VOL. I.

NEW YORK, MONDAY, AUGUST 25, 1873.

## REPORT OF THE OPERATIONS OF THE DEPARTMENT OF PUBLIC CHARITIES AND CORRECTION, FROM THE 19th Day of May to the 31st Day of July, 1873.

NEW YORK, August 22d, 1873.

To his Honor the Mayor of the City of New York:

In answer to your letter of July 16th, 1873, calling for a report of the operations of this Department, as provided for under the Laws of 1873, Chapter 335, Section 27.

I desire to respectfully report May 19th, 1873, the organization of this Board, since which the Board have devoted much time in learning the working of the several Institutions, and have made such changes, as to them thought best in the interest of the Department.

The Reception Hospitals, Tombs, Free Labor Bureau, Central Office, Bellevue and Charity Hospitals, Penitentiary, Alms House, Work House, Lunatic Asylum, Ward's Island, Randall's Island and School-ship (now in port), are receiving the attention of the Commissioners, and the grand question as to how much of the labor can be best used in the interests not only of the Department, but also for the future well being of so many unfortunates for whom provision must be made in the several Institutions.

The report will set forth the principal action in detail of this Board from May 19th, 1873, to July 31st, 1873. The minor items of action on the part of this Board are not embraced in this report, yet they appear fully upon the regular minutes.

The compensation of the employes of the several Institutions have been reduced as much as would appear to this Board consistent, and the force have also been reduced in every case where the proper workings would permit. It is the desire of this Board from time to time to make such other changes as may be needed and called for, particularly as to the purchasing of supplies. It cannot be done at once, and in the hope that this Board may continue as one upon the great question of all proper economy and reform.

Annexed you will find an abstract from the books of this Department showing the amount expended for the several items, some of which, however, were incurred prior to the incoming of this Board.

I am, very respectfully,  
WM. LAIMBEER, President.

ORGANIZATION OF THE BOARD OF COMMISSIONERS OF PUBLIC CHARITIES AND CORRECTION, MAY 19, 1873.

William Laimbeer having been appointed by the Mayor for six years, James Bowen for four years, Myer Stern for two years, under Article IX of the Charter of the City of New York, passed by the Legislature of this State on the 30th of April, 1873, and being duly qualified, assumed their positions as members constituting the "Board of Commissioners of Public Charities and Correction."

By Commissioner Stern:  
Resolved, That Commissioner Laimbeer be and is hereby elected President of the Board of Charities and Correction for the ensuing year. Adopted.

Resolved, That Joshua Phillips be appointed Secretary pro tem. of this Board. Adopted.  
From the Comptroller. To inform him whether the Bellevue Hospital and grounds are needed for the purposes for which they are now used.

On which the following resolution was adopted:  
Resolved, That the President of the Medical Board of Bellevue Hospital be respectfully requested to call a meeting of that Board to consider and report upon the expediency of the removal of Bellevue Hospital.

### MEDICAL BOARD OF BELLEVUE HOSPITAL.

SPECIAL MEETING ON REMOVAL OF BELLEVUE HOSPITAL.

A special meeting of the Medical Board of Bellevue Hospital was held at the Hospital on the 16th of June, 1873.

Present—Drs. Flint, Sr., Flint, Jr., Sands, Wood, Loomis, Mott, Gouley, Sayre, McCready, Hamilton, Janeway.

Dr. Flint, Sr., was elected President pro tem. Dr. Janeway read a paper which was referred to a committee consisting of Drs. Janeway, Loomis, and Sayre. This committee was appointed by the chair, on motion.

The following resolution was passed unanimously:

"That the site of Bellevue Hospital, comprising, as it does, two blocks, 500 feet by 500 feet, with a water front which is equal to one-half the above, having a central position so as to be readily accessible to patients and physicians, seems to us the best that could be had for the hospital."

"That such alterations as have been suggested by the Medical Board, and are in contemplation by the Board of Commissioners, will render this hospital serviceable for many years."

