	1,530,600 00

As \$1,435,720 was allowed for these pay-rolls for the present year, the increase asked for 1894 amounts to \$94,880, all of which is for additions to the force. Nothing was allowed for additions in the current year's appropriation, and it has consequently been impossible to maintain the companies at their proper strength. For the coming year the additions needed are for three new companies—on One Hundred and Fifteenth street, near Lenox avenue; on One Hundred and Thirty-seventh street, near Seventh avenue, and on One Hundred and Thirty-seventh street, near Willis avenue.

The estimated pay of these companies for the year is \$51,880. The remainder of the additions to the force are needed for forty-three firemen for theatre details (amounting to \$43,000), authorized by chapter 703 of the Laws of 1892, amending section 454 of the Consolidation Act, the provision reading as follows:

"The board of fire commissioners may detail not to exceed two members of the uniformed force of said department, at each and every place of amusement where machinery and scenery are used, while such place is open to the public, whose duty it shall be to guard against fire, and who shall have charge and control of the means provided for its extinguishment, and shall have the control and direction of the employees of the place to which they may be detailed, for the purpose of extinguishing any fire that may occur therein. The board of fire commissioners may appoint not to exceed one additional member of the uniformed force of said department for each place of amusement to which members of said force are detailed as herein authorized. The board of estimate and apportionment shall provide the funds necessary to carry out this provision for the current year, by the issue of bonds payable out of the revenues of the next year, or otherwise, and thereafter such expense shall be provided for in the usual appropriation for said department."

The necessity for this provision was set forth in the report for 1891, in the following language:

"Since 1876 the Department has detailed firemen during public performances at all places of amusement where machinery and scenery are used, to guard against fire, have charge and control of the means provided for its extinguishment, and generally to see to it that the laws and rules enacted to secure the safety of life and property are properly observed. The wisdom of the provision of law authorizing the detail of firemen at theatres has been amply shown.

"During the past fifteen years there were 311 fires in theatres; 156 occurred while they were closed to the public, and, consequently, while there were no firemen on duty in them; 9 of these resulted in the destruction of the building, and 4 others in serious damage.

"On the other hand, 155 fires occurred while the detailed firemen were on duty, and all were promptly extinguished with nominal loss only; 84 were discovered and extinguished by the detailed firemen alone, 21 by the Department and the remainder by the theatre employees.

"Panics, resulting from alarms, with their attendant horrors, have been wholly avoided or at least promptly suppressed, the mere appearance of the firemen sufficing, in most instances, to allay the fears of the audience.

"In the light of the above facts there can be no doubt of the value of this service or of the necessity for its continuance, primarily to insure the safety of the lives of the people, but also to guard against the great danger of destruction of property. During the greater part of the year about 36 firemen are detailed for this service.

"The duty is, however, a very onerous one upon the fire-extinguishing force of the Department, for the reason that the detailing of the firemen during the hours of the day or night when most of the fires occur impairs the efficiency of the companies from which they are thus temporarily detached."

The Legislature of 1892 passed an act, entitled chapter 275, creating a Department of Buildings, amending the Consolidation Act, and adding a new section thereto creating a bureau to be known as the Bureau of Fire-Alarm Telegraph and Electrical Appliances in the Fire Department.

Section 44 of said act enacted a new section, numbered 517½ of the Consolidation Act, which provided for the organization of the bureau referred to, and specified its duties as follows:

"Said bureau shall have charge of the construction, care and management of the fire-alarm telegraph system of said department. Said bureau is also charged with the duty of enforcing all the provisions of this title, and all the rules, regulations, orders and requirements made thereunder in regard to electrical wires, and the currents for furnishing light, heat or power for any building in said city, and in regard to the arrangement and use of such light, heat or power."

The section further authorized and required the Board of Fire Commissioners to make rules and regulations in regard thereto, and provided for the enforcement of the provisions of the law and regulations made thereunder; it also provided the following:

"The Board of Apportionment is hereby required to provide the funds necessary to carry out the requirements of this section for the balance of the current year, either by transfer from unexpended or existing appropriations, or by issue of bonds to be paid out of the taxes of the next year. Thereafter the expense herein imposed shall be provided for in the annual appropriation for said Department."

Immediately on the receipt of a certified copy of the act, the Board of Fire Commissioners applied to the Board of Estimate and Apportionment for the funds necessary to carry out the requirements of this section for the remainder of that year. The application was accompanied by the following statement:

"It is estimated that over 8,000 buildings in this city are now connected with electric current for the purpose of furnishing light and power.

"The plan of organization of the new bureau adopted contemplates the division of the city into two sections, each to be under a general inspector, and the further subdivision of the city into eight districts, to each of which an inspector is to be assigned, who is to be under the immediate supervision of one of the general inspectors.

"The duties and responsibilities of the present Superintendent of Telegraph, who has already been designated as the chief of the new bureau, will be greatly increased, and for him, as well as for his principal assistant, the Chief Operator, an increase of salary is asked.

"The estimate has been made as economically as possible, consistent with an efficient administration of the new duties imposed on the Department.

"There are no estimated, unexpended or excessive appropriations in this Department from which a transfer could be made."

No action was taken by the Board of Estimate and Apportionment upon this application. When the Departmental Estimate for the expenses of this Department for the current year was made in conformity with the section above quoted, a demand was made for a sufficient sum to cover the expenses of this bureau for this year. The following explanatory statement was made at that time:

"To properly direct and supervise the wiring and placing of electrical appliances in buildings, as required by the act referred to, the following will be required as specified in the above estimate:

2 General Inspectors, at \$1,800.....	\$3,600 00
8 Inspectors, at \$1,200.....	9,600 00
Draftsman and Map-maker.....	1,200 00
Stenographer and Clerk.....	1,200 00
Clerk.....	1,000 00
Messenger.....	750 00
Total.....	\$17,350 00

"It is proposed to divide the city into eight districts, each one under an Inspector, and to have two General Inspectors to supervise their work. The Draftsman is for the examination and making of plans of electrical work. All must have practical and technical knowledge and experience.

"The Stenographer and Clerk and Clerk and Messenger are necessary for the proper conduct of the business of this Bureau.

