The President laid before the Board the following communication from the Supervisor of the City Record:

OFFICE OF THE CITY RECORD, NO. 2 CITY HALL,
NEW YORK, October 15, 1890.

To the Honorable the Board of Aldermen:

GENTLEMEN—In obedience to section 189 of the New York City Consolidation Act, I send you herewith a duplicate of the estimate of expenditures to be made under the direction of the Board of City Record in 1891. The estimate was adopted by that Board on the 8th instant, and the original was sent to the Board of Estimate on the 9th instant.

Respectfully yours,

W. J. K. KENNY, Supervisor City Record.

NEW YORK, October 1, 1890.

To the Honorable HUGH J. GRANT, Mayor; WILLIAM H. CLARK, Counsel to the Corporation,
and THOMAS F. GILROY, Commissioner of Public Works:

GENTLEMEN—The request made by the Comptroller to the Mayor, as Chairman of the Board of City Record, for an estimate, in detail, "of the amounts required to pay the expenses of conducting the business" of the Office of the City Record, "in and for the year 1891," was referred to me last month. As you know, I have been busy with work which should have been done years ago, and have, therefore, been unable to prepare such an estimate until now.

In making his estimate for 1889, my predecessor, Supervisor Costigan said, under date of August 22, 1888:

"I respectfully call attention to the condition of the present appropriations for 'Printing, Stationery and Blank Books,' and 'Publication of the CITY RECORD.' Both are insufficient for the necessary demands on them, a condition of things not exceptional this year, but the prevailing rule for many years."

I am happy to be able to refer you to my report of August 18 last, respecting the outstanding bills from 1886 to January 1, 1890, as a proof that the rule above mentioned did not prevail last year, and as a verification of the prediction I made in my report of October 2, 1889, that there would be a surplus of the appropriation for "Printing, Stationery and Blank Books." The surplus is small, but it is better than a continuance of the old "prevailing rule."

The appropriation for "Printing, Stationery and Blank Books" was, in 1886, \$144,500, in 1887, \$151,000, and in 1888, \$160,000, making an annual average of \$151,833. The aggregate of the deficiencies in those years being \$72,000, as shown by my report of August 18, and the average annual deficiency being, apparently, \$24,000, it is evident that the appropriation for each year, to keep the accounts even, should have been \$175,833. For the year 1889 the appropriation was \$200,000, which included \$40,000 for the payment of arrearages, leaving \$160,000 available for the purposes of the year. According to my report of last month we used only \$155,633.60, leaving a surplus of \$4,366.40; but among the bills presented to me as charges against the appropriation for 1890, are several which are properly chargeable against that of 1889. They are small, but as I may find a few more, it seems to me proper to set aside a sum sufficient, without doubt, to meet all that may be discovered. I estimate that sum at \$2,366.40, and so increase the expenditure for 1889 to \$158,000, which shows the surplus for the year to be \$2,000.

The current appropriation for "Printing, Stationery and Blank Books" is \$164,000, including \$9,000 for arrearages. There was \$155,000 available for the purposes of the year. I have no doubt that this sum—although more than \$20,000 less than the sum necessary in each of the years 1886, 1887 and 1888—would have been large enough to leave a surplus, if the Legislature had not put on the appropriation burdens that could not be foreseen. The Weekly Payment Law, the Ballot Reform Law and the law compelling the Health Department to bring suits in judicial districts in which violations of health ordinances are alleged to have occurred, instead of in the district in which is situated the headquarters of that Department, have all been factors of expenditure which could not be anticipated. It must, also, be borne in mind that the special work of paving the streets has made it necessary for me to expend more than twice as much for contract and specification and estimate forms for the Department of Public Works as was ever expended before. The usual entire appropriation for that Department is about \$3,200,000. Of this \$400,000 is the regular appropriation for paving. This year the Department has incurred for paving, under the regular appropriation and the law permitting the expenditure of \$1,000,000 a year additional—and the special work of two years having, by force of circumstances, run together—charges to the amount of about \$2,500,000; and for the many contracts let by it, I have had to supply contract and estimate forms. Thus far they number 400, against 167 contract forms supplied in 1888, and 179 in 1889. The excess in expenditure for contracts alone is \$10,000 over that in 1889. The special estimate forms cost nearly \$4,000 more. Had not Commissioner Gilroy repeatedly put into one contract the work of paving several streets, the expenditure would necessarily have been five times as large, instead of more than twice.

