Commissioner McKenna called attention to the fact that section 765 of the Greater New York Charter, designated the instruments and persons for making tests of oils, but not the method or methods. After discussion, the following addition was made to the proposed regulations governing the sale, use, etc., of inflammable and volatile oils:

Any determination of the properties and qualities of the oils treated of in Part VII. of these regulations, shall be made in accordance with the provisions of law (section No. 765, Greater New York Charter).

Commissioner McKenna presented a report covering the collating of the regulations of this Commission, and the report was given to the Acting Secretary to prepare for the printer.

Commissioner McKenna further reported that after an investigation into the conditions associated with the use of liquid carbonic acid in the manufacture of carbonated beverages, it was in his opinion that persons engaged in this class of work should hold certificates of fitness. After discussion, the Commission decided to defer action on this subject.

The Secretary presented the following resolution, determining that \$200,000 be set aside and appropriated from the water revenues received in the Borough of Brooklyn, for the maintenance and distribution of the water supply in said borough during a portion of the year 1903:

Whereas, By subdivision 1 of section 242 of the Greater New York Charter, the Board of Estimate and Apportionment has the power to appropriate, from time to time, for the maintenance, improvement and extension of the system of water supply of the Borough of Brooklyn, the moneys received from water rents in the said borough, subject, however, to the charges now imposed by law upon said revenues; and

Whereas, The Commissioner of the Department of Water Supply, Gas and Electricity has submitted an estimate of one million three hundred and eighteen

thousand two hundred and eighty-nine dollars and seventy-one cents (\$1,318,289.71) as the amount required for the proper maintenance and distribution of the water supply of said borough; and

Whereas, The sum of five hundred and fifty-three thousand and twenty-one dollars and twenty-four cents (\$553,021.24) will be required for the year 1903 to meet the interest on outstanding bonds issued for the construction and extension of the water works of said borough, and the revenues to be received during the year 1903, based upon the revenues actually received during prior years, can safely be estimated at an amount in excess of two million five hundred thousand dollars (\$2,500,000); therefore be it

Resolved, That the Board of Estimate and Apportionment hereby determines that the sum of two hundred thousand dollars (\$200,000), in addition to the sum of one million dollars (\$1,000,000) heretofore set aside and appropriated by said Board, be and hereby is set aside and appropriated from the water revenues received during the year 1903, if such revenues be sufficient, and if not, from the balance remaining in the Water Revenue Account on December 31, 1902, for the maintenance and distribution of said water supply in the Borough of Brooklyn during a portion of the year 1903.

Which was adopted by the following vote:

The Mayor, Comptroller, President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

The Secretary presented the following resolution, releasing \$200,000 retained from the monthly payments due on the contract of John Peirce for the erection of a new Hall of Records, known as Contract No. 17318:

Resolved, That the Board of Estimate and Apportionment hereby directs that the sum of two hundred thousand dollars (\$200,000) retained from the monthly payments due on the contract of John Peirce for the erection of the new Hall of Records, known as Contract No. 17318, be and the same is hereby released, and the Comptroller of The City of New York is hereby authorized to pay the said sum of two hundred thousand dollars (\$200,000) on account of said contract, the balance of the retained percentages remaining being considered sufficient to complete the said contract, the City being amply protected by said balance and the bond of five hundred thousand dollars (\$500,000), provided that the sureties to said bond are willing to give their consent to this payment.

Which was adopted by the following vote:

The Mayor, Comptroller, President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

The Secretary presented the following report of the Appraiser of Real Estate, Department of Finance, relative to the selection of a site for an interior public bath on East Seventy-sixth street and Avenue A, and a resolution authorizing the Corporation Counsel to institute condemnation proceedings for the acquisition of said premises:

CITY OF NEW YORK—DEPARTMENT OF FINANCE, COMPTROLLER'S OFFICE,  
October 5, 1903.

Hon. EDWARD M. GROUT, Comptroller:

SIR—Regarding the proposed interior bath site, 50 feet by 102 feet 2 inches, on the north side of East Seventy-sixth street, 348 feet east of Avenue A, as shown on the diagram herewith, I have the honor to report as follows:

This is Section 5, Volume 4, Block 1488, Lots Nos. 15 and 16, a vacant plot adjoining the proposed new park. Assessed valuation, \$3,000 a lot; total, \$6,000. Owner, Isaac Parshelsky, No. 119 Manhattan avenue, Brooklyn.

Lot No. 15 was sold at forced sale in June, 1902, for \$2,800, but this price was then considered very low. The coming of the park, making this plot a corner, has since increased its value somewhat. The owner now asks \$12,000 for the plot, and has recently given an option to a real estate agent at that figure.

I am of the opinion, however, that even taking into account plottage and the proximity of the new park, the present full market value of the plot is not over \$10,000, or \$5,000 a lot, and would therefore recommend to the Board of Estimate and Apportionment that they adopt a resolution authorizing the institution of condemnation proceedings for the acquisition of the above-mentioned premises, in accordance with the request of the President of the Borough of Manhattan.

Respectfully submitted for approval,

MORTIMER J. BROWN,  
Appraiser of Real Estate in Charge of Bureau.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment hereby approves of the selection of a site for an interior public bath, bounded and described as follows:

Beginning at a point on the northerly side of East Seventy-sixth street, distant three hundred and forty-eight (348) feet easterly from the northeasterly corner of East Seventy-sixth street and Avenue A; running thence northerly at right angles to East Seventy-sixth street one hundred and two (102) feet two (2) inches; running thence easterly parallel with East Seventy-sixth street fifty (50) feet; running thence southerly and again at right angles to East Seventy-sixth street one hundred and two (102) feet two (2) inches to the northerly side of East Seventy-sixth street; thence westerly along the northerly side of East Seventy-sixth street fifty (50) feet to the point or place of beginning,

—and hereby authorizes the Corporation Counsel to institute condemnation proceedings for the acquisition of the above described premises, which are assessed for the year 1903 at \$6,000; and be it further

Resolved, That the Board of Estimate and Apportionment, deeming it for the public interest that the title to all of said land should be acquired at a fixed or specified time, it is hereby directed that the title to said lands shall vest in The City of New York ten days after the filing of the oaths of the Commissioners to be appointed in accordance with the provisions of section 1437 of the Greater New York Charter.

Which was adopted by the following vote:

The Mayor, Comptroller, President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

The Secretary presented a report from the Appraiser of Real Estate, Department of Finance, relative to the selection of a site, for hospital purposes, located at the intersection of the Southern Boulevard and Crotona avenue, Borough of The Bronx, and a resolution authorizing the purchase of the same at a price not exceeding \$70,000.

Laid over.

The Secretary presented a resolution authorizing the issue of Corporate Stock to the amount of \$70,000 to provide means for the purchase of 3½ acres of land at the

junction of the Southern Boulevard and Crotona avenue, as a site for a new Fordham Hospital.

Laid over.

The Secretary presented the following communication from the President of the Borough of Brooklyn, requesting the transfer of \$14,000 to "Bureau of Highways—Labor, Maintenance and Supplies," together with the assent of the Commissioner of Water Supply, Gas and Electricity to the transfer of said amount from the appropriation made to his Department for 1903, entitled "Boroughs of Manhattan and The Bronx—Lamps and Lighting":

THE CITY OF NEW YORK, OFFICE OF THE PRESIDENT OF THE BOROUGH OF BROOKLYN,  
BROOKLYN, October 8, 1903.

Hon. SETH LOW, Chairman, Board of Estimate and Apportionment, New York City,  
N. Y.:

DEAR SIR—Because of emergency arising from great mileage of asphalt pavement needing repair and the high cost of materials for street repairs, I am obliged to ask the transfer by the Board of Estimate and Apportionment from any available account to the account of "Labor, Maintenance and Supplies," Bureau of Highways, President of the Borough of Brooklyn, of the sum of fourteen thousand dollars (\$14,000), the same to be available as speedily as possible.

I beg to remain,

Very truly yours,

J. EDW. SWANSTROM, President, Borough of Brooklyn.

DEPARTMENT OF WATER SUPPLY, GAS AND ELECTRICITY, COMMISSIONER'S OFFICE, NOS.  
13-21 PARK ROW,

CITY OF NEW YORK, October 7, 1903.

JAMES W. STEVENSON, Esq., Deputy Comptroller, and Secretary, Board of Estimate and Apportionment:

DEAR SIR—I hereby assent to the transfer of the sum of \$14,000 to the appropriations of the President of the Borough of Brooklyn from the appropriation made to this Department for the Boroughs of Manhattan and The Bronx for the year 1903, entitled "Lamps and Lighting."

Very respectfully,

R. G. MONROE,

Commissioner of Water Supply, Gas and Electricity.

The following resolution was offered:

Resolved, That the sum of fourteen thousand dollars (\$14,000) be and the same is hereby transferred from the appropriation made to the Department of Water Supply, Gas and Electricity for the year 1903, entitled "Boroughs of Manhattan and The Bronx—Lamps and Lighting," the same being in excess of the amount required for the purposes thereof, to the appropriation made to the President of the Borough of Brooklyn for 1903, entitled "Bureau of Highways—Labor, Maintenance and Supplies," the amount of said appropriation being insufficient.

