G. O. 110.

By Alderman Van Schaick—
Recognizing the fact that for the purpose of completing the various improvements in the City, already projected and to inaugurate such other plans as the wants of our growing City may demand, it is absolutely necessary to establish a fixed financial policy, such as will not only give confidence to our own citizens, but to the capitalists of all countries, and will enable our metropolis to obtain money on as favorable terms as any other city in the world.

Resolved, That the Comptroller of the City of New York, be instructed to take the necessary steps to insure the passage of such laws by the State Legislature as will enable the Finance Department to inaugurate the following measures, viz:

First. To issue a consolidated loan of \$150,000 OOO, at, not to exceed five per cent. interest in gold, (at the present legal standard of fineness) payable quarterly, the city to assume all government, personal, or other taxes.

Said loan to be due and payable A. D. 2000, a sufficient amount thereof to be set apart for the payment of the present indebtedness of the

city.

The balance, to be used from time to time as it may be lawfully required.

Second, No increase of the debt to be made without giving the citizens an opportunity to vote

without giving the citizens an opportunity to vote thereupon.

Third, All the property of the city, parks, markets, docks, etc., to be especially pledged to the payment of principal and interest of this consolidated loan, no bonds should be sold below par, and any money that may be required for immediate or temporary use, until the bonds can be sold at their par value, to be borrowed by the Comptroller, on revenue or other bonds, not to run over five years, and to bear seven per cent. interest, provided the money cannot be obtained on better terms. on better terms

MESSAGE FROM HIS HONOR THE MAYOR. The following message was received from His Honor the Mayor:

To the Honorable the Common Council:

GENTLEMEN:

GENTLEMEN:

I herewith transmit the accompanying communication addressed to your Honorable Body by a committee of the Ship-owners Association of the City of New York, in relation to the encroachments upon the wharf-properties of the city, in violation of the Laws of the State, and to the imminent peril of its commercial interests

and supremacy.

As these abuses appear to have been authorized by the late Dock Commissioners, I shall take an early opportunity of conferring with that Depart-ment and learning their reasons for the exercise of such unwarrantable authority.

W. F. HAVEMEYER.

New York, July 16, 1873.

To the Honorable the Mayor and Common Council of the City of New York:

GENTLEMEN:

GENTLEMEN:

The Shipowners' Association of the City of New York respectfully represent that, under the law of this State, as established by the unanimous decision of the Court of Appeals in the case of the Board of Commissioners of Pilots vs. Clark (33 N. V. Reps., 251), no right can be acquired by any person or corporation, except by grant of the Legislature, to encumber the public piers of the city of New York by sheds or buildings. The wharves and piers of the city are, by law, public highways, and as such open to the use and occupation of the commerce of the port, subject to the regulation of the Captain of the Port and Harbor Masters. Harbor Masters.

Harbor Masters.

Nevertheless, the Department of Docks, instead of carefully guarding the public rights and protecting the privileges of the commerce of the port to the free use of the piers, has assumed to give the special use of particular piers to private individuals and corporations, not only for vessels but for other purposes, and further assumes the right to authorize such parties to erect buildings on such piers, thus practically giving them a monopoly of such piers, to the great damage of the commercial interests of the port.

These perversions of power are now proceed-

These perversions of power are now proceeding to such an extent as to render it extremely difficult to find berths suitable for ships of large size. Representations of these evils have been made to the Department of Docks, but meet with no attention from them, as they seem to regard it as their chief function to distribute these public privileges, to be monopolized, by private public privileges, to be monopolized by private individuals.

In this great peril to the commerce of the port we respectfully appeal to you, and beg you to take this matter into consideration, which we regard it should be treated not merely as a grievance affecting us as shipowners but as affecting all who are interested in commerce and the future of the city commercially.

We remain, respectfull ROBERT B. MINTURN, CHARLES H, MARSHALL, ED. HINCKEN,
