DEPARTMENT OF PUBLIC PARKS.

Report for the Quarter ending June 30, 1892.

CITY OF NEW YORK—DEPARTMENT OF PUBLIC PARKS,
Nos. 49 AND 51 CHAMBERS STREET,
July 1, 1892.

Hon. HUGH J. GRANT, Mayor:

SIR—Pursuant to the provisions of section 49 of chapter 410 of the Laws of 1882, as amended by chapter 62 of the Laws of 1887, the Department of Public Parks hereby submits the following statement of its transactions during the three months ending June 30, 1892:

Commissioner Albert Gallup having been reappointed as a Commissioner of Public Parks, the personnel of the Board of Parks remains unchanged.

At the annual reorganization of the Board Commissioner Paul Dana was elected President to serve until May next.

Aside from the care and maintenance of the parks, much attention has been given the several works of improvement now in progress, as well as other proposed improvements in connection with the park system. A plan for the permanent improvement of Manhattan Square has been considered and is now in course of preparation. A retaining-wall upon the westerly side of Riverside Park, between Seventy-ninth and One Hundred and Twenty-ninth streets, has been planned, and an issue of bonds to the amount of \$141,500, as provided by chapter 575 of the Laws of 1887, has been asked in order that the work may be commenced and pushed to early completion.

Plans for fitting up Castle Garden as an aquarium and for the improvement of the grounds around the building have been made and are now before the Board of Estimate and Apportionment for the approval of that Board, as required by section 2 of chapter 28 of the Laws of 1892.

The extension of the Parade Ground in Van Cortlandt, as provided for by chapter 530 of the Laws of 1892, has been taken up, and the Board of Estimate and Apportionment has been requested to provide the sum of \$2,000 for making surveys and doing other preliminary work for the preparation of plans.

The subject of improving the new parkways, Moshulu, Crotona, Bronx and Pelham, as provided for by chapter 417 of the Laws of 1892, has received consideration, and an application has been made to the Board of Estimate and Apportionment for \$40,000 to proceed with the work.

A plan for regulating and paving that part of St. Ann's avenue adjoining St. Mary's Park, prepared by the Commissioner of Street Improvements in the Twenty-third and Twenty-fourth Wards, has been approved by this Department.

Matters in relation to the museums in the park have received the attention of the Board. The work of erecting the north wing of the Metropolitan Museum of Art, although progressing, has not made satisfactory progress, the delay being occasioned by the inability of the contractor, as he states, to procure materials on account of the strikes of the quarrymen. The vacancy caused by the death of the Architect, Mr. Arthur L. Tuckerman, has been filled by the appointment of Mr. Joseph Wolf, under whose charge the work is now going on. Plans for a boiler-house and electric-lighting for the new wing have been prepared and approved by the Trustees and the Board of Parks; they have been submitted to the Board of Estimate and Apportionment for the concurrence of said Board, with the request that funds to the amount of \$90,000 be provided for the work, as authorized by chapter 420 of the Laws of 1892. The sum of \$5,600 has been transferred to the appropriation for maintenance of the museums, to be applied to the opening of the American Museum of Natural History on Sundays during the remainder of the year. The Park Board has also approved a transfer to the Art Museum for a similar purpose. Pursuant to the provisions of chapter 290 of the Laws of 1892, the Board of Estimate has been requested to authorize the transfer of \$25,000 from any unexpended balances or appropriations for 1891 to the appropriation for maintenance of museums for the current year.

Senate Bill No. 832, to provide for the enlargement of the American Museum of Natural History building, has been approved by the Board of Parks, and the Governor was requested to give the same favorable consideration.

Of the several statues now before the Department for erection on the parks, sites have been selected for that of Horace Greeley and also that of General W. S. Hancock. The former will be located at the north end of the triangle at the junction of Broadway and Sixth avenue at Thirty-third street, and the latter at the triangle at the junction of One Hundred and Twenty-third street and Avenue St. Nicholas. A site for the Columbus monument, to be presented to the City by the Italian societies, has been designated at the Circle at Fifty-ninth street and Eighth avenue.

The flower market established at Union square last season has been permitted to remain at the same location.

Music in the parks has been arranged for, and the concerts which were commenced in the early part of May will be continued in the following order during the summer months and as far into the early autumn as the appropriation for that purpose will admit:

Central Park, Saturday and Sunday afternoons.
Battery Park, Friday evenings.
Mount Morris Park, Tuesday evenings.
Tompkins Square, Wednesday evenings.
East River Park, Thursday evenings.
St. Mary's Park, Saturday afternoons.
Washington Square, Monday afternoons.
Paradise Park, Monday evenings.