"It is estimated that there are more than 8,000 buildings in this city wired to furnish electricity for light or power, or both, and, as is well known, the number of such plant is constantly and rapidly increasing. During the past two and a half years 91 fires caused by defective electric wiring in buildings occurred, causing a loss of \$228,210.

"For the original purposes of this Bureau, the care and maintenance of the Fire-alarm Telegraph, \$26,945, was allowed for the current year, and for the same purposes, \$37,900 is called for in the above estimate. The increase for fire-alarm telegraph purposes is made up as follows:

2 Additional Operators, at \$1,400.....	\$2,800 00
Instrument Maker.....	1,200 00
Foreman of Construction.....	1,000 00
3 Linemen, at \$900 each.....	2,700 00
2 Joiners and Plumbers, at \$1,000.....	2,000 00
Machinist.....	1,100 00

The Board of Apportionment, however, ignored these demands, no allowance being made for carrying the provisions of the law into effect. For this reason the Department has been unable to enforce the law referred to.

The Fire Commissioners consider it their duty to again ask for a sufficient appropriation for the enforcement of the law referred to. Should no allowance be made for this purpose for the coming year, the law would, as heretofore, remain inoperative.

Attorney to the Department Pay-roll (sections 48 and 52, chapter 410, 1882)—

Attorney.....	\$4,000 00
Assistant to the Attorney.....	2,500 00

\$6,500 00

The Assistant to the Attorney has been in the employment of the Department since 1881, having been borne on the pay-roll of the late Bureau of Inspection of Buildings until it became an independent Department on June 1, 1892. Since then he has been paid on the pay-roll of the Bureau of Combustibles, to which the duties he performs closely relate. The prosecution of violations of the laws relating to the storage of combustibles and explosives, and the provisions for securing greater safety to the inmates of hotels, lodging and boarding houses, asylums, hospitals, educational institutions, etc., require the frequent attendance of the Attorney or the Assistant in court and the presence of one or both at headquarters at all times.

Repair Shops Pay-roll (sections 48 and 428, chapter 410, 1882)—

Superintendent of Repairs to Buildings.....	\$2,000 00
Foreman.....	1,500 00
Storekeeper.....	1,500 00

Engineer.....	1,200 00
Machinist, at \$4 per day.....	1,248 00
24 Machinists, at \$3 per day.....	22,464 00
3 Machinists' Helpers, at \$1.75 per day.....	1,638 00
Boiler-maker, at \$3 per day.....	936 00

7 Painters, at \$2.75 per day.....	6,006 00
2 Watchmen, at \$2.50 per day.....	1,825 00
Janitor, at \$2.50 per day.....	912 00
5 Drivers, at \$2.50 per day.....	3,900 00
3 Laborers, at \$1.90 per day.....	1,778 00

78,276 00

The estimate for this pay-roll is \$30 less than was asked for the present year, and \$11,276 more than was allowed. The increase is entirely for additions to the mechanical force which are very urgently needed. During the last ten years the number of fires has increased more than sixty per centum, while the appropriation for this branch of the Department has been increased less than twenty per centum. The increase now asked for represents for the same period only thirty-five per centum, as against sixty per centum increase in fires, as before stated.

Hospital and Training Stables Pay-roll (sections 48 and 428, chapter 410, 1882)—

Foreman.....	\$1,500 00
Driver.....	912 00
7 Stablemen, at \$2 per day.....	5,110 00

7,522 00

The allowance for this pay-roll for the present year is \$7,438.50. The increase asked is only \$83.50, which is caused by a slight change in the personnel.

\$463,000 00

For the several items making up this general appropriation \$453,900 was asked for the current year and only \$385,000 allowed.

Referring to this subject, the following was stated in the report for 1892:

"In the opinion of the Commissioners this sum is not sufficient to adequately provide for the wants of the service. Among the sub-items requiring a larger expenditure than has been heretofore provided for under the general head of 'Apparatus, Supplies, etc.' are the following:

"The alterations necessary to apparatus-houses to strengthen them for the introduction of heavier apparatus, the increased cost of fuel and horse feed, and the increasing cost of maintaining the three fire-boats. Realizing the necessity of keeping within the limits of the appropriation and at the same time securing as creditable an administration of the affairs of the Department as possible, extraordinary measures looking to economy in expenditures during the present year were immediately taken by the Commissioners."

Among these measures was the apportionment of the sum allowed (\$385,000) among the various sub-items, as will be more specifically stated below:

The Departmental Estimate for "Apparatus" was \$45,000. This item was reduced by the apportionment to \$32,500. For the coming year, according to the estimates made by the officers of the Department \$55,000 is required. This includes six new engines to replace the same number which have been in use for more than twenty years; two first size and one second size regulation hook and ladder truck to replace a like number worn out; four hose wagons to replace two and four wheel hose tenders which are worn out; and a water tower to replace an old pattern, for use in the upper part of the city. It includes also the cost of rebuilding five engines and one Aerial hook and ladder truck, and all the fire extinguishing tools, implements, etc., required during the year.

For "Alterations and Repairs to Buildings" \$100,000 was asked for 1893, but under the necessities imposed by the reduction, only \$60,000 was allowed. For the coming year the estimate, as shown, is for alterations, \$28,000, and for repairs, \$58,000, aggregating \$86,000.

For "Fuel" the estimate for the year was \$45,000. This amount, it was found, could not be reduced. For the coming year \$46,000 is required.

For "Gas" \$15,000 was estimated for the year 1893; \$14,500 was allowed under the apportionment; and \$15,000 will be required for the coming year.

For "General Supplies" \$37,500 was asked for 1893 and but \$33,000 could be allowed in the apportionment. The first-named amount will be required for the coming year.

The estimate for "Horses" for the current year was \$20,000, and the needs of the Department were such that it was found impossible to reduce it in the apportionment. For the coming year the estimate is for \$24,000, which includes new horses, the removal of manure, the hire of extra horses, medicines, etc. The sum is absolutely needed.

For "Forage" \$42,500 was asked for the current year, but, the price of the articles having increased when the apportionment was made, it was found necessary to allow \$45,000. The same sum is asked for the coming year.

