MESSAGES FROM HIS HONOR THE MAYOR.

The President laid before the Board the following message from his Honor the Mayor:

No. 1676.

City of New York—Office of the Mayor, }
May 1, 1905.

To the Honorable the Board of Aldermen:

Gentlemen—I return herewith, without my approval, a resolution passed by your Honorable Board on the 18th of April, 1905, requesting the Department of Docks and Ferries to take steps for the acquisition of property for a recreation pier in the neighborhood of Red Hook, Borough of Brooklyn.

It is provided by this resolution that the Department of Docks and Ferries be requested to take steps, under section 1822 of the Greater New York Charter, to

acquire, for a recreation pier and other beneficent purposes, certain property in the neighborhood of Red Hook, Borough of Brooklyn.

The reference to section 1822 of the Greater New York Charter is manifestly an error, there being no such section of the Charter. The section intended is evidently section 822, which provides for the acquisition of water front property by the City.

Respectfully,

GEO. B. McCLELLAN, Mayor.

The Committee on Docks and Ferries, to whom was referred on March 21, 1905 (Minutes, page 1289), the annexed resolution in favor of requesting the Department of Docks to acquire certain property in the Borough of Brooklyn for use for recreation pier, respectfully

REPORT:

That, having examined the subject, they recommend that the said resolution be adopted.

Whereas, The neighborhood of Red Hook, in the Borough of Brooklyn, City of New York, has become and is a thickly congested section, and by reason of the heavy private shipping there, has no present parks or healthy places which are so necessary for the good health and happiness of especially the women and children of the crowded City districts; and

Whereas, The Board of Aldermen is ever on the watch to increase the welfare and well being of the people of our City; therefore be it

Resolved, That the Department of Docks and Ferries be and it is hereby respectfully requested to take steps under section 1822 of Greater New York Charter to acquire, if it can reasonably do so, for a recreation pier and other beneficial purposes, the following described property:

Beginning at a point in the northwesterly line of Conover street distant twenty (20) feet southwesterly from the corner formed by the intersection of the southwesterly line of the strip of land formerly called and hereinafter designated as Reid street, with the northwesterly line of Conover street; running thence northwesterly on a line parallel with Reid street eighty (80) feet; thence northwesterly on a line parallel with Conover street twenty (20) feet to the southwesterly line of Reid street; thence again northwesterly along the southwesterly line of Reid street one hundred and fourteen (114) feet five (5) inches to Divine Buch's land or shipyard; thence westerly along the line of said Buch's land or shipyard four hundred and forty (440) feet five (5) inches to the outer line of sea wall or breakwater or pier of Gowanus Bay, Basin Number I., as established by law; thence southerly along the outer line of said sea wall, three hundred and fifty-two (352) feet eight (8) inches to the land now or late of Lydia S. Cutting, executrix and trustee under the last will and testament of Heyward Cutting, deceased; thence northeasterly along said land three hundred and twenty-one (321) feet two (2) inches to a point which is distant southwesterly two hundred and forty-six (246) feet from the southwesterly side of Reid street, measured on a line at right angles thereto, and northwesterly one hundred and seven (107) feet from the northwesterly line of Conover street on a line measured at right angles thereto; thence southeasterly parallel with Reid street and still along said land, one hundred and seven (107) feet to the northwesterly line of Conover street; and thence northeasterly along the northwesterly line of Conover street, two hundred and twenty-six (226) feet to the point or place of beginning.

Together with the dock or bulkhead upon the above mentioned and described premises, and all the water rights, privileges which may now or hereinafter appertain or belong to the same as authorized and permitted by law.

JOHN D. GILLIES, JAMES OWENS, FRANK BENNETT, THOMAS F. BALDWIN, HERMANN KOCH, JOHN D. GUNTHER, Committee on Docks and Ferries.

Which was laid over, ordered to be printed in the minutes and published in full in the CITY RECORD.

PETITIONS AND COMMUNICATIONS.

No. 1864.

Nos. 17 and 19 Beaver Street and No. 64 New Street, }
New York, May 2, 1905.

Hon. CHARLES V. FORNES, President of the Board of Aldermen, New York City:

Sir—We have the honor of presenting herewith a petition signed by every merchant and his employees on Beaver street, requesting the Board of Aldermen to restrict Beaver street, from Broadway to William street, from push-cart peddlers.

The Honorable Police Commissioner is familiar with the situation, and we think that he regards the push-carts on this street a public nuisance and a great hindrance to transaction of business by the merchants thereon.

We beg you to present the petition to the Board of Aldermen and respectfully pray that your Honorable Body grant our request.

We have the honor, sir, to be,

Your obedient servants,

GEO. B. SADLER,

A. W. DODSWORTH,

Committee.

City of New York—Borough of Manhattan.

To the Hon. CHARLES V. FORNES, President of the Board of Aldermen:

The undersigned, all engaged in business in buildings situated on Beaver street, in this Borough, respectfully petition:

That the push-cart peddlers with whom that street is continually infested be removed from that portion of Beaver street between Broadway and the New York Cotton Exchange at the corner of Beaver and William streets, because of the fact that said push-carts are not only a public nuisance but have become a positive pest to the neighborhood, and daily obstruct the street, thereby rendering the prompt and efficient dispatch of business impossible.

That the continuance of said nuisance is destroying in a large measure the business-like character of Beaver street and likely to affect the rental values on that street.

In view of these facts, we respectfully and earnestly petition that you will introduce, or cause to be introduced, into the Board of Aldermen an ordinance declaring Beaver street to be a "restricted street," and thus relieve us of the push-cart nuisance from which we have been suffering for such a length of time.

All of which is respectfully submitted by:

work of rebuilding and improving the Downing Brook drains, Neil Estate, Eastchester, Borough of The Bronx. In connection herewith I transmit copy of report of Charles H. Graham, Engineer in Charge of Sewers, showing the necessity of this additional amount; also resolution for the same, and I would respectfully ask that the matter be presented to the Board of Aldermen at its next meeting.

Yours truly,

LOUIS F. HAFFEN,
President of the Borough of The Bronx.

Resolved, That the Board of Estimate and Apportionment be and it is hereby requested, in pursuance of the provisions of section 188, subdivision 8 of the Greater New York Charter, to authorize the Comptroller to issue Special Revenue Bonds to the amount of two thousand five hundred dollars (\$2,500), in addition to those already authorized, the proceeds thereof to be applied to the cost and expense of the improvement of the Downing Brook drains, Neil estate, District of Chester, Borough of The Bronx, City of New York.

Which was made a special order for the next meeting at 2 o'clock P. M.

The President laid before the Board the following communication from the Police Commissioner:

No. 1866.
Police Department of The City of New York,
No. 300 Mulberry Street,

To the Honorable Board of Aldermen:

Gentlemen—The following proceedings were this day directed by Police Commissioner William McAdoo:

Whereas, In the opinion of the Police Commissioner it is necessary for the purposes of the Department to procure an automobile carriage the cost of which will exceed one thousand dollars; and

Whereas, It is inexpedient to purchase such automobile under contract to be let pursuant to the provisions of the Greater New York Charter;

Ordered, That the Board of Aldermen be and is hereby respectfully requested to authorize the Police Commissioner to procure one (1) automobile carriage for the use of the Police Department of The City of New York without advertising for competing bids or proposals.

Very respectfully,

WM. H. KIPP, Chief Clerk.

The President laid before the Board the following communication from the President, Borough of Brooklyn:

No. 1867.
The City of New York,
Office of the President of the Borough of Brooklyn,
Brooklyn, May 1, 1905.

To the Honorable Board of Aldermen:

Dear Sirs—The President of the Borough directs me to submit to you for adoption the attached form of resolution giving his permission to construct an ornamental masonry wall six and one-half feet high inside the fence line on Fourth avenue, Borough of Brooklyn, in front of the proposed public bath building at the northeast corner of President street. This wall is provided for in the plans of the architect who has designed the public bath in question, in order to furnish sufficient head room for machinery and ventilation in the boiler room of the building. The President would be pleased if you would give this matter your immediate consideration.

Yours respectfully,

JOHN A. HEFFERNAN, Secretary.

Resolved, That permission be given the President of the Borough of Brooklyn to construct an ornamental masonry wall six and one-half feet above the sidewalk and inside the fence line on Fourth avenue, Borough of Brooklyn, in front of proposed public bath building, northeast corner of Fourth avenue and President street, and to maintain the space between said wall and the building for ventilating and lighting the proposed boiler and machinery room, by means of an elevated glass roof with necessary vent openings.

Which was referred to the Committee on Streets, Highways and Sewers.

The President laid before the Board the following communication from the Department of Correction:

No. 1868—(S. O. No. 105).
(Copy.)

New York, March 23, 1905.

The Hon. CHARLES V. FORNES, President, Board of Aldermen, New York City:

Dear Sir—I would most respectfully ask your Honorable Board to request the Board of Estimate and Apportionment to grant to the Department of Correction the sum of sixty-five thousand dollars (\$65,000) for the purchase of supplies for the maintenance of the inmates of the correctional institutions for the remainder of the year 1905. Issue of bonds or funds to be granted under subdivision 8, section 188 of the Charter of Greater New York, as amended by chapter 24, Laws of 1905.

Trusting that your Board will grant this request, I am,

Very respectfully,

(Signed) FRANCIS J. LANTRY, Commissioner.

Department of Correction of The City of New York,
Commissioner's Office, No. 148 East Twentieth Street,
New York, April 29, 1905.

Hon. CHARLES V. FORNES, President, Board of Aldermen:

Dear Sir—The request for the issue of bonds, herein referred to, is due primarily to the fact that, while this Department asked for an appropriation for "Supplies and Contingencies," for 1905, of \$395,550, the Board of Estimate and Apportionment only allowed \$308,000, thus reducing the amount required by \$87,550, or 22.13 per cent.

On January 1, 1904, the Department inventories at the Storehouse and the various institutions showed the value of \$66,113.96, or 20.8 per cent. of the amount granted for 1904, viz.: \$319,428.86, which is about the usual rate.

On January 1, 1905, the total amount of the Departmental Inventory was \$44,426.71, or 14.36 per cent. of the sum granted for 1905, viz.: \$308,000, or 6.44 per cent. less of a working capital than the Department should have had. This is one item which was not considered in the grant for 1905, and which should have been added, thus increasing the \$308,000 by \$13,675.20.

It is impossible to conduct the administration of this Department on the amount granted for "Supplies," \$308,000, which is, in round figures, \$11,500 less than was allowed for the preceding year. This can be most readily and convincingly demonstrated by the excessive increase in the census during the first three months of the present year, as compared with that of the year 1904.

The average daily census of the inmates for 1904 was 2,881, while that of January, February and March, 1905, is 3,774, an increase over 1904 of 893, or 31 per cent.

If we assume the normal growth of census to be, as it has been in the past, between five and seven per cent., we have an excess this year of twenty-four per cent., for which no provision could have been made, since it was not possible to foresee such a condition.

The amount required for supplies for this twenty-four per cent. increase would be \$73,920, which must be added to the appropriation for 1905; to this must be also added the above calculated shortage in working capital of \$13,675.20, making in all \$87,595.20 to conduct satisfactorily, and without causing suffering to the unfortunate inmates, the business of this Department.

