57,697 50	$54,697 50

These services are provided for under subdivision E, section 18, By-Law 65, of the Board of Education, and are rendered upon the athletic fields and at other appropriate places as occasion may require.

Boys—
In 1912, when the work was in the experimental stage, there were 251 assignments of this kind for boys at the cost of $627.50. This cost provided competition for 7,143 players and 140,260 spectators were managed without interference with the games or harmful disturbance of any kind.

In 1913, at the present rate, the cost and services will be doubled and the strictest economy must be practiced to remain within the appropriation—$1,500. This work should and will increase during 1914, and $1,500 for the management of boys' athletics is requested. This includes work previously done by supervisors of athletic fields, for which we ask no funds for the coming year. The same amount is asked as for last year, despite the increase of work, for it is proposed to cut down on activities in which we have trained additional volunteer service.

Girls—
In 1912, there were 328 assignments of such Teachers for the control and management of after-school athletics for girls at a cost of $820. Large squads were taken to the city parks and swimming baths and there instructed and guarded from all interference.

This work has more than doubled during 1913, and will, if not curtailed next fall, exceed the appropriation of $1,500. The request for $2,000 of the $3,500 placed in the Budget, is most economical and the least that would meet only the most evident needs of the school children.

To conduct a large athletic meet required sixty to seventy officials. To conduct small meets or any athletic competition requires a considerable number, as does the training of the boys and girls when assembled in large numbers. It has also been demonstrated that important competitions, such as district, interborough and city games, must be controlled by some competent expert with proper authority, who can be officially held responsible for the conduct of the occasion.

Athletic competitions for girls are of such a nature as to require the most careful attention, even more than those for boys.

While a great many Teachers volunteer their services for this work outside of school hours, yet like all other volunteers, they come when they can and to perform the work as it should be done it is necessary that a corps of experts should be provided who are detailed and paid for their time and whose attendance can therefore be depended upon. These are obtained under the By-Law by detailing Teachers who receive $2.50 per day for actual services. This is much cheaper and more satisfactory than employing persons at fixed salaries, as the service required is a fluctuating one; $54,197.50 is asked for the opening of athletic centers and the organization of play competition in various congested localities as hereinafter set forth. This displaces a similar item included heretofore under vacation playgrounds.

In the most congested tenement districts of the city, the Board of Education controls many magnificent buildings, having large yards and indoor playgrounds. A majority of the latter are on the first floor of the building, so that in the spring and fall they are suitable for play and are less cold in the winter. After the school period, these are but occasionally used for a short time in the afternoon, when athletic practice is carried on by a few of the boys and girls belonging to the particular school. At other times they are closed and the gates are locked. At the same time thousands of children are playing in the adjoining streets, subject to the dangers of traffic and interfering with business conducted in such streets. In consequence, they are driven into gangs and exposed to various temptations which tend to cause many of them to become rowdies and criminals.

If sufficient funds were provided, a Teacher, either male or female, could be assigned at the rate of $2.50 for an afternoon and for a Saturday, to each of these playgrounds and permit valuable playground property now lying vacant to be used. This trifling expense would take off the street five hundred (500) to seven hundred (700) children at once in each centre and afford them an opportunity for healthful and wholesome exercise. The Teachers thus selected would usually be Teachers in the particular schools to which they would be assigned, who would understand the peculiar needs of the children coming there to play and know the proper way in which to conduct such activities to secure the best results. Their work would be under the supervision of the school Principal. The Committee believes that less expense and better results will be obtained in this manner than by taking from eligible lists people who are not Teachers. This matter should be confined to the congested districts where no adequate playground facilities exist.

The Committee therefore asks for the following:

Opening 163 athletic centers after school hours, averaging 133 days.

One Teacher to each school "assigned to the management and control of after-school athletics," at $2.50 per session, $54,197.50.

To be apportioned: To Manhattan, 84; to The Bronx, 19; to Brooklyn, 56; to Queens, 2; to Richmond, 2; total 163.