For "Horseshoeing" \$14,500 was asked, but it was found necessary to allow \$15,000. The same sum is asked in the present estimate.

For "Harness" \$5,000 was asked and allowed in the apportionment. It is necessary to increase this item to \$6,000 for the coming year.

For "Hose" \$30,000 was estimated, but, under the necessities imposed by the reduction, only \$21,000 could be allowed. For the coming year \$30,000 is required for new hose, and for hose-shop materials, suction, nozzles, pipes, reducers, etc., etc., \$6,500 is required, making an aggregate of \$37,500.

For "Machine and Paint Shops" \$20,000 was asked for the year 1893, but in the apportionment only \$12,500 could be allowed. This amount having been found inadequate, \$15,500 is asked for the coming year.

For "Rents" \$6,000 was asked in the Departmental Estimate for 1893, and \$5,500 was allowed under the apportionment. For the coming year \$7,500 will be required, the increase being caused by the fact that more temporary quarters for apparatus companies whose houses are to be rebuilt will be required.

For "Telegraph Supplies and Repairs" \$53,400 was asked for 1893, and under the apportionment \$47,800 was allowed. As will be seen, only \$1,200 more is asked for this purpose than the amount set aside therefor for this year. Among the sub-items under this head are a number to which the Commissioners desire to call particular attention.

The item of "Keyless Doors," \$5,000, will provide for putting keyless doors upon all the remaining fire-alarm boxes in the city south of One Hundred and Thirtieth street, not heretofore provided for, which is a very necessary and desirable improvement.

The item of "Alarm-box Signs," \$3,500, will provide for placing durable and conspicuous signs upon the lamp-posts at each street intersection south of One Hundred and Thirtieth street, at which no fire-alarm box is located, showing upon them the location of the nearest fire-alarm box. Samples of these signs have, with the consent of the Department of Public Works, been placed in various locations along the line of Broadway. It is believed that they furnish the simplest, most inexpensive and best directions as to the location of the fire-alarm boxes. It is proposed to have the signs made of enameled white metal with black or blue letters upon them.

For "Maintenance of the three Fire-boats," \$20,000 was asked for 1893, but it was found necessary to allow \$23,000 for that item in the apportionment. For the coming year \$25,000, an increase of \$2,000, is required.

For Placing and Maintaining Fire-alarm Electrical Conductors Underground (chapter 499, 1885).....

150,000 00

For this purpose the same sum was asked for the current year, but only \$50,000 was allowed.

The present estimate contemplates the removal of all remaining overhead wires and poles in the following described districts:

All south of Houston street, from river to river, except a small number on the extreme east side, between Rutgers and Grand streets.

All between Houston and One Hundred and Tenth streets, from West street and Tenth avenue on the west, to First avenue on the east.

All between One Hundred and Tenth and One Hundred and Thirty-third streets, from Eighth to Second avenue.

This work can be accomplished by making use of the general subways completed and under construction, and it comprises the furnishing and connecting of cables, signal-posts, etc., the construction of subsidiary ducts between the general subways and signal-posts, Department houses and school-houses, enabling the connection underground of one hundred and fifteen street fire-alarm boxes, twelve Fire Department houses and forty-eight school-houses, in addition to those already so connected.

For the above work the estimate of cost is \$132,000, and without it the Department will be unable to comply with the usual demand to remove all of its overhead lines in sections where general subway facilities are provided.

In addition to the above it is understood that more general subways are to be constructed during the coming year, rendering other work of the same character necessary, which it is estimated will cost \$18,000, thus making up the sum of \$150,000 required for this purpose.

For New Houses for Engine and Hook and Ladder Companies (section 425, chapter 410, 1882).....

100,000 00

For the coming year new houses are wanted as follows:

For Engine Company No. 2, at No. 530 West Forty-third street.

For Engine Company No. 14, at No. 14 East Eighteenth street.

For Engine Company No. 41 (now at No. 2801 North Third avenue, near One Hundred and Forty-eighth street), at One Hundred and Fiftieth street, near Courtlandt avenue.

For Hook and Ladder Company No. 19 (now on Ogden avenue, near Birch street), upon a new site.

For a new engine company on One Hundred and Thirty-seventh street, near Willis avenue.

The houses of Engine Companies Nos. 2, 14 and 41 were built for the Volunteer Fire Departments respectively in 1864, 1860 and 1870, and neither of them has been extensively altered or improved since. All of them are in such a condition that it would be a waste of money to alter or extensively repair them.

The house occupied by Hook and Ladder Company No. 19 is leased until January 1, 1895; it is poorly built and not well located. It is proposed to obtain a new site for this company and build a new house upon it.

The negotiations for a site for a new company on One Hundred and Thirty-seventh street, near Willis avenue, are about completed. It is in a section which, by reason of its growth in the number and importance of its buildings, has for some time needed additional protection, and provision for it should no longer be delayed.

For New Sites for Apparatus Houses (section 425, chapter 410, 1882)..... \$75,000 00

For Engine Company No. 32, now at No. 108 John street.
For Hook and Ladder Company No. 8, now at No. 7 North Moore street.
For a Water Tower and Fuel Depot in the vicinity of Thirty-fourth street and Broadway.
Engine Company No. 32 is upon leased property and, as the lease will soon expire, it is very desirable that a permanent site should be obtained for it.
Hook and Ladder Company No. 8 is now located upon a lot entirely too small for the purpose, being only 19 x 75 feet.
The new site in the vicinity of Thirty-fourth street and Broadway is needed for the purposes above stated, by reason of the increase in large and important structures in that part of the city.
Total for usual purposes.....\$2,610,258 00

For Elm Street Improvement—
New sites..... \$65,000 00
New houses..... 45,000 00

These are to provide for Engine Companies Nos. 33 and 55 which will be displaced by the widening and extension of Elm street. The former is a double company located at No. 15 Great Jones street, opposite Lafayette place, and the latter is on the east side of Elm street, at No. 173, between Grand and Broome streets. Both are very important companies, performing duty largely in the Dry Goods District, and must be provided for somewhere in the vicinity of their present locations.