The very severe winter through which we have just passed, and which resulted in the overcrowding of every hospital in this city, has probably produced this enormous growth of census, and, while the coming summer will certainly reduce the present number of inmates, experience has demonstrated that a figure of census once reached will again be attained. As we expect this to become a reality during the fall and winter of 1905, unless the issue of the bonds herewith requested of at least \$65,000 for "Supplies and Contingencies" be granted, the Department will contemplate the future with great apprehension.

Hoping your Honorable Board will grant the amount asked for, I remain,

Very respectfully,

FRANCIS J. LANTRY, Commissioner.

No. 1869.

Department of Finance—City of New York,
May 2, 1905.

Hon. CHARLES V. FORNES, President, Board of Aldermen:

Dear Sir—I send you herewith certified copy of a resolution adopted by the Board of Estimate and Apportionment April 28, 1905, approving the issue of Corporate Stock to the amount of \$125,000, for the purpose of providing means for the construction and equipment of fire-boats for the use of the Fire Department of The City of New York, and copy of a communication from the Fire Commissioner relative thereto.

I also inclose form of ordinance for adoption by the Board of Estimate and Apportionment.

Yours very truly,

J. W. STEVENSON, Deputy Comptroller.

Headquarters Fire Department, City of New York,
Borough of Manhattan, April 5, 1905.

Hon. GEORGE B. McCLELLAN, Mayor and Chairman, Board of Estimate and Apportionment, City of New York:

Sir—On March 16, last, the Board of Estimate and Apportionment passed a resolution authorizing the issue of Corporate Stock in the sum of \$250,000, for the purchase of two (2) boats for the use of Fire Department. The application of this Department, however, was for \$375,000, to cover the purchase of three (3) fireboats. After the executive session of the Board of Estimate and Apportionment on the said date, announcement was made to the effect that the Corporate Stock to cover the purchase of the third fireboat was not authorized, in order to consider the advisability of purchasing one larger boat or two smaller boats, and the representative of this Department was instructed to present to the Board of Estimate and Apportionment a statement of the reasons that would seem to justify the choice of one boat instead of two.

Pursuant to such direction, I beg to present the following reasons that seem to make it advisable to prefer the larger boat.

It is proposed that the larger boats have a water-line of about 125 feet. This length affords room enough to equip with the great essential of good boiler power, with twin screw engines, and so far as possible, with twin plant, in order to minimize the danger of the boat being put temporarily out of service. The larger boat also has very much greater maneuvering power.

If the appropriation of \$125,000 for one boat is divided in order to purchase two, the two boats combined would have much less efficiency than the one single boat. The weight of the hull of the two boats combined would be much greater than that of the single boat; the speed would be greatly reduced, and the pumping capacity would have to be reduced considerably more than half for each boat. A small boat would not be as effective in pushing its way through ice or in making speed in bad weather. If twin screws were used in the smaller boats, the force required in handling the machinery would be as great in each boat as in the larger boat, with the exception of an additional fireman, so that the cost of maintenance of the two boats and the general expense, including repairs, would be very much greater. The boats now in service are small enough to subserve all the purposes for which small boats should be secured.

On account of the additional cost of the twin screw boat over the single screw, it would be found impracticable to purchase two smaller boats with twin screws for the sum of \$125,000. There can be no doubt of the greater facility of controlling a large boat with twin screws as contrasted with a smaller boat with a single screw. Furthermore, the draft of such larger boat would not materially exceed the draft of such smaller boats.

As between the larger and the smaller boats, the efficiency of the machinery and the durability of it would be much greater in the larger plant than in the smaller. The above statement is the foundation for the opinion that the larger boat should be procured. This conclusion has been arrived at after discussion with experts, and after mature deliberation.

I therefore renew my application for an additional boat of the larger pattern, and ask for the authorization of an issue of Corporate Stock in the sum of \$125,000 to cover its purchase.

Yours respectfully,

(Signed) NICHOLAS J. HAYES, Fire Commissioner.

AN ORDINANCE providing for an issue of Corporate Stock in the sum of one hundred and twenty-five thousand dollars (\$125,000), to provide means for the construction and equipment of fire-boats for the use of the Fire Department of The City of New York.

Be it Ordained by the Board of Aldermen of The City of New York, as follows: Section 1. The Board of Aldermen hereby approves of and concurs in the following resolution adopted by the Board of Estimate and Apportionment April 28, 1905, and authorizes the Comptroller to issue Corporate Stock of The City of New York to the amount and for the purposes therein specified:

"Resolved, That, pursuant to the provisions of section 47 of the Greater New York Charter, as amended by chapter 409 of the Laws of 1904, the Board of Estimate and Apportionment hereby approves of the issue of Corporate Stock of The City of New York to an amount not exceeding one hundred and twenty-five thousand dollars (\$125,000), for the purpose of providing means for the construction and equipment of fire-boats for the use of the Fire Department of The City of New York, and that when authority therefor shall have been obtained from the Board of Aldermen, the Comptroller is authorized to issue Corporate Stock of The City of New York, in the manner provided by section 169 of the Greater New York Charter, to an amount not exceeding one hundred and twenty-five thousand dollars (\$125,000), the proceeds whereof to be applied to the purposes aforesaid."

No. 1870.

Department of Finance—City of New York,
May 2, 1905.

Hon. CHARLES V. FORNES, President, Board of Aldermen:

Dear Sir—I send you herewith certified copy of resolution adopted by the Board of Estimate and Apportionment April 28, 1905, authorizing the issue of Corporate Stock to an amount not exceeding \$82,000, to provide means for improving, permanently bettering and equipping station-houses of the Police Department, together with copies of communications from the Chief Clerk of said Fire Department, the Acting Inspector,

Department of Repairs and Supplies, and the Engineer, Department of Finance, relative thereto.

I also inclose form of ordinance for adoption by the Board of Aldermen to indicate its concurrence therein.

Very truly yours,

J. W. STEVENSON, Deputy Comptroller.

Police Department of The City of New York,
Bureau of Repairs and Supplies, No. 300 Mulberry Street,
New York, March 15, 1905.

WILLIAM HOWELL, Esq., Secretary, Police Commissioner:

Sir—In compliance with your order of this A. M., I have the honor to submit the following report, showing necessary repairs required to department buildings, with approximate cost thereof (roughly estimated), and, with your approval, will prepare and submit specifications, showing in detail the nature of work required to place buildings in a clean and sanitary condition, at which time a close approximate cost will be presented.

The First, Seventh, Eighth, Twelfth, Thirteenth, Fourteenth, Fifteenth, Sixteenth, Seventeenth, Eighteenth, Twentieth, Twenty-first, Twenty-second, Twenty-eighth, Thirtieth, Thirty-first and Thirty-second Precinct stations should be steam heated throughout, to replace the present antiquated and unsatisfactory method of heating by stoves. This will cost approximately the sum of \$50,000.

The Second, Twentieth, Twenty-first, Twenty-second, Twenty-fourth, Twenty-fifth, Twenty-eighth, Thirty-fourth, Thirty-fifth, Thirty-seventh, Fortieth, Forty-third, Forty-fourth, Forty-fifth, Forty-sixth, Forty-seventh, Forty-eighth, Forty-ninth, Fiftieth, Fifty-first, Fifty-second, Fifty-third, Fifty-fourth, Fifty-fifth, Fifty-sixth, Fifty-seventh, Fifty-eighth, Fifty-ninth, Sixtieth, Sixty-first, Sixty-second, Sixty-third, Sixty-fourth, Sixty-fifth, Sixty-sixth, Sixty-seventh, Sixty-ninth, Seventy-fourth, Seventy-sixth (and two subs), Seventy-seventh, Seventy-eighth, Seventy-ninth (and sub), Eightieth (and two subs), and Eighty-third Precinct stations, exterior of Twenty-ninth and Thirteenth Precincts, portion of House of Detention, should have plastering and woodwork repaired (considerable metal ceiling provided), and be painted two or three-coat work (as may be required).

This work will cost approximately the sum of \$80,000.

Defective brick wall at Seventh Precinct Prison, defective brick work of Fifty-seventh Precinct Prison and stable, alterations to upper portion of Eighteenth Precinct Prison, to provide quarters for female prisoners, for which new modern steel cells, etc., must be provided, the building of brick retaining-wall at rear of Thirty-fourth Precinct Station, frame extension to Sixty-sixth Precinct Station to provide additional room for station-house purposes, the repairing of certain other defective masonry of Department buildings now in view, would cost approximately \$20,000.

Extensive new plumbing installation is required at several stations, particularly to the First, Seventh, Tenth, Seventeenth, Eighteenth, Twenty-second, Thirtieth, Fiftieth and Sixty-third Precincts, which with less extensive work at several other stations will require an additional \$25,000.

Recapitulation.

Steam heating	\$50,000 00
Painting, etc.	80,000 00
Masonry and alterations	20,000 00
Plumbing	25,000 00
	<u>\$175,000 00</u>

The appropriation of this sum and judicious expenditure of same would result in placing Department buildings, upon the whole, in a clean, sanitary and comfortable condition, and in a large measure, make good the condition largely due to the utterly inadequate appropriations of former years.

With few exceptions, none of the stations mentioned above have been painted since "consolidation" (1898), and many of them have not been painted for upwards of ten or fifteen years. Not only in the matter of painting, but in plumbing work, steam heating, etc., the work has been retarded or neglected for years owing to lack of funds, and no matter how intelligently and economically the appropriation has been expended, it has been impossible to do little more than maintain a fair state of repair, leaving little means for new installation or progressive work.

Respectfully,

(Signed) JOHN L. BERGMAN,
Acting Inspector, Repairs and Supplies.

March 16, 1905.

Hon. EDWARD M. GROUT, Comptroller:

Sir—The following proceedings were this day directed by Police Commissioner William McAdoo:

Whereas, In the Departmental Estimate of the Police Department for the year 1905, the amount of appropriation for account of "Police Station-houses, Alterations, etc.," was only \$44,000, the amount asked for such purposes being the sum of \$140,000; and

Whereas, Such amount allowed is insufficient to enable the Police Commissioner to properly alter and repair said station-house buildings, to place them in good sanitary condition and adapted to the purposes of the Police Department,

Ordered, That, in pursuance of the provisions of chapter 409 of the Laws of 1904, the Board of Estimate and Apportionment be and is hereby respectfully requested to approve the issue of Corporate Stock of The City of New York to the amount of \$175,000, to provide for the improving, permanent bettering and equipping of the station-houses of the Police Department of The City of New York.

Ordered, That whenever the Board of Estimate and Apportionment shall have approved the issue of Corporate Stock of The City of New York to the amount of \$175,000, to provide for the improving, permanent bettering and equipping of the Police station-houses of The City of New York, the Board of Aldermen be and is hereby respectfully requested to authorize the issue of Corporate Stock of The City of New York, such amount for such purposes.

Ordered, That a copy of the report of Roundsman John L. Bergman, Acting Inspector of the Bureau of Repairs and Supplies of the Police Department, showing the necessity for such repairs to Police Department buildings and estimate of probable cost of same be referred to the Board of Aldermen and to the Board of Estimate and Apportionment.

Very respectfully,

WM. H. KIPP, Chief Clerk.