Considering everything, I have thus far supplied \$20,000 worth of printing, etc., not needed in former years. Out of the appropriation of \$155,000 bills to the amount of \$68,000 have already been paid, and I have now bills, for work ordered or contracted for up to September 30, representing \$70,000. There is, therefore, a remainder of \$17,000. The fixed charges against it are as follows: Salaries of Storekeeper, etc., Expressman, and seven Bookbinders, for four months, \$3,600; printing Court Calendars, for four months, \$1,333.33; printing and binding indices to Vital Statistics, for five months, \$2,700. Total, \$7,533.33. Taking out this sum there yet remains \$9,466.67. It seems sufficient to me to supply things absolutely necessary.

Respecting next year there is more to say. The new laws, of which I have spoken, necessitate a further expenditure than that of this year; and, besides, it is incumbent upon you to supply the Sheriff and the new Commissioner of Street Improvements with printing, stationery and blank books, and, I believe, many books to the Register, under the new Block Indexing Law. I do not know, and have no means of ascertaining, the cost of the purchases you will have to make additional to those of the past; but it seems to me that \$15,000 more, or \$170,000 altogether, is not too high a sum at which to fix the appropriation, bearing in mind that the McKinley Bill will increase the cost of paper for letter copying books and of leather and thread for binding. It must be remembered that \$175,000—without considering transfers made to the CITY RECORD appropriation—was the least sum expended prior to 1889.

The appropriation for the "Publication of the CITY RECORD" this year is \$68,000. For 1889 it was \$73,000, including arrearages estimated at \$4,233.42, but which were found to amount to more than \$7,000. All but about \$500 of these arrearages were paid before I entered office, leaving a remainder of only \$66,047.67 for the work of the year. Included in the cost of publishing the CITY RECORD, is that of publishing the lists of registered voters as supplements. I find that this averaged \$9,000 in 1886, 1887 and 1888. In 1889 it was less than \$7,000, having been lowered by a reduction in the cost of compiling the names according to streets and street numbers. To print the CITY RECORD, with the supplementary registry lists, in 1888, cost \$67,471. To be added to this is the cost of printing indices for and binding the quarterly volumes, which was about \$950, making the entire cost \$68,421. The appropriation having been \$66,800, the deficiency for 1888 alone was \$1,621. To print the CITY RECORD and supplementary registry lists in 1889, cost \$65,980.02. The payment of nearly all the old arrearages having reduced the appropriation to \$66,047.67, there was a surplus of \$67.65; but, as the cost of printing the indices for and binding the quarterly volumes was \$953.20, the full sum necessary for the year was \$66,933.22. Had the past arrearages been as estimated when the appropriation was made we would have had a small surplus for 1889. As it is there is a deficit of \$885.55.

I can see no reason why the appropriation for 1890, \$68,000, should not be sufficient. Up to September 1, I spent \$41,394.27. This is \$1,381.52 more than was expended, in the same period of 1889. The extraordinary number of advertisements of contracts to be let by the Department of Public Works this year is one cause of the excess. Should the bills of the last four months of the year be as large, in proportion, as those of the past eight months, the cost for the year would be \$62,091.39. But experience shows that they will not be. The bills of the last four months of 1889 amounted to \$18,552.75. Assuming that the excess of those of the same period of this year will be three and one-half per cent.—the percentage by which those of the past eight months exceed the

bills from January to August, inclusive, in 1889—the result will be \$60,651, leaving \$7,349 to pay for compiling and printing the registry lists, and printing indices for and binding the quarterly volumes. This is \$348.85 less than will be needed, as things now appear, but I am certain that a deficit will not be present at the close of the year, as several costly reports which were not printed until within the last four months of previous years have already been published, and as the number of advertisements of contracts to be let has begun to decrease. I think that the sum of \$68,000 will be sufficient for the "Publication of the City Record" in 1891.