Which was adopted by the following vote:

The Mayor, Comptroller, President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

The Secretary presented the following report of the Engineer of the Department of Finance, relative to a request of the President of the Board of Trustees, Bellevue and Allied Hospitals, for an appropriation of \$300,000 for the completion of the Gouverneur Hospital:

CITY OF NEW YORK—DEPARTMENT OF FINANCE, COMPTROLLER'S OFFICE,  
September 29, 1903.

Hon. EDWARD M. GROUT, Comptroller:

SIR—Hon. John W. Brannan, President of the Board of Trustees of Bellevue and Allied Hospitals, in communication under date of September 18, 1903, transmits the plans and specifications for the alterations to Gouverneur Hospital. The President states that a careful estimate indicates that the cost of the new construction will be about \$300,000, and requests that the Board of Estimate and Apportionment authorize the issue of Corporate Stock of The City of New York to that amount for the completion of the hospital.

I would report the working drawings and specifications for the completion of the construction of the Gouverneur Hospital show and describe in general the alteration and rearrangement of the interior of the old building and the addition of a new wing, a new morgue and autopsy room, a new ambulance house and stable, and a driveway in the courtyard for the service of the ambulance. The design indicates a perfectly equipped, complete and modern hospital building, with every improvement and convenience necessary to successful operation, and the floor plans, as well as the exterior, appear to provide in the most economical manner and to the best advantage for the anticipated needs of the service.

Architecturally, the design of the new work of necessity conforms to the old, and the construction of the work is strictly fireproof throughout.

The alterations and the new work are arranged and described so that they may be carried on to completion with the least possible annoyance to the patients and with practically no interference with the continuous operation of the hospital service. This work and its scheme of building present a very interesting feature of the conditions necessary to be met with in the undertaking. It will be noticed that: (a) the old smokestack, taking up almost one-half of the old toilet rooms, is removed and replaced on the exterior of the building; (b) the small and inadequate elevator and stair are replaced with two large elevators and two stairways; (c) the very cramped and inefficient laundry and kitchen are removed from the fourth floor to the basement and provided with a complete equipment and all necessary rooms; (d) the present boiler room, which is entirely too small and has already burned out the window sashes, and in which there is no space for an extra boiler, is changed in position and placed in front of the coal storage room (which is also increased in size), so that in the future it will not be necessary to carry the coal and ashes through the machinery room from the boiler room; (e) the machinery which is scattered around the basement, and which blocks the corridor with which it was proposed to connect the two wings, is collected together and rearranged properly in connection with the new machinery and equipment; (f) a fan room is provided and the fresh air is brought from the exterior through ducts, filtered free of dust, warmed by a tempering coil, then moistened and forced by blowers through ducts into all wards, operating and isolated rooms, the dispensary, etc., and the foul air is drawn out with assistance of fans from all these wards, rooms, toilets, kitchens, laundry and the like, whereas, in the old building the air is at present drawn from the basement (occupied by the morgue, coal, boiler machinery rooms and dispensary), and the vents seem never to have been connected up or completed for operation; (g) complete provisions are made for the electrical plant, as no electrical work exists in the old building.

I am informed by the architect that when the original appropriation of \$125,000 was requested by the Board it was the intention to simply erect a new wing. Upon a close examination and study of the detail conditions of the old building and the necessity, on account of the large service of this hospital, in the most thickly populated section of the city, of providing the best sort of equipment to meet the demands of the situation, the Board of Bellevue and Allied Hospitals evidently concluded to secure the best ability and convert the old building by alterations and additions into a thoroughly modern, up-to-date hospital.

I would call your attention to the following facts, viz.: In the old hospital the one small elevator carries the sick and dead, the food and soiled linen and the freight and passengers, and with stairs would not be passed by the Bureau of Buildings to serve the new wing contemplated. The old morgue, which occupies the room adjoining the present meat storage room, and one-half of which refrigerator is the mortuary refrigerator and the other half the meat storage refrigerator, is crowded out fortunately by the necessity of the increase in the size of the machinery room, and the new morgue is placed outside of the hospital building and entirely independ-

ently of it, with an autopsy room. The laundry and kitchen, which in the old building occupy valuable room on the fourth floor, have been removed to the basement. The dispensary has been moved up from the basement to the west wing, and is largely increased in size and efficiency, and provided with an X-ray room for the examination of patients. The accident ward is extended so as to include the entire east wing from north to south, and includes separate waiting, examination and toilet rooms, and emergency operating room, and an ice bathroom for the treatment of cases of heat prostration. The capacity of ward accommodation has been practically doubled, and the new arrangement increases greatly the effectiveness and service of both the dispensary and accident ward and all other wards. A driveway is brought up to the first floor in the courtyard by means of which ambulance patients are brought by a private and separate entrance immediately to the accident ward. The rearrangement and additions to the boilers and coal space, as well as the machinery and plant, provide for much more efficient and economical operation of the same, and in conjunction with the remodeling of the old system of heating and ventilating and the addition of the new there results a thoroughly complete layout in this very vital and important part of the hospital equipment. Practically no diet kitchens existed in the old building, and it has been necessary to provide them for all wards for the proper care and serving with food of the patients. Serving pantries are provided on every floor, and food is served direct from the kitchen service pantry by three dumbwaiters, providing a separate dumbwaiter service for the hospital staff and nurses. No electrical wiring or conduits existed in the present building, and it has been necessary to not only provide for these but to further provide for the new work and the proper operation of all of it. The accessory rooms to the main operating room in the old building are insufficient and incomplete, and it has been necessary to provide Surgeon's dressing room, etherizing room, sterilizing and bandage room and recovery rooms. The help are now quartered outside and in the basement, whereas the new design provides abundantly well lighted and ventilated rooms and toilets for all on the attic floor of the main building and the second floor of the ambulance house. At present the ambulance, horses and help are in rented quarters, whereas the new design provides a separate building for their accommodation. In general, I may add the new design appears to well provide for all future contingencies, and places the entire operation of the hospital and the supervision of the help under the immediate control of the Hospital Superintendent. Rooms are provided for the accommodation of a complete staff and for all Nurses.

A close study of the conditions shows the old building to be inadequate, lacking in latest improvements and partly unfinished.

Mr. Almirall, architect, has submitted to me the following approximate estimates:

Alterations to present Gouverneur Hospital .....	\$96,400 00	
New wing .....	150,300 00	
Morgue, roads and stable .....	50,600 00	
		\$297,300 00
Architect's Fees—		
7½ per cent. on \$96,400, alterations .....	\$7,230 00	
5 per cent. on \$200,900, general construction .....	10,045 00	
2½ per cent. on \$100,000, expert work .....	2,500 00	
		19,775 00
Total .....		\$317,075 00

On March 27, 1903, the Board of Estimate and Apportionment authorized \$3,500 to provide means for the preparation for the necessary plans and specifications for completing the structure of the Gouverneur Hospital, and on July 15, 1903, an additional \$4,000, making a total of \$7,500.

After a careful study and examination of the work contemplated, I am of the opinion that the work proposed to be done will secure to the City one of the best equipped and most thoroughly complete hospitals, and I think the Board of Estimate and Apportionment, pursuant to section 47 of the Greater New York Charter, may properly authorize the issue of Corporate Stock to the amount of \$300,000, less \$7,500 previously authorized to provide for the completion of Gouverneur Hospital.

Attached find a detailed statement of the accommodations in approximate floor areas per floor in the old building compared with the new.

Respectfully,  
EUG. E. McLEAN, Engineer.

EUG. E. McLEAN, Engineer.

BELLEVUE AND ALLIED HOSPITALS, OFFICE OF THE BOARD OF TRUSTEES, BELLEVUE HOSPITAL, FOOT OF EAST TWENTY-SIXTH STREET,  
NEW YORK, September 18, 1903.

Hon. J. W. STEVENSON, Secretary, Board of Estimate and Apportionment, No. 280 Broadway, New York City:

SIR—The plans and specifications for the alterations and additions to Gouverneur Hospital have been prepared by the architect and the plans have been filed with the Bureau of Buildings. A careful estimate indicates that the cost of the new construction will be about \$300,000, and I would therefore request that the Board of Estimate and Apportionment authorize the issue of Corporate Stock of The City of New York to that amount for the completion of Gouverneur Hospital.

Respectfully yours,

JOHN W. BRANNAN, President Board of Trustees.

The following resolution was offered:

Resolved, That, pursuant to the provisions of section 47 of the Greater New York Charter, the Board of Estimate and Apportionment hereby approves of the issue of Corporate Stock of The City of New York to an amount not exceeding two hundred and ninety-two thousand five hundred dollars (\$292,500) to provide additional means to complete the construction of the Gouverneur Hospital, in the Borough of Manhattan, and that when authority therefor shall have been obtained from the Board of Aldermen the Comptroller is authorized to issue Corporate Stock of The City of New York, in the manner provided by section 169 of the Greater New York Charter, to an amount not exceeding two hundred and ninety-two thousand five hundred dollars (\$292,500), the proceeds whereof to be applied to the purposes aforesaid.

Which was adopted by the following vote:

The Mayor, Comptroller, President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

The Secretary presented the following report of the Appraiser of Real Estate, Department of Finance, relative to the selection of a site for a hospital for contagious diseases, located on Eastchester road, in the Borough of The Bronx, together with resolution authorizing the purchase of the same at a price not exceeding \$4,000 per acre:

CITY OF NEW YORK—DEPARTMENT OF FINANCE, COMPTROLLER'S OFFICE,  
October 6, 1903.

