MESSAGES FROM HIS HONOR THE MAYOR.

The President laid before the Board the following message from his Honor the Mayor:

CITY OF NEW YORK—OFFICE OF THE MAYOR,
October 20, 1891.

To the Honorable the Board of Aldermen:

I return, without approval, the resolution of your Honorable Body, adopted October 6, 1891, which permits the placing and keeping of an ornamental drinking-fountain in front of No. 114 Bowery.

The Commissioner of Public Works reports "that the carriageway at that place, between the street-car tracks and the curb, is exceedingly narrow, in consequence of which any vehicles stopping in front of the fountain while watering the horses would be too great an obstruction to public travel."

HUGH J. GRANT, Mayor.

Resolved, That permission be and the same is hereby given to Stephen Brodie to place and keep an ornamental iron drinking-fountain on the sidewalk, near the curb, in front of No. 114 Bowery, the work to be done and water supplied at his own expense, under the direction of the Commissioner of Public Works; such permission to continue only during the pleasure of the Common Council.

Which was laid over, ordered to be printed in the minutes and published in full in the CITY RECORD.

The President laid before the Board the following message from his Honor the Mayor:

CITY OF NEW YORK—OFFICE OF THE MAYOR,
October 20, 1891.

To the Honorable the Board of Aldermen:

I return, without approval, the resolution of your Honorable Body, adopted October 6, 1891, which permits the erection of two ornamental lamp-posts in front of the Madison Square Theatre.

It is evident from the diagram that the lamp is to be used solely for advertising purposes, and I consider it inexpedient to further incumber or obstruct the sidewalk at this place.

HUGH J. GRANT, Mayor.

Resolved, That permission be and the same is hereby given to the Madison Square Garden Company to place and keep two ornamental lamp-posts and lamps in front of the Madison Square Garden, as shown on the accompanying diagrams, provided the lamps be kept lighted during the same hours as the public lamps, that the posts shall not exceed the dimensions prescribed by law (eighteen inches square at the base), the lamps not to exceed two feet in diameter and not to be used for advertising purposes, the work to be done and gas supplied at the expense of the company, under the direction of the Commissioner of Public Works; such permission to continue only during the pleasure of the Common Council.

REPORT.

Alderman Morgan, Chairman of the Committee on Railroads, reported that hearings were had on the subject of steam on Tenth and Eleventh avenues, briefs were submitted on Monday, October 19, by parties interested, and asked that the Committee be given further time to prepare a report on the subject.

Alderman Mead asked Alderman Morgan if he had a brief of the New York Central Railroad Company.

Alderman Morgan answered in the affirmative.

Whereupon Alderman Mead moved that the Committee on Railroads be instructed to report on the subject at the next regular meeting of the Board.

Alderman J. Morris moved as an amendment that the Committee on Railroads be discharged from the further consideration of the subject.

Which not having been seconded, the President was about to put the question on the motion of Alderman Mead, when Alderman Rogers presented the following and called for the reading :

WEST SIDE CITIZENS' ASSOCIATION, }
NEW YORK, October 20, 1891.

DEAR SIR—We, the members of the West Side Citizens' Association, beg to call your attention to the following resolution, submitted to the Board of Aldermen by Hon. Abraham Mead :

"Resolved, That the New York Central and Hudson River Railroad Company be and is hereby restrained from running freight cars drawn by locomotives or dummy engines through the streets of New York south of Sixtieth street, except between the hours of 9 P. M. and 5 A. M., from April 1 to October 31, and from 8 P. M. to 6 A. M., from November 1 to March 31, in each and every year, this resolution to take effect sixty days from its passage."

As this resolution is expected to come before your Honorable Board for discussion and action, we take this opportunity to call your attention to some of the abuses and injuries which we suffer, by reason of the unrestrained and unrestricted use by the New York Central and Hudson River Railroad Company of two of the great public highways of this city and which injuries, to a great degree, the adoption of the above resolution will lessen.