Last year I declined to make an estimate of an appropriation for "Advertising." It seemed to me that this bureau was not the proper place for such an appropriation, but I adopted the sum, \$7,500, which had been regularly fixed upon by the Supervisor of the City Record, and left the matter to be settled later. It is now apparent that that sum has always been ridiculously low, and that the Supervisor had no means to ascertain what was a proper one, inasmuch as his only duty in connection with advertising is to present to the Board of City Record requests for authority to advertise, and inform the departments of the grants of such authority. Opinions to this effect have been given by the Counsel to the Corporation, and the Comptroller has agreed to make a proper estimate for a general appropriation for "Advertising."

Respecting "Salaries and Contingencies," I have no change to propose excepting that the Examiner, John J. McGrath be paid \$1,400 in 1891. He has proved himself a hard working and intelligent assistant, and should be encouraged. The proposed addition to his salary would not increase the appropriation. The sum now set apart for "Contingencies" is \$500, but I think \$300 is ample.

I append the estimates for 1891, compared with those for 1889 and 1890.

Respectfully submitted,

W. J. K. KENNY, Supervisor City Record.

The President laid before the Board the following communication from the Finance Department:

CITY OF NEW YORK—FINANCE DEPARTMENT,
COMPTROLLER'S OFFICE,
October 21, 1890.

To the Honorable the Board of Aldermen:

I have the honor to transmit to your Honorable Body herewith a duplicate copy of the Departmental Estimate of the amount of expenditure required in the Finance Department in the ensuing fiscal year 1891, specifying in detail the objects thereof, and including a statement of each of the salaries of the officers, clerks, employees and subordinates of that Department, pursuant to the provisions contained in section 189 of the New York City Consolidation Act of 1882.

Respectfully submitted,

THEO. W. MYERS, Comptroller.

CITY OF NEW YORK—FINANCE DEPARTMENT,
COMPTROLLER'S OFFICE,
October 13, 1890.

To the Board of Estimate and Apportionment:

As provided by section 189 of the New York City Consolidation Act of 1882, I submit herewith, in writing, the Departmental Estimate of the amount of expenditure required for conducting the public business in the Finance Department of the City of New York for the year 1891, stating in detail the objects and purposes of such expenditure, and including a statement of the salaries of each of the officers, clerks and subordinates employed in the Department, and the compensation of temporary clerks engaged during a portion of each year.

Statements in detail are presented of stocks and bonds of different kinds and classes, which become due and payable in the year 1891, and the redemption of which is provided for as stated, under their several heads and classification, as follows:

1. Statement of stocks and bonds, amounting to \$2,467,600, which, by the laws authorizing their issue, were made payable from taxation at maturity, but which may be provided for by payment from the Sinking Fund for the Redemption of the City Debt, pursuant to the provisions of sections 176 and 177 of the Consolidation Act, without in any way impairing the preferred claims on that fund, as provided by section 175 of said act, thereby rendering it unnecessary to include the amount in the Annual Estimates to be raised by tax in 1891. In the year 1891 there are no stocks and bonds becoming due which have a preferred claim upon the Sinking Fund.

2. Statement of bonds and stocks payable in the year 1891 from the Sinking Fund, as provided by section 192 of the New York City Consolidation Act, amounting to \$1,154,500, which were issued after June 3, 1878, for the redemption of which at maturity installments were raised by tax annually and paid into the Sinking Fund, from which fund they are now payable, under the provisions of chapter 178 of the Laws of 1889.

3. Statement of the estimated amount of installments to be raised in 1891 for the redemption at maturity of stocks to be issued for the supply of water, pursuant to the provisions of Article 8, section 11 of the State Constitution, from a special Sinking Fund formed for the purpose, amounting to \$1,049,434.67.

