Water Conservation Resources

In 2024, New York had the driest October in recorded history! The current drought has led to wildfires and reduced the amount of water stored in the City's reservoirs. All New Yorkers are encouraged to help save water now! Reducing water usage now can help avoid a more serious drought in warmer months when New Yorkers use more water. Below is a list of DEP's education resources to help introduce water conservation to students and educators. In this packet, you will also find ready to use lessons and activity sheets with recommended grade bands. For more information, visit DEP's [website](#).

Disaster Class Podcast: The Power of Community Engagment

In this episode of DisasterClass, Jason Perez and Wesley Long dive into the challenge of stakeholder buy-in when implementing safety and preparedness measures. Using a historical deep dive into seatbelts, they explore how public education and awareness campaigns helped increase seatbelt adoption, despite initial opposition. They draw parallels to emergency readiness, discussing how community engagement can overcome resistance and enhance safety initiatives. Featuring insights from Dustin Ridener of NYC Emergency Management, they highlight programs like CERT and Safe City NY, emphasizing the importance of education, trust-building, and collaboration in fostering capable citizens and resilient communities.

and procedures to effectively guide your team members. If you're unsure about something, well-structured meetings provide an opportunity to receive clarification.

We're Here to Help

We are dedicated to supporting NYC CERT volunteer members and leaders. We're here to assist you and provide guidance. As a leader, it's crucial to be well-versed in policies

Remember, volunteer leaders play a vital role in fostering a positive and professional environment. It's important to address concerns directly rather than engaging in gossip, as this can create a toxic atmosphere. Experience has shown that most issues can be resolved through open and honest communication.

25-hours Policy Takes Effect in 2025

We want to again provide some clarity for one of the notable updates to the NYC CERT SOPs, specifically: *To remain Active, volunteers must complete and report a minimum of 25 approved volunteer service hours annually.*

25 hours
in 2025

Because this policy was just added to the latest edition of the [NYC CERT SOPs](#), we are not putting into effect until we tally up your total hours for 2025. With that said, you should continue to do your best to submit your volunteer hours for 2024 as soon as possible, as it will better help you understand what it will take to fulfill this new requirement going forward. [Submit your NYC CERT Volunteer Service Hours](#) no later than Friday, January 17, 2024. If you have any issues or concerns, please connect with your leadership for support.

Why 25 hours?

This new standard was introduced in response to numerous volunteer requests for clearer guidelines on activity status. We understand that volunteer commitments vary across boroughs, divisions, and individuals. The 25-hour annual minimum is a reasonable benchmark, aligning with common volunteer practices and providing a clear framework for maintaining active status.

You can meet the 25-hour minimum by making sure to submit your volunteer hours for: Time spent on training, drills, deployments, community outreach, and other CERT-related activities. By meeting this simple requirement, you'll ensure your continued participation in the program and help maintain the readiness of NYC CERT membership.

Send Us Your Photos!

Please continue to share an and all photos and videos from your NYC CERT events at on.nyc.gov/CERTupload

Please note **Date (including year), Borough, Division (or team), Event, members included (if available).**
