*Public Service Commission for the First District:*

July 15, 1908.

**MONTAUK AND GLENDALE CUT-OFFS.**

SIR:—I am in receipt of the Secretary's letter bearing date June 26, transmitting copies of two letters of Edward M. Shepard, Esq., bearing date June 22 and June 24, 1908, transmitting consents of abutting property owners to the construction and operation of the Glendale and Montauk Cut-Offs, and stating that the same are filed under the terms of Article II of the certificate granted by the Board of Rapid Transit Railroad Commissioners to the Long Island Railroad Company, accepted June 25, 1907. The certificate provided in Article II in part as follows:

"The franchise hereby granted shall, if the Board shall so determine, become void unless within one year after the time of such acceptance of this certificate by the railroad company, that company shall further, and in due and lawful form, obtain, so far as may be necessary and, if and when obtained, file in the office of the Board, the consent of the owners of one-half in value of the property bounded on the portions of streets over or under which the new connections or any part of the routes thereof run, to the construction and operation of the new connections or such part thereof." \* \* \*

I am of the opinion that an examination should be made by the Commission to ascertain if the consents are in due and lawful form and by the proper persons and sufficient in amount to comply with the provisions of the franchise.

In case copies of these consents are filed which have been compared and found to be true copies by you, I see no objection, but rather a benefit, in the withdrawal of these original consents from your file by Mr. Shepard, acting on behalf of the Long Island Railroad Company, for the purpose of having the same recorded by the proper officials in Queens County, at the expense of the company, under a stipulation that after being so recorded, the originals shall be returned to your file.

I accordingly transmit to you a form of a proposed resolution to this effect.

Respectfully yours,

(Signed) **GEORGE S. COLEMAN,**  
Counsel to the Commission.

The following resolution was thereupon moved and duly seconded:

Whereas, Edward M. Shepard, Esq., on behalf of the Long Island Railroad Company, has transmitted for filing to the Public Service Commission for the First District by two communications bearing date June 22, 1908, and June 24, 1908, certain consents as to the construction and operation of the Glendale Cut-Off and the Montauk Cut-Off, which are in and by said communications stated to be filed in pursuance of Article II of the certificate granted to the said Long Island Railroad Company, bearing date June 25, 1907, and accepted by the said Long Island Railroad Company June 25, 1907, and

Whereas, It is requested by him and is desirable that the said original consents so transmitted should be duly recorded in Queens County, at the expense of the Company and to that end should be withdrawn from the files of this Commission temporarily for that purpose. Now, therefore,

Resolved, That Edward M. Shepard, Esq., on behalf of the Long Island Railroad Company, be and he hereby is authorized to withdraw the original consents aforesaid so transmitted from the file of this Commission, for the purpose of having the same recorded in Queens County, provided he shall first file with the Secretary of this Commission true and correct copies of the same, and undertake to return the said original consents forthwith to the file of this Commission, as soon as the same shall have been so recorded.

Ayes—Commissioners Willcox, Maltbie, Eustis.

Nays—None.

**Order (No. 639).**

Thereupon, an inspection having been made, on motion made and duly seconded, a resolution (Order No. 639) was adopted granting permission to the Interborough Rapid Transit Company to discontinue the operation of said trains.

(10)

**BROOKLYN UNION GAS CO.—APPROVAL OF ADDITIONAL ISSUE OF STOCK.**

Commissioner Eustis presented the following report in the matter of the application of the Brooklyn Union Gas Company for the consent and approval of the Commission to the issue of \$3,000,000 par value of its capital stock for the purpose of converting convertible debentures of said Company heretofore issued:

The Brooklyn Union Gas Company in 1904 sold at par \$3,000,000 six per cent. debentures which, by their terms, are convertible after three years, upon any interest day, into stock of the company upon the basis of one share of stock for each \$100 face value of debentures and if not so converted the debentures become due for payment March 1, 1909.

The company, at the time of the issue, increased its authorized capital stock from \$15,000,000 to \$20,000,000 for the purpose of issuing the necessary new stock to make this conversion, and has lately made to this Commission the suggestion that inasmuch as contract rights and the obligation to issue this stock had become fixed prior to the enactment of the Public Service Commissions Law, the necessary stock could be issued by the company without application to or approval of the Commission.

The Counsel to the Commission, on the question being submitted to him, advised the Commission that it was not to be thought that the legislature deemed it in the public interest that parties to such pre-existing contracts should assume to themselves authority to decide what the rights and privileges of the parties thereto are in the premises, and that in his opinion such contracts, and the acts of the company and others which tend to fix definitely the rights and obligations of the parties, should be submitted to the Commission and its authority obtained for the issue of the stock in accordance with the obligations of the contract and the law. He added that it was to be assumed that in such cases the Commission would see that the rights of holders of securities of the company were properly secured to them, and that the rights of the company and of the public were properly protected.

