People housed in CDUs share no communal space. The total number of people in custody with confirmed active infections can be found in CHS's COVID-19 Data Snapshots, which are posted on the [CHS homepage](#).**

¹ The total number of people and percent values for Confirmed or Symptomatic units and Likely Exposed but Asymptomatic units reported above have been corrected. In the Board's prior report, totals and percents reported for these units excluded values in categories with 10 or fewer people.

¹ Data reported by CHS reflects data from the prior day.

² This metric includes hospitalized as well as recovered patients. Based on a data correction reported by CHS on January 21st, 2021, the number of patients with confirmed COVID-19 on January 8th, 2021 has been updated from 328 to 329.

³ This metric is sourced from the "CHS COVID-19 Data Snapshot." As of August 21st, this snapshot has been posted on the [CHS homepage](#) Monday through Friday.

⁴ The number of CHS patient deaths does not include patients who may have been diagnosed and treated while in custody and died post-release.

⁵ This metric reflects staff newly placed in quarantine/isolation and not the total number of CHS staff currently in quarantine/isolation. Board reports published before November 30th, 2020 incorrectly labeled this metric as the number of CHS staff currently in isolation.

II. CHS and DOC Updates to BOC: People in Custody by COVID-19 Status¹

Number and Percent of Patients with Confirmed COVID-19
January 2 – January 8, 2021²

¹ The figure above reflects the number of confirmed COVID-19 patients who were currently incarcerated as of each date. These numbers include confirmed patients who have recovered from COVID-19. The total number of people in custody with confirmed active infections can be found in CHS's COVID-19 Data Snapshots, which are posted on the [CHS homepage](#).

² Based on a data correction reported by CHS on January 21st, 2021, the number of patients with confirmed COVID-19 on January 8th, 2021 has been updated from 328 to 329.

II. CHS and DOC Updates to BOC: Currently Incarcerated Patients with Confirmed COVID-19¹

Number of Currently Incarcerated Patients with Confirmed COVID-19

¹ The figure above reflects the number of confirmed COVID-19 patients who were currently incarcerated as of each date. These numbers include confirmed patients who have recovered from COVID-19. The total number of people in custody with confirmed active infections can be found in CHS's COVID-19 Data Snapshots, which are posted on the [CHS homepage](#).

² Based on a data correction reported by CHS on January 21st, 2021, the number of patients with confirmed COVID-19 on January 8th, 2021 has been updated from 328 to 329.

II. CHS and DOC Updates to BOC: Staff with Confirmed COVID-19 (cumulative)¹

Staff with Confirmed COVID-19
March 17, 2020 - January 8, 2021

¹ CHS and DOC report the cumulative total staff members who have tested positive for COVID-19 in their daily updates to the Board. CHS does not report the cumulative total number of incarcerated people who have tested positive for COVID-19 in its daily updates to the Board but does report this metric in weekly Local Law 59 reports published on the [CHS website](#). It would be inappropriate to compare cumulative staff totals to the number of currently incarcerated patients with COVID-19- reported in slide 15.

IV. Housing Area Capacity

December 26, 2020 – January 8, 2021

IV. Housing Area Capacity

Number and Percent of Open Cell and Dorm Units Above and Below 50% Capacity
January 7, 2021

NOTES:

- 1) On Thursday December 17th, DOC provided the Board with data on the designed capacity of jail housing areas. Designed capacity reflects the maximum number of beds each housing area was designed to accommodate. DOC believes this metric serves as the best available proxy for housing area size. Accordingly, the capacity figures presented above are calculated by dividing housing area census by housing area designed capacity.
- 2) Dorm count includes modular dorm units in AMKC, RMSC, and RNDC.
- 3) This analysis excludes Contagious Disease Units (CDUs) (where people in custody share no communal space), intake areas (where the census changes throughout the day), and the Bellevue Hospital Prison Ward (BHPW).