That our grievance is of long standing and that justice has not heretofore been rendered has stimulated us to associate together for persistent and enduring efforts until the time when the wrongs of which we complain shall be wholly righted. The power and influence of our antagonist we do not underestimate, for it has been evidenced clearly and unmistakably, but we propose in every way and at all times to assert and use the power of the people to end finally and for all time the outrages perpetrated upon us.

To you, therefore, as our fellow-citizen, and as the representative in the municipal councils of citizens of this whole city, this appeal is directed.

The New York Central and Hudson River Railroad Company obtained a charter from the Legislature in 1846 and was authorized to construct a railroad commencing in the City of New York, with the consent of the Corporation of New York; the city passed an ordinance on May 6, 1847, by which permission was granted the said railroad to construct tracks along the Hudson river, from Spuyten Duyvil creek to near Sixty-eighth street; * * * thence through Eleventh avenue to Thirty-second street; * * * thence through Tenth avenue, etc., and this railroad shall be at all times subject to such regulations with reference to the convenience of public travel * * * as the Common Council shall, from time to time, by resolution or ordinance direct. (Note this carefully.)

Afterwards ordinances were passed by the Board of Aldermen allowing an extension of tracks, and finally, in November, 1858, an ordinance was passed prohibiting absolutely the running of locomotives below Fifty-ninth street, and in June, 1859 (about seven months afterwards), the right was again granted the company to run locomotives the length of its route in the city.

A resolution was presented to your Railroad Committee, by Hon. Abraham Mead, in June of this year, forbidding absolutely the use of steam power on Tenth and Eleventh avenues, and after hearing argument and receiving a brief on the law by counsel employed by this Association and by the counsel of the railroad, the Railroad Committee by some subtle reasoning decided that the adoption of such an ordinance would be illegal, and so we understand and reported your Honorable Board. The counsel of the railroad admitted, however, that ordinances regulating the frequency and size of trains, rate of speed, etc., and other reasonable regulations were within the power of this Board, and as your Railroad Committee have coincided with his views, the question of regulating the time of the day or night when freight trains may lawfully run on Tenth and Eleventh avenues is now permitted to come before the Board, and we have, at the request of the Chairman of the Railroad Committee, furnished them with a brief on the law bearing on the case and to which we refer you. The substance of the law, however, is this:

1. The Consolidation Act, section 1, expressly provides that among the powers and duties granted to the City of New York and enjoined upon it by the Legislature, the following:

A. To regulate traffic in the streets.

B. To regulate the use of the streets, highways, roads and public places by foot passengers, animals, vehicles and cars and locomotives.

2. A municipal corporation cannot make such a contract that would deprive it of those powers it holds in trust for the people, such as the control of the streets and the life and protection of the people, that is to say, no agreement could be made between the New York Central and the municipality which in any way prevents the municipality from controlling the use of streets for the public convenience and use.

3. Nor could the municipality by any act pass any ordinance binding itself to disregard the implied or express provision of law of police control of the streets.

4. A municipal corporation has no right to enter into a contract which interferes with its duties to preserve the health of the city. It may defeat the title of its grantee when it becomes necessary to do so in order to abate a nuisance.

5. The use of steam not being essential to the operation of the railroad could not become the subject of a contract, but only a license, which can be revoked at any time.

6. Operating the road by steam having become a public nuisance the city can either prohibit or restrict its use.

7. The right of the public in the highway is paramount to that of a railway company for all purposes except transit.

8. The running of cars by steam through a populous city may expose the inhabitants to unreasonable perils, so much so that unless conducted with more than human watchfulness it may well be considered a public nuisance; it is the law and is most fit and proper that the city authorities should possess discretionary power to remove the danger by or directing a change in the mode of propelling trains.