During the past year twelve playgrounds have been kept open after school hours in this manner by the Director of Physical Training, with great success. The average daily attendance at such schools has been over 181 children who have not only been benefited both physically and mentally, but have been kept away from the evil influences of the streets. This was accomplished at a per capita cost of one and three-tenths cents per child.

When we consider that school buildings of this description have each cost several hundred thousand dollars, and the dire need that exists, in tenement neighborhoods for a place in which children can play, it would seem almost criminal, even with the many claims that exist upon the City's finances, not to spend $2.50 per day in order to enable one of these playgrounds to be put to this use, for which it was constructed, at hours other than the brief period during which it is used when the school is in session.

GENERAL SCHOOL FUND, 1914 (SCHEDULE NO. 166).

Vacation Schools, Playgrounds, Recreation Centres, Baths, Etc.

After-School Athletic Playgrounds and Competitions.

In previous years two items have appeared in the Estimate of the Department of Education, as follows: First, under the item of Specific Professional Control has appeared a sub-item, "Teachers assigned to control and management of after-school athletics," and, second, under the item of Vacation Activities has appeared a sub-item, "Afternoon Playgrounds." The sum of $3,000 was apportioned under the first item for 1913; nothing was apportioned under the second item for 1913. It is proposed in 1914 to organize a greater number of After-School Athletic Playgrounds under the direction of the Director of Physical Training.

Required for 1914 for Athletic Competitions upon the same basis as for 1913:

To the Board of Superintendents:

Herewith is submitted the budget for Evening Trade Schools for the year 1914:

This budget consists of two parts:

I. A brief summary of the cost of evening trade schools for the year 1914, a statement of the distribution of the items for such cost and an explanation of the same with a comparative statement of attendance for the last two years; also an analysis of the new activities proposed.

II. A series of tables prepared at the suggestion of Dr. Bachmann of the Finance Department. There are seven such tables, the fourth table consisting of a book giving a detailed statement of the organization of each school.

Respectfully submitted, ALBERT SHIELS, District Superintendent in charge of Evening Schools.

Approved: ANDREW W. EDSON, Associate City Superintendent.

Referred with approval to the Committee on Vocational Schools, on behalf of the Board of Superintendents.

WM. H. MAXWELL, City Superintendent.

Evening Trade Schools.

Regular Sessions for Present Schools—		
5 Principals, 133 evenings, at $7.....	$4,655 00	
7 General Assistants, 120 evenings, at $5.....	4,200 00	
3 Laboratory Assistants, 120 evenings, at $3.....	1,080 00	
5 Toolboys a, 120 evenings, at $1.50	900 00	
129 Teachers, 120 evenings, at $5.....	77,400 00	
127 Registrars, 1 evening, at $5.....	635 00	
(Tottenville)		
1 Principal, 133 evenings, at $5.....	665 00	
10 Teachers, 120 evenings, at $3.....	3,600 00	
		$93,135 00

a Toolboys were authorized by the Board of Education in 1913. They are to have charge of expensive mechanical pieces in machine-shops and to save loss by neglect or theft. The time required of teachers to regulate this, interferes with the efficiency of instruction and the method has not been successful.

Manhattan Trade School for Girls (Evening Session)—

This school is not under the supervision of the District Superintendent in charge of the Evening Schools but its sessions must be included in the Evening Trade Schools Budget.

1 Principal, 133 evenings, at $7.....	$931 00	
1 Salesman, 6 evenings, at $5.....	300 00	
1 Vocational Helper, 120 evenings, at $1.....	120 00	
1 Cutter, 60 evenings, at $3.50.....	210 00	
7 Teachers, 120 evenings, at $3.50.....	2,940 00	
9 Teachers, 120 evenings, at $5.....	5,400 00	
		9,901 00

(Note should be made of the fact that this school sells its material profitably.)

4 Day Continuation Classes—4 Teachers, 120 days, at $5.....	2,400 00

(A method of allowing employees to leave work early so as to be in the school from 4 to 6 p. m. is now under consideration by leading employers in machine-shops. This small number of classes is for experiment and observation.)