For Emergencies and Contingencies (section 425, chapter 410, 1882)..... 50,000 00

The Fire Commissioners are strongly of the opinion that there should be such a fund at their disposal, to be drawn upon, however, only with the special consent of the Mayor and Comptroller whenever the necessity shall arise.
In case of unusual occurrences such as great snow storms, disastrous fires, epidemics, etc., etc., the Department without this resource would be seriously embarrassed and the public safety endangered.

Aggregate.....\$2,770,258 00

The foregoing estimate, amounting to two million seven hundred and seventy thousand two hundred and fifty-eight dollars (\$2,770,258), is adopted as the sum of money which will be required for the expense necessary to the administration of the Fire Department of the City of New York for the year 1894.

The President laid before the Board the following communication from the District Attorney's Office:

DISTRICT ATTORNEY'S OFFICE—CITY AND COUNTY OF NEW YORK,
September 5, 1893.

To the Honorable the Board of Aldermen:

GENTLEMEN—In compliance with section 189 of the New York Consolidation Act of 1882, I herewith transmit an estimate in writing, being the Departmental Estimate in said act referred to, of the amount necessary in conducting the business of the District Attorney's Office of the City and County of New York for the year 1894, specifying in detail the objects of such expenditure, and including a statement of the salaries of each of the officers, clerks, employees and subordinates in such office, as follows:

For salary of the District Attorney (section 1503 of the Consolidation Act of 1882)	\$12,000 00
For salary of six Assistant District Attorneys, at \$7,500 each (section 1503 of the Consolidation Act of 1882, as amended by chapter 564, Laws of 1887)	45,000 00
For salary of Chief Deputy Assistant, Deputy Assistants, Clerks, employees and subordinates	76,570 00
For fees and compensation of Stenographer to Grand Jury (chapter 348, Laws of 1885)	2,500 00
	\$136,070 00

For expenses in procuring the arrest of prisoners in this and other States, and in procuring the attendance of witnesses from other States in cases tried in the Courts of General Sessions and Oyer and Terminer, and for expert witnesses, car fares, law books, postage, telegram, messenger and telephone service, clothing for poor witnesses in House of Detention, and other necessities for the office, including deficiency for the year 1893

\$31,500

The net appropriation to the credit of the salary account of this office for the present year was \$126,470; the net amount asked for by this estimate is \$133,570; the amount of the pay-roll upon the basis of the salaries now paid is only \$126,410.

No surplus will, however, arise therefrom, for notwithstanding the necessity for the appointment of additional subordinates I have only succeeded in keeping my salary account within the limits of my appropriation therefor, by the readjustment of my pay-roll at a lower amount than that which it was contemplated should be allowed by the appropriation made.

The exigencies of the office required the appointment of one more Subpoena Server than was contemplated in my estimate for this year; besides that, by reason of the amendment to the Inheritance Tax Law, extending its operation to lineal descendants, etc., and thus increasing the volume

of work connected therewith, I was obliged to create the office of Transfer Tax Clerk. I was only able with the limited means at my command, upon his appointment, to allow him a salary of \$1,020; but the office is one which must be filled by a competent attorney, it is one of responsibility, and, in my judgment, the sum of \$1,800 should be allowed that official.

I have only been able to provide for the salaries of the officials last named by not making appointments to vacancies which have arisen in the positions of messenger and copyist in my office, and in other cases, where I have made appointments to fill vacancies caused by resignation, in not allowing the newly appointed official the same salary which his predecessor received. There is no reason why such new appointees should not receive the full salaries of their positions, particularly inasmuch as greater duties are cast upon them, as well as upon my entire office force, by the increasing volume of the criminal business of the county, and particularly by the dispatch thereof within a reasonably prompt period.

At present this office has only one Stenographer, and no one man, however competent, is able to perform all the duties and stenographic work required in this office. As it is, a considerable item of my contingent expenditures arises from the necessity of employing extra stenographers and typewriters. Such extra employment can only be made at piece rates, and it would be wise economy, as it is a matter of necessity, to allow this office the necessary quota of Stenographers.

The amount of my estimate for salaries, etc., for 1894, viz., \$133,570, is made up as follows:

Amount of present pay-roll, including Grand Jury Stenographer	\$128,910 00
Add salaries for offices where vacancies now exist, viz:	
Clerk	\$780 00
Messenger	700 00
	1,480 00
Increase salary of Transfer Tax Clerk from \$1,020 to \$1,800	\$780 00
Increase salary of successor to Charles E. Simms, Jr., from \$2,500 to \$4,000	1,500 00
Increase salary of successor to Jacob Washburn from \$2,500 to \$3,500	1,000 00
	3,280 00
Add salaries for two Stenographers	2,400 00
	\$136,070 00

Of the appropriation of \$31,500 for Contingencies, \$15,000 is intended for the ordinary current and contingent expenses of the office, and is the same amount as was appropriated for this year for like purposes, and which sum is indispensably necessary to pay for ordinary services and liabilities which are only chargeable against that fund. The remaining \$16,500, included in this estimate, is intended to cover a deficiency which will arise in this year's account, and which deficiency is thus explained:

There was paid out of the appropriation for 1893, to meet the deficiency in the account of 1892, the sum of	\$15,095 99
There has been disbursed up to August 15, for ordinary current and contingent expenses for this year, the sum of	9,104 00
It is estimated that the ordinary current contingent charges for the remainder of the year will amount to the sum of	6,600 00
There remains outstanding and unpaid the bills of the medical and chemical experts, etc., engaged upon the case of Robert W. Buchanan, convicted of murder in first degree, amounting to the sum of	14,753 22
Gross expenses for 1893	\$45,553 21
The appropriation for 1893 was	29,000 00
Leaving a deficiency of	\$16,553 21

It will be observed that the deficiency arising in this year's account is due exclusively to the increased expenses, particularly for experts, entailed upon the county by the prosecution of the Buchanan case.

I am, sirs, respectfully, yours,

DE LANCEY NICOLL, District Attorney.

To the Honorable the Board of Aldermen:

By section 11 of chapter 536 of the Laws of 1893, entitled "An act to provide for indexing and reindexing conveyances, mortgages and other instruments relating to lands and liens thereon in the City and County of New York," etc., the Board of Estimate and Apportionment is authorized to appropriate the moneys requisite for the compensation of experts and clerks, and for the purchase

of books and stationery needed by the County Clerk for carrying out the provisions of said act in his office.