9. Municipal corporations may control the mode of propelling cars and prohibit the use of steam altogether.

10. A statute giving municipal corporations power to regulate the running of trains authorizes the adoption of an ordinance prohibiting the use of steam.

These are a few of the many authorities cited in the brief of our counsel, and show clearly and beyond any reasonable doubt the power of your Board to at least restrict the use of steam power during the busy hours of the day, and goes far enough, in our opinion, to prohibit the use of steam entirely.

Tenth and Eleventh avenues are to-day two of the great arteries of the city. They form a populous and crowded section of the city; men, women and children in vast numbers cross them daily. Many thousands of merchants and artisans are engaged in business on either side of these avenues and in their vicinity. Some of the largest factories of the city are in and adjoining these avenues. Our lives, the lives of our families are in constant danger; our horses and wagons are in constant peril; the soot and cinders from the engines and the never-ending rumbling and noise of the cars render the neighborhood disagreeable, unhealthful and dangerous.

We inclose herewith a list, by no means complete, however, of the people killed and wounded by the engines and cars of the company from 1884 to 1891, and this tells a sadder tale than any words of ours can picture.

Under the law of acts submitted we ask your support, not, however, as the representative of any single election district, but as a fellow-citizen and a representative of the people of the whole city.

Respectfully,

JOHN QUINN, President.
ROBERT GORDON, Chairman, Executive Committee.
WM. M. MAY, Treasurer.
ROBERT MUNROE, Secretary.
EDWARD H. DEIKE, Corresponding Secretary.
McMAHON & MABBITT, Counsel to the Association.

Map of the City of New York, Showing Ward Lines.

The 722 deaths represent a death-rate of 22.23, against 22.70 for the previous week and 19.44 for the corresponding week of 1890.

Contagious and infectious diseases, as a whole, remained almost stationary, but diphtheria and scarlet fever show a tendency to increase, especially the latter, the number of cases reported of diphtheria, measles, scarlet fever and typhoid fever being respectively 78, 27, 61 and 52, against 75, 38, 48 and 65 for the previous week. Diphtheria increased between Rivington street, the Bowery, Catharine street and the East river, between Fourteenth and Fortieth streets, East, between Fourteenth and Twenty-sixth, and Fortieth and Eighty-sixth streets, West, decreasing, as a rule, elsewhere. Measles decreased generally all over the City. Scarlet fever increased chiefly between Fourteenth and Fortieth streets, East, and Twenty-sixth and Eighty-sixth streets, West, and above Eighty-sixth street, the changes elsewhere being slight. Typhoid fever was most prevalent between Division street and the East river, and between Fortieth and Eighty-sixth streets, on both sides of the City.

That it is made without any connection with any other person making an estimate for the same work, and is in all respects fair and without collusion or fraud. That no member of the Common Council, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of the Corporation, is directly or indirectly interested in the estimate, or in the work to which it relates or in the profits thereof.

Each estimate must be verified by the oath, in writing, of the party making the same, that the several matters therein stated are true, and must be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, to the effect that if the contract is awarded to the person making the estimate, they will, upon its being so awarded, become bound as his sureties for its faithful performance; and that if he shall refuse or neglect to execute the same, they will pay to the Corporation any difference between the sum to which he would be entitled upon its completion and that which the Corporation may be obliged to pay to the person to whom the contract shall be awarded at any subsequent letting; the amount to be calculated upon the estimated amount of the work by which the bids are tested.

If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited and retained by the City of New York as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of the deposit will be returned to him.

The Commissioner of Street Improvements of the Twenty-third and Twenty-fourth Wards reserves the right to reject all bids received for any particular work if he deems it for the best interests of the City.

DEPARTMENT OF PUBLIC WORKS,
COMMISSIONER'S OFFICE,
NO. 31 CHAMBERS STREET,
NEW YORK, August 14, 1889.

TO OWNERS OF LANDS ORIGINALLY ACQUIRED BY WATER GRANTS.