Proposed New Evening Trade Schools—

New York Evening School of Industrial Art and the Bushwick Evening Trade School. (For details of organization, see Table IV—book attached.)

2 Principals, 133 evenings, at $7.....	$1,862 00	
2 General Assistants, 120 evenings, at $5.....	1,200 00	
34 Teachers, 120 evenings, at $5.....	20,400 00	
50 Registrars, 1 evening, at $5.....	250 00	
		23,712 00

The New York Evening School of Industrial Art has been carefully planned for a year and has the encouragement and co-operation of employers. Much time has been given to the selection of teachers. The Bushwick school will not be opened until 1914. It is situated in an important manufacturing district and has a complete equipment for instruction in the trades.

Total—Evening Trade Schools.....	$129,148 00

Note re Registrars—Registrars are apportioned among the schools on a basis of the actual number enrolled on special registration nights during the season 1912-13. The number of registrars assigned and the number of nights for which assignment is made varies with each school and must, therefore, be reduced to a common basis of the number of registrars per evening; thus, if a school has an assignment of registrars, 3 for 5 nights and 1 for 8 nights, this is equivalent in cost to 23 for 1 night. To very few schools is assigned the maximum number of nights allowed by the by-law as the number enrolled does not require it.

The following table shows in a brief summary the basis of this request. (A full table accompanying this budget.)

	Classes, 1912-1913.	Net Increase in Classes on Present Organization of Present Subjects.	Number of Classes New Subjects in These Schools.	New Schools.	Total Increase.	Total Classes.
Evening Trade Schools under supervision of District Superintendent in Charge of Evening Schools	128.2	.8	10	34	44.8	173
Manhattan Trade School (Evening)	6.4	6.6	3	..	9.6	16
	134.6	7.4	13	34	54.4	189

The actual increase in the six trade schools is, therefore, 9.3 per cent.

The attendance in 1912-1913 was 2,569, and in 1911-1912 was 2,044; an increase in attendance of 25 per cent. This, however, is not a fair basis of comparison, as two schools were added during the year. Limiting the comparison, therefore, to schools which held sessions in both years, we have: 1911-1912, 2,044; 1912-1913, for the same schools, 2,287; an increase of 243 or 11+ per cent.

It is, of course, impossible to give comparisons for the evening session of the Manhattan Trade School for Girls as it opened only this year, but it has been successful and the classes were tried out cautiously.

The two new schools asked for explain the large increase. The Industrial Art School, as has been explained, has been under careful consideration for a year and is to be opened under the best auspices. The Bushwick school has an unusually good equipment and the community through its Board of Trade, as well as through other sources, has requested the establishment of this school.

The unusual growth and development of trade instruction is due to the great demand for such instruction and to the almost immediate financial gains of pupils who attend. It will probably not be possible to extend such practical instruction in future years at the present rate, as equipment is not so easily obtained. It may be stated that considerable equipment, especially for new classes, has already been contributed by business houses.

Notes—(1) The teacher takes sections of regular students in other subjects. (2) Taught in Long Island City, which has the commercial branches as well as trades. (3) In the Tottenville, S. I., school. These classes are established, as there is no other school to which such pupils could be assigned. (4) Classes in this school not under my supervision. This new organization, however, has been regularly approved.

To the Board of Superintendents:

Herewith is submitted the budget for Evening High Schools for the year 1914: This budget consists of two parts:

I. A brief summary of the cost of evening high schools for the year 1914, a statement of the distribution of the items for such cost and an explanation of the same with a comparative statement of attendance and cost for the last two years. This statement concludes with an analysis of the new activities proposed.

II. A series of tables prepared at the suggestion of Dr. Bachmann of the Finance Department. There are seven such tables, the fourth table consisting of a book giving a detailed statement of the organization of each school. Respectfully submitted,

ALBERT SHIELS, District Superintendent in charge of Evening Schools.

Approved: ANDREW W. EDSON, Associate City Superintendent.

Referred with approval to the Committee on Special Schools, on behalf of the Board of Superintendents. WM. H. MAXWELL, City Superintendent.

Evening High Schools.