April 17, 1905.

Hon. EDWARD M. GROUT, Comptroller:

Sir—On March 16, 1905, the Police Commissioner

Ordered, That in pursuance of the provisions of chapter 409 of the Laws of 1904, the Board of Estimate and Apportionment be and is hereby respectfully requested to approve the issue of Corporate Stock of The City of New York to the amount of \$175,000 to provide for the improving, permanent bettering and equipping the station-houses of the Police Department of The City of New York.

John L. Bergman, Esq., Acting Inspector, Repairs and Supplies, in a communication addressed to the Police Commissioner under date of March 15, gives in detail an estimate of how the money is to be expended, namely:

Steam heating—First, Seventh, Eighth, Twelfth, Thirteenth, Fourteenth, Fifteenth, Sixteenth, Seventeenth, Eighteenth, Twentieth, Twenty-first, Twenty-second, Twenty-eighth, Thirtieth, Thirty-first Precinct Stations	\$50,000 00
Painting—Second, Twentieth, Twenty-first, Twenty-second, Twenty-fourth, Twenty-fifth, Twenty-eighth, Thirty-fourth, Twenty-fifth, Thirty-seventh, Fortieth, Forty-third, Forty-fourth, Forty-fifth, Forty-sixth, Forty-seventh, Forty-eighth, Forty-ninth, Fiftieth, Fifty-first, Fifty-second, Fifty-third, Fifty-fourth, Fifty-fifth, Fifty-sixth, Fifty-seventh, Fifty-eighth, Fifty-ninth, Sixtieth, Sixty-first, Sixty-second, Sixty-third, Sixty-fourth, Sixty-fifth, Sixty-sixth, Sixty-seventh, Sixty-ninth, Seventy-fourth, Seventy-sixth (and 2 subs), Seventy-seventh, Seventy-eighth, Seventy-ninth (and sub), Eightieth (and 2 subs), and Eighty-third Precinct Stations, exterior of Twenty-ninth and Thirteenth Precincts and portion of House of Detention	80,000 00

Masonry and alterations at Seventh, Fifty-seventh, Eighteenth, Thirty-fourth, Sixty-sixth Precincts stations	20,000 00
Plumbing at First, Seventh, Tenth, Seventeenth, Eighteenth, Twenty-second, Thirty-sixth, Fiftieth, Sixty-third Precincts	25,000 00

In compliance with your instructions, to report upon the amount that may be properly payable on bonds, I would report:

After an interview with the Inspector in charge of the repairs and supplies at the Police Department, and also personal knowledge of the condition of the station-houses in The City of New York, all the additional work, alterations and repairs noted in a general way are necessary and should be made in order to place the buildings in clean, sanitary and comfortable condition, but, in my opinion, only \$82,000 of the amount, \$175,000, requested could properly be chargeable to a bond account, namely:

Steam heating	\$50,000 00
Painting, etc., new metal ceiling	2,500 00
Masonry, new additions	4,500 00
Plumbing	25,000 00
Total	<u>\$82,000 00</u>

Therefore, I think the Board of Estimate and Apportionment may properly authorize the Comptroller, pursuant to section 47 of the Greater New York Charter, as amended by chapter 409 of the Laws of 1904, to issue Corporate Stock of The City of New York to the amount of \$82,000, to provide means for the improvement of the building, station-houses, etc., under the jurisdiction of the Police Department.

Respectfully,

(Signed) EUG. E. McLEAN, Engineer.

AN ORDINANCE providing for an issue of Corporate Stock in the sum of eighty-two thousand dollars (\$82,000), to provide means for the improving, permanently bettering and equipping station-houses of the Police Department.

Be it Ordained by the Board of Aldermen of The City of New York as follows:

"Steam heating	\$50,000 00
"Painting, etc., including new metal ceiling	2,500 00
"Masonry, new additions	4,500 00
"Plumbing	25,000 00
	<u>\$82,000 00</u>

"—and that when authority therefor shall have been obtained from the Board of Aldermen the Comptroller is authorized to issue Corporate Stock of The City of New York, in the manner provided by section 169 of the Greater New York Charter, to an amount not exceeding eighty-two thousand dollars (\$82,000), the proceeds whereof to be applied to the purposes aforesaid."

Hon. CHARLES V. FORNES, President, Board of Aldermen:

Dear Sir—I send you herewith certified copy of a resolution adopted by the Board of Estimate and Apportionment April 28, 1905, recommending the fixing of the salary of the position of Superintendent in the Department of Parks, boroughs of Brooklyn and Queens, be fixed at the rate of \$4,000 per annum, together with copy of report of the Sub-Committee of the Board of Estimate and Apportionment relative thereto.

April 5, 1905.

To the Board of Estimate and Apportionment:

Gentlemen—Your Committee, to whom was referred the communications from the Commissioner of Parks, boroughs of Brooklyn and Queens, requesting that the salary of the position of Superintendent in that Department be increased from \$3,000 to \$4,000, begs leave to report that he has no further information to lay before this Board other than that contained in the communication of the Park Commissioner, boroughs of Brooklyn and Queens. Owing to the refusal of the State Civil Service Commission to permit the creation of the position of Assistant Superintendent of Parks in the boroughs of Brooklyn and Queens, this increase in salary is asked for because of the extra labor and responsibility devolving upon the Superintendent of Parks for those boroughs. The Superintendent of Parks, boroughs of Manhattan and Richmond, is provided with two Assistants, at \$2,500 each per annum, and the Superintendent of Parks, Borough of The Bronx, is also provided with two Assistants at \$1,500 each per annum.

It seems to me that in view of these facts an increase in salary should be granted to the Superintendent of Parks for the boroughs of Brooklyn and Queens until such time as an Assistant Superintendent shall have been provided.

Respectfully submitted,

C. V. FORNES,
Sub-Committee, Board of Estimate and Apportionment.

Whereas, The Board of Estimate and Apportionment, at a meeting held April 28, 1905, adopted the following resolution:

"Resolved, That the Board of Estimate and Apportionment hereby recommends to the Board of Aldermen, in accordance with the provisions of section 56 of the Greater New York Charter, that the salary of the position of Superintendent in the Department of Parks, Boroughs of Brooklyn and Queens, be fixed at the rate of four thousand dollars (\$4,000) per annum."

Resolved, That the Board of Aldermen hereby concurs in said resolution, and fixes the salary of the position of Superintendent in the Department of Parks, Boroughs of Brooklyn and Queens, at the rate of four thousand dollars (\$4,000) per annum.

Hon. CHARLES V. FORNES, President, Board of Aldermen:

Dear Sir—I send you herewith certified copy of resolution adopted by the Board of Estimate and Apportionment April 28, 1905, recommending the fixing of the salaries of various positions under the jurisdiction of the Department of Street Cleaning; together with copies of communications from the Commissioner of said Department and report of the Accountant of the Department of Finance relative thereto.

I also inclose form of resolution for adoption by the Board of Aldermen to indicate its concurrence therein.

Very truly yours,

April 19, 1905.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman Board of Estimate and Apportionment:

Sir—I request that your Board recommend to the Board of Aldermen, pursuant to section 56 of the Greater New York Charter, as amended, that the salaries of certain members of the clerical and uniformed forces of this Department be fixed at the amounts specified in the accompanying resolution.

Inviting attention to the fact that these increases in pay to employees of the Department of Street Cleaning in the uniformed force were recommended in 1902, in the shape of a bill which was forwarded to Albany, and in 1903 in the same form, which bill, being coupled with the request for the placing of the cognizance and control of the sprinkling and the sanding of the streets with the Department of Street Cleaning, was defeated, it is now deemed wise to submit this same measure under the provisions of section 56 of the Charter. In each of the cases where this increase of pay is recommended by the Department of Street Cleaning, these recommendations are made for long and faithful service and added responsibilities.

This recommendation includes the creation of a new position for an additional Apothecary at \$1,200 a year, so that the total increase in the salaries in these thirteen places is \$6,750.

I would recommend further that inasmuch as at the present time there is no grade in the position of Stenographer and Typewriter in this Department between the compensation of \$1,050 per annum and \$1,500, grades be established for annual compensations of \$1,200 and \$1,350.

As this recommendation was deemed wise in 1902 and concurred in in 1903 and in 1904, it has become more distinctly wise in 1905, because of the greatly increased amount of work which is thrown upon the various members of both the clerical and uniformed forces. The amount of labor is shown by the greatly increased amount of material handled and removed and the additional number of miles of streets swept, and the accounting incident to the purchasing of all material by public letting, together with the natural growth of the Department, renders it not only desirable but a just compensation for the service rendered.

Respectfully, your obedient servant,
(Signed) JOHN McGAW WOODBURY, Commissioner.

In Board of Estimate and Apportionment.

Whereas, It is deemed advisable to increase the salary of certain members of the clerical force and of the uniformed force of the Department of Street Cleaning, because of the increase in their work and responsibilities,

Resolved, That the Board of Estimate and Apportionment hereby recommend to the Board of Aldermen, pursuant to section 56 of the Greater New York Charter, as amended, that the Board of Aldermen fix the salaries of the hereinafter members of the clerical force and uniformed force of the Department of Street Cleaning at the amounts hereinafter named, to wit:

Chief Clerk	\$3,900 00
Law Clerk	3,300 00
Chief Bookkeeper	3,300 00
Apothecary	1,200 00
Apothecary	1,500 00
Typewriter Copyist	1,350 00
Stenographer and Typewriter	1,200 00
Stenographer and Typewriter	1,350 00
District Superintendent in Charge, Borough of Brooklyn	3,000 00
District Superintendent in Charge, Borough of The Bronx	2,500 00
General Superintendent	3,500 00
Assistant Superintendent	3,000 00
Superintendent of Stables	2,500 00
Superintendent of Final Disposition	2,500 00
Assistant Superintendent of Final Disposition	2,000 00
Master Mechanic	2,500 00

April 25, 1905.

Hon. EDWARD M. GROUT, Comptroller:

Sir—In regard to the request of Commissioner Woodbury, of the Department of Street Cleaning, that the salaries of certain employees in the uniformed and clerical

forces of that Department be fixed at amounts specified in the resolution accompanying said request, which matter was referred to me for investigation, I beg to report as follows:

Excerpts from the Greater New York Charter.

Section 536 of the Greater New York Charter reads in part as follows:

"* * * The annual salaries and compensations of the members of the uniformed force of the Department of Street Cleaning shall not exceed the following:	
"Of the General Superintendent	\$3,000 00
"Of the Assistant Superintendent	2,500 00
"Of the Master Mechanic	1,800 00
"Of the Superintendent of Final Disposition	2,000 00
"Of the Assistant Superintendent of Final Disposition	1,500 00
"Of the District Superintendents, each	1,800 00"

The position of Superintendent of Stables, whose present salary is \$2,000, is also included in the uniformed force, although not mentioned in the Charter. This position, I am told, was created by Civil Service Commission, and resolution of the Board of Aldermen, approved by the Mayor.

Section 56 of the Greater New York Charter reads in part:

"* * * It shall be the duty of the Board of Aldermen, upon the recommendation of the Board of Estimate and Apportionment, to fix the salary of every officer or person whose compensation is paid out of the City Treasury, other than day laborers and teachers, examiners and members of the supervising force of the Department of Education, irrespective of the amount fixed by this act, except that no change shall be made in the salary of any elected officer or head of Department during his tenure of office."