4. Statement of the bonds and stocks which have been issued since June 3, 1878, and prior to September 1, 1890, and will be issued, as estimated, during the remainder of the year 1890, amounting to \$1,327,283.57. The payment of such bonds and stocks has heretofore been provided for by taxes levied annually in installments of the amount issued, sufficient with the accumulation of interest thereon to redeem them at maturity, as provided by section 192 of the New York City Consolidation Act of 1882; this provision of law, however, was amended by chapter 178 of the Laws of 1889, making all such bonds and stocks redeemable from the income, revenues and accumulations of the Sinking Fund for the Redemption of the City Debt, until other provision therefor may be hereafter made by law.

5. Statement in detail of revenue and other bonds, amounting to \$24,000, payable by special laws from taxation in 1891, to be provided for in the Annual Estimates by the Board of Estimate and Apportionment, and of bonds issued by the towns of Morrisania and West Farms, prior to their annexation to the city in 1874, becoming due in 1891, amounting to \$28,000. Interest becoming due in 1891 on bonds of the towns of Morrisania and West Farms, amounting to \$40,810, is included in the statement of interest on stocks and bonds outstanding, exclusive of the funded debt held by the Sinking Fund.

Statements in detail are also presented showing the amounts of interest becoming due and payable on stocks and bonds in 1891, as follows:

1. Statement of stocks and bonds outstanding September 1, 1890, exclusive of the Funded Debt held by the Sinking Fund as investments, showing interest becoming due thereon in 1891, amounting to \$4,799,233.37.

2. Statement of the estimated amount required to be raised by tax for interest payable in 1891, on stocks and bonds to be issued in 1890, after August 31, 1890, and in 1891, amounting to \$134,250.

3. Statement of interest to be paid on Revenue Bonds to be issued in 1891, in anticipation of the collection of taxes, to meet the current expense of the City Government, amounting to \$190,000. The State taxes payable in 1891, as the quota of the County of New York for the State fiscal year, commencing October 1, 1890, amount to \$3,923,698.92, as shown by a communication from the State Comptroller. The amount required to be raised for the salary and expenses of the State Inspector is \$12,555.10, making a total of \$3,936,254.02, to be included in the Estimate for 1891.

The amount of the quota of State taxes for 1890 was \$5,685,660.41. The Board of Estimate and Apportionment deducted from this amount the sum of \$1,178,607.06, as follows:
Deduct the proportion of the State tax imposed on the City and County of New York for and on account of the several items of appropriation in the State Supply Bill which were vetoed by the Governor, amounting to \$1,808,550.13, which proportion is the sum of..... \$818,767 41
Deduct also that portion of the State tax imposed on the sum of \$119,425,063, added by the State Board of Equalization to the assessed valuation of real estate in the City of New York, which said portion is..... 359,839 65
\$1,178,607 06

The State Board of Equalization has added the sum of \$122,061,343 to the valuation of real estate in the City of New York, and deducted the same amount from some other counties in the State, as shown by the State Equalization Table for 1890.

The Board of Estimate and Apportionment made a reduction on State taxes in the Final Estimate for 1890 of the sum of \$359,839.65, on account of the addition by the Board of Equalization of the sum of \$119,425,063 to the assessed valuation of real estate in the City of New York, on which the State taxes were levied; and a reduction also of the sum of \$818,767.41 for items contained in the State Supply Bill for 1889-90, which were vetoed by the Governor.

Actions have been brought by the State against the City for the amount of these reductions from the State taxes in the appropriation therefor in 1890, amounting to \$1,178,607.06, and the cases are now pending.

Statements are also presented with the Departmental Estimate of the Finance Department of the amount of rents payable in the year 1891, on leases to the City of premises for the use of various Departments and Public Offices, the Civil and Police Courts, Armories and Drill-rooms for the National Guard, together with estimates of miscellaneous expenses chargeable upon the City Treasury, and on account of judgments against the Corporation, and a number of items of necessary expenditure, including the wages of Armories, Janitors, Engineers and Laborers for armories, etc., which are not included in any Departmental Estimate.

Respectfully submitted,
THEO. W. MYERS, Comptroller.

DEPARTMENT OF PUBLIC WORKS,
COMMISSIONER'S OFFICE,
No. 31 CHAMBERS STREET,
NEW YORK, August 14, 1889.

