COMMUNICATIONS FROM CITY, COUNTY AND BOROUGH OFFICERS.

The President laid before the Board the following communications from the Commissioner of Plant and Structures:

No. 714.

Commissioner of Plant and Structures—Request for Authority to Purchase Cement Without Public Letting.

Department of Plant and Structures, City of New York, Municipal Building, Manhattan, N. Y., June 23, 1916.

To the Honorable the Board of Aldermen of The City of New York:

Gentlemen—On May 9, 1916, your Honorable Board adopted a resolution authorizing me to purchase, without public letting, certain supplies, consisting of structural steel, rivets, bolts, washers and lumber, for use in reconstructing the pavement on the roadway of the Queensboro Bridge. It was expected that the remaining materials, consisting of wood blocks, cement, sand and gravel required in the work, would be purchased on contract. In the case of the wood blocks, sand and gravel, advantageous bids have been received and the contracts for the purchase of these materials will be awarded. In the case of the cement, however, the market price has advanced considerably, and I believe it would be of benefit to the City to purchase the same in open market as required, in order that advantage may be taken of any drop in the market price. I therefore beg to request your Honorable Board to grant me permission to purchase cement for use in the reconstruction of the pavement on the roadway of the Queensboro Bridge in the open market, without public letting, to an amount not exceeding $7,700. Yours truly, F. J. H. KRACKE, Commissioner.

Which was referred to the Committee on Public Letting.

No. 715.

Commissioner of Plant and Structures—Request for Special Revenue Bonds, $5,275.31, to Increase the Budget Allowances for Schedules Nos. 2755, 2756TB, 2757B, 2760 and 2762B for the Year 1916.

Department of Plant and Structures, City of New York, Municipal Building, Manhattan, N. Y., June 26, 1916.

To the Honorable the Board of Aldermen of The City of New York:

Gentlemen—Pursuant to the resolution of the Board of Estimate and Apportion-

ment adopted May 12, 1916, and approved by your Honorable Board on June 20, 1916, establishing the grade of Bridge Mechanic, Housesmith, Bridgeman and Riveter at the rate of $5.30 per diem, and in accordance with the request contained in said resolution, to provide for the compensation of such employees, beginning March 1, 1916, at this rate, I beg to request that your Honorable Board, pursuant to the provisions of subdivision 8 of section 188 of the amended Greater New York Charter, recommend to the Board of Estimate and Apportionment that the Comptroller be authorized to issue Special Revenue Bonds in the amount of five thousand two hundred seventy-five and 31-100 dollars ($5,275.31), for the purpose of increasing the budget allowances for the schedules Nos. 2755, 2756TB, 2757B, 2760 and 2762B of this department for the year 1916, in order that said employees may be paid at the increased rate per diem from March 1, 1916. Respectfully, F. J. H. KRACKE, Commissioner.

Which was referred to the Committee on Finance.

The President laid before the Board the following communications from the Commissioner of Public Charities:

No. 716.

Commissioner of Public Charities—Request for Authority to Contract for Lighting Buildings on Randall's Island Without Public Letting.

Department of Public Charities of The City of New York, Municipal Building, Tenth Floor, June 23, 1916.

Re Lighting of Buildings on Randalls Island.

To the Honorable the Board of Aldermen, City Hall, N. Y. City:

Gentlemen—The Board of Estimate and Apportionment at its meeting held Friday, June 23rd, on request of this Department granted permission to use $10,000 of the $600,000 appropriated for new buildings at Randalls Island to be used for wiring all the buildings of the institution.

Most of the buildings on Randalls Island are at the present time lighted by gas manufactured in a small plant in connection with the institution. This plant is very old and has not been kept in repair and for several years has been on the point of breaking down. It has at last entirely given out, and it has been necessary for several days to light the ward buildings with hand lanterns and candles.

In order that no time shall be lost in installing this work, we hereby request permission to waive public letting and to secure informal competitive bids. Considering the imperative and emergent situation with which we are faced, we trust you will grant this request. Very truly yours,

HENRY C. WRIGHT, First Deputy Commissioner.

Which was referred to the Committee on Public Letting.

No. 717.

Commissioner of Public Charities—Request for Permission to Buy in the Open Market, Without Public Letting, $20,000 Worth of Medical and Surgical Supplies.

Department of Public Charities of The City of New York, Municipal Building, Tenth Floor, June 23, 1916.

Re Permission to Buy $20,000 Worth of Medical and Surgical Supplies in the Open Market Without Public Letting.

To the Honorable the Board of Aldermen, Municipal Building, N. Y. City:

Gentlemen—Application is hereby made for permission to buy in the open market, without public letting, $20,000 worth of medical and surgical supplies.

The market for some time past for this class of supplies has been very unsteady, and it would not be advantageous to the City to enter into a contract for such supplies at this time. May I request that your Honorable Board give this application your early consideration?

Very truly yours, JOHN A. KINGSBURY, Commissioner.

Which was referred to the Committee on Public Letting.

The President laid before the Board the following communication from the Armory Board:

A true copy of resolution adopted by the Board of Estimate and Apportionment, June 23, 1916. JOSEPH HAAG, Secretary.

The City of New York, Board of Estimate and Apportionment, Municipal Building, Bureau of Standards, June 19, 1916.

To the Board of Estimate and Apportionment:

Gentlemen—On June 15, 1916, the DIRECTOR OF THE BUREAU OF CONTRACT SUPERVISION requested *establishment of a position* in accordance with section 56 of the Greater New York Charter. The Bureau of Standards reports thereon as follows:

"The Director requests a position of Assistant Engineer at $7,200 in order to increase the salary of John F. Sullivan, Assistant Engineer, from $5,000 to $7,200.

"Mr. Sullivan has been performing work outside of the regular routine work of the Bureau in the capacity of Consulting Engineer for the Board of Estimate and Apportionment. This work falls within the top grade of the specifications for Engineer, with a minimum salary of $7,200, the amount requested. The Director states that he has included this request in his estimate for 1917. He states as follows regarding the present request:

"'I wish now to ask for immediate action upon this portion of my request. Mr. Sullivan has been working for a long time at a salary far below what I conceive to be a proper compensation. In view of the fact that through economies in the administration of the Bureau of Contract Supervision there are now funds available to increase Mr. Sullivan's salary for the remainder of the year, I request that the Board of Estimate and Apportionment ask the Board of Aldermen to establish the position of Assistant Engineer at a salary of $7,200 for Mr. Sullivan.

"'I do not believe it is necessary to call the attention of your Board to the merits of Mr. Sullivan, as his work is familiar to every member of the Board.

"'In view of the fact that the Board of Aldermen is soon to have its final session for the summer, may I request that immediate action be taken upon this request.'"

Recommendation—In view of the foregoing the Committee recommends the adoption of the attached resolution granting the request. Respectfully,

ALEX. BROUGH, Deputy and Acting Comptroller; JOHN PURROY MITCHEL, Mayor; LEWIS H. POUNDS, President, Borough of Brooklyn; Committee on Salaries and Grades.

In connection with the foregoing communication Alderman Delaney offered the following resolution:

Resolved, That the Board of Aldermen hereby approves of and concurs in the above resolution and fixes the salary of said position as set forth therein.

Board of Estimate and Apportionment—Certified Copy of Resolution Recommending Establishment of the Grade of Position of Marine Engineer in the Fire Department.

Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of section 56 of the Greater New York Charter, hereby recommends to the Board of Aldermen the establishment in the Fire Department of the grade of position, in addition to those heretofore established, as follows:

Title.	Rate Per Annum.	Number of Incumbents.
Marine Engineer	$1,320 00	Eleven

A true copy of resolution adopted by the Board of Estimate and Apportionment, June 23, 1916. JOSEPH HAAG, Secretary.

The City of New York, Board of Estimate and Apportionment, Municipal Building, Bureau of Standards, June 17, 1916.

To the Board of Estimate and Apportionment:

Gentlemen—On June 8, 1916, the Fire Commissioner requested fixation of a grade of position, pursuant to section 56 of the Greater New York Charter. The Bureau of Standards reports thereon as follows:

"Purpose—To fix the grade of position of Marine Engineer at $1,320 for 11 incumbents.

"Reason—The Fire Commissioner desires to promote 11 Stokers now working on fireboats, to the position of Marine Engineer on these boats. By the appointment of these 11 civilians a similar number of Engineers of Steamers of the uniformed force will be transferred from the fireboats to fill existing vacancies in land companies.

"Finding—The work of the incumbents in their new positions falls in Grade 3 of the Marine Engineman Group of the Skilled Trades Service of the standard specifications, with a salary range from $1,320 to $1,560 per annum. The proposed salaries are, therefore, proper and in accordance with rules of the Board. The funds necessary to make these changes will be provided for by modification of the line items in the schedule for the uniformed force of the Department. No increase in appropriation will be involved."

Recommendation—In view of the above report, the Committee recommends that the request be granted by the adoption of the attached resolution. Respectfully,

ALEX. BROUGH, Deputy and Acting Comptroller; JOHN PURROY MITCHEL, Mayor; LEWIS H. POUNDS, President, Borough of Brooklyn, Committee on Salaries and Grades.

A true copy of resolution adopted by the Board of Estimate and Apportionment, June 23, 1916. JOSEPH HAAG, Secretary.

The City of New York, Board of Estimate and Apportionment, Municipal Building, Bureau of Standards, June 21, 1916.

To the Board of Estimate and Apportionment:

On June 14, 1916, the Board of Child Welfare requested the establishment of grades of positions, pursuant to section 56 of the Greater New York Charter. The Bureau of Standards reports thereon as follows:

"Purpose—To establish the following grades of positions—

"(1) 8 Social Investigators at $1,080 per annum.

"(2) 2 Stenographers at $720 per annum.

"(3) 1 Clerk at $720 per annum.

"(4) 1 Clerk at $540 per annum.

"Reason—(1), (2), (3), (4)—In the Budget for 1916 there were 18 Social Investigators allowed in the Department of Public Charities for Child Welfare work, this arrangement being made to prevent duplication. The Board of Estimate and Apportionment has since transferred these Investigators to the Board of Child Welfare and the above force is requested to carry on both field and office work independently of the Bureau of Social Investigations of the Department of Public Charities.

"Finding—The following force will be necessary for this Board for the balance of the year:

"8 Social Investigators, at $1,080; 1 Stenographer, at $720; 1 Typist, at $600; 1 Clerk, at $540; 1 Clerk, at $300.

"It is proposed to secure the funds for these positions by the issue of Revenue Bonds. The rates suggested are not in excess of the minimum of the standard specications."

Recommendation—In view of the above report the Committee recommends that the request be granted by the adoption of the attached resolution.

Respectfully, ALEX. BROUGH, Deputy and Acting Comptroller; JOHN PURROY MITCHEL, Mayor; ....., President, Borough of Brooklyn, Committee on Salaries and Grades.

Board of Estimate and Apportionment—Certified Copy of Resolution Recommending Establishment of the Grade of Position of Bank Messenger in the Office of the City Chamberlain.

Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of section 56 of the Greater New York Charter, hereby recommends to the Board of Aldermen the establishment in the office of the City Chamberlain of the grade of position in addition to those heretofore established, as follows:

Title.	Rate Per Annum.	No. of Incumbents.
Bank Messenger	$750 (part time)	One

A true copy of resolution adopted by the Board of Estimate and Apportionment June 23, 1916. JOSEPH HAAG, Secretary.

The City of New York, Board of Estimate and Apportionment, Municipal Building, Bureau of Standards, June 22, 1916.

To the Board of Estimate and Apportionment:

Gentlemen—On June 21st, 1916, the City Chamberlain requested establishment, pursuant to section 56 of the Greater New York Charter, of a position for his office. The Bureau of Standards reports thereon as follows:

"The Chamberlain requests a position of Bank Messenger, at $750 per annum, in order to pay Philip Weigand for work being done for the City.

"Mr. Weigand has been employed in the office of the City Chamberlain since May 23, 1910. His salary, which has been at the rate of $1,500 per year, has been paid out of the mortgage tax receipts, upon authority of the State Board of Tax Commissioners. Under date of March 17, 1916, the State Tax Commission advised the Chamberlain that after July 1, 1916, the allowance for this position would be $750, instead of $1,500 per annum. This cut was made because only a portion of Mr. Weigand's time is spent on work in connection with mortgage tax receipts. It seems fair, therefore, that the City provide payment for the work which Mr. Weigand performs for the City. The rate of $750 is requested in order that Mr. Weigand will receive his former rate of compensation. The Corporation Counsel has given an opinion to the effect that the City may legally pay Mr. Weigand the other half of the salary which he has heretofore received entirely out of the mortgage tax receipts. An exempt position of Bank Messenger is available."

In view of the foregoing we recommend the adoption of the attached resolution granting the request. Respectfully,

ALEX. BROUGH, Deputy and Acting Comptroller; JOHN PURROY MITCHEL, Mayor; .....,President, Borough of Brooklyn, Committee on Salaries and Grades.

Board of Estimate and Apportionment—Certified Copy of Resolution Recommending Establishment of the Grade of Position of Pathological Chemist in the Board of Estimate and Apportionment.

City of New York, Board of Estimate and Apportionment, Office of the Secretary, Municipal Building, June 26, 1916.

To the Honorable the Board of Aldermen:

Gentlemen—I transmit herewith certified copy of resolution adopted by the Board of Estimate and Apportionment June 23, 1916, recommending the establishment in the office of the Board of Estimate and Apportionment of the grade of position of Pathological Chemist at $3,660 per annum for one incumbent.

I also transmit copy of report of the Committee on Salaries and Grades relative thereto. Respectfully, JOSEPH HAAG, Secretary.

Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of section 56 of the Greater New York Charter, hereby recommends to the Board of Aldermen the establishment in the office of the Board of Estimate and Apportionment of the grade of position, in addition to those heretofore established, as follows:

Title.	Rate Per Annum.	Number of Incumbents.
Pathological Chemist	$3,660 00	One

A true copy of resolution adopted by the Board of Estimate and Apportionment June 23, 1916. JOSEPH HAAG, Secretary.

The City of New York, Board of Estimate and Apportionment, Municipal Building, Bureau of Standards, June 23, 1916.

To the Board of Estimate and Apportionment:

Gentlemen—On May 19, 1916, the Director of the Bureau of Contract Supervision requested the establishment of two position for his office, pursuant to section 56 of the Greater New York Charter. The Bureau of Standards reports thereon as follows:

"The request is to fix a position of Pathological Chemist, for part time service, at the rate of $2,100 per annum, and of a Chemist at $1,020 per annum for part time service. The requested rates are in accordance with the specifications. The purpose is to enable the Director to appoint E. Butterfield as Pathologist and Robert H. Brown as Chemist in the Standard Testing Laboratory. The Standard Testing Laboratory will be called upon to perform pathological work for the office of the District Attorney and the Police Department. This work has been performed in the past by Pathologists outside of the City's service. It will prove more economical to have this work done by a regular employee in the City's service. Mr. Brown will be called upon to make chemical analyses of the waters surrounding New York, in connection with a solution of the problem of sewage disposal. The minimum rate for full time service for the work which Mr. Butterfield will be called upon to perform is $3,660."

The necessity for the work of a Chemist at $1,020 is not apparent to your Committee and it is therefore recommended that this part of the request be denied. The position of Pathological Chemist, however, is recommended for full time service at $3,660, for the reason that the work appears to be of sufficient importance to warrant the employment, on full time, of a properly qualified employee. Respectfully,

ALEX. BROUGH, Deputy and Acting Comptroller; JOHN PURROY MITCHEL, Mayor; LEWIS H. POUNDS, President, Borough of Brooklyn; Committee on Salaries and Grades.

In connection with the foregoing communication Alderman Kenney offered the following resolution:

The President laid before the Board the following communication from the Board of Child Welfare:

No. 726.

Board of Child Welfare—Request for Special Revenue Bonds, $5,400, to Pay Salaries of Clerical Help for the Six Months, July 1 to December 31, 1916.

Board of Child Welfare of The City of New York, City Hall, Room 2, New York, June 26, 1916.

Mr. FRANK DOWLING, *President, Board of Aldermen, New York City:*

Dear Sir—On Friday, June 23, 1916, the Board of Estimate and Apportionment unanimously established the following grades and positions: 8 Investigators, at $1,080 per annum; 1 Stenographer, at $720 per annum; 1 Typist, at $600 per annum; 1 Clerk, at $540 per annum; 1 Clerk, at $300 per annum.

We respectfully request that Revenue Bonds in the amount of $5,400 be issued in order that we may fill these vacancies for the six months, July 1, 1916, to December 31, 1916. The specific amounts are as follows:

8 Investigators, at $1,080 per annum, 6 months	$4,320 00
1 Stenographer, at $720 per annum, 6 months	360 00
1 Typist, at $600 per annum, 6 months	300 00
1 Clerk, at $540 per annum, 6 months	270 00
1 Clerk, at $300 per annum, 6 months	150 00
	$5,400 00

Our request is especially urgent, inasmuch as we have no clerical help whatever, and with over 9,000 applications, an additional investigating staff is imperative in order to make any appreciable headway.

Yours very respectfully, WM. H. MATTHEWS, Chairman.

In connection with the foregoing communication Alderman Kenney offered the following resolution:

Resolved, That, in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue Special Revenue Bonds to the amount of five thousand four hundred dollars ($5,400), the proceeds whereof to be used by the Board of Child Welfare for the purpose of paying salaries of the following named positions for the period, July 1, 1916, to December 31, 1916:

8 Investigators, at $1,080 per annum, 6 months	$4,320 00
1 Stenographer, at 720 per annum, 6 months	360 00
1 Typist, at 600 per annum, 6 months	300 00
1 Clerk, at 540 per annum, 6 months	270 00
1 Clerk, at 300 per annum, 6 months	150 00
	$5,400 00

The President laid before the Board the following communication from the Trustees, Bellevue and Allied Hospitals:

No. 727—(S. O. No. 95).

Bellevue and Allied Hospitals—Request for Authority to Purchase, Without Public Letting, Surgical Instruments at an Estimated Cost of $2,600.

Bellevue and Allied Hospitals, Office of the Board of Trustees, 1st Avenue and 26th Street, New York, June 19, 1916.

Hon. FRANK L. DOWLING, *President, Board of Aldermen, City Hall, New York:*

Sir—The Trustees of Bellevue and Allied Hospitals have the honor to request the Board of Aldermen to authorize the purchase, without public letting, of surgical instruments required in the ear, nose and throat service of Bellevue Hospital, which the department expects to open on July 1st. The estimated cost is $2,600. The instruments that are required are of a special character, and it would be difficult, if not impossible, without great delay to obtain acceptable instruments by advertising for bids.

Respectfully, J. K. PAULDING, Secretary, Board of Trustees.

In connection with the foregoing resolution Alderman McCann offered the following resolution:

Resolved, That, in pursuance of the provisions of section 419 of the Greater New York Charter, the Board of Trustees of Bellevue and Allied Hospitals be and it is hereby authorized and empowered to purchase surgical instruments required in the ear, nose and throat service of Bellevue Hospital, without public letting, at an estimated cost of two thousand six hundred dollars ($2,600).

Which was laid over.

The President laid before the Board the following communication from the Commissioner of Water Supply, Gas and Electricity:

No. 728.

Commissioner of Water Supply, Gas and Electricity—Request for Special Revenue Bonds, $64,000, to Purchase Coal for the Operation of Pumping Stations for the Balance of the Year.

The City of New York, Department of Water Supply, Gas and Electricity, Office of the Commissioner, Municipal Building, New York City, June 21, 1916.

Hon. FRANK L. DOWLING, *President, Board of Aldermen, City Hall, New York City:*

Dear Sir—As a result of the advance in the price of coal, the funds appropriated for the purchase of coal have become exhausted, and it is estimated that the coal on hand in all boroughs excepting Brooklyn will be consumed about July 15 next. This has brought about a very grave situation, the responsibility of which, however, cannot be charged to the City. Contracts for the supply of coal were awarded, in every instance, to the lowest bidder, but the prices quoted were far in excess of what the department had anticipated. The advance in the cost of coal grew out of the unsettled conditions in the coal regions. It is estimated that the quantity of coal required from July 15th for the remainder of the year for the operation of the pumping stations in all boroughs, except those connected with the Brooklyn system, will be $64,000, and I respectfully request that this money be provided by an issue of special revenue bonds. Owing to the importance of this matter I urge your earnest and *early* consideration of this application.

Respectfully, WILLIAM WILLIAMS, Commissioner.

Which was referred to the Committee on Finance.

The President laid before the Board the following communication from the President, Borough of Brooklyn:

No. 729.

An Ordinance Providing for an Issue of Corporate Stock of The City of New York in the Sum of Five Hundred Thousand Dollars ($500,000) to Provide Means for the Drawing of Plans and Specifications and for Constructing Foundations and Erecting a Municipal Building in the Borough of Brooklyn, and for the Further Purpose of Acquiring Three Lots of Land on the Court Street Side, to Be Used in Addition to the Municipal Park Adjoining, as a Site for the Said Building.

The City of New York, Office of the President of the Borough of Brooklyn, Brooklyn, June 27, 1916.

Hon. FRANK L. DOWLING, *President, Board of Aldermen:*

Sir—On June 23, 1916, the Acting President, Borough of Brooklyn, sent a communication to the Board of Estimate and Apportionment, asking for the passage of a proper resolution, so that $120,000 of the unencumbered balance of the $500,000 authorized by your Board on July 31, 1911, for the purpose of the construction of a Municipal Building in the Borough of Brooklyn could be used in the reconstruction and improvement of the Kings County Court House, as the original amount authorized for that purpose was not sufficient. The letter of the Acting Borough President to the Board of Estimate gives all the details regarding the same.

I know that it is not the ordinary method of procedure for a communication of this kind to be addressed to your Board before the Board of Estimate and Apportionment has acted upon any request presented to it, but as your body adjourns for the summer on July 7 I am sending this communication to you in order that it may be referred to the proper committee for investigation, so that, if the Board of Estimate does not act upon it, it can be acted upon by your Board, if possible, on July 7, and the work of reconstructing and improving the court house can go on.

A copy of the ordinance passed by your Board on July 31, 1911, making the original authorization, is hereto attached. Yours very truly,

LEWIS H. POUNDS, President, Borough of Brooklyn.

(Copy.)

The City of New York, Office of the President of the Borough of Brooklyn, Brooklyn, June 23, 1916.

To the Board of Estimate and Apportionment:

Gentlemen—The Board of Estimate and Apportionment on December 17, 1915, authorized an issue of corporate stock to the amount of $600,000 for the reconstruction and improvement of the Kings County Court House, and the Board of Aldermen on December 21, 1915, approved of and concurred in this action. Bids have been taken twice for this work and the combined lowest bids received amount to $662,910. The architect's fee on this, at 7½ per cent., amounts to $49,618.25, making the total cost of the improvement, as per these bids, $712,528.15, or considerably above the appropriation.

