COMMISSIONERS OF THE SINKING FUND OF THE CITY OF NEW YORK.

Proceedings of the Commissioners of the Sinking Fund, at a Meeting Held in Room 16, City Hall, at 11 o'clock A. M., on Wednesday, November 19, 1913.

Present—O. Grant Esterbrook, Acting President, Board of Aldermen; Douglas Mathewson, Deputy and Acting Comptroller; Robert R. Moore, Chamberlain; and Henry H. Curran, Chairman Finance Committee, Board of Aldermen.

The minutes of the meetings held October 27 and November 5, 1913, were approved as printed.

The Deputy and Acting Comptroller presented the following report and offered the following resolution relative to the assignment of 15,000 paving blocks to the Department of Docks and Ferries:

October 27, 1913.

To the Commissioners of the Sinking Fund:

Gentlemen—On October 17, 1913, the Commissioner of Bridges, pursuant to the provisions of section 205 of the Greater New York Charter, turned over to the Commissioners of the Sinking Fund about 15,000 second-hand paving blocks with the

statement that they could be used by the Department of Docks and Ferries. That Department is anxious to obtain the paving stones to carry forward work already started.

I therefore recommend that the paving blocks be transferred to the Department of Docks and Ferries.

Respectfully,

WM. A. PRENDERGAST, Comptroller.

Resolved, That, pursuant to the provisions of section 205 of the Greater New York Charter, as amended, the Commissioners of the Sinking Fund hereby assign to the Department of Docks and Ferries about fifteen thousand (15,000) paving blocks, turned over to the Commissioners of the Sinking Fund by the Commissioner of Bridges, under date of October 17, 1913, as no longer required by the Department of Bridges.

The report was accepted, and the resolution adopted, all the members present voting in the affirmative.

The Deputy and Acting Comptroller presented the following report and offered the following resolution relative to the assignment of the Dreamland Pier on the Dreamland Park site, Coney Island, to the Department of Parks, Borough of Brooklyn:

November 15, 1913.

To the Commissioners of the Sinking Fund:

Gentlemen—On November 7, 1913, the Commissioner of Docks requested your Commission to reassign to the Commissioner of Parks, Borough of Brooklyn, the Dreamland Pier on the Dreamland Park site, Coney Island, Borough of Brooklyn, which was assigned to his department on July 17, 1913.

Before the transfer was made the Commissioner of Docks stated that certain citizens of Coney Island were interested in securing the temporary use of the pier as an excursion boat landing and were willing to expend the sum necessary to make it safe during the summer of 1913. The Commissioner also states that the repairs would be only temporary in character, as the property was not of sufficient value to justify its permanent repair by the City for pier purposes.

The Commissioner now states that the Chief Engineer of the Department of Docks and Ferries reports that with the weakening of the structure, which is certain to occur during the winter season, it is unwise to make further temporary repairs even for gangway uses during the season of 1914, that the property is in no condition to be profitably used and suggests that it be removed.

On May 27, 1912, the Board of Estimate and Apportionment authorized an issue of \$25,000 corporate stock to provide means for cleaning up debris, etc., and for the general improvement of Dreamland Park, providing that no part of the sum appropriated should be used for the removal of the piles and other foundations of what was formerly known as the "Old Iron Pier," or for the removal of other piers and jetties, until after the Corporate Stock Budget Committee reported to the Board whether or not the old piers are worth rebuilding for use as a bulkhead or jetty.

In view of the fact that the Department of Docks and Ferries has no further use of the pier, I recommend the adoption of the attached resolution, reassigning it to the Department of Parks, Borough of Brooklyn.

Respectfully, DOUGLAS MATHEWSON, Deputy and Acting Comptroller.

Resolved, That, pursuant to the provisions of section 205 of the Greater New York Charter, as amended, the Commissioners of the Sinking Fund hereby assign to the Department of Parks, Borough of Brooklyn, Dreamland Pier, on the Dreamland Park site, Coney Island, Borough of Brooklyn, turned over to the Commissioners of the Sinking Fund by the Department of Docks and Ferries, under date of November 7, 1913, as no longer required by that department.

The report was accepted, and the resolution adopted, all the members present voting in the affirmative.

The Deputy and Acting Comptroller presented the following report and offered the following resolution relative to a lease of premises at Nos. 110-112 West 40th street, Borough of Manhattan, for use of the Mayor's Bureau of Weights and Measures (Snow Division):

November 17, 1913.

To the Honorable the Commissioners of the Sinking Fund:

Gentlemen—The Commissioner of the Mayor's Bureau of Weights and Measures in a communication to this Department under date of November 15, 1913, requests that a lease be secured of premises, Room 603, containing 800 square feet, on the sixth floor of the World Tower Building, Nos. 110-112 West 40th street, Borough of Manhattan, for the use of the Snow Division, for work in connection with the snow removal contract, for a period of five and one-half months from November 15, 1913, to May 1, 1914, at a rental of \$70 a month, payable monthly. He states that these premises are absolutely satisfactory for the purpose, especially as the building is open at all hours, including Sundays, and gives night elevator service.

The location is satisfactory, being close to the subway, the 6th avenue elevated and several surface lines of cars. The rent of \$70 a month is at the rate of \$1.05 a square foot, which is the lowest that could be found for suitable accommodations anywhere in the neighborhood on a short lease. The lessor supplies heat, light, janitor service and day and night elevator service.

Deeming the rent reasonable and just, I respectfully recommend that the Commissioners of the Sinking Fund adopt a resolution authorizing a lease of Room 603, containing 800 square feet, on the sixth floor in the World Tower Building, Nos. 110-112 West 40th street, Borough of Manhattan, for use of the Snow Division of the Mayor's Bureau of Weights and Measures, for a term of five and one-half months from November 15, 1913, to May 1, 1914, at a rental of \$70 a month, payable monthly; the lessor to furnish heat, light and janitor service, and day and night elevator service. Lessor, Edward W. Browning, No. 110 West 40th street; agents, Frederick Fox & Co., No. 793 Broadway, Borough of Manhattan. Respectfully,

DOUGLAS MATHEWSON, Deputy and Acting Comptroller.