On motion, adjourned to Tuesday, June 17, 1873.

E. G. JANEWAY, M. D.,  
Secretary.

The adjourned meeting of the Medical Board of Bellevue Hospital was held on Tuesday, June 17, 1873.

Present—Drs. Wood, Hamilton, Flint, Sr., Flint, Jr., Sayre, Mott, Loomis, Janeway.

Dr. Wood, on motion, was elected President pro tem.

The accompanying report was presented by the Secretary.

To the Medical Board of Bellevue Hospital:

The Committee appointed by the Board at its special meeting, pursuant to a call of the Commissioners, would present the following report:

We have chosen the following subjects for investigation—amputations, excisions, and external perineal urethrotomy; and as most of the amputations are for injury, the statistics of these operations will probably give the results of hospital practice for acute surgery, and that for diseases; also, the result of obstetric practice, of pneumonia, and the general record of mortality.

The following particulars about surgical operations have been prepared by Dr. Brooks of the 1st, Dr. Burchard of the 2d, and Dr. Terribery of the 3d surgical division, members of the house staff, and we believe them to be accurate. The period embraced is from January, 1872, to June, 1873.

Number of amputations, excluding those of the fingers and toes..... 58  
Recoveries..... 39  
Deaths..... 28

Causes of death, 4 from shock.  
2 " secondary hemorrhage.  
1 " tetanus.  
11 " Pyæmia.  
1 " hospital gangrene.  
8 " exhaustion.  
1 " osteo myelitis.

Hand—5 amputations. 2 recovered, 3 died.  
Forearm—4 amputations. 3 recovered, 1 died.  
Arm, including shoulder-joint—11 amputations. 6 recovered, 5 died.

Thigh—3 amputations. 1 recovered, 2 died.  
Leg, including knee-joint—28 amputations. 15 recovered, 13 died.

Foot—8 amputations. 4 recovered, 4 died.  
9 amputations for disease, 49 for injury. In one case both forearms were amputated. In two cases both legs. In two cases both feet.

The statistical tables of St. George's Hospital, London, for the years 1867-8 were at the hospital, and examined, give the following result: 54 amputations, 27 recoveries. 32 for disease. 11 deaths from pyæmia.

Most of them of the thigh, leg and foot.  
The result at the two Reception Hospitals, Centre street, total number of amputations since origin, 1870, 23. Recovered, 8; died, 15. 7 deaths at Centre street from pyæmia after amputation.

99th street—number of amputations, 8. 3 recovered and 5 died. No post-mortem examinations were made; but one of the deaths certainly, perhaps three, were due to pyæmia.

Bellevue statistics of excision of joints 10.  
Excision of inferior maxilla, recovered 2.  
Excision of elbow, died, 1, pyæmia.  
Excision of hip, recovered 4, died 1, of exhaustion and waxy degeneration.

Excision of knee, recovered 2.  
Total 10—deaths 2, only 1 from pyæmia.

Statistics of external perineal urethrotomy for Stricture. Number of cases 10. Recovered 8, died 1 of uræmia and 1 of pyæmia.

Statistics of 1872 for confinement:  
Number of women confined..... 410  
Total deaths of women confined..... 14  
Total deaths by puerperal fever..... 9

1 death to 29 2-7 confinements. 1 death by puerperal fever to 45 confinements.

Statistics of Nursery and Child's Hospital from March 1, 1872 to March 1, 1873.

Number of women confined..... 205  
Number of women dying..... 18  
Number of women dying of puerperal fever... 15

1 death to 11 7-18.

1 death by puerperal fever to 13.

This year we are informed this institution is pretty free from the disease whilst at Bellevue there has been 1 case to 20 women confined.

Statistics of the city—1872.

Number of children born and of still births 24,868.

Number of cases of puerperal fever reported as such to the Board of Health, 281.

Number of cases for first five months 1873, 165.

