Notice of Public Hearing.

FRANCHISE MATTERS.

PUBLIC NOTICE IS HEREBY GIVEN THAT at the meeting of the Board of Estimate and Apportionment, held this day, the following communication was received:

PUBLIC SERVICE COMMISSION FOR THE FIRST DISTRICT, November 23, 1915.

To the Board of Estimate and Apportionment of The City of New York:

The contract of March 19, 1913, between The City of New York and New York Municipal Railway Corporation (Contract No. 4) provides for the reconstruction of the existing railroads so as to adapt them for operation in conjunction with new City railroads. In connection therewith Contract No. 4 provides in Article XIII:

"The cost of the Reconstruction of the Existing Railroads for Initial Operation shall be determined by the Engineer in the same manner as the cost of construction or the cost of equipment of the Railroad and upon the basis of the definitions of Construction, Equipment, Additions, cost of construction and cost of equipment contained in Chapter I of this Part; except that the cost of all replacements, substitutions or renewals not due to wear and tear from operation and necessitated by the Reconstruction of the Existing Railroads for Initial Operation shall be deemed to be included in the definitions of cost of construction and cost of equipment, respectively."

The certificates of the same date to the same corporation for additional tracks and elevated railroad extensions contain similar provisions.

In connection with the determination of cost differences have arisen between the Commission and the Railway Corporation as to the interpretation to be placed upon the underlined portion of the sentence above quoted—the Commission being advised that as drawn it requires that there be deducted from the cost of replacements, substitutions and renewals the value of accrued wear and tear from operation, even though the change was necessitated by reconstruction and not by wear and tear. The Railway Corporation contends that such provision is not susceptible of such interpretation and that even if susceptible of such interpretation it would be contrary to the real arrangement and intent of the parties arrived at during the negotiations preceding the execution of Contract No. 4.

The Commission's information is that the Railway Corporation is correct in the second part of its contention, namely, that it was not the intention to deduct from the cost of replacements, substitutions and renewals accrued wear and tear unless such replacements, substitutions or renewals were necessitated by reason of wear and tear from operation. During the negotiations preceding the execution of Contract No. 4 and the two certificates an endeavor was made by those acting for the City to secure provision covering an allowance for accrued wear and tear from operation on existing structures and existing equipment. After extended discussion and negotiation a compromise was reached by

which an allowance was made for accrued wear and tear on existing equipment and provision to such effect was duly made and by which the conferees for the City waived any allowance for accrued wear and tear on existing structures.

If, however, the value of accrued wear and tear be deducted from the cost of replacements, substitutions and renewals it would be equivalent to the City obtaining the concession which it was unable to get during the negotiations. The Chairman of the Commission has consulted with President McAneny of the Board of Aldermen, who conducted the negotiations on behalf of the Board of Estimate and Apportionment, and it is understood that his view of the negotiations is substantially as set forth above.

It is the Commission's view that if by inadvertence or otherwise the contract and the certificates do not correctly set forth the real understanding of the parties it is only just that they be reformed so as correctly to set forth the real understanding. Accordingly the Commission has caused to be prepared an agreement modifying Contract No. 4 and certificates modifying the certificates of March 19, 1913, for additional tracks and elevated extensions, so as to make it clear that deductions for wear and tear from operation need not be made in cases where replacements, substitutions or renewals are necessitated by construction or reconstruction work.

The Commission therefore transmits to the Board of Estimate and Apportionment for its approval the following:

1. Proposed agreement modifying Contract No. 4.
2. Proposed certificate modifying the certificate of March 19, 1913, for additional tracks, and
3. Proposed certificate modifying certificate of March 19, 1913, for elevated railroad extensions.

Respectfully yours, TRAVIS H. WHITNEY, Secretary.

—and the following resolutions were thereupon adopted:

Resolved, That the communication be received, and in pursuance of law this Board hereby fixes Friday, December 17, 1915, at ten o'clock A. M., in Room 16, City Hall, Borough of Manhattan, as the time and place when and where said proposed certificates,

1. Modifying certificate of March 19, 1913, for additional tracks.
2. Modifying certificate of March 19, 1913, for elevated railroad extension.

will be considered; and be it further Resolved, That the Secretary of this Board be and he is hereby directed to publish notice of such consideration in the City Record.