"District Superintendent in Charge, Borough of Brooklyn	\$3,000 00"
and "District Superintendent in Charge, Borough of The Bronx	2,500 00"

The title of these positions appearing upon the pay-rolls and recognized by the Civil Service Commission is "District Superintendent," and the affix "In charge, Borough of _____" is given by the Commissioner, in accordance with that portion of Rule 6 of the Civil Service Commission, which reads as follows:

"To define more exactly the duties of particular positions, or to fix such positions in the peculiar organization of a Department or office, appropriate sub-titles, or "office titles," may be employed, in the discretion of the head of such Department or office or of the Board of Estimate and Apportionment; but such sub-titles need not appear either on the roster or on any pay-roll."

The number of District Superintendents is 21 and their salaries at present are \$1,800 per annum each, both of which are fixed by section 536 of the Charter.

From the foregoing rule, and in view of the fact that the pay-roll of District Superintendent can legally be passed by the Civil Service Commission at any salary fixed in accordance with section 56 of the Charter, it, of course, follows that the number of District Superintendents in Charge, Borough of Brooklyn or Borough of The Bronx, when salary is fixed, is entirely within the discretion of the Commissioner.

From the Commissioner's request, addressed to his Honor the Mayor, as Chairman of the Board of Estimate and Apportionment, it appears, however, that the promotions under this title contemplated at the present time, are for but one District Superintendent in Charge, Borough of Brooklyn, from \$1,800 to \$3,000, and one District Superintendent in Charge, Borough of The Bronx, from \$1,800 to \$2,500, or, in other words, a total increase of but \$1,900.

General Superintendent.

Salary requested for this position by Commissioner	\$3,500 00
Present salary	3,000 00
Increase	\$500 00

The present occupant of this position, which is limited by section 536 of the Charter to one, has been in the service since July 1, 1892—practically thirteen years.

Assistant Superintendent.

The present occupant of this position (limited by section 536 of Charter to one) entered the service as Superintendent of Stables on June 2, 1893, with salary of \$2,000. On June 27, 1898, his title was changed to Assistant Superintendent of Stables, and salary fixed at \$2,500.

Superintendent of Stables.

Salary requested by Commissioner for this position	\$2,500 00
Present salary	2,000 00
Increase	\$500 00

The present occupant of this position was originally appointed as Time Clerk on September 16, 1895, since which the changes in the title and salary of his position have been as follows:

Superintendent of Final Disposition.

Salary requested by Commissioner for this position	\$2,500 00
Present salary	2,000 00
Increase	\$500 00

The present occupant of this position, which is limited by the Charter to one, was appointed as an Assistant Dump Inspector with salary of \$900 per annum. On February 1, 1900, his salary was fixed at \$1,200; on April 1, 1902, his title was changed to Assistant Superintendent of Final Disposition with salary at \$1,500, and on December 5, 1903, his salary was made \$2,000, and his title changed to Superintendent of Final Disposition.

Assistant Superintendent of Final Disposition.

The present occupant of this position entered the service October 12, 1894, since which his changes in title and salary have been as follows:

January 9, 1897—Assistant Dump Inspector	\$900 00
February 1, 1900—Dump Inspector	1,200 00
December 7, 1903—Assistant Superintendent of Final Disposition	1,500 00

The present salary of the position, which is limited by the Charter to one, is \$1,500, and the Commissioner asks that the salary be fixed at \$2,000—increase, \$500.

Master Mechanic.

The present occupant of this position, which is limited by the Charter to one, entered the service of the Street Cleaning Department, according to the civil list, on January 2, 1894, and has held his present position since February 1, 1900.

Salary requested by the Commissioner for this position	\$2,500 00
Present salary	1,800 00
Increase	\$700 00

Clerical Force—Chief Clerk, Proposed Salary, \$3,900.

The present occupant of this position, whose present salary is \$3,600, entered the service of the Street Cleaning Department on September 15, 1899.

The salaries of Chief Clerks in other City offices and departments are as follows:

Department of Finance	\$3,150 00
Aqueduct Commission	2,000 00
Commissioners of Accounts	2,000 00

Police Department	5,000 00
Law Department	5,000 00

In the Law Department there is also an Assistant Chief Clerk with salary of \$3,600.

Law Clerk—Proposed Salary, \$3,300.

The present occupant of this position was appointed June 15, 1892. His present salary is \$3,000, and the changes in his salary while in the Department have been as follows:

June 15, 1892—Incumbent and Contract Clerk.....	\$1,750 00
May 20, 1896—Contract Clerk.....	2,000 00
June 8, 1898—Contract Clerk.....	2,500 00
May 4, 1900—Clerk.....	3,000 00
June 1, 1902—Law Clerk.....	3,000 00

Law Clerks in the Law Department receive \$1,050, \$1,200, \$1,500 and \$1,800. In the Department of Finance \$1,350, \$1,650 and \$1,950. Mr. Selmes, formerly Law Clerk in the Finance Department, received a salary of \$3,100.

Chief Bookkeeper—Proposed Salary, \$3,300.

The occupant of this position at present receives a salary of \$3,000, and his changes in title and salary while in the Department have been as follows:

June 6, 1890—Bookkeeper.....	\$1,750 00
December 11, 1897—Bookkeeper.....	1,850 00
September 16, 1898—General Bookkeeper.....	2,500 00
December 17, 1901—Bookkeeper.....	3,000 00

The salaries paid men in similar positions in other City Departments are:

Department of Finance, Chief Accountant.....	\$5,500 00
Police Department, Bookkeeper.....	3,500 00
Department of Education, Auditor.....	4,500 00
Fire Department, Bookkeeper.....	1,800 00

Apothecary, Proposed Salaries, \$1,200 and \$1,500.

According to the Civil list there is but one Apothecary in the Department of Street Cleaning. He was appointed on October 4, 1899, and his present salary is \$900. I am unable to find any other Apothecary employed by the City under that title. According to letter of Commissioner Woodbury "This recommendation includes the creation of a new position for an additional Apothecary at \$1,200 a year."

Typewriting Copyist, Proposed Salary, \$1,350.

Comparatively speaking there are not many Typewriting Copyists in the City's service. Those in the Finance Department receive salaries of \$750 per annum, and those in the Tenement House Department receive salaries of \$750 and \$900.

Stenographer and Typewriter, Proposed Salaries, \$1,200 and \$1,350.

According to letter of the Commissioner there are at present no salaries in the Department of Street Cleaning for Stenographer and Typewriter between \$1,050 and \$1,500. By establishing grades at the salaries asked the Commissioner will be enabled to make increases or promotions of \$150 or \$300 each instead of \$450.

The salaries of Stenographers and Typewriters in other City Departments range from \$750 to \$1,500 per annum.

In Conclusion.

An examination of the salaries account of the Department of Street Cleaning indicates, and I am also informed by Deputy Commissioner Gibson, that the appropriation as made for 1905 is sufficient to provide for the proposed promotions.

In submitting this report I desire to say that, while the statements contained herein are accurate, they cannot, in my judgment, be used as an absolute guide in determining whether or not a salary should be fixed, as requested. For instance, this report shows that there are no Law Clerks in the employ of the City who receive a salary of \$3,300, nevertheless there may be and no doubt are employees of the City whose work is similar to that of the Law Clerk in the Department of Street Cleaning, and whose salaries are as large and possibly larger than \$3,300, but whose position is classified under a different title. On the other hand, it is possible that no member of the Board of Estimate and Apportionment can tell, from his own knowledge, just what the duties of Law Clerk in the Department of Street Cleaning are.

Therefore the Board of Estimate and Apportionment has to depend to a very large extent upon the intelligence and integrity of the head of the department making the request.

In his letter to his Honor the Mayor Commissioner Woodbury states:

"In each of the cases where this increase of pay is recommended by the Department of Street Cleaning these recommendations are made for long and faithful service and added responsibilities."

Respectfully,

(Signed) WALTER S. WOLFE, Accountant.

Whereas, The Board of Estimate and Apportionment, at a meeting held April 28, 1905, adopted the following resolution:

"Resolved, That the Board of Estimate and Apportionment hereby recommends to the Board of Aldermen, in accordance with the provisions of section 56 of the Greater New York Charter, that the salaries of the following positions under the jurisdiction of the Department of Street Cleaning be fixed as follows:

Board of Estimate and Apportionment, No. 280 Broadway, New York City:

Gentlemen—The Trustees of Bellevue and Allied Hospitals respectfully request the Board of Estimate and Apportionment to authorize the change of the title of

Assistant Director of Pathological Laboratories in their Department to that of Pathologist; this change to take effect from March 1, 1905, and the salary to remain the same.—\$1,500 per annum. The Municipal Civil Service Commission have promulgated an eligible list of Pathologists, and we have selected two persons from this list for appointment, one having begun his services on March 1, 1905, before our attention was called to the fact that the place of Pathologist did not exist in our Department.

Respectfully,

(Signed) JOHN A. BRANNAN,
President, Board of Trustees.

Whereas, The Board of Estimate and Apportionment, at a meeting held April 28, 1905, adopted the following resolution:

April 26, 1905.

To the Honorable Board of Estimate and Apportionment:

Gentlemen—I beg to request that your Honorable Board establish the grade of:

Assistant Engineer, at per year.....	\$2,400 00
Rodman, at per year.....	1,500 00
Stenographer, at per year.....	1,500 00
Telephone Operator, at per year.....	750 00
Keeper, Menagerie, at per day.....	3 50
Stationary Engineer, at per day.....	3 50
Second grade Clerk, at per year.....	900 00
Office Boy, at per year.....	300 00

—in the Department of Parks, boroughs of Brooklyn and Queens, and would call your attention to the following facts relating to these appointees:

Assistant Engineer.

The position of Assistant Engineer has been in existence in the Department since 1895 and has always been filled, with the exception of a short period in 1902, when the then incumbent of the position was promoted to that of Superintendent of Parks. The present incumbent was appointed from an eligible list on September 17, 1900, as Inspector of Masonry, and his pay fixed at \$4 per diem. He entered an examination for promotion to the position of Assistant Engineer, passed the examination and was certified to the Department for appointment August 21, 1903, and his pay fixed by former Commissioner Young at \$5 per diem. In consideration of the additional service rendered by him during the illness of the Superintendent of Parks, and in view of the fact that the pay of the Assistant Engineer has usually been \$2,400 per annum, his pay was increased on January 1, 1905, to \$6.57 per diem—practically \$2,400 per annum—which amount he is now being paid.

Rodman.

The present incumbent was transferred to this Department on June 13, 1903, from the Rapid Transit Commission at \$3.30 per day. He subsequently passed a number of Civil Service examinations of a higher grade, and was certified to various subdivisions of the municipal government, the appointments being declined (one of which was to the Aqueduct Commission at the rate of \$1,800 per annum with the title of Assistant Civil Engineer) upon my promise to increase his pay and make it \$1,500 per year. His pay was subsequently, on February 18, 1905, fixed at \$4.11 per diem, an equivalent of \$1,500 per annum, the amount which he now receives.

Stenographer.