Resolved, That the Corporation Counsel be and is hereby requested to prepare a lease to the City, from Edward W. Browning, of Room 603, containing 800 square feet, on the sixth floor of the World's Tower Building, Nos. 110-112 West 40th street, Borough of Manhattan, for use of the Mayor's Bureau of Weights and Measures (Snow Division), for a term of five and one-half months, from November 15, 1913, to May 1, 1914, at a rental of seventy dollars (\$70) a month, payable monthly; the lessor to furnish heat, light and janitor service and day and night elevator service; and the Commissioners of the Sinking Fund deeming the said rent fair and reasonable and that it would be for the interests of the City that such lease be made, the Comptroller be and is hereby authorized and directed to execute the same when prepared and approved by the Corporation Counsel, as provided by sections 149 and 217 of the Greater New York Charter.

The report was accepted, and the resolution adopted, all the members present voting in the affirmative.

The Deputy and Acting Comptroller presented the following report and offered the following resolutions relative to the assigning of space in the new Bronx Court House for use of the District Attorney, County Clerk, County Judge, Supreme Court and Surrogate:

November 19, 1913.

To the Honorable the Commissioners of the Sinking Fund:

Gentlemen—At a meeting of your Board held November 5, 1913, a resolution was adopted designating certain space in the building known as the Bronx Court House, located at 161st street and 3d avenue, Borough of The Bronx, for the use of the Sheriff, County Judge, District Attorney, Surrogate, County Clerk, Supreme Court and Register, from January 1, 1914, as shown on plans in the Division of Real Estate of this Department.

Since the adoption of this resolution, it has been clearly demonstrated that the designation of the space as submitted in the report of the Comptroller at the meeting held November 5, 1913, will not accommodate all the various offices mentioned in that report, and as a result of a public hearing held at the direction of the Comptroller, at which conference there appeared all the newly elected Bronx County officials, representatives of various civic organizations, as well as two of the Justices of the Supreme Court, I have come to the conclusion that it would be wise to secure quarters in other buildings for housing the Register and Sheriff.

Under this plan, the Bronx Court House will be sufficient to properly take care of the County Judge, Surrogate, Supreme Court, County Clerk and District Attorney.

I therefore respectfully recommend that the resolution adopted by your Board on November 5, 1913, be rescinded, and that your Board adopt a resolution designating the following space in the building known as the Bronx Court House, located at 161st street and 3d avenue, Borough of The Bronx, for use of the departments mentioned below, from January 1, 1914:

Floor.	Department.	Number of Square Feet.
Ground.....	District Attorney	1,438
Ground.....	County Clerk	722
First.....	County Judge	4,008
First.....	District Attorney	1,438
Second.....	Supreme Court	3,730
Second.....	District Attorney	2,141
Mezzanine..	Supreme Court	324
Third.....	Surrogate	3,837
Third.....	County Clerk	2,141

—as shown on plans on file in the Division of Real Estate of the Department of Finance. Respectfully,

DOUGLAS MATHEWSON, Deputy and Acting Comptroller.

Resolved, That the resolution adopted by this Board at meeting held November 5, 1913, designating certain space in the building known as The Bronx Court House, located at 161st street and 3d avenue, Borough of The Bronx, for use of the Sheriff, County Judge, District Attorney, Surrogate, County Clerk, Supreme Court and Register, from January 1, 1914, as shown on plans in the Division of Real Estate of the Department of Finance, be and the same is hereby rescinded.

Resolved, That pursuant to the provisions of Chapter 548 of the Laws of 1912, the Commissioners of the Sinking Fund hereby designate the following space in the building known as The Bronx Court House, located at 161st street and 3d avenue, Borough of The Bronx, for use of the officials hereinafter mentioned, from January 1, 1914:

Floor.	Department.	Number of Square Feet.
Ground.....	District Attorney	1,438
Ground.....	County Clerk	722
First.....	County Judge	4,008
First.....	District Attorney	1,438
Second.....	Supreme Court	3,730
Second.....	District Attorney	2,141
Mezzanine..	Supreme Court	324
Third.....	Surrogate	3,837
Third.....	County Clerk	2,141

—as shown on plans on file in the Division of Real Estate of the Department of Finance.

The report was accepted, and the resolutions severally adopted, all the members present voting in the affirmative.

The Deputy and Acting Comptroller presented the following report and offered the following resolution relative to the resolution authorizing a lease of space in the Bergen Building, corner of Arthur and Tremont avenues, Borough of The Bronx, for use of the Court of Special Sessions and authorizing leases of space in the same building for use of the Registrar, and Sheriff of Bronx County:

November 19, 1913.

To the Honorable the Commissioners of the Sinking Fund:

Gentlemen—At a meeting of your Board, held November 5, 1913, a resolution was adopted authorizing a lease of 5,500 square feet of space on the top floor of the Bergen Building, located on the southeasterly corner of Tremont and Arthur avenues, Borough of The Bronx, for use of the Court of Special Sessions, for a period from January 1, 1914, to July 1, 1917, at an annual rental of \$4,125, payable quarterly.

Inasmuch as it is impossible to provide offices for the newly elected Register and Sheriff of the County of Bronx in the building known as the Bronx Court House, located at 161st street and 3d avenue, Borough of The Bronx, and as all of the county offices should be located in a fireproof building I am of the opinion that the resolution above mentioned authorizing a lease of premises in the Bergen Building for the Court of Special Sessions should be rescinded, and a resolution adopted assigning such space for the Register. In the meanwhile, the Comptroller is endeavoring to make an arrangement so that the Court of Special Sessions may be provided for in the Borough of The Bronx, before January 1, 1914.

Although the Register maintains he will need at least 7,000 square feet of office space, he is willing to accept the 5,500 square feet above mentioned for the present.

It will also be necessary to provide sufficient space for the Sheriff in this building. There is available for this purpose on the southerly side of the ground floor of the Bergen Building, two stores containing 2,150 square feet of space which may be rented for the sum of \$1,612.50 a year, or at the rate of 75 cents per square foot. I am of the opinion this will provide the necessary space for his requirements.