Hon. EDWARD M. GROUT, Comptroller:

SIR—The Department of Health requests the purchase of a piece of property located on Eastchester road, in the Borough of The Bronx, as shown on the survey hereto annexed, as a site for a hospital for contagious diseases and a vaccine stable.

The property is owned by Mr. J. J. Gleason, and the map originally submitted for this plot showed a two-story frame dwelling 20 feet by 30 feet, and an old one-story frame barn, the rest of the property being vacant. On the new survey they have eliminated a plot 50 feet by 100 feet, upon which the house and barn were

erected. The plot fronts 131.51 feet on Eastchester road. The land is high and rolling and fairly well wooded. It is known on the tax maps as Ward 24, volume 8, plot 13, Lots Nos. 7 and 9, an irregular L-shaped plot, about 200 feet north of the New York, New Haven and Hartford Railroad Company's crossing. According to the survey, there are 7.922 acres in the plot.

The price at which this property was offered to the City and mentioned in the resolution of the Department of Health, is \$5,000 an acre, but after negotiating with the owner, he has agreed to accept the value we placed upon it, viz., \$4,000 per acre, and I would respectfully recommend to the Board of Estimate and Apportionment that they adopt a resolution authorizing the purchase of the site shown on the survey at a price not exceeding \$4,000 an acre.

Respectfully submitted for approval,

MORTIMER J. BROWN,

Appraiser of Real Estate in Charge of Bureau.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment hereby approves of the selection of a site for a hospital for contagious diseases and a vaccine stable, located on the Eastchester road, in the Borough of The Bronx, bounded and described as follows:

Beginning at a point on the westerly side of Eastchester road, where a wire fence along the southeasterly side of the property hereby intended to be conveyed adjoins the said westerly side of Eastchester road, as is more clearly shown on the survey of the property made by Francis W. Ford, City Surveyor, July 27, 1903; running thence northerly along the westerly side of Eastchester road S. 7 degrees 34 minutes 4 seconds W. 112.31 feet; thence again northerly S. 9 degrees 31 minutes 14 seconds W. 19.21 feet to a wall; thence westerly S. 71 degrees 33 minutes 45 seconds E. 100 feet; thence northerly S. 9 degrees 31 minutes 14 seconds W. 50 feet to the centre line of a stone wall, partly on the premises hereby intended to be conveyed and partly on the premises next adjoining on the north; thence westerly along the centre line of the stone wall S. 71 degrees 33 minutes 45 seconds E. 877.43 feet; to the junction of another stone wall; thence south through the centre line of said stone wall, partly on the premises hereby intended to be conveyed and partly on the premises next adjoining on the west N. 17 degrees 11 minutes 30 seconds W. 340.75 feet to the junction of another stone wall; thence southeasterly along the centre line of the said stone wall, partly on the premises hereby intended to be conveyed and partly on the premises adjoining on the south N. 70 degrees 2 minutes 50 seconds W. 32.23 feet; thence again southeasterly N. 67 degrees 20 minutes 44 seconds W. 60 feet; thence again southeasterly N. 65 degrees 20 minutes 54 seconds W. 373.84 feet to the junction of another stone wall; thence southwesterly through the centre line of a stone wall, partly on the premises hereby intended to be conveyed and partly on the premises adjoining on the west N. 30 degrees 56 minutes 20 seconds E. 4 feet; thence again southwesterly N. 17 degrees 51 minutes 10 seconds E. 59.06 feet; thence again southwesterly N. 16 degrees 46 minutes 40 seconds E. 168.50 feet to the junction of another stone wall; thence again southeasterly through the centre of the said stone wall, partly on the premises hereby intended to be conveyed and partly on the premises adjoining on the southwest N. 36 degrees 7 minutes 16 seconds W. 93.49 feet; thence again southeasterly N. 23 degrees 58 minutes 37 seconds W. 132.47 feet to a wire fence; thence in a southeasterly direction on a curved line with a radius equal to 2,714.93 feet, 370.55 feet; thence again northeasterly along said curved line S. 34 degrees 23 minutes 15 seconds W. 186.36 feet to the point or place of beginning, containing 7.922 acres, as shown by said survey.

—and the Comptroller of The City of New York is hereby authorized to enter into an agreement for the purchase of the property above described at a price not exceeding \$4,000 per acre, which agreement or contract is to be submitted to the Corporation Counsel for his approval.

Which was adopted by the following vote:

The Mayor, Comptroller, President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

The following resolution was offered:

Resolved, That, pursuant to the provisions of section 47 of the Greater New York Charter, the Board of Estimate and Apportionment hereby approves of the issue of Corporate Stock of The City of New York to an amount not exceeding thirty-four thousand dollars (\$34,000) to provide means for the purchase, surveying, etc., of a site for a hospital for contagious diseases and a vaccine stable, located on the Eastchester road, in the Borough of The Bronx, and that when authority therefor shall have been obtained from the Board of Aldermen, the Comptroller is authorized to issue Corporate Stock of The City of New York, in the manner provided by section 169 of the Greater New York Charter, to an amount not exceeding thirty-four thousand dollars (\$34,000), the proceeds whereof to be applied to the purposes aforesaid.

Which was adopted by the following vote:

The Mayor, Comptroller, President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

The Secretary presented the following report of the Appraiser of Real Estate, Department of Finance, relative to the acquisition of property situated at No. 278 Spring street, Borough of Manhattan, as a site for buildings for the use of the Fire Department, and a resolution authorizing the institution of condemnation proceedings for the acquisition of the same:

CITY OF NEW YORK—DEPARTMENT OF FINANCE, COMPTROLLER'S OFFICE,  
October 6, 1903.

Hon. EDWARD M. GROUT, Comptroller:

SIR—On the 13th day of March, 1903, the Board of Estimate and Apportionment, at a meeting, adopted a resolution authorizing the purchase of a parcel of land in Spring street, near Hudson, in the Borough of Manhattan, as a site for a Fire Department apparatus house. Three of the parcels of land have been purchased at private sale.

An examination of the title to the premises known as No. 278 Spring street indicates there is a cloud upon the title which can only be removed by condemnation proceedings. The Commissioner of the Fire Department in a communication under date of August 10, requests that this be done under the advice of the Corporation Counsel.

I would therefore recommend to the Board of Estimate and Apportionment that they adopt a resolution authorizing the institution of condemnation proceedings for the acquisition of the premises known as No. 278 Spring street, in the Borough of Manhattan, as part of a site for an apparatus house for the Fire Department.

Respectfully submitted for approval,

MORTIMER J. BROWN,

Appraiser of Real Estate in Charge of Bureau.

HEADQUARTERS, FIRE DEPARTMENT, CITY OF NEW YORK, NOS. 157 AND 159 EAST SIXTY-SEVENTH STREET,

BOROUGH OF MANHATTAN, August 10, 1903.

To the Honorable Board of Estimate and Apportionment of The City of New York:

GENTLEMEN—I have the honor to inform you that, pursuant to the statute in such case made and provided, I have selected as a site for an apparatus house for this Department the following property, a part of which it will be necessary to acquire by resort to condemnation proceedings, to wit:

All that certain plot, piece or parcel of land situate, lying and being in the Borough of Manhattan, City of New York, and bounded and described as follows:

Beginning at a point on the southerly line of Spring street distant 103 feet 3 inches easterly from the corner formed by the intersection of the easterly line of Hudson street and the southerly line of Spring street; running thence southerly and parallel with Hudson street 87 feet 6 inches; thence easterly and parallel with Spring street 72 feet 5 inches; thence northerly parallel with Hudson street 87 feet 6 inches to the southerly line of Spring street, and thence westerly along said southerly line of Spring street 72 feet 6 inches to the point or place of beginning.

Funds for the acquirement of this site are available from the proceeds of the bond issue of 1903, authorized by the Board of Estimate and Apportionment by resolution adopted July 1, 1903.

As the initial step in the course of procedure for the acquisition of the plot, by advice of the Corporation Counsel, I inclose herewith certified copy of order made by me on the 4th inst., selecting the same as a site for the purposes of this Department in conformity with the provisions of section 1436a of the Greater New York Charter and a form of resolution prepared by the Corporation Counsel, and request that it be approved by your Honorable Board.

Respectfully,

THOS. STURGIS, Commissioner.

I, Thomas Sturgis, Fire Commissioner of The City of New York, do hereby select as a site for buildings for the use of the Fire Department of The City of New York all those certain lots, pieces or parcels of land, situate, lying and being in The City of New York, Borough of Manhattan, bounded and described as follows:

Beginning at a point on the southerly line of Spring street distant 103 feet 3 inches easterly from the corner formed by the intersection of the easterly line of Hudson street and the southerly line of Spring street; running thence southerly and parallel with Hudson street 87 feet 6 inches; thence easterly and parallel with Spring street 72 feet 5 inches; thence northerly and parallel with Hudson street 87 feet 6 inches to the southerly line of Spring street, and thence westerly along said southerly line of Spring street 72 feet 6 inches to the point or place of beginning.

Dated New York, August 4, 1903.

THOS. STURGIS, Fire Commissioner.

I hereby certify that the foregoing is a true copy of original order filed in this Department on the 4th day of August, 1903.

WILLIAM LEARY, Secretary.