After careful consideration of the matter I am now desirous of commencing the work of reindexing, and I submit herewith an estimate of the amount required for the balance of the present year for such purpose, including the expense of the books necessary to begin the new system of indexing at the commencement of the next year.

In connection therewith I beg leave to state that the work chiefly consists in reindexing, under the Block System, the notices of pendency of action, of which upwards of 50,000 are now on file in this office, and of which about 2,500 are received annually. This work is rendered unusually difficult by reason of the vagueness of the description of the land in many of these notices, and by the fact that many of these descriptions refer to old maps, and to streets, the names of which have been changed, or eliminated from the City maps. As none of the searchers in this office have had any experience in searching against localities, I consider the employment of a lawyer experienced in real estate conveyancing as essential to the proper superintending and directing of this portion of the work.

Owing to the great increase in latter years of the number of judgments docketed, I consider it advisable to introduce a better system of indexing judgments, in order to facilitate searching—the only additional expense being for 20 judgment dockets instead of 12, the number at present in use.

September 4, 1893.

Very respectfully,

HENRY D. PURROY, County Clerk.

The President laid before the Board the following communication from the Police Department:

POLICE DEPARTMENT OF THE CITY OF NEW YORK,
NO. 300 MULBERRY STREET,
NEW YORK, September 8, 1893.

To the Honorable the Board of Aldermen of the City of New York:

GENTLEMEN—I have the honor to forward herewith the Departmental Estimate of the Police Department for the year 1894, in pursuance of the following resolution, adopted at a meeting of the Board of Police held this day:

Resolved, That the Departmental Estimate of the amount required to pay the expenses of the Police Department for the year 1894 be approved and forwarded to the Board of Estimate and Apportionment, and a copy of the same to the Board of Aldermen.

I am instructed to also forward for your consideration, with such estimate, a copy of the report of the Committee on Repairs and Supplies, recommending that the item of \$500,000 for the establishment of an electrical signaling system, to be used in connection with patrol wagons, be included therein.

Very respectfully,

WM. H. KIPP, Chief Clerk.

(Copy).

POLICE DEPARTMENT OF THE CITY OF NEW YORK,
NO. 300 MULBERRY STREET,
NEW YORK, September 8, 1893.

To the Board of Police:

GENTLEMEN—The Police Commissioners have for a number of years been considering the advisability of establishing a thorough and complete system of Police signals throughout the City.

The matter was finally referred to the Committee on Repairs and Supplies of your Board, and after a full examination of the matter the Committee now report that they deem it advisable that steps be taken at once in this direction, and suggest that in the Departmental Estimate for the year 1894 the sum of five hundred thousand dollars (\$500,000) be included for the establishment of an electrical signaling system, to be used in connection with patrol wagons.

It is hardly necessary to enumerate the benefits to be derived from such a system, and the necessity of its introduction. Suffice it to say that every city of any importance throughout the country is equipped with some signal system. New York, up to the present time, is without a signaling system, except in the suburban portion of the Twenty-third and Twenty-fourth Wards. About thirty signal boxes have been in operation in this district for the past twenty years. They are crude and do not answer the requirements of the service at the present time.

There should be established throughout the city the most approved system of signal boxes, in connection with a patrol-wagon system. It might be well to state at this time a few of the most essential reasons for urging this improvement together with the advantages to be derived therefrom.

Police officers would be thereby enabled to convey to the station-house in a properly arranged wagon the unfortunate victims of accident or sudden illness. They would also be enabled to convey noiselessly to the station-house the drunkard or street brawler without the exposure so common at the present time.

It would enable the police force to work with the greatest efficiency and to accomplish much for the preservation of peace and order, by furnishing the means of properly dispersing crowds and checking disturbances or riots. It would decrease the probability of serious outbreaks when it is known that any number of men can be massed at any appointed place with patrol wagons in a very short time. In turbulent districts policemen are often assaulted by the mob which gradually gathers and follows in the wake of an officer while he is engaged in making an arrest. The assault usually takes the form of an attempt at rescue, and lives have frequently been lost at such encounters.

With a signal system and patrol wagons in operation all this would be obviated. The alacrity with which assistance arrives and the celerity with which a prisoner is conveyed to the station-house discourage all such attempts. It increases the power of the officer in command at the station-house, as it puts him in direct communication with all of the officers on patrol. It likewise increases the power of the officer on post, as it puts him in communication with his station-house.

In no other Department of the Municipal Government has there been so little progress as in that of the Police in this respect. Patrolmen are sent on their posts to practically act for themselves when once there. They are cut off from communication with their superiors and free from all surveillance, excepting the occasional visits of Sergeants and Roundsmen.

With the completion of such a system it will be unnecessary for an officer to leave his post. As matters are at the present time, when an Officer makes an arrest he has to take his prisoner to the station-house, leaving his post uncovered during his absence, which may be for an hour or more, and frequently officers from neighboring posts are obliged to assist him, thus leaving several posts uncovered at once.

Finally, an efficient Police Signal System, in connection with a patrol wagon system, is not an added expense to the Municipality, but is, in fact, a real economy. By its use the Police Force is made more efficient and practically increased in numbers.

The Department feels the need of these improvements in its electrical service, and it is therefore hoped that your Board will ask for the appropriation herein referred to.

Respectfully submitted,

(Signed)

JOHN C. SHEEHAN,
Chairman of the Committee on Repairs and Supplies.

DEPARTMENTAL ESTIMATE OF THE POLICE DEPARTMENT OF THE CITY OF NEW YORK, OF THE AMOUNT REQUIRED FOR EXPENSES FOR THE YEAR 1894.

DEPARTMENT OF PUBLIC CHARITIES AND CORRECTION,
No. 66 THIRD AVENUE,
NEW YORK, September 13, 1893.

TO CONTRACTORS.

MATERIALS AND WORK REQUIRED FOR PLUMBING IN TOWERS, BELLEVUE HOSPITAL.