The present Stenographer was appointed to this Department on June 1, 1902, as Confidential Stenographer to Commissioner Young at \$1,050 per year. Her name at that time was on an eligible list of Stenographers and was certified to the Borough President's office and the Department of Water Supply, Gas and Electricity. She declined appointment. On July 1, 1904, she resigned the position of Confidential Stenographer and was appointed by me from the eligible list at \$4 per diem, which amount she is now being paid, approximately \$1,500 per annum.

Telephone Operator.

The present incumbent was certified by the Civil Service Commission and appointed by me March 1, 1904, at the rate of \$2 per diem, which amount she is now being paid.

Keeper of Menagerie.

The present Keeper of the Menagerie was certified to this Department under the above title by the Civil Service Commission and appointed by Commissioner Young April 1, 1902, at the rate of \$3.50 per diem, which amount he is now being paid.

Stationary Engineer.

The present incumbent was appointed from an eligible list by Commissioner Young under date of June 29, 1903, and his pay fixed at the rate of \$3.50 per day, which amount he has been paid ever since.

Second Grade Clerk.

The present incumbent was appointed Office Boy under date of June 11, 1901, and his pay fixed at eighty-four cents per day. He passed an examination for promotion to Junior Clerk September 27, 1902, and was appointed to that position at \$1.25 per day, which was increased October 5, 1903, to \$1.75 per day. On August 6, 1904, he was appointed by me to the position of Second Grade Clerk after passing a Civil Service examination, and his pay was fixed at \$3 per day, the amount which he now receives.

Office Boy.

The present Office Boy was certified to this Department for appointment by the Civil Service Commission October 31, 1904. He was appointed by me and is now receiving compensation at the rate of ninety-eight cents per day.

The required approval of your Honorable Board under section 56 of the Charter, establishing the grade and compensation of the above employees of this Department, was inadvertently overlooked, and I respectfully ask, if consistent in fixing the grade and pay, that you approve the same from the date of January 1, 1905. Every one of the above-mentioned employees are actually necessary for the proper conduct of the business of the Department, and I most respectfully ask your favorable action on my request.

Very respectfully,

(Signed) M. J. KENNEDY, Commissioner.

J. W. STEVENSON, Esq., Deputy Comptroller and Secretary, Board of Estimate and Apportionment:

Dear Sir—I herewith forward you form of resolution creating the grade of Clerk in the office of the Commissioner of Licenses at \$1,050 per annum as of date January 1, and in explanation thereto would state the present incumbent of the position, Mr. Henry Frank, was transferred to this office from the Department of Water Supply on October 1, 1904, and paid at the rate of \$1,500 per year for October, November and December, 1904. These rolls were passed by the Municipal Civil Service Commission before the question had been brought to their attention by the State Civil Service Commission of the validity of the raise in salary from \$1,050 to \$1,500 per annum; the Municipal Civil Service Commission failed to approve Mr. Frank's name for January, 1905.

After the matter had been discussed by the Municipal Civil Service Board they agreed to certify his name at the rate of \$1,050 per year, and did so for the months of February and March, and Mr. Frank did receive the salary at that rate for the month of February. Supplementary roll was sent to the Civil Service Commission for Mr. Frank's salary for the month of January and was properly certified by them at that rate, but the Department of Finance then raised the question that there was no \$1,050 grade Clerk in the office of the Commissioner of Licenses.

I cite these circumstances to show you that this is not a question of raising anyone's salary, but simply to enable Mr. Frank to receive some salary from January of this year.

Yours very truly,
(Signed) FREDERICK L. C. KEATING,
Commissioner of Licenses.

Hon. GEORGE B. McCLELLAN, Mayor and Chairman of the Board of Estimate and Apportionment:

Sir—We respectfully request that your Honorable Board fix the salary of Clerk in this Department at the rate of \$750 per annum, to correspond with grade I of the Municipal Civil Service Commission, for the following reasons:

I. We have now no grade established by law between grade D at \$600 per annum and grade 2 at \$900 per annum.

II. There is now a vacancy in grade 2 and the only employee in our Department who is eligible for promotion is a grade D Clerk whom the Civil Service Commission intends to examine on April 5 next for promotion to grade I, the said Commission having, in its discretion, refused to examine him for promotion to grade 2, although he passed an examination in April, 1904, open to all comers, which entitled him to have his name placed on the eligible list of grade 4 Clerks, who are compensated at the rate of \$1,200 per annum.

III. The Clerk referred to has been employed in this Department for about three years, and is competent, faithful, and justly entitled to an increase in salary. As the Civil Service Commission will not consent to his promotion to grade 2, but is willing that he be promoted to grade 1, and as we have no such position in this Department, we ask your Honorable Board to fix such position which carries with it a salary of \$750 per annum.

Respectfully submitted,

Hon. CHARLES V. FURNES, President, Board of Aldermen, City Hall, New York City:

Dear Sir—I beg to present to you the following resolution with the request that the same may be introduced and passed by your Honorable Board.

This request is based upon my belief that it is impracticable to have this work done by contract at public letting. It is advisable to have the work done at shops located in the vicinity of the park stables to save time and in order that the use of the horses may be least interfered with.

The matter being one of importance, I will appreciate it if you will secure for this matter the earliest attention.

Respectfully,

JNO. J. PALLAS,

Commissioner of Parks, Boroughs of Manhattan and Richmond.

Resolved, That, pursuant to the provisions of section 419 of the Charter, the Commissioner of Parks for the Boroughs of Manhattan and Richmond be and he hereby is authorized to arrange or contract, without public letting, for the shoeing of the horses used on the parks in said boroughs during the year 1905 at an expense not exceeding the sum of five thousand dollars (\$5,000), payable from the appropriation available for that purpose.

Which was made a special order for 2 o'clock P. M.

REPORT:

That, having examined the subject, they believe the proposed terms and conditions, as fixed by the Board of Estimate and Apportionment, are equitable, and they therefore recommend that the said resolution, as contained in said communication, be adopted.

Resolved, That the Board of Estimate and Apportionment having received from the Board of Aldermen, pursuant to a resolution of such Board adopted December 20, 1904, and approved by the Mayor December 30, 1904, a proposed consent of the corporation of The City of New York to the use of a part of Eleventh avenue and of West Thirty-ninth street, in the Borough of Manhattan, for the purpose of constructing, maintaining and operating thereon two railroad tracks by the New York Butchers' Dressed Meat Company, does hereby, pursuant to the Greater New York Charter, fix the terms and conditions of the proposed consent, and the money value of such privilege or rights proposed, as follows:

I. Said consent shall be for a term not exceeding ten years from the granting of said consent, said consent being revocable at the pleasure of the Board of Aldermen, and by the Board of Estimate and Apportionment as hereinafter provided.

II. The New York Butchers' Dressed Meat Company, its successor or assigns, shall pay into the Treasury of The City of New York the following sums of money:

During the first five years the annual sum of \$1,560.60.

During the second five years the annual sum of \$1,638.68, after which the consent, unless sooner revoked, shall expire by limitation.

III. The resolution granting such consent or right should be in substance, as to the terms and conditions of such consent, in the words and figures following:

Resolved, That the consent of the Corporation of The City of New York be and the same is hereby given to the New York Butchers' Dressed Meat Company, a corporation, to lay, maintain and operate two (2) railroad tracks in Eleventh avenue and West Thirty-ninth street, as shown and indicated upon the map marked "Map showing proposed tracks in Eleventh avenue and West Thirty-ninth street, in the Borough of Manhattan, City of New York, to accompany the application of the Butchers' Dressed Meat Company for the right to construct and operate the same. Scale 1"=50', New York, January 31, 1905. New York Butchers' Dressed Meat Company, by Arthur Bloch, President," copy of which is annexed hereto, and which is made a part hereof, upon the following terms and conditions:

First—Said consent shall be for a term not exceeding ten years from the granting of said consent, provided, however, that the same may be canceled and annulled upon six months' notice in writing to the New York Butchers' Dressed Meat Company, its successor or assigns, by the Board of Estimate and Apportionment, or its successor in authority, and thereupon all the rights of the said company, its successor or assigns, in and upon the said streets and avenues, shall cease and determine.

Second—The New York Butchers' Dressed Meat Company, its successor or assigns, shall pay into the Treasury of The City of New York the following sums of money:

During the first five years the annual sum of \$1,560.60.

During the second five years the annual sum of \$1,638.68; after which the consent, unless sooner revoked, shall expire by limitation.

Such sums shall be paid into the Treasury of The City of New York on November 1 in each year, provided, however, that the first payment shall be only that proportion of \$1,560.60 as the time between the approval of this consent and November 1 following shall bear to the whole of one year.

Third—Upon the revocation or termination by limitation of this consent the said company shall forthwith remove the plant and property, with its appurtenances, from the street, and the surface of the street shall be restored to a condition equal to that of the surrounding surface or pavement. In default of the performance of this condition by the said company, its successor or assigns, the proper local authorities may cause such tracks, property and plant to be removed from the street aforesaid, and the surface thereof to be restored in the manner above described, at the expense of the said company, its successor or assigns, and such expense shall be recovered by The City of New York by action or otherwise.

Fourth—The consent hereby given shall not be assigned, either in whole or in part, or leased or sublet in any manner, nor shall title thereto, or right, interest or property therein, pass to or vest in any other person or corporation whatsoever either by the acts of the New York Butchers' Dressed Meat Company, its successor or assigns, or by operation of law, whether under the provisions of the statutes relating to the consolidation or merger of corporations or otherwise, without the consent of The City of New York, acting by the Board of Estimate and Apportionment, or its successor in authority, evidenced by an instrument under seal, anything herein contained to the contrary thereof in anywise notwithstanding, and the granting, giving or waiving of any one or more of such consents shall not render unnecessary any subsequent consent or consents.

Fifth—The said railroad tracks may be used and operated by any motive power other than overhead electrical power, which may be approved by the Board of Railroad Commissioners in accordance with the provisions of the Railroad Law, and subject to such ordinances of The City of New York now in force, or which may be hereafter adopted.

The number of cars to be included in any train operated upon the railroad tracks shall be limited to four and the speed of the engine and cars shall never exceed six miles per hour, and no car shall be permitted to remain stationary within the limits of any open street at any time, and no freight shall be loaded or unloaded from said cars while within the limits of any such street, excepting between the points marked A and B and E and F, as shown more fully on said map.

Failure to comply with any of the above provisions shall make the company liable for a penalty of fifty dollars for each offense.

Sixth—The railroad tracks constructed under this consent shall be maintained and operated solely for the purpose of the transportation of goods, wares and merchandise, and for no other purpose, and especially for no purpose in connection with the passenger traffic as commonly understood.

Seventh—Such railroad tracks shall be constructed, maintained and operated in the latest improved manner of street railroad construction and operation, and solely upon the terms and according to the lines and surveys of the character of the rails and other parts of the construction approved by the President of the Borough of Manhattan. Such railroad tracks of the said company, its successor or assigns, shall be maintained in good and safe condition throughout the terms of this consent.

Eighth—Such railroad tracks shall be constructed, maintained and operated subject to the supervision and control of all the authorities of The City of New York who have jurisdiction in such matters under the Charter of The City of New York.

