NOTICE

On Wednesday, July 31, 2019, at 10:00 A.M., in the Concourse Level, at 120 Broadway, a public hearing is being held by the City Planning Commission, to receive comments related to a Draft Environmental Impact Statement (DEIS), concerning an application by New York City Department of Parks and Recreation (NYC Parks), as Lead Agency under SEQRA/CEQR, together with New York City Office of Management and Budget (OMB), as Lead Agency under the National Environmental Policy Act (NEPA), for approval of discretionary actions including a zoning text amendment and acquisition of property, to implement a reliable coastal flood protection system and to improve open spaces and enhance access to the waterfront in Manhattan Community Districts 3 and 6.

The proposed project area begins at Montgomery Street to the south and extends north to East 25th Street and is composed of two sub-areas: Project Area One and Project Area Two. Project Area One extends from Montgomery Street to the north end of John V. Lindsay East River Park (East River Park) at about East 13th Street. Project Area One is approximately 61 acres and consists primarily of East River Park, the Franklin Delano Roosevelt East River Drive (the FDR Drive) right-of-way, a portion of Pier 42, Corlears Hook Park. Project Area Two is approximately 21 acres and extends north and east from Project Area One, from East 13th Street to East 25th Street. In addition to the FDR Drive right-of-way, Project Area Two includes the Consolidated Edison Company of New York (Con Edison) East 13th Street Substation and the East River Generating Station, Murphy Brothers Playground, Stuyvesant Cove Park, Asser Levy Recreational Center and Playground, and several in-street segments. The DEIS analyzes several project alternatives. Alternative 4, the Flood Protection System with a Raised East River Park Alternative (Preferred Alternative) best meets the principal objectives for the project and therefore was selected as the Preferred Alternative. The Preferred Alternative would raise the majority of East River Park and would limit the length of exposed wall between the community and the waterfront in Project Area One to provide for enhanced neighborhood connectivity. In addition, three

pedestrian bridges would be reconstructed and two embayments would be relocated to improve access and enhance the park user experience. Furthermore, Stuyvesant Cove Park, Murphy Brothers Playground, and Asser Levy Playground would be reconstructed and improved. The Preferred Alternative includes the construction of a shared-use flyover bridge linking East River Park and Captain Patrick J. Brown Walk. This bridge will address a long-standing circulation deficiency along the East River Greenway and would substantially improve the City's greenway network. The selection of this alternative allows for the shortest construction duration and park closure, earlier deployment of the flood protection system (expected to be completed mid-2023), and reduced construction disruption along the FDR Drive. The proposed project triggers three land use actions, subject to the City's Uniform Land Use Review Procedure (ULURP), for the acquisition of real property by the City in the form of easements, a zoning text amendment to exempt a segment of the proposed project from the requirements of the City's waterfront zoning regulations, and a future City Map change. The City Map change action would be needed for the reconstruction of the pedestrian bridges and would be carried through at a later date once final design and implementation are completed to record grade and treatment line adjustments, if needed.

Written comments on the DEIS are requested and will be received and considered by NYC Parks and OMB, the Lead Agencies, until Thursday, August 15, 2019, at 5:00 P.M.

This hearing is being held, pursuant to the National Environmental Policy Act (NEPA), State Environmental Quality Review Act (SEQRA), and City Environmental Quality Review (CEQR), CEQR No. 15DPR013M.

"The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed to the City's prestige as a global destination. The contracting opportunities for construction/construction services and construction-related services that appear in the individual agency listings below reflect that commitment to excellence."

HHS ACCELERATOR

To respond to human services Requests for Proposals (RFPs), in accordance with Section 3-16 of the Procurement Policy Board Rules of the City of New York ("PPB Rules"), vendors must first complete and submit an electronic prequalification application using the City's Health and Human Services (HHS) Accelerator System. The HHS Accelerator System is a web-based system maintained by the City of New York for use by its human services Agencies to manage procurement. The process removes redundancy by capturing information about boards, filings, policies, and general service experience centrally. As a result, specific proposals for funding are more focused on program design, scope, and budget.

Important information about the new method

- Prequalification applications are required every three years.
- Documents related to annual corporate filings must be submitted on an annual basis to remain eligible to compete.
- Prequalification applications will be reviewed to validate compliance with corporate filings, organizational capacity, and relevant service experience.
- Approved organizations will be eligible to compete and would submit electronic proposals through the system.

The Client and Community Service Catalog, which lists all Prequalification service categories and the NYC Procurement Roadmap, which lists all RFPs to be managed by HHS Accelerator may be viewed at <http://www.nyc.gov/html/hhsaccelerator/html/roadmap/roadmap.shtml>. All current and prospective vendors should frequently review information listed on roadmap to take full advantage of upcoming opportunities for funding.