SEALED BIDS OR ESTIMATES FOR THE aforesaid work and materials, in accordance with the specifications and plans, will be received at the office of the Department of Public Charities and Correction, No. 66 Third avenue, in the City of New York, until Tuesday, September 26, 1893, until 10 o'clock A. M. The person or persons making any bid or estimate shall furnish the same in a sealed envelope, indorsed "Bid or Estimate for Plumbing in Towers, Bellevue Hospital," and with his or their name or names, and the date of presentation, to the head of said Department, at the said office, on or before the day and hour above named, at which time and place the bids or estimates received will be publicly opened by the President of said Department and read.

THE BOARD OF PUBLIC CHARITIES AND CORRECTION RESERVES THE RIGHT TO REJECT ALL BIDS OR ESTIMATES IF DEEMED TO BE FOR THE PUBLIC INTEREST, AS PROVIDED IN SECTION 64, CHAPTER 410, LAWS OF 1882.

No bid or estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

The award of the contract will be made as soon as practicable after the opening of the bids.

Any bidder for this contract must be known to be engaged in and well prepared for the business, and must have satisfactory testimonials to that effect; and the person or persons to whom the contract may be awarded will be required to give security for the performance of the contract by his or their bond, with two sufficient sureties, each in the penal amount of TWO THOUSAND (\$2,000) DOLLARS.

A bidder for a contract must be known to be engaged in and well prepared for the business, and must have satisfactory testimonials to that effect; and the person or persons to whom a contract may be awarded will be required to give security for the performance of the contract by his or their bond, with two sufficient sureties, in the penal amount of fifty (50) per cent. of the ESTIMATED amount of the contract, or such specific sum as may be mentioned in the proposal.

Each bid or estimate shall contain and state the name and place of residence of each of the persons making the same; the names of all persons interested with him or them therein; and if no other person be so interested, it shall distinctly state that fact; also that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud; and that no member of the Common Council, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of the Corporation is directly or indirectly interested therein, or in the supplies to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate, that the several matters stated therein are in all respects true. Where more than one person is interested, it is requisite that the verification be made and subscribed by all the parties interested.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person making the estimate, they will, on its being so awarded, become bound as his sureties for its faithful performance; and that if he shall omit or refuse to execute the same, they shall pay to the Corporation any difference between the sum to which he would be entitled on its completion and that which the Corporation may be obliged to pay to the

person or persons to whom the contract may be awarded at any subsequent letting; the amount in each case to be calculated upon the estimated amount of the supplies by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of this contract, over and above all his debts of every nature, and over and above his liabilities as bail, surety or otherwise; and that he has offered himself as a surety in good faith and with the intention to execute the bond required by law.

No bid or estimate will be received or considered unless accompanied by either a certified check upon one of the State or National banks of the City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must not be included in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same, within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited and retained by the City of New York, as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of the deposit will be returned to him.

The Commissioner of Street Improvements of the Twenty-third and Twenty-fourth Wards reserves the right to reject all bids received for any particular work if he deems it for the best interests of the city.

TO CONTRACTORS.

PROPOSALS FOR FURNISHING MATERIALS AND PERFORMING WORK IN FLAGGING AND CURBING THE SIDEWALKS, ETC., OF THE NEW CRIMINAL COURT-HOUSE, ON THE BLOCK BOUNDED BY CENTRE, ELM, FRANKLIN AND WHITE STREETS.

SEALED ESTIMATES FOR THE ABOVE WORK, indorsed with the above title, also with the name of the person or persons making the same, and the date of presentation, will be received at the office of the Comptroller, Rooms Nos. 14 and 15, Finance Department, Stewart Building, No. 280 Broadway, in the City of New York, until Wednesday, September 20, 1893, at 12 o'clock, M., at which place and hour the bids will be publicly opened by and in pursuance of the order of the Commissioners of the Sinking Fund and read, and the award of the contract, if awarded, will be made to the lowest bidder, with adequate security, as soon thereafter as practicable. The person or persons to whom the contract may be awarded will be required to attend at the office of the Department of Public Works, with the sureties offered by him or them, and execute the contract within five days from the date of the service of a notice to that effect, and in case of failure or neglect so to do, he or they will be considered as having abandoned it, and as in default to the Corporation; and thereupon the work will be readvertised and relet, and so on until the contract be accepted and executed. The work to commence at such time as the Commissioner of Public Works may designate.

N. B.—Permission will not be given for the withdrawal of any bid or estimate. No bid will be accepted from, or contract awarded to, any person who is in arrears to the Corporation upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

Bidders are required to state in their estimates, under oath, their names and places of residence, the names of all persons interested with them therein, and, if no other person be so interested, they shall distinctly state the fact; also, that it is made without any connection with any other person making any bid or estimate for the same purpose, and that it is in all respects fair and without collusion or fraud; and also, that no member of the Common Council, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof. Where more than one person is interested it is requisite that the verification be made and subscribed by all the parties interested.

Each estimate shall be accompanied by the consent, in writing, of two householders or freeholders of the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person making the estimate, they will, upon its being so awarded, become bound as his sureties for its faithful performance; and that if he shall omit or refuse to execute the same, they will pay to the Corporation any difference between the sum to which he would be entitled upon its completion, and that which the Corporation may be obliged to pay to the person to whom the contract shall be awarded at any subsequent letting; the amount in each case to be calculated upon the estimated amount of the work by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same that he is a householder or freeholder in the City of New York and is worth the amount of the security required for the completion of the contract, as stated in the proposals, over and above all his debts of every nature, and over and above his liabilities as bail, surety and otherwise; that he has offered himself as a surety in good faith and with an intention to execute the bond required by law. The adequacy and sufficiency of the security offered is to be determined by the Comptroller after the award is made and prior to the signing of the contract.

For the nature and extent of the work to be done, bidders are referred to the plan and specifications hereto annexed. The plans may be seen at the office of the architects, Messrs. Thom, Wilson & Schaarschmidt, No. 1267 Broadway.

The entire work to be completed within NINETY DAYS after notice to commence work has been given by the Commissioner of Public Works.

The damages to be paid by the contractor or contractors for each day that the contract or contracts may be unfulfilled after the time specified for the completion thereof shall have expired, are, by a clause in the contract, fixed and liquidated at TEN DOLLARS per day.