The concerts, which are one of the most attractive features of the parks, are very largely attended.

The work of cleaning the "Pond" at Fifty-ninth street in Central Park has been accomplished. The water has been drawn down and the accumulations along the shores have been removed. A new basin has been built at the southerly end, and the Pond is in a healthful condition for the summer.

In view of an opinion of the Counsel to the Corporation, in which he advised that there is no authority to set apart a portion of Tompkins Square for the exclusive use of small children dwelling in the vicinity, as proposed and requested by a resolution of the Board of Aldermen, the Department has taken no action in the matter.

Plans have been made for a tool-house and wagon-shed to be located near Eighty-first street, on the west side of Central Park, and a request has been made for funds to do the work.

Upon the application of the Building Committee of the Grant Monument Association, permission has been given for the removal of the present tomb of General Grant from its present location to a point about 75 feet northerly therefrom during the progress of the work on the monument. Permission has also been given the association to place contribution boxes in the vicinity of the tomb and also to erect a stand, etc., for use on the occasion of laying the cornerstone of the monument in April.

Permission has been given the Westchester Water Company to maintain three telephone pay stations in Pelham Bay Park, upon condition that the police and park employees shall have the free use of said telephones in Westchester County, and in case communication is had between any one of those three stations and other stations in New York County the said company shall pay the charges therefor. Mr. Frederick H. Allen has been permitted to occupy the "Hoyt House," in Pelham Bay Park, for nine months, at \$60 per month. All repairs to be made by the occupant.

The license of A. H. Dollivar for operating swan boats on the Central Park Pond has been renewed for three years at \$250 per annum.

The license of Charles Schwarz to occupy and sell refreshments in the buildings in Highbridge Park has been renewed for five years, at six per cent. of his gross receipts, the licensee to put the buildings in proper condition and maintain them in such condition, together with the approaches, during the continuance of his license.

Carl H. Schultz has been given a renewal for one year of his license for the sale of mineral waters in Central Park, in the building known as the "Mineral Spring." Mr. Schultz pays \$500 for the privilege, and agrees to make all repairs necessary to keep the building in good condition.

James Reynolds has been given the privilege of selling refreshments in Claremont Park.

Stephen Peabody has been given permission to occupy the "Hunter House" in Pelham Bay Park for two years. Mr. Peabody will pay \$1,200 per annum for the privilege.

The consent of the Department has been given to the construction of a driveway entrance in the rear of the Metropolitan Club Building, at the northeast corner of Fifth avenue and Sixtieth street, as shown on a plan filed in this office.

The work of constructing the new McComb's Dam bridge over Harlem river is making satisfactory progress.

The Department has received a copy of chapter 552 of the Laws of 1892, amending the law providing for the construction of this bridge, by including in the land to be acquired in connection with approaches the gore north of One Hundred and Fifty-third street, between Seventh avenue and McComb's Dam road, and steps have already been taken toward the acquiring of the gore.

As the bridge is being built in connection with the One Hundred and Fifty-fifth street viaduct, now in course of construction by the Department of Public Works, the engineering force employed on the latter structure has been employed on the bridge, and their time is apportioned between the two works.

Plans for a temporary bridge over Harlem river at Seventh avenue, to accommodate the constant traffic during the construction of the new bridge, have been prepared and approved by the Board of Estimate and Apportionment, and immediate steps will be taken to have the bridge built within the shortest possible time.

The New York and Northern Railway Company has given its consent to the construction on its lands of approaches to the footways of the company's bridge over Harlem river at Eighth avenue, and plans therefor have been prepared and approved. The work will now be pushed to completion without further delay.

An application of property-owners and residents of Kingsbridge and vicinity for permission to construct a foot-bridge over Spuyten Duyvil Creek at Kingsbridge, at their own expense, has been granted, subject to the rights and consent of any party in interest in the lands or premises affected.

A thorough examination of the machinery of the draw of the Madison avenue bridge has been made, and the turn-table was found to be in need of immediate repairs, including new steel track circles. The Board of Aldermen has been requested to pass an ordinance authorizing the Department to have the work done without contract, at public letting, at an expense not exceeding \$3,600.

The Board of Aldermen has also been asked to authorize the purchase, without public letting, of a steam stone-crusher, for use on the New Parks north of the Harlem river, at a cost not exceeding \$1,500.

The Sinking Fund Commission has been requested to lease for this Department, for two years, the building and sheds in One Hundred and Fifty-fourth street, near McComb's Dam road, known as the Old Barry Hotel, at an annual rental of \$600, to be used as offices by the engineers employed on the construction of the bridge over the Harlem river at One Hundred and Fifty-fifth street.