Ninth—The New York Butchers' Dressed Meat Company, its successor or assigns, shall keep in permanent repair the pavement of the roadway, required to be laid by it, under the supervision of the proper local authorities, and whenever required by them to do so, and in such manner as they may prescribe. And The City of New York shall have the right to change the material or character of the pavement of the street, and in that event, the said company, its successor or assigns, shall be bound to replace such pavement in the manner directed by the proper City officer, at its own expense, and the provision as to repairs herein contained shall apply to such renewed or altered pavement.

Tenth—The said company, its successor or assigns, shall at all times keep the street between the tracks, the rails of its tracks, and for a distance of two feet beyond the rails on either side thereof, free and clear from ice and snow.

Eleventh—Said company shall be liable for all damages to persons or property and to the street and the sewers therein by reason of the construction or operation of said railroad tracks, and it is a condition of this consent that The City of New York assumes no liability to either person or property on account of this consent.

Twelfth—This consent is upon the further and express condition that the provisions of the Railroad Law applicable thereto and all laws or ordinances now in force or which may be adopted relating to surface railroads operating in The City of New York shall be strictly complied with.

Thirteenth—The said company, its successor or assigns, shall commence the construction of the railroad tracks under this consent and complete the same within one year from the day of the approval of this consent by the Mayor, and on or before May

1, 1906, otherwise this consent shall be forfeited forthwith, and without any proceedings, either at law or otherwise, for that purpose; provided, however, that such time may be extended by the Board of Estimate and Apportionment for a period not exceeding six months.

Fourteenth—This consent is upon the express condition that the said company, within thirty days after its approval by the Mayor and before anything is done in exercise of the rights conferred hereby, shall deposit with the Comptroller of The City of New York the sum of two thousand dollars (\$2,000), either in money or in securities to be approved by him, which fund shall be security for the performance of the terms and conditions of this consent, especially those which relate to the payment of the annual charge for the consent, the repairs of the street pavement and the removal of snow and ice, and the quality or construction of the railroad tracks. In case default in the performance by said company of such terms and conditions, The City of New York shall have the right to cause the work to be done and the materials to be furnished for the performance thereof after due notice, and shall collect the reasonable cost thereof from the said fund without legal proceedings, or after default in the payment of the annual charges shall collect the same with interest from such fund after ten days' notice in writing to the said company.

In case of any drafts so made upon the security fund, the said company shall, upon thirty days' notice in writing, pay to the Comptroller of The City of New York a sum of money sufficient to restore the said fund to the original amount of two thousand dollars (\$2,000); and in default thereof the consent hereby given may be canceled and annulled at the option of the Comptroller of The City of New York, acting on behalf of said City. No action or proceeding or rights under the provisions of this section shall affect any other legal rights, remedies or causes of action belonging to The City of New York.

Fifteenth—This consent shall not become operative until said company shall duly execute, under its corporate seal, an instrument in writing wherein said company shall promise, covenant and agree on its part and behalf to conform to and abide by and perform all the terms and conditions and requirements in this consent fixed and contained, and file the same in the office of the Comptroller of The City of New York within thirty days after the approval of this consent by the Mayor.

Sixteenth—The compensation herein reserved shall commence from the date of the approval of this resolution by the Mayor.

Seventeenth—The consent hereby granted is revocable at the pleasure of the Board of Aldermen.

COMMUNICATIONS FROM CITY, COUNTY AND BOROUGH OFFICERS, RESUMED.

The President laid before the Board the following communication from the Board of Trustees, College of The City of New York:

No. 1882.

Hon. CHARLES V. FORNES, President of the Board of Aldermen, New York City:

Dear Sir—The undersigned, a committee of the Board of Trustees of the College of The City of New York especially in charge of this matter, respectfully ask you to submit to the Board of Aldermen and recommend for passage, the resolution, a copy of which is appended.

The Board of Trustees of the College desire, in the interest of the beauty of the Great Hall of the College, that the contractor shall be permitted, in lieu of certain woodwork, to substitute a mural and decorative painting of an allegorical or otherwise imaginative character, in portions of the Great Hall. You will perceive, and it will be clear to the Board of Aldermen, that a competitive letting of a contract for a work of sheer art and imagination such as this is simply impossible. The City and the College need to find the artist of high character and then to have him design the work. The principal part of the work is in the artistic or imaginative idea; the mere manual execution of it, although done and necessarily done by the artist himself, or under his direction, is in value a small part of the work.

So with reference to an organ. There are but few organ builders in the country competent to make an organ such as it is necessary to have. The organ must be of a particular character, with special arrangements and the like. The question of price is not the all-important question. It is the question of the character, tone and other musical or aesthetic qualities of the organ. The committee in charge of the work ought to be permitted to make their own examination of the work of different organ builders and then to assign the work to the builder of the highest class organs of the kind suitable for this Great Hall. We earnestly trust that the Board of Aldermen will permit us to dispense with competition, proposals and bids in the case of these two items.

And we beg, Mr. President, to point out that the cost of these two items, as limited by the resolutions, is but an insignificant fraction, less than two (2) per cent. of the total cost of the buildings, and that other than these two items the work upon the buildings has been entirely upon the basis of competitive bidding.

Very respectfully yours,

M. WARLEY PLATZKE,

JAMES BYRNE,

Committee of the Board of Trustees of the College of The City of New York.

Resolved, That the Board of Aldermen, in pursuance of the provisions of section 419 of the Greater New York Charter, hereby authorizes, empowers and directs the Board of Trustees of the College of The City of New York to enter into a contract, without public letting, for the purchase of mural and decorative paintings in the sum of thirty thousand dollars (\$30,000), and also for the building of an organ in a sum not exceeding twenty-five thousand dollars (\$25,000) for the "Great Hall" of the College of The City of New York.

Which was referred to the Committee on Public Letting.

The President laid before the Board the following communications from the Board of Estimate and Apportionment, transmitting ordinances:

No. 1883.

Department of Finance—City of New York, }
May 2, 1905. }

Hon. CHARLES V. FORNES, President, Board of Aldermen:

Dear Sir—I send you herewith certified copy of resolution adopted by the Board of Estimate and Apportionment April 28, 1905, authorizing the issue of Corporate Stock to an amount not exceeding \$53,500 to provide means for the acquisition of property located on East One Hundred and Eighty-ninth street, between Tiebout avenue and Stevens place, in the Borough of The Bronx, for departmental purposes for the Department of Street Cleaning; together with copies of communications from the Commissioner of said Department and the Appraiser of Real Estate, Department of Finance, relative thereto.

I also inclose form of ordinance for adoption by the Board of Aldermen to indicate its concurrence therein.

Very truly yours,

J. W. STEVENSON, Deputy Comptroller.

December 15, 1904.

Hon. GEORGE B. McCLELLAN, Mayor, Chairman Board of Estimate and Apportionment:

Sir—I request that your Board, pursuant to section 546 of the Charter, approve of the purchase, by the issue of bonds, as therein provided, from Thomas G. Holland and John L. Holland, composing the firm of Holland Brothers, of No. 588 High Bridge road, corner of Tiebout avenue, for the use of this Department, of all that lot, piece or parcel of land in the Borough of The Bronx bounded and described as follows: Beginning at the intersection of One Hundred and Eighty-ninth street and the southeast corner of Tiebout avenue, running thence 174 44-100 feet to the corner of Stevens place; thence southerly 114 18-100 feet; thence westerly 52 70-100 feet; thence northerly 42 9-100 feet; thence westerly to the line of Tiebout avenue 100 feet, more or less; thence northerly along Tiebout avenue 70 feet, more or less, to the point or place of beginning, together with whatever rights the owners may have to the centre lines of Tiebout avenue, East One Hundred and Eighty-ninth street and Stevens place; together with the three-story brick stable, wagon shed and blacksmith shop thereon erected.

The property above mentioned, which it is desired to purchase, is the same which is now held under a lease from the same parties for a term of ten (10) years from October 1, 1904, at the annual rental of \$4,000, payable quarterly.

It is desirable to purchase the said property for the following reasons: First, it is conveniently situated for the stable purposes of our Department in that part of the Borough of The Bronx. Second, the increase of land value in the Borough of The Bronx, owing to the great number of improvements, public and private, will make it much more difficult for this Department at the expiration of this lease to obtain a suitable stable.

The owners say that the property has been recently appraised by the Harlem Savings Bank at \$60,000, which they deem a conservative estimate of its value. They now offer to dispose of the property to The City of New York for \$56,000, and they have accompanied their offer by a table intended to show a saving to the City by its purchase of the land now instead of continuing to hold the property for ten (10) years under a lease.

Respectfully,

JOHN MCG. WOODBURY, Commissioner.

City of New York—Department of Finance, }
Comptroller's Office, }
April 12, 1905. }

Hon. EDWARD M. GROUT, Comptroller:

Sir—Thomas G. Holland and John L. Holland, doing business under the firm name of Holland Brothers, at the request of the Commissioner of the Department of Street Cleaning, approved by the Commissioners of the Sinking Fund, erected a stable on East One Hundred and Eighty-ninth street, between Tiebout avenue and Stevens place, in the Borough of The Bronx, and the City agreed to pay for a ten years' lease of the property the sum of \$4,000 annually. The lease was entered into October 1, 1904, and has about nine years and six months yet to run.

Messrs. Holland Brothers desire to dispose of this property to The City of New York and the Commissioner of the Department of Street Cleaning, in a communication under date of December 15, 1904, requests the approval of the Board of Estimate and Apportionment for the acquisition of the property, and the issue of Corporate Stock for the payment thereof. The price at which the property was originally offered to the City was \$56,000. The price at which Messrs. Holland Brothers, in a communication under date of April 10, 1905, offered to sell to the City was \$53,000, and this price, while not excessive, is, in my opinion, full value for the property.

Taking the principal sum of \$53,000 and computing interest thereon at 4½ per cent, which is the City borrowing rate, plus 1 per cent. for Sinking Fund purposes, and adding to these figures the sum of \$700 for taxes, which the City would lose when it becomes the owner, the total interest carrying charges would be \$3,085. Deducting that from \$4,000, the sum the City pays annually for rent, would leave \$915 net for the City. In other words, at the expiration of the term of the lease, the City would be \$9,115 dollars better off as owner than it would be as tenant.

I would therefore respectfully recommend that the request of the Commissioner of the Department of Street Cleaning be approved, and that a resolution be adopted authorizing the acquisition of this stable for the Department of Street Cleaning, and that a resolution also be adopted, authorizing the issue of Corporate Stock in the amount of \$53,500, which will cover the cost and expenses of the acquisition of the property and the examination of title.

Respectfully submitted for approval,

(Signed)

MORTIMER J. BROWN,

Appraiser of Real Estate in Charge of Bureau.

AN ORDINANCE providing for an issue of Corporate Stock in the sum of fifty-three thousand five hundred dollars (\$53,500), to provide means for the acquisition of property located on East One Hundred and Eighty-ninth street, between Tiebout avenue and Stevens place, in the Borough of The Bronx, for Departmental purposes for the Department of Street Cleaning.