Regular Sessions for Present Schools—		
15 Principals, 133 evenings at $7	$13,965 00	
26 General Assistants, 120 evenings at $5	15,600 00

7 Laboratory Assistants, 120 evenings at $3	2,520 00	
714 aRegistrars, 1 evening at $5	3,570 00	
Friday Sessionsb:		
4 Principals, 25 evenings at $7	700 00	
4 Teachers, 25 evening at $5	500 00	
		$350,055 00
Proposed New Evening High Schools—		
Washington Heights Evening High School for Men and Women and the Bronx Evening High School for Women. (For details of proposed organization, see Table IV.		
2 Principals, 133 evenings at $7	$1,862 00	
2 General Assistants, 120 evenings at $5	1,200 00	
39 Teachers, 120 evenings at $5	23,400 00	
20 Registrars, 1 evening at $5	100 00	
		$26,562 00
Total for Evening High Schools		$376,617 00

aRegistrars are apportioned among the schools on a basis of the actual number enrolled on special registration nights during the season 1912-13. The number of registrars assigned and the number of nights for which assignment is made varies with each school and must, therefore, be reduced to a common basis of the number of registrars per evening; thus, if a school has an assignment of registrars, 3 for 5 nights and 1 for 8 nights, this is equivalent in cost to 23 for 1 night. To very few schools is assigned the maximum number of nights allowed by the by-law as the number enrolled does not require it.

bThese Friday evening sessions are not new. They have existed in some schools for years and were formally authorized in the by-laws this year. They could with advantage be established in many schools; it seems wiser, however, to proceed slowly with this activity. Although the cost is slight, the work is of great importance. It allows for the development of the social side of the work, and for the establishment of various clubs in which special lectures and discussions on the subjects of instruction, etc., are included. The work is carried on by a students' general organization, and the functions of principals and teachers are largely directive. Not a single complaint has arisen concerning these activities.

Note—Washington Heights Evening High School: There is no evening high school in Manhattan north of 116th street. The entire Washington Heights section is without evening instruction of any kind. Repeated requests have been made for evening high school instruction and the population in number and character would support an evening high school.

Bronx Evening High School: It is necessary to open this evening high school in the fall of 1913 even though the season may be curtailed for all evening high schools as the large Morris building is now crowded and cannot receive all applicants. The geographical centre of the Bronx population is Morris, and another school in the neighborhood is being selected for women so as to relieve Morris. So far as possible, all women students will be accommodated in the new school; the rooms thus vacated can be used to accommodate the increasing number of students for whom there is now no available space. The money appropriated for these classes (for women) for Morris can be transferred to the new school. An allowance of fifteen classes has been made for the new school; these, together with the new classes allowed for Morris, will be sufficient to cover all present demands for The Bronx.

Comparisons.

This budget asks for 508 classes on account of existent evening schools classes, two classes less than the number in session during the current school year, 1912-13. This limited estimate in the face of prospective increases, is made because of the policy of reducing the number and discontinuing the establishment of classes which experience has shown are not in strong demand. In such cases, applicants will have to go further for instruction.

Attendance.

The average attendance increased as the following figures will show:

1911-12	10,698
1912-13	11,762

Increase 9.95 per cent. (10 per cent.)

Attention is called to the following facts:

Actual Cost of Evening High Schools.

1911	$279,074 90
1912	311,811 55

The rate of increase in schools is constant, and with improved methods of instruction and wider publicity, the increase will continue in increasing ratio. In 1912 the cost of these high schools was $311,811.55. It is impossible to state the cost for 1913,

although if there be funds to carry these schools through the entire season of the current year, the increase in cost will correspond approximately with the increase in attendance of 1912-13 over 1911-12; approximately, 10 per cent. To continue the present schools this budget provides for

Existing subjects	$341,655 00
Fourteen classes in new subjects	8,400 00
	$350,055 00

The amount for existent subjects is less than the 10 per cent. increase over the cost of 1912, although the attendance for the current year is 10 per cent. more than the attendance for 1911-12, and in effect will scarcely exceed, if at all, the cost for 1913 even though the attendance will increase. The budget, therefore, has been made after a careful examination of classes and the reduction of such classes as it would seem could be dispensed with, without material injury to the amount or character of instruction.