On July 27, 1911, a resolution was passed by the Board of Estimate and Apportionment, which was approved by the Board of Aldermen by an ordinance adopted on July 31, 1911, signed by the Mayor on August 30, 1911, authorizing the issue of corporate stock of the City of New York to an amount not exceeding $500,000, to provide means for drawing plans and specifications and for constructing foundations for and erecting a new Municipal Building in the Borough of Brooklyn, to be built at Court and Joralemon streets, and for the further purpose of acquiring three lots of land on the Court street side. No work has been done towards the construction of the new Municipal Building, except the employment of an architect, and the State Legislature has designated the foregoing premises as a site for a new court house. The land to be purchased has been acquired, and there now remains of the original authorization of $500,000 an unencumbered balance of $125,375.19.

As there seems to be no possibility even that the above balance will be required for the purposes specified in the authorization I would ask that the proper resolution be passed authorizing the use of $120,000 of the above unencumbered balance in the reconstruction and improvement of the Kings Count Court House.

Yours very truly,

(Sgd.) E. W. VOORHIES, Acting President, Borough of Brooklyn.

AN ORDINANCE providing for an issue of corporate stock of the City of New York in the sum of five hundred thousand dollars ($500,000) to provide means for the drawing of plans and specifications and for constructing foundations and erecting a municipal building in the Borough of Brooklyn, and for the further purpose of acquiring three lots of land on the Court st. side, to be used in addition to the municipal park adjoining, as a site for the said building.

Be it Ordained by the Board of Aldermen of the City of New York as follows:

Section 1. The Board of Aldermen hereby approves of and concurs in the following resolution, adopted by the Board of Estimate and Apportionment July 27, 1911, and authorizes the Comptroller to issue corporate stock of the City of New York to the amount and for the purposes therein specified:

Resolved, That, pursuant to the provisions of section 47 of the Greater New York Charter, as amended, the Board of Estimate and Apportionment hereby approves of the issue of corporate stock of The City of New York, to an amount not exceeding five hundred thousand dollars ($500,000), to provide means for drawing plans and specifications, and for constructing foundations for and erecting a new municipal building in the Borough of Brooklyn, to be built at Court and Joralemon sts., Borough of Brooklyn, and for the further purpose of acquiring three lots of land on the Court st. side, to be used in addition to the municipal park adjoining, as a site for the municipal building, and that when authority therefor shall have been obtained from the Board of Aldermen, the Comptroller be and is hereby authorized to issue said corporate stock of the City of New York, in the manner provided by section 169 of the Greater New York Charter, the proceeds thereof to the amount of the par value of the stock to be applied to the purposes aforesaid.

Adopted by the Board of Aldermen July 31, 1911, a majority of all the members elected voting in favor thereof.

Approved by the Mayor August 30, 1911.

(Signed) P. J. SCULLY, Clerk.

Which was referred to the Committee on Finance.

No. 561—(G. O. 146).

Report of the Committee on Codification of Ordinances in Favor of Adopting an Ordinance to Amend Article 11 of Chapter 10 of the Code, Relating to Garages and Oil Selling Stations.

The Committee on Codification of Ordinances, to which was referred on May 23, 1916 (Minutes; page 704), the annexed ordinance to amend article 11 of chapter 10 of the Code of Ordinances, relating to garages and oil selling stations, respectfully

REPORTS:

That the proposed ordinance was introduced at the request of the Fire Commissioner. The main purpose of the measure being to ameliorate a number of the present requirements respecting the fire protection of garages, which, in practice, have been found to be drastic.

A public hearing was held upon the proposition on May 31, 1916, when at the request of a representative of the Garage Owners' Association, further consideration of the measure was deferred for two weeks. The matter was again set down for public hearing on June 21, 1916, notice of which was given counsel for the said association. At the last mentioned hearing no one appeared in opposition to the proposition, and favorable report thereon was advocated by Deputy Fire Commissioner Fay, John F. Dixon, Assistant Inspector of Combustibles, and Hon. W. J. Millard, Assistant Corporation Counsel. Upon the consideration of the measure by the Committee, it was thought that section 4 of the proposed ordinance, amending § 154 of chapter 10 of the Code, was susceptible of further amelioration, in behalf of the property owners and their tenants, and the following substitute for said section of the measure was suggested by the Deputy Fire Commissioner and accepted by the Committee, namely:

Section 5. Section 154 of article 11 of chapter 10 of the Code of Ordinances, is hereby amended to read as follows:

Section 154. [Private garage] *Garages in buildings having dwelling occupancies—when permitted.*

(1. In building otherwise occupied.) A permit [may] *shall not* be issued for a [private] garage in a building occupied as a dwelling [by] *unless the ground floor area of the garage does not exceed* 5,000 *square feet and unless the occupants be* the applicant or his employee or [by] the applicant and one other tenant, or [by] the applicant's employee and one other tenant, *and* provided that not more than two stories above the garage are occupied or used as living apartments, which apartments shall be separated from the garage by fire retarding walls and floors, not pierced except by one opening, protected by a fireproof self-closing door, and provided that there shall be an entrance to the living apartments direct from the street without passing through the garage [; and provided further that all motor vehicles stored or kept in the garage shall be the property of the applicant or his immediate family]. *In case the building is occupied by two families and on two stories above the garage, a fire escape or other secondary means of escape must be provided for each story above the garage.* [No certificate of fitness shall be required of the person having supervision of such garage. No public garage, however, shall be permitted in any building occupied for dwelling purposes.]

It therefore recommends that the said ordinance as amended be adopted.

Section 4. Section 153 of article 11 of chapter 10 of the Code of Ordinances, is hereby amended to read as follows:

Section 153. [Public garage] *Certificate of Fitness.* Each *storage* garage *containing more than four motor vehicles,* [wherein volatile inflammable oil is stored] shall be continuously under the care and supervision of one or more persons, each holding a certificate of fitness [as a superintendent or manager thereof]. The number of persons to hold such certificates shall be stated in the permit, but in no case shall there be required more than 3 for any garage.

Section 5. Section 154 of article 11 of chapter 10 of the Code of Ordinances, is hereby amended to read as follows:

Section 154. [Private garage,] *Garages in buildings having dwelling occupancies—when permitted.*

[1. In building otherwise occupied.] A permit [may] *shall not* be issued for a [private] garage in a building occupied as a dwelling [by] *unless the ground floor area of the garage does not exceed* 5,000 *square feet and unless the occupants be* the applicant or his employee or [by] the applicant and one other tenant, or [by] the applicant's employee and one other tenant, *and* provided that not more than two stories above the garage are occupied or used as living apartments which apartments shall be separated from the garage by fire retarding walls and floors, not pierced except by one opening, protected by a fireproof self-closing door, and provided that there shall be an entrance to the living apartments direct from the street without passing through the garage [; and provided further that all motor vehicles stored or kept in the garage shall be the property of the applicant or his immediate family]. *In case the building is of non-fireproof construction and occupied by two families and on two stories above the garage, a fire escape or other secondary means of escape must be provided for each story above the garage.* No certificate of fitness shall be required of the person having supervision of such garage *unless the same be a storage garage containing more than four motor vehicles.* [No public garage, however, shall be permitted in any building occupied for dwelling purposes.]

Section 6. Section 160 of article 11 of chapter 10 of the Code of Ordinances, is hereby amended to read as follows:

Section 160. Oil selling stations. A permit may be issued by the fire commissioner for premises wherein the business of an oil selling station is to be conducted and such business shall be covered, *except as to fees,* by the regulations on the subject of [public] *storage* garages insofar as they are applicable thereto.

Report of the Committee on Codification of Ordinances in Favor of Adopting an Ordinance to Amend Article 1 of Chapter 10 of the Code, Relating to Definitions of Garages.

The Committee on Codification of Ordinances, to which was referred on May 23, 1916 (Minutes, page 706), the annexed ordinance to amend article 1 of chapter 10 of the Code of Ordinances, relating to the definitions of garages, respectfully

REPORTS:

That the proposed ordinance was introduced at the request of the Fire Commissioner, its purpose being to change the names of the classes of garages from "public" and "private," to "storage" and "non-storage," in respect of the storage therein of gasoline or other volatile, inflammable oils. The effect of the adoption of the ordinance will be to reduce the restrictions and requirements now imposed upon the proprietors of small public garages. This measure was considered at a public hearing before the Committee on June 21, 1916. There was no opposition thereto, whereas favorable action upon the proposition was urged by Deputy Fire Commissioner Fay and Jno. F. Dixon, Assistant Inspector of Combustibles, of the Fire Department, who, however, suggested that section 1 of the proposed ordinance, amending subdivision 19 of section 1 of chapter 10 of the Code, was susceptible of further change, in the interest of property owners and their tenants, and the following substitute for said section was suggested by the Deputy Fire Commissioner and accepted by the Committee, namely:

19. Garage, a building, shed or enclosure or any portion thereof, in which a motor vehicle [containing volatile inflammable oil in its fuel storage tank, is stored, housed or kept;]*other than one the fuel storage tank of which is empty, is stored, housed or kept;*

(a) Storage garage, a garage in which volatile inflammable oil other than that contained in the fuel storage tanks of motor vehicles is handled, stored or kept;

(b) Non-storage garage, a garage in which no volatile inflammable oil other than that contained in the fuel storage tanks of motor vehicles, is handled, stored or kept.

AN ORDINANCE to amend article 1 of chapter 10 of the Code of Ordinances of The City of New York, relating to definitions of garages.

Be it ordained by the Board of Aldermen of the City of New York as follows:

Section 1. Subdivision 19 of section 1 of article 1 of chapter 10 of the Code of Ordinances of the City of New York is hereby amended to read as follows:

19. *Garage,* a building, shed or enclosure, or any portion thereof, in which a motor vehicle, containing volatile inflammable oil in its fuel storage tank, is stored, housed or kept;

(a) Storage garage, a garage in which volatile inflammable oil other than that contained in the fuel storage tanks of motor vehicles is handled, stored or kept;

(b) Non-storage garage, a garage in which no volatile inflammable oil other than that contained in the fuel storage tanks of motor vehicles, is handled, stored or kept.

Section 2. Subdivisions 32 and 33 of section 1 of article 1 of chapter 10 of the Code of Ordinances are hereby repealed.

Section 3. This ordinance shall take effect immediately.

Note—New matter in *italics;* old matter, in brackets [], to be omitted.

Report of the Committee on Codification of Ordinances in Favor of Adopting an Ordinance to Amend Article 3 of Chapter 10 of the Code, Relating to Fees for Garage Permits and Oil Selling Stations.

The Committee on Codification of Ordinances, to which was referred on May 23, 1916 (Minutes, page 706), the annexed ordinance to amend article 3 of chapter 10 of the Code of Ordinances, relating to fees for garage permits and oil selling stations, respectfully

REPORTS:

That the proposed ordinance was introduced at the request of the Fire Commissioner. Its purpose is to fix the fees for permits for garages and oil selling stations to conform to the provisions of subdivision 17 of § 43 of chapter 10 of the Code to those of the sections amended by ordinances, Int. Nos. 561 and 562, concurrently reported by the Committee. The effect of the measure will be to reduce, materially, the fees for permits for small commercial garages storing gasoline or other volatile inflammable liquids and to increase the number of motor vehicles allowed to garages in certain cases, without increase of fee. The ordinance also fixes the fees for permits for oil selling stations for which provision is not made in the existing code, having been inadvertently omitted, and they now being fixed by special order of the Fire Commissioner.

At a public hearing had on this proposition on June 21, 1916, no one appeared in opposition; but favorable action thereon was advocated by Deputy Fire Commissioner Fay, John F. Dixon, Assistant Inspector of Combustibles of the Fire Department, and Assistant Corporation Counsel Millard.

AN ORDINANCE to amend Article 3 of Chapter 10 of the Code of Ordinances of the City of New York, relating to fees for garage permits and oil selling stations.

Be it Ordained by the Board of Aldermen of the City of New York, as follows:

each additional vehicle	2 00
public, one gasoline storage tank	25 00
each additional gasoline storage tank	10 00
no gasoline storage tanks	15 00

The unit capacity of storage tanks for purpose of fee shall be 275 gallons or major portion thereof.]

17. Garage, to maintain and operate:

Storage—one gasoline storage tank, where the garage contains not more than two motor vehicles	*$5 00*
One gasoline storage tank, where the garage contains more than two but not more than four motor vehicles	*10 00*
One gasoline storage tank, where the garage contains more than four but not more than six motor vehicles	*15 00*

Each additional gasoline storage tank	*10 00*
Non-storage—where the garage contains not more than four motor vehicles	*5 00*
Each additional motor vehicle	*2 00*

But in no case shall the maximum fee for a permit to maintain and operate a non-storage garage exceed $25.

Subject, however, to the provisions of subdivision 2, of section 150 of this chapter.

The unit capacity of storage tanks for purposes of fee shall be 275 gallons, or major portion thereof.

Section 2. Subdivision 38 of section 43 of article 3 of chapter 10 of the Code of Ordinances is hereby amended to read as follows:

38. Volatile inflammable oils:

each additional unit of 275 gals. or portion thereof 10 00

Section 3. This ordinance shall take effect immediately.

At the hearing held upon this ordinance on June 21, 1916, it was suggested by a member of the Committee that the amendatory proposition was somewhat indefinite and that it would be advisable definitely to fix the time within which the owners of scales that have been repaired or altered should report the fact to the Bureau of Weights and Measures. This suggestion was accepted by Assistant Corporation Counsel Millard and has been incorporated in the accompanying substitute ordinance, which the Committee recommends shall be adopted.

Reports of the Committee on Finance—

No. 611 (S. O. No. 97).

Report of the Committee on Finance in Favor of Adopting Resolution for Special Revenue Bonds, $75,000, for the Purchase of Fire Hose.

The Committee on Finance, to which was referred on June 6, 1916 (Minutes, page 818), the annexed request of the Fire Commissioner for Special Revenue Bond, No. 152,976, for the purchase of 208,336 feet of fire hose of various sizes, respectfully

REPORTS:

That this matter was referred to the Bureau of Contract Supervision for investigation, and in their annexed report they approve of the needed hose and recommend that $75,000 will provide for the normal yearly loss of hose, and at the same time leave an adequate margin for safety. It, therefore, recommends that the accompanying resolution be adopted.

Resolved, That in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue Special Revenue Bonds to the amount of seventy-five thousand dollars ($75,000), the proceeds whereof to be used by the Fire Commissioner for the purpose of purchasing fire hose of various sizes, all obligations contracted for hereunder to be incurred on or before December 31, 1916.

FRANCIS P. KENNEY, WM. P. KENNEALLY, JOHN DIEMER, F. H. STEVENSON, SAMUEL J. BURDEN, CHARLES P. COLE, ROBERT L. MORAN, MICHAEL STAPLETON, FRANCIS P. BENT, Committee on Finance.

Fire Department of the City of New York, May 29, 1916.

Hon. FRANK L. DOWLING, *President, Board of Aldermen, Borough of Manhattan:*

Sir—Request is hereby made for an issue of revenue bonds to the amount of $152,976, for the purchase of 208,336 feet of fire hose of various sizes, which is necessary to provide the proper quota for each company and retire hose no longer fit for service, which is still being used by some engine companies.

I cannot impress upon you too strongly the importance of having fire hose which is reasonably sure to withstand the required pressure. One poor or weak length affects the whole line. If a company is working on one of the upper floors of a building and a length of hose anywhere between the nozzle and the engine bursts they would be shut off and would have to withdraw, which might be very difficult under some conditions.

For the six years, from January 1st, 1908, to December 31st, 1913, inclusive, revenue bonds were issued for the purchase of fire hose to the extent of $647,100, an average of $107,850 a year. Thus it may be seen that, with the same number of companies, $323,550 would have been appropriated for the years 1914, 1915 and 1916, if the old average had obtained. With a large number of additional companies, nothing was allowed in 1914, $50,000 in 1915, and nothing in 1916. This allowance, plus the request now made, which will also cover 1917, shows $207,976 for four years, instead of $431,400, which would have been allowed if the old average was maintained. The saving, therefore, is $223,424 in four years.

The subjoined table shows briefly just what the hose condition is at the present time:

	1½-Inch.	2½-Inch.	3-Inch.	3½-Inch.	Total.
In Service	47,550	452,950	120,250	34,950	655,700
Under Guarantee	6,500	87,650	.....	2,500	96,650
Guarantee Expired	41,050	365,300	120,250	32,450	559,050
Over 8 Years in Service	4,900	126,350	65,450	16,150	212,850

Of the 655,700 feet of hose in service only 96,650 feet is under guarantee, about half of which expires in 1916, the balance in 1917 and 1918. Of the 559,050 feet of hose on which the guarantee has expired, 212,850 feet has been in service for more than eight years, most of which should be replaced at once.

At the time the departmental request for the year 1916 was before the Board of Estimate for consideration, it was explained that the request for $5,000, which was allowed, was for minor requirements, such as suction hose, thaw hose and hose for washing quarters and apparatus, and was not expected to cover any fire hose. It was explained at the time that a request for revenue bonds would be made just as soon as the hose situation had been carefully analyzed to show the actual condition, which has been done.

The only proper way to keep the hose situation well in hand, assuring thoroughly reliable hose, is to have a hose test every year of hose over five years of age. Any hose which cannot withstand the pressure, usually 125 lbs., is unfit for service and should not be retained in any company. If there is not a supply on hand, however, to fill up every case where a length bursts or is unfit for service, it is a dangerous proceeding to have a test, as it would result in depleting the quota of each company to such an extent that the supply would be insufficient to meet the needs of the fire-fighting force.

On account of the immediate need of additional hose it is important that this request receives prompt consideration. Respectfully,

ROBERT ADAMSON, Fire Commissioner.

City of New York, Board of Estimate and Apportionment, Municipal Building, Bureau of Contract Supervision, June 24, 1916.

Hon. FRANCIS P. KENNEY, *Chairman, Finance Committee, Board of Aldermen:*

No. 611—Communication from the Fire Commissioner, Requesting an Issue of Special Revenue Bonds, $152,976, for the Purchase of Fire Hose.

Sir—An investigation to determine the present necessity to purchase fire hose made at your request by the Bureau of Contract Supervision has developed the following facts:

On June 1, 1915, the Fire Department, in a pamphlet entitled "Supplement to Special Order No. 148, Company Hose Allowance," designates the allowance of the several sizes of fire hose required for each of the fire companies in the Department. This statement, corrected to include such changes in the companies as have taken place up to June 1, 1916, shows that there are .... companies, including all branches of the department which use fire hose, requiring 12,688 fifty-foot lengths, or a total of 634,400 feet of fire hose. The total number of lengths of several sizes of hose required is shown to be as follows:

1-Inch.	1½-Inch.	2½-Inch.	3-inch.	3½-Inch.	Total.
186	1,226	8,483	2,028	765	12,688

The hose reports from all of the companies shows that on June 1, 1916, the total number of lengths of hose of all ages and sizes in service to be 12,556, as follows:

1-Inch.	1½-Inch.	2½-Inch.	3-inch.	3½-Inch.	Total.
305	808	8,553	2,201	689	12,556

Comparing, size for size, the hose in service with the hose required or allowed, shows that there is a shortage of 418 lengths of 1½-inch hose and 76 lengths of 3½-inch hose, and an excess of 119 lengths of 1-inch hose, 70 lengths of 2½-inch hose and 173 lengths of 3-inch hose.

Disregarding for the present those sizes of which the department has an excess, the amount required to purchase those sizes of which there is a shortage is as follows:

20,900 feet of 1½-inch cotton rubber lined hose at 38 cents per foot.....	$7,942 00
3,800 feet of 3½-inch rubber hose at $1.60 per foot.....	6,080 00
Total	$14,022 00

This estimate does not include replacing such hose as has been in service eight years and over. The number of lengths, size and estimate of cost to replace hose issued prior to January 1, 1908, is as follows:

128 lengths	6,400 ft.	of 1-inch rubber hose, at 20 cents per foot.....	$1,280 00
55 lengths	2,750 ft.	of 1½-inch rubber hose at 45 cents per ft.....	1,237 50
832 lengths	41,600 ft	of 2½-inch rubber hose at 90 cents per ft.....	37,400 00
273 lengths	13,650 ft.	of 3-inch rubber hose at $1.35 per ft.....	18,427 50
52 lengths	2,600 ft.	of 3½-inch rubber hose at $1.60 per ft.....	4,160 00
24 lengths	1,200 ft.	of 1½-inch cotton, rubber lined hose at 38 cents per ft.	456 00
153 lengths	7,650 ft.	of 2½-inch cotton, rubber lined hose at 65 cents per ft.	4,972 50
11 lengths	550 ft	of 3-inch cotton, rubber lined hose at 90 cents per ft.	495 00
42 lengths	2,100 ft.	of 3½-inch cotton, rubber lined hose, at $1.25 per ft.	2,625 00
1,570	78,500		$71,093 50

Deducting from this amount the value of the excess hose of various sizes now in the several Boroughs which is $11,250, estimated as follows:

119 lengths	5,950	feet of 1-inch rubber hose at 20 cents per ft.....	$1,190 00
70 lengths	3,500	feet of 2½-inch cotton, rubber lined hose at 65 cents per ft.	2,275 00
173 lengths	8,650	feet of 3-inch Cotton, rubber lined hose at 90 cents per ft.	7,785 00
362	18,100		$11,250 00

—and adding $14,022 for the purchase of these sizes in which there is a shortage, makes $73,865.50, the amount required to purchase such hose as is stated to be necessary.

This is a liberal estimate, as experience based upon the number of lengths of hose damaged beyond repair within the last three years, which includes all hose burned, cut or burst and no longer fit for use, and therefore, condemned, is about 50,000 feet yearly. This amount of hose at 90 cents per foot, the average price paid, would cost about $45,000.

It is believed that an allowance of $75,000 will provide for the normal yearly loss of hose, and at the same time, have an adequate margin for replacing such hose as will burst during the annual hose test.

Upon the completion of the annual hose test a further study of the need for fire hose can be made and, if deemed necessary, an additional amount may be provided in the annual budget for 1917. Respectfully,

TILDEN ADAMSON, Director.

Which was laid over.

Report of the Committee on Finance in Favor of Adopting Resolution for Special Revenue Bonds, $6,000, to Provide for Additional Labor on Sewers—President, Borough of Manhattan.

The Committee on Finance, to which was referred on June 6, 1916 (Minutes, page 819), the annexed request of the President of the Borough of Manhattan for Special Revenue Bonds, $35,348.50, to provide for payment of additional labor, for work of cleaning, examining and repairing of receiving basins and sewers, respectfully

REPORTS:

That this matter was referred to the Bureau of Standards for investigation, and in their annexed report they show that a new automobile basin cleaning device is to be installed within a few days, taking over part of this proposed work, and that $6,000 will be a liberal allowance for this work. It, therefore, recommends that the accompanying resolution be adopted.

Resolved, That, in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue Special Revenue Bonds to the amount of six thousand dollars ($6,000), the proceeds whereof to be used by the President of the Borough of Manhattan for the purpose of providing payment of additional labor, for work of cleaning, examining and repairing of receiving basins and sewers. All obligations contracted for hereunder to be incurred on or before December 31, 1916.

FRANCIS P. KENNEY, WM. P. KENNEALLY, JOHN DIEMER, F. H. STEVENSON, SAMUEL J. BURDEN, CHARLES P. COLE, ROBERT L. MORAN, MICHAEL STAPLETON, FRANCIS P. BENT, Committee on Finance.