Whereas, The Fire Commissioner did heretofore select as a site for buildings for the use of the Fire Department certain lots situated in the Borough of Manhattan, bounded and described as follows:

Beginning at a point on the southerly line of Spring street distant one hundred and three (103) feet three (3) inches easterly from the corner formed by the intersection of the southerly line of Spring street with the easterly line of Hudson street; running thence southerly and parallel with Hudson street eighty-seven (87) feet six (6) inches; thence easterly and parallel with Spring street seventy-two (72) feet five (5) inches; thence northerly and parallel with Hudson street eighty-seven (87) feet six (6) inches to the southerly line of Spring street, and thence westerly along the southerly line of Spring street seventy-two (72) feet five (5) inches to the point or place of beginning, said premises being known as Nos. 278, 280, 282 and 284 Spring street; and

Whereas, The City of New York has acquired by purchase Nos. 280, 282 and 284 Spring street, but has been unable to acquire No. 278 Spring street, owing to inability on the part of the owner to give a good title,

Resolved, That the Board of Estimate and Apportionment hereby approve the acquisition of the property selected by the Fire Commissioner, and the Corporation Counsel is hereby authorized to institute proceedings for the acquisition of such portion of said premises above described as have not been acquired by purchase by The City of New York. Said premises, No. 278 Spring street, are assessed for the year 1903 at the sum of \$10,000.

Which was adopted by the following vote:

The Mayor, Comptroller, President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

The Secretary presented the following communications from the Assistant Secretary of the Fire Department and the Appraiser of Real Estate, Department of Finance, relative to the selection of a site for the Fire Department for Engine Company 157, in the Borough of Brooklyn, also resolution authorizing the purchase of the same at a price not exceeding \$1,500:

HEADQUARTERS, FIRE DEPARTMENT, CITY OF NEW YORK, NOS. 157 AND 159 EAST SIXTY-SEVENTH STREET,

BOROUGH OF MANHATTAN, October 5, 1903.

HUBERT L. SMITH, Esq., Assistant Deputy Comptroller, City of New York, Department of Finance, No. 280 Broadway, New York City:

SIR—I am directed by Commissioner Sturgis to acknowledge receipt of your letter of the 29th ult., offering as a site for Engine Company 157, Brooklyn, a plot of land on the southeast corner of Rockaway avenue or parkway and Avenue F or Farragut road, Canarsie, the plot being 80 feet on Rockaway avenue and 100 feet on Avenue F, and to inform you that the location has been found suitable for Engine Company 157, and to request that the same be purchased for the use of this Department.

Respectfully,

JOHN R. SHIELDS, Assistant Secretary.

CITY OF NEW YORK—DEPARTMENT OF FINANCE, COMPTROLLER'S OFFICE, October 6, 1903.

Hon. EDWARD M. GROUT, Comptroller:

SIR—The Commissioner of the Fire Department has requested the consent of the Board of Estimate and Apportionment for the purchase of a piece of property located on the southeast corner of Rockaway avenue and Avenue F, in the Borough of Brooklyn, being about 80 feet front on Rockaway avenue and 100 feet deep on Avenue F, as a location for a site for Engine Company 157. Engine Company 157 now occupies premises on Rockaway avenue and Flatbush avenue, about three blocks from the site proposed to be purchased. This property has been leased for quite a number of years, and there has been more or less trouble in the matter of the leases. On the 1st day of October the old lease expired and the owner of the premises refused to renew the lease unless he received an increase in rent amounting to \$300. This increase was beyond the actual value of the leasehold, as the rental value did not exceed \$400. It was simply a question of renewing the lease or getting off the property. As the Fire Department had to have the premises, the Commissioners of the Sinking Fund, under the circumstances, were compelled to renew the lease.

A representation was made to the Fire Department by this office that a site be selected somewhere in the vicinity and an engine house erected thereon, so that the City would not be compelled to renew this lease.

This office has an option on the property desired to be purchased for \$1,500. This price is reasonable and just, and I would respectfully recommend to the Board of Estimate and Apportionment that they adopt a resolution authorizing the purchase of this property at a price not exceeding \$1,500.

Respectfully submitted for approval,

MORTIMER J. BROWN,

Appraiser of Real Estate in Charge of Bureau.

Resolved, That the Board of Estimate and Apportionment hereby approves of the selection of a site for the Fire Department for Engine Company 157, in the Borough of Brooklyn, bounded and described as follows:

All that certain piece or parcel of land in the Thirty-second Ward of the Borough of Brooklyn, County of Kings, City and State of New York, bounded and described as follows:

Beginning at a point formed by the intersection of the easterly line of Rockaway avenue or Rockaway parkway and the southerly line of Avenue F or Farragut road; running thence southerly along the easterly line of Rockaway avenue or parkway eighty (80) feet; thence easterly and parallel with Avenue F or Farragut road one hundred (100) feet; thence northerly and parallel with Rockaway avenue or parkway eighty (80) feet to the southerly line of Avenue F or Farragut road; thence westerly along the southerly line of Avenue F or Farragut road one hundred (100) feet to the point or place of beginning, together with all the right, title and interest of the owners of said premises of, in and to the streets in front thereof to the centre thereof,

—and the Comptroller of The City of New York is hereby authorized to enter into an agreement for the purchase of the same at a price not exceeding fifteen hundred dollars (\$1,500), said contract to be approved by the Corporation Counsel as to form.

Which was adopted by the following vote:

The Mayor, Comptroller, President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

The Secretary presented the following communications from the Commissioner of the Fire Department and the Appraiser of Real Estate, Department of Finance, relative to the selection of a site for an addition to the site of Hook and Ladder Company 2 on East Fiftieth street and Lexington avenue, Borough of Manhattan, also resolution authorizing the institution of condemnation proceedings for the acquisition of the same:

HEADQUARTERS, FIRE DEPARTMENT, CITY OF NEW YORK, NOS. 157 AND 159 EAST SIXTY-SEVENTH STREET,

BOROUGH OF MANHATTAN, October 1, 1903.

Hon. EDWARD M. GROUT, Comptroller, City of New York, No. 280 Broadway, New York City:

SIR—I have the honor to request that the premises located on the south side of East Fiftieth street, 24 feet 2 inches east of Lexington avenue, being a lot 21 feet 2 inches by 105 feet covered by a two-story building, be purchased for the use of this Department. The assessed valuation of the property is \$8,000; owner, Hugh King. This property adjoins the quarters of Hook and Ladder Company 2 and is required for the purpose of extending the present quarters.

Respectfully,

THOS. STURGIS, Commissioner.

CITY OF NEW YORK—DEPARTMENT OF FINANCE, COMPTROLLER'S OFFICE,

October 6, 1903.

Hon. EDWARD M. GROUT, Comptroller:

SIR—Regarding the lot on the south side of East Fiftieth street, 24 feet 2 inches east of Lexington avenue, Borough of Manhattan, which is needed by the Fire Department as an addition to the site of Hook and Ladder Company 2, I have the honor to report as follows:

This is Section 5, Volume 1, Block 1304, Lot No. 53, street number 128 East Fiftieth street, an irregular lot, 21 feet 2 inches front, 16 feet 4½ inches rear, 100 feet 5 inches deep, and having an area of 1,883 square feet, or about three-fourths of a full city lot. The lot is covered by an old one and two-story brick building of practically no value, which the owner, Hugh King, of No. 13 William street, tells me was leased about two months ago to a carpenter named Love at \$70 per month. This lease does not expire until May 1, 1908. The old building is now used by the lessee for the storage of second-hand building material.

The assessed valuation placed upon this property for the year 1903 was \$10,000, but was afterwards reduced to \$8,000 by the Tax Commissioners. To obtain this reduction the owners filed a statement February 7, 1903, in which he says that the property is leased for \$660 a year, and that in his opinion it "should not be valued at more than \$5,500," which was the price paid by him at auction in 1870.

In this same affidavit Mr. King mentions No. 120 East Fiftieth street, adjoining, 18 feet by 100 feet 5 inches by 22 feet 0½ inches, with a four-story brick flat in good order, assessed at \$12,000, "which," he says, "I consider an excessive valuation, taking into consideration what property adjacent to it was sold for within the year." He also calls attention to the fact that No. 136 East Fiftieth street, about 80 feet east of his property, a lot 20 feet by 100 feet 5 inches, with a four-story flat in good condition, was sold at auction June 7, 1902, for \$0,500.

Mr. King informs me that he has had several people after this property within the past two weeks, and that only yesterday a real estate agent, whose name he could not recall, offered him \$10,000 for it. He says his price "to the City" is \$20,000.

In my opinion the present full market value of this property, lot and building, is not over \$0,000.

Inasmuch as it will be impossible to purchase this property at its market value, and for the reason that there is a lease upon the property which could not be removed without condemnation proceedings, I would respectfully recommend that the Board of Estimate and Apportionment adopt a resolution authorizing the institution of condemnation proceedings for the acquisition of this site.

Respectfully submitted for approval,

MORTIMER J. BROWN,

Appraiser of Real Estate in Charge of Bureau.

Resolved, That the Board of Estimate and Apportionment hereby approves of the selection of a site as an addition to the site of Hook and Ladder Company 2, located in the Borough of Manhattan, bounded and described as follows:

Which was adopted by the following vote:

The Mayor, Comptroller, President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

The Secretary presented the following report of the Engineer of the Department of Finance relative to form of contract submitted by the Commissioner of Street Cleaning for the final disposition of garbage in the Borough of The Bronx for a term of five (5) years:

CITY OF NEW YORK—DEPARTMENT OF FINANCE, COMPTROLLER'S OFFICE,

October 6, 1903.