The Brooklyn Union Gas Company has therefore made application for an order authorizing the issue of \$3,000,000 of stock for the purpose of making the conversion of these debentures, either upon September 1st, the interest day, or March 1st, the date of the maturity of the debentures.

I am of the opinion that this is a lawful refunding of obligations of the company as the words are used in Section 55 of the Public Service Commissions Law, and I accordingly advise the granting by the Commission of the authority for the issue of this \$3,000,000 of stock, the same to be used only for the purpose of converting the outstanding debentures to the same amount.

**FINAL ORDER (No. 640).**

Thereupon, on motion of Commissioner Eustis, duly seconded, an order (No. 640) was adopted, authorizing, subject to the conditions heretofore set forth, the issue by the petitioners, Brooklyn Union Gas Company, of 30,000 shares, being \$3,000,000 face value of stock of the said Brooklyn Union Gas Company, said issue to be upon the conditions and for the purposes following and not otherwise, to wit:—

The said shares of stock shall be issued only upon September 1, 1908, or March 1, 1909, and for each such share so issued of said stock of the par value of \$100.00 there shall be delivered to and received by said Brooklyn Union Gas Company \$100.00 par value of the said debentures of the said company with unmatured coupons, if any, said order to take effect on July 17, 1908, and to continue in force until March 1, 1909.

[For application above referred to, see Proceedings of 1908, page 1375.]

**NASSAU ELECTRIC RAILROAD COMPANY—APPLICATION FOR CONSENT TO MORTGAGE.**

Commissioner McCarrall presented the following opinion regarding the application of the Nassau Electric Railroad Company for consent to an issuance by said company of a mortgage to the amount of \$5,000,000.

These proceedings came before the Commission upon the request for consent of the Commission, under Railroad Law, Section 4, Subdivision 10, to the issuing of mortgages as follows:

(1) By the Nassau Electric Railroad Company of a mortgage to the Central Trust Company as Trustee, bearing date March 29, 1907, to secure \$5,000,000 of demand certificates issued and to be issued by said Nassau Company, bearing 6 per cent. interest, proceeds being applied to improvement of the property of the Nassau Company; the petition is verified June 12, 1907, and was presented to the late Board of Railroad Commissioners.

(2) By the Brooklyn Union Elevated Railroad Company of a mortgage to the Central Trust Company as Trustee, bearing date March 29, 1907, to secure \$20,000,000 of demand certificates of that company issued and to be issued, bearing 6 per cent. interest, proceeds being applied to payment of debts of said company and the improvement of its property; this petition is verified June 12, 1907, and was presented to the late Board of Railroad Commissioners.

The proposed mortgages were submitted with the petitions to the late Board of Railroad Commissioners; the applications were not acted upon by that Board, and by the operation of the Public Service Commissions Law the proceedings have been continued and hearings had before this Commission. The Brooklyn Rapid Transit Company by Exhibit No. 4, in evidence August 14, 1907, in the investigation by this Commission of the Interborough-Metropolitan Company and the Brooklyn Rapid Transit Company, was shown to be the holder of securities of the two companies herein as follows:

**SECURITIES OUTSTANDING.**

	Amount Issued.	Brooklyn Rapid Transit Co. holds.
<b>The Nassau Electric Railroad Co.</b>		
Common Stock.....	\$4,500,000.00	\$4,499,700.00
Preferred Stock.....	6,500,000.00	6,500,000.00
Bonds.....	15,000,000.00	370,000.00
Certificates of Indebtedness.....	1,129,808.80	1,129,808.80
<b>Brooklyn Union Elevated Railroad Co.</b>		
Common Stock.....	13,000,000.00	12,510,610.63
Preferred Stock.....	5,000,000.00	4,715,485.39
Bonds.....	23,000,000.00	.....
Certificates of Indebtedness.....	7,200,802.21	7,200,802.21

