#### INVITATION TO CONTRACTORS.

PART OF THE SEVENTH AVENUE-LEXINGTON AVENUE RAPID TRANSIT RAILROAD.

The Public Service Commission for the First District (hereinafter called the "Commission") invites proposals to construct Section No. 1 of Route No. 43, a part of the Seventh Avenue-Lexington Avenue Rapid Transit Railroad.

The points within the City of New York between which the said part is to run and the route or routes to be followed are briefly as follows:

SECTION No. 1. Beginning at a point under Park Place, in the Borough of Manhattan, about one hundred and seventeen (117) feet east of the easterly building line of West Broadway, and extending thence easterly under Park Place, the United States Post Office building and Beekman Street to a point about sixty-two (62) feet west of the westerly building line of William Street.

The general plan of construction calls for a subway railroad having two tracks.

The Contractor will not be required to provide or lay tracks, ties or ballast nor to do station finish work.

The work under the contract will include the care and support of buildings, vaults, sewers, pipes, railroads and other surface, subsurface and overhead structures, the maintenance of traffic and the restoration of pavements and other surfaces.

The method of construction will be partly by trench excavation under cover and partly by tunneling, unless otherwise permitted by the Commission.

Bidders must examine the form of contract and the specifications and contract drawings, must visit the location of the work and inform themselves of the conditions along the line of the work and make their own estimates of the facilities and difficulties attending the execution of the work.

A fuller description of the work and other requirements, provisions, details and specifications are given in the form of contract and in the contract drawings therein referred to. Copies of the forms of contract, bond and contractor's proposal and of the contract drawings may be inspected and purchased at the office of the Commission, No. 154 Nassau Street, Borough of Manhattan, New York City. The forms of contract, bond and contractor's proposal and the contract drawings are to be deemed a part of this invitation.

The City of New York (hereinafter called the "City") and the Interborough Rapid Transit Company will both be parties to the contract; the Interborough Rapid Transit Company being a party for the purpose of discharging part of its contribution toward the cost of construction as provided in the contract dated March 19, 1913, between the City and said Company for additional rapid transit railroads. The liability of Interborough Rapid Transit Company will be limited to an amount equal to fifty per centum (50%) of the total estimated amount to be paid to the Contractor under the contract.

Partial payments to the Contractor will be made as the work proceeds as provided in the contract.

The Contractor must complete the work within twenty-eight (28) months from the delivery of the contract.

At the time of the delivery of the contract the Contractor must furnish security to the City by depositing a bond, cash or securities in the sum of four hundred thousand dollars (\$400,000). As further security fifteen (15) per centum of the amounts certified from time to time to be due to the Contractor will be deducted until the amounts so deducted and retained shall equal ten (10) per centum of the total estimated amount to be paid to the Contractor under the contract.

Thereafter there shall be so deducted and retained for such purpose ten per centum (10%) of the amounts certified from time to time to be due to the Contractor.

Sealed bids or proposals will be received at the office of the Commission at No. 154 Nassau Street, Borough of Manhattan, City of New York, until the 8th day of October, 1914, at twelve fifteen (12.15) o'clock p. m., at which time, or at a later date to be fixed by the Commission, the proposals will be publicly opened.

Proposals must be in the form prescribed by the Commission.

A statement, based upon the estimate of the Chief Engineer of the Commission, of the quantities of the various classes of the work and of the nature and extent as near as practicable of the work to be found in the schedule in the form of contractor's proposal. The quantities given in such schedule are approximate only, being given as a basis for the uniform comparison of bids, and no claim is to be made against the City on account of any excess or deficiency, absolute or relative, in the same except as provided in the specifications and form of contract.

Every proposal must when submitted be enclosed in a sealed envelope endorsed "Proposal for Constructing Part of Rapid Transit Railroad—Route No. 43, Section No. 1," and must be delivered to the Commission or its Secretary; and in the presence of the person submitting the proposal, it will be deposited in a sealed box in which all proposals will be deposited. No proposal will be received unless accompanied by a separate certified check for forty thousand dollars (\$40,000), payable to the order of the Comptroller of the City and drawn upon a national or state bank or trust company satisfactory to the Commission and having its principal office in New York City. Such check must not be enclosed in the envelope containing the proposal.

The Unit Prices must not be improperly balanced, and any bid which the Commission considers detrimental to the City's interests may be rejected.