TO OWNERS OF LANDS ORIGINALLY ACQUIRED BY WATER GRANTS.

ATTENTION IS CALLED TO THE RECENT act of the Legislature (chapter 449, Laws of 1889), which provides that whenever any streets or avenues in the city, described in any grant of land under water, from the Mayor, Aldermen and Commonalty, containing covenants requiring the grantees and their successors to pave, repave, keep in repair or maintain such streets, shall be in need of repairs, pavement or repavement, the Common Council may, by ordinance, require the same to be paved, repaved or repaired, and the expense thereof to be assessed on the property benefited; and whenever the owner of a lot so assessed shall have paid the assessment levied for such paving, repaving or repairing, such payment shall release and discharge such owner from any and every covenant and obligation as to paving, repaving and repairing, contained in the water grant under which the premises are held, and no further assessment shall be imposed on such lot for paving, repaving or repairing such street or avenue, unless it shall be petitioned for by a majority of the owners of the property (who shall also be the owners of a majority of the property in frontage) on the line of the proposed improvement.

The act further provides that the owner of any such lot may notify the Commissioner of Public Works, in writing, specifying the ward number and street number, of the lot that he desires, for himself, his heirs and assigns, to be released from the obligation of such covenants, and elects and agrees that said lot shall be thereafter liable to be assessed as above provided, and thereupon the owner of such lot, his heirs and assigns shall thenceforth be relieved from any obligation to pave, repair, uphold or maintain said street, and the lot in respect of which such notice was given shall be liable to assessment accordingly.

The Commissioner of Public Works desires to give the following explanation of the operation of this act: When notice, as above described, is given to the Commissioner of Public Works, the owner of the lot or lots therein described, and his heirs and assigns, are forever released from all obligation under the grant in respect to paving, repaving or repairing the street in front of or adjacent to said lot or lots, except one assessment for such paving, repaving or repairs, as the Common Council may, by ordinance, direct to be made thereafter.

No street or avenue within the limits of such grants can be paved, repaved or repaired until said work is authorized by ordinance of the Common Council, and when the owners of such lots desire their streets to be paved, repaved or repaired, they should state their desire and make their application to the Board of Aldermen and not to the Commissioner of Public Works, who has no authority in the matter until directed by ordinance of the Common Council to proceed with the pavement, repavement or repairs.

THOMAS F. GILROY,
Commissioner of Public Works.

DEPARTMENT OF PUBLIC WORKS,
COMMISSIONER'S OFFICE,
No. 31 CHAMBERS STREET,
NEW YORK, June 2, 1890.

TO THE PEOPLE OF THE CITY OF NEW YORK:

It becomes my duty as Commissioner of Public Works and custodian of the many and immense interests involved in the City's water supply, to briefly present to the people of the City the present condition of the supply, and the extreme necessity for care and economy in the use of the water.

For a number of years past and up to the present time, the old Aqueduct and the Bronx river conduit have delivered in the City all the water which they are capable of carrying, the supply thus remaining stationary when the City has been constantly growing in population, buildings, manufactures and commerce, creating new and additional demands upon the water service. The consequence is that at certain seasons of the year, notably in extreme cold weather, when the habit of wasting water from faucets to prevent freezing in the pipes prevails, and in warm and dry weather, when various methods of waste are in vogue, the daily consumption exceeds the supply which can by any possibility be received through the old Aqueduct and the Bronx river conduit, the excess of consumption being drawn from the

city reservoirs, diminishing the depth of water, and the pressure in the distributing mains. There is no possibility of increasing the water supply received in the City until the new Aqueduct is brought into operation, and in the meantime the only reliance for a fair and equal distribution of water throughout the city is care and economy in its use on the part of the people. Already the depth of water in the reservoirs is being diminished at the rate of one inch per day, and if this should continue for any length of time, the pressure in the distributing mains would be so reduced that it would be impossible to deliver water in thousands of houses located on high ground, and in some other locations even in the basements or cellars.