City of New York, President of the Borough of Manhattan, Municipal Building, June 2, 1916.

To the Honorable Board of Aldermen:

Gentlemen—The present force of Laborers, Mechanics and Vehicles employed in the Borough of Manhattan is inadequate to cope with the greatly increased amount of cleaning, examining and repairing of receiving basins and sewers, and application is hereby made for the issue of special revenue bonds to provide for an increased force, in accordance with the attached schedule, which shows a total amount required of $35,348.50.

Receiving basins are structures built under the roadway or sidewalk to receive and discharge into the sewers rain-water which collects on the street surface. Water from the street carries much solid matter, which should be excluded from the sewer, and the basin is for the purpose of collecting this material for removal. The quantity of materials caught in the basins varies with the quantity of dirt and litter left on the street surface and the frequency of rain-storms and street flushing.

In recent years the amount of street flushing has been limited because of an inadequate water supply, but during the past three months the *Street Cleaning Department* has resorted to *flushing* as a substitute (to a certain extent) for brooming and carting away the sweepings. This practice results in cleaner streets and a less expense to the Department of Street Cleaning, but greatly adds to the work and expense of the Bureau of Sewers in removing the increased quantities of street dirt, called detritus, from the basins.

When a receiving basin becomes over filled the detritus seals the outlet so that no water can pass into the sewer, and, as a consequence, a pool of water forms on the street around the basin. In order to prevent such a nuisance the cleaning of the basins must be attended to promptly, and during the past two months from two to four additional gangs have been engaged on this kind of work, so as to even partially keep up with the increased basin cleaning. The extra force on basin cleaning was taken from sewer cleaning and the neglect of this other work will in a short time result in an increased amount of cellar flooding and damage suits, if the sewer cleaning is not resumed by the full force formerly engaged on that work. The increase in the amount of detritus is evidenced by actual removal. In that section of the borough below Houston Street the quantity has more than trebled, and in the section above Houston Street it has more than doubled when compared with previous years for the same period. The number of complaints due to stopped receiving basins for the period from April 1, 1915, to May 25, 1915, was *35*; while for the same period in 1916 similar complaints numbered *475*. The condition which caused these complaints continued during the months of April and May in spite of the fact that during the last three weeks of the month of March the normal force engaged on basin cleaning had been tripled.

The greater part of the sewers in the Borough of Manhattan are very old and in a serious state of disrepair. In a great many places there are openings in the old sewers through which earth leaks into the sewer and is washed away, thus gradually undermining other structures in the street and the overlying pavement. It is customary, therefore, whenever a street is to be repaved to examine the sewers and make repairs, so that the new pavement will not be undermined and destroyed. This work must precede and keep ahead of the repaving programme. An unusually large amount of such work is already scheduled and must be carried out in order not only to save the pavement, but also to preserve the sewers themselves from deterioration. Much additional repair work is necessary, because the local boards have not promptly authorized the reconstruction of sewers, which are in an actually dangerous condition, and in some cases have denied such authorization. Cave-ins frequently occur in streets which contain sewers of this character, and it is necessary to make temporary repairs in order to keep the streets in a reasonably safe condition for the traveling public.

A great many of the receiving basins which take the water from the street surface into the sewer are trapped by a fixed bluestone, rather than by a removable iron hood. The Street Cleaning Department has found that the basins which have removable hoods have been very useful in the removal of snow because the hood can be taken off and the snow flushed directly through the basin into the sewer. There is also a considerable saving in connection with the regular cleaning of the basin where the hoods can be removed, in that the water which lies on top of the detritus can be bailed directly into the sewer instead of being hauled to the surface and carried to a manhole.

When the budget for this year was made up it was hoped that the present force would find time to remodel a considerable number of these basins, so as to save the city expense, both in the snow removal and in basin cleaning; but, so far, on account of other pressing matters as above mentioned, none of this work has been accomplished, nor can it be unless an increased force is allowed.

The force required to accomplish the repair work, even at a very moderate rate of progress, is covered by the Masons, Laborers, at $2.50, and part of the Horses and Vehicles, as shown on the attached schedule. Respectfully,

MARCUS M. MARKS, President, Borough of Manhattan.

City of New York, Board of Estimate and Apportionment, Municipal Building, Bureau of Standards, June 26, 1916.

Hon. FRANCIS P. KENNEY, *Chairman, Committee on Finance, Board of Aldermen:*

Sir—Replying to your communication of June 8, 1916, regarding the request of the President of the Borough of Manhattan, for revenue bonds to the amount of $35,348.50 to provide for an increased force of laborers, mechanics and vehicles in the Bureau of Sewers, I would state as follows:

This request is divided in two parts—first for the replacement of the stone apron forming the trap by an iron hood, the latter being removable, and second for the cleaning of receiving basins.

The work of changing stone aprons for removable iron hoods is not shown to be of immediate necessity, while it may be convenient and advisable, it is not an emergency condition. The removable hood type of basin has been in use for the past twenty years. Manhattan has eight sewer repair gangs, and the work of replacing hoods in receiving basins should be done when the gangs are not otherwise busy. It is a serious question whether the financial condition of the City warrants the immediate adoption of every refinement of such a character that could be made. It is the policy of the Brooklyn Bureau of Sewers, only to make these changes in connection with other sewer and highway improvements and not as a separate operation. Brooklyn has between three and four thousand of this old type of basin. I would not recommend any appropriation for this purpose on an emergency basis.

Regarding the cleaning of sewer basins, on two separate days an Examiner and an Engineer from the Bureau of Standards, together with officials of the Sewer Bureau, made a physical inspection of certain basins in various parts of the City, selected by the Bureau of Sewers as typical of the conditions which warranted this request. In all forty-four were examined, and of this four were in immediate need of cleaning, fifteen should be attended to within a reasonable time, and the balance were normal. The worst condition was found near the water front on both sides of the City, as would naturally be expected, where the grades are very slight and drainage poor. As a result of this inspection and further examination of the work of the Sewer Bureau, I would recommend an additional force of two full gangs as at present organized for a period of one hundred days, each gang to consist of one Foreman at $4 per day, four Labrers at $3 per day and four horses and carts at $3.50 per day. The amount necessary for this additional force is six thousand dollars. For further help in this work the Bureau, it may be pointed out, expects to put in operation within fifteen days a new seven-thousand dollar basin cleaning automobile. In my opinion, this added force will very shortly, if properly routed, clear up any unusual temporary condition.

The six thousand dollars above recommended is in my judgment a liberal allowance for this work. Yours very truly, GEO. L. TIRRELL, Director.

Which was laid over.

No. 2073, Laundry, Cleaning and Disinfecting Supplies, 1916—Estimated Deficit, $3,500.

The several articles chargeable to this appropriation are from list showing the quantities required for the year, the quantities ordered or contracted for and the quantities required for the remainder of the year.

In making allowance in the budget for the year 1916 the examiners counted upon this Department making all of its Chip Soap and allowed an item under appropriation No. 2091 for Installation for Economizing on Soap, $700. This Department was unable at first to have the vats, as originally contemplated, installed for the money allowed. The specifications were modified so that this Equipment could be bought for an amount within the appropriation but not early enough to enable the Laundryman to make the soap needed for the first half of the year. The vats are now being installed. The Chip Soap required for the last half of the year shall be made in our own Laundry.

The prices on this class of supplies have greatly increased since the budget time of last year.

No. 2085, General Plant Materials, 1916—Estimated Deficit, $17,000.

To this appropriation is charged all of the materials and parts of apparatus supplied to the Engineers' Division, Carpenters, Painters, Plumbers, Electricians and other mechanics to make repairs to buildings and apparatus. The needs of a department like this where there are a great many emergency repairs are based largely on past experiences. During the year 1914 this department bought materials costing $21,996.40 and during the year 1915 costing $23,252.78. The budget estimate for the year 1916 was prepared in the amount of $28,145.37.

The sub-committee of the Budget Committee induced our Supervising Engineer to agree to make an attempt to get along on $13,556. It has been apparent ever since the beginning of the year that the exceptional high prices of all metals, and the articles furnished under this appropriation are composed largely of metal, would cause this appropriation to reflect a deficit before the year would have past. The cost of materials already purchased upon May 31, 1916, amount to $13,556. The Supervising Engineer now estimates that materials required for the several institutions for the balance of the year will amount to and are as follows:

City of New York, Board of Estimate and Apportionment, Municipal Building, Bureau of Contract Supervision, June 26, 1916.

Hon. Francis P. Kenney, Chairman, Finance Committee, Board of Aldermen:

No. 616—Bellevue and Allied Hospitals, requesting the Authorization of an Issue of Special Revenue Bonds, $87,000, to meet Anticipated Deficits in Various Accounts.

Dear Sir—On June 2, 1916, the Secretary of the Board of Trustees of Bellevue and Allied Hospitals addressed a communication to your Board requesting the authorization of special revenue bonds in the sum of $87,000 to meet the anticipated deficit in the following accounts:

2069	Food Supplies	$47,000 00
2071	Fuel	17,000 00
2073	Laundry, Cleaning and Disinfecting Supplies	3,500 00
2077	Motor Vehicle Supplies	2,500 00
2085	General Plant Materials	17,000 00
		$87,000 00

At your request I have caused an examination to be made into this request and report thereon as follows:

Code No. 2069, Food Supplies.

The budget allowance for Food Supplies for 1916 was based on a patient and employee census, which has differed to some extent from the present indicated census for 1916, based on the experience of the year 1915 and the first five months of 1916.

The per capita cost allowances, as allowed in the budget, differ from the actual per capita costs, due to the increase in the prices of foods and also to the fact that in some of the hospitals, where the mess is general, the average costs have been somewhat higher.

A careful analysis of the records indicates the following estimated requirements for 1916:

Patient census estimated for 1916 based on 1915 experience and five months of 1916:

	Days.	
Bellevue	475,000	
Gouverneur	67,500	
Harlem	85,000	
Fordham	67,000	
	694,500	
—at $0.215 per capita		$149,317 50
Neponsit	32,500	
—at $0.25 per capita		8,125 00
Boat "Southfield"	34,000	
Boat "Juilliard"	21,000	
	55,000	

—at $0.36 per capita			19,800 00
Total estimated cost of feeding patients			$177,242 50

Employee census estimated for 1916 based on average number now eating at various hospitals:

	Days.	Rate.	
Bellevue—			
Officers and Physicians	43,920	$0.5805	$25,495 56
Nurses and Attendants	175,680	.363	63,771 84
Other employees	237,168	.2054	48,714 31
			$137,981 71
Gouverneur—			
Physicians and Officers, Nurses and Attendants, and other employees	64,782	.352	$22,803 26
Harlem—			
Officers and Physicians	498	.52	258 96
Nurses and Attendants	31,476	.365	11,488 74
Other employees	46,482	.341	15,850 36
			$27,598 06
Fordham—			
Physicians and employees	38,064	.381	$14,502 38
Nurses and Attendants	24,888	.382	9,507 22
			$24,009 60
Neponsit—			
Officers, Physicians, Nurses and employees	17,568	.40	$7,027 20
Total estimated cost of feeding employees			$219,419 81
Total estimated cost of patients and employees			$396,658 81
Less Budget Allowance			370,761 00
Estimated Deficit			$25,901 31

An allowance in the sum of $26,000 appears to be necessary at this time. This appears to be necessary for the requirements of the department for the remainder of the year.

Code No. 2073—Laundry, Cleaning and Disinfecting Supplies: The depletion of this account is due mainly to an error in the request of the department and to the delay in the installation of vats and other equipment for the making of chip soap. The budget allowance for brown or laundry soap was $35, whereas the consumption of brown soap for 1916 is estimated at 50,000 lbs. at $0.057 per lb., or $2,850. The increased cost of supplies is also partly responsible for the deficit in the account.

An analysis of the requirements of the department for the remainder of the year, as reflected by the stores ledger, less the stock on hand and the amount contracted for but not delivered, indicates the necessity of cleaning and disinfecting supplies to the extent of $7,100. Deducting the unencumbered balance of $3,600 leaves a deficit of $3,500. It appears that an allowance in this amount should be made.

Code No. 2077—Motor Vehicle Supplies: The budget allowance for motor vehicle supplies provided for the purchase of gasoline at approximately 12⅛ cents per gallon. This allowance has been greatly exceeded, the contract price being nearly double that stated. This increased cost, the conversion of electrically driven ambulances into motor driven ambulances and the addition of an automobile truck is the cause of the depletion of the account. The requirements for the remainder of the year are as follows:

14 ambulances, 84 months, on a consumption basis of 100 gallons per month	8,400 gals.
No. 2 truck, six months	220 gals.
No. 3 truck, six months	660 gals.
Total	9,280 gals.
Less estimated stock on hand June 30, 1916	600 gals.
	8,680 gals.
8,680 gallons, at $0.25 per gallon	$2,170 00
Oil, grease, etc	225 00
	$2,395 00
Less unencumbered balance	300 00
Estimated deficit	$2,095 00

This appears to indicate that an allowance of $2,100 is necessary. But the price of 25 cents, which is used as a basis, will probably be reduced during the balance of the year.

It is therefore suggested that an allowance be made on the basis of fifteen cents for gasoline, or approximately $1,200.

If the price of fifteen cents is exceeded an additional allowance can be made later in the year.

Code No. 2085—General Plant Materials: The budget allowance for general plant materials is now practically exhausted, due to the increased cost of materials and to the great amount of emergency repairs done by departmental employees, which could not be foreseen at the time of the preparation of the budget.

Due to a clerical error, a request for an allowance of $17,000 was made for this account. This, and the improper classification of general plant supplies and general plant equipment items in the request, reduces the amount requested to approximately $11,000.

However, it is felt that the immediate needs of the department can be provided for by an allowance of $6,000, which will enable the purchase of necessary glass, putty, sash cord, lead, oils, paints, enamels, nails, pipes and fittings, for repairs, which it is necessary to make immediately. Later in the year, if it is found necessary to purchase additional material, it is probable that funds can be provided by a transfer from the appropriation for general repairs, due to the fact that the department may not be able to do all the repairs provided for in the budget. However, it would be inadvisable to transfer funds from this account at this time. Transfer should await the definite establishment of the fact that there is an excess balance in the account.

Code No. 2071—Fuel Supplies: The depletion of this account is due to the increase in the price of fuel and to the delay in the installation of fuel economizing devices. The budget allowance was based on the use of No. 1 buckwheat and pea coal as fuel during the first three months of 1915 at Bellevue, Harlem, Fordham and Gouverneur Hospitals, and No. 3 buckwheat during the remaining nine months. It is hoped to have this installation completed, with the exception of Bellevue, by June 30th, and the request provides therefore for the purchase of No. 3 buckwheat for the last six months.

An analysis of the stores ledger, contract ledger, and a consideration of the unencumbered balance in the appropriation account, indicates that the request in the amount of $17,000 should be granted.

Summarizing, allowances as follows appear to be sufficient for the requirements of the Department for the remainder of the year:

Code No. 2069.	Food Supplies	$26,000 00
Code No. 2071.	Fuel	17,000 00
Code No. 2073.	Laundry, Cleaning and Disinfecting Supplies	3,500 00
Code No. 2077.	Motor Vehicle Supplies	1,200 00
Code No. 2085.	General Plant Materials	6,000 00
		$53,700 00

City of New York, Board of Estimate and Apportionment, Municipal Building, Bureau of Standards, June 26th, 1916.

Hon. FRANCIS P. KENNEY, *Chairman, Committee on Finance, Board of Aldermen,* City Hall, New York:

Sir—I am in receipt of your communication of the 23rd inst., requesting that I advise you, at my earliest convenience, on a request of the Commissioner of Public Charities for $16,717.50 special revenue bonds for additional positions at Greenpoint Hospital.

In connection therewith I transmit herewith a copy of my communication to Mr. Stanley H. Howe, Secretary, Department of Public Charities, dated June 2, 1916, on this matter. This increase in cost is mainly necessitated by the fact that the budget allowance for 1916 was based on the establishment of a training school with pupil nurses at $120 per annum and owing to the department's inability to establish a training school, trained nurses at $600 per annum must be allowed.

Very truly yours, GEORGE L. TIRRELL, Director.

June 2nd, 1916.

Mr. J. H. HOWE, *Secretary, Department of Public Charities,* Municipal Building, City:

Dear Mr. Howe—I am in receipt of your communication of the 28th ult., in regard to a proposed request for revenue bonds for Greenpoint Hospital. The Examiners of this Bureau have investigated the matter and this Bureau is prepared to recommend the following additional force:

Transportation—Auto Engineman at $960, without maintenance, 7 months	$560 00
Cleaning of Halls, Stairs, Dormitories, Making Beds, etc.—	
Hospital Helper, 1 at $480, without maintenance, 21 months	840 00
Hospital Helper, $450, without maintenance, 7 months	525 00
Hospital Helper, $210, with maintenance, 7 months	122 50
Laundry Work—Hospital Helper, without maintenance, $450, 9 months	337 50
Maintenance and Operation of Plant—	
Hospital Helper, $240, with maintenance, 14 months	280 00
Senior Hospital Artisan, $390, with maintenance, 7 months	227 50
Nursing Care—	
Trained Nurses, at $600, with maintenance, 224 months	11,200 00
Attendant, at $300, with maintenance, 63 months	1,575 00
Hospital Helper, at $240, with maintenance, 28 months	560 00
Hospital Helper, $210, with maintenance, 28 months	490 00

We will report favorably a modification of the schedule transferring one Hospital Helper, at $240, from the X-Ray to the Care of Grounds, eliminating the position of Baker at $540, and reducing the position of Hospital Clerk from $540 to $480, and we will use these funds for some of the additional positions above mentioned and also transfer this Hospital Clerk from the Storehouse to the Clerical function of the hospital. Very truly yours, ..., Director.

The President put the question whether the Board would agree to accept such report and adopt said resolution.

Which was decided in the affirmative by the following vote:

Affirmative—Aldermen Bassett, Bent, Burden, Browne, Carroll, Cardani, Cassidy, Cole, Collins, Colne, Cox, Crane, Cunningham, Curley, Curran, Daly, Delaney, Diemer, Donnelly, Dostal, Dunn, Drescher, Eagan, Farley, Ferguson, Ferrand, Friedlander, Gaynor, Goetz, Gutman, Hannon, Haubert, Heyman, Hilkemeier, Kenneally, Kenney, McCann, McCourt, McGarry, McGillick, McKee, Martin, Molen, Moore, Moran, Palitz, Post, Robitzek, Ryan, Schmitz, Schweickert, Shields, Silberstein, Smith, Squiers, Sullivan, Stapleton, Stevenson, Tolk, Trau, Walsh, Williams, Wirth; President Pounds, by Edmund W. Report of the Committee on Finance in Favor of Adopting Resolution for Special Revenue Bonds, $3,400, Increasing Allowance in Schedule 2788, Motor Vehicle Supplies, Department of Plant and Structures.

The Committee on Finance, to which was referred on June 20, 1916 (Minutes, page 1207), the annexed request of the Department of Plant and Structures for Special Revenue Bonds, $5,000, to increase allowance in schedule 2788, Motor Vehicle Supplies, respectfully

REPORTS:

That this matter was referred to the Bureau of Contract Supervision for investigation and in their annexed report they recommend that $3,400 be allowed for the balance of the year, as this is based on an average price of 15 cents a gallon, and, if the price exceeds this figure, further provision can be made later. It, therefore, recommends that the accompanying resolution be adopted.

Resolved, That, in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and

it is hereby requested to authorize the Comptroller to issue Special Revenue Bonds to the amount of Three thousand four hundred dollars ($3,400), the proceeds whereof to be used by the Department of Plant and Structures for the purpose of increasing allowance in schedule 2788, Motor Vehicle Supplies; all obligations contracted for hereunder to be incurred on or before December 31, 1916.

Department of Plant and Structures, City of New York, Municipal Building, Manhattan, N. Y., June 15, 1916.

To the Honorable the Board of Aldermen of The City of New York:

Gentlemen—I beg to ask your Honorable Board to adopt a resolution, pursuant to the provisions of subdivision 8 of section 188 of the Greater New York Charter, requesting the Board of Estimate and Apportionment to authorize the issue of special revenue bonds to the amount of $5,000, for the purpose of increasing the allowance in Schedule 2788, Motor Vehicle Supplies, from $14,336 to $19,336.

The necessity for this request is partly due to the insufficiency of funds allowed in this item, and partly to the increased cost of Motor Vehicle Supplies. Respectfully,

F. J. H. KRACKE, Commissioner.

City of New York, Board of Estimate and Apportionment, Municipal Building, Bureau of Contract Supervision, June 26, 1916.

Hon. FRANCIS P. KENNEY, *Chairman, Finance Committee, Board of Aldermen:*

No. 663—Department of Plant and Structures, Request for Special Revenue Bonds, $5,000, to Increase Allowance in Schedule 2788, Motor Vehicle Supplies.

Dear Sir—As requested in your communication of June 23, 1916, I give below the facts disclosed by the examination into the request referred to above.

On June 2, 1916, the Mayor requested this bureau to report on the necessity of special revenue bonds to be used by the Department of Plant and Structures for the purchase of gasoline; which report was subsequently submitted.

The budget for the year 1916 provides $14,336 for Motor Vehicle Supplies for the Muncipal Garage. Of this amount $10,500 was for the purchase of 70,000 gallons of gasoline at 15 cents, which was the price then prevailing, and the balance of $3,836 was for various other motor vehicle supplies.

The consumption for the first five months of this year indicates that the budget allowance, in gallons, was proper. There appears, however, to be a deficiency in this account, due entirely to the increased cost of gasoline. The department during this year purchased 48,671 gallons of gasoline, 33,101 at 21 cents per gallon and 15,570 at 24 cents. Considering the additional supply necessary for the remainder of the year at a cost of 24 cents, the deficit, based on the difference between the cost and the amount estimated when the budget was prepared, approximately $5,300. Certain economies in the purchase of supplies, other than the gasoline, to the extent of $300 are contemplated.

The special revenue bond allowance of $5,000 as requested by the Commissioner, appears to be necessary should the cost of gasoline remain at 24 cents a gallon.

In view of the present high price and the probability of a reduction based on a report recently received from the Federal Trade Commission, it is suggested that an allowance for the balance of the year at an average price of fifteen cents, or a total of approximately $3,400 be made. If the price exceeds this figure a further provision can be made later in the year. Respectfully,

TILDEN ADAMSON, Director.

City of New York, Office of the Mayor, June 20, 1916.

To the Honorable the Board of Aldermen:

Gentlemen—I hereby respectfully request an authorization of $15,000 Special Revenue Bonds to meet the cost of printing the manuscript Minutes of the Common Council of this City, from February 10, 1784, to May 9, 1831.

Attention has frequently been called to the importance of having these documents printed, not only to insure their preservation, but to make them accessible both on account of their historical interest and for legal purposes, such as street-opening matters and land titles. They constitute the most important unpublished documents in possession of the City and the only records of the Common Council which remain unprinted.