Participating NYC Agencies

HHS Accelerator, led by the Office of the Mayor, is governed by an Executive Steering Committee of Agency Heads who represent the following NYC Agencies:

- Administration for Children's Services (ACS)
- Department for the Aging (DFTA)
- Department of Consumer Affairs (DCA)
- Department of Corrections (DOC)
- Department of Health and Mental Hygiene (DOHMH)
- Department of Homeless Services (DHS)
- Department of Probation (DOP)
- Department of Small Business Services (SBS)

The rule would require that information pertaining to the site safety training requirements and applicable deadlines be available to workers and supervisors within construction sites.

The Department of Buildings' authority for these rules is found in Sections 643 and 1043 of the New York City Charter and Section 3301.9.5 of the New York City Building Code.

workers and display and distribution of workers' rights information. BIC published a Notice of Opportunity to Comment on the proposed rule in the *City Record* on June 7, 2019. On July 8, 2019, BIC held a public hearing on the proposed rule.

Statement of Basis and Purpose of Rule

Under Section 2101 of the New York City Charter, BIC is authorized to regulate the trade waste industry. Administrative Code Sections 16-503¹ and 16-504(j)² give BIC the authority to regulate labor unions and labor organizations representing or seeking to represent employees directly involved in the collection, removal, transportation or disposal of trade waste, to establish standards for the registration of such labor unions and organizations, and to establish standards for suspending or disqualifying officers of such unions or organizations. Under Section 16-504(i), BIC is authorized to promulgate rules it deems necessary and appropriate to effectively regulate labor unions or labor organizations representing or seeking to represent employees directly involved in the collection, removal, transportation or disposal of trade waste.

These rule amendments are designed to facilitate the registration of labor unions or labor organizations and for suspending or disqualifying officers of such unions or organizations. Specifically, the new amendments provide for application requirements, general prohibitions, requirements regarding the disclosure of material changes to the application and other pertinent information, and terms and fees.

Pursuant to Local Law 56 for the year 2019, these rule amendments also provide for requirements for trade waste licensees and registrants to disseminate workers' rights information to employees who operate vehicles or handle waste.

BIC's authority for these rules is found in section 16-504 of the Administrative Code and sections 1043(a) and 2101(b) of the New York City Charter.

New material is underlined; deleted text is in [] brackets.

Subchapter H: Workers' Rights Information
§ 8-01 Display and Distribution of Workers' Rights Information

(a) Each licensee or registrant shall post and keep posted a notice, to be provided by the Commission, informing employees engaged in operating vehicles or handling trade waste information regarding the maximum number of hours such employees are permitted to work in a twenty-four hour period; the minimum wage such employees must be paid; any required worker safety trainings for such employees; information regarding what safety equipment must be provided by licensees or registrants; a description of how to contact the Commission to log a complaint; and a list of additional government agencies that accept complaints about violations of workers' rights, including, but not limited to the New York state attorney general, the New York state department of labor, and the United States department of labor, and contact information for such agencies.

(b) Licensees and registrants shall post such notice to employees in each office, garage or lot in a conspicuous place, or in a conspicuous place where notices to employees are customarily posted. Each licensee or registrant shall take steps to ensure that such notices are not altered, defaced, or covered by other material.

(c) Licensees and registrants shall distribute such notice to their employees by mail and email and shall provide such notice to all new employees within 30 days of hire.

§ 6. This rule takes effect immediately, except that section 5 of this rule takes effect December 13, 2019.

Statement of Substantial Need for Earlier Implementation

I hereby find, pursuant to Section 1043(f)(1)(c) of the New York City Charter, that there is a substantial need for the implementation, immediately upon its final publication in the *City Record*, of rules necessary and appropriate to allow the Business Integrity Commission to effectively regulate labor unions or labor organizations representing or seeking to represent employees directly involved in the collection, removal, transportation or disposal of trade waste.

Local Law Number 55 for the Year 2019, which becomes effective 120 days after its enactment into law, authorizes the Business Integrity Commission to regulate labor unions or labor organizations representing or seeking to represent employees directly involved in the collection, removal, transportation or disposal of trade waste. The local law authorizes the Business Integrity Commission to promulgate rules it deems necessary and appropriate to effectively regulate certain labor unions and labor organizations.

These rule amendments provide for application requirements, general prohibitions, requirements regarding the disclosure of material changes to the application and other pertinent information, and terms and fees. Because Local Law Number 55 will become effective on July 16, 2019, and applications for labor unions or organizations, as well as their officers, should be made available on or about that date, the implementation of these amendments upon publication is necessary to ensure that the requirements for registration and disclosure applications will be in effect in a timely manner.