I, therefore, most earnestly appeal to all citizens, residents and people carrying on business in this city, to be careful and economical in the use of water, in justice to themselves, to the people at large, and especially to those who are so located as to be already suffering inconvenience from insufficient supply of water.

Commissioner of Public Works.

1st. All extra charges for water incurred from and after June 9, 1887, shall be treated, collected and returned in arrears in the same manner as regular rents have heretofore been treated.

5th. Charges for so-called extra water rents of every nature, imposed or incurred prior to June 9, 1887, will be canceled of record on the books of the Department.

(No. 357.)

PROPOSALS FOR ESTIMATES FOR FURNISHING GRANITE STONES FOR BULKHEAD OR RIVER WALL AND GRANITE PAVING BLOCKS FOR REPAIRS TO PAVEMENT.

ESTIMATES FOR FURNISHING GRANITE Stones for Bulkhead or River Wall and for Paving Blocks for Repairs to Pavement will be received by the Board of Commissioners at the head of the Department of Docks, at the office of said Department, on Pier "A," foot of Battery place, North River, in the City of New York, until 12 o'clock M. of

WEDNESDAY, OCTOBER 29, 1890,

at which time and place the estimates will be publicly opened by the head of said Department. The award of the contract, if awarded, will be made as soon as practicable after the opening of the bids.

Any person making an estimate for the work shall furnish the same in a sealed envelope to said Board, at said office, on or before the day and hour above named, which envelope shall be indorsed with the name or names of the person or persons presenting the same, the date of its presentation, and a statement of the work to which it relates.

The bidder to whom the award is made shall give security for the faithful performance of the contract in the manner prescribed and required by ordinance, in the sum of Eight thousand Dollars.

The Engineer's estimate of the work to be done is as follows:

To be furnished, cut in accordance with specifications, 656 pieces of Granite and 15,000 Paving Blocks, consisting of:

Class 1.—264 Headers and 264 Stretchers, containing about 11,000 cubic feet.

Class 2.—128 Coping-stones, containing about 10,240 cubic feet.

Class 3.—15,000 Paving-blocks.

For further particulars, see the drawings referred to in the specifications forming part of the contract.

N. B.—As the above-mentioned quantities, of cubic feet in Classes 1 and 2, though stated with as much accuracy as is possible, in advance, are approximate only, bidders are required to submit their estimates upon the following express conditions, which shall apply to and become a part of every estimate received:

1st. Bidders must satisfy themselves, by personal examination of similar stones now owned by the Department of Docks, and of the plans, and by such other means as they may prefer, as to the accuracy of the foregoing Engineer's estimate, and shall not at any time after the submission of an estimate dispute or complain of the above statement of quantities, nor assert that there was any misunderstanding in regard to the nature or amount of the work to be done.

2d. Bidders will be required to complete the entire work to the satisfaction of the Department of Docks, and in substantial accordance with the specifications of the contract and the plans therein referred to. No extra compensation, beyond the amount payable for the work before mentioned, which shall be actually performed, at the price therefor, per cubic foot, for Classes 1 and 2, and per thousand for Class 3, to be specified by the lowest bidder shall be due or payable for the entire work.

The first delivery of granite under this contract will be made as soon as practicable after the date of the execution of this contract, and will proceed thereafter with reasonable dispatch, and all the work to be done under this contract is to be fully completed on or before the first day of July, 1891, and the amounts in each delivery are to be divided between the several classes, as ordered by the Engineer-in-Chief. The damages to be paid by the contractor for each day that the contract may be unfulfilled after the time fixed for the fulfillment thereof has expired, are, by a clause in the contract, determined, fixed and liquidated at Fifty Dollars per day.

Bidders will state in their estimates the prices per cubic foot for the stones to be furnished in Classes 1 and 2, and the price per thousand in Class 3, in conformity with the approved form of agreement, and the specifications therein set forth, by which prices the bids will be tested. These prices are to cover all expenses of every kind involved in or incidental to the fulfillment of the contract, including any claim that may arise through delay from any cause in the performing of the work thereunder.

Bidders will distinctly write out, both in words and in figures, the amount of their estimates for doing the work.