Contracts for the following-named works have been entered into by the Department during the quarter:

For the construction of a bridge over Harlem river at One Hundred and Fifty-fifth street, together with the Jerome avenue approach thereto. Passaic Rolling Mill Company, contractor; Andrew Carnegie and the American Surety Company, sureties.

After these plants were set out it was necessary to water, cultivate and care for them from time to time.

TO OWNERS OF LANDS ORIGINALLY ACQUIRED BY WATER GRANTS.

ATTENTION IS CALLED TO THE RECENT act of the Legislature (chapter 449, Laws of 1889), which provides that whenever any streets or avenues in the city, described in any grant of land under water, from the Mayor, Aldermen and Commonalty containing covenants requiring the grantees and their successors to pave, repave, keep in repair or maintain such streets, shall be in need of repairs, pavement or repavement, the Common Council may, by ordinance, require the same to be paved, repaved or repaired; and the expense thereof to be assessed on the property benefited; and whenever the owner of a lot so assessed shall have paid the assessment levied for such paving, repaving or repairing, such payment shall release and discharge such owner from any and every covenant and obligation as to paving, repaving and repairing, contained in the water grant under which the premises are held; and no further assessment shall be imposed on such lot for paving, repaving or repairing such street or avenue, unless it shall be petitioned for by a majority of the owners of the property (who shall also be the owners of a majority of the property in frontage) on the line of the proposed improvement.

The act further provides that the owner of any such lot may modify the Commissioner of Public Works, in writing, specifying the ward number and street number of the lot that he desires, for himself, his heirs and assigns, to be released from the obligation of such covenants, and elects and agrees that said lot shall be thereafter liable to be assessed as above provided, and thereupon the owner of such lot, his heirs and assigns shall thenceforth be relieved from any obligation to pave, repair, uphold or maintain said street, and the lot in respect of which such notice was given shall be liable to assessment accordingly.

The Commissioner of Public Works desires to give the following explanation of the operation of this act:

When notice, as above described, is given to the Commissioner of Public Works, the owner of the lot or lots therein described, and his heirs and assigns, are forever released from all obligation under the grant in respect to paving, repaving or repairing the street in front of or adjacent to said lot or lots, except one assessment for such paving, repaving or repairs, as the Common Council may, by ordinance, direct to be made thereafter.

No street or avenue within the limits of such grants can be paved, repaved or repaired until said work is authorized by ordinance of the Common Council; and when the owners of such lots desire their streets to be paved, repaved or repaired, they should state their desire and make their application to the Board of Aldermen and not to the Commissioner of Public Works, who has no authority in the matter until directed by ordinance of the Common Council to proceed with the pavement, repavement or repairs.

MICHAEL T. DALY,
Commissioner of Public Works.

ARMORY BOARD.

ARMORY BOARD—OFFICE OF THE SECRETARY,
STAATS-ZEITUNG BUILDING, TRYON ROW,
NEW YORK, April 19, 1893.

PROPOSALS FOR ESTIMATES FOR FURNISHING MATERIALS AND WORK FOR ALTERATIONS AND REPAIRS TO THE SHIP "NEW HAMPSHIRE" IN USE AS AN ARMORY FOR THE FIRST NAVAL BATTALION, STATE OF NEW YORK.

Proposals for estimates for furnishing the materials and work for the alterations and repairs to the ship "New Hampshire" in use as an Armory for the First Naval Battalion, State of New York, will be received by the Armory Board, at the MAYOR'S OFFICE, CITY HALL, UNTIL 10 O'CLOCK A. M. OF THE 30 DAY OF MAY, 1893, at which time and place they will be publicly opened and read by said Board.

Any person making an estimate for the above work shall furnish the same in a sealed envelope to the President of said Armory Board, indorsed "Estimate for supplying the Materials and Work for Alterations and Repairs to the ship 'New Hampshire,' New York City," and also with the name of the person or persons presenting the same, and the date of its presentation.

Any bidder for this contract must be known to be engaged in and well prepared for the business, and must have satisfactory testimonials to that effect; and the person or persons to whom the contract may be awarded will be required to give security for the performance of the contract, by his or their bond, with two sufficient sureties, in the amount of FIVE THOUSAND DOLLARS.

Bidders are required to submit their estimates upon the following express conditions, which shall apply to and become part of every estimate received:

1st. Bidders must satisfy themselves, by personal examination of the location of the proposed work, and by such other means as they may prefer, as to the accuracy of the estimate, and shall not at any time after the submission of an estimate dispute or complain of the statement of quantities, nor assert that there was any misunderstanding in regard to the nature or amount of the work to be done.