It appears from the proposed mortgages which, upon these applications, the Commission is asked to approve, and from other information herein, that the Brooklyn Rapid Transit Company, on or about July 3, 1902, executed to the Central Trust Company, as Trustee, its 100-year mortgage to secure \$150,000,000 of its bonds, and that in connection with the mortgages, which the Commission is now asked to approve, the Brooklyn Rapid Transit Company, the Nassau Electric and the Brooklyn Union have entered into an agreement of even date, which is recited in the mortgages, by the terms of which demand certificates, to be secured by these mortgages, have been issued by Nassau Electric to the amount of \$716,489.14 and by the Brooklyn Union to the amount of \$267,169.74, both of which amounts of these certificates have been already taken by the Brooklyn Rapid Transit, and that the total amount already issued and to be issued of these demand certificates by the Nassau Electric is \$5,000,000 and by the Brooklyn Union is \$20,000,000; that the Nassau Electric and the Brooklyn Union undertake to sell the entire issue of their certificates to the Brooklyn Rapid Transit, and the latter company undertakes to purchase the same at any time within ten years, the purchase price of each such certificate to be the principal amount thereof; that the Brooklyn Rapid Transit is then to deliver the demand certificates so taken to the Central Trust Company and receive from that Trust Company authentication and delivery to it of 100-year bonds of the Brooklyn Rapid Transit Company secured by its \$150,000,000 mortgage, above mentioned, the principal amount of which are not to be greater than the demand certificates of the Nassau Company and the Brooklyn Union Elevated Company so delivered to it.

The control of this Commission, under Section 55 of the Public Service Commissions Law, does not extend to the issuing of notes or evidences of indebtedness payable at periods of not more than twelve months after their date. It seems to me that the issuing of demand certificates, if secured by the mortgages above mentioned and the pledging of such certificates as security for the issuing of 100-year bonds of the Brooklyn Rapid Transit Company, is an evasion of the provisions of Section 55 of the Public Service Commissions Law, and that as it is the duty of the Commission to carry out the provisions of that law, according to their true intent, and to supervise the capitalization of all public service corporations subject to its jurisdiction, the Commission should refuse its consent to these mortgages. The plan of mortgaging a street railroad to secure demand certificates and pledging the same for long time bonds may easily be availed of to nullify or seriously impair the power of the Commission to supervise the capitalization of public service corporations.

**ORDER (No. 642).**

Thereupon, on motion of Commissioner McCarrall, duly seconded, an order (No. 642) was adopted, denying said application.

**BROOKLYN UNION ELEVATED RAILROAD COMPANY—APPLICATION FOR CONSENT TO MORTGAGE.**

Commissioner McCarrall presented the following opinion regarding the application of the Brooklyn Union Elevated Railroad Company for consent to an issuance by said company of a mortgage to the amount of \$20,000,000.

These proceedings came before the Commission upon the request for consent of the Commission, under Railroad Law, Section 4, Subdivision 10, to the issuing of mortgages as follows:

(2) By the Brooklyn Union Elevated Railroad Company of a mortgage to the Central Trust Company as Trustee, bearing date March 29, 1907, to secure \$20,000,000 of demand certificates of that company issued and to be issued, bearing 6 per cent. interest, proceeds being applied to payment of debts of said company and the improvement of its property; this petition is verified June 12, 1907, and was presented to the late Board of Railroad Commissioners.

The proposed mortgages were submitted with the petitions to the late Board of Railroad Commissioners; the applications were not acted upon by that Board, and by the operation of the Public Service Commission Law the proceedings have been continued and hearings had before this Commission. ## ORDER (No. 643).

Thereupon, on motion of Commissioner McCarroll, duly seconded, an order (No. 643) was adopted, denying said application.

(14) The Secretary presented a communication, dated June 26, 1908, from T. P. Shonts, Chairman of the Executive Committee of the Interborough Rapid Transit Company, asking for a ruling by the Commission as to the manner of the accounting of the issuance of \$25,000,000 of short term notes, an opinion on same from the Counsel to the Commission, dated July 2, 1908, and a further communication from Mr. Shonts, dated July 8, 1908, giving the details of the \$1,450,000 expenses connected with the above issuance of notes.

The Chairman was thereupon authorized to sign and send the following letter to the Interborough Rapid Transit Company:

July 17, 1908.

T. P. SHONTS, Esq., Chairman Executive Committee, Interborough Rapid Transit Co., 115 Broadway, New York City.

DEAR SIR—Your letters of June 26 and July 8 have been considered by the Commission. The points raised therein will be covered by the system of accounts for street and electric railroads, which is now being formulated, and which will probably be adopted by the Commission in the near future. In the meantime, however, that you may be advised of the attitude of the Commission, I will say that, in view of all the facts, the Commission considers the suggestion made by you to be wise and prudent. In the opinion of the Commission, therefore, a separate account should be kept to cover the following items:

Discounts and Commissions upon an issue of notes of a par value of \$25,000,000.....	\$1,250,000
Recording tax upon a par value of \$40,000,000 of 45 year gold bonds, dated November 1, 1907.....	200,000
Total.....	\$1,450,000

A sinking fund or an amortization account should also be kept, to show the amounts paid in to the fund year by year, and the total amount to the credit of the fund at the end of each year, including payments thereto and interest paid or accrued. This fund should be sufficient at the end of forty-five years to amount to \$1,450,000, and the annual payments thereto should be sufficient, with interest thereon, to amount to this sum at the end of the period.