The person or persons to whom the contract may be awarded will be required to attend at this office, with the sureties offered by him or them, and execute the contract within five days from the date of the service of a notice to that effect, and in case of failure or neglect so to do, he or they will be considered as having abandoned it, and as in default to the Corporation; and the contract will be readvertised and relet, and so on until it be accepted and executed.

Bidders are required to state in their estimates their names and places of residence, the names of all persons interested with them therein; and if no other person be so interested, the estimate shall distinctly state that fact; also, that the estimate is made without any connection with any other person making an estimate for the same work, and that it is in all respects fair and without collusion or fraud; and also, that no member of the Common Council, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof; which estimate must be verified by the oath, in writing, of the party making the estimate, that the several matters stated therein are in all respects true. Where more than one person is interested, it is requisite that the verification be made and subscribed to by all the parties interested.

Each estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person or persons making the estimate, they will, upon its being so awarded, become bound as his or their sureties for its faithful performance; and that if said person or persons shall omit or refuse to execute the contract they will pay to the Corporation of the City of New York any difference between the sum to which said person or persons would be entitled upon its completion and that which said Corporation may be obliged to pay to the person to whom the contract may be awarded at any subsequent letting; the amount in each case to be calculated upon the estimated amount of the work to be done in each class by which the bids are tested; the consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same that he is a householder or freeholder in the City of New York and is worth the amount of the security required for the completion of the contract, over and above all his debts of every nature, and over and above his liabilities as bail, surety and otherwise; and that he has offered himself as a surety in good faith and with the intention to execute the bond required by law. The adequacy and sufficiency of the security offered will be subject to approval by the Comptroller of the City of New York after the award is made and prior to the signing of the contract.

No estimate will be received or considered unless accompanied by either a certified check upon one of the State or National Banks of the City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of security required for the faithful performance of the contract. Such check or money must not be included in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded.

If the successful bidder shall refuse or neglect within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited to and retained by the City of New York as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

Bidders are informed that no deviation from the specifications will be allowed, unless under the written instructions of the Engineer-in-Chief. No estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation, upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

THE RIGHT TO DECLINE ALL THE ESTIMATES IS RESERVED, IF DEEMED FOR THE INTEREST OF THE CORPORATION OF THE CITY OF NEW YORK.

Bidders are requested, in making their bids or estimates, to use the blank prepared for that purpose by the Department, a copy of which, together with the form of the agreement, including specifications, and showing the manner of payment for the work, can be obtained upon application therefor at the office of the Department.

Dated NEW YORK, October 14, 1890.

No bid or estimate will be considered unless accompanied by either a certified check upon one of the State or National banks of the City of New York, drawn to the order of the Comptroller, or money, to the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must NOT be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box, and no estimate can be deposited in

said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited to and retained by the City of New York, as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

Should the person or persons to whom the contract may be awarded neglect or refuse to accept the contract within five days after written notice that the same has been awarded to his or their bid or proposal, or if he or they accept but do not execute the contract and give the proper security, he or they shall be considered as having abandoned it and as in default to the Corporation, and the contract will be readvertised and let as provided by law.

The quality of the articles, supplies, goods, wares and merchandise must conform in every respect to the samples of the same on exhibition at the office of the said Department. Bidders are cautioned to examine the specifications for particulars of the articles, etc., required, before making their estimates.

Bidders will state the price for each article, by which the bids will be tested.

Bidders will write out the amount of their estimate in addition to inserting the same in figures.

Payment will be made by a requisition on the Comptroller, in accordance with the terms of the contract, or from time to time, as the Commissioners may determine.

The form of the contract, including specifications, and showing the manner of payment, will be furnished at the office of the Department; and bidders are cautioned to examine each and all of its provisions carefully, as the Board of Public Charities and Correction will insist upon its absolute enforcement in every particular.

Each bid or estimate shall contain and state the name and place of residence of each of the persons making the same; the names of all persons interested with him or them therein; and if no other person be so interested, it shall distinctly state that fact; that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud; and that no member of the Common Council, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof.
