MAYOR'S OFFICE, NEW YORK, June 11, 1889.

To the Honorable the Board of Aldermen:

I return, without my approval, the resolution of the Board of Aldermen, adopted May 28, 1889, providing that Ninety-fifth street, from Lexington to Madison avenue, be paved with granite-blocks, on the ground that as gas-mains have not yet been laid in the street in question, the resolution is premature.

HUGH J. GRANT, Mayor.

Resolved, That Ninety-fifth street, from Lexington to Madison avenue, be paved with granite block pavement and that crosswalks be laid at the intersecting and terminating avenues, where not already laid, under the direction of the Commissioner of Public Works; and that the accompanying ordinance therefor be adopted.

The President laid before the Board the following message from his Honor the Mayor:

To the Honorable the Board of Aldermen:

I return, without my approval, the resolution of the Board of Aldermen, adopted May 28, 1889, which gives to the pastor of the Church of St. Veronica permission to construct vaults in front of the property of the Church in Washington and Christopher streets, without the payment of any fee. The ground for my disapproval is that, under an opinion of the Counsel to the Corporation, dated September 10, 1888, the Common Council has no authority to remit fees for vaults, the receipts from that source being pledged to the Sinking Fund until the City Debt is redeemed.

HUGH J. GRANT, Mayor.

Resolved, That permission be and the same is hereby given to the Rev. John Fitzharris, pastor of the Church of St. Veronica, to construct vaults in front of the property of the church upon which it is proposed to erect a church edifice, on Washington street and Christopher street, beginning about eighty-nine feet three inches east of Washington street, in Christopher, and extending eighty feet on Christopher street, and in Washington street, beginning about eighty-three feet three inches in Washington street, north of Christopher street, and extending about thirty feet, as shown on the accompanying diagram, without payment of any fee, the work to be done at his own expense, under the direction of the Commissioner of Public Works; such permission to continue only during the pleasure of the Common Council.

To the Honorable the Board of Aldermen:

I return, without my approval, the resolution of the Board of Aldermen, adopted May 28, 1889, which provides for the extension of gas-mains in Arcularius place, easterly to Sheridan avenue, on the ground that it is defectively drawn, in that it does not provide for the placing or lighting of public lamps.

HUGH J. GRANT, Mayor.

Resolved, That the gas-pipes, as now laid on Arcularius place (or One Hundred and Sixty-ninth street), up to a point about three hundred feet westerly from Sheridan avenue, be extended and laid along said street in an easterly direction to said Sheridan avenue, under the direction of the Commissioner of Public Works.

I return, without my approval, the resolution of the Board of Aldermen, adopted May 28, 1889, providing for the paving of Ninety-fourth street, between Fifth and Madison avenues, on the ground that, as there are no gas-mains in the street in question, the resolution is premature.

MAYOR'S OFFICE, NEW YORK, June 11, 1889.

MAYOR'S OFFICE, NEW YORK, June 11, 1889.

To the Honorable the Board of Aldermen :

I return, without my approval, the resolution of the Board of Aldermen, adopted June 11, 1889, which provides that Eighty-eighth street, from Park to Fifth avenue, be paved with "Belgian" pavement. The term "Belgian" as applied to the description of the pavement is obsolete, though the resolution and ordinance evidently intended to provide for trap-block pavement, which would correspond with the pavements now laid on the intersection of Madison avenue and Eighty eighth street. The resolution and ordinance should be amended so as to give a definite description to the kind of pavement to be used.

HUGH J. GRANT, Mayor.

Resolved, That the carriageway of Eighty-eighth street, from Park avenue to Fifth avenue, be paved with Belgian pavement, where not already so paved, or crosswalks at terminating and intersecting avenues are laid, under the direction of the Commissioner of Public Works; and that

the accompanying ordinance therefor be adopted.

The President laid before the Board the following message from his Honor the Mayor:

To the Honorable the Board of Aldermen

I return, without my approval, the resolution of the Board of Aldermen, adopted May 28, 1889, which provides for the paving of Park avenue, from One Hundred and Thirty-third to One Hundred and Thirty-fifth street, on the ground that the Commissioner of Public Works reports that there are no curb-stones on the easterly side of the avenue in question, north of One Hundred and Thirty-fourth street. The resolution and ordinance should provide for the setting of curb-stones where it has not already been done. HUGH J. GRANT, Mayor.

Resolved, That Park avenue, from One Hundred and Thirty-third to One Hundred and Thirty-fifth street be paved with granite-block pavement, and that crosswalks be laid at the intersecting and terminating streets, where not already laid, under the direction of the Commissioner of Public Works; and that the accompanying ordinance therefor be adopted.

COMMUNICATIONS.

The President laid before the Board the following communication from the Chamber of Commerce: CHAMBER OF COMMERCE OF THE STATE OF NEW YORK, NEW YORK, June 6, 1889.