1. All of said Section 3, Seventh, of said contract of October 29, 1912, is hereby stricken out and the following substituted therefor:

"Seventh.—The Company shall complete and put in operation that portion of the railway herein authorized from the Manhattan Terminal of the Queensboro Bridge to the intersection of the tracks of the Long Island Railroad with Thomson Avenue at or near Greenpoint Avenue on or before February 13, 1913, from the intersection of the tracks of the Long Island Railroad with Thomson Avenue and Broadway on or before April 30, 1913, from the intersection of Thomson Avenue and Broadway to the proposed new Long Island Railroad Station in the former Village of Jamaica, on or before January 31, 1914.

"The Company shall complete and put in operation that portion of its railway herein authorized between the present terminus thereof, at the Long Island Railroad Company's station, at Jamaica, and the intersection of Sutphin Road (Guilford Street) and Lambertville Avenue (Pacific Street), on or before May 1, 1916, and the remainder of its said railway between said intersection of Sutphin Road (Guilford Street) and the City Line at Central Avenue within such time or times as may be directed by resolution of the Board upon recommendation of the President of the Borough, provided that title to the streets involved has been vested in the City and that said streets have been regulated and graded.

"Upon the failure of the Company to complete the construction and place in operation any of the said portions of the railway on or before the dates or times herein specified, the

2. All of said Section 3, Eighth, of said contract of October 29, 1912, is hereby stricken out and the following substituted therefor:

"Eighth.—Said railway shall not cross any railway or railroad other than street surface railways encountered in the route at the grade thereof, but shall be constructed either above or below the grade of such railway or railroad; provided, however, that the Company may construct and operate the railway herein authorized at grade across the freight side-track now located on Sutphin Road (Guilford Street) leading from the main line of the Long Island Railroad Company to the warehouse of Messrs. J. & T. Adikes, under such regulations and conditions as may be prescribed by the Public Service Commission of the State of New York for the First District. If any railway or railroad other than street surface railways are operated at the same grade of the streets or avenues in which the Company is hereby authorized to construct a railway, then the Company may construct at its own expense and use a temporary crossing and approaches thereto either upon private property or within the lines of such streets or avenues to be determined by resolution of the Board, and continue to use such temporary crossing until such time as either the grade of such street or avenue or such railway or railroad shall have been changed so that such railway or railroad shall not cross such street or avenue at the grade thereof. When such grade shall have been changed and a permanent crossing shall have been constructed to carry such street or avenue either above or below the grade of such railway or railroad, then the Company shall, upon the order of the Board, abandon the above described temporary crossing, and construct its tracks upon such permanent structure as shall be directed by the Board. Any property acquired in fee by the Company for the purpose of the temporary crossing hereinafter provided for shall be ceded to the City without compensation therefor by the Company when the same is required by the City for the purpose of widening such street or avenue, upon the removal of the tracks of the Company from such temporary crossing and approaches thereto, to the permanent crossing structure."

NOTICE TO BIDDERS AT SALES OF OLD BUILDINGS, ETC.

TERMS AND CONDITIONS UNDER WHICH BUILDINGS, ETC., WILL BE SOLD FOR REMOVAL FROM CITY PROPERTY.

THE BUILDINGS AND APPURTENANCES thereto will be sold to the highest bidder, who must pay cash or certified check, drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of \$50, the sum of \$50 shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstances of vacating the structures of their tenants will permit.

All the material of the buildings, sheds, walks, structures and cellars of whatever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations and the sidewalks and curb in front of said buildings, extending within the described area, shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street and the openings of the main sewer in street shall be properly closed in compliance with the directions of the Bureau of Sewers in the Borough in which the buildings are situated, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any part thereof, within thirty days from the day of possession will work forfeiture of ownership of such buildings, appurtenances or portion as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed, and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the day of possession, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beam holes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs and adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the Contractor.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids; and it is further

Resolved, That while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.

PROPOSALS FOR BIDS AND ESTIMATES FOR THE CITY OF NEW YORK.

NOTICE TO CONTRACTORS.

GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, and names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York, is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

No bid or estimate will be considered unless as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money or corporate stock or certificates of indebtedness of any nature issued by The City of New York, which the Comptroller shall approve as of equal value with the security required in the advertisement to the amount of not less than three nor more than five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The amount shall be as specified in the proposals or instructions to bidders and shall not be in excess of 5 per cent.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation of the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