Hon. EDWARD M. GROUT, Comptroller:

SIR—Hon. John McGaw Woodbury, Commissioner of Street Cleaning, in communication under date of October 5, 1903, to the Board of Estimate and Apportionment, transmits for the approval of the terms and conditions thereof, pursuant to section 544 of the Greater New York Charter, a form of contract in triplicate, approved as to form by the Corporation Counsel, for the final disposition of garbage in the Borough of The Bronx for a term of five (5) years.

The Commissioner states that—

"The necessity of this contract arises from the fact that the contract entered into last year with the Decarie Manufacturing Company of Minneapolis, Minn., and assigned to the Decarie Incinerating Company with my consent, and which included the disposition of rubbish as well as the garbage, was unsatisfactory from the first. The location of the plant provided by the contractor met with opposition from a great many persons in the Borough of The Bronx, and the plant itself was incapable of properly performing the work. With the consent of all parties, therefore, and the approval of your Board (by resolution of September 2, 1903), that contract was terminated to take effect July 1, 1903."

The Commissioner further adds:

"I have omitted rubbish disposal from this contract because the conditions attending the disposition of rubbish both as to place and method are quite different from those required for the disposition of garbage."

The contract as proposed contains the following terms and conditions:

1. The term "garbage" means the refuse of an organic nature, not including street sweepings, collected by the carts of the Department of Street Cleaning or by other carts authorized by the Commissioner of Street Cleaning, for delivery at the contractor's plant or City dump, and containing not more than 5 per cent. of other refuse.

2. Each bid or estimate must be accompanied by a complete description of the form and the manner of the work to be pursued by the contractor, said description to be accompanied by complete plans and specifications, such plans and specifications to be sufficiently full to set forth the method to be used and the results to be secured.

3. The plant must be capable of taking care of 110 tons of 2,000 pounds each of garbage per day, which is estimated to be the maximum daily output.

4. Term, five years from date of the Comptroller's certificate.

5. The amount of security required is \$50,000.

6. That the contractor will provide at his own expense all the dumping places for the delivery of the garbage by the City, and shall designate them in his bid.

7. The contract price is a lump sum per annum to be paid monthly. During the time the contractor shall perform the work under the contract, one-twelfth part of the annual price or sum aforesaid on the 15th day of each month; provided, however, that the City shall and may deduct and retain from each of such payments, as the same shall become due, 10 per cent. thereof, to be paid each year to the contractor within thirty days after the 31st day of December thence next ensuing.

8. The contract price will be the sole compensation for the work to be performed under the contract.

9. Liquidated damages for delays: \$1 for each and every cart load of garbage that the contractor shall fail to receive or dispose of.

10. Time allowed for disposing of garbage, twenty-four hours after delivery.

The contract is similar in form with a few exceptions to the contract forwarded to the Board of Estimate and Apportionment and approved by the Board on July 8, 1902, for final disposition of garbage and rubbish and light refuse of the Borough of The Bronx for a term of five years. The present contract only provides for the final disposition of garbage; rubbish and light refuse not being included. The security is increased from \$20,000 to \$50,000; in other respects the forms of contract are similar.

I have carefully examined the form of contract and specifications, and have no objections to offer, and would recommend that the same be approved, pursuant to section 544 of the Greater New York Charter, by the Board of Estimate and Apportionment.

Respectfully,

EUG. E. McLEAN, Engineer.

DEPARTMENT OF STREET CLEANING,  
NEW YORK, October 5, 1903.

Hon. SETH LOW, Mayor, Chairman, Board of Estimate and Apportionment:

SIR—I transmit herewith for the approval of the terms and conditions thereof by your Board, pursuant to section 544 of the Greater New York Charter, a form of contract in triplicate approved as to form by the Corporation Counsel for the final disposition of garbage in the Borough of The Bronx for a term of five (5) years.

The necessity of this contract arises from the fact that the contract entered into last year with the Decarie Manufacturing Company of Minneapolis, Minn., and assigned to the Decarie Incinerating Company with my consent, and which included the disposition of rubbish as well as the garbage, was unsatisfactory from the first. The location of the plant provided by the contractor met with opposition from a great many persons in the Borough of The Bronx, and the plant itself was incapable of properly performing the work. With the consent of all parties therefore and the approval of your Board (by resolution of September 2, 1903) that contract was terminated to take effect July 1, 1903.

I have omitted rubbish disposal from this contract because the conditions attending the disposition of rubbish both as to place and method are quite different from those required for the disposition of garbage.

Respectfully,

JOHN McGAW WOODBURY, Commissioner.

Resolved, That, pursuant to the provisions of section 544 of the Greater New York Charter, the Board of Estimate and Apportionment hereby approves of the terms and conditions contained in the form of contract submitted in triplicate by the Commissioner of Street Cleaning under date of October 5, 1903, for the final disposition of garbage in the Borough of The Bronx for a term of five (5) years.

Which was adopted by the following vote:

The Secretary presented the following resolution of the Board of Education, requesting the Board to ratify the action of the Board of Education, taken and dated January 28, 1903, in fixing the salaries of Inspector of Sanitary Work, Inspector of Furniture and Inspector of Heating and Ventilating at \$30 per week:

To the Board of Education:

The Committee on Buildings respectfully reports that on January 28, 1903 (see Journal, pages 157-159), a report and resolution was adopted fixing the salaries of sundry Inspectors who, on January 1, 1903, had completed three or more years of service in the Department of Education, at \$30 per week, that salary having been fixed by the Board of Aldermen for the position of Inspector in the Bureau of Buildings.

It appears, however, that the salary named had been fixed for the position of Inspector of Repairs, and was not applicable to the positions of Inspectors of Sanitary Work, Furniture and Heating and Ventilating. In order to carry out the intention of the Board of Education as above set forth, it will be necessary for action to be taken by the Board of Estimate and Apportionment and the Board of Aldermen.

The following resolution is submitted for adoption:

Resolved, That the Board of Estimate and Apportionment be and it is hereby requested to recommend to the Board of Aldermen that the salaries of the following-named positions in the Department of Education be fixed at the amounts named below:

	Per week.
Inspector of Sanitary Work.....	\$30 00
Inspector of Furniture.....	30 00
Inspector of Heating and Ventilating.....	30 00

—and to ratify and confirm the action of the Board of Education taken on January 28, 1903 (see Journal, pages 157-159), in increasing the salaries of sundry Inspectors of Sanitary Work, Furniture and Heating and Ventilating to the amount above stated, viz., \$30 per week.

J. W. STEVENSON, Esq., Secretary, Board of Estimate and Apportionment:

SIR—In pursuance of the provisions of section 178 of the amended Greater New York Charter, there have been authorized by your Board during 1903 issues of bonds for water supply purposes aggregating \$1,984,501.74, and there remains a balance of \$15,498.26, which your Board, without the concurrence of the Board of Aldermen, may still authorize for water supply purposes during the present year.

I respectfully request that your Board will authorize the issue of bonds to the said amount of \$15,498.26 for the purpose of paying the expense of the contract of December 16, 1902, made between the City and William H. Burr, Rudolph Hering and John R. Freeman, as a Commission on Additional Water Supply, this contract having been approved by your Board by resolution on December 12, 1902.

The Commission on Additional Water Supply is performing the most valuable services to the City, and its labors are almost concluded. In order to complete its work and render its final report, giving the details of all the results accomplished by it, the said sum of \$15,498.26 will be needed, in addition to the funds already appropriated.

I enclose herewith statement of bonds authorized during the year 1903 by your Board, under section 178, without the concurrence of the Board of Aldermen.

Respectfully,

R. G. MONROE,  
Commissioner of Water Supply, Gas and Electricity.

The following resolution was offered:

Resolved, That, pursuant to the provisions of sections 169 and 173 of the Greater New York Charter, the Board of Estimate and Apportionment hereby authorizes the Comptroller to issue Corporate Stock of The City of New York, in the manner provided by section 169 of the Greater New York Charter, to the amount of fifteen thousand four hundred and ninety-eight dollars and twenty-six cents (\$15,498.26), the proceeds whereof to be applied to the payment of additional expenses of the Commission on Additional Water Supply, consisting of Messrs. The Secretary presented the following communication from the Justice of the Municipal Court, Eighth District, requesting the transfer of \$150 to "Supplies and Contingencies":

MUNICIPAL COURT OF THE CITY OF NEW YORK, BOROUGH OF MANHATTAN, EIGHTH DISTRICT, GRAND OPERA HOUSE HALL, NORTHWEST CORNER EIGHTH AVENUE AND TWENTY-THIRD STREET,

October 1, 1903.

To the Board of Estimate and Apportionment, New York City:

GENTLEMEN—I respectfully request that your Honorable Board transfer from the amount appropriated to this court for Salaries to the appropriation for Contingencies and Supplies, the sum of one hundred and fifty dollars.

This transfer is urgently necessary, as the amount given to this court for contingencies this year has not been enough to meet our expenses. A large proportion of the appropriation we have had to spend upon the library, which, owing to the long illness of the late Judge Stiner, had run behind and was absolutely inadequate for the proper conduct of the business of the court.

The transfer I request will be of great help to us in our work. I have communicated with the Comptroller in relation to the matter and he approves the transfer, especially in view of the fact that one of my Court Attendants has resigned, his resignation taking effect September 1, and as I have as yet made no appointment to succeed him, the amount of his salary is being saved to the City.