I therefore respectfully recommend that the resolution adopted by your Board on November 5, 1913, authorizing a lease of 5,500 square feet of space on the top floor of the Bergen Building, at the southeasterly corner of Arthur and Tremont avenues, Borough of The Bronx, for use of the Court of Special Sessions be rescinded; and

I further recommend, the rent being reasonable and just, that the Commissioners of the Sinking Fund adopt a resolution authorizing a lease from William C. Bergen of 5,500 square feet of space on the top floor of the Bergen Building, located on the southeasterly corner of Arthur and Tremont avenues, Borough of The Bronx, for the use of the Register of the County of Bronx, for a period from January 1, 1914, to July 1, 1917, at an annual rental of \$4,125, payable quarterly; the lessor to erect the necessary railings and partitions as selected and directed by the Register, and to make inside and outside repairs, pay taxes and water rates and furnish heat, light, elevator and janitor service; all provided, however, that the Bureau of Buildings of the Borough of The Bronx shall certify that the demised premises are suitable and proper for the purposes for which they are leased; and

I further recommend, the rent being reasonable and just, that the Commissioners of the Sinking Fund adopt a resolution authorizing a lease from William C. Alderman Frank L. Dowling, representing the Board of Aldermen, appeared before the Board and protested against any action being taken by the Commissioners of the Sinking Fund assigning space in the City Hall, and submitted the following copy of opinion of the Corporation Counsel as to the powers of the Board of Aldermen and the Commissioners of the Sinking Fund in connection therewith. The Alderman explained that the opinion was presented to the Board of Aldermen at its last meeting, and referred to the Commissioners of the Sinking Fund.

New York, November 19, 1913.

To the Honorable the Sinking Fund Commission:

Gentlemen—Herewith please find copy of an opinion from the Corporation Counsel, which, by direction of the Board of Aldermen, is transmitted for your information. Yours respectfully,

P. J. SCULLY, City Clerk.

City of New York, Law Department, Office of the Corporation Counsel, Hall of Records, November 18, 1913.

Hon. FRANK L. DOWLING, Alderman, 7th District:

Dear Sir—I have carefully considered your two questions, as contained in your letter of the 14th instant; first, whether or not the Board of Aldermen has power by resolution to make assignments of offices to City and County Departments, Boards and Commissions, and, second, whether the authority conferred upon the Board of Aldermen by section 383 of the Charter, to assign offices for use of the Borough Presidents, has been abrogated by any subsequent enactment.

Unless the power to assign offices in a public building to the use of a particular officer or department of the City or County is specifically conferred by some charter or other statutory provision, it is my opinion that the Board of Aldermen may make such assignment.

With respect to the authority of the Board of Aldermen to assign offices for the use of the Borough Presidents under the provisions of section 383 of the Charter, I find that those provisions have not been abrogated, except in so far as the Board of Commissioners of the Sinking Fund are empowered, by section 4 of chapter 670 of the Laws of 1907, to designate what Departments, Boards, Bureaus and offices of The City of New York, in addition to the Department of Bridges, shall occupy any part or portion of the new Municipal Building. Respectfully yours,

LOUIS H. HAHLO, Acting Corporation Counsel.

The following communication was received from the President of the Borough of Manhattan relative to the readjustment of office space in the City Hall and the New Municipal Building:

November 10, 1913.

To the Honorable Sinking Fund Commission of The City of New York:

Sirs—There will be some necessary readjustment of office space in the City Hall and the Municipal Building following the first of January to which I would draw your attention.

The transfer of the offices of the City Clerk to the new Municipal Building has already been determined upon by your Commission. It has also been the understanding that the office of the President of the Board of Aldermen would be returned to the City Hall, and the rented quarters now assigned to him in the Emigrant Bank Building given up on January 1. Several months ago, your Committee suggested to me that the offices of the Borough President be removed to the Municipal Building. It seemed to me, however, that there were many reasons of practical value for retaining these offices in the City Hall, and I still feel strongly that this is preferable. The offices now occupied by the Borough President are, however, used also as meeting rooms for the Board of Estimate Committees, for budget hearings, etc. As my own work as President of the Board of Aldermen will have to do most exclusively with this Committee work and the Board of Aldermen proceedings, I would suggest that I retain these rooms for my own use as President of the Board of Aldermen, and that the offices of the President of the Borough be shifted to the space now occupied by the City Clerk. Some shift in the office of the Chairman of the Finance Committee might also be necessary to carry out this plan. May I ask whether your Committee may be instructed to take these suggestions up, and to consider this necessary readjustment as soon as may be practicable.

The architect of the City Hall restoration, Mr. Grosvenor Atterbury, and Mr. Comfort of your Committee have already gone over them. Mr. Atterbury points out that the rearrangement of the offices now occupied by the City Clerk will, incidentally, enable him to complete the exact restoration of that section of the City Hall. I am, very respectfully yours,

(Signed) GEORGE McANENY, President, Borough of Manhattan.

Which was referred to the Committee on Allotment of Space in the New Municipal Building.

The Deputy and Acting Comptroller brought up the matter of the request of the City Clerk, for the rescinding of the resolution assigning space in the New Municipal Building for the use of his Department.

The Deputy and Acting Comptroller presented the following report and offered the following resolution relative to an application of the Water Commissioners of the Village of Hartsdale for a pipe line privilege:

November 15, 1913.

To the Commissioners of the Sinking Fund:

Gentlemen—The Water Commissioners of the Village of Hartsdale, New York, make application for the privilege to lay a four-inch cast iron pipe across the City's forty-eight inch Bronx pipe line on Central avenue opposite Laurel street between White Plains and Hartsdale.

The Commissioner of Water Supply, Gas and Electricity has notified the Commissioners of the Sinking Fund that he has no objection to the laying of the four-inch water pipe provided the work is done in a satisfactory manner.

The privilege requested is small, hence advise a nominal rental of \$10 per annum.

I therefore recommend the adoption of the attached resolution giving consent to the privilege, and fixing the annual compensation. Respectfully,

DOUGLAS MATHEWSON, Deputy and Acting Comptroller.

Resolved, That the Commissioner of Water Supply, Gas and Electricity be and is hereby authorized to grant to the Water Commissioners of the Village of Hartsdale, New York, the privilege to lay a four-inch cast-iron pipe across the City's forty-eight-inch Bronx pipe line on Central avenue, opposite Laurel street, between White Plains and Hartsdale; that the compensation to be paid the City for such privilege shall be the nominal sum of ten (10) dollars per annum; the privilege to be conditioned that the Water Commissioners of the Village of Hartsdale, New York, their successors or assigns, shall be liable for any and all damages due to laying or maintenance of said water main, the work to be done at the expense of said Water Commissioners, under the jurisdiction and direction of the Commissioner of Water Supply, Gas and Electricity, pursuant to plans and specifications submitted to and approved by the Commissioner of Water Supply, Gas and Electricity, and subject to such conditions as the Commissioner shall prescribe; the permit to contain a stipulation that the Commissioner of Water Supply, Gas and Electricity may revoke such permission or privilege and direct said Water Commissioners of the Village of Hartsdale, their successors or assigns, to remove said water pipe at their expense, at any future time, if found necessary in the interest of the City.

The report was accepted and the resolution adopted, all the members present voting in the affirmative.