In 1897 the records of the "Dutch Period," extending from 1653 to 1674, were edited and published in seven volumes, under the direction of a committee appointed by Mayor William L. Strong. The members of this committee were James Grant Wilson, Isaac Townsend Smith, Edward F. De Lancey, and William L. Stone. In 1895, the City made an appropriation of $7,000 to pay the expense of editorial service and printing.

The records of the English period (1675-1776) were published in 1905, under the direction of a committee composed of members of the New York Historical Society, appointed by Mayor Low in 1902. The members of this committee were Professor Herbert L. Osgood, chairman; Frederic W. Jackson, Robert H. Kelby and Hiram Smith. An appropriation of $7,000 was also made at this time to cover the cost of editing and printing.

No records whatever have been preserved for the Revolutionary period, 1776 to 1784. Beginning with 1831, these proceedings have been published regularly, but for the period 1784 to 1831 the Minutes of the Common Council are still in manuscript, and, as you are well aware, are kept in the City Clerk's office.

Historical societies and individuals interested in the preservation of valuable public records of the City have long urged that these Minutes be printed. Certain individuals are now proposing to publish them in part, with the hope of making a profit out of the undertaking. It seems to me this would be unfortunate, for they should be printed in full with all possible accuracy and care. Their publication should not be made a commercial matter in any sense, although it is possible that a considerable part of the cost might be returned to the City if the volumes were sold at a reasonable price.

Fortunately for the City, the services of a professor of history in one of the public high schools will be available for this work, without additional expense. This gentleman's studies have made him thoroughly familiar with the manuscript volumes which it is proposed to publish. My inquiries indicate that he is admirably fitted by training and scholarship to be entrusted with the important and difficult task of editing and publishing these records. It is my intention, also, if agreeable to your Honorable Board, to appoint an advisory committee to supervise the work of editing and publishing and to aid in securing private subscriptions to the printed volumes. As members of this committee, I propose to appoint, in addition to representatives of the Board of Aldermen, representatives of the leading historical societies and educational institutions of the city. This, I am confident, will meet with general approval and will insure a satisfactory result with a minimum of expense.

It is not possible to determine in advance just what the expense will be, but estimates which I have caused to be made indicate that an appropriation of $15,000 should carry the work far toward completion. Approximately twenty-five volumes will be required. The publication of the records of the Dutch and English periods cost about $1,000 per volume. Since our plan is to have as much of the work as possible done by those already in the employ of the City without additional compensation, I hope that $15,000 will be sufficient to cover all expenses. Respectfully yours,

JOHN PURROY MITCHEL, Mayor.

Reports of the Committee on General Welfare—

No. 458—(Ord. No. 64).

Report of the Committee on General Welfare in Favor of Filing an Ordinance to Amend the Code of Ordinances by Adding a New Article Entitled "Massage Parlors."

The Committee on General Welfare, to which was referred on May 2, 1916 (Minutes, page 449), the annexed ordinance to amend chapter 14 of the Code of Ordinances, relating to Licenses, by adding a new article, to be known as article 15, entitled "Massage Parlors," respectfully

REPORTS:

That this ordinance was considered at the public hearing held June 26, 1916. Considerable opposition to the proposition developed. It was the consensus of opinion that the general features of the ordinance were commendable, but opinions differed as to whether the ordinance was adequate in several of its details. It was suggested that the present ordinance be filed and that in lieu thereof a new ordinance be introduced, embracing certain new matter suggested by various speakers at the hearing.

AN ORDINANCE to amend chapter 14 of the Code of Ordinances relating to licenses, by adding a new article to be known as Article 15, entitled Massage Parlors.

Be it Ordained by the Board of Aldermen of The City of New York, as follows:

Section 1. Chapter 14 of the Code of Ordinances relating to licenses is hereby amended by adding thereto a new article to read as follows:

Article 15. Massage Parlors.

174. *Restrictions.*

Section 173. License, Fee and Bond; Term.

The annual license fee for each keeper or proprietor of a massage parlor shall be twenty-five dollars ($25), and every such keeper or proprietor shall give a bond to the City with sufficient security to be approved by the Commissioner of Licenses in the penal sum of one hundred dollars ($100), conditioned for the due observance of the provisions of law or ordinance relating to such massage parlors. All licenses for keepers or proprietors of massage parlors shall be issued as of February 1st and shall expire on the 31st day of January next succeeding the date of issuance thereof.

Section 174. Restrictions.

Section 1. No keeper or proprietor of any such massage parlor shall carry on business at any other place than the one designated in his license, nor shall he continue to carry on business after his license is suspended, revoked or expired.

The National Association of the Osteotherapeutic Practitioners, Inc. (Organized and registered in 1904. Incorporated under the Laws of the State of New York.) Affiliated with The International Alliance of Physicians and Surgeons, 110 W. 90th St., N. Y. City, May 17, 1916.

Hon. FRANK L. DOWLING, 401 W. 24th St., City:

Esteemed Sir—In reference to the ordinance (No. 64) regulating massage practitioners, etc., we would respectfully ask you to consider the following facts:

No provision having been made in the original ordinance, above referred to, for professional education, it would become a menace to the public, say nothing of the handicap it would give medical doctors who are almost daily obliged to send patients to a massage operator in their patient's own neighborhood, if the ordinance was to become a law in its present state. This matter can be easily overcome, however, since your honorable Board is open to suggestions.

The ordinance should, first of all, provide for proper education of any and all practitioners who are to receive a license. The applicant for such a license should show a diploma for personal attendance of not less than one year; said diploma must be signed by not less than six licensed physicians, who are under contract to teach in the school which grants said diploma.

Moral character is not sufficiently provided for in the ordinance. As a massage practitioner comes in closer physical contact with patients than even a physician, the moral character of such operators should be vouched for with more than a mere money consideration. A bond of $100 or even $1,000 would not prevent some unscrupulous persons from opening an assignation house under the disguise of a "massage parlor," just as most of the "parlors" have been conducted of late years. The only difference would be that they would now be licensed to carry on their nefarious trade. At the same time it would sink the physicians' most valuable aid into such deep degradation that no law, made by either God or man, could ever rescue it.

The following paragraph inserted in the ordinance would amply guarantee morality:

"Attendants over twenty-one years of age, in legitimate institutions under the supervision of a licensed practitioner, shall not be considered as practitioners. If it is shown, however, that they are under the age of twenty-one, or of immoral, licentious character, and are immorally reflecting in any way on the profession, the license of such practitioner in charge of such institution shall be revoked without any further redress."

The same would not work hardships as a $100 bond would, with most legitimate massage practitioners. A $25 yearly license fee would work another great hardship. There are a good many competent massage operators, both male and female, who do not earn $25 in a whole month in certain seasons of the year. How can they afford to pay $25 a year for a license? Such an exorbitant fee would drive them to immoral acts. Five dollars would be ample to pay for the privilege to carry on a massage practice in a legitimate and moral manner. Any higher fee or any bond of any kind would suggest something not at all in keeping with a dignified profession such as massage and kindred treatments are. An osteopath, who carries on a similar business, pays only a license tax of $25 for a whole lifetime.

Give the massage practitioners who are worthy of a license an opportunity and they will make good. Give these practitioners a yearly license certificate stating in large (2-inch) letters and figures in RED: "Good for the Fiscal Year 1916," or whatever the year may be. Said certificate should be displayed in a conspicuous place in the practitioner's place of business so anybody can see at once if said practitioner is in good standing. The National Association of the Osteotherapeutic Practioners, Inc., will gladly help to prepare an appropriate certificate, if an opportunity is afforded. If a man or woman is placed upon his or her professional honor, they will conduct themselves and their business with much greater honor and dignity than they would under a bond; that is, if they are educated enough to conduct a profession, like the massage profession, which is one of the oldest and most needful in the world, should be conducted.

If the Board of Aldermen could arrange to have the National Association of the Osteotherapeutic Practitioners, Inc., which is fully conversant with the matter at hand, look after the moral and professional side of the practitioners who are fit to be licensed it would relieve the Board of much work and much responsibility. The Association could also look after the illegitimate and unlicensed practitioners, and through its attorneys prosecute them, after due warning to cease such practice had been given, with the co-operation of the District Attorney's Office.

A proper statute of penalty should also be contained in the ordinance. This would have a definite effect upon the minds of all illegitimate practitioners, and would guide the Courts and Judges before whom such practitioners were brought.

The age limit—set in the original ordinance—would seem altogether inadequate, as the ordinance would permit mere children of 16 years of age to be employed in "massage parlors." Twenty-one years is the minimum age at which any regularly conducted school would graduate a massage student, and they certainly should not be permitted to treat when they are under that age; whereas, on the other hand, there are many children and young people below the age of 16 who need massage which they could not get in this city by a massage operator, who, by reason of the ordinance, could not execute such treatment though licensed by the Board of Aldermen. Such a license would be an insult to the practitioner as well as to the community, say nothing of the hardship this would work with the medical doctors, who would have to take their "young" patients to New Jersey or some other place for massage treatment in which they might be in sore need.

It is to be hoped that your Board will find it reasonable to adopt the ordinance in the newly suggested form, so defects pointed out herein will be overcome.

Assuring you, gentlemen, of our further sincere co-operation, we remain,

Most respectfully yours, THE NATIONAL ASSOCIATION OF THE OSTEOTHERAPEUTIC PRACTITIONERS, INC., H. MORGENBESSER, President.

REPORTS:

That, having examined the subject, the committee concludes that the provisions are too drastic. It, therefore, recommends that the accompanying ordinance be placed on file.

REPORTS:

There was no opposition to this ordinance, and its adoption was very strongly urged by representatives of the Central Federated Union, the Granite Cutters' Union and of the Flaggers' and Curb Setters' Union of The City of New York. It was urged that any legislation which would result in enlarging the local field of employment for stone cutters should receive favorable consideration. The Committee, therefore, recommends the adoption of the ordinance.

Report of the Committee on General Welfare in Favor of Adopting an Ordinance to Amend the Code of Ordinances, Relating to the Discharge of Volatile inflammable Liquids Into Sewers or Drains.

The Committee on General Welfare, to which was referred on June 6, 1916 (Minutes, page 840), the annexed ordinance to amend section 21 of chapter 21 of the Code of Ordinances, relating to the discharge of volatile inflammable liquids into sewers or drains, respectfully

REPORTS:

That this ordinance was introduced at the request of the Corporation Counsel; its purpose being to prevent the discharge of gasoline and other inflammable liquids into sewers from automobiles while in public streets. Owners of garages are required to install expensive oil separators to protect sewers against the discharge therein of explosive liquids, and no reason exists why those using gasoline upon public highways should be permitted to do that which garage owners are prohibited from doing. The committee, therefore, recommends the adoption of this ordinance.

AN ORDINANCE to amend § 21 of chapter 21 of the Code of Ordinances, relating to the discharge of volatile inflammable liquids into sewers and drains.

Be it Ordained by the Board of Aldermen of The City of New York, as follows:

Section 1. Section 21 of chapter 21 of the Code of Ordinances is hereby amended to read as follows:

§21. Volatile inflammable liquids.

No connection with, or opening into, *or gutter leading into* any sewer or drain, either public or private, shall be used for the conveyance or discharge, directly or indirectly, into said sewer or drain, of any volatile inflammable liquid, gas or vapor; it being noted that a volatile inflammable liquid is any liquid that will emit an inflammable vapor at a temperature below 160 degrees Fahrenheit.

Report of the Committee on General Welfare in Favor of Filing Communication from the Amalgamated Blue Stone Cutters, Indorsing an Ordinance Relating to Cutting of Stone, Etc., for Municipal Work.

The Committee on General Welfare, to which was referred on June 20, 1916 (Minutes, page 1199), the annexed communication from the Amalgamated Blue Stone Cutters in indorsement of ordinance in relation to the cutting of stone, etc., for municipal work, respectfully

REPORTS:

That this matter has been already acted upon by the committee in recommending the adoption of Int. No. 622. The committee, therefore, recommends the communication be filed.

Amalgamated Blue Stone Cutters, Flaggers, Curb and Bridge Setters of America, Branch, Blue Stone Cutters' and Flaggers' Association of New York, New York, June 10, 1916.

To Committee on General Welfare, Honorable Board of Aldermen, City of New York:

Gentlemen—The undersigned has been instructed by the members of the above named organization to communicate with your honorable body and request that, section 1, article 2, of chapter 1 of the Code of Ordinances, relating to miscellaneous regulations, be amended by adding thereto a new section, to read as follows:

No. 12—Cutting of Stone, Etc., for Municipal Work—The cutting, carving, polishing, sawing, or dressing of all stone excepting paving blocks and crushed stone, to be used in municipal work, whether on buildings or other public work, shall be done by labor performed within the City limits. The foregoing provision shall apply whether

such work be performed by the municipality or others, shall be contained in all advertised plans and specifications for such municipal work, and shall also be contained in all final contracts entered into. Our organization instructs me to say that the members who are citizens and residents of the Greater New York would appreciate it very much if this ordinance was enacted into law, as it would provide employment throughout the year, and especially in the winter time when the stone which is used within the municipality is being dressed in other localities by persons who do not contribute toward the payment of the performance of the work, thus creating a hardship on the mechanics of this city, who are compelled to go idle. Trusting your honorable committee will see the importance of granting this request, thanking you in advance and with best wishes for favorable action, I remain, very respectfully yours,

507 E. 82d St., City. EDW. BRODERICK.

Report of the Committee on General Welfare in Favor of Adopting Resolution Relative to Materials and Supplies to Be Used in Connection with the Construction of Public Buildings.

The Committee on General Welfare, to which was referred on June 20, 1916 (Minutes, page 1232), the annexed preamble and resolution relative to materials and supplies to be used in connection with the construction of public buildings, preference to be given to productions manufactured in the State, respectfully

REPORTS:

The purpose of this resolution is salutary and in accord with home rule principles. The effect of the ordinance is merely to put the board upon record in favor of the purchase of materials and supplies manufactured in the State of New York always keeping in view the best interests of The City of New York. The Committee, therefore, recommends the adoption of the resolution.

Whereas, Manufacturers of materials and supplies required for the construction of buildings and who manufacture the aforesaid material in the State of New York, when submitting bids for contracts to supply materials or supplies for the construction of all public buildings erected in the City of New York, under the supervision of the heads of borough departments and bureaus, desire a fair and equitable opportunity to obtain such contracts; and

Whereas, The prevailing rate of wages paid to employees by manufacturers of materials and supplies for the construction of buildings in the State of New York is higher than the rate of wages paid by manufacturers of similar materials and supplies outside of the State of New York, an unfair inequitable advantage is created between bidders on such contracts; and

Whereas, All contractors are entitled to an equal opportunity in their efforts to secure contracts to supply materials and supplies required in the construction of public buildings erected in the City of New York and to encourage the home industries in the State of New York; it is therefore

Resolved, That it is the opinion of the Board of Aldermen that in making contracts for materials and supplies to be used in the construction of public buildings in the City of New York, or any department thereof, the heads of boroughs and bureaus should give the preference, wherever possible, to such materials and supplies as are manufactured in the State of New York, provided said preference may be in the best interest of the City of New York and shall meet with the approval of the Board of Estimate and Apportionment.

Report of the Committee on General Welfare in Favor of Filing an Ordinance to Amend the Code of Ordinances, Relating to "Rules of the Road."

The Committee on General Welfare, to which was referred on June 20, 1916 (Minutes, page 1243), the annexed ordinance to amend article 2 of chapter 24 of the Code of Ordinances, relating to "rules of the road.," respectfully

REPORTS:

This ordinance would require the drivers of all vehicles to be licensed, whether or not the vehicle is required to be licensed by any provision of the Code. At the hearing upon this proposition no public demand for its passage was manifested and in the opinion of the committee the proposition is of very doubtful expediency. The Committee, therefore, recommends that the ordinance be placed on file.

AN ORDINANCE to amend article 2 of chapter 24 of the Code of Ordinances relating to "rules of the road."

Be It Ordained, by the Board of Aldermen of The City of New York, as follows:

Section 1. Section 10 of article 2 of chapter 24 of the Code of Ordinances, relating to "rules of the road," is hereby amended to read as follows:

§10. Drivers; age limit [.]; *acts of, owners of vehicles responsible for.*

Drivers or persons in charge of vehicles other than licensed vehicles shall not be less than 16 years of age, unless provided with a permit from the police department. *No vehicle, of whatever nature, used for public hire, shall be operated or driven by an unlicensed driver and a penalty of $25 shall be imposed upon the owner for a violation thereof.*

Sec. 2. Article 2 of chapter 24 of the Code of Ordinances is hereby further amended by adding at the end thereof a new section, to read as follows:

§19. *Horses; vehicles; control of. A horse shall not be unbridled, nor left unattended in a street or unenclosed space without being securely fastened, unless harnessed to a vehicle with wheels so secured as to prevent its being dragged faster than a walk.*

Report of the Committee on General Welfare in Favor of Adopting an Ordinance to Amend the Code of Ordinances, Relating to "Snow Plows and Rotary Sweepers."

The Committee on General Welfare, to which was referred on June 10, 1916 (Minutes, page 1244), the annexed ordinance to amend subdivision 2 of section 22 of article 3 of chapter 22 of the Code of Ordinances, relating to the use of snow plows and rotary sweepers by surface railroad corporations, or other corporations or persons, respectfully

REPORTS:

This ordinance was introduced at the request of the Corporation Counsel; its purpose being to provide that trials for violations of the ordinance shall be held in a Municipal Court rather than the City Magistrates' Court. In view of the fact that the ordinance relates only to street railroad companies, the committee is of the opinion that it is preferable that the trial of such action should be transferred to the Municipal Courts, as would be the effect of the adoption of the ordinance. It developed at the hearing that subdivision 1 of the section required similar amendment and for that reason the committee submits the accompanying substitute ordinance which embraces subdivision 1, as amended, and recommends the adoption of such substitute ordinance.

SUBSTITUTE.

AN ORDINANCE to amend subdivisions 1 and 2 of section 22 of chapter 22 of the Code of Ordinances, relating to removal of snow from streets by street railroad companies.

Be it Ordained by the Board of Aldermen of the City of New York, as follows:

Section 1. Subdivisions 1 and 2 of §22 of chapter 22 of the Code of Ordinances is hereby amended to read as follows:

§22. Street railroad companies; responsibilities of.

1. *Co-operation in snow removal.* Every street railroad corporation shall remove all the snow and ice from its tracks and the spaces between, and shall not throw the same on either side thereof, but shall immediately carry away and dispose of the same, under the direction of the commissioner of street cleaning or the borough president of Queens or Richmond, under a [fine] *penalty* of $100 for every city block in length in which the said corporation shall fail to so remove and dispose of [the same] *such snow and ice,* as aforesaid; provided, however, that, for the more speedy and effective removal of snow and ice from the paved streets and public places of the city, the commissioner of street cleaning and the borough presidents of Queens and Richmond shall have power and authority, in their respective jurisdictions, to enter into agreements for the entire winter season, or part thereof, with any street surface railroad or other railroad having tracks in the city, for the removal of snow and ice for the entire width of the street or public place, from house-line to house-line, at any part of the route of the said railroad, but nothing in any such agreement shall be inconsistent with any law of the State of New York or with any right of the city. (C. O., §416.)

2. *Use of snow plows and rotary sweepers.* No surface railroad company or other company, or any corporation or person whatever, or the officers, agents or servants thereof, shall cause or allow any snow plow, sweeping machine or other similar instrument to pass over the tracks or lines used by them within the limits of the city, unless by the written permit of the commissioner of street cleaning or the borough president of Queens or Richmond; any violation of this provision shall be punished by a [fine] *penalty* not exceeding $100 for each such offense. No such permit or renewal thereof shall be granted except upon the condition and agreement, upon the part of the company applying for such permit or renewal, that the party to whom the same has been granted shall and will, at its own expense, promptly remove and carry away the snow thrown up by such plow or machine, and that such snow plow, sweeping machine or other instrument shall be so constructed as not to throw any slush or snow upon sidewalks or buildings, under a penalty of $10 for every house, or sidewalk in front thereof, upon which slush or snow shall be thrown. No such permit or renewal shall be granted unless the party to whom granted shall expressly covenant, stipulate and agree that, in case of its failure, neglect or omission to remove promptly and carry away the snow and ice thrown up by such snow plow or other instrument, then the same may be removed under the direction of the commissioner of street cleaning or the borough president of Queens or Richmond, and the expense of removing the same shall be paid by the party to the commissioner or the borough president, on demand. The board of estimate may authorize that the amount or amounts of moneys so paid shall be credited to the appropriation, in the respective boroughs, for the removal of snow and ice; but nothing herein contained shall be deemed to prohibit the commissioner or a borough president from demanding, before issuing said permit and as a condition thereof, the deposit of such sum of money or other security as, in his judgment, may be necessary to pay the cost of properly performing the work above mentioned, together with the expense of the inspection thereof. In case of neglect, [or] refusal or omission of the party to whom such permit may be granted promptly to remove and to carry away the snow and ice thrown up by such plow or other instrument, then the commissioner of street cleaning or the borough president of Queens or Richmond may forthwith cause the same to be removed at the public expense, and all expenditures made or incurred therefor *shall* be chargeable upon the party so neglecting, refusing or omitting to perform his agreement, and shall be recoverable by an action at law on behalf of the city, and, when so recovered, shall be placed to the credit of the department of street cleaning or the bureau of street cleaning in the Boroughs of Queens or Richmond, as the case may be, to supply the deficiency occasioned by such additional expenditure. (C. O., §417.)

Section 2. This ordinance shall take effect immediately.

Note—New matter in *italics;* old matter, in brackets [ ], to be omitted.

ORIGINAL.

AN ORDINANCE to amend subdivision 2 of section 22 of article 3 of chapter 22 of the Code of Ordinances, relating to the use of snow plows and rotary sweepers by surface railroad corporations, or other corporations or persons.

Be it Ordained by the Board of Aldermen of The City of New York, as follows:

Section 1. Subdivision 2 of section 22 of article 3 of chapter 22 of the Code of Ordinances is hereby amended to read as follows:

2. *Use of snow plows and rotary sweepers.* No surface railroad company or other company, or any corporation or person whatever, or the officers, agents or servants thereof, shall cause or allow any snow plow, sweeping machine or other similar instrument to pass over the tracks or lines used by them within the limits of the city, unless by the written permit of the commissioner of street cleaning or the borough president of Queens or Richmond; any violation of this provision shall be punished by a [fine] *penalty* not exceeding $100 for each such offense. No such permit or renewal thereof shall be granted except upon the condition and agreement, upon the part of the company applying for such permit or renewal, that the party to whom the same has been granted shall and will, at its own expense, promptly remove and carry away the snow thrown up by such plow or machine, and that such snow plow, sweeping machine or other instrument shall be so constructed as not to throw any slush or snow upon sidewalks or buildings, under a penalty of $10 for every house, or sidewalk in front thereof, upon which slush or snow shall be thrown. No such permit or renewal shall be granted unless the party to whom granted shall expressly covenant, stipulate and agree that, in case of its failure, neglect or omission to remove promptly and carry away the snow and ice thrown up by such snow plow or other instrument, then the same may be removed under the direction of the commissioner of street cleaning or the borough president of Queens or Richmond, and the expense of removing the same shall be paid by the party to the commissioner or the borough president, on demand. The board of estimate may authorize that the amount or amounts of moneys so paid shall be credited to the appropriation, in the respective boroughs, for the removal of snow and ice; but nothing herein contained shall be deemed to prohibit the commissioner or a borough president from demanding, before issuing said permit and as a condition thereof, the deposit of such sum of money or other security as, in his judgment, may be necessary to pay the cost of properly performing the work above mentioned, together with the expense of the inspection thereof. In case of neglect, [or] refusal or omission of the party to whom such permit may be granted promptly to remove and to carry away the snow and ice thrown up by such plow or other instrument, then the commissioner of street cleaning or the borough president of Queens or Richmond may forthwith cause the same to be removed at the public expense, and all expenditures made or incurred therefor *shall* be chargeable upon the party so neglecting, refusing or omitting to perform his agreement, and shall be recoverable by an action at law on behalf of the city, and when so recovered shall be placed to the credit of the department of street cleaning or the bureau of street cleaning in the Boroughs of Queens or Richmond, as the case may be, to supply the deficiency occasioned by such additional expenditure. Report of the Committee on General Welfare in Favor of Adopting an Ordinance to Amend the Code of Ordinances, Relating to Carriageways Across Sidewalks.