Enrollment includes those whose names were taken and who never had instruction. In 1911-1912 of those who enrolled in Evening High and Trade Schools 4,278 never appeared. In 1912-1913, 5,165 who enrolled never appeared.

To the Board of Superintendents:

Herewith is submitted the budget for evening elementary schools for the year 1914.

This budget consists of two parts:

I. A brief summary of the cost for evening elementary schools for the year 1914, a statement of the distribution of the items for such cost and an explanation of the same with a comparative statement of attendance and cost for the last three years. This statement concludes with an analysis of the schools having a low attendance, to which reference was made at the last hearing before the Board of Estimate and Apportionment.

II. A series of tables prepared at the suggestion of Dr. Bachmann of the Finance Department. There are nine such tables, the fifth table consisting of a book giving a detailed statement of the organization of each school. Respectfully submitted,

ALBERT SHIELS, District Superintendent in Charge of Evening Schools.

Approved: ANDREW W. EDSON, Associate City Superintendent:

Referred, with approval, to the Committee on Special Schools, on behalf of the Board of Superintendents. WM. H. MAXWELL, City Superintendent.

Evening Elementary Schools.

		8,400 00
Total		$452,364 00

a Registrars are apportioned among the schools on a basis of the actual number enrolled on special registration nights during the season 1912-13. The number of registrars assigned and the number of nights for which assignment is made varies with each school and must, therefore, be reduced to a common basis of the number of registrars per evening; thus, if a school has an assignment of registrars, 3 for 5 nights and 1 for 8 nights, this is equivalent in cost to 23 for 1 night. To very few schools is assigned the maximum number of nights allowed by the by-law, as the number enrolled does not require it. *b* Seven out of twenty Teachers of English to foreigners are without the necessary experience to teach the subject and need direct guidance. It is proposed to assign specially qualified principals to take such Teachers in groups of 25 on Friday evenings and give them practical instruction by giving model lessons to foreigners. For $540 it is hoped that 600 Teachers can be guided. *c* The enforcement of the Compulsory Education Law for night attendance is altogether unsatisfactory. It is proposed to establish 20 experimental classes during day hours for boys obliged to attend school under the law, instruction to be given without loss of pay to the worker. The co-operation of employers for this experiment is expected. It is necessary to begin actual trial now, not only because day attendance is better for boys, but because legislation may require such attendance. In the latter case large cities should have the necessary preliminary experience of trial.

Comparisons—

Classes—This budget asks for 1,336 classes, which are 14 less than last year. Notwithstanding prospective increased attendance, and the need of more classes in congested districts, no more are asked for. This economy is possible because of the closing of small schools.

Attendance—The average attendance increases steadily as the following figures will show:

1910-11	30,477	
1911-12	31,640	Increase, 5 per cent.
1912-13	34,117	Increase, 7.08 per cent.

Attention is called to the following facts:

Actual Cost of Evening Elementary Schools.

	Summer.	Regular.	Total.
1910	$6,435 88	$355,362 16	$361,798 04
1911	10,731 50	399,103 45	409,793 95
1912	18,535 25	383,875 68*	402,410 93

*This amount represents instruction for 87 evenings. A corresponding cost for 1913 for 90 evenings with a corresponding increase of 7.08 per cent. in attendance would total $425,227.96, which is $6,106.96 in excess of the amount requested for present evening elementary schools ("regular").

Statement Showing Reasons for Decrease of Certain Schools:

The following schools had an attendance during 1912-13 of less than 200:

Manhattan—4 schools out of 41; proposed to reduce, 1. Bronx—3 schools out of 8; proposed to reduce, 2. Brooklyn—11 schools out of 33; proposed to reduce, 5. Queens—13 schools out of 16; proposed to reduce, 4. Richmond—4 schools out of 4; proposed to reduce, 2.