No proposal, after it shall have been deposited with the Commission, will be allowed to be withdrawn for any reason whatever.

The award of the contract will be made by the Commission as soon as practicable after the opening of the proposals.

Deposits made by bidders whose proposals are not accepted will be returned within three (3) days after the contract is executed and delivered and its provisions in respect of the bond or deposit are complied with, unless all proposals shall be rejected, in which event such deposits will be returned within three (3) days after such rejection. The deposit of the successful bidder will be returned when the contract is executed and delivered and its provisions in respect of the bond or deposit are complied with.

The right to reject any and all bids is reserved.

#### INVITATION TO CONTRACTORS.

PART OF THE SEVENTH AVENUE-LEXINGTON AVENUE AND STEINWAY TUNNEL RAPID TRANSIT RAILROAD.

THE PUBLIC SERVICE COMMISSION FOR the First District (hereinafter called the "Commission") invites proposals to construct Section No. 1 of Route No. 43, a part of the Seventh Avenue-Lexington Avenue Rapid Transit Railroad, and Section No. 1 of Route No. 26, a part of the Steinway Tunnel Rapid Transit Railroad, and to construct a spur to the existing Manhattan-Bronx Rapid Transit Railroad.

The points within the City of New York between which the said parts are to run and the route or routes to be followed are briefly as follows:

SECTION No. 1 of Route No. 43. Beginning under Park Avenue, in the Borough of Manhattan, between East 38th Street and East 41st Street, where suitable track connections can be made with the present Manhattan-Bronx Rapid Transit Railroad, thence running northerly under Park Avenue to East 41st Street, thence curving northeasterly under Park Avenue and East 41st Street to property recently acquired by the City; thence running northeasterly under said property and East 42nd Street to the northerly building line of East 42nd Street, between Lexington Avenue and Depew Place, as the latter formerly existed.

SECTION No. 1 of Route No. 26. Beginning at a point under East 42nd Street, in the Borough of Manhattan, opposite the westerly building line of Vanderbilt Avenue, and extending thence easterly under East 42nd Street to a point about one hundred (100) feet east of the easterly building line of Lexington Avenue.

SPUR TO EXISTING MANHATTAN-BRONX RAPID TRANSIT RAILROAD. Beginning at a point under East 42nd Street, in the Borough of Manhattan, between Park and Vanderbilt Avenues, where suitable track connections can be made with the existing Manhattan-Bronx Rapid Transit Railroad, thence running easterly under East 42nd Street to a point about forty (40) feet east of the easterly building line of Park Avenue.

The general plan of construction calls for a subway railroad having four tracks in the case of Route No. 43 and for subsurface railroads having two tracks in the cases of Route No. 26 and the Spur.

The Contractor will not be required to provide or lay permanent tracks, ties or ballast nor to do station finish work.

The work under the contract will include the care and support of buildings, vaults, sewers, pipes, railroads and other surface, subsurface and overhead structures, the maintenance of traffic, the restoration of pavements and other surfaces, and the removal and reconstruction of portions of the Manhattan-Bronx Rapid Transit Railroad and portions of the existing Steinway Tunnel in order to provide a connection with the Railroad.

The removal and reconstruction of portions of said Manhattan-Bronx Rapid Transit Railroad must be so conducted as not to interfere with or interrupt the safe and continuous operation of trains in said Railroad and the Contractor shall be responsible for the support, maintenance, safety and protection of said Railroad, including its equipment and rolling stock, and for the safety and protection of passengers and other persons therein. Before commencing any work which may affect said railroad the Contractor must obtain a permit from the Interborough Rapid Transit Company.

The attention of bidders is called to the fact that the adjacent portions of the Steinway Tunnel may be put into operation before the completion of the work under the contract. The Contractor in the event of such operation will be required to conduct his work in such manner as not to interfere with or interrupt the safe and continuous operation of trains in said adjacent portions of the Steinway Tunnel and in such manner as to avoid injury to passengers or other persons in said adjacent portions of the Steinway Tunnel.

In view of the nature of the work the attention of bidders is also called to the fact that the Contractor must be amply able financially to execute the work and to indemnify the Interborough Rapid Transit Company for any loss or expense on account of injuries or damages to person or

property or interruption of train operation in the Manhattan-Bronx Rapid Transit Railroad due to the performance of the work under the contract, and the Contractor must furnish the Commission with a detailed statement of his financial condition.