Trusting that you give favorable consideration to this request, and thanking you in anticipation, I remain

Yours very truly,

JAS. W. McLAUGHLIN, Justice.

The following resolution was offered:

Resolved, That the sum of one hundred and fifty dollars (\$150) be and the same is hereby transferred from the appropriation made to the Municipal Court (Eighth District), City of New York, for the year 1903, entitled "Salaries," the same being in excess of the amount required for the purposes thereof, to the appropriation made to said Municipal Court (Eighth District) for the year 1903, entitled "Supplies and Contingencies," the amount of said appropriation being insufficient.

Which was adopted by the following vote:

The Mayor, Comptroller, President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

The Secretary presented the following report of the Auditor of Accounts, Department of Finance, relative to the claim of the Hyde Fountain Company for \$250, alleged to be due for two fountains sold and delivered to The City of New York at the request of the Department of Docks and Ferries:

MARTIN H. VOGEL, LAW OFFICES, LORD'S COURT BUILDING, NO. 27 WILLIAM STREET, NEW YORK, May 27, 1902.

Hon. EDWARD M. GROUT, Comptroller of The City of New York, No. 280 Broadway, Borough of Manhattan, City of New York:

SIR—I herewith notify you that I demand payment of the sum of two hundred and fifty dollars for two fountains sold by the Hyde Fountain Company to The City of New York, and delivered by the Hyde Fountain Company to The City of New York at the foot of East Seventeenth street at the request of the Department of Docks and Ferries of The City of New York. One of these fountains was delivered on a day

in the latter part of November, 1901, or on a day in the beginning of December, 1901, and the other fountain was delivered on a day in the latter part of January, 1902, or the beginning of February, 1902.

Upon your failure to pay this claim, suit will be brought against The City of New York to enforce the payment of this claim.

Yours respectfully,

MARTIN H. VOGEL,  
Attorney for the Hyde Fountain Company.

The above sum is past due and bill was sent to the Department of Docks and Ferries.

In the Matter

of

Claim No. 11210 of the Hyde Fountain Company for \$250, alleged to be due for two fountains sold and delivered to The City of New York at the request of the Department of Docks and Ferries.

CITY OF NEW YORK—DEPARTMENT OF FINANCE, COMPTROLLER'S OFFICE,  
July 28, 1903.

Hon. EDWARD M. GROUT, Comptroller:

SIR—This division reported upon said claim under date of December 1, 1902. In said report reference was made to the fact that on July 25, 1902, a voucher of the Department of Docks and Ferries for \$250 for "drinking fountains" was transmitted to this Department; that said voucher contained a certificate of E. M. G. Thompson, an Inspector of the Department of Docks and Ferries, to the effect "that the work mentioned has been satisfactorily performed, and that the prices charged for the same are reasonable and just"; that this voucher also contained a certificate of William J. King, an Examiner of Claims in the Department of Finance, as to the correctness of calculations, extensions and proper certifications; that the said voucher also contained a certificate of Jackson Wallace, Deputy Commissioner of Docks; that the original order of the Department of Docks and Ferries for said two fountains was also thereto attached.

In said report, however, a recommendation was made that the claim in question be disallowed, said recommendation being based upon an opinion of the Corporation Counsel dated April 30, 1902, and rendered in the matter of the claim of Dunne & Co. for \$2,460.99 alleged to be due for work, labor and services rendered to the Department of Docks and Ferries in the month of January, 1902, in and about the park at the foot of East Seventeenth street, the park in which the two fountains in question were erected by the Hyde Fountain Company.

In said opinion the Corporation Counsel stated that the work performed by Dunne & Co. had been performed within the "marginal street, wharf or place which is most undoubtedly (Greater New York Charter, section 819) within the exclusive jurisdiction of the Department of Docks and Ferries"; that he is unable to find, however, any power in the Department of Docks and Ferries at the time this work was done to lay out a recreation ground; that it is impossible for him to say what the laying out of the recreation ground has to do with the improvement of a marginal wharf for the purpose of commerce; that the persons "who have done work and furnished materials under these orders have a right of action against the former Commissioners of Docks and Ferries personally, but I cannot see how they can have any claim against The City of New York for work which the Commissioners had no jurisdiction to order."

On May 22, 1903, M. H. Vogel, an attorney-at-law, through whom claimant's demand for payment was first made, addressed the following communication to this Department:

"Confirming my short talk with you this morning in re claim of Hyde Fountain Company and the claim of Dunne, I beg to call to your notice the fact that under chapter 504 of the Laws of 1903, relating to the Dunne claim, the Comptroller is authorized and empowered, in his discretion, to pay this claim without any action and without referring to the Board of Estimate. Likewise the Hyde Fountain Company claim, under chapter 502 of the Laws of 1903, the Comptroller is empowered, in his discretion, to pay this claim without referring to the Board of Estimate. These are the two bills, copies of which I left with you this morning. It is evident from them that these two claims can be paid forthwith upon sanction of the Comptroller.

"Will you favor me by putting these two claims through under these two laws as speedily as possible? I shall be obliged to you."

On May 15, 1903, in a communication to the Comptroller, the Corporation Counsel made reference to chapter 93 of the Laws of 1903:

"An act to legalize the acts of the Department of Docks and Ferries of The City of New York in laying out as a public park and playground the block bounded by the easterly side of Avenue C, the northerly side of Seventeenth street, the southerly side of Eighteenth street and the bulkhead line of the East river, and declaring such block of land to be a public park and playground."

He also stated that by the provisions of this act all the acts of the Department of Docks and Ferries in regulating, grading and improving said park are ratified, confirmed, legalized and approved.

It would seem that the action of the Commissioners of the Department of Docks and Ferries in ordering the aforesaid two fountains from the Hyde Fountain Company is likewise covered by said act.

Chapter 502 of the Laws of 1903, referred to in the communication of Attorney Vogel, above quoted, authorized the Comptroller to pass upon and adjust the claim of the Hyde Fountain Company and to issue Revenue Bonds of The City of New York for the amount at which he shall adjust said claim, the said amount to be included "in the estimate made by the Board of Estimate and Apportionment for the expenses of said City for the year 1904."

At the same session of the Legislature chapter 509 of the Laws of 1903 was enacted, permitting the Board of Estimate and Apportionment to "examine, audit and allow the claims, if any, of persons who have heretofore, under the request, direction or order of the Department of Docks and Ferries of The City of New York, furnished work, labor and service or materials or supplies for the regulation, grading and improvement as a public park and playground of the block bounded and embraced within the easterly side or line of Avenue C, the northerly line of Seventeenth street, the southerly line of Eighteenth street and the bulkhead line of East river, in the Borough of Manhattan, City of New York, provided, however, that the total amount of alleged claims when audited or allowed shall not exceed the sum of \$7,500."

It does not appear that said law is in any respect in conflict with chapter 502 of the Laws of 1903, except that the power of the Board of Estimate and Apportionment is limited to the audit of claims not exceeding the sum of \$7,500.

In view, therefore, of the foregoing and of the fact that it would appear that the charges for said fountains are reasonable, it would seem that said claim should be settled and adjusted in the sum of \$250, and it is respectfully recommended that this report be transmitted to the Board of Estimate and Apportionment for action pursuant to chapter 509, Laws of 1903.

It moreover appears that on June 4, 1903, an action was instituted on behalf of the Hyde Fountain Company by Martin H. Vogel, attorney.

Respectfully,

JEREMIAH T. MAHONEY, Auditor of Accounts.

Approved: N. TAYLOR PHILLIPS, Deputy and Acting Comptroller.

Approved: JAMES F. MCKINNEY, Chief of Division.

The following resolution was offered:

J. W. STEVENSON, Esq., Deputy Comptroller and Secretary, Board of Estimate and Apportionment:

DEAR SIR—The amount allowed for the appropriation made to this Department for the year 1903, in the boroughs of Manhattan and The Bronx, entitled "Supplies and Contingencies," is inadequate for the purpose intended, and there will be required for the balance of the year about one thousand dollars. That amount can be spared from the appropriation "Public Drinking Hydrants."

I therefore request that your Board transfer the sum of one thousand dollars (\$1,000) from the appropriation "Public Drinking Hydrants, 1903, Boroughs of Manhattan and The Bronx," to the appropriation "Supplies and Contingencies, 1903, Boroughs of Manhattan and The Bronx."

BELLEVUE AND ALLIED HOSPITALS, OFFICE OF THE BOARD OF TRUSTEES, BELLEVUE HOSPITAL, FOOT EAST TWENTY-SIXTH STREET,

NEW YORK, October 5, 1903.

Honorable J. W. STEVENSON, Secretary, Board of Estimate and Apportionment, No. 280 Broadway, New York City:

SIR—The Trustees of Bellevue and Allied Hospitals beg to submit for your kind consideration the inclosed statement which has been prepared by one of their number.

Respectfully,

JOHN W. BRANNAN, President, Board of Trustees.

The Trustees of Bellevue and Allied Hospitals are desirous of engaging a pathologist, whose services shall be devoted to Bellevue Hospital. At present the different colleges have their own curators, and the work done by them is with a special view to the teaching of students.

The hospital needs a pathologist who shall devote his time to research work alone. There is no important municipal hospital in any large city of Europe which has not its thoroughly equipped pathological laboratory, presided over by a pathologist of high repute, and the pathological laboratory is regarded in European hospitals, and has been for many years past, as one of their most important adjuncts.