It must be borne in mind that cases are sometimes admitted to Bellevue Hospital with the disease. That more than 1-2 the women are unmarried and in labor for the first time, also that this year there has been a severe epidemic of the disease, and that many young women in the most favorable circumstances have died of it.

Statistics of total mortality for 1872, 1 death in 5 94-95. Reckoned by adding discharges and deaths and dividing the sum by the latter.

The annual report of Roosevelt Hospital, gives one death in 6 8-9.

The annual report of St. Luke's, 1 in 7.

1-5 of patients in Roosevelt pay.

1-3 of patients in St. Luke's pay.

1-60 of patients in Bellevue pay.

Number of Coroner's cases at Roosevelt,.... 4  
" " " " " St. Luke's not given  
" " " " " Bellevue..... 303

Whilst a large amount of surgery done at Bellevue was for accidents and injuries, but little occurred at the other institutions.

It is scarcely necessary to draw attention to the different condition of patients treated in these institutions.

Statistics for Pneumonia, at St. Luke's Hospital, 19 cases and 12 deaths.

Perhaps there is some error about this though thus stated in printed report.

Roosevelt table of deaths not given.

Bellevue, 1870, percentage of deaths, pneumonia, 40.38 males, 38.71 females. 1871-46.4.

1872—Tables not yet prepared. 1873—First five months, 71 cases, 21 deaths.

It must be borne in mind that nearly 1-3 of all patients dying in Bellevue Hospital, die on the day of or that following admission, generally in consequence of their condition at time of admission.

Statistics of Pyæmia.—

Roosevelt Hospital no report of deaths.

St. Luke's Hospital, 4 cases of pyæmia and septæmia.

Woman's Hospital, 2 cases.

At this latter institution it must be remembered that the cases are selected for disease, and operated on at the option of the Surgeon, and there are not, as at Bellevue, many cases which demand an operation, no matter what the condition of the hospital and the city may be as regards the presence of erysipelas.

It is well to refer again to the fact that at St. Luke's most of the surgery is for disease.

Again, from the published table of statistics for 1870:

Bellevue Hospital, 487 cases of erysipelas admitted.

St. Luke's Hospital, 12 cases treated in 1,069 cases.

Roosevelt, 1 case on the surgical, 5 on the medical side.

Experience has taught that the introduction of one case of this kind into a surgical ward, may produce an unhealthy condition of all wounds.

As regards gangrene, but little of it has occurred. It is therefore the opinion of the committee, that the alteration in the Hospital already proposed by the Board of Commissioners will diminish, to a great degree, the dangers now experienced from the introduction of erysipelas.

E. G. JANEWAY, M. D.  
LEWIS A. SAYRE, M. D.  
ALFRED L. LOOMIS, M. D.  
Committee.

Attested by  
JAMES R. WOOD, M. D., Chairman.  
E. G. JANEWAY, M. D., Secretary.

On motion, it was unanimously adopted, and the President and Secretary be directed to attest its correctness.

The following resolution was proposed by Dr. Flint, Sr.:

That the thanks of the Medical Board be presented to the Secretary, Dr. Janeway, for the pains which he has taken to bring before the Board statistics disproving the malignant and disloyal slanders uttered against Bellevue Hospital. Carried.

On motion, adjourned.

E. G. JANEWAY, M. D.,  
Secretary.

By Commissioner Laimbeer:

One is a small tug called The Merry, and can be obtained at the rate of \$12 50 per day, but will only answer to convey the sick, not having accommodations for the dead. To the Commissioners of Public Charities and Correction: GENTLEMEN—In reply to the communication from the Infants Hospital, requiring a cargo of coal for immediate use, as their supply is almost exhausted, I ordered the supply clerk to procure the same as heretofore, in order not to embarrass said Infants Hospital.

In regard to a general supply of coal referred to me on the 24th instant, I would beg leave to state that I made inquiry of the Pennsylvania Coal Company, at the Merchants' Exchange, and in the circular hereunto annexed is all the information appertaining to the subject. As soon as our engineer, Mr. Knapp, will report on the quality, kind of coal, and quantity required, and when and where delivered, this Board can enter into contract under proper regulations, and on favorable terms.