To the President of the Board of Aldermen:

DEAR SIR-At the monthly meeting of the Chamber of Commerce, held this day, the following preamble and resolutions were adopted:

Whereas, The Chamber of Commerce has for some years urged the necessity and economy of

good pavements for this city, and especially for the business part of the city, where there is a large movement of heavy merchandise; and

Whereas, The Legislature, at its last session, passed an act, which has been signed by the Governor and is now a law, empowering the Board of Estimate and Apportionment to authorize the expenditure of two millions of dollars annually for three years in the repavement of the streets of this city;
Resolved, That this Chamber respectfully calls the attention of our municipal authorities to the

advisability of first repaying the streets in the business part of the city, upon which the earning power of our port so largely depends, and the avenues connecting the upper and lower part of the Resolved, That the character of the pavements selected should be governed by the character of the traffic. In the business part of the city where a large traffic in heavy merchandise concentrates, substantial stone pavements with a concrete foundation, similar to that recently placed in lower Hudson

street, should be laid. In streets with a lighter traffic, a less substantial and expensive stone pavement will suffice, while in the streets principally devoted to residences, asphalt pavement, which is clean and noiseless, should be thoroughly tried.

Among the streets for which the first-mentioned class is especially appropriate, we would mention West and South streets, over which the great mass of merchandise annually arriving and departing at this port must be transported.

Resolved, That if the funds authorized by the Legislature were wisely expended, the life of horses in this city can be materially lengthened, their earning power greatly increased, the time of citizens economized, their comfort promoted; and with a reasonable substitution of approved rails for the outrageous centre-bearing rails now in use, and with reasonable regulations governing the opening and restoration of pavements, New York, within three years, can be made to deserve the reputation of one of the best, instead of one of the worst, paved cities in the world.

Resolved, That the President of this Chamber is hereby authorized to appoint a Special Committee of Seven members, of which he shall be chairman, to confer with our municipal authorities, and endeavor to secure a wise expenditure of the authorized appropriation.

The following-named gentlemen were appointed the Committee:

Charles S Smith Caragillas Vandarbilt, John Claffin, Lehn D Geingeine Ferencie B. Thurber Charles S Smith Caragillas Vandarbilt, John Claffin, Lehn D Geingeine Ferencie B. Thurber

The following-named gentlemen were appointed the Committee: Charles S. Smith, Cornelius Vanderbilt, John Claffin, John D. Crimmins, Francis B. Thurber, Henry C. Meyer, James H. Seymour.

Yours respectfully, GEORGE WILSON, Secretary.

Which was referred to the Committee on Street Pavements.

DEPARTMENT OF PUBLIC WORKS,

COMMISSIONER'S OFFICE,

No. 31 CHAMBERS STREET,

NEW YORK, November 10, 1886. NOTICE TO CROTON WATER

CONSUMERS. NUMEROUS APPLICATIONS HAVE BEEN made to this Department by citizens claiming reductions or rebates on bills for water supplied through meters, on the alleged ground of leakage caused by defective plumbing and worm-out service pipes, or by willful waste of water by tenants allowing the faucets to be turned on in full force in water-closets, sinks, etc., without the knowledge or consent of the owners of the premiers.

turned on in full force in water-closets, sinks, etc., witnout the knowledge or consent of the owners of the premises.

The main object of the use of water-meters is to enable this Department to detect and check the useless and unwarrantable waste of an element so valuable and essential to the health and comfort of all the citizens, and this object can only be accomplished by enforcing payment for the water wasted.

Under the law all charges for water supplied through meters are a lien against the respective premises, and the law therefore holds the owner of the premises responsible for the amount of water used or wasted.

Notice is therefore tiven to all householders that, in all further applications for reduction of water rents, no allowance will be made on account of water of water occurring through leaks, from defective service pipes or plumbing, or wasteful use of water by tenants or occupants of buildings, though such leakage or waste may have occurred without the knowledge or consent of the owners of the buildings.

House-owners are further notified that whenever their premises become vacant, and are likely to remain vacant, they must notify this Department in writing, and that unless this requirement is complied with no deductions in extra water rents will he allowed for any portion of one year.

JOHN NEWTON, Commissioner of Public Works.

GRANTS OF LANDS UNDER WATER.

GRANTS OF LANDS UNDER WATER.

THE OWNERS OF LANDS IN THE CITY OF New York, which were formerly under water, and which were granted by the City of New York, are notified that nearly all of the grants of such lands contain covenants, on the part of the grantees, and their successors and assigns, to maintain and keep in repair the adjacent streets. The condition of many of these streets is such as to make it necessary that they should be repaired and repaved, and that the obligation resting upon the present owners of adjacent lots to do this work should now be enforced. Many of such owners have requested that such covenants be commuted, and wholly released, upon the payment by them of a certain sum per lot.

The matter will shortly be presented to the Commissioners of the Sinking Fund for their consideration, and application for releases should therefore be made at once.

They may be sent to the undersigned.

Dated New York City, August 7, 1888.