The Committee on General Welfare, to which was referred on June 30, 1916 (Minutes, page 1246), the annexed ordinance to amend subdivision 1 of section 184 of article 15 of chapter 23 of the Code of Ordinances, relating to carriageways across sidewalks, respectfully

REPORTS:

This ordinance was introduced at the request of the Corporation Counsel; its purpose being to eliminate a technicality which is frequently urged in the prosecution of violators of the ordinance. As the ordinance now stands only the owner of abutting property can be held for the construction of a carriageway across a pavement without a permit. The effect of the proposed amendment of the section will be to penalize the lowering or changing of the grade of a sidewalk by any person for such purpose. The committee, therefore, recommends the adoption of the ordinance.

AN ORDINANCE to amend subdivision 1 of §184 of article 15 of chapter 23 of the Code of Ordinances relating to carriageways across sidewalks.

Be It Ordained by the Board of Aldermen of The City of New York, as follows:

Section 1. Subdivision 1 of §184 of article 15 of chapter 23 of the Code of Ordinances is hereby amended to read as follows:

1. *General regulations.* No person shall lower the curb or change the grade of a sidewalk in front of any building [owned by him] for the purpose of providing a carriageway across such sidewalk, except upon complying with the following conditions, namely:

a. Application shall be made in writing by the owner to the president of the borough within which such premises are located;

b. In consideration of the granting of such permit, the borough president having jurisdiction is hereby authorized to charge a fee for the privilege, to cover all expenses in connection with the inspection of the alteration of the sidewalk, and its ultimate restoration to original grade; and he may make such rules for its proper care and cleaning as he deems desirable;

c. Every such carriageway shall be constructed under the supervision and subject to the direction of the president of the borough having jurisdiction, and on condition that, upon failure to comply with all the terms of the permit, the privilege may be revoked and the sidewalk be restored to its original grade, at the expense of the person to whom the permit was granted or of the grantee then having title to the abutting property. (Ord. effective April 16, 1912.)

Section 2. This ordinance shall take effect immediately.

Report of the Committee on General Welfare in Favor of Adopting an Ordinance to Amend the Code of Ordinances, Relating to Auxiliary Fire Appliances in Fireworks Manufactories.

The Committee on General Welfare, to which was referred on June 20, 1916 (Minutes, page 1246), the annexed ordinance to amend paragraph (c) of subdivision 2 of section 90, and subdivision 4 of section 92 of article 6 of chapter 10 of the Code of Ordinances in relation to auxiliary fire appliances in fireworks manufactories, respectfully

REPORTS:

That this ordinance was introduced at the request of the Fire Commissioner, its purpose being to make more practicable the provisions affected by it. As the law now stands, 5-gallon buckets of water and of sand are required to be placed at various points in fireworks manufactories for the purpose of extinguishing incipient fires. In practice it has been found that such large containers cannot be promptly handled, and for this reason the Fire Commissioner suggests that the ordinance be amended, to substitute an equivalent number of 10-quart buckets of sand and of water, as the case may be, in such establishments. The committee, therefore, recommends the adoption of the ordinance.

AN ORDINANCE to amend paragraph (c) of subdivision 2 of §90, and subdivision 4 of §92 of article 6 of chapter 10 of the Code of Ordinances, in relation to auxiliary fire appliances in fireworks manufactories.

Be It Ordained by the Board of Aldermen of The City of New York, as follows:

Section 1. Paragraph (c) of subdivision 2 of §90 of article 6 of chapter 10 of the Code of Ordinances is hereby amended to read as follows:

c. Premises where fireworks are manufactured shall have at least 3 fire hydrants placed in different parts of the enclosure, connected to an adequate supply of water under pressure, the hose to be sufficient to reach all parts of the building within the enclosure, and there shall at all times be kept, within a distance of 5 feet of each building inside such enclosure, at least 6 [5-gallon] 10-*quart* buckets, full of water, and at least 6 [5-gallon] 10-*quart* buckets full of sand;

Section 2. Subdivision 4 of §92 of article 6 of chapter 10 is hereby amended to read as follows:

4. Extinguishers. All holders of permits under this section shall keep on the premises covered by the permit, in a convenient location, at least 6 [5-gallon] 10-*quart* buckets of water and 6 [5-gallon] 10-*quart* buckets of sand, fit and ready for use in case of fire.

Section 3. This ordinance shall take effect immediately.

REPORTS:

That this ordinance was introduced at the request of the Fire Commissioner; its purpose being to ameliorate the provisions of the Code affected by it so as to allow displays of fireworks and the like upon the stages of theatres and places of amusement under permits of the Fire Department. Report of the Committee on General Welfare in Favor of Filing an Ordinance to Amend the Code of Ordinances, Relating to the "Discharge of Firearms."

Report of the Committee on Public Letting in Favor of Adopting Resolution Authorizing the Commissioner of Docks to Purchase Coal Without Public Letting.

The Committee on Public Letting, to which was referred on May 9, 1916 (Minutes, page 478), the annexed request of the Commissioner of Docks for authority to purchase coal without public letting, respectfully

REPORTS:

That, having examined the subject, it finds that the funds of the Central Purchase Committee for this purpose have been exhausted, and as the department was in urgent need of coal, it was found necessary to purchase 4,000 tons. It therefore recommends that the accompanying resolution be adopted.

Resolved, That, in pursuance of the provisions of section 419 of the Greater New York Charter, the Commissioner of Docks be and he is hereby authorized and empowered to enter into contract with Pattison & Bowns for the purchase of 4,000 tons of coal at three dollars ($3) per ton, a total cost of twelve thousand dollars ($12,000), without public letting.

The City of New York, Department of Docks and Ferries, Office of the Commissioner, Pier A, North River, May 5, 1916.

Hon. FRANK L. DOWLING, *President, Board of Aldermen:*

Dear Sir—This Department at the present time has sufficient coal to meet the operation of the Municipal Ferries until Sunday next, the 7th inst. In order that there would be no interruption of this ferry service it was necessary to give an order without delay for an additional supply of coal. Bids were received by the Central Purchase Committee on yesterday the 4th inst., for 4,000 tons of coal to meet the requirements until bids can be obtained on an advertised contract. The lowest bid received by the Committee was from Pattison & Bowns at $3 per ton for mixed coal.

An order has accordingly been issued to Pattison & Bowns for the 4,000 tons of mixed coal at $3 per ton, a total cost of $12,000.

I am advised that the amount authorized by the Board of Aldermen in resolution of February 8, 1916, for the purchase of coal without public letting has been exhausted. It is therefore requested that a resolution be adopted by the Board of Aldermen, approving this purchase of 4,000 tons of coal at $3 per ton without public letting.

Yours very truly. RICHARD C. HARRISON, Acting Commissioner of Docks.

Report of the Committee on Public Letting in Favor of Adopting Resolution Authorizing the President of the Borough of Queens to Purchase 35,000 Gallons of Liquid Fuel Oil, Without Public Letting.

The Committee on Public Letting, to which was referred on May 23, 1916 (Minutes, page 664), the annexed request of the President of the Borough of Queens for authority to purchase 35,000 gallons of liquid fuel oil without public letting, respectfully,

REPORTS:

That having examined the subject, it believes that the request is proper, as the various oil companies refused to submit bids on account of the uncertain condition of the market, and as this fuel is necessary to operate the various plants of the departments, the committee recommends that the accompanying resolution be adopted.

Resolved, That, in pursuance of the provisions of section 419 of the Greater New York Charter, the President of the Borough of Queens be and he is hereby authorized and empowered to purchase, without public letting, 35,000 gallons of liquid fuel oil, at a cost not to exceed secen thousand six hundred dollars ($7,600).

JOHN McCANN, WM. P. McGARRY, PETER SCHWEICKERT, EDWARD W. COX, ALEXANDER S. DRESCHER, JOHN F. McCOURT, Committee on Public Letting.

The City of New York, Office of the President of the Borough of Queens, Long Island City, May 16, 1916.

To the Honorable Board of Aldermen, City of New York:

Gentlemen—Sometime ago advertisements were inserted in the CITY RECORD calling for bids for 35,000 gallons of liquid fuel oil to be delivered in the Borough of Queens as directed, and on March 6, 1916, the date of opening bids, no bids were submitted.

Since March 6, 1916, it has been found that this Department will require 80,000 gallons of liquid fuel oil to operate its asphalt plants, and in view of the fact that no bidders appeared in response to our advertisement, I would request your approval, in accordance with the provisions of section 419 of the Charter, of a resolution authorizing me to purchase 80,000 gallons of liquid fuel oil to the extent of $7,600.00, on open market order.

I would request that your Honorable Board give this request your early consideration, for the reason that this oil is absolutely necessary for the running of the asphalt plants used in repairing asphaltic streets throughout the Borough of Queens.

Yours very truly,

MAURICE E. CONNOLLY, President of the Borough of Queens.

Report of the Committee on Public Letting in Favor of Adopting Resolution Authorizing the Department of Health to Make Certain Repairs to the Machinery of the Steamboat, "Franklin Edson," Without Public Letting.

The Committee on Public Letting, to which was referred on May 23, 1916 (Minutes, page 694), the annexed request of the Department of Health for authority to make certain repairs to the machinery of the steamboat "Franklin Edson," without public letting, respectfully,

REPORTS:

That the committee has been advised by Mr. Wilson, of the Department of Health, that these repairs were necessary on account of a collision during a fog; the committee, therefore, recommends that the accompanying resolution be adopted.

Resolved, That, in pursuance of the provisions of section 419 of the Greater New York Charter, the Board of Health be and it is hereby authorized and empowered to contract, without public letting, for necessary repairs to the steamboat "Franklin Edson" at a cost not to exceed one thousand three hundred and forty-seven dollars ($1,347).

JOHN McCANN, WM. P. McGARRY, PETER SCHWEICKERT, ALEXANDER S. DRESCHER, EDWARD W. COX, JOHN F. McCOURT, Committee on Public Letting.

City of New York, Department of Health, Office of the Secretary, May 23, 1916.

To the Board of Aldermen, City Hall, New York City:

Gentlemen—In December, 1915, it became necessary to make certain repairs to the machinery of the steamboat "Franklin Edson" belonging to the Department of Health, representing an outlay of something more than three hundred ($300) dollars. While the work of estimating was in progress the boat met with an accident, colliding with a float of the New York, New Haven and Hartford Railroad Company, incurring an additional expense to repair the damages inflicted. The estimated total cost for both pieces of work was set at nine hundred and thirty-five ($935) dollars.

The boat was placed in dry dock and dismantled, preparatory to commencing the repairs. While there, an inspector from the United States Steamboat Inspection Service went over the boat and discovered certain defects in the boat which, under the provisions of the inspection service, would prohibit its use. He directed that the repairs be at once made, otherwise the boat would not be permitted to be launched. This meant an added expenditure of four hundred and twelve ($412) dollars, bringing the total to one thousand three hundred and forty-seven ($1,347) dollars.

In the first instance, the repairs as contemplated would not have been in excess of one thousand dollars and the work, therefore, was given out on an open market order to the lowest bidder. The inspection by the United States Steamboat Inspection Service representative revealed certain defects which increased the total cost of repairs and presents the matter in an entirely new aspect so far as letting out the work on open market order is concerned.

The steamboat service of the department is seriously crippled through the loss of this boat, there being but one launch at the disposal of the department at this time. The "Franklin Edson" is most urgently needed, and, in view of these conditions, it is requested that the Board of Aldermen, pursuant to the provisions of section 419 of the Charter, will allow the department to award this work without public letting, representing an amount slightly in excess of one thousand dollars—thirteen hundred and forty-seven ($1,347) dollars to the lowest bidder from the estimates in hand, so that the work may be proceeded with and no further delays occasioned when the department is so much in need of the service of the boat.

Very truly yours, EUGENE W. SCHEFFER, Secretary.

Report of the Committee on Public Letting in Favor of Adopting Resolution to Authorize the Commissioner of Public Charities to Purchase Mutton Without Public Letting.

The Committee on Public Letting, to which was referred on June 6, 1916 (Minutes, page 815), the annexed request of the Commissioner of Public Charities for authority to purchase mutton without public letting, respectfully

REPORTS:

That this request was made by the Department of Public Charities for the privilege of purchasing mutton, without public letting, for a period of two months ending June 30, 1916, on June 3, 1916, a month after the Department had commenced to make their purchases. The Committee has made an exhaustive investigation into the subject matter of the request, and has concluded that, under the circumstances, it will be necessary to give the desired permission, but it believes that when a department is confronted with an emergency of this character the head of the department should come before the entire Board, state his case, and endeavore to obtain action at once, and not place either the Committee or the Board in the position of endorsing an action taken in contravention of the legal directions of the Charter. Of course, it must have been necessary to purchase this meat for the subsistence of the inmates of the institution, and if the Board does not give the permission to buy in the open market, it will have to come before the Comptroller as a claim on the part of the person from whom the purchase was made, causing a long delay which the seller could not anticipate. The Committee requests that the head of the department take this statement into consideration if confronted with another emergency of this character, and in this case recommends the adoption of the accompanying resolution.

Resolved, That, in pursuance of the provisions of section 419 of the Greater New York Charter, the Commissioner of Public Charities be and he is hereby authorized and empowered to purchase mutton, without public letting, for the two months ending June 30, 1916, to an amount not to exceed twelve thousand dollars ($12,000).

JOHN McCANN, JOHN F. McCOURT, JAMES J. BROWNE, CHARLES P. COLE, EDWARD W. COX, WM. P. McGARRY, PETER SCHWEICKERT, Committee on Public Letting.

Department of Public Charities of The City of New York, Municipal Building, Tenth Floor, June 3, 1916.

To the Honorable the Board of Aldermen, Municipal Building, New York City:

Gentlemen—I respectfully request permission to purchase mutton without public letting for a period of two months ending June 30, 1916, to an amount not to exceed $12,000. This request is made for the reason that the market price of mutton has advanced over 75 per cent. since the first of the year, and because the purchase of mutton can be made in the open market at a price considerably lower than that secured on contract.

At an opening held May 18, at the Central Purchase Committee, the following bids were received:

40,000 *Pounds of Mutton, Manhattan Delivery.*

Line No. 1, Swift & Co.	18.08 cents
Line No. 1, Sulzberger & Sons Co.	16.62 cents
Line No. 1, Nathan Straus	15.48 cents
40,000 *Pounds of Mutton, Manhattan Delivery*	
Line No. 2, Swift & Co.	No Bid
Line No. 2, Sulzberger & Sons Co.	No Bid
Line No. 2, Nathan Straus	15.48 cents
23,000 *Pounds of Mutton, Brooklyn Delivery.*	
Line No. 3, Swift & Co.	18.08 cents
Line No. 3, Sulzberger & Sons Co.	No Bid
Line No. 3, Nathan Straus	15.48 cents

The bid of Nathan Straus was declared informal, owing to a notation made in the proposal to the effect that yearlings would be supplied if the Contractor was unable to secure mutton meeting the requirements of standard specifications.

At the first opening held in April for mutton to be delivered during the months of May and June, the lowest price secured for deliveries in the Boroughs of Brooklyn and Manhattan was 15.73 cents. Since then I have purchased from time to time in the open market, mutton at prices ranging from 14.25 cents to 15.65 cents per pound It is impossible to secure mutton in the quantities required by this Department that will meet the requirements of standard specifications; therefore, purchases have been made of yearlings. Contractors, however, do not care to enter into a contract for mutton to be supplied for a considerable period in advance unless they are fully protected by what seems to be a prohibitive price.

I trust that this request will be granted, since I believe it to be for the best interests of the City. Very truly yours,

G. G. THOMSON, Third Deputy and Acting Commissioner.

Report of the Committee on Public Letting in Favor of Adopting Resolution Authorizing the Armory Board to Contract for Additional Work on the 14th Regiment Armory, Without Public Letting.

The Committee on Public Letting, to which was referred on June 20, 1916 (Minutes, page 1205), the annexed request of the Armory Board for authority to do alteration work on the 14th Infantry Armory without public letting, respectfully

REPORTS:

That this request comes from the Armory Board after a full investigation of the circumstances by the Bureau of Contract Supervision. The Secretary of said Board has assured the Committee that estimates have been received which show that it will be to the advantage of the City to give this work to the general contractor now making the alterations to this armory, and the Committee accordingly recommends the adoption of the accompanying resolution.

Resolved, That in pursuance of the provisions of section 419 of the Greater New York Charter, the Armory Board be and it is hereby authorized and empowered to enter into contract, without public letting, for additional footings to be installed in the foundations under trusses at the 14th Infantry Armory, at a cost not to exceed four thousand six hundred and forty-five dollars ($4,645).

Report of the Committee on Public Letting in Favor of Adopting Resolution Authorizing Department of Plant and Structures to Rent Certain Cable Wrapping Machines, Without Public Letting.

The Committee on Public Letting, to which was referred on June 20, 1916 (Minutes, page 1206), the annexed request of the Department of Plant and Structures for authority to contract for rental of certain machines in connection with the work of wrapping cables on the Williamsburg Bridge, respectfully

REPORTS:

That Chief Engineer Byrne, of the Department of Plant and Structures, has

assured the Committee that this work is necessary, and can be done most cheaply by the employment of these patented machines. He estimates that the amount to be charged is reasonable, and that, inasmuch as this is the only work of this nature which the Department will require, there is no necessity for acquiring a machine for future repairs. The Committee accepts the statement of the Chief Engineer in regard to this work, with which he is necessarily most familiar, and recommends the adoption of the accompanying resolution.

Resolved, That, in pursuance of the provisions of section 419 of the Greater New York Charter, the Department of Plant and Structures be and it is hereby authorized and empowered to enter into contract, without public letting, for the work of wrapping cables on the Williamsburg Bridge, at a cost not to exceed three thousand dollars ($3,000).

JOHN McCANN, JOHN F. McCOURT, JAMES J. BROWNE, EDWARD W. COX, PETER SCHWEICKERT, WM. McGARRY, Committee on Public Letting.

Department of Plant and Structures, City of New York, Municipal Building, Manhattan, N. Y., June 15, 1916.

To the Honorable the Board of Aldermen of The City of New York:

Gentlemen—On December 21, 1915, your Honorable Board adopted an ordinance providing for the issue of corporate stock of The City of New York to an amount of $50,000, to provide means for the wrapping of cables on the Williamsburg Bridge over the East River. The funds authorized at that time were not intended to provide for the whole work on all of the cables, but were an allowance made for a portion of the work.

In the prosecution of the work the existing covers of the cables will be removed and a new cover put on each, which will consist of iron wire closely wrapped around the cables. The machines which it is proposed to use in the wrapping of the wire around the cables are patented by Mr. Holton D. Robinson. These machines are driven by electric power and enable the work to be done at a minimum cost. Mr. Robinson has offered to rent this Department the said machines and accessories at a price of 80 cents per linear foot of cable wrapped.

In the schedule adopted by the Board of Estimate and Apportionment on May 5, 1916, for the expenditure of the funds authorized for wrapping the cables is included the sum of $3,000 for "General Plant Service, Rent of Wire Wrapping Machine and Accessories."

I believe that the price offered by Mr. Robinson for the use of his machines is reasonable and I beg to request your Honorable Board to grant me permission, pursuant to the provisions of section 419 of the Greater New York Charter to rent the said machines without public letting at the price of 80 cents per linear foot of cable wrapped, the total expenditure for the use of the machines at this time not to exceed $3,000. Respectfully, F. J. H. KRACKE, Commissioner.

Report of the Committee on Public Letting in Favor of Adopting Resolution Authorizing the President of the Borough of Manhattan to Purchase Gasolene, Without Public Letting.

The Committee on Public Letting, to which was referred on June 20, 1916 (Minutes, page 1207), the annexed request of the President of the Borough of Manhattan for authority to purchase gasolene without public letting, respectfully

REPORTS:

That in April last the Board, upon recommendation of this Committee, authorized the President of the Borough of Manhattan to purchase gasolene, without public letting, at a cost not to exceed $1,500, with the understanding that if competition could be secured further purchases were to be made by public letting. The Borough President now certifies that he is unable to obtain competitive bidding and asks that he be allowed to purchase gasolene for the remainder of the year on the same basis as formerly granted by the Board. The Committee accepts the statement contained in the communication of the Borough President and recommends the adoption of the accompanying resolution.

Resolved, That in pursuance of the provisions of section 419 of the Greater New York Charter, the President of the Borough of Manhattan be and he is hereby authorized and empowered to purchase gasolene, without public letting, during the year 1916, at a cost not to exceed twenty-five hundred dollars ($2,500).

City of New York, Borough of Manhattan, Municipal Building, June 14, 1916.

Hon. FRANK L. DOWLING, *President, Board of Aldermen,* City Hall, New York City:

Dear Sir—Under date of April 25, 1916, a resolution was adopted by your Honorable Board authorizing the purchase in the open market, without public letting, a supply of gasolene for this department at an estimated cost not to exceed $1,500.00. The exemption was granted pursuant to a communication from this office under date of March 30, 1916, which stated that a public letting was held in order that a contract might be entered into, but in view of the absence of competition in the bidding, and the exorbitant price quoted in the only proposal received, it was deemed for the best interests of the City to reject the bid and purchase the gasolene in the open market at a lower price.

The amount allowed in the resolution referred to has been expended and as the department is in need of an additional supply, I respectfully request permission to purchase such quantity as may be necessary from time to time in the open market without public letting at an estimated cost not to exceed $2,500.00, which it is anticipated will provide for our requirements for the balance of the year. Very truly yours,

MARCUS M. MARKS, President, Borough of Manhattan.

Report of the Committee on Public Letting in Favor of Adopting Resolution Authorizing the Commissioner of Street Cleaning to Purchase Four Ford Automobiles, Without Public Letting.