The Deputy and Acting Comptroller presented the following report and offered the following resolution relative to an application of the Banzer estate for a pipe line privilege:

De Bragga, to lay and install a 2-inch service main in and through the City's property adjacent to the Ridgewood Reservoir, Borough of Queens, to connect with one of the 36-inch feed mains from the Ridgewood Reservoir.

The distance of the proposed private service pipe from the point of connection to the property line of the Banzer Estate is approximately 800 feet.

The Department having no objection to the installation and maintenance of this private service main, I recommend the adoption of the attached resolution, giving consent thereto and fixing the compensation for such privilege at the nominal rental of \$10 per annum. Respectfully,

DOUGLAS MATHEWSON, Deputy and Acting Comptroller.

Resolved, That the Commissioner of Water Supply, Gas and Electricity be and is hereby authorized to grant to the Banzer Estate permission to lay and install a two-inch service main in and through the City's property adjacent to the Ridgewood Reservoir, Borough of Queens, in order to supply water to said Banzer Estate from one of the thirty-six inch feed mains from the Ridgewood Reservoir; that the compensation to be paid to the City for such privilege shall be the nominal sum of ten dollars (\$10) per annum; the privilege to be on condition that the Banzer Estate, their successors or assigns, shall be liable for any damage due to laying or maintenance of said pipe; the work to be done at the expense of said Banzer Estate under the jurisdiction and direction of the Commissioner of Water Supply, Gas and Electricity and subject to such conditions as the said Commissioner shall prescribe; the privilege to contain a stipulation that the Commissioner of Water Supply, Gas and Electricity may revoke such permission or privilege at any future time if found necessary in the interest of the City.

PUBLIC SERVICE COMMISSION.

Proposals.

INVITATION TO CONTRACTORS.

PART OF THE SEVENTH AVENUE-LEXINGTON AVENUE RAPID TRANSIT RAILROAD.

THE PUBLIC SERVICE COMMISSION FOR THE First District (hereinafter called "the Commission") invites proposals to construct Section No. 2 of Routes 4 and 38, a part of the Seventh Avenue-Lexington Avenue Rapid Transit Railroad.

The points within The City of New York between which the said part is to run and the route or routes to be followed are briefly as follows:

Section No. 2. Beginning at a point under Greenwich st., in the Borough of Manhattan, near the intersection of West Broadway, about seventy (70) feet south of the southerly building line of Vesey st., and extending thence northerly under Greenwich st., West Broadway and Varick st. to a point about one hundred (100) feet south of the southerly building line of Beach st.

Also a branch to this line, beginning at a point under Park place, in the Borough of Manhattan, about one hundred and seventeen (117) feet east of the easterly line of West Broadway and curving thence northwesterly under Park place, private property and West Broadway to a connection with the main line.

The general plan of construction calls for a subsurface railroad having two and four tracks. The details of the construction of the railroad and appurtenances are more particularly indicated on the contract drawings.

Bidders will not be required to provide or lay tracks, ties or ballast, nor to do station finish work.

The work of construction under the contract will include the construction of all necessary sewers and connections along or off the route of the railroad; also the necessary support, maintenance, readjustment and reconstruction of vaults adjacent to buildings, pipes, tubes, conduits, subways or other subsurface structures; the support and care, including underpinning or the maintaining, protecting and securing where necessary of all buildings, monuments, surface and elevated railroads and other surface, subsurface and overhead structures of any kind, etc., affected by or interfered with during the construction of the

work; also the restoration of the sidewalks and roadways.

The method of construction will be by trench excavation under cover, unless otherwise permitted by the Commission, as set forth in the form of contract.

Bidders must examine the form of contract and the specifications, maps and plans; must visit the location of the work and inform themselves of the present conditions along the line thereof and make their own estimates of the facilities and difficulties attending the execution of the proposed work.

A fuller description of the work to be done is set forth, and other requirements, provisions, details and specifications are stated in the printed form of contract and in the contract drawings therein referred to. Printed copies of the form of contract, bond and contractor's proposal may be had on application at the office of the Commission, No. 154 Nassau st., Borough of Manhattan, City of New York. The contract drawings may be inspected at the same office, and copies thereof may be purchased by prospective bidders on payment of five dollars (\$5). The printed form of contract and the contract drawings are to be deemed a part of this invitation.

The City and the Interborough Rapid Transit Company will both be parties to the contract; the Interborough Rapid Transit Company being a party for the purpose of disbursing part of its contribution toward the cost of construction, as provided in the contract dated March 19, 1913, between The City of New York, acting by the Commission, and Interborough Rapid Transit Company for the equipment, maintenance and operation of additional rapid transit railroads. The liability of Interborough Rapid Transit Company under the contract for which bids are now invited will be limited to an amount equal to ninety-five (95) per centum of the aggregate sum arrived at by multiplying the estimated approximate quantities by the Unit Prices as contained in the Schedule of Unit Prices in the contractor's proposal. The contractor is to accept the obligation of the Interborough Rapid Transit Company to make payments to the amount and in the manner provided in the contract and is to agree not to look to the City, except to the extent that the amounts earned under the contract may exceed the amount for which the Interborough Rapid Transit Company is liable.

The Commission is informed by the Department of Docks and Ferries that docks and bulkheads along the East River or along the North River may be available for dumping purposes. Information in regard thereto may be obtained by any intending bidder upon inquiry at the office of the Department of Docks and Ferries, with whom all arrangements must be made with respect to utilizing such docks and bulkheads as may be available.

Partial payments to the Contractor will be made monthly as the work proceeds, as provided in the form of contract.

The Contractor will be required to complete the work as soon as practicable and within a period of thirty-six (36) months from the date of the delivery of the contract.

Sealed bids or proposals will be received at the office of the Commission at No. 154 Nassau street, Borough of Manhattan, City of New York, until the 2d day of December, 1913, at twelve fifteen (12.15) o'clock p. m., at which time, or at a later date to be fixed by the Commission, the proposals will be publicly opened.

Proposals must be in the form prescribed by the Commission, copies of which may be obtained at the office of the Commission.

A statement based upon estimate of the Engineer, of the quantities of the various classes of the work and of the nature and extent as near as practicable of the work required is to be found in the schedule forming a part of the form of contractor's proposal. The quantities given in such schedule are approximate only, being given as a basis for the uniform comparison of bids and no claim is to be made against the City on account of any excess or deficiency, absolute or relative, in the same, except as provided in the specifications and form of contract.