2d. Bidders will be required to complete the entire work to the satisfaction of the Armory Board, and in substantial accordance with the specifications of the contract and the plans therein referred to. No extra compensation, beyond the amount payable for the work before mentioned, which shall be actually performed, at the prices therefor to be specified by the lowest bidder, shall be due or payable for the entire work.

Bidders will state in their estimates a price for the whole of the work to be done, in conformity with the approved form of contract and the specifications therein set forth, by which price the bids will be tested. This price is to cover all expenses of every kind involved in or incidental to the fulfillment of the contract, including any claim that may arise through delay from any cause in the performing of the work thereunder.

Bidders will distinctly write out, both in words and in figures, the amount of their estimates for doing this work.

The person or persons to whom the contract may be awarded will be required to attend at this office with the sureties offered by him or them, and execute the contract within five days from the date of the service of a notice to that effect; and in case of failure or neglect so to do, he or they will be considered as having abandoned it, and as in default to the Corporation; and the contract will be re-advertised and relet, and so on until it is accepted and executed.

Bidders are required to state in their estimates their names and places of residence; the names of all persons interested with them therein; and if no other person be so interested, the estimate shall distinctly state the fact; also that the estimate is made without any connection with any other person making an estimate for the same work; and that it is in all respects fair and without collusion or fraud; and also that no member of the Common Council, head of a department, chief of a bureau, deputy thereof or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof, which estimate must be verified by the oath, in writing, of the party making the estimate, that the several matters stated therein are in all respects true.

Where more than one person is interested, it is requisite that the verification be made and subscribed by all the parties interested.

Each estimate shall be accompanied by the contract, in writing, of two householders or freeholders in the City of New York, who, with their respective shares of business or residence, to the effect that if the contract be awarded to the person or persons making the estimate, they will, on its being so awarded, become bound as his or their sureties for its faithful performance; and that if said person or persons shall fail to refuse to execute the contract, they will pay to the Corporation, of the City of New York, any difference between the sum to which said person or persons would be entitled on its completion, and that which said Corporation or the Armory Board may be obliged

to pay to the person to whom the contract may be awarded at any subsequent letting; the amount in each case to be calculated upon the estimated amount of the work to be done by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of the contract and stated in the proposals, over and above all his debts of every nature, and over and above his liabilities as bail, surety and otherwise; and that he has offered himself as surety in good faith and with the intention to execute the bond required by law. The adequacy and sufficiency of the security offered is to be approved by the Comptroller of the City of New York, after the award is made and prior to the signing of the contract.

No estimate will be received or considered unless accompanied by either a certified check upon one of the State or National banks of the City of New York, drawn to the order of the Comptroller, or money, to the amount of TWO HUNDRED AND FIFTY DOLLARS (\$250). Such check or money must be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Board, who has charge of the estimate-box; and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned by the Comptroller to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited and retained by the City of New York as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of his deposit shall be returned to him by the Comptroller.

No estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation, upon debt on contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

Bidders are requested, in making their bids or estimates, to use a blank prepared for that purpose by the Board, a copy of which, together with the form of the agreement, including specifications, and showing the manner of payment for the work, can be seen upon application at the ship "New Hampshire."

The Board reserves the right to reject any or all estimates not deemed beneficial to or for the public interest. Plans may be examined and specifications and blank forms for bids or estimates and all detailed information obtained, by application to the Inspector, John Guy, at the ship "New Hampshire" now moored at the foot of East Twenty-eighth street, New York City, after one o'clock each day.

THURSDAY, MAY 11, 1893.

at which time and place the estimates will be publicly opened by the head of said Department. The award of the contract, if awarded, will be made as soon as practicable after the opening of the bids.

Any person making an estimate for the work shall furnish the same in a sealed envelope to said Board, at said office, on or before the day and hour above named, which envelope shall be indorsed with the name or names of the person or persons presenting the same, the date of its presentation and a statement of the work to which it relates.

The bidder to whom the award is made shall give security for the faithful performance of the contract, in the manner prescribed and required by ordinance, in the sum of Four Thousand Six Hundred Dollars.

The Engineer's estimate of the quantities of material necessary to be dredged, in order to secure at the premises mentioned the depth of water set opposite thereto in the specifications, is as follows:

ON THE NORTH RIVER.

At Pier, new 15 (south side)..... 23,000 cubic yards.