The Committee on Public Letting, to which was referred on June 20, 1916 (Minutes, page 1212), the annexed request of the Commissioner of Street Cleaning for authority to purchase twelve Ford automobiles without public letting, respectfully

REPORTS:

That while Commissioner Fetherston makes a request for the purchase of twelve Ford automobiles, without public letting, he has informed the Committee that he has the funds available at the present time for the purchase of but four of these machines, having made an application for revenue bonds for the remainder of the necessary money. Inasmuch as no allowance has been made for these eight machines, the Committee cannot see its way clear to give permission for the purchase of machines for which there are no funds provided. It realizes that no advantage would result from advertising in this case, as the make of the machines is specified. It recommends that the accompanying resolution be adopted.

Resolved, that, in pursuance of the provisions of section 419 of the Greater New York Charter, the Commissioner of Street Cleaning be and he is hereby authorized and empowered to purchase four Ford automobiles, without public letting, at a cost not to exceed $1,662.

Sir—In accordance with section 419 of the Greater New York Charter, I respectfully request that the Board of Aldermen adopt a resolution authorizing the purchase by this department in the open market, without public letting, of twelve (12) Ford automobiles at an expense not to exceed four thousand nine hundred and eighty-six dollars ($4,986). These machines are to be used by the officers of this department in performing their duties, and are the most economical type of automobile which can be procured to meet our needs in this respect.

Application for funds to meet this purchase has this day been forwarded to the Board of Aldermen. Yours truly, J. T. FETHERSTON, Commissioner.

The Committee on Salaries and Offices, to which was referred on June 6, 1916 (Minutes, page 816), the annexed resolution to establish four grades of positions in the office of the Board of Estimate and Apportionment, respectfully

REPORTS:

That having examined the subject they find that there is no immediate need for action on this matter and believes it should be considered in the department budget estimates for 1916. It, therefore, recommends that the accompanying resolution be placed on file.

Whereas, the Board of Estimate and Apportionment adopted the following resolution at a stated meeting held June 2, 1916:

Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of section 56 of the Greater New York Charter, hereby recommends to the Board of Aldermen the establishment in the office of the Board of Estimate and Apportionment, of the grades of positions, in addition to those heretofore established, as follows:

Report of the Committee on Salaries and Offices in Favor of Adopting Resolution to Establish the Grade of Position of Mechanical Engineer in the Office of the Board of Estimate and Apportionment.

The Committee on Salaries and Offices, to which was referred on June 20, 1916 (Minutes, page 1218), the annexed resolution to establish the grade of position of Mechanical Engineer in the office of the Board of Estimate and Apportionment, respectfully

REPORTS:

That, having examined the subject, it believes the position is necessary, as it is for the purpose of reinstating a former City employee whose position was abolished in the Budget for 1916, and as the grade is within the regulation of the Municipal Civil Service and the Bureau of Standards, it therefore recommends that the accompanying resolution be adopted.

Whereas, The Board of Estimate and Apportionment adopted the following resolution at a stated meeting held June 9, 1916:

Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of section 56 of the Greater New York Charter, hereby recommends to the Board of Aldermen the establishment in the office of the Board of Estimate and Apportionment of the grade of position, in addition to those heretofore established, as follows:

Report of the Committee on Salaries and Offices in Favor of Adopting Resolution to Establish Various Grades of Positions in the Department of Public Charities.

The Committee on Salaries and Offices, to which was referred on June 20, 1916 (Minutes, page 1219), the annexed resolution to establish various grades of positions in the Department of Public Charities, respectfully

REPORTS:

That, having examined the subject, they believe that a force for this work is necessary in consequence of the provisions of the Charter and the regulations of the State Board of Charities, and therefore so much of said resolution as refers to 22 Inspectors at $1,500 per annum, 1 Stenographer at $1,200 per annum, 2 Stenographers at $900 per annum, 1 Typewriting Copyist at $600 per annum, appears to be reasonable.

The request for seven (7) Physicians at $1,800 per annum seems unreasonable as there are fourteen (14) Physicians assigned by the Board of Health to this work. The Committee, therefore, believes that two (2) Physicians would be sufficient, and that that portion relating to Director at $4,000 per annum is denied on account of the present force of said department, which, in addition to the Commissioner, consists of 3 Deputies at $5,000 per annum, 1 General Superintendent at $3,000 per annum, 2 Social Directors at $4,000 per annum, which force appears to the Committee capable of supervising this work. It, therefore, recommends that the accompanying resolution be adopted.

Resolved, That the Board of Aldermen hereby approves of and concurs in so much of the resolution adopted by the Board of Estimate and Apportionment on January 9, 1916, pursuant to the provisions of section 56 of the Greater New York Charter, providing for the establishment in the Department of Public Charities of various grades of positions, in addition to those heretofore established, as relates to the following:

Title of Position.	Rate Per Annum.	Number of Incumbents.
Institutional Inspector	1,500 00	Twenty-two
Physician	1,800 00	Two
Stenographer	1,200 00	One

The Committee on Salaries and Offices, to which was referred on June 30, 1916 (Minutes, page 1220), the annexed resolution to establish various grades of positions in the office of the Board of Standards and Appeals, respectfully

REPORTS:

That, having examined the subject, they believe that these positions are necessary, in accordance with chapter 303 of the Laws of 1916, which created a new Board of Standards and Appeals. The Committee therefore recommends that the accompanying resolution be adopted.

Whereas, The Board of Estimate and Apportionment adopted the following resolution at a stated meeting held June 9, 1916:

The Committee on Salaries and Offices, to which was referred on June 20, 1916 (Minutes, page 687), the annexed resolution to establish various grades of positions in the office of the Board of Estimate and Apportionment, respectfully

REPORTS:

That having examined the subject they believe these positions to be necessary as this bureau is a very important one just at present and their system is in a very critical stage and if the help is denied there is a possibility of the whole structure failing. The committee believes it dangerous to transfer this work to unexperienced hands, and recommends that the accompanying resolution be adopted.

SPECIAL ORDERS.

S. O. 92—Int. No. 618.

Report of the Committee on Finance in Favor of Adopting Resolution for Special Revenue Bonds, $12,000, to Meet Deficiencies in Certain Appropriations—Police Department.

The Committee on Finance, to which was referred on June 6, 1916 (Minutes, page 823) the annexed request of the Police Commissioner for special revenue bonds, $34,294, to meet deficiencies in certain appropriations, respectfully

REPORTS:

That this matter was referred to the Bureau of Contract Supervision for investigation, and according to their annexed report the supplies are necessary, and there being no funds available it recommends that $12,000 be sufficient under the present conditions, but if the prices of these supplies advance, further provision can be made later. The committee therefore recommends that the accompanying resolution be adopted.

Resolved, That in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue special revenue bonds to the amount of twelve thousand dollars ($12,000), the proceeds whereof to be used by the Police Commissioner for the purpose of meeting deficiencies in certain appropriations. All obligations contracted for hereunder to be incurred on or before December 31, 1916.

FRANCIS P. KENNEY, WM. P. KENNEALLY, HENRY H. CURRAN, ROBERT L. MORAN, JOHN DIEMER, F. H. STEVENSON, SAMUEL J. BURDEN, CHARLES DELANEY, FRANCIS P. BENT, Committee on Finance.

City of New York, Police Department, Office of the Commissioner, June 1, 1916.

The Honorable the Board of Aldermen, City of New York:

Gentlemen—Request is hereby made for the authorization of Special Revenue Bonds in the sum of $34,294, to meet deficiencies in the appropriations made to the Police Department for the year 1916, as follows:

Code 1611 Fuel Supplies	$5,100 00
Code 1615 Motor Vehicle Supplies.....	14,500 00
	$19,600 00

These amounts are necessary on account of the increase in the cost of gasoline for use in the motor equipment and launches of the Department, and because of the deficiency in the appropriation for coal, both due to increase in price, and inability to use, during this year, the grade of coal provided for in the appropriation.

Respectfully,
A. WOODS, Police Commissioner.

City of New York, Board of Estimate and Apportionment, Municipal Building, Bureau of Contract Supervision, June 15, 1916.

Mr. FRANCIS P. KENNEY, *Chairman, Finance Committee, Board of Aldermen:*

No. 618—Communication from the Police Commissioner Requesting the Authorization of an Issue of Special Revenue Bonds, $34,294, to Meet Deficiencies in Appropriations for the Year 1916.

Sir—As requested in your communication of June 8, 1916, I have caused an examination to be made into the above application for special revenue bonds made by the Police Commissioner, and the following facts have been disclosed:

Although the request appears to be for $34,294, the items of the request aggregate only $19,600, as follows:

Code 1611—Fuel Supplies	$5,100 00
Code 1615—Motor Vehicle Supplies	14,500 00

The language of the request refers to coal as being included, but the above items and aggregate of $19,600 include gasoline only.

On April 26, 1916, the Mayor directed the Bureau of Contract Supervision to report on the necessity for special revenue bonds to be used by the Police Commissioner for the purchase of gasoline. A report was submitted in which it was stated that upon the basis of cost of 24 cents per gallon there was an apparent necessity for an additional appropriation of $19,600.

The basis of cost of 24 cents, a recent contract price, appears high. Purchases can be made in the open market at that figure, and there does not appear to be any benefit to be derived through contracting at this time for the supply for the balance of the year, which it was proposed to do.

It appears probable that the price of gasoline will be reduced in the near future. In this event it will only be necessary to authorize a portion of the amount requested.

The items of the request and the facts regarding each are as follows:

Code 1615, Motor Vehicle Supplies—Motor Supplies.

In the budget for the year 1916 there was provided in this account the sum of $9,130.59, which includes an allowance of $7,301 for gasoline, which was based on an estimated consumption of 70,000 gallons at a cost of a fraction over ten cents per gallon, which amount was allowed in full as requested.

During the year 1915 there were consumed 75,402 gallons of gasoline. The average cost of this gasoline was 10.13 cents per gallon. There has since been a very rapid advance in the price of gasoline. This year the Police Commissioner has entered into two contracts for gasoline, one for 20,000 gallons at 21 cents, and another, more recent, for 14,700 gallons at 24 cents.

On January 1, 1916, there was on hand 640 gallons, and up to May 1, 1916, there was delivered 28,485 gallons. During the same period there was consumed 28,101 gallons, leaving a stock on hand at May 1, 1916, of 1,024 gallons. There is still to be delivered on the last mentioned contract 7,500 gallons.

At the time of the preparation of the 1916 budget the new bicycle and motor cycle patrol system in the outlying sections of the City was being worked out. Since then there has been various modifications of the original plans based upon experience. These modifications have shown the necessity for a larger number of motor cycles. A large number of motor cycles are being used also to regulate traffic, with the view of preventing the driving of automobiles beyond the speed limit. During the latter part of 1915, after the budget was adopted, and in the early part of 1916, funds were made available, exclusive of the amount provided in the budget, for the purchase of additional motor cycles. This will require a larger total amount of gasoline than was estimated at the time the budget was prepared. The number of motor cycles in operation on January 1, 1915, was 39; on January 1, 1916, 127; and on May 1, 1916, 246. Additional motor cycles will be put in service during the next few months.

The average monthly consumption of gasoline during 1915 was 6,300 gallons. For the first four months of the present year the average monthly consumption was 7,025 gallons. This figure will be greatly exceeded during the balance of the year for the reason that during the period stated there was very severe weather and a large number of the motor cycles were not in service; nor was the new equipment provided for in the budget in operation during this entire period. With the added equipment and considering the consumption of gasoline by the various motor vehicle units on the basis of past experience, it is reasonable to believe that the average monthly requirement will approximate 8,620 gallons, or for the balance of the year approximately 68,960 gallons. This estimate is based upon the following:

Unit.	Number.	Gallons Per Month Each.	Gallons for Eight Months for All Units.
Touring Cars (Fords)	11	113	9,944
Touring Cars	6	103⅓	4,960
Motor Trucks	1	123⅓	987
Motor Trucks	**2	123⅓	**1,727
Patrol Wagons	15	181	21,720
Patrol Wagons (Fords)	6	113	5,424
Motor Cycle (Single Cylinders)	159	10⅛	12,976
Motor Cycle (Twin Cylinders)	95	14¾	11,208
Total			68,946

** For a seven month period.

After deducting the stock on hand on May 1st, 1916, and what is still to be delivered under the present contracts, the estimated requirements for the balance of the year would be 60,422 gallons. The recent lowest bid to the Central Purchase Committee for gasolene was 24 cents. At this price 60,422 gallons will cost approximately $14,500.

Code 1611, Fuel Supplies—Motor Patrol Boats. In account 1611 there was provided the sum of $3,516, based on a consumption of 36,000 gallons at 10 cents per gallon for the purchase of naphtha gasolene to be used on the motor patrol boats during the year 1916.

The consumption during the first four months of this year indicates that the budget allowance for the year 1916, in gallons, appears to have been proper. The deficit, therefore, appears to be due in this case entirely to the increased cost of gasolene. On the basis of the number of gallons allowed in the budget at 24 cents per gallon, the deficit will approximate $5,100.

In view of the present high price and the probability of a reduction, it is suggested that the allowance for the balance of the year be made at an average price of approximately fifteen cents or a total for both items of $12,000. If the price exceeds this figure, a further provision can be made later in the year. Respectfully,

TILDEN ADAMSON, Director.

Federal Trade Commission, Washington, June 15, 1916.

Mr. TILDEN ADAMSON, Bureau of Contract Supervision, Municipal Bldg., New York, N. Y.:

Dear Sir—The Secretary of Commerce has referred your letter of June 14, in

which you request information concerning the probable future course of gasolene prices, to the Federal Trade Commission. The Commission's economist in charge of the oil investigation informs me that the probability is that gasolene prices will go no higher during the year 1916. Indeed, it seems rather likely that prices may decline somewhat, although in his judgment this will depend upon such variable and uncertain conditions that he does not care to hazard the prediction. On the one hand, the season of maximum demand for gasolene has hardly begun, while on the other hand, at the present time there seems to be a considerable increase in the production of crude oil. In view of these counterbalancing circumstances, it does not seem possible to say more than that higher prices do not seem likely. However, it may be stated that one oil man in the Commission's hearing recently gave it as a statement of fact that the f. o. b. refinery price of gasolene had fallen the last week or two by approximately three cents. Very respectfully,

FEDERAL TRADE COMMISSION, By L. L. BRACKEN, Secretary.

The President put the question whether the Board would agree to accept such report and adopt said resolution.

Report of the Committee on Finance in Favor of Adopting Resolution for Special Revenue Bonds, $5,400, for the Purpose of Replenishing Several Appropriations—President, Borough of Manhattan.

The Committee on Finance, to which was referred on June 6, 1916 (Minutes, page 823), the annexed request of the President of the Borough of Manhattan, for Special Revenue Bonds, $18,656, for the purpose of replenishing several appropriations that have become exhausted, respectfully

REPORTS:

That this matter was referred to the Bureau of Contract Supervision for investigation, and according to their annexed report, there seems to be a doubt as to whether funds are available for this purpose. They recommend an allowance of $5.400 to provide for the purchase of these supplies until such time as it can be definitely ascertained whether the transfer of funds can be made from other accounts in the fall. The committee, therefore, recommends that the accompanying resolution be adopted.

Resolved, That, in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue Special Revenue Bonds to the amount of five thousand four hundred dollars ($5,400), the proceeds whereof to be used by the President of the Borough of Manhattan for the purpose of replenishing several appropriations that have become exhausted. All obligations contracted for hereunder to be incurred on or before December 31, 1916.

City of New York, Borough of Manhattan, Municipal Building, June 6, 1916.

Hon. FRANK L. DOWLING, *President, Board of Aldermen,* City Hall, N. Y. City:

Dear Sir—Request is hereby made for an issue of Special Revenue Bonds in the amount of $18,656, for the purpose of replenishing several appropriations of this Department that have become exhausted.

The depleted conditions of the appropriations is due, among other reasons, to the advance in price of materials; the increased demands for materials and equipment required for emergency conditions which could not be anticipated when the 1916 budget was made up and the reduction in the various amounts allowed from that asked for.

The limited amount allowed in our various appropriations precludes the transfer of funds to those which have become exhausted, and in order that additional funds may be provided to carry on the work which is required to be done during the balance of the year an issue of Special Revenue Bonds is respectfully requested. There is appended herewith a statement of the amount allowed for 1916 and the minimum requirements for the remainder of the year:

No.	Title and Place.	Allowed.	Required.
396C	Motor Vehicle Supplies, Asphalt Plant	$2,100 00	$5,500 00
403A	Office Equipment, Administrative	2,000 00	500 00
403B	Purchase of Equipment, P. B. & O.	1,000 00	350 00
412B	Purchase of Equipment, Highways	1,875 00	1,500 00
412F	Purchase of Equipment, Asphalt Plant	1,000 00	500 00
420A	Building Materials, P. B. & O.	9,000 00	7,000 00
422A	General Plant Materials, P. B. & O.	3,100 00	2,000 00
422B	General Plant Materials, Municipal Building	500 00	400 00
422C	General Plant Materials, Asphalt Plant	2,560 00	656 00
442C	General Plant Service, Municipal Building	500 00	250 00
			$18,656 00

By adopting renewed economies in each of the divisions of this Department, it is anticipated that the additional funds asked for will be sufficient to supply the apparent deficit.

Your early consideration is respectfully requested. Very truly yours,

MARCUS M. MARKS, President, Borough of Manhattan.

City of New York, Board of Estimate and Apportionment, Municipal Building, Bureau of Contract Supervision, June 19, 1916.

Hon. FRANCIS P. KENNEY, *Chairman, Finance Committee, Board of Aldermen:*

No. 619—Communication from President of the Borough of Manhattan, Requesting an Issue of Special Revenue Bonds, $18,656, for the Purpose of Replenishing Several Appropriations That Have Become Exhausted.

Sir—As requested in your communication of June 8, 1916, I have caused an examination to be made into the request and below I give you the facts disclosed:

The following statement shows the amounts requested by the Borough President when the budget for the year 1916 was prepared, the amount allowed in the budget for 1916, and the additional sums now requested:

No.	Title of Account.	*Requested by Borough President for 1916.	*Amount Allowed in Budget for 1916.	Special Revenue Bonds Herein Requested.
396C	Motor Vehicle Supplies, Asphalt Plant	$2,250 00	$2,100 00	$5,500 00
403A	Office Equipment, Administration and Public Works	2,000 00	2,000 00	500 00
403B	Purchase of Equipment, Public Buildings and Offices	1,000 00	1,000 00	350 00
412B	Purchase of Equipment, Highways	1,946 90	1,875 00	1,500 00
412F	Purchase of Equipment, Asphalt Plant	.....	1,000 00	500 00
420A	Building Materials, Public Buildings and Offices	10,000 00	9,000 00	7,000 00
422A	General Plant Materials, Public Buildings and Offices	4,000 00	3,100 00	2,000 00
422B	General Plant Materials, Municipal Building	.....	500 00	400 00
422C	General Plant Materials, Asphalt Plant	2,880 00	2,560 00	656 00
442C	General Plant Service, Municipal Building	900 00	500 00	250 00
		$25,077 90	$23,635 00	$18,656 00

*Tax Budget.

Your attention is called to the totals of the items shown in detail in the above statement. The request of the Borough President, when he submitted his budget for 1916 for these items, totaled $25,077.90. The Board of Estimate and Apportionment, in making the allowance for the same items appropriated $23,635, or only $1,442.90 less than the amount requested. The amount of revenue bonds requested at this time for these same items totals $18,656, or $17,113.10 more than the original request of the President of the Borough.

The exhaustion of the above mentioned accounts cannot, therefore, be attributed to the budget methods.

Your attention is also called to the fact that of these ten items, for which $23,635 was appropriated, it was assumed that the administration of these accounts would be such that the amounts allowed would carry the Department through the entire year. However, in five months we find the accounts practically exhausted.

The appropriations which were made for the year are practically the same as requested for 1916. The allowances are considerably reduced when compared with those of the previous year, but this reduction was made by the Borough President, with the exception of $1,442.90. It is believed that the prices of materials might have advanced, but not to such an extent as to warrant an exhaustion of the appropriations so early in the year, with the exception of the gasoline account, Code 396C.

As the present condition is due to the Borough President's office, I would suggest that nominal allowances be made at this time, with the idea that in the fall transfer could then be made from other accounts. I would suggest the following amounts:

412F	$500 00
396C	2,000 00
403A	100 00
403B	100 00
412B	1,000 00
420A	1,000 00
422A	*.....
422B	100 00
422C	500 00
442C	100 00
	$5,400 00

*Nothing, as a transfer to this account of $2,000 was effected on June 2, 1916.

Yours truly, TILDEN ADAMSON, Director.

The President put the question whether the Board would agree to accept such report and adopt said resolution.

Which was decided in the affirmative by the following vote:

Affirmative—Aldermen Bassett, Bent, Burden, Browne, Carroll, Cardani, Cassidy, Cole, Collins, Colne, Cox, Crane, Cunningham, Curley, Curran, Daly, Delaney, Diemer, Donnelly, Dostal, Dunn, Drescher, Eagan, Farley, Ferguson, Ferrand, Friedlander, Gaynor, Goetz, Gutman, Hannon, Haubert, Heyman, Hilkemeier, Kenneally, Kenney, McCann, McCourt, McGarry, McGillick, McKee, Martin, Molen, Moore, Moran, Palitz, Post, Robitzek, Ryan, Schmitz, Schweickert, Shields, Silberstein, Smith, Squiers, Sullivan, Stapleton, Stevenson, Tolk, Trau, Walsh, Williams, Wirth; President Pounds, by Edmund W. Report of the Committee on Finance in Favor of Adopting Resolution for Special Revenue Bonds, $4,000, for Repairs, Etc., by President of the Borough of Brooklyn.

The Committee on Finance, to which was referred on June 6, 1916 (Minutes, page 824), the annexed request of the President of the Borough of Brooklyn for Special Revenue Bonds, $4,000, for the purpose of installing a corrugated pipe culvert and to fill in space occupied by a bridge at Emmons Avenue, near the Brighton Beach Railroad, respectfully

REPORTS:

That this matter was referred to the Bureau of Contract Supervision for investigation, and according to their annexed report, the improvement is necessary and the amount estimated reasonable, and there being no funds available for transfer, the committee recommends that the accompanying resolution be adopted.

Resolved, That in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue Special Revenue Bonds to the amount of four thousand dollars ($4,000), the proceeds whereof to be used by the President of the Borough of Brooklyn for the purpose of installing a corrugated pipe culvert and to fill in space occupied by a bridge at Emmons Avenue, near the Brighton Beach Railroad. All obligations contracted for hereunder to be incurred on or before December 31, 1916.

FRANCIS P. KENNEY, WM. P. KENNEALLY, HENRY H. CURRAN, ROBERT L. MORAN, JOHN DIEMER, F. H. STEVENSON, SAMUEL J. BURDEN, CHARLES DELANEY, FRANCIS P. BENT, Committee on Finance.

The City of New York, Office of the President of the Borough of Brooklyn, Office of Commissioner of Public Works, Brooklyn, June 6, 1916.

The Honorable Board of Aldermen, City of New York:

Gentlemen—At Emmons avenue, near the Brighton Beach Railroad, there is an old pile trestle bridge across the entire roadway of Emmons avenue which is in a bad condition.