ATTENTION IS CALLED TO THE RECENT act of the Legislature (chapter 449, Laws of 1889), which provides that whenever any streets or avenues in the city, described in any grant of land under water, from the Mayor, Aldermen and Commonalty containing covenants requiring the grantees and their successors to pave, repave, keep in repair or maintain such streets, shall be in need of repairs, pavement or repavement the Common Council may, by ordinance, require the same to be paved, repaved or repaired, and the expense thereof to be assessed on the property benefited; and whenever the owner of a lot so assessed shall have paid the assessment levied for such paving, repaving or repairing, such payment shall release and discharge such owner from any and every covenant and obligation as to paving, repaving and repairing, contained in the water grant under which the premises are held, and no further assessment shall be imposed on such lot for paving, repaving or repairing such street or avenue, unless it shall be petitioned for by a majority of the owners of the property (who shall also be the owners of a majority of the property in frontage) on the line of the proposed improvement.

The act further provides that the owner of any such lot may notify the Commissioner of Public Works, in writing, specifying the ward number and street number of the lot that he desires, for himself, his heirs and assigns, to be released from the obligation of such covenants and elects and agrees that said lot shall be thereupon liable to be assessed as above provided, and thereupon the owner of such lot, his heirs and assigns shall thenceforth be relieved from any obligation to pave, repair, uphold or maintain said street, and the lot in respect of which such notice was given shall be liable to assessment accordingly.

The Commissioner of Public Works desires to give the following explanation of the operation of this act: When notice, as above described, is given to the Commissioner of Public Works, the owner of the lot or lots therein described, and his heirs and assigns, are forever released from all obligation under the grant in respect to paving, repaving or repairing the street in front of or adjacent to said lot or lots, except one assessment for such paving, repaving or repairs, as the Common Council may, by ordinance direct to be made thereafter.

No street or avenue within the limits of such grants can be paved, repaved or repaired until said work is authorized by ordinance of the Common Council, and when the owners of such lots desire their streets to be paved, repaved or repaired, they should state their desire and make their application to the Board of Aldermen and not to the Commissioner of Public Works, who has no authority in the matter until directed by ordinance of the Common Council to proceed with the pavement, repavement or repairs.

Where more than one person is interested, it is requisite that the verification be made and subscribed by all the parties interested.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person making the estimate, they will, upon its being so awarded, become bound as his sureties for its faithful performance; and that if he shall omit or refuse to execute the same, they will pay to the Corporation any difference between the sum to which he would be entitled upon its completion and that which the Corporation may be obliged to pay to the person or persons to whom the contract may be awarded at any subsequent letting; the amount in each case to be calculated upon the estimated amount of the work by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of this contract and herein stated, over and above all his debts of every nature, and over and above his liabilities

as bail, surety, and otherwise; and that he has offered himself as a surety in good faith and with the intention to execute the bond required by law. The adequacy and sufficiency of the security offered will be subject to approval by the Comptroller of the City of New York after the award is made and prior to the signing of the contract.

Should the person or persons to whom the contract may be awarded neglect or refuse to accept the contract within five days after written notice that the same has been awarded to his or their bid or proposal, or if he or they accept but do not execute the contract and give the proper security, he or they shall be considered as having abandoned it and as in default to the Corporation, and the contract will be readvertised and relet, as provided by law.

No estimate will be received or considered unless accompanied by either a certified check upon one of the National or State banks of the City of New York, drawn to the order of the Comptroller, or money, to the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same, within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited to and be retained by the City of New York, as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

Plans may be examined and specifications and blank estimates may be obtained by application to the undersigned, at his office in the Central Department.

1st. Bidders must satisfy themselves by personal examination of the location of the proposed work, and by such other means as they may prefer, as to the accuracy of the foregoing Engineer's estimate, and shall not at any time after the submission of an estimate, dispute or complain of the above statement of quantities, nor assert that there was any misunderstanding in regard to the nature or amount of the work to be done.