Bidders will state in writing and also in figures a price for the whole work, complete, which price is to cover the furnishing of all necessary materials and labor and the performance of all the work set forth in the plan and specifications and form of agreement hereto annexed.

No estimate will be considered unless accompanied by either a certified check upon one of the State or National banks of the City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the security required for the faithful performance of the contract. All such deposits, except that of the successful bidder, will be returned to the persons making the same, within three days after the contract is awarded. If the successful bidder shall refuse or neglect within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited and retained by the City of New York as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him.

The amount of security required is FIVE THOUSAND DOLLARS.

The right is reserved by the Commissioners to reject all bids if they shall deem it for the interest of the Corporation so to do.

Commissioner of Public Works
of the City of New York.

DEPARTMENT OF PUBLIC WORKS,
COMMISSIONER'S OFFICE,
Room 6, No. 31 CHAMBERS STREET,
NEW YORK, September 7, 1893.

TO CONTRACTORS.

BIDS OR ESTIMATES, INCLOSED IN A sealed envelope, with the title of the work and the name of the bidder indorsed thereon, also the number of the work as in the advertisement, will be received at this office on Monday, October 2, 1893, until 12 o'clock M., at which place and hour they will be publicly opened by the head of the Department.

No. 1. FOR REMOVAL OF OLD GATE-HOUSE AT TENTH AVENUE AND ONE HUNDRED AND NINETEENTH STREET AND CONSTRUCTION OF NEW GATE-HOUSE AND CONNECTIONS.

Each estimate must contain the name and place of residence of the person making the same, the names of all persons interested with him therein, and if no other person be so interested, it shall distinctly state that fact. That it is made without any connection with any other person making an estimate for the same work, and is in all respects fair and without collusion or fraud. That no member of the Common Council, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of the Corporation, is directly or indirectly interested in the estimate or in the work to which it relates or in the profits thereof.

Each estimate must be verified by the oath, in writing, of the party making the same, that the several matters therein stated are true, and must be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, to the effect that if the contract is awarded to the person making the estimate, they will, upon its being so awarded, become bound as his sureties for its faithful performance; and that if he shall refuse or neglect to execute the same, they will pay to the Corporation any difference between the sum to which he would be entitled upon its completion and that which the Corporation may be obliged to pay to the person to whom the contract shall be awarded at any subsequent letting; the amount to be calculated upon the estimated amount of the work by which the bids are tested.

The consent last above mentioned must be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of the contract, over and above all his debts of every nature, and over and above his liabilities as bail, surety, or otherwise, and that he has offered himself as surety in good faith, with the intention to execute the bond required by law.

No estimate will be considered unless accompanied by either a certified check upon one of the State or National banks of the City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the security required for the faithful performance of the contract. Such check or money must NOT be inclosed in the sealed envelope containing the estimate, but must be handed to the officer or clerk of the Department who has charge of the estimate-box, and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him to execute the same, the amount of the deposit made by him shall be forfeited and retained by the City of New York as liquidated damages for such neglect or refusal, but if he shall execute the contract within the time aforesaid the amount of the deposit will be returned to him.

THE COMMISSIONER OF PUBLIC WORKS RESERVES THE RIGHT TO REJECT ALL BIDS RECEIVED FOR ANY PARTICULAR WORK IF HE DEEMS IT FOR THE BEST INTERESTS OF THE CITY.

Blank forms of bid or estimate, the proper envelopes in which to inclose the same, the specifications and agreements, and any further information desired, can be obtained at Room 10, No. 31 Chambers street.

DEPARTMENT OF PUBLIC WORKS,
COMMISSIONER'S OFFICE,
No. 31 CHAMBERS STREET,
NEW YORK.

TO OWNERS OF LANDS ORIGINALLY ACQUIRED BY WATER GRANTS.

ATTENTION IS CALLED TO THE RECENT act of the Legislature (chapter 449, Laws of 1889), which provides that whenever any streets or avenues in the city, described in any grant of land under water, from the Mayor, Aldermen and Commonalty containing

covenants requiring the grantees and their successors to pave, repave, keep in repair or maintain such streets, shall be in need of repairs, pavement or repavement, the Common Council may, by ordinance, require the same to be paved, repaved or repaired, and the expense thereof to be assessed on the property benefited; and whenever the owner of a lot so assessed shall have paid the assessment levied for such paving, repaving or repairing, such payment shall release and discharge such owner from any and every covenant and obligation as to paving, repaving and repairing, contained in the water grant under which the premises are held, and no further assessment shall be imposed on such lot for paving, repaving or repairing such street or avenue, unless it shall be petitioned for by a majority of the owners of the property (who shall also be the owners of a majority of the property in frontage) on the line of the proposed improvement.

The act further provides that the owner of any such lot may notify the Commissioner of Public Works, in writing, specifying the ward number and street number of the lot that he desires, for himself, his heirs and assigns, to be released from the obligation of such covenants, and elects and agrees that said lot shall be thereafter liable to be assessed as above provided, and thereupon the owner of such lot, his heirs and assigns shall thenceforth be relieved from any obligation to pave, repair, uphold or maintain said street, and the lot in respect of which such notice was given shall be liable to assessment accordingly.

The Commissioner of Public Works desires to give the following explanation of the operation of this act: When notice, as above described, is given to the Commissioner of Public Works, the owner of the lot or lots therein described, and his heirs and assigns, are forever released from all obligation under the grant in respect to paving, repaving or repairing the street in front of or adjacent to said lot or lots, except one assessment for such paving, repaving or repairs, as the Common Council may, by ordinance, direct to be made thereafter.

No street or avenue within the limits of such grants can be paved, repaved or repaired until said work is authorized by ordinance of the Common Council, and when the owners of such lots desire their streets to be paved, repaved or repaired, they should state their desire and make their application to the Board of Aldermen and not to the Commissioner of Public Works, who has no authority in the matter until directed by ordinance of the Common Council to proceed with the pavement, repavement or repairs.

ARMORY BOARD.

ARMORY BOARD—OFFICE OF THE SECRETARY,
No. 280 BROADWAY,
NEW YORK, September 8, 1893.