In our opinion, there seems to be no good reason for maintaining the bridge at this point, as Coney Island Creek, which still exists at this location, has been entirely blocked off at Coney Island avenue, just a little to the northwest of the bridge, so that the only water which now passes under the bridge is the slight rise and fall of tide between Sheepshead Bay and Coney Island avenue.

If the bridge were entirely closed no water could get to the territory to the north of Emmons avenue, so that no bridge would be required. It would seem a waste of money to rebuild this bridge, and we propose to install a corrugated pipe culvert in order to prevent the stagnant water from standing in the bed of the creek north of Emmons avenue, and to fill in the space occupied by the bridge.

We have no funds available for doing this work, and I would request, therefore, that your Board adopt a resolution providing for the issuance of Special Revenue Bonds in the amount of $4,000.

As we are desirous of doing this work before winter, I would ask early consideration of this matter. Yours very truly,

E. W. VOORHIES, Commissioner of Public Works.

City of New York, Board of Estimate and Apportionment, Municipal Building, Bureau of Contract Supervision, June 17, 1916.

Hon. FRANCIS P. KENNEY, *Chairman, Committee on Finance, Board of Aldermen:*

No. 620—Request of the Commissioner of Public Works, Borough of Brooklyn, for the Issue of Revenue Bonds in the Amount of $4,000, for the Purpose of Installing a Pipe Culvert to Replace the Bridge at Emmons Avenue.

Sir—In accordance with your request, the above matter has been investigated and the following facts developed:

The existing bridge over Coney Island Creek at Emmons Avenue is about fifty feet wide and one hundred and fifty feet long, and carries a very considerable vehicular traffic, in addition to a double line of trolley tracks. The bridge has evidently been in use a great many years, and much of the timber in the floor beams and stringers is in an advanced state of decay. In view of the considerable traffic over the bridge and the increasing wheel-loads of present day vehicles, very considerable repairs should be made to the bridge or some other method devised to care for the traffic at this point.

The bridge lies entirely within the lines of the drainage canal which has been projected to connect Gravesend and Sheepshead bays and to furnish an outlet for the storm water sewers of a very large section of South Brooklyn.

The question to be determined, therefore, is the best and cheapest way to carry traffic now borne by the Emmons Avenue Bridge until such time as the drainage canal shall be built.

The site, the bridge and its surroundings have been examined carefully by engineers representing the President of the Borough of Brooklyn and the Bureau of Contract Supervision, and all have agreed in the conclusion that the best and cheapest method is to fill in the creek bed with earth and to build thereupon a firm and unyielding street surface for traffic.

The creek bed carries a small flow of water, and it will be necessary to provide, through the proposed fill, a culvert of moderate size to prevent the backing up of rain and seepage water to the south of the proposed fill.

A careful estimate of the cost of this work, including the cost of the removal of the fill when the drainage canal is built, indicates that such cost will be materially less than the cost of rebuilding the bridge and the cost of its maintenance for five or six years. The cost of the proposed work will approximate the $4,000 requested.

No funds were specifically allowed in the 1916 budget for this work, or for the repair of the bridge, nor are funds available for transfer.

Very truly yours, TILDEN ADAMSON, Director.

The President put the question whether the Board would agree to accept such report and adopt said resolution.

Which was decided in the affirmative by the following vote:

Affirmative—Aldermen Bassett, Bent, Burden, Browne, Carroll, Cardani, Cassidy, Cole, Collins, Colne, Cox, Crane, Cunningham, Curley, Curran, Daly, Delaney, Diemer, Donnelly, Dostal, Dunn, Drescher, Eagan, Farley, Ferguson, Ferrand, Friedlander, Gaynor, Goetz, Gutman, Hannon, Haubert, Heyman, Hilkemeier, Kenneally, Kenney, McCann, McCourt, McGarry, McGillick, McKee, Martin, Molen, Moore, Moran, Palitz, Post, Robitzek, Ryan, Schmitz, Schweickert, Shields, Silberstein, Smith, Squiers, Sullivan, Stapleton, Stevenson, Tolk, Trau, Walsh, Williams, Wirth; President Pounds, by Edmund W. GENERAL ORDERS.

G. O. 121—(Int. No. 576).

Report of the Committee on General Welfare, in Favor of Adopting an Ordinance to Amend Section 3 of Chapter 27 of the Code of Ordinances, Relating to Bathing in Public.

The Committee on General Welfare, to which was referred on May 23, 1916 (Minutes, page 744), the annexed ordinance to amend section 3 of chapter 27 of the Code of Ordinances, relating to bathing in public, respectfully

REPORTS:

That this matter was considered at a public hearing held in the Aldermanic Chamber, Friday, June 2, 1916, at which appeared Aldermen Ryan and Drescher, Ex-Aldermen Schloss and Potter, and the Reverend J. F. Kutzmeyer, St. Paul's Lutheran Church, Coney Island. They unanimously endorsed the proposed ordinance, citing the vulgar and indecent exhibitions, which are daily occurrences at Sea Shore resorts, particularly at Coney Island. It, therefore, recommends that the accompanying ordinance be adopted.

AN ORDINANCE to amend section 3 of chapter 27 of the Code of Ordinances, relating to bathing in public.

Be it Ordained by the Board of Aldermen of the City of New York, as follows:

Section 1. §3 of chapter 27 of the Code of Ordinances is hereby amended to read as follows:

§3. Bathing in public; floating baths. No person shall swim or bathe in any of the waters within the jurisdiction of the city, except in public or private bathing houses, unless covered with a bathing suit so as to prevent any indecent exposure of the person; nor shall any person dress or undress in any place exposed to view; *nor shall any person when so dressed in such bathing suit, walk, ride or otherwise appear in or upon any public or private highway, street, alley, or thoroughfare, except upon the beach or ground immediately abutting upon the place of bathing, unless the body of the person wearing such bathing suit shall be fully covered by some other proper outer garment.* The president of the borough, in which the same are situated, is authorized to perfect and promulgate all suitable rules and regulations governing the use of the free floating baths of the city, and breaches of said rules and regulations shall be punishable by a fine not exceeding $5 for each offense, or by imprisonment not exceeding 1 day.

Section 2. This ordinance shall take effect immediately.

Note—New matter in *italics.*

LOUIS WENDEL, JR., HARRY ROBITZEK, JAMES R. FERGUSON, FRANK T. DIXSON, CHAS. H. HAUBERT, JOHN T. EAGAN, JOSEPH M. HANNON, WILLIAM T. COLLINS, Committee on General Welfare.

Alderman Moran moved that the foregoing ordinance be amended by striking out the words "or private highway" before the word "public" in the eleventh line of said ordinance, and the word "upon" in the twelfth line, and inserting after the word "except" at the end of the eleventh line the words "within 200 feet of."

The President put the question whether the Board would agree with said motion.

Which was decided in the negative by the following vote:

Affirmative—Aldermen Burden, Browne, Cassidy, Cunningham, Curley, Dunn, Gilmore, McCourt, McGillick, Moran, Palitz, Post, Robitzek, Ryan, Schmitz, Schweickert, Tolk; President Van Name, by Henry P. Morrison, Commissioner of Public Works—18.

Borgstede, Commissioner of Public Works; President Pounds, by Edmund W. Voorhies, Commissioner of Public Works—40.

The President then put the question whether the Board would agree with said report and adopt such ordinance.

In connection with the foregoing ordinance the President laid before the Board the following opinion of the Corporation Counsel respecting the same:

City of New York, Law Department, Office of the Corporation Counsel, New York, June 26, 1916.

Hon. FRANK L. DOWLING, *President, Board of Aldermen:*

Sir—I have received your communication of June 23, 1916, which reads as follows:

"Enclosed please find copy of proposed ordinance (No. 577) prepared by the Commissioner of Licenses to carry out the provisions of a bill passed by the Legislature of 1916, in relation to the sale of cigars, cigarettes, tobacco, candies and confectionery articles on stands within stoop lines. When this proposed ordinance came before the Board for a vote on Tuesday, June 20th, some question was raised by some of the members of the Board as to its legality, particularly with regard to whether its provisions were constitutional or not, and I was requested to obtain an opinion from you on this point. May I ask that you be kind enough to advise me as to this question in time for the meeting of the Board on Tuesday, June 27th."

The proposed ordinance, concerning the validity of which you request my opinion, reads:

"AN ORDINANCE to amend subdivisions 2, 4 and 8 of section 149 of article 13 of chapter 23 of the Code of Ordinances, relating to stands within stoop lines and the license fees therefor.

Be It Ordained by the Board of Aldermen of The City of New York as follows:

Section 1. Subdivisions 2, 4 and 8 of section 149 of article 13 of chapter 23 of the Code of Ordinances are hereby amended to read as follows:

A license may be issued, in accordance with the foregoing provisions of this section, and in the discretion of the commissioner, covering the sale of any combination of the classes of goods mentioned above, to be sold, however, from only one stand not exceeding the legal size hereinafter prescribed in this section; except that where boot black chairs are included in the combination, the space hereinafter prescribed for boot black chairs may be allowed in addition to the stand for the sale of other articles. Sec. 3. 8. Licenses not transferable. No license issued under any provision of this section shall be transferable, with or without consideration. Any license transferred to another person shall immediately thereupon cease and determine, and the privileges thereunder come to an end; provided that the commissioner of licenses may transfer a license to another location for the period of its unexpired term, in case the application for such transfer shall be accompanied by the consent of the owner of the premises to which the proposed transfer is to be made [.]; *and provided further, that such transfer is not sought for a license to sell articles other than newspapers, periodicals and fruit at a location which was not duly licensed and in effect on May* 19, 1916, *but shall be in accordance with the provisions of subdivision 2 of this section.* Any person who shall be guilty of a violation of the provisions of this subdivision shall not thereafter be granted a license, permit or other privilege to keep a stand within the stoop line or under an elevated railroad station, for the sale of [newspapers, or periodicals, or both; of fruits or soda water, or both; or of any of the foregoing items] *any of the articles as hereinbefore provided in subdivisions 2 and 4 of this section,* nor for the blacking of boots. Further, any person found guilty of violating any provisions of this subdivision, by a court of competent jurisdiction, shall be subject to a fine of not less than $50 nor more than $500. The commissioner of licenses shall have the language of this subdivision printed in bold type on all applications for licenses and on all licenses granted, under the provisions of this article.

Stands duly licensed for the sale of fruits and soda water on May 19, 1916, *shall not be required to obtain any new license to sell cigars, cigarettes, tobacco, candies and confectionery articles until the expiration of the license in force on that date.*

Section 4. This ordinance shall take effect immediately.

Note—Old matter in brackets [] to be omitted. New matter in *italics.*

The act referred to is chapter 592 of the Laws of 1916, and amends section 50 of the Charter in regard to booths and stands within stoop lines. That section, as amended, so far as here relevant, reads as follows:

"* * * nor shall they (the Board of Alderman) permit the erection of booths and stands within stoop lines, except for the sale of newspapers, periodicals, fruits and soda water, *cigars, cigarettes, tobaccos, candies and confectionery articles,* and with the consent in such cases of the owner of the premises; *but the power of the board of aldermen to authorize the sale of soda water, cigars, cigarettes, tobacco, candies and confectionery articles shall be limited to stand licenses and the locations thereof in effect at the time this section as amended takes effect; and except as herein expressly provided, all such licenses shall remain subject to city ordinances."*

The purpose of the proposed ordinance is, of course, to effectuate the foregoing provisions of the Charter.

It will be perceived that the power of the Board of Aldermen to authorize the sale of soda water, cigars, cigarettes, tobacco, candies and confectionery articles is restricted to stand licenses and the locations thereof *"in effect at the time as this section as amended takes effect."*

The ordinance, in sections 1 and 3, fixes *May* 19, 1916, as the date when section 50 of the Charter, as amended, took effect, whereas from the certified copy of the amendatory act received at this department from the office of the Secretary of State, it appears that it "became a law *May* 18, 1916." It is manifestly important that these errors in the ordinance be corrected.

Again, the final clause of the ordinance provides that stands duly licensed *for the sale of fruits and soda water* at the time section 50, as amended, became effective "shall not be required to obtain any new license to sell cigars, cigarettes, tobacco, candies and confectionery articles until the expiration of the license in force on that date."

This clause may be open to the objection that it is unduly discriminatory in that stands *for the sale of newspapers and periodicals similarly situated* are not also included within its terms.

In other respects the proposed ordinance seems to follow the authorization to the Board of Aldermen contained in the provisions of section 50 of the Charter above quoted. If such provisions are invalid, then, of course, the provisions of the ordinance predicated thereon would likewise be invalid. While there may be some question as to the validity of these provisions of the Charter, yet I do not feel warranted in saying that they would not be sustainable in the courts.

Respectfully yours, LOUIS H. HAHLO, Acting Corporation Counsel.

Alderman Robitzek then moved that the foregoing ordinance (Int. No. 567) be amended by striking therefrom, wherever the same may appear, the date "May 19, 1916," and inserting in lieu thereof the date "May 18, 1916."

The President then put the question whether the Board would agree to adopt said ordinance, though reported without recommendation.

Which was decided in the affirmative by the following vote:

Affirmative—Aldermen Bassett, Bent, Burden, Browne, Carroll, Cardani, Cassidy, Colline, Colne, Cox, Crane, Curley, Curran, Daly, Delaney, Dixson, Donnelly, Dostal, Dunn, Drescher, Eagan, Farley, Ferrand, Friedlander, Gaynor, Gilmore, Goetz, Gutman, Hannon, Haubert, Heyman, Hilkemeier, Kenneally, Kenney, McCann, McCourt, McGillick, McKee, Martin, Moran, O'Rourke, Palitz, Robitzek, Ryan, Schmitz, Shields, Silberstein, Smith, Squiers, Sullivan, Stapleton, Stevenson, Tolk, Trau, Walsh, Williams, Wirth; President Van Name, by Henry P. Be It Ordained by the Board of Aldermen of the City of New York, as follows:

Section 1. The provisions of §149 of chapter 23 of the Code of Ordinances are hereby transferred to chapter 14 thereof, to constitute a new article therein, to be numbered article 17 and to read as follows:

Article 17.

Stands within stoop-lines and under elevated stations.

Section 200. Stands within stoop-lines and under elevated stations.

§200. Stands within stoop-lines and under elevated stations.

1. *General provisions.* No persons shall have or use any bootblack stand outside of any building, and there shall be no booth or stand erected or maintained within the stoop lines of any building, or under the stairs of the elevated railroad stations, without first procuring a license therefor, as hereinafter provided. (C. O., §361.)

2. *Licenses.* Stands within stoop lines may be permitted and licensed, with the consent of the owner of the abutting premises, for the sale of newspapers, periodicals, fruits and soda water and the blacking of boots. All licenses for such stands shall be granted and issued by the commissioner of licenses for a term of 1 year from the date thereof, unless sooner suspended or revoked by the commissioner. Any person desiring to erect a stand or booth for the sale of newspapers and periodicals, underneath the stairs of any [of the] elevated railroad station, shall file an application in the department of licenses, in which the applicant shall specify the location for such stand. (C. O., §362.)

3. *Conditions.* Every license granted pursuant to this section for a stand under the stairs of an elevated railway station shall contain the following reservation: "It is expressly agreed and understood that this permit is given subject to the right of the elevated railway company affected, its agents, employees, successors or assigns, of the owner of said stairway, at any time properly to inspect, paint, repair, renew, reconstruct or remove said stairway, or any portion thereof, and without claim on the part of said licensee, as against said company, its agents, employees, successors or assigns, or the owner of said stairway, for damages to or interference with said booth or stand, or the business therein conducted, occasioned by such inspection, painting, repair, renewal, reconstruction or removal." (C. O., §366.)

4. *License fees.* The annual license fee for a stand under the stairs of an elevated railway station shall be $10. All stands within the stoop-line shall be classified, and the annual license fee therefor shall be fixed and collected as specified in the schedule following:

a. Stands for the sale of newspapers, periodicals or both, $5;

b. Stands for the sale of fruits, or soda water or both, $10;

c. Stands for the sale of newspapers, periodicals or both, and also fruits or soda water or both, $15;

d. Bootblack stands, each chair, $5.

No license fee shall be required for stands within stoop lines for the sale of newspapers, periodicals or both, in cases when such stands are conducted by dealers who are the owners or occupants of the premises or stores in front of which the same are situated. Licenses for stands within stoop lines or under the stairs of any elevated railway station shall be issued as of December 1, and shall expire on the 30th day of November next succeeding the date of issuance thereof.

All stand licenses now in force, which shall not sooner expire, shall expire on the 30th day of November next succeeding the date on which this ordinance takes effect. All licenses now in force, the terms of which would otherwise bring their expiration to a period beyond the 30th day of November next succeeding the date this ordinance takes effect, may be renewed by the licensees for another term if presented on or before the said November 30th, and for each full calendar month of the unexpired term of the old license a pro rata amount of the fee paid therefor shall be applied toward the payment of the new fee. All stands licensed between the time this ordinance becomes effective and the following November 30th shall be charged the full fee mentioned above, but may be renewed if presented on or before such November 30th at the pro rata rates heretofore prescribed in this paragraph. (C. O., §§263, 264; ord. effective March 14, 1914. Amended by ord. effective July 16, 1915.)

5. *Construction of stand or booth.* No stand or booth under the stairs of an elevated railway station, and no projection therefrom, shall be erected that is wider than the width of the stairs under which it is placed, nor that extends along the sidewalk a greater distance than to a point where the under surface of the stairs is not over 7 feet from the level of the sidewalk. The stand shall be constructed, erected and maintained at the expense of the applicant, under the direction of the president of the borough in which it is located, and upon plans to be approved by the chief engineer of the elevated railroad company affected, so as to permit of a ready removal of so much thereof as may be necessary to enable the said company, its agents or employees, to get convenient access to any part of the stairways, for the purpose of inspecting, painting or repairing the same. Each such stand shall be painted the same color as the stairs of the elevated railroad, and no advertisement shall be painted or displayed thereon. (C. O., §365.)

6. *Restrictions.* a. Every stand, other than a stand or booth under the stairs of an elevated railway station, must be strictly within the stoop line, and shall not be an obstruction to the free use of the sidewalk by the public. It shall not exceed the space of 10 feet long by 4 feet wide; except that, in the case of bootblack stands, a space not more than 3 feet wide and 4 feet long may be occupied by each chair of the stand. The enforcement of the provisions of this paragraph is hereby suspended until October 1, 1915, in the case of stands erected and maintained prior to March 14, 1914, where the restriction of the dimensions of the stands would, in the opinion of the commissioner, entail a severe burden on the owners thereof, but this provision shall not be construed to permit the erection of any new stand of dimensions exceeding those hereinbefore specified; (C. O., §364; amended by ord. effective January 26, 1915.)

b. No person shall be permitted to sleep in any portion of a stand; nor to hold more than one license; (C. O., §364.)

c. No bootblack stand shall be provided with more than 3 chairs. (C. O., §364.)

7. *Licenses to be displayed.* The license for a stand or booth, issued under any provision of this section, must be displayed thereon, so as to be easily visible at all times. (C. O., §368.)

8. *Licenses not transferable.* No license issued under any provision of this section shall be transferable, with or without consideration. Any license transferred to another person shall immediately thereupon cease and determine, and the privileges thereunder come to an end; provided that the commissioner of licenses may transfer a license to another location for the period of its unexpired term, in case the application for such transfer shall be accompanied by the consent of the owner of the premises to which the proposed transfer is to be made. Any person who shall be guilty of a violation of the provisions of this subdivision shall not thereafter be granted a license, permit or other privilege to keep a stand within the stoop lines, or under an elevated railroad station, for the sale of newspapers, or periodicals, or both; of fruits or soda water, or both; or of any of the foregoing items, nor for the blacking of boots. Further, any person found guilty of violating any provisions of this subdivision, by a court of competent jurisdiction, shall be subject to a fine of not less than $50 nor more than $500. The commissioner of licenses shall have the language of this subdivision printed in bold type on all applications for licenses and on all licenses granted, under the provisions of this article. (C. O., §372a; amended by ord. effective Dec. 28, 1915.)

9. *Revocation of consent of property owner.* Upon the written revocation by the owner, in front of or adjoining whose property any such booth or stand shall have been erected, of any consent that shall have been given therefor, signed by such owner or owners and filed in the office of the commissioner of licenses, the commissioner shall revoke the license or permit for such booth or stand, and the same shall thereupon cease, determine and become null and void. (C. O., §372.)

10. *Report to police department.* The commissioner of licenses shall furnish the police commissioner with a list of all unexpired licenses issued under any provision of this section, containing the names of all persons to whom licenses have been issued, the place and business for which issued and the date of the expiration of each license. Thereafter, during the first week of each month, the police commissioner shall send to each police precinct commander a list of all such licenses issued in his precinct, which shall contain the name of each licensee, the location of his stand or business and the date of the expiration of his license, and also a list of all licenses expiring during the month for which the report is sent. (C. O., §371.)

Sec. 2. This ordinance shall take effect immediately.

Resolved, That the Board of Estimate and Apportionment hereby grants to the City Island Motor Bus Co., Inc., the franchise or right fully set out and described in the following form of proposed contract for the grant thereof, embodying all of the terms and conditions, including the provisions as to rates and charges upon and subject to the terms and conditions in said proposed form of contract contained and that the Mayor of the City of New York be and he hereby is authorized to execute and deliver such contract in the name and on behalf of The City of New York, as follows, to wit:

PROPOSED FORM OF CONTRACT.

This contract, made and executed in duplicate this day of , 19 , by and between THE CITY OF NEW YORK (hereinafter called the City), party of the first part, by the Mayor of said City, acting for and in the name of said City, under and in pursuance of the authority of the Board of Estimate and Apportionment of said City (hereinafter called the Board), and the CITY ISLAND MOTOR BUS CO., INC. (hereinafter called the Company), party of the second part, WITNESSETH:

In consideration of the mutual covenants and agreements herein contained, the parties hereto do hereby covenant and agree as follows:

SECTION 1. The City hereby grants to the Company, subject to the conditions and provisions hereinafter set forth, the right and privilege to maintain and operate a stage or omnibus route for public use in the Borough of The Bronx, in the City of New York, to wit:

Beginning in City Island Avenue at the southerly end thereof on City Island; thence along City Island Avenue to the bridge connecting City Island with the Pelham Bay Park; thence upon and along said bridge and the approaches thereto to City Island Road in Pelham Bay Park; thence along said City Island Road to Pelham Bridge Road; thence along Pelham Bridge Road and Eastern Boulevard to Fordham Road or to the prolongation of the Bronx and Pelham Parkway in Pelham Bay Park; thence along Fordham Road or the prolongation of the Bronx and Pelham Parkway in Pelham Bay Park to the Bronx and Pelham Parkway; thence along the Bronx and Pelham Parkway to Boston Road; thence along Boston Road to 177th Street.

And to cross such other streets and avenues, named and unnamed, as may be encountered in said route.

SECTION 2. The grant of this privilege is subject to the following conditions:

First—The said right to maintain and operate said stage or omnibus route shall be held and enjoyed by the Company from the date upon which this contract is signed by the Mayor until September 30, 1921, with the privilege of renewal of said contract for the further period of five (5) years upon a fair revaluation of such right and privilege.