All proposals must, when submitted, be enclosed in a sealed envelope endorsed "Proposal for Constructing Part of Rapid Transit Railroad—Routes Nos. 4 and 38, Section No. 2," and must be delivered to the Commission or its Secretary; and in the presence of the person submitting the proposal, it will be deposited in a sealed box in which all proposals will be deposited. No proposal will be received or deposited unless accompanied by a separate certified check drawn upon a national or state bank or trust company having its principal office in The City of New York satisfactory to the Commission and payable to the order of the Comptroller of The City of New York for the sum of fifteen thousand dollars (\$15,000). Such check must not be enclosed in the envelope containing the proposal.

The unit prices must not be improperly balanced, and any bid which the Commission considers detrimental to the City's interests may be rejected.

No proposal, after it shall have been deposited with the Commission, will be allowed to be withdrawn for any reason whatever.

The award of the contract will be made by the Commission as soon as practicable after the opening of the proposals.

Bidders whose proposals are otherwise satisfactory, in case the sureties or securities named by them are not approved by the Commission, may substitute in their proposals the names of other sureties or securities approved by the Commission, but such substitution must be made within five (5) days after notice of disapproval, unless such period is extended by the Commission.

A bidder whose proposal shall be accepted shall, in person or by duly authorized representative, attend at the said office of the Commission within ten days after the delivery of a notice by the Commission that his proposal is accepted and that the contract is consented to by the Board of Estimate and Apportionment, and such bidder shall then deliver a contract and its provisions in respect of the bond or deposit are complied with.

At the time of the delivery of the contract, the Contractor will be required to furnish security to the City by giving a bond for seventy-five thousand dollars (\$75,000). At the option of the successful bidder, cash or approved securities may be deposited instead of giving a bond. If securities are deposited in place of a bond under this contract, they must be of the character of securities in which savings banks may invest their funds and must be approved by the Commission.

The Contractor's bond must be in the form annexed to the form of contract.

In addition and as further security, fifteen (15) per centum of the amounts certified from time to time to be due to the Contractor will be deducted until the amounts so deducted and retained shall equal ten (10) per centum of the sum of the amounts resulting from the product of the estimated approximate quantities and the unit prices as contained in the schedule of unit prices in the contractor's proposal. Thereafter there shall be so deducted and retained for such purpose ten (10) per centum of the amounts certified from time to time to be due to the Contractor. The Contractor may from time to time withdraw portions of the amount so retained upon depositing in lieu thereof corporate stock of The City of New

York equal in market value to the amount so withdrawn.

In case of failure or neglect to execute and deliver the contract or to execute and deliver the required bond or to make the required deposit, such bidder will, at the option of the Commission, be deemed to have made the contract or to have abandoned the contract.

In the latter case, the Commission will give notice thereof to such defaulting bidder, and the Commission may thereupon proceed to make another contract with such, if any, of the original bidders, as, in the opinion of the Commission, it will be to the best interests of the City to contract with, or may by new advertisement invite further proposals. The defaulting bidder shall thereupon be liable to the City for all loss and damage by it sustained, including the excess, if any, of the amount it shall pay any other contractor over the amount of the bid of such defaulting bidder.

If the Commission shall give notice to any bidder that his or its proposal is accepted and that the contract is consented to by the Board of Estimate and Apportionment and if the bidder shall fail within ten days thereafter or within such further period, if any, as may be prescribed by the Commission, to execute and deliver the contract and to execute and deliver the bond with sureties, or to make the required deposit, then the invitation to contractors and proposal accepted as aforesaid shall be a contract binding the bidder to pay to the City the damage by it sustained by reason of such failure, and in such case the bidder shall, by the terms of the proposal, absolutely assign to the City the ownership of the check accompanying his or its proposal as a payment on account of such damages.

All such deposits made by bidders whose proposals shall not be accepted by the Commission will be returned to the person or persons making the same within five days after the contract shall be executed and delivered. The deposit of the successful bidder will be returned when the contract is executed and its provisions in respect of the bond or deposit are complied with.

The right to reject any and all bids is reserved.

PART OF THE SEVENTH AVENUE-LEXINGTON AVENUE RAPID TRANSIT RAILROAD.

The Public Service Commission for the First District (hereinafter called "the Commission") invites proposals to construct Section 1 of Route 16, a part of the Seventh Avenue-Lexington Avenue Rapid Transit Railroad.

The points within The City of New York between which the said part is to run and the route or routes to be followed are briefly as follows:

Section 1. Beginning at a point in property owned by the City on the easterly side of River avenue, in the Borough of The Bronx, about one hundred and twenty (120) feet south of the southerly building line of East 157th street and extending thence northerly along and over private property, River avenue and Jerome avenue to a point about forty-five (45) feet north of the southerly building line of East 182d street.

The general plan of construction calls for an elevated railroad. The details of the construction of the railroad and appurtenances are more particularly indicated on the contract drawings.

Bidders will not be required to provide or lay any tracks or ties, nor to do station finish work.

The work of construction under the contract will include the construction of all necessary sewers and connections, along or off the route of the railroad; also the necessary support, maintenance, readjustment and reconstruction of vaults adjacent to buildings, pipes, tubes, conduits, subways or other subsurface structures; the support and care, including underpinning or the maintaining, protecting and securing where necessary of all buildings, monuments, surface railroads and other surface, subsurface and overhead structures of any kind, etc., affected by or interfered with during the construction of the work; also the restoration of the sidewalks and roadways.

Bidders must examine the form of contract and specifications, maps and plans; must visit the location of the work and inform themselves of the present conditions along the line thereof and make their own estimates of the facilities and difficulties attending the execution of the proposed work.

A fuller description of the work to be done is set forth, and other requirements, provisions, details and specifications are stated, in the printed form of contract and in the contract drawings therein referred to. Printed copies of the form of contract, bond and contractor's proposal may be had on application at the office of the Commission, No. 154 Nassau street, Borough of Manhattan, City of New York. The contract drawings may be inspected at the same office, and copies thereof may be purchased by prospective bidders on payment of five dollars (\$5). The printed form of contract and the contract drawings are to be deemed a part of this invitation.