PROPOSALS FOR ESTIMATES FOR FURNISHING MATERIALS AND WORK IN THE ERECTION OF AN ARMORY BUILDING ON THE EASTERLY SIDE OF MADISON AVENUE, EXTENDING FROM NINETY-FOURTH TO NINETY-FIFTH STREET, NEW YORK CITY.

PROPOSALS FOR ESTIMATES FOR FURNISHING materials and work in the erection of an Armory Building on the easterly side of Madison avenue, extending from Ninety-fourth to Ninety-fifth street, City and County of New York, will be received by the Armory Board at the MAYOR'S OFFICE, CITY HALL, UNTIL 10.30 O'CLOCK A. M. OF THE 4TH DAY OF OCTOBER, 1893; at which time and place they will be publicly opened and read by said Board.

Any person making an estimate for the above work shall furnish the same in a sealed envelope to the President of said Armory Board, indorsed "Estimate for Furnishing Materials and Work in the erection of an Armory Building on the easterly side of Madison avenue, extending from Ninety-fourth to Ninety-fifth street," and also with the name of the person or persons presenting the same, and the date of its presentation.

Any bidder for this contract must be known to be engaged in and well prepared for the business, and must have satisfactory testimonials to that effect; and the person or persons to whom the contract may be awarded will be required to give security for the performance of the contract, by his or their bond, with two sufficient sureties, in the amount of FIFTY THOUSAND (\$50,000) DOLLARS.

Bidders are required to submit their estimates upon the following express conditions, which shall apply to and become part of every estimate received:

1st. Bidders must satisfy themselves, by personal examination of the location of the proposed work, and by such other means as they may prefer, as to the accuracy of the estimate, and shall not at any time after the submission of an estimate dispute or complain of the statement of quantities, nor assert that there was any misunderstanding in regard to the nature or amount of the work to be done.

2d. Bidders will be required to complete the entire work to the satisfaction of the Armory Board, and in substantial accordance with the specifications of the contract and the plans therein referred to. No extra compensation, beyond the amount payable for the work before mentioned, which shall be actually performed, at the prices therefor to be specified by the lowest bidder, shall be due or payable for the entire work.

Bidders will state in their estimates a price for the whole of the work to be done, in conformity with the approved form of contract and the specifications therein set forth, by which price the bids will be tested. This price is to cover all expenses of every kind involved in or incidental to the fulfillment of the contract, including any claim that may arise through delay from any cause in the performing of the work thereunder.

Bidders will distinctly write out, both in words and in figures, the amount of their estimates for doing this work.

The person or persons to whom the contract may be awarded will be required to attend at this office with the sureties offered by him or them, and execute the contract within five days from the date of the service of a notice to that effect; and in case of failure or neglect so to do, he or they will be considered as having abandoned it, and as in default to the Corporation; and the contract will be readvertised and relet, and so on until it be accepted and executed.

Bidders are required to state in their estimates their names and places of residence; the names of all persons interested with them therein; and if no other person be so interested, the estimate shall distinctly state the fact; also that the estimate is made without any connection with any other person making an estimate for the same work; and that it is in all respects fair and without collusion or fraud; and also that no member of the Common Council, head of a department, chief of a bureau, deputy thereof or clerk therein, or other officer of the Corporation, is directly or indirectly interested therein, or in the supplies or work to which it relates, or in any portion of the profits thereof; which estimate must be verified by the oath, in writing, of the party making the estimate, that the several matters stated therein are in all respects true. Where more than one person is interested, it is requisite that the verification be made and subscribed by all the parties interested.

Each estimate shall be accompanied by the consent, in writing, of two householders or freeholders in the City of New York, with their respective places of business or residence, to the effect that if the contract be awarded to the person or persons making the estimate, they will, on its being so awarded, become bound as his or their sureties for its faithful performance; and that if said person or persons shall omit or refuse to execute the contract, they will pay to the Corporation of the City of New York any difference between the sum to which said person or persons would be entitled on its completion, and that which said Corporation or the Armory Board may be obliged to pay to the person to whom the contract may be awarded at any subsequent letting; the amount in each case to be calculated upon the estimated amount of the work to be done by which the bids are tested. The consent above mentioned shall be accompanied by the oath or affirmation, in writing, of each of the persons signing the same, that he is a householder or freeholder in the City of New York, and is worth the amount of the security required for the completion of the contract and stated in the proposals, over and above all his debts of every nature, and over and above his liabilities as bail, surety and otherwise; and that he has offered himself as surety in good faith and with the intention to execute the bond required by law. The adequacy and sufficiency of the security offered is to be approved by the Comptroller of the City of New York, after the award is made and prior to the signing of the contract.

No estimate will be received or considered unless accompanied by either a certified check upon one of the State or National banks of the City of New York, drawn to the order of the Comptroller, or money, to the amount of TWENTY-FIVE HUNDRED DOLLARS (\$2,500). Such check or money must not be inclosed in the sealed envelope containing the estimate, but must be handed

to the officer or clerk of the Board, who has charge of the estimate-box; and no estimate can be deposited in said box until such check or money has been examined by said officer or clerk and found to be correct. All such deposits, except that of the successful bidder, will be returned by the Comptroller to the persons making the same within three days after the contract is awarded. If the successful bidder shall refuse or neglect, within five days after notice that the contract has been awarded to him, to execute the same, the amount of the deposit made by him shall be forfeited and retained by the City of New York as liquidated damages for such neglect or refusal; but if he shall execute the contract within the time aforesaid, the amount of his deposit will be returned to him by the Comptroller.

No estimate will be accepted from, or contract awarded to, any person who is in arrears to the Corporation, upon debt on contract, or who is a defaulter, as surety or otherwise, upon any obligation to the Corporation.

Bidders are requested, in making their bids or estimates, to use a blank prepared for that purpose by the Board, a copy of which, together with the form of the agreement, including specifications, and showing the manner of payment for the work, can be seen upon application at the office of the Architect, J. R. THOMAS, No. 160 BROADWAY, New York City.

The Board reserves the right to reject any or all estimates not deemed beneficial to or for the public interest.