If the Company shall determine to exercise its privilege of renewal, it shall make application to the Board, at any time not earlier than two (2) years and not later than one (1) year before the expiration of the original term of this contract. The time within which such application for renewal must be made is of the essence of this contract, and a failure of the Company to present its application within the time fixed shall be considered as an election on the part of the Company not to take advantage of the renewal privilege and as a relinquishment of its right to such renewal, in which event the franchise shall terminate on the last day of the original term of this contract. The determination of the revaluation shall be sufficient if agreed to in writing by the Company and the Board, but in no case shall the annual rate of compensation to the City be fixed at a less amount than the sum required to be paid during the last year prior to the termination of the original term of this contract unless the Board shall, during the original term of this contract, permit another company or an individual to operate stages or omnibuses over all or a portion of the route herein authorized.

If the Company and the Board shall not reach such agreement on or before the day nine (9) months before the expiration of the original term of this contract, then the parties hereby agree that the annual rate for the renewal term shall be determined by three disinterested persons selected in the following manner:

One disinterested person shall be chosen by the Board; one disinterested person shall be chosen by the Company; these two shall choose a third disinterested person, and the three so chosen shall act as appraisers and shall make the revaluation aforesaid. Such appraisers shall be chosen at least six (6) months prior to the expiration of the original term of this contract, and their report shall be filed with the Board within three (3) months after they are chosen. They shall act as appraisers and not as arbitrators They may base their judgment upon their own experience and upon such information as they may obtain by inquiries and investigations without the presence of either party. They shall have the right to examine any of the books of the Company and its officers under oath. The valuations so ascertained, fixed and determined shall be conclusive upon both parties, but no annual sum shall, in any event, be less than the sum required to be paid for the last year of the original term of this contract unless the Board shall, during the original term of this contract, permit another company or an individual to operate stages or omnibuses over all or a portion of the route herein authorized. If in any case the annual rate shall not be fixed prior to the termination of the original term of this contract, then the Company shall pay the annual rate theretofore prevailing until the new rate shall be determined, and shall then make up to the City the amount of any excess of the annual rate then determined over the previous annual rate. The entire expense of such appraisal shall be borne jointly by the City and the Company, each paying one-half thereof.

Second—The Company shall pay to the City for the original term of the privilege hereby granted the following sums of money:

(a) The sum of five hundred dollars ($500) in cash within thirty (30) days after the date on which this contract is signed by the Mayor.

(b) During the first term of two (2) years an annual sum which shall be equal to five (5) per cent of its gross annual receipts, but which sum shall not be less than one hundred dollars ($100).

During the succeeding term of two (2) years, an annual sum which shall be equal to five (5) per cent of its gross annual receipts, but which sum shall not be less than one hundred and fifty dollars ($150).

During the remaining term, expiring September 30, 1921, an annual sum which shall be equal to five (5) per cent of its gross annual receipts, but which sum shall not be less than two hundred dollars ($200).

The gross annual receipts mentioned above shall be the gross annual receipts of the Company from whatever source, derived either directly or indirectly, in any manner, from or in connection with the operation hereby authorized.

The annual charges shall commence on the date upon which this contract is signed by the Mayor.

The annual charges, as above, shall be paid into the Treasury of the City on November 1 of each year and shall be for the amount due to September 30 next preceding. Provided that the first annual payment shall be only for that proportion of the first annual charge as the time between the date upon which this contract is signed by the Mayor and September 30 following shall bear to the whole of one year.

Any and all payments to be made by the terms of this contract to the City by the Company, whether during the original or renewal term thereof, shall not be considered in any manner in the nature of a tax, but such payments shall be made in addition to any and all taxes of whatsoever kind or description, now or hereafter required to be paid by any ordinance of the City, or resolution of the Board, or any law of the State of New York.

Third—The annual charges or payments shall continue throughout the whole term of this contract, whether original or renewal, notwithstanding any clause in any statute or in the charter of any other company providing for payment for similar rights or franchises at a different rate.

Fourth—Nothing in this contract shall be deemed to affect in any way the right of the City to grant to any individual or other corporation a similar right or privilege upon the same or other terms and conditions, over the same streets and avenues, hereinbefore described.

Fifth—At the termination or forfeiture of this grant, the City at the election of the Board, shall have the right to purchase all or any part of the property and plant of the Company used for the purpose of the operation of the stage or omnibus route thereby authorized, at a sum equal to a fair valuation of such property and plant, exclusive of any value which such property and plant may have by reason of this contract. Such property and plant are to be valued as if the Company had not exercised the right and privilege granted by this franchise for the said period of this contract, and no allowance shall be made to the Company in such valuation by reason of such exercise.

If the Company and the City cannot agree upon such valuation of such property and plant, then such valuation thereof shall be determined and fixed by three arbitrators selected in the following manner:

One disinterested person shall be chosen by the Company; one disinterested person shall be chosen by the Board, and the two so chosen shall choose a third disinterested person. The decision under oath of any two of such persons, who shall be so selected, shall be final and conclusive.

If either the Company or the City fails to appoint an arbitrator as herein provided, or should the first two arbitrators fail to agree on the selection of the third arbitrator within thirty (30) days after the first two arbitrators shall be chosen, or if no two arbitrators so selected shall agree upon the valuation of such property within sixty (60) days after the arbitrators shall be so selected, then such valuation may be fixed by a commissioner appointed by the Supreme Court on the application of either party.

Sixth—The rights and privileges hereby granted shall not be assigned, either in whole or in part, or leased or sublet in any manner, nor shall title thereto, or right, interest or property therein, pass to or vest in any other person or corporation whatsoever, either by the act of the Company, or by operation of law, whether under the provisions of the statutes relating to the consolidation or merger of corporations or otherwise, without the consent of the City, acting by the Board, evidenced by an instrument under seal, anything herein contained to the contrary thereof in anywise notwithstanding, and the granting, giving or waiving of any one or more of such consents shall not render unnecessary any subsequent consent or consents; and no assignment, lease or sublease of the rights or privileges hereby granted, or of any part thereof, or the route mentioned herein, or of any part thereof, shall be valid or effectual for any purpose unless the said assignment, lease or sublease shall contain a covenant on the part of the assignee or lessee that the same is subject to all the conditions of this contract; and that the assignee or lessee assumes and will be bound by all of said conditions, and especially said conditions as to payments, anything in any statute or in the charter of such assignee or lessee to the contrary notwithstanding, and that the said assignee or lessee waives any more favorable conditions created by such statute or its charter, and that it will not claim by reason thereof or otherwise exemption from liability to perform each and all of the conditions of this contract.

Seventh—The Company shall commence operation within three (3) months from the date on which this contract is signed by the Mayor; provided that such period may be extended by the Board for a period or periods not exceeding in the aggregate six (6) months; and provided, further, that when the commencement of said operation shall be prevented by legal proceedings in any court or by works of public improvement, or from other causes not within the control of the Company, the time for the commencement of such operation may be extended for the period of such prevention, but no delay shall be allowed for unless the court proceedings shall be diligently prosecuted by the Company, and provided further that in no case shall such delay be deemed to begin until the Company shall have given written notice to the Board of any such court proceedings or other occasion of delay, and deliver to the Board copies of any injunction or other orders, and the papers upon which the same shall have been granted, and unless upon the request of the Board the Company shall, in writing, consent that the Board, either in its own name as a party, or in the name of the City as a party, may intervene in any such proceeding.

Eighth—Nothing herein contained shall be construed as permitting the grantee to erect any structures whatever upon City streets, and the Company shall not construct or maintain any fixture or structure in the street unless especially authorized by resolution of the Board.

Ninth—All vehicles which may be operated pursuant to this contract shall comply with the following general requirements:

1. They shall be propelled by power generated or contained within the vehicle itself, but no power shall be used which will in its generation or use produce smoke or noxious odors sufficient in the opinion of the Board or its authorized representatives to constitute a nuisance.

2. The maximum weight, including fuel, water, oil or any other material or any accessories used in operation, shall not exceed six thousand (6,000) pounds.

3. The maximum width shall not exceed seven feet two inches (7'2").

4. The maximum height shall not exceed eleven feet eight inches (11'8").

5. The maximum length shall not exceed twenty-two feet (22').

6. They shall be designed and constructed in a manner which will permit ease and freedom of movement under all conditions.

7. The distribution of weight on axles, length of wheel base and other features of design shall be such as to avoid skidding as far as possible and shall be such as to permit easy steering and control.

8. They shall be fitted with brakes capable of stopping and holding the same under all conditions.

9. They shall be so constructed that the oil or grease cannot drop on the roadway.

10. All parts shall be so constructed that no undue noise or vibration shall result from operation.

11. All wheels shall be equipped with either pneumatic tires or tires which shall be approved by the Board or its authorized representatives but in no event shall solid tires be used.

Tenth—No stage or omnibus shall be operated pursuant to this contract unless there shall be painted thereon in letters sufficiently large to be clearly visible for a distance of seventy-five feet:

(a) The name of the Company owning and operating such vehicle.

(b) The number of the vehicle which is assigned to it upon receiving the approval of the Board or its authorized representatives.

(c) The number of adults for which the vehicle has seating space.

Eleventh—No advertising signs shall appear on the outside of any stage or omnibus.

Twelfth—The destination of each stage or omnibus shall be plainly indicated on the front of the vehicle, and shall be illuminated at night.

Thirteenth—The number of passengers to be carried in any vehicle shall at no time exceed the seating capacity of the vehicle.

Fourteenth—The inclosed portion of all stages or omnibuses which are operated on said route shall be heated during the cold weather, in conformity with such laws and ordinances as are now in force affecting surface railway cars or such laws and ordinances affecting stages or omnibuses as may hereafter, during the term of this contract, be in force, as may be required by resolution of the Board.

Fifteenth—The inclosed portion of all stages or omnibuses operated on said route shall be well lighted as may be required by resolution of the Board.

Sixteenth—Before any stage or omnibus is put in service it must be submitted to the Board or its authorized representatives and receive the approval thereof. If any vehicle which may be so submitted for approval shall not conform with the requirements herein or should any such vehicle for any reason be considered by the Board or its authorized representatives unfit for public use, then the Board or its authorized representatives may refuse such approval, in which case the Company shall not operate such vehicle. If after a vehicle shall have been so approved, defects develop which in the opinion of the Board or its authorized representatives render it unsuitable for public service, then the Board or its authorized representatives may require the withdrawal of such vehicle from service.

Upon being approved by the Board or its authorized representatives, each vehicle shall be given a number which shall not be changed so long as such vehicle shall be operated by the Company, unless and until the Company shall notify the Board that it proposes to change the number of the vehicle and of the new number which it is proposed to use.

Seventeenth—All vehicles operated pursuant to this grant shall be maintained in good and safe repair and in a manner which will in all ways render the vehicle fit for public service. The Company shall permit the board or its authorized representatives to inspect at all reasonable times any or all the vehicles used by the Company. If upon inspection any vehicle shall appear in the judgment of said Board or its authorized representatives to be unfit for public service, then the Company shall, upon notice, immediately withdraw such vehicle from service, and shall remedy the defect and notify the Board or its authorized representatives that the defect has been remedied before such vehicle shall be restored to service.

Eighteenth—All laws and ordinances affecting the operation of stages or omnibuses now in force or which may be in force during the term of this contract shall be complied with by the Company. The Company shall also comply with and enforce the carrying out of any orders or regulations which may be issued by the Board designed for the protection of persons, of property or of the comfort and health of the public.

Nineteenth—The rate of fare for any passenger upon the stage or omnibus route herein authorized shall not exceed twenty-five cents (25c.) and the Company shall not charge any passenger more than twenty-five cents (25c.) for one continuous ride from any point on the stage or omnibus route hereby authorized to any other point on the said route.

Twentieth—Stages or omnibuses shall be run on said route each day at intervals of not more than one hour between the hours of 7 o'clock A. M. and 7 o'clock P. M. and as much oftener as reasonable convenience of the public may require, as may be directed by resolution of the Board, and shall be operated on such route and at such intervals between the hours of 7 o'clock P. M and 7 o'clock A. M. as reasonable convenience of the public may require and as may be directed by resolutions of the Board; provided, however, that during the months of December, January, February and March the Company is hereby required to operate stages or omnibuses on said route only between the hours of 8 o'clock and 10 o'clock A. M. and between 5 o'clock and 7 o'clock P. M., unless the Board shall, by resolution, direct the Company to operate during other periods of the day.

Twenty-first—The Company shall, at its own expense, do anything and everything within its power to keep its vehicles in operation on regular schedules during the existence of snow and ice in the streets and avenues upon which the Company is hereby authorized to operate, and if it shall be necessary to remove such snow and ice to the side of the roadway in order to so operate, then such removal shall be done under the supervision and to the satisfaction of the Commissioner of Street Cleaning or the Park Commissioner, but in no event shall snow or ice so removed be allowed by the Company to obstruct the crosswalks of any street.

Twenty-second—It is understood that the Company shall operate, pursuant to this contract, only the route herein authorized, but should vehicular traffic be diverted from any portion of any of the streets or avenues upon which the Company is herein authorized to operate because of fires, parades or because of any other event which will close the street to vehicular traffic temporarily, then the Company may use such other streets or avenues as are necessary to continue the operation. If, however, for any reason any of the streets and avenues in which the operation is hereby authorized shall be closed to vehicular traffic for a longer period than twenty-four hours, then the Company shall communicate with the Board or its authorized representatives and obtain authority for the operation upon other streets and avenues for the period during which said street or avenue may be closed.

Twenty-third—Should it be deemed advisable by the Board at any time during the term of this contract to require the Company to operate extensions to the route herein authorized, additional route or routes in substitution for the route herein authorized or any portion thereof, and the Board shall so order, then the Company shall, upon notice by the Board, apply for a franchise or right to operate such extension, additional or substituted routes and accept a franchise therefor upon terms and conditions similar to those contained herein, and for a term expiring not later than the date of the expiration of this contract, provided that the Board shall not hereunder require the Company to extend its route for a distance greater than one mile during any calendar year.

Twenty-fourth—The Company shall submit to the Board a report not later than November 1 of each year for the year ending September 30 next preceding, and at any other time, upon request of the Board, which shall state:

1. The amount of stock issued, for cash, for property.
2. The amount paid in as by last report.
3. The total amount of capital stock paid in.
4. The funded debt by last report.
5. The total amount of funded debt.
6. The floating debt as by last report.
7. The total amount of floating debt.
8. The total amount of funded and floating debt.
9. The average rate per annum of interest on funded debt.
10. Statement of dividends paid during the year.
11. The total amount expended for same.
12. The names of the directors elected at the last meeting of the corporation held for such purpose.
13. Location, value and amount paid for real estate owned by the Company as by last report.
14. Location, value and amount paid for real estate now owned by the Company.
15. Number of passengers carried during the year.
16. Total receipts of Company for each class of business.
17. Amounts paid by the Company for damage to persons or property on account of construction and operation.
18. Total expenses for operation, including salaries, and such other information in regard to the business of the Company as may be required by the Board.

Twenty-fifth—The Company shall at all times keep accurate books of account of its gross receipts and shall, on or before November 1 of each year, make a verified report to the Comptroller of the City of the business done by the Company, for the year ending September 30 next preceding, in such form as he may prescribe. Such report shall contain a statement of such gross receipts, the total miles in operation within

the limits of the City and the miles operated under this contract, and such other information as the Comptroller may require. The Comptroller shall have access to all books and records of the Company for the purpose of ascertaining the correctness of its report, and may examine its officers and employees under oath.

Twenty-sixth—The Company shall keep accurate books of the performance of different types of vehicles and the different services rendered and the cost thereof, and shall at any time furnish the Board, or its authorized representatives, such information with respect thereto as shall be requested.

Twenty-seventh—In case of any violation or breach or failure to comply with any of the provisions herein contained or with any orders of the Board or its authorized representatives, acting under the powers herein reserved, the right or privilege herein granted may be forfeited by resolution of said Board, without proceedings at law or in equity. Provided, however, that such action by the Board shall not be taken until the Board shall give notice to the Company to appear before it on a certain day not less than ten (10) days after the date of such notice, to show cause why such resolution declaring the contract forfeited should not be adopted. In case the Company fails to appear, action may be taken by the Board forthwith.

Any false entry in the books of the Company or false statement in the reports to the Comptroller as to a material fact, knowingly made by the Company, shall constitute such a violation or breach or failure to comply with the provisions herein contained as to warrant the forfeiture of the franchise.

Nothing herein contained shall affect in any way the right of the Company to apply to a court of competent jurisdiction for review of any action of the Board forfeiting the franchise or consent herein granted.

Twenty-eighth—If the Company shall fail to give efficient public service at rates not exceeding those herein fixed, or fail to maintain its equipment as herein provided in good condition throughout the whole term of this contract, the Board may give notice to the Company, specifying any default on the part of the Company, and requiring the Company to remedy the same within a reasonable time; and upon failure of the Company to remedy such default within a reasonable time, the Company shall, for each day thereafter during which the default or defect remains, pay to the City the sum of fifty dollars ($50) as fixed or liquidated damages, or at the option of the Board, this contract may be forfeited upon ten (10) days' notice to the Company.

Twenty-ninth—The Company shall assume all liability for damages to persons or property occasioned by reason of the operation or maintenance of the stage or omnibus route hereby authorized, and it is a condition of this contract that the City shall assume no liability whatsoever to either persons or property on account of the same, and the Company shall repay the City any damage which the City shall be compelled to pay by reason of any acts or default of the Company.

Thirtieth—This grant is upon the express condition that the Company, within thirty (30) days after the signing of this contract by the Mayor, and before anything is done in exercise of the rights conferred hereby, shall deposit with the Comptroller of the City the sum of five hundred dollars ($500), either in money or securities, to be approved by him, which fund shall be security for the performance by the Company of all of the terms and conditions of this contract and compliance with all orders of the Board acting under the powers herein reserved, especially those which relate to the payment of the annual charges for the privilege hereby granted, the rendering of efficient public service at the rates herein fixed, and the maintenance of vehicles in good condition throughout the whole term of this contract; and in case of default in the performance by the Company of such terms and conditions or compliance with such orders or either or any of them, the City shall have the right to cause the work to be done and the materials to be furnished for the performance thereof after due notice, and shall collect the reasonable cost thereof from the said fund without legal proceedings; or after default in the payment of the annual charges, shall collect the same, with interest, from the said fund after ten (10) days' notice to the Company; or in case of failure to observe the said terms and conditions of this contract and orders of the Board acting hereunder, relating to the headway, repair, maintenance or withdrawal from service of vehicles, the Company shall pay to the City as liquidated damages the sum of fifty dollars ($50) per day for each day of violation, and the further sum of ten dollars ($10) per day for each vehicle that shall not be properly heated or lighted in case of the violation of the provisions relating to those matters, all of which sums may be deducted from said fund.

The procedure for the imposition and collection of the sums as fixed or liquidated damages in this contract shall be as follows:

The Board, on complaint made, shall give notice to the Company, directing its President or other officer to appear before the Board on a certain day not less than ten (10) days after the date of such notice, to show cause why the Company should not pay such liquidated damages in accordance with the foregoing provisions. If the Company fails to make an appearance, or after a hearing, appears in the judgment of the Board to be in fault, said Board shall forthwith require the payment of said sums herein provided for, or where the damages are not liquidated by the terms of this contract, such amount as appears to the Board to be just, and without legal procedure direct the Comptroller to withdraw such amount from the security fund deposited with him. In case of any drafts made upon the security fund, the Company shall, upon ten (10) days' notice, pay to the City a sum sufficient to restore said security fund to the original amount of five hundred dollars ($500), and in default thereof, this contract may be cancelled and annulled at the option of the Board, acting in behalf of the City. No action or proceeding or right under the provisions of this contract shall affect any other legal rights, remedies or causes of action belonging to the City. These provisions for the recovery of such damages are in addition to the right to forfeit the franchise conferred by Section 2, Subdivision Twenty-seventh of this contract.

Thirty-first—The words "notice" or "direction," wherever used in this contract, shall be deemed to mean a written notice or direction. Every such notice or direction to be served upon the Company shall be delivered at such office in the City as shall have been designated by the Company, or if no such office shall have been designated, or if such designation shall have for any reason become inoperative, shall be mailed in the City, postage prepaid, addressed to the Company at the City. Delivery or mailing of such notice or direction as and when above provided shall be equivalent to direct personal notice or direction, and shall be deemed to have been given at the time of delivery or mailing.

Thirty-second—The words "streets or avenues" and "streets and avenues," wherever used in this contract, shall be deemed to mean streets, avenues, highways, parkways, driveways, concourses, boulevards, bridges, viaducts, tunnels, public places or any other property to which the City has title encountered in the route hereinabove described and upon or in which authority is hereby given to the Company to operate stages or omnibuses.

Thirty-third—If at any time the powers of the Board or any other of the authorities herein mentioned or intended to be mentioned, shall be transferred by law to any other board, authority, officer or officers, then and in such case such other board, authority, officer or officers shall have all the powers, rights and duties herein reserved to or prescribed for the Board or other authorities, officer or officers.

SECTION 3. Nothing in this contract shall be construed as in any way limiting the present or future jurisdiction of the Public Service Commission under the laws of the State of New York.

SECTION 4. The Company promises, covenants and agrees on its part and behalf during the entire term of this contract, whether original or renewal, to conform to and abide by and perform all the terms, conditions and requirements in this contract fixed and contained.

IN WITNESS WHEREOF, the party of the first part, by its Mayor, thereunto duly authorized by the Board of Estimate and Apportionment of said City, has caused the corporate name of said City to be hereunto signed and the corporate seal of said City to be hereunto affixed; and the party of the second part, by its officers, thereunto duly authorized, has caused its corporate name to be hereunto signed and its corporate seal to be hereunto affixed the day and year first above written.

NOTICE TO BIDDERS AT SALES OF OLD BUILDINGS, ETC.

TERMS AND CONDITIONS UNDER WHICH BUILDINGS, ETC., WILL BE SOLD FOR REMOVAL FROM CITY PROPERTY.

THE BUILDINGS AND APPURTENANCES thereto will be sold to the highest bidder, who must pay cash or certified check, drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of $50, the sum of $50 shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such buildings by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstances of vacating the structures of their tenants will permit.

All the material of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations and the sidewalks and curb in front of said buildings, extending within the described area, shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street and the openings of the main sewer in street shall be properly closed in compliance with the directions of the Bureau of Sewers in the Borough in which the buildings are situated, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all openings in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any part thereof, within thirty days from the day of possession will work forfeiture of ownership of such buildings, appurtenances or portions as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed, and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the day of possession, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furrings, plaster, chimneys, projecting bricks, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beam holes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs and adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the Contractor.

"No buildings, parts of buildings, fixtures or machinery sold for removal under these terms and conditions shall in any case be re-located or re-erected within the lines of any proposed street or other public improvement, and if any such buildings, parts of buildings, fixtures or machinery, etc., shall be re-located or re-erected within the lines of any proposed street or other public improvement, title thereto shall thereupon become vested in The City of New York and a re-sale at public or private sale may be made in the same manner as if no prior sale thereof had been made."

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids; and be it further

Resolved, That while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.