Yours very truly,  
(Signed) W. R. WILLCOX,  
Chairman.

(15) The Secretary presented a communication from Frank Hedley, Vice President and General Manager of the Interborough Rapid Transit Company, containing a notification to the effect that said company accepted and would obey the terms of Final Order No. 600, directing the equipping of sixteen subway cars with additional doors.

Dr. S. T. Armstrong, the General Medical Superintendent, reported as follows:

From June 28 to July 11, inclusive, 89 operations were performed at Bellevue Hospital, 17 at Gouverneur Hospital, 46 at Harlem Hospital and 27 at Fordham Hospital, at all of which the attending Surgeons or their assistants were present.

Reports of the attendance of the visiting physicians and surgeons are herewith transmitted.

The Supervising Engineer, Mr. Jones, has gone carefully into the question of heating Pavilions A and B and the Nurses' Home with the present boiler house, and reports that Bellevue Hospital and the two new buildings can be properly heated by the plant, provided the wooden buildings on the grounds be removed. These should be removed in the fall.

Attention is invited to the serious question of the care of tubercular patients in Bellevue Hospital. To-day the total number of patients under treatment is 943, of which 104 are tubercular. On July 11 the Department of Charities took ten male patients, but for several weeks previous was not able to take any, and the crowded condition of the wards of that Department seems to make it impossible to depend on that service alone in the future. It has been necessary to use a male surgical ward of twenty beds to accommodate these patients, and it is likely that one of the medical wards for women will have to be used to accommodate the tubercular women patients. It is recommended that the Department of Charities and the Department of Health be asked to make provision for such patients.

A reconsideration of the action of your Board regarding the establishment of a day camp for tubercular patients on the ferryboat near Gouverneur Hospital is recommended. Careful consideration has been given this matter, and it is found that it will materially increase the expense of Gouverneur Hospital by necessitating additional employees at higher wages, because there is no room to house such employees at Gouverneur Hospital. It is proposed that one meal a day be furnished from the hospital, and Dr. Huddleston states that the number of patients likely to be cared for will be about 75 per day. It is a physical impossibility for the kitchen at Gouverneur Hospital to do this additional cooking, and the food cannot be properly delivered to the patients a distance of over two blocks from the hospital. It is recommended earnestly that this Department incur no responsibility for such a boat. It is a constant menace, because of the possibility of fire and of patients falling overboard. It is likely to mislead the public by giving the impression that something is being done of a curative kind, and will result in lessened effort to secure the establishment of proper institutions for such patients where they would be subjected to necessary supervision and regulated by such discipline as would conduce best to a cure.

In advertising for the equipment of Pavilions A and B, certain articles made by the State prisons were included to determine whether they could be bought cheaper elsewhere. Supplies must be purchased from that Department under chapter 429 of the Laws of 1896 and 447 of the Laws of 1902. Section 107 of the latter provides that the prices shall be as near the general market price as possible. In most instances the bids were less than the prices of the State Board of Classification and the State Prison Department consequently was asked to furnish a release on these articles. Several conferences have been had with the prison officials, and they now submit in writing the proposition to furnish the supplies at an average of all the bids received, the supplies to be equal in every respect to the sample or to be subjected to rejection, and to be delivered before September 1. Their argument is that because a price is the lowest in a bid it does not follow that it is the market price. It is recommended that this question be referred to the Corporation Counsel for action.

The hospitals of this Department frequently have requests from Medical Examiners of the Street Cleaning Department, officials of the Police Department, etc., regarding the diagnoses and condition of employees of those Departments admitted to Bellevue and Allied Hospitals, and it is recommended that the question be referred to the Corporation Counsel as to whether the disclosure of these diagnoses is permissible.

On motion, duly seconded, it was Resolved, That the matter of caring for the tubercular patients be referred to Dr. Brannan and Mr. Hebbard as a Special Committee.

On motion, duly seconded, it was Resolved, To request an opinion from the Corporation Counsel in the matter of purchasing supplies from the State Prisons Department.

On motion, duly seconded, it was Resolved, To request an opinion from the Corporation Counsel in the matter of giving copies of the records of patients who are employees of City Departments.