2d. Bidders will be required to complete the entire work to the satisfaction of the Department of Docks and in substantial accordance with the specifications of the contract and the plans therein referred to. No extra compensation beyond the amount payable for the work before mentioned, which shall be actually performed at the price therefor, to be specified by the lowest bidder, shall be due or payable for the entire work.

The work to be done under the contract is to be commenced within five days after the date of the contract, and all the work contracted for is to be fully completed on or before the 15th day of February, 1892, and the damages to be paid by the contractor for each day that the contract may be unfulfilled after the time fixed for the fulfillment thereof has expired, are, by a clause in the contract, determined, fixed and liquidated at Fifty Dollars per day.

All the old material taken from the said pier under this contract will be relinquished to the Contractor, and bidders must estimate the value of such material when considering the price for which they will do the work under the contract.

Bidders will state in their estimates a price for the whole of the work to be done in conformity with the approved form of agreement and the specifications therein set forth, by which prices the bids will be tested. This price is to cover all expenses of every kind involved in or incidental to the fulfillment of the contract, including any claim that may arise through delay, from any cause, in the performing of the work thereunder. The award of the contract, if awarded, will be made to the bidder who is the lowest for doing the whole of the work, and whose estimate is regular in all respects.

Bidders will distinctly write out, both in words and in figures, the amount of their estimates for doing the work.

The person or persons to whom the contract may be awarded will be required to attend at this office with the sureties offered by him or them, and execute the contract within five days from the date of the service of a notice to that effect; and in case of failure or neglect so to do, he or they will be considered as having abandoned it, and as in default to the Corporation; and the contract will be readvertised and relet, and so on, until it be accepted and executed.

Bidders are required to state in their estimates, their names and places of residence; the names of all persons interested with them therein, and if no other person be so interested, the estimate shall distinctly state the fact; also, that the estimate is made without any connection with any other person making an estimate for the same work, and that it is in all respects fair, and without collusion or fraud; and also that no member of the Common Council, head of a Department, chief of a bureau, deputy thereof, or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof; which estimate must be verified by the oath, in writing, of the party making the estimate, that the several matters stated therein are in all respects true. Where more than one person is interested, it is requisite that the verification be made and subscribed by all the parties interested.

Each estimate shall be accompanied by the consent in writing of two householders or freeholders of the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person or persons making the estimate, they will, on its being so awarded, become bound as his or their sureties for its faithful performance; and that if said person or persons shall omit or refuse to execute the contract, they will pay to the Corporation of the City of New York any difference between the sum to which said person or persons would be entitled on its completion, and that which said Corporation may be obliged to pay to the person to whom the contract may be awarded at any subsequent letting; the amount in each case to be calculated upon the estimated amount of the work to be done, in each class, by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of the contract, over and above all his debts of every nature, and over and above his liabilities as bail, surety and otherwise; and that he has offered himself as a surety in good faith, and with the intention to execute the bond required by law. The adequacy and sufficiency of the security offered will be subject to approval by the Comptroller of the City of New York after the award is made and prior to the signing of the contract.

No estimate will be received or considered unless accompanied by either a certified check upon one of the State or National banks of the City of New York, drawn to the order of the Comptroller, or money, to the amount of five per centum of the amount of security required for the faithful performance of the contract. Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited to and retained by the City of New York as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

Bidders are informed that no deviation from the specifications will be allowed, unless under the written instructions of the Engineer-in-Chief.

No estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation, upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

THE RIGHT TO DECLINE ALL THE ESTIMATES IS RESERVED, IF DEEMED FOR THE INTEREST OF THE CORPORATION OF THE CITY OF NEW YORK.

Bidders are requested, in making their bids or estimates, to use the blank prepared for that purpose by the Department, a copy of which, together with the form of the agreement, including specifications, and showing the manner of payment for the work, can be obtained upon application therefor at the office of the Department.