All autopsies are made by the pathologist or his assistants, and in each case the question of whether or not the physician or surgeon who treated the patient when living has made a correct diagnosis of the case is determined by the post mortem. This serves as an important check upon the physicians who practice at the hospitals; but the pathologist, however, investigates not only the dead, but also the diseases of the living. Frequently obscure diseases occur in a hospital which the attending physician cannot accurately diagnose. An examination of the blood or of other tissue by the pathologist will show what the disease is. It is only necessary to call attention to some of the achievements of the pathological laboratories to establish at once their importance to the hospital.

It was due to the pathological research by Vidal that modern science can determine at once by an examination of the blood whether or not the patient is suffering from typhoid fever. This early knowledge insures correct treatment and has saved thousands of lives.

The research of Pasteur made it possible to treat rabies successfully, and also to extirpate the phylloxera which at one time threatened all the vineyards of France.

It was due to the pathological laboratory in more recent times that the antitoxin in diphtheria cases was discovered, and since the introduction of the antitoxin serum in the treatment of diphtheria this scourge has almost lost its terrors. Valuable researches are constantly being made in all the pathological laboratories, with a view to study the genesis of disease, so that weapons may be put into the hands of a physician for successfully combating it. This is especially true of contagious diseases. All these pathological laboratories keep accurate records of every examination that is made, and publish the same from time to time, or exchange information with other laboratories. In this way the scientific world is kept constantly informed as to the researches that are going on and the nature and character of the knowledge gained.

There are few institutions in which more valuable material goes to waste than at Bellevue Hospital. The diseases which are treated there are of every character and variety. The patients are drawn from all classes, and in the hands of a competent pathologist, properly equipped, Bellevue Hospital might be made one of the most important institutions engaged in the study of the origin and treatment of disease.

The City spends vast sums of money in order that the indigent classes may receive the best medical treatment. The only return that the City can expect from the free treatment of these patients is to add largely to the stock of medical knowledge, and this augmentation of knowledge can best be facilitated by the installation of a well equipped pathological laboratory, and the first step in this direction is to secure the services of a highly trained and learned pathologist.

The Comptroller offered the following resolution, approving of an issue of Corporate Stock to the amount of \$1,000,000 for the improvement of small parks in the Borough of Manhattan and the construction and improvement of parks, parkways, boulevards and driveways in the Boroughs of Brooklyn, Queens and The Bronx.

Resolved, That, pursuant to the provisions of section 47 of the Greater New York Charter, the Board of Estimate and Apportionment hereby approves of the issue of Corporate Stock of The City of New York to an amount not exceeding one million dollars (\$1,000,000) for the following purposes:

For the construction and improvement of small parks in the Borough of Manhattan, to wit: John Jay Park, DeWitt Clinton Park, Thomas Jefferson Park and the small park at Thirty-fifth street and First avenue .....	\$500,000 00
For the construction and improvement of parks, parkways, boulevards and driveways in the Boroughs of Brooklyn and Queens .....	250,000 00
For the construction and improvement of parks, parkways, boulevards and driveways in the Borough of The Bronx .....	250,000 00

—and that when authority therefor shall have been obtained from the Board of Aldermen the Comptroller is authorized to issue Corporate Stock of The City of New York in the manner provided by section 169 of the Greater New York Charter to an amount not exceeding one million dollars (\$1,000,000), the proceeds whereof to be applied to the purposes aforesaid.

Which was adopted by the following vote:

The Mayor, Comptroller, President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn, The Bronx, Queens and Richmond—16.

The Secretary presented the following communication from the President of the Borough of The Bronx, relative to an issue of Special Revenue Bonds to the amount of \$15,000 for the Bungay street outlet sewer:

THE CITY OF NEW YORK, OFFICE OF THE PRESIDENT OF THE BOROUGH OF THE BRONX, MUNICIPAL BUILDING, CROTONA PARK,

NEW YORK, October 2, 1903.

Hon. SETH LOW, Mayor, Chairman of the Board of Estimate and Apportionment:

DEAR SIR—In the matter of the repairs to the Bungay street outlet sewer, for which the Board of Aldermen on September 8, 1903, appropriated the sum of \$15,000, which is now pending before the Board of Estimate and Apportionment, I inclose a copy of report made to me by Mr. Charles H. Graham, Engineer in charge of sewers, on the subject, and especially urge that the Board of Estimate at its next meeting pass upon this measure without delay.

Yours truly,

LOUIS F. HAFFEN, President of the Borough of The Bronx.

BUREAU OF SEWERS,  
October 1, 1903.

Hon. LOUIS F. HAFFEN, President of the Borough of The Bronx:

SIR—In the matter of repairs to the Bungay street outlet sewer, I have to say that it is of the utmost importance that an additional appropriation of \$15,000 for the completion of these repairs, which appropriation was favorably passed upon by the Board of Aldermen on September 8, 1903, and is now pending in the Board of Estimate and Apportionment for concurrence, should be authorized by the beginning of next week (October 5), otherwise I will be forced to discontinue the work in question.

The work of making these repairs has been one of peculiar difficulty, it having been found that the extent of such repairs was greatly in excess of what was anticipated at the time that the original appropriation of \$10,000 was asked for. To abandon the work in its present state would be most unfortunate, and would be to invite possible disaster and damage to an extent which it is impossible to estimate.

If the work is abandoned in its present condition, it will still be necessary that these repairs shall be completed at some time when money shall be available there-

for, but the cost of making such repairs, under these circumstances, would be far in excess of the amount now asked for to complete the repairs at the present time. Furthermore, if the work be discontinued, it will mean the leaving of a considerable stretch of the sewer without any covering and entirely open to the air, creating thereby conditions which would be very objectionable from a sanitary point of view.

I cannot urge upon you too strongly the necessity of prompt action on the part of the Board of Estimate and Apportionment, and sincerely hope that favorable action shall be taken by said Board upon the proposition now pending before it in relation to authorizing the Comptroller to issue Special Revenue Bonds to the amount of \$15,000 for the completion of the repairs hereinbefore referred to.

Respectfully,

CHARLES H. GRAHAM, Engineer in Charge of Sewers.

IN THE BOARD OF ALDERMEN.

Whereas, It appears from letter of the President of the Borough of The Bronx, dated August 7, 1903, that additional Special Revenue Bonds to the amount of fifteen thousand dollars (\$15,000), over the amount heretofore provided for in the resolution of the Board of Aldermen, passed May 19, 1903, are necessary in order to do the work necessary to repair the Bungay street outlet sewer; and

Whereas, The public interests imperatively require that the work necessary for these repairs should be authorized at once, and that these repairs are an absolute case of emergency, which calls for expedition in the completion of this work, that the President of the Borough of The Bronx be and is hereby authorized and empowered by this Board to do the work necessary to make and complete the necessary repairs to the Bungay street outlet sewer, in the Borough of The Bronx, without contract and public letting; the expenditure for such repairs not to exceed the sum of fifteen thousand dollars (\$15,000), in addition to the ten thousand dollars (\$10,000) heretofore authorized by resolution of the Board of Aldermen,

Resolved, That the Board of Estimate and Apportionment be, and is hereby requested, in pursuance of provision of subdivision 8 of section 188 of the amended Greater New York Charter, to authorize the Comptroller to issue Special Revenue Bonds to the amount of fifteen thousand dollars (\$15,000), in addition to the ten thousand dollars (\$10,000) already provided for in the resolution of the Board of Aldermen, passed May 19, 1903, the proceeds therefor to be applied to the cost and expense of making the necessary repairs to the Bungay street outlet sewer, in the Borough of The Bronx.

Adopted by the Board of Aldermen September 8, 1903, three-fourths of all the members elected voting in favor thereof.

Received from his Honor the Mayor September 23, 1903, without his approval or disapproval thereof; therefore, as provided in section 40 of the Greater New York Charter, the same took effect as if he had approved it.

P. J. SCULLY, Clerk.

The following resolution was offered:

Resolved, That the Board of Estimate and Apportionment hereby approves of and concurs in the resolution of the Board of Aldermen adopted September 8, 1903, in relation to the expenditure of fifteen thousand dollars (\$15,000) additional means for making necessary repairs to the Bungay street outlet sewer in the Borough of The Bronx, and that for the purpose of providing means therefor the Comptroller be and is hereby authorized, pursuant to the provisions of subdivision 8 of section 188 of the Greater New York Charter, to issue Special Revenue Bonds of The City of New York to the amount of fifteen thousand dollars (\$15,000), redeemable from the tax levy of the year succeeding the year of their issue.

THE CITY OF NEW YORK, OFFICE OF THE PRESIDENT OF THE BOROUGH OF BROOKLYN, BROOKLYN, October 7, 1903.

JAMES W. STEVENSON, Esq., Secretary, Board of Estimate and Apportionment, Stewart Building, New York:

DEAR SIR—The appointment of a Matron of the Public Baths and Public Comfort Stations in this borough is an obvious necessity. Such appointment is made possible by Civil Service regulations under the title of "Matron." May I therefore ask that you submit the inclosed resolution to the Board of Estimate and Apportionment, establishing the post of Matron in Public Baths and Public Comfort Stations in the Borough of Brooklyn, at a salary of \$1,050 per annum.

## DEPARTMENT OF DOCKS AND FERRIES.

Transactions of the Department of Docks and Ferries for the Week Ending Saturday, July 25, 1903.