Be it Ordained by the Board of Aldermen of The City of New York as follows:

Section 1. The Board of Aldermen hereby approves of and concurs in the following resolution adopted by the Board of Estimate and Apportionment April 28, 1905, and authorizes the Comptroller to issue Corporate Stock of The City of New York to the amount and for the purposes therein specified:

Hon. CHARLES V. FORNES, President, Board of Aldermen:

Dear Sir—I send you herewith certified copy of a resolution adopted by the Board of Estimate and Apportionment April 28, 1905, approving of the issue of Corporate Stock to the amount of \$86,000 for the acquisition of property located at Park avenue, East One Hundred and Eightieth street, Webster avenue and East One Hundred and Eighty-first street, in the Borough of The Bronx, as a site for a storage yard for use of the President of the Borough of The Bronx, and copy of a report of the Appraiser of Real Estate, Department of Finance, relative thereto.

I also inclose form of ordinance for adoption by the Board of Aldermen to indicate its concurrence therein.

Very truly yours,

J. W. STEVENSON, Deputy Comptroller.

City of New York, Department of Finance, Comptroller's Office, }
April 27, 1905. }

Hon. EDWARD M. GROUT, Comptroller:

Sir—The President of the Borough of The Bronx, in a communication under date of March 29, 1905, requests that the plot on One Hundred and Seventy-seventh street, from Belmont avenue to Crotona avenue, of 15,140 lots, be placed on the calendar for the next meeting of the Board of Estimate and Apportionment, and that, if possible, the two plots submitted by him in a communication under date of March 23, 1905, be acted upon.

The matter of the acquisition of sites for a storage yard in the Borough of The Bronx has been under discussion and examination for a long time past. The site originally selected by the President of the Borough of The Bronx was reported upon adversely by this office on account of there being an enormous amount of rock on the property. This office submitted to the President of the Borough of The Bronx, in a communication dated December 10, 1904, alternative sites, but these were declined by him in a communication dated December 17, on the ground that they were entirely inadequate for the purpose of a corporation yard for his borough. He then submitted three sites and transmitted sketches thereof showing their locations.

Of the three sites selected by the President of the Borough of The Bronx and transmitted to this office, Site No. 1, located on Webster avenue and Park avenue, north of East One Hundred and Eightieth street, comprised 34,959 city lots, the asking price of which was in the vicinity of \$85,000. Site No. 2, bounded by East One Hundred and Eighty-fourth and East One Hundred and Eighty-seventh streets, Webster avenue and Park avenue, comprised about 60 city lots, and no price has been put upon this for the reason that the owners do not care to sell. Site No. 3 is really composed of two sites, one containing 18,70 lots, located on the corner of East One Hundred and Seventy-eighth street and Hughes avenue, and the other, comprising 15,14 lots, on Belmont avenue, East One Hundred and Seventy-seventh street (Tremont avenue) and Crotona avenue, the price of the two parcels being in the vicinity of \$130,000.

On or about June 10, 1903, the Commissioners of the Sinking Fund adopted a resolution assigning part of a piece of property on White Plains road, acquired for the Board of Education, to the Police Department, part to the Fire Department, and the balance to the President of the Borough of The Bronx. This is in the upper part of The Bronx, and would have nothing whatever to do with the present location, and the only reason it is mentioned at this time is because, although having been assigned some time ago, it is not now occupied by the President of the Borough of The Bronx.

The Commissioners of the Sinking Fund, at the request of the President of the Borough of The Bronx, have authorized leases for various departments under the control of the said President, the rentals for which leases amount to \$9,000 annually. Three of these leases are for storage yard purposes for the President of the Borough, within a radius of one mile of the Borough Hall, and approximate 37,750 square feet, or about 15 lots, the annual rental of which is \$1,540. The rentals for the other parcels located in various parts of the Borough of The Bronx for the purpose of offices for the several heads of departments amount to \$7,460.

For the sake of comparison of the areas of storage yards in the five boroughs, I desire to submit the following:

	Square feet.
In the Borough of Manhattan the City is the owner of a parcel of land (acquired under the Charters of 1686 and 1730) containing in area.....	25,000
The City leases two other parcels of land containing in area.....	50,000
—for which it pays in annual rent \$8,100.	
In the Borough of Brooklyn there are leased for storage yard purposes three parcels of land containing in area approximately.....	50,000
—the annual rental of which is \$1,510.	
In addition to this the City assigned to the Borough President a piece of property, acquired under a tax sale, on DeKalb avenue, containing in area	20,000

In the Borough of Queens there are three large storage yards, the actual dimensions of which we have been unable, up to the present moment, to find, but the annual rental paid is \$1,290.

One of these parcels is located at Jamaica, one at Elmhurst and one in Long Island City.

From the above statement it will be seen that Site No. 1 on Webster avenue, which the President of the Borough of The Bronx submits, containing 34 City lots, or approxi-

mately 87,500 square feet, would be larger than the total area of the sites of the storage yards under the control of either of the Presidents of the Boroughs of Manhattan, Brooklyn and Queens. For all purposes, Site No. 1 is, in my opinion, the best of the three submitted by the President of the Borough of The Bronx, for the following reasons:

1. It is in one parcel, and the latest information that I have is that it can be acquired at private sale.

2. It is more centrally located than the site shown as No. 3 by the President of said Borough, which contains two plots separated by a full block, and which would have to have a double set of Watchmen patrolling it. It is at least \$40,000 cheaper.

Some time since a communication was transmitted to the President of the Borough of The Bronx asking how many of the leased parcels of land would be surrendered to the City, which were not required for future use, in case the City purchased the storage yard desired by him. The answer was so indefinite that if the Board of Estimate and Apportionment authorize the acquisition of a site for the use of the President of the Borough of The Bronx, it should be with the understanding that when such site has been acquired all of the storage yard leases are to be surrendered.

I would respectfully recommend that the Board of Estimate and Apportionment approve of the request of the President of the Borough of The Bronx for the acquisition of a storage yard site for his Borough; that they select site No. 1 on Webster avenue and Park avenue, north of East One Hundred and Eightieth street, and that the Comptroller be authorized to acquire same at private sale at a price not exceeding eighty-five thousand dollars (\$85,000).

Respectfully submitted for approval,

(Signed)

MORTIMER J. BROWN,

Appraiser of Real Estate in Charge of Bureau.

Alderman Wafer called up Special Order No. 103, being a communication from the Board of Rapid Transit Railroad Commissioners, with which he submitted the following enabling resolution:

No. 1813.

Whereas, The Board of Rapid Transit Commissioners for The City of New York did on or about the twenty-first day of July, 1902, enter into a certain contract with Rapid Transit Subway Construction Company for the construction and operation of a rapid transit railroad in The City of New York, the routes and general plan of which were adopted by the said Board of Rapid Transit Railroad Commissioners by its resolutions adopted on the twenty-fourth day of January, 1901, and later approved by the municipal authorities of The City of New York and by the Appellate Divisions of the Supreme Court, both in the First and Second Departments; and

Whereas, The said Board of Rapid Transit Railroad Commissioners for The City of New York did, by resolutions of April thirteenth, 1905, modify and amend the said Routes and General Plan as follows:

Resolutions of April 13, 1905.

Whereas, This Board did, on the 24th day of January, 1901, adopt certain Routes and General Plan for a rapid transit railroad in The City of New York, a copy of which is hereto annexed entitled "Copy Routes and General Plan adopted 24 January, 1905"; and

Whereas, The said Routes and General Plan were afterwards duly approved by the municipal authorities of The City of New York, and were duly consented to by Commissioners appointed by the Appellate Divisions of the Supreme Court both in the First and Second Departments, which consents were duly confirmed by the said Appellate Divisions, in lieu of the consent of the owners of a majority in value of the property along the said routes; and

Whereas, Thereafter, and on or about the 21st day of July, 1902, The City of New York did by this Board enter into a certain contract with Rapid Transit Subway Construction Company for the construction and operation of the said rapid transit railroad; and

Whereas, It is the interest of The City of New York, and, in the opinion of the said Rapid Transit Subway Construction Company, it is likewise in its interest as such contractor, and the said Company desires that said Routes and Plan shall be changed in the respect hereinafter mentioned, but without other change in the said Routes and General Plan.

Now, therefore, it is

Resolved, That, subject to the consents and approvals to be first obtained as in this resolution hereinafter mentioned the said Routes and General Plan heretofore adopted by this Board be, and they hereby are, modified as follows:

1. By striking out from the said Routes and General Plan the words

"For the whole of the route above described, including each of the branches and loops aforesaid two parallel tracks."

2. By inserting in the said Routes and General Plan, instead of the words thus struck out, the following words, to wit:

"For the portion of the route above described beginning at a point in the Borough of Brooklyn in Joralemon street opposite the Kings County Court House near the junction of Joralemon street with Fulton street and running thence along Fulton street to the end of the said route at or near the intersection of Flatbush avenue with Atlantic avenue, there shall be four tracks substantially parallel and placed on substantially the same level, except at the following points where provision is to be made for connections with certain subways or tunnels which are expected to be hereafter constructed and which are expected to run as follows, that is to say: First northwesterly under Fulton street from its junction with Joralemon street, Second northwesterly from Flatbush avenue under the proposed extension of Flatbush avenue toward the Manhattan Bridge, Third northeasterly from Flatbush avenue under Lafayette avenue, and Fourth southerly from Flatbush avenue under Fourth avenue. At and near each of the said points, at which provision is now to be made for future connections, one or more additional tracks may be constructed as a part of the railway herein described, and any one or more of the tracks of said railway may be depressed below the remaining tracks as far as shall be found necessary in order to avoid grade crossings, but not exceeding twenty feet. Along the whole of that portion of the route above described which lies under Flatbush avenue there may be an additional or fifth track for use as a siding. And for the remainder of the route above described, being all of the said route lying westerly from the Kings County Court House both in the Borough of Brooklyn and in the Borough of Manhattan, and including each of the branches and loops aforesaid, there shall be two parallel tracks."

3. By inserting after the words

"No wall of the tunnel or part thereof shall"

the words

"except along the southerly side of Fulton street, between Bond street and Flatbush avenue, and"

so that the whole sentence shall read as follows, to wit:

"No wall of the tunnel or part thereof shall, except along the southerly side of Fulton street, between Bond street and Flatbush avenue, and except at the stations, station approaches, curves and places of access to subsurface structures as hereinafter provided, be within a distance of five (5) feet of the exterior line or side of a longitudinal street of the route."

And it is further

Resolved, That whereas this Board has duly made the inquiries and investigations necessary or proper in the premises, and has determined that the modifications aforesaid of the said routes and general plan is necessary for the interests of the public and of The City of New York and should be established as hereinafter provided, this Board does hereby determine and establish the said routes and general plan as hereby modified, subject to the consents and approvals to be first obtained as hereinafter mentioned.

And it is further

Resolved, That the said modification of the routes and general plan shall take effect only upon and after the following consents thereto and approvals thereof shall be duly had, to wit:

1. The consent of the Rapid Transit Subway Construction Company, contractor, and of its sureties, as follows: Fidelity and Deposit Company of Maryland, United States Fidelity and Guaranty Company, The National Surety Company, the Aetna Indemnity Company, and Empire State Surety Company.

2. The consent of the Board of Aldermen of The City of New York or of such other local authorities as may have the control of the portions of Joralemon street, Fulton street and Flatbush avenue, in the Borough of Brooklyn, above mentioned.