The method of construction will be partly by trench excavation under cover and partly by tunneling, unless otherwise permitted by the Commission.

Bidders must examine the form of contract and the specifications and contract drawings, must visit the location of the work and inform themselves of the conditions along the line of the work and make their own estimates of the facilities and difficulties attending the execution of the work.

A full description of the work and other requirements, provisions, details and specifications are given in the form of contract and in the contract drawings therein referred to. Copies of the forms of contract, bond and contractor's proposal and of the contract drawings may be inspected and purchased at the office of the Commission, No. 154 Nassau Street, Borough of Manhattan, New York City. The forms of contract, bond and contractor's proposal and the contract drawings are to be deemed a part of this invitation.

The City of New York (hereinafter called the "City") and Interborough Rapid Transit Company will both be parties to the contract; the Interborough Rapid Transit Company being a party for the purpose of disbursing part of its contribution toward the cost of construction as provided in the contract dated March 19, 1913, between the City and said Company for additional rapid transit railroads. The liability of Interborough Rapid Transit Company will be limited to an amount equal to fifty per centum (50%) of the total estimated amount to be paid to the Contractor under the contract.

Partial payments to the Contractor will be made as the work proceeds, as provided in the contract.

The Contractor must complete the work within twenty-eight (28) months from the delivery of the contract.

At the time of the delivery of the contract the Contractor must furnish security to the City by depositing a bond, cash or securities in the sum of five hundred thousand dollars (\$500,000). As further security to the City ten per centum (10%) of the amounts certified from time to time to be due to the Contractor will be deducted and retained. The Contractor will also be required to furnish security to Interborough Rapid Transit Company by depositing with said Company cash or securities in the sum of two hundred and fifty thousand dollars (\$250,000). As further security to the Interborough Rapid Transit Company ten per centum (10%) of the amounts certified from time to time to be due to the Contractor from said Company will be deducted and retained by said Company until the amount so deducted and retained shall equal three and one-third per centum (3 1/3%) of the total estimated amount to be paid to the Contractor under the contract.

Sealed bids or proposals will be received at the office of the Commission, No. 154 Nassau Street, Borough of Manhattan, New York City, until the 6th day of October, 1914, at twelve o'clock (12.15) o'clock p. m., at which time and place, or at a later date to be fixed by the Commission, the proposals will be publicly opened.

Proposals must be in the form prescribed by the Commission.

A statement, based upon the estimate of the Chief Engineer of the Commission, of the quantities of the various classes of the work and of the nature and extent as far as practicable of the work is to be found in the schedules in the form of contractor's proposal. The quantities given in such schedules are approximate only, being given as a basis for the uniform comparison of bids, and no claim is to be made against the City on account of any excess or deficiency, absolute or relative, in the same except as provided in the specifications and form of contract.

Every proposal must when submitted be enclosed in a sealed envelope endorsed "Proposal for Constructing Part of Rapid Transit Railroad—Routes Nos. 43 and 26, Section No. 1," and must be delivered to the Commission or its Secretary; and in the presence of the person submitting the proposal, it will be deposited in a sealed box in which all proposals will be deposited. No proposal will be received unless accompanied by a separate certified check for seventy-five thousand dollars (\$75,000), payable to the order of the Comptroller of the City and drawn upon a national or state bank or trust company satisfactory to the Commission and having its principal office in New York City. Such check must not be enclosed in the envelope containing the proposal.

The Unit Prices must not be improperly balanced, and any bid which the Commission considers detrimental to the City's interests may be rejected.

No proposal, after it shall have been deposited with the Commission, will be allowed to be withdrawn for any reason whatever.

**THE BUILDINGS AND APPURTENANCES** thereto will be sold to the highest bidder, who must pay cash or certified check, drawn to the order of the Comptroller of the City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of \$50, the sum of \$50 shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rents or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstances of vacating the structures of their tenants will permit.

All the material of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations and the sidewalks and curb in front of said buildings, extending within the described area shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, tanks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street and the openings of the main sewer

in street shall be properly closed in compliance with the directions of the Bureau of Sewers in the Borough in which the buildings are situated, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any part thereof, within thirty days from the day of possession will work forfeiture of ownership of such buildings, appurtenances, or portion as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed, and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the day of possession, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls are to be made permanently self-supporting, beams, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs and adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the Contractor.

The Comptroller of the City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids; and it is further

Resolved, That, while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately.

The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