The City of New York (hereinafter called the "City") and the Interborough Rapid Transit Company will both be parties to the contract; the Interborough Rapid Transit Company being a party for the purpose of disbursing part of its contribution toward the cost of construction as provided in the contract dated March 19, 1913, between The City of New York, acting by the Commission, and Interborough Rapid Transit Company for the equipment, maintenance and operation of additional rapid transit railroads. The liability of Interborough Rapid Transit Company under the contract for which bids are now invited will be limited to an amount equal to ninety-five per centum (95%) of the aggregate sum arrived at by multiplying the estimated approximate quantities by the UNIT PRICES as contained in the SCHEDULE OF UNIT PRICES in the contractor's proposal. The contractor is to accept the obligation of the Interborough Rapid Transit Company to make payments to the amount and in the manner provided in the contract and is to agree not to look to the City except to the extent that the amounts earned under the contract may exceed the amount for which the Interborough Rapid Transit Company is liable.

Partial payments to the contractor will be made monthly as the work proceeds as provided in the form of contract.

The contractor will be required to complete the work as soon as practicable and within a period of eighteen (18) months from the date of the delivery of the contract.

Sealed bids or proposals will be received at the office of the Commission at No. 154 Nassau street, Borough of Manhattan, City of New York, until the 25th day of November, 1913, at twelve fifteen (12.15) o'clock p. m., at which time, or at a later date to be set by the Commission, the proposals will be publicly opened.

Proposals must be in the form prescribed by the Commission, copies of which may be obtained at the office of the Commission.

A statement based upon estimate of the Engineer, of the quantities of the various classes of the work and of the nature and extent as near as practicable of the work required is to be found in the schedule forming a part of the contractor's

proposal. The quantities given in such schedule are approximate only, being given as a basis for the uniform comparison of bids and no claim is to be made against the City on account of any excess or deficiency, absolute or relative, in the same, except as provided in the specifications and form of contract.

All proposals must, when submitted, be enclosed in a sealed envelope endorsed "Proposal for Constructing Part of Rapid Transit Railroad—Route No. 16, Section No. 1," and must be delivered to the Commission or its Secretary; and in the presence of the person submitting the proposal, it will be deposited in a sealed box in which all proposals will be deposited. No proposal will be received or deposited unless accompanied by a separate certified check drawn upon a national or state bank or trust company having its principal office in The City of New York, satisfactory to the Commission and payable to the order of the Comptroller of The City of New York for the sum of fifteen thousand (\$15,000) dollars. Such check must not be enclosed in the envelope containing the proposal.

The unit prices must not be improperly balanced, and any bid which the Commission considers detrimental to the City's interests may be rejected.

No proposal, after it shall have been deposited with the Commission, will be allowed to be withdrawn for any reason whatever.

The award of the contract will be made by the Commission as soon as practicable after the opening of the proposals.

Bidders whose proposals are otherwise satisfactory, in case the sureties or securities named by them are not approved by the Commission, may substitute in their proposals the names of other sureties or securities approved by the Commission, but such substitution must be made within five (5) days after notice of disapproval, unless such period is extended by the Commission.

A bidder whose proposal shall be accepted shall, in person or by duly authorized representative, attend at the said office of the Commission within ten (10) days after the delivery of a notice by the Commission that his proposal is accepted and that the contract is consented to by the Board of Estimate and Apportionment, and such bidder shall then deliver a contract in the form referred to, duly executed and with its execution duly proved.

At the time of the delivery of the contract, the contractor will be required to furnish security to the City by giving a bond for one hundred thousand (\$100,000) dollars. At the option of the successful bidder cash or approved securities may be deposited instead of giving a bond. If securities are deposited in place of a bond under the contract, they must be of the character of securities in which savings banks may invest their funds and must be approved by the Commission.

The contractor's bond must be in the form annexed to the form of contract.

In addition and as further security fifteen (15) per centum of the amounts certified from time to time to be due to the contractor will be deducted until the amounts so deducted and retained shall equal ten (10) per centum of the sum of the amounts resulting from the product of the estimated approximate quantities and the Unit Prices as contained in the schedule of unit prices in the contractor's proposal. Thereafter there shall be so deducted and retained for such purpose ten (10) per centum of the amounts certified from time to time to be due to the contractor. The contractor may from time to time withdraw portions of the amounts so retained upon depositing in lieu thereof corporate stock of The City of New York equal in market value to the amount so withdrawn.

In case of failure or neglect to execute and deliver the contract or to execute and deliver the required bond or to make the required deposit, such bidder will, at the option of the Commission, be deemed to have made the contract or to have abandoned the contract. In the latter case, the Commission will give notice thereof to such defaulting bidder, and the Commission may thereupon proceed to make another contract with such, if any, of the original bidders as, in the opinion of the Commission, it will be to the best interests of the City to contract with, or may by new advertisement invite further proposals. The defaulting bidder shall thereupon be liable to the City for all loss and damage by it sustained, including the excess, if any, of the amount it shall pay any other contractor over the amount of the bid of such defaulting bidder.

If the Commission shall give notice to any bidder that his or its proposal is accepted and that the contract is consented to by the Board of Estimate and Apportionment, and if the bidder shall fail within ten (10) days thereafter or within such further period, if any, as may be prescribed by the Commission, to execute and deliver the contract and to execute and deliver the bond with sureties, or to make the required deposit, then the invitation to contractors and proposal accepted as aforesaid shall be a contract binding the bidder to pay to the City the damage by it sustained by reason of such failure, and in such case the bidder shall, by the terms of the proposal, absolutely assign to the City the ownership of the check accompanying his or its proposal as a payment on account of such damages.

All such deposits made by bidders whose proposals shall not be accepted by the Commission will be returned to the person or persons making the same within five (5) days after the contract shall be executed and delivered. The deposit of the successful bidder will be returned when the contract is executed and its provisions in respect of the bond or deposit are complied with.

The right to reject any and all bids is reserved.

PART OF THE WHITE PLAINS ROAD, RAPID TRANSIT RAILROAD.

The Public Service Commission for the First District (hereinafter called "the Commission") invites proposals to construct Section No. 2 of Route 18, a part of the Seventh Avenue-Lexington Avenue Rapid Transit Railroad.

The points within The City of New York between which the said part is to run and the route or routes to be followed are briefly as follows:

The general plan of construction calls for an elevated railroad. The details of the construction of the railroad and appurtenances are more particularly indicated on the contract drawings.

Bidders will not be required to provide or lay any tracks or ties, nor to do station finish work.

The work of construction under the contract will include the construction of all necessary sewers and connections, along or off the route of

Bidders must examine the form of contract and the specifications, maps and plans; must visit the location of the work and inform themselves of the present conditions along the line thereof and make their own estimates of the facilities and difficulties attending the execution of the proposed work.