Manhattan—It is proposed to close Evening School 23. Evening School 14 had an attendance of 198; Evening School 29 is on the west side and accommodates a colony of Syrians and Greeks that need instruction; and Evening School 38 has always had over 200 in attendance until this year. An insufficient supply of Teachers was probably the cause of last year's condition. It seems unwise to abolish this school pending another year's trial.

Bronx—Evening School 7, at Kingsbridge, and Evening School 13, at Williamsbridge, are to be abolished. Evening School 12, at Westchester, had an attendance of 144 in 1911-12, and its attendance of 119 this year seems to have been unusual. The school should be tried for another year.

Brooklyn—It is proposed to abolish Evening Schools 2, 22, 80, 130, 157; the remaining eight to be continued for the following reasons: Evening School 92 will accommodate some pupils from Evening School 130 and should be continued; Evening School 120, at Barren Island, with but two classes, does splendid social service in a territory that benefits from it in a peculiar degree; Evening Schools 45, 155 and 164 had an attendance of over 190, and Evening School 106 had 170. Evening School 142 is to be transferred to a more populous neighborhood (Public School 58).

Queens—Evening Schools 1, 16, 44, 79 are to be closed. Evening School 14, at Elmhurst, will take over the pupils from Evening School 16, at Corona; Evening School 39, at Far Rockaway, will take over pupils from Evening School 44, at Rockaway Beach. Evening School 47, at Jamaica, had a low attendance because of an insufficient supply of Teachers, and may be expected to average 200 next season. Evening Schools 20 and 27 (Flushing and College Point) should be retained for trial another year as they, too, suffered from lack of Teachers. Evening School 58 averaged 20 per class, and is not maintained unprofitably. Evening School 67 (Glendale) and Evening School 83 (Long Island City) averaged over 150 and should advance. Evening School 86 had an attendance of 196, practically 200. The four schools suggested for discontinuance are the ones that give evidence of being really wasted.

Richmond—Evening Schools 4 and 17 are to be discontinued. Evening School 14 is a promising school and should be retained. Evening School 20 will open under better auspices next season.

aThe number of registrars assigned is greater than last year's registration seems to warrant. The reason is that last year's nights of registration were Jewish holidays and this school is in a Jewish neighborhood. The registration nights in 1914 will not be Jewish holidays.

I recommend that this school be *closed*. It is badly placed and there is no other safe building to which it may be moved.
The classes with a single exception have been closed long before the close of the term. The school has never been successful.
There is no school to which these pupils can be transferred.

a This extra class is needed for Italians who would have attended had it not been for a strike. The Principal has carefully investigated the matter and certifies the class will be needed.

b This does not include Compulsory Education Law boys who attended.

c Twenty people have, to date, asked for such a class.

MEMORIAL AND EXECUTIVE COMMITTEE OF THE UNITED SPANISH WAR VETERANS.

DEPARTMENT OF NEW YORK.

New York, October 7, 1913.

JOSEPH HAAG, *Esq., Secretary, Board of Estimate and Apportionment,* 277 Broadway, New York City:

Dear Sir—Attached are requests for Budget allowances for the due and proper observance of Memorial Day, 1914, made by the respective Memorial and Executive Committees, United Spanish War Veterans, to the Board of Estimate.

I, as chairman of the Memorial and Executive Committee of the Greater City, am forwarding the request of each Borough or County Committee for the 1914 Budget.

The Charter (section 226), and the State statutes provide the authority for the allowances requested.

Will you inform me as to place and date of Budget hearings so that each committee may have representatives present if need be. Very truly yours,

167 East 77th Street. P. F. HARNEY, Chairman.

BOROUGHS OF MANHATTAN AND THE BRONX.

September 30, 1913.

Board of Estimate and Apportionment, 277 Broadway, City.

Gentlemen—In compliance with section 226 of the Charter of The City of New York, I respectfully request that the sum of $1,400 be allowed the above committee for the proper and due observances of Memorial Day in the Boroughs of Manhattan and Bronx in the year 1914. Respectfully,

W. JONES, Chairman Memorial and Executive Committee of the Boroughs of Manhattan, and Bronx.