N. B.—Bidders are required to submit their estimates upon the following express conditions, which shall apply to and become a part of every estimate received:

1st. Bidders must satisfy themselves, by personal examination of the locations of the proposed dredging, and by such other means as they may prefer, as to the accuracy of the foregoing Engineer's estimate, and shall not, at any time after the submission of an estimate, dispute or complain of the above statement of quantities, nor assert that there was any misunderstanding in regard to the nature or amount of the work to be done.

2d. Bidders will be required to complete the entire work to the satisfaction of the Department of Docks, and in substantial accordance with the specifications of the contract. No extra compensation, beyond the amount payable for the work before mentioned, which shall be actually performed, at the price therefor, per cubic yard, to be specified by the lowest bidder, shall be due or payable for the entire work.

The work to be done under this contract is to be commenced within five days after the date of the contract, and the entire work is to be fully completed on or before the 1st day of July, 1893, and the damages to be paid by the contractor for each day that the contract may be unfulfilled after the time fixed for the fulfillment thereof has expired, are, by a clause in the contract, fixed and liquidated at Fifty Dollars per day.

Bidders will state in their estimates a price, per cubic yard, for doing such dredging, in conformity with the approved form of agreement and the specifications therein set forth, by which price the bids will be tested. This price is to cover all expenses of every kind involved in or incidental to the fulfillment of the contract, including any claim that may arise through delay, from any cause, in the performing of the work thereunder.

Bidders will distinctly write out, both in words and in figures, the amount of their estimates for doing this work.

The person or persons to whom the contract may be awarded will be required to attend at this office with the sureties offered by him or them, and execute the contract within five days from the date of the service of a notice to that effect; and in case of failure or neglect so to do, he or they will be considered as having abandoned it, and as in default to the Corporation; and the contract will be readvertised and relet, and so on until it be accepted and executed.

Bidders are required to state in their estimates their names and places of residence; the names of all persons interested with them therein; and if no other person be so interested, the estimate shall distinctly state the fact; also, that the estimate is made without any connection with any other person making an estimate for the same work, and that it is in all respects fair, and without collusion or fraud; and also, that no member of the Common Council, head of a department, chief of a bureau, deputy thereof or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof; which estimate must be verified by the oath, in writing, of the party making the estimate, that the several matters stated therein are in all respects true. Where more than one person is interested, it is requisite that the verification be made and subscribed to by all the parties interested.

Each estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person or persons making the esti-

mate, they will, upon its being so awarded, become bound as his or their sureties for its faithful performance; and that if said person or persons shall omit or refuse to execute the contract, they will pay to the Corporation of the City of New York any difference between the sum to which said person or persons would be entitled upon its completion and that which said Corporation may be obliged to pay to the person to whom the contract may be awarded at any subsequent letting; the amount in each case to be calculated upon the estimated amount of the work to be done by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of the contract, over and above all his debts of every nature, and over and above his liabilities as bail, surety and otherwise; and that he has offered himself as a surety in good faith and with the intention to execute the bond required by law. The adequacy and sufficiency of the security offered will be subject to approval by the Comptroller of the City of New York after the award is made and prior to the signing of the contract.

No estimate will be received or considered unless accompanied by either a certified check upon one of the State or National banks of the City of New York, drawn to the order of the Comptroller, or money, to the amount of five per centum of the amount of security required for the faithful performance of the contract. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box; and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited to and retained by the City of New York as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

Bidders are informed that no deviation from the specifications will be allowed, unless under the written instructions of the Engineer-in-Chief.

No estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

THE RIGHT TO DECLINE ALL THE ESTIMATES IS RESERVED IF DEEMED FOR THE INTEREST OF THE CORPORATION OF THE CITY OF NEW YORK.

Bidders are requested, in making their bids or estimates, to use the blank prepared for that purpose by the Department, a copy of which, together with the form of agreement, including specifications, and showing the manner of payment for the work, can be obtained upon application therefor at the office of the Department.

The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of the contract, over and above all his debts of every nature, and over and above his liabilities as bail, surety and otherwise; and that he has offered himself as surety in good faith, and with the intention to execute the bond required by law. The adequacy and sufficiency of the security offered will be subject to approval by the Comptroller of the City of New York after the award is made and prior to the signing of the contract.

No estimate will be received or considered unless accompanied by either a certified check upon one of the State or National banks of the City of New York, drawn to the order of the Comptroller, or money, to the amount of five per centum of the amount of security required for the faithful performance of the contract. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited to and retained by the City of New York as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

Bidders are informed that no deviation from the specifications will be allowed, unless under the written instructions of the Engineer-in-Chief.