3. The consent of the Mayor of The City of New York.

4. The consent of the owners of a majority in value of the property along streets or such portions of streets as are included in the portion of routes by these resolutions proposed to be modified as aforesaid; or, if such consents cannot be obtained, then, in lieu thereof, the determination of three Commissioners to be appointed by the Appellate Division of the Supreme Court in the Second Department, duly confirmed by the said Appellate Division.

And it is further

Resolved, That this Board hereby adopts the drawing now produced and entitled "Proposed Four Track Subway showing Two Track Connections with Extensions on Fourth Avenue, Lafayette Avenue, Fulton Street and Flatbush Avenue Extension," as showing in substance the modification hereby adopted.

I certify that the above are true copies of resolutions adopted by the Board of Rapid Transit Railroad Commissioners at its meeting held on the 13th day of April, 1905, seven Commissioners being present and all voting in favor thereof.

In witness whereof I have hereto set my hand and the seal of the Board this 17th day of April, 1905.

[SEAL.]

BION L. BURROWS, Secretary.

Copy Routes and General Plan Adopted January 24, 1901.

The centre line of the route shall commence at a point in the Borough of Manhattan at or near the intersection of Broadway with Park row, being the point of commencement of the rapid transit railroad now under construction upon the routes adopted by the Board of Rapid Transit Railroad Commissioners of The City of New York, by resolutions of the 14th day of January and 4th day of February, 1897; and such centre line shall run thence under Broadway and Bowling Green to State street; thence under State street and Battery Park to Whitehall street, and thence under and across Whitehall street and South street to the East river; thence under the East river to the Borough of Brooklyn at a point in Joralemon street, between the East river and Furman street; thence under Joralemon street to Fulton street; thence under Fulton street to Flatbush avenue; thence under Flatbush avenue to a point at or near its intersection with Atlantic avenue. The route shall also include a branch or loop, the centre line of which shall begin at the point which shall be found most convenient in Broadway, between Bowling Green and Exchange place, and shall run thence under Broadway to Bowling Green, and thence under Bowling Green to State street; thence under and across the line of State street to Battery Park; thence under Battery Park to Whitehall street; thence returning under Whitehall street, Battery Park and State street to Broadway.

The route shall also include suitable tracks and connections in the nature of loops under the City Hall Park and around the City Hall in the Borough of Brooklyn. Wherever the route passes from one street to another, or from the street to the river, or from the river to a street, the route may pass under private property so far as may be convenient for the purposes of the curve or grade of the railway.

The said general plan of construction hereby adopted is as follows:

For the whole of the route above described, including each of the branches and loops aforesaid, two parallel tracks placed on the same level except that, wherever required by special necessities of surface or subsurface structures, or other special or local necessities, or for the purpose of avoiding grade crossings, either track may be depressed below the other track to a depth of not more than fifty feet; but the limitation as to level of the two tracks shall not apply to the portions of the route under the East river. The tracks shall be standard gauge, that is to say, of a width of four feet eight and one-half inches between the rails.

The tracks may at any point of the route (or of the branches or loops therein included) be placed in the same tunnel; or there may be a separate tunnel for each track, as shall be most convenient; and there shall be a width in the tunnels for each track not exceeding fifteen feet, except that at stations, switches, turnouts, curves and cross-overs the width may be increased, provided, however, that the tracks shall be placed under the central part of the longitudinal street of the route, so far as may be practicable and convenient. No wall of the tunnel or part thereof, shall, except at the stations, station approaches, curves, and places of access to subsurface structures as hereinafter provided, be within a distance of five (5) feet of the exterior line or side of a longitudinal street of the route. The roof of the tunnel when under a street shall be as near the surface of the street as grades and street conditions will conveniently permit. The tunnel shall not be less than thirteen feet high in the clear. Wherever necessary to the proper support of a street surface the roof of the tunnel or tunnels shall be of iron or steel girders, with brick or concrete arches, supported by iron or steel columns and masonry walls, or the roof shall be a masonry arch, or the whole of the lining may be of iron. Adjacent tracks shall be connected by necessary and suitable switches and connections and an additional track for siding accommodations may be constructed not to exceed in length one-quarter of a mile for each mile of roadway; and wherever along any part of the route it shall be necessary for the proper maintenance or accommodation of pipes, wires, sewers and other subsurface structures, the width of the tunnel may be enlarged on either or both sides by an additional width not to exceed fifteen feet, provided always that the limits hereinbefore provided as to longitudinal streets of the route shall be observed. All or any pipes, wires, sewers and other subsurface structures may be placed in suitable galleries to be constructed within the additional width hereinbefore permitted. At each cross street where accommodation for pipes, wires, sewers and other subsurface structures shall be those provided within the tunnel, the tunnel may, in order to provide convenient access to the same, have within the limit of the sides or exterior lines of such cross streets or such lines produced, an additional width on each side of the route not to exceed fifteen feet, provided always that the limits hereinbefore provided as to longitudinal streets of the route shall be observed. Pipes, wires, sewers and other subsurface structures shall, at any part of the said route, be removed and disturbed only when necessary for the construction and operation of the tunnel, and if removed or disturbed shall be placed under the streets in such manner and in such location that the use and service thereof shall not be permanently impaired. Such pipes, wires, sewers and other subsurface structures shall be left or shall be so arranged as to give free access for their repair or alteration and for the placing with them, so far as there may be space, of new pipes, wires, sewers, and other like structures, and for making connections between the same and abutting buildings at any time. Stations and station approaches shall, so far as practicable, be at the intersection of streets, and shall be built under streets or through private property to be acquired for the purpose, or both under streets and through private property as aforesaid. The streets under which stations or station approaches shall be built may include cross streets; but no part of any cross streets shall be used for a station or station approach at a distance greater than seventy-five feet from the exterior line or side of the street of the route. The word "street," wherever used herein, shall include an avenue, park, or public place.

The general mode of operation shall be by electricity or some other power not requiring combustion within the tunnels, and the motors shall be capable of moving trains at a speed of not less than forty miles per hour, exclusive of stops. The manner of construction shall be by tunneling or open excavation.

—and

Whereas, The said Board of Rapid Transit Railroad Commissioners for The City of New York did thereafter on the eighteenth day of April, 1905, present to this Board a copy of said resolutions of April thirteenth, 1905, and the modification and amendment of the routes and general plan of the Rapid Transit Railroad as therein set forth, and this Board having, by resolution duly adopted, fixed a day not less than one week and not more than ten days after the receipt of such plans and conclusions therein contained for the consideration thereof, and having duly considered the same,

Resolved, That the Board of Aldermen of The City of New York, by a vote of a majority of all the members of said Board, does hereby approve the said modification and amendment of the routes and general plan and the plans and conclusions therein contained, and does hereby consent to the construction and operation of the railway or railways in accordance with the modification and amendment of the routes and general plan, as set forth in the said resolutions of the Board of Rapid Transit Railroad Commissioners for The City of New York of April thirteenth, 1905, and The City of

New York does hereby approve such modification and amendment and such plans and conclusions, and consents to such construction and operation.

By the same—

The Vice-Chairman moved that this resolution be referred to the Corporation Counsel, with the request that he take appropriate action, and report to the Board at its next meeting.

Whereas, The Long Island Railroad Company, a corporation operating a surface railroad which crosses at grade a large number of streets and public highways in the boroughs of Brooklyn and Queens, has indicated its intention to adopt and install the third-rail system of electrical contact for propelling its trains, notwithstanding repeated and urgent protests from the borough authorities; and

Whereas, The danger to the public through the proposed erection and operation of a naked, highly-charged electrical third rail on a public street and adjacent thereto at grade is so serious as to threaten the lives and safety of those using the streets and particularly children; and

Whereas, Authority is conferred upon the Board of Aldermen, under chapter 187, Laws of 1876, to prescribe rules and regulations required by public safety in the operation of trains over Atlantic avenue; and

Whereas, The Long Island Railroad Company, being controlled by the Pennsylvania Railroad Company, appears to be dominated by the same reckless disregard, which that company has shown toward the municipality and its officers, in matters of common interest.

Resolved, That the Board of Aldermen of The City of New York do declare the action of the Long Island Railroad Company, in adopting and attempting to install a third-rail system of electric traction on the surface of Atlantic avenue, in the Borough of Brooklyn, without the approval of the municipal authorities, to be unwarranted, illegal and hazardous to life and limb, and do by ordinance prescribe that said railroad company be and it is hereby prohibited and estopped from operating its trains on the surface of Atlantic avenue, in the Borough of Brooklyn, by electrical energy unless the method of transmitting and conveying said power to the cars and trains be some form of overhead contact, approved by the Mayor of The City of New York and the President of the Borough of Brooklyn.

TERMS AND CONDITIONS OF SALE.

The sale will commence at 10.30 o'clock A. M. Each of the above lots will be sold separately and for a sum in gross.

The purchaser of the property will immediately take the necessary steps to protect his property, so that no claim or demand may hereafter be made that any of the items have been removed from the premises by others after he has purchased them.

The estimated dimensions given for the several lots are believed to be correct; but the Commissioner will not make any allowance from the purchase money for variations in any lot, and bidders must judge for themselves as to the correctness of the estimate when making their bids.

The purchase money must be paid in funds current, to Peter F. Meyer, Auctioneer, at the time and place of sale.

All the materials of every class and description composing the buildings and their foundations with the hereinbefore described area are to be

torn down to the level of the existing curb, and entirely removed from the premises.

The removal of said materials composing the buildings and their foundations must be begun by the purchaser within three days from the date of the receipt of a notification from the Engineer-in-Chief to begin work, and all the material of every class and description composing the buildings and their foundations is to be torn down to the level of the existing curb and entirely removed from the premises within ten days after the receipt of the said notice to begin work. If the purchaser fails to commence the said removal as specified, and to diligently prosecute the same with a sufficient force, and to complete the same within the time specified, the money paid on the day of sale will be forfeited, and all claim of ownership in said materials is waived by the purchaser.

Then the Commissioner of Docks may, at his option, complete the said removal and charge the expense of the same to the said purchaser, who shall sign the present terms of sale and agree to be bound thereby.

The work of removing the materials composing the various buildings herein enumerated shall be carried on in such manner and at such times as may be directed by the Engineer-in-Chief of the Department of Docks and Ferries. The work of removal may be suspended and shall not be resumed until written notice is given by said Engineer-in-Chief so to do. The time elapsed during such suspension shall not be counted against the purchaser, but a like number of days will be given him which may have elapsed during such suspension.

All machinery and other personal property is to be removed from the buildings on or before May 9, 1905, and in case of failure so to do, such machinery and personal property will be removed by this Department and stored at the expense and risk of the owner. No machinery or personal property of any description contained in said buildings will be sold.

And for the further securing of the removal of the said materials, etc., hereinbefore mentioned, the purchaser will be required at the time of sale and the award of said property to him, to execute a bond in such form and with such sureties as may be approved by the Commissioner of Docks of the City of New York, and in a penalty of One Thousand Dollars (\$1,000), that he will in all things carry out the terms of sale and comply with the conditions thereof, and remove all of said property within the time required by the said terms of sale.

PROPOSALS FOR BIDS AND ESTIMATES FOR THE CITY OF NEW YORK.

NOTICE TO CONTRACTORS.

GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, the names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 430 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
