Staten Island SAFE Disposal Event to be Held Saturday, May 6

Event Provides NYC Residents Easy Option for Disposal of Potentially Harmful Household Items

City residents wanting to dispose of potentially harmful household materials may do so at the Department of Sanitation's Staten Island SAFE (Solvents, Automotive, Flammables, and Electronics) Disposal event, held Saturday, May 6. The drop-off event will be held at the Midland Beach parking lot, rain-or-shine, from 10 a.m. to 4 p.m. Residents driving to the free event should approach from Slater Boulevard. Last year, the Department collected more than 1,110 tons of material at the SAFE events.

Household products such as **pesticides, strong cleaners, mercury-containing devices, paints, automotive fluids, and medications** may be brought to the drop-off events. Residents can also bring **electronics**, which may no longer be left for curbside collection due to a New York state law.

To identify harmful products, look for items marked DANGER, WARNING, POISON, or CAUTION. Please also bring other materials stored in your home that you know may be harmful. Only NYC residential waste will be accepted.

"Our SAFE Disposal events give city residents a quick, convenient way to dispose of potentially harmful products, the items many of us have under the sink, or in the back of a closet," said Commissioner Garcia. "We are also thankful to our partners for helping make these events a success year after year."

DSNY will hold ten SAFE Disposal events in 2017, two per borough. Events were held earlier this season in Brooklyn and Manhattan. Upcoming events include:

- **Staten Island**
Saturday, May 6
Midland Beach Parking Lot
Father Capodanno Blvd. & Hunter Ave.
Cars approach from Slater Blvd.
- **Bronx**
Saturday, May 13
Orchard Beach Parking Lot
Follow Park Drive to the end

- **Queens**
Saturday, June 10
Citi Field Park Parking Lot A
Cars approach from Shea Ave. & 126 Street

All events are rain or shine, from 10 a.m. to 4 p.m.

Examples of Accepted Items

- Automotive products such as motor oil, transmission fluid, and auto batteries
- Personal care items like unwanted medicines or cosmetics
- Thermometers
- Syringes (clearly labeled and packaged in a “sharps” container or other leak proof, puncture-resistant container)
- Household products such as pesticides, paint, hazardous cleaners, compact fluorescent light bulbs
- Electronics, such as computers, televisions, and printers.

Materials collected are either recycled, blended for fuel, or sent to licensed hazardous waste treatment facilities for safe disposal.

Electronics are responsibly recycled or refurbished for reuse through [e-cycleNYC](#).

Unwanted medications are managed by environmental police and incinerated to prevent unintentional poisonings or entry into the water supply.

DSNY relies on several partners and contractors to make these events a success, including the NYC Department of Parks and Recreation, Columbia University, Teachers College, Covanta Energy, Electronic Recyclers International, and Veolia ES Technical Solutions.

For those unable to participate in these events, visit www.nyc.gov/safedisposal or contact 311 for other year round options to handle auto products, batteries, cell phones, electronics, fluorescent lamps, latex paint, mercury devices, and syringes.

About the New York City Department of Sanitation

The Department of Sanitation (DSNY) keeps New York City healthy, safe and clean by collecting, recycling and disposing of waste, cleaning streets and vacant lots, and clearing snow and ice. The Department operates 59 district garages and manages a fleet of more than 2,000 rear-loading collection trucks, 450 mechanical brooms and 689 salt/sand spreaders. The Department clears litter, snow and ice from approximately 6,500 miles of City streets and removes debris from vacant lots as well as abandoned vehicles from City streets.