A fuller description of the work to be done is set forth, and other requirements, provisions, details and specifications are stated, in the printed form of contract and in the contract drawings therein referred to. Printed copies of the form of contract, bond and contractor's proposal may be had on application at the office of the Commission, No. 154 Nassau street, Borough of Manhattan, City of New York. The contract drawings may be inspected at the same office, and copies thereof may be purchased by prospective bidders on payment of five dollars (\$5). The printed form of contract and the contract drawings are to be deemed a part of this invitation.

Proposals must be in the form prescribed by the Commission, copies of which may be obtained at the office of the Commission.

A statement based upon estimate of the Engineer, of the quantities of the various classes of the work and of the nature and extent as near as practicable of the work required is to be found in the schedule forming a part of the form of contractor's proposal. Such check must not be enclosed in the envelope containing the proposal.

The Unit Prices must not be improperly balanced, and any bid which the Commission considers detrimental to the City's interests may be rejected.

No proposal, after it shall have been deposited with the Commission, will be allowed to be withdrawn for any reason whatever.

The award of the contract will be made by the Commission as soon as practicable after the opening of the proposals.

Bidders whose proposals are otherwise satisfactory, in case the sureties or securities named by them are not approved by the Commission, may substitute in their proposals the names of other sureties or securities approved by the Commission, but such substitution must be made within five (5) days after notice of disapproval, unless such period is extended by the Commission.

At the time of the delivery of the contract, the contractor will be required to furnish security to the City by giving a bond for one hundred thousand (\$100,000) dollars. At the option of the successful bidder cash or approved securities may be deposited instead of giving a bond. If securities are deposited in place of a bond under the contract, they must be of the character of securities in which savings banks may invest their funds and must be approved by the Commission.

The contractor's bond must be in the form annexed to the form of contract.

Thereafter there shall be so deducted and retained for such purpose ten (10) per centum of the amounts certified from time to time to be due to the contractor. The contractor may from time to time withdraw portions of the amounts so retained upon depositing in lieu thereof corporate stock of the City of New York equal in market value to the amount so withdrawn.

In case of failure or neglect to execute and deliver the contract or to execute and de-

liver the required bond or to make the required deposit, such bidder will, at the option of the Commission, be deemed either to have made the contract or to have abandoned the contract. In the latter case, the Commission will give notice thereof to such defaulting bidder, and the Commission may thereupon proceed to make another contract with such, if any, of the original bidders, as, in the opinion of the Commission, it will be to the best interests of the City to contract with, or may by new advertisement invite further proposals. The defaulting bidder shall thereupon be liable to the City for all loss and damage by it sustained, including the excess, if any, of the amount it shall pay any other contractor over the amount of the bid of such defaulting bidder.

If the Commission shall give notice to any bidder that his or its proposal is accepted and that the contract is consented to by the Board of Estimate and Apportionment, and if the bidder shall fail within ten (10) days thereafter or within such further period, if any, as may be prescribed by the Commission, to execute and deliver the contract and to execute and deliver the bond with sureties, or to make the required deposit, then the Invitation to Contractors and proposal accepted as aforesaid shall be a contract binding the bidder to pay to the City the damage by it sustained by reason of such failure, and in such case the bidder shall, by the terms of the proposal, absolutely assign to the City the ownership of the check accompanying his or its proposal as a payment on account of such damages.

All such deposits made by bidders whose proposals shall not be accepted by the Commission will be returned to the person or persons making the same within five (5) days after the contract shall be executed and delivered. The deposit of the successful bidder will be returned when the contract is executed and its provisions in respect of the bond or deposit are complied with.

The right to reject any and all bids is reserved.

PUBLIC SERVICE COMMISSION FOR THE FIRST DISTRICT, By EDWARD E. McCALL, Chairman.

INVITATION TO CONTRACTORS.

PART OF THE SEVENTH AVENUE-LEXINGTON AVENUE RAPID TRANSIT RAILROAD.

Part of Route No. 19 and 22.
The Public Service Commission for the First District (hereinafter called "the Commission") invites proposals to construct Section No. 1-A of Route 19 and 22, a part of the Seventh Avenue-Lexington Avenue Rapid Transit Railroad.

The points within The City of New York between which the said part is to run and the route or routes to be followed are briefly as follows: Section 1-A. Beginning at a point under Southern boulevard in the Borough of The Bronx about two hundred and seventy (270) feet north of the northeast corner of East 147th street and extending thence northerly under Southern boulevard, Hunts Point road, the public park, Dongan street and Whitlock avenue to a point over Whitlock avenue about one hundred and thirty (130) feet south of the southerly building line of Bancroft street.

The general plan of construction calls for a subsurface and elevated railroad having three tracks. The details of the construction and appurtenances are more particularly indicated on the contract drawings.

Bidders will not be required to provide or lay tracks, ties, or ballast, nor to do station finish work.

The work of construction under the contract will include the construction of all necessary sewers and connections, along or off the route of the railroad; also the necessary support, maintenance, readjustment and reconstruction of vaults adjacent to buildings, pipes, tubes, conduits, subways or other subsurface structures; the support and care, including underpinning or the maintaining, protecting and securing where necessary, of all buildings, monuments, surface railroads and other surface, subsurface and overhead structures of any kind, etc., affected by or interfering with during the construction of the work; also the restoration of the sidewalks and roadways.

The method of construction, unless otherwise permitted by the Commission, will be partly by trench excavation under cover and partly by open trench excavation without cover as set forth in the form of contract.

Bidders must examine the form of contract and specifications, maps and plans; must visit the location of the work and inform themselves of the present conditions along the line thereof and make their own estimates of the facilities and difficulties attending the execution of the proposed work.

A fuller description of the work to be done is set forth, and other requirements, provisions, details and specifications are stated, in the printed form of contract and in the contract drawings therein referred to. Printed copies of the form of contract, bond and contractor's proposal may be had on application at the office of the Commission, No. 154 Nassau street, Borough of Manhattan, City of New York. The contract drawings may be inspected at the same office, and copies thereof may be purchased by prospective bidders on payment of five dollars (\$5). The printed form of contract and the contract drawings are to be deemed a part of this invitation.