IV. Housing Area Capacity

Number and Percent of Open Units Above and Below 50% Capacity by Housing Category
January 7, 2021

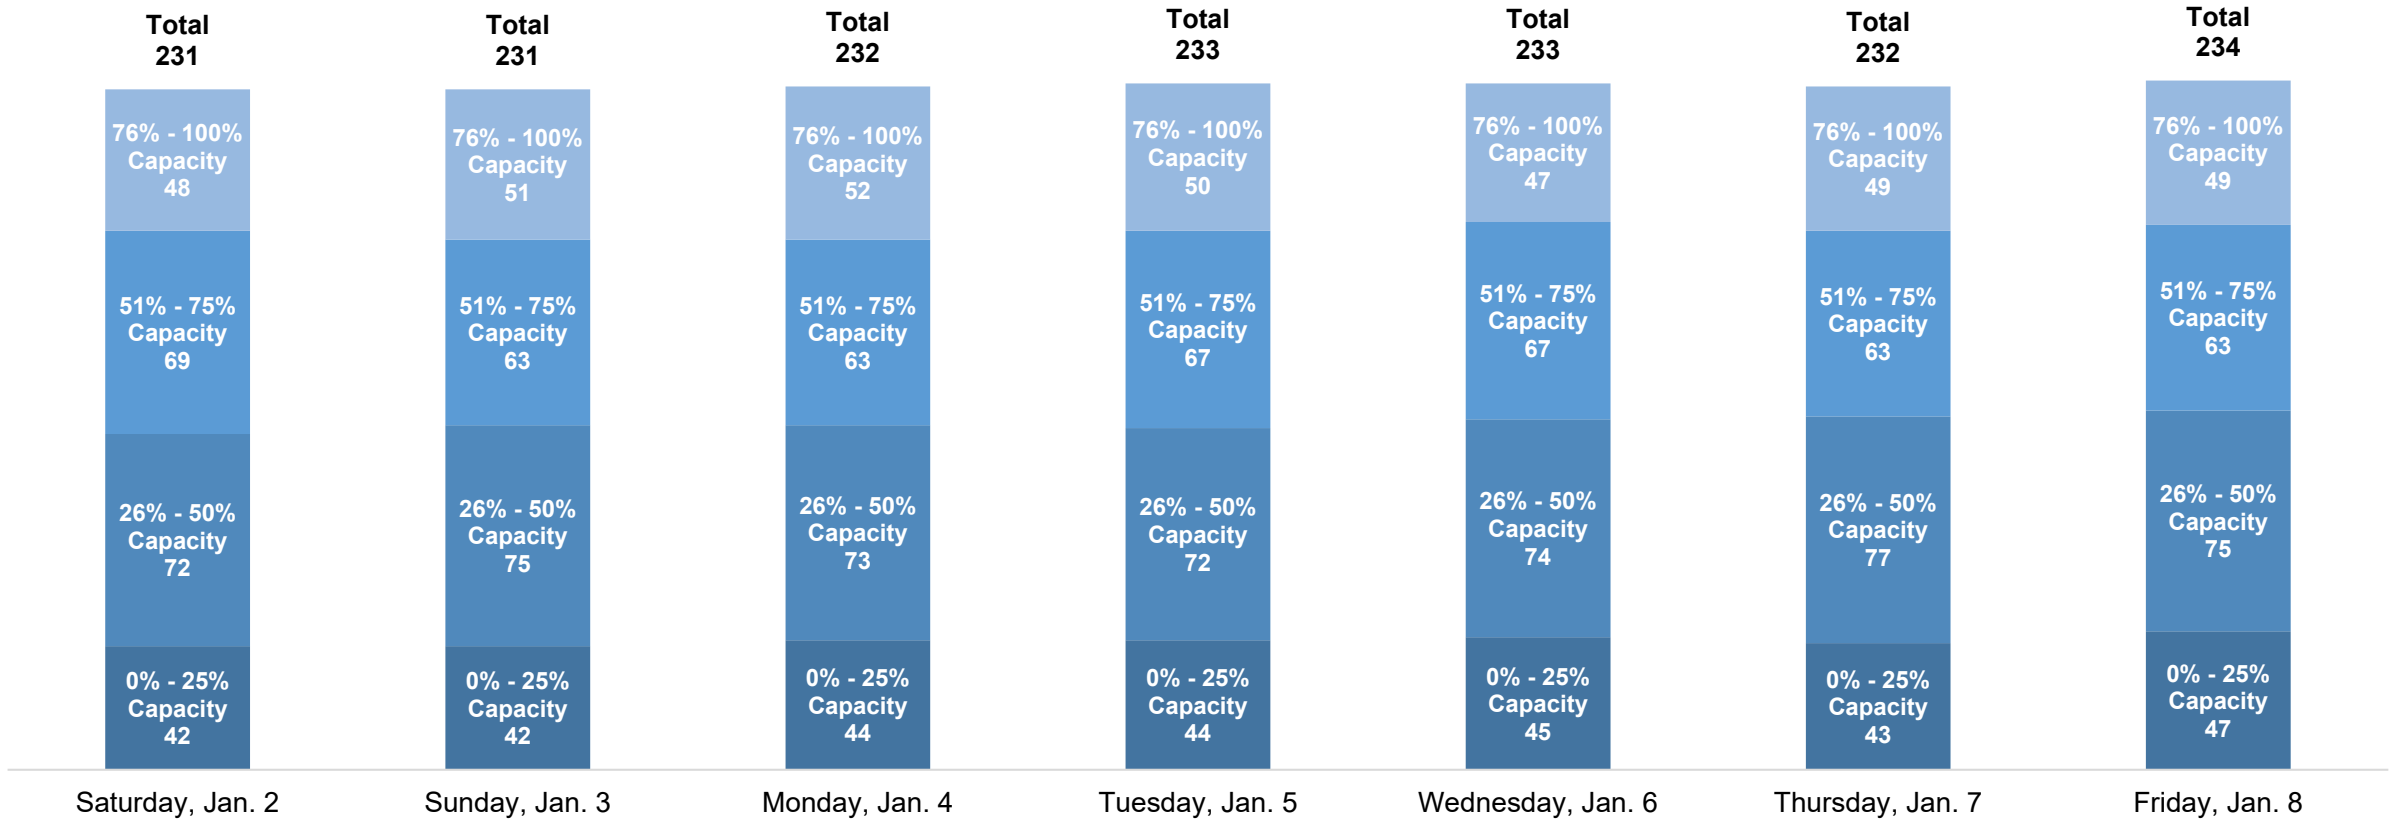

NOTES:

- 1) On Thursday December 17th, DOC provided the Board with data on the designed capacity of jail housing areas. Designed capacity reflects the maximum number of beds each housing area was designed to accommodate. DOC believes this metric serves as the best available proxy for housing area size. Accordingly, the capacity figures presented above are calculated by dividing housing area census by housing area designed capacity.
- 2) General Population units have fewer staffing needs than more specialized housing units such as PACE or MO units and present an opportunity to lower housing density to facilitate social distancing.
- 3) This analysis excludes Contagious Disease Units (CDUs) (where people in custody share no communal space), intake areas (where the census changes throughout the day), and the Bellevue Hospital Prison Ward (BHPW).

NOTES:

- 1) On Thursday December 17th, DOC provided the Board with data on the designed capacity of jail housing areas. Designed capacity reflects the maximum number of beds each housing area was designed to accommodate. DOC believes this metric serves as the best available proxy for housing area size. Accordingly, the capacity figures presented above are calculated by dividing housing area census by housing area designed capacity.
- 2) This analysis excludes Contagious Disease Units (CDUs) (where people in custody share no communal space), intake areas (where the census changes throughout the day), and the Bellevue Hospital Prison Ward (BHPW).

- 3) Dorm count includes modular dorm units in AMKC, RMSC, and RNDC.
- 4) The values above exclude counts of people in Contagious Disease Units (CDUs) (where people in custody share no communal space), intake areas (where the census changes throughout the day), and the Bellevue Hospital Prison Ward (BHPW).