Steamer Hope—Sub-Marine Engineer and Diver.

NEW YORK, May 27, 1873.

To the Commissioners of Public Charities and Correction:

GENTLEMEN—I, Edward R. Lowe, Sub-marine Engineer and Diver, report that, in pursuance of instructions on Tuesday, May 23, 1873, I commenced operations to ascertain the position and condition of the steamer Hope, belonging to your department, which was sunk in Hurl Gate on the 13th of May, 1873, by the steamer Americus.

I made two descents on the 23d of May, where she was supposed to lay, but was unable to find the hull. The boiler was found on the rocks, upset, in about six fathoms of water. I moved around in a large circle, but was unable to find the hull or any indication where it lay.

On the 26th I made another examination, and again found the boiler, but made no discovery of the hull.

In my judgment, after the boiler became detached from the hull, the boat was carried by the current, which runs from six to eight knots per hour, to an unknown distance, until sunk in a deep hole, or, coming in contact with rocks, it is my opinion that the hull has gone to pieces, unless, as above stated, sunk in very deep water.

Respectfully, EDWARD R. LOWE.

Sworn before me this 27th day of May, 1873.

GEORGE KELLOCK, Notary Public, N. Y.

CITY PRISON.

Report of Commissioner Stern.

NEW YORK, June 9, 1873.

To the Commissioners of Public Charities and Correction.

GENTLEMEN.—On my visit to the Tombs this morning I examined the gate of the Franklin Street entrance. On said examination, Warden Johnston pointed out to me quite a large hole in said gate near the lower hinges, which seemed to me to be gnawed by rats or otherwise. The said hole was covered by a tin plate from the inside, which was partly torn off by a prison wagon this morning. I also found some small holes in the ceiling of the recesses in the wall of the Tombs on Franklin Street side. Deeming these defects dangerous to the safe keeping of inmates, I would respectfully recommend,

First, That a heavy iron swing gate with proper bars and bolts be fastened securely into the walls inside, in addition to the new wooden gate; also, that reliable and competent masons be employed to examine the defects pointed out in said walls, and furthermore, in company with the President of this Board, examine the entire mason work of said Tombs, in order to ascertain if any other repairs besides these referred to are required.

All of which is respectfully submitted.

MYER STERN.

By the Board. Report adopted, so ordered, and referred to President Laimbeer.

Board of Public Charities and Correction.

Sir—I respectfully call your attention to the condition of our gas house, which was originally built for this Institution only. Since I have had to supply the New York City Asylum for the Insane, I find that the purifier is too small and that the pipes want an overhauling, Mr. Wm. H. Knapp, the Supervising Engineer, informs me, that there is a larger purifier at Charity Hospital, B. I., not used and large enough for this gas house.

Therefore, I would respectfully ask your honorable Board to have the change made whilst the nights are short, as I had considerable inconvenience to furnish both institutions with the quantity of gas required last winter.

Very respectfully, FRANCIS J. SKIFFINGTON, Engineer.

NEW YORK, June 12, 1873.

William Laimbeer, Esq., President.

Sir—I respectfully report that the matters contained in the above communication from the Engineer of the Inebriate Asylum, Ward's Island, are correct.

I recommend that the purifier, now at Charity Hospital be transferred to the above place for the purpose required, in addition to the small one now in use, and that the work be done by Messrs. G. H. Kitchen & Co.

By the Board. So ordered. To be done under supervision of Mr. Knapp, if any alterations are necessary.

SIR—The resolution of the Board of Commissioners of Public Charities and Correction, requesting "my opinion in respect to the power of the Board to remove clerks and heads of bureaus," in your department, has received my attention.

Unless there be further legislation upon the subject which has escaped my notice, the powers of your Board in relation to the removal of clerks and heads of bureaus, are as above defined.