The City and the Interborough Rapid Transit Company will both be parties to the contract; the Interborough Rapid Transit Company being a party for the purpose of disbursing part of its contribution toward the cost of construction as provided in the contract dated March 19, 1913, between The City of New York, acting by the Commission, and Interborough Rapid Transit Company for the equipment, maintenance and operation of additional rapid transit railroads. The liability of Interborough Rapid Transit Company under the contract for which bids are now invited will be limited to an amount equal to ninety-five per centum (95%) of the aggregate sum arrived at by multiplying the estimated approximate quantities by the UNIT PRICES as contained in the SCHEDULE OF UNIT PRICES in the contractor's proposal. The contractor is to accept the obligation of the Interborough Rapid Transit Company to make payments to the amount and in the manner provided in the contract and is to agree not to look to the City except to the extent that the amounts earned under the contract may exceed the amount for which the Interborough Rapid Transit Company is liable.

Partial payments to the contractor will be made monthly as the work proceeds as provided in the form of contract.

The contractor will be required to complete the work as soon as practicable and within a period of thirty (30) months from the date of the delivery of the contract.

Sealed bids or proposals will be received at the office of the Commission at No. 154 Nassau street, Borough of Manhattan, City of New York, until the 1st day of December, 1913, at twelve fifteen (12.15) o'clock p. m., at which time, or at a later date to be fixed by the Commission, the proposals will be publicly opened.

Proposals must be in the form prescribed by

the Commission, copies of which may be obtained at the office of the Commission.

A statement based upon estimate of the Engineer, of the quantities of the various classes of the work and of the nature and extent as near as practicable of the work required is to be found in the schedule forming a part of the contractor's proposal. The quantities given in such schedule are approximate only, being given as a basis for the uniform comparison of bids and no claim is to be made against the City on account of any excess or deficiency, absolute or relative, in the same, except as provided in the specifications and form of contract.

All proposals must, when submitted, be enclosed in a sealed envelope endorsed "Proposals for Constructing Part of Rapid Transit Railroad—Route No. 19 and 22, Section No. 1-A," and must be delivered to the Commission or its Secretary; and in the presence of the person submitting the proposal it will be deposited in a sealed box in which all proposals will be deposited. No proposal will be received or deposited unless accompanied by a separate certified check drawn upon a national or state bank or trust company having its principal office in the City of New York, satisfactory to the Commission and payable to the order of the Comptroller of the City of New York for the sum of fifteen thousand (\$15,000) dollars. Such check must not be enclosed in the envelope containing the proposal.

The Unit Prices must not be improperly balanced, and any bid which the Commission considers detrimental to the City's interests may be rejected.

No proposal, after it shall have been deposited with the Commission, will be allowed to be withdrawn for any reason whatever.

The award of the contract will be made by the Commission as soon as practicable after the opening of the proposals.

Bidders whose proposals are otherwise satisfactory, in case the sureties or securities named by them are not approved by the Commission, may substitute in their proposals the names of other sureties or securities approved by the Commission, but such substitution must be made within five (5) days after notice of disapproval, unless such period is extended by the Commission.

A bidder whose proposal shall be accepted shall, in person or by duly authorized representative, attend at the said office of the Commission within ten (10) days after the delivery of a notice by the Commission that his proposal is accepted and that the contract is consented to by the Board of Estimate and Apportionment, and such bidder shall then deliver a contract in the form referred to, duly executed and with its execution duly proved.

At the time of the delivery of the contract, the contractor will be required to furnish security to the City by giving a bond for one hundred and fifty thousand (\$150,000) dollars. At the option of the successful bidder cash or approved securities may be deposited instead of giving a bond. If securities are deposited in place of a bond under the contract, they must be of the character of securities in which savings banks may invest their funds and must be approved by the Commission.

The contractor's bond must be in the form annexed to the form of contract.

In addition and as further security fifteen (15) per centum of the amounts certified from time to time to be due to the contractor will be deducted until the amounts so deducted and retained shall equal ten (10) per centum of the sum of the amounts resulting from the product of the estimated approximate quantities and the Unit Prices as contained in the schedule of unit prices in the contractor's proposal. Thereafter there shall be so deducted and retained for such purpose ten (10) per centum of the amounts certified from time to time to be due to the contractor. The contractor may from time to time withdraw portions of the amounts so retained upon depositing in lieu thereof corporate stock of The City of New York equal in market value to the amount so withdrawn.

In case of failure or neglect to execute and deliver the required bond or to make the required deposit, such bidder will, at the option of the Commission, be deemed either to have made the contract or to have abandoned the contract. In the latter case, the Commission will give notice thereof to such defaulting bidder, and the Commission may thereupon proceed to make another contract with such, if any, of the original bidders as, in the opinion of the Commission, it will be to the best interests of the City to contract with, or may by new advertisement invite further proposals. The defaulting bidder shall thereupon be liable to the City for all loss and damage by it sustained, including the excess, if any, of the amount it shall pay any other contractor over the amount of the bid of such defaulting bidder.

If the Commission shall give notice to any bidder that his or its proposal is accepted and that the contract is consented to by the Board of Estimate and Apportionment, and if the bidder shall fail within ten (10) days thereafter or within such further period, if any, as may be prescribed by the Commission, to execute and deliver the contract and to execute and deliver the bond with sureties, or to make the required deposit, then the Invitation to Contractors and proposal accepted as aforesaid shall be a contract binding the bidder to pay to the City the damage by it sustained by reason of such failure, and in such case the bidder shall, by the terms of the proposal, absolutely assign to the City the ownership of the check accompanying his or its proposal as a payment on account of such damages.

All such deposits made by bidders whose proposals shall not be accepted by the Commission will be returned to the person or persons making the same within five (5) days after the contract shall be executed and delivered. The deposit of the successful bidder will be returned when the contract is executed and its provisions in respect of the bond or deposit are complied with.

The right to reject any and all bids is reserved.

NOTICE TO BIDDERS AT SALES OF OLD BUILDINGS, ETC.

TERMS AND CONDITIONS UNDER WHICH BUILDINGS, ETC., WILL BE SOLD FOR REMOVAL FROM CITY PROPERTY.

THE BUILDINGS AND APPURTENANCES thereto will be sold to the highest bidder, who must pay cash or certified check, drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of \$50, the sum of \$50 shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstance of vacating the structures of their tenants will permit.

All the material of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations and the sidewalks and curb in front of said buildings, extending within the described area shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street, and the opening of the main sewer

in street shall be properly closed in compliance with the directions of the Bureau of Sewers in the Borough in which the buildings are situated, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the buildings.

Failure to remove said buildings, appurtenances, or any part thereof, within thirty days from the day of possession will work forfeiture of ownership of such buildings, appurtenances, or portion as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed, and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the day of possession, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless, The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beams, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs and adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the contractor.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids; and it is further

Resolved, That, while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.