The following communications were received and ordered on file, action being taken thereon as stated, to wit:

From the Comptroller—

First—Suggesting that before he presents to the Commissioners of the Sinking Fund the question of the deeding of property from the citizens of Rossville, Staten Island, to the City, the Department should have the proposed deed of cession drawn up and submitted to the Corporation Counsel for approval as to form, and that the Department should also state its reasons for believing that it is desirable for the City to accept the plot under the conditions upon which it is offered, and also for what purpose it is to be used. Transmitted to Corporation Counsel.

Second—Stating that without further information concerning the expenditure for lantern slides, he will take no action toward auditing the bill.

From the Corporation Counsel—

First—Transmitting three stipulations designed to place the City in possession of the property between Bloomfield and Little West Twelfth streets, North river, and asking as to whether the same meets with the approval of the Commissioner of Docks. Form of stipulation returned to Corporation Counsel approved.

Second—Transmitting affidavits made by officers and counsel for the Consolidated Gas Company, and asking to be advised as to the claim of said company that the City entered into possession of said property, between Twenty-first and Twenty-second streets, on May 10, 1900, agreeing to pay 6 per cent. per annum interest on the amount of the awards made for the said properties. Copy of Engineer-in-Chief's report sent to Corporation Counsel.

Third—In relation to repairs required to the Pier foot of Seventy-ninth street, North river, and stating that the lease of the pier to the New York Contracting and Trucking Company has been terminated, but that the City is now stayed by an injunction order from interfering with the said company in the collection of wharfage, etc., from vessels, except at the westerly end thereof, and from interfering with the company's possession of the pier, and from canceling the lease or ousting the company therefrom; that unless defects in the pier render it dangerous, or which are liable to render it so pending the trial of the suit, no action should be taken regarding the repairs; that there is no need of notice to the company requiring them to make the repairs as they are unlawfully in possession of the premises, but that if the repairs are urgently needed he will, upon being so advised by the Department, take steps to obtain a modification of the injunction order so as to permit the repairs to be made by the Department in the interest of public safety. Verbatim copy of the Engineer-in-Chief's report sent to Corporation Counsel.

Fourth—Stating that if the appropriations of the Department are sufficient to pay compensations, it is his opinion that no reasons exist which would preclude the Department from employing engineering experts in connection with the proposed construction of ferry-boats for the Staten Island ferry service, and that he does not think such employment would in any way conflict with the Civil Service Act, as such persons would be retained for temporary and specific purposes on account of their peculiar expert and professional attainments. Filed.

From the Bureau of Buildings, Borough of The Bronx, requesting to be advised as to the jurisdiction of the Department of Docks and Ferries along the water-front of the Borough of The Bronx. Advised him that the Department has no map on file showing boundary line within which this Department exercises jurisdiction, but that this Department claims jurisdiction over such areas immediately adjoining the water-front, and issues permits for the erection of buildings and structures that are used in connection with the water-front.

From Bureau of Buildings, Borough of Manhattan, stating that a communication has been received by them reporting the erection of a shed at the foot of Eightieth street, North river. Advise Bureau of Buildings that shed in question was erected by Thomas Ward on property leased to him by this Department, which property is under the sole jurisdiction of the Department of Docks and Ferries, as per report of Engineer-in-Chief.

Commissioner of Bridges, requesting the assignment of sufficient water front space in connection with the construction of the Manhattan Bridge, and stating that at least one pier with adjoining half bulkheads will be required in the vicinity of Market slip, East river. Transmit copy of Engineer-in-Chief's report, showing that the Department has no more property which it can set at the disposal of Commissioner of Bridges without serious detriment to commercial interests.

Board of Estimate and Apportionment—

First—Transmitting certified copy of a resolution adopted July 15, 1903, authorizing the institution of condemnation proceedings for the property between Fifteenth and Eighteenth streets, North river. Corporation Counsel requested to institute condemnation proceedings. Engineer-in-Chief asked to report whether contracts are ready.

Second—Transmitting communication from the Comptroller's Engineer approving the suggestion of the Borough President to acquire additional land in rear of the ferry terminal at St. George, Staten Island. President of the Borough of Richmond requested to have his Engineer confer with Commissioner Hawkes.

From Board of Education, asking that awnings be placed over the public baths at the foot of East Twenty-fourth street, East river. Advise Board of Education that the matter in question is under the jurisdiction of the Department of Public Buildings and Offices.

From Board of Engineers for Rivers and Harbors, requesting to be furnished with information relative to the need for the improvement of the Bronx water front. Advised that Commissioner has communicated with Mr. Davis, President

of the North Side Board of Trade, and Congressman Goulden, to obtain the details which he desires.

From Commissioners of the Sinking Fund—

First—Transmitting copy of report of the Comptroller's Engineer relative to the proposed lease of the East Thirty-second Street Pier to John H. Starin, suggesting that a clause be inserted in the lease holding the City harmless in case the courts shall decide that the City has no right to the inner northerly side of the pier for wharfage purposes. The Secretary directed to embody said clause in the lease.

Second—Stating that the matter of the proposed lease of the West Fifty-eighth Street Pier to John B. McDonald has been referred back to the Department for further information as to the comparative rentals of the West Fifty-eighth and West Fifty-ninth Street Piers. Verbatim copy of Auditor's report transmitted to Commissioners of the Sinking Fund.

1. Authorizing a lease of the franchise of two ferries from a point between Twenty-second and Twenty-third streets, East river, to Hoboken, N. J., to the Hoboken Ferry Company.

Said company requested to submit offer for south half of pier.

Corporation Counsel requested to advise this Department whether it can legally grant a permit to Judge Dugro or old plan improvement in this locality, in view of the fact that the new plan has been adopted at this point, viz., between Forty-ninth and Fiftieth streets, North river, and the stone bulkhead wall already built, and in view of the fact that it is the intention of the Department to acquire the property referred to by Judge Dugro as soon as possible under condemnation proceedings, if a price cannot be agreed upon, and extend the stone bulkhead wall.

For a term of ten years from September 1, 1903, with the privilege of renewal for a further term of ten years at an upset price of three and one-half (3½) per cent. of the gross receipts of said ferries, but not less than \$4,000 per annum for the first term, the rental for the renewal term to be fixed as follows: Three months before the expiration of the first term, the Commissioner of Docks and the Commissioners of the Sinking Fund shall appoint a person to act on behalf of the City as arbitrator, and the New York and College Point Ferry Company shall appoint a person to act in its behalf as arbitrator, and the arbitrators so appointed shall determine upon a fair and reasonable amount to be paid as rental under the lease annually, during the renewal term, in quarter yearly payments in advance. In case the arbitrators are unable, within thirty days, to agree as to the amount to be paid as rent for the renewal term, they shall appoint a third person to act as umpire, and if they are unable to agree within thirty days upon such umpire, then, at the request of either of the parties, he shall be appointed by the presiding Justice of the Appellate Division of the Supreme Court of the State of New York, First Department, and the decision of two of said parties so selected shall be conclusive and binding upon both of the parties to the lease, but in no case during the said renewal term shall the rental be less than \$4,400 per annum.

## DEPARTMENT OF FINANCE.

## IN MEMORIAM.

At a meeting of the employees of the Department of Finance held at the close of business on Monday, November 16, 1903, to take action on the death of the late Honorable Andrew H. Green, formerly Comptroller of The City of New York, the following resolutions were adopted:

Whereas, The earthly life of Andrew H. Green has been terminated at an age when he was ripe in years but still young in vigor, and

Whereas, The employees of the Department of Finance of The City of New York realize that in a career made notable by many great achievements, the greatest was that accomplished when as Comptroller he placed this department before the world as an honest and efficient branch of the city government, gave to every employee by his example an incentive to faithful service, and through his energy and ability restored the City's finances to stability and confidence, therefore be it

Resolved, That the employees of the Department of Finance in meeting assembled express their sorrow on account of the loss of a friend to many personally and a friend to all by his work in giving to this department that prestige which makes every attaché proud of his calling, and

Resolved, That, as citizens of New York, we add our voice to that of the entire community in regretting that the municipality has lost an advocate for the right, for development, for civic triumph, unsurpassed in the 250 years of its history, a man who fearlessly fought at all times for that which is good in city government, whose perseverance and foresight were primarily effective in securing the creation of the Greater New York, and whose love of the beautiful and artistic has served for the embellishment and adornment of this city until it has become conspicuous among the great cities of the world for its parks, monuments and public buildings

Resolved, That we extend to his family our sincere sympathy, and that a committee be appointed to attend his funeral.

Resolved, That these proceedings be spread upon the records of the Department of Finance, published in the "City Record," and transmitted to his family.

The Honorable Edward M. Grout, Comptroller, who presided, appointed the following as a committee to represent the Department of Finance at the funeral of Mr. Green on Tuesday, November 17:

H. J. Storrs,	Frederick J. Brettman,
Joseph Haag,	Edward H. McGurk,

—all of whom were in the employ of the Department of Finance during the incumbency of Mr. Green as Comptroller, from November 18, 1871, to December 7, 1876.

#### PROPOSALS FOR BIDS AND ESTIMATES FOR THE CITY OF NEW YORK.

##### NOTICE TO CONTRACTORS.

##### GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable. Each bid or estimate shall contain the name and place of residence of the person making the same, the names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be included in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of The City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
