The steam is to be used exclusively by the company.

The length of pipe between curb lines is 24 feet 6 inches, and, pursuant to schedule adopted by the Board of Estimate and Apportionment July 29, 1903 (see Minutes, page 1782), for determining the compensation to be paid for private pipe line privileges, the charge for the privilege should be fixed at \$49 per annum, and such fee to be paid to the Bureau of Highways for opening the street as said Bureau may determine.

No. 429 KENT AVENUE, BROOKLYN, N. Y.,
October 18, 1905.

The Hon. JAMES W. STEVENSON, Secretary, Board of Estimate and Apportionment,
No. 280 Broadway, New York, N. Y.:

SIR—I would respectfully request that the Board of Estimate and Apportionment grant and adopt the proper resolution giving permission to Charles E. Respectfully,

CHAS. E. RING.

CITY OF NEW YORK—DEPARTMENT OF FINANCE,
COMPTROLLER'S OFFICE,
October 23, 1905.

Hon. EDWARD M. GROUT, Comptroller:

SIR—Mr. Charles E. Ring, in a communication to the Board of Estimate and Apportionment, dated October 18, 1905, requests permission to lay a 12-inch cast-iron pipe under and across the carriageway of Kent avenue, to connect his building, No. 429, on the east side of said street, with his building, No. 434, on the west side of said street, for the purpose of supplying steam from the former to the latter building, as more fully shown on the accompanying diagram, marked "Diagram accompanying petition of Chas. E. Ring, showing proposed steam and electric mains across Kent avenue, Borough of Brooklyn," signed Chas. E. Ring, and dated October 18, 1905. The steam to be used exclusively by the petitioner.

Upon investigation, I find that the petitioner desires to lay two pipes, one a 2-inch pipe, to contain electric wire for power, and one a 4-inch steam pipe, both to be incased in a 12-inch pipe, from his premises, No. 429 Kent avenue, Borough of Brooklyn, to his premises, No. 434 Kent avenue, directly opposite.

The length of pipe between curb lines is 36 feet, and pursuant to schedule adopted by the Board of Estimate and Apportionment July 29, 1905 (see Minutes, page 1782), for determining the compensation to be paid for pipe line privileges, the charge for the privilege should be fixed at \$72 per annum, and such fee to be paid to the Bureau of Highways for opening the street as said Bureau may determine.

I see no objection to the request, and would recommend that same be granted, revocable at the pleasure of the Board of Estimate and Apportionment or its successors in authority.

The petitioner should be obliged to deposit with the Comptroller the sum of \$150 for the faithful performance of the conditions of the permit.

I have prepared a form of resolution for adoption, granting the said permission, with the usual conditions imposed by the Board in like cases.

Respectfully,

HARRY P. NICHOLS, Principal Assistant Engineer.

The following was offered:

Resolved, That the consent of the Corporation of The City of New York be and the same is hereby given to Charles E. Ring, of the Borough of Brooklyn, City of New York, the owner of certain property on the east and west sides of Kent avenue, in the Borough of Brooklyn, City of New York, to lay a 12-inch cast-iron pipe under and across the roadway of the said Kent avenue, for the sole purpose of conducting steam and electricity for said petitioner's exclusive use, from premises known as No. 429 Kent avenue to premises No. 434 Kent avenue, subject to the following terms and conditions:

First—Such consent shall be for a term not exceeding twenty-five years from the date of the approval thereof by the Mayor of The City of New York, and shall be revocable at the pleasure of the Board of Estimate and Apportionment, or its successors in authority.

Second—The said petitioner shall pay into the treasury of The City of New York the sum of \$72 per annum for the privilege hereby granted, and such fee for opening the street as may be required by the Borough President. The compensation hereby reserved shall commence from the date of the approval hereof by the Mayor.

Third—Upon the revocation or termination of this permit, the said petitioner shall, at his own cost, cause all that portion of Kent avenue affected by this permission to be restored to its proper and original condition.

Fourth—Said pipe shall be installed and maintained subject to the supervision and control of the proper authorities of The City of New York, who shall at all times be permitted to examine and inspect the same.

Fifth—This permit is granted on the further and express condition that all laws or ordinances now in force, or which may be hereafter adopted, shall be strictly complied with.

Sixth—The said petitioner shall deposit the sum of \$150 with the Comptroller of The City of New York, which sum shall be security for the performance of all the terms and conditions of this consent. In case of default in the performance by said petitioner of any of the terms and conditions referred to herein, The City of New York shall have the right to cause the work to be done and materials be furnished for the performance thereof after due notice, and shall collect the reasonable cost thereof from said fund without legal proceedings. In case of any draft so made upon the security fund, the said petitioner shall, upon thirty days' notice in writing, pay to the Comptroller of The City of New York a sum of money sufficient to restore the said fund to the original amount of \$150, and in default thereof the permit hereby granted may be canceled and annulled.

Seventh—This permit shall not become operative until said petitioner shall execute, under seal, an instrument in writing wherein he shall agree to abide by and perform all the terms and conditions of this permit.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn and The Bronx—14.

The Secretary presented the following:

To the Honorable Board of Estimate and Apportionment:

The petition of the Tremont Mills respectfully alleges:

That your petitioner is a corporation duly organized under the laws of the State of New York, for the purpose of manufacturing silk ribbons and silk products. That your petitioner owns and occupies the premises at the southwest corner of Ittner place and Park avenue, in the Borough of The Bronx, City of New York. Said premises are one hundred and sixty-eight feet on Ittner place by one hundred feet on the avenue.

That your petitioner has thereon erected a three-story factory building, one hundred and fifty feet by fifty feet, with a separate power-house thereunto annexed.

That your petitioner manufactures electricity for the light and power used in said factory aforementioned. That your petitioner has leased the two upper lofts in the building on the northwest corner of Park avenue and Ittner place, in the Borough of The Bronx, City of New York. That the said Ittner place is an unpaved street, thirty feet six inches wide, running from the west side of Park avenue to the east side of Webster avenue, and that said street does not cross Park avenue.

That your petitioner desires to lay a wire across Ittner place for the purpose of supplying itself with light and power in the two lofts which are designated as the annex. That, according to the map hereto annexed and marked "A," it will be shown that your petitioner has laid a conduit eight inches in diameter, which contains a two-inch cable, for the purpose of supplying the lights, and a three-inch cable for the purpose of supplying the power.

Wherefore, your petitioner prays for a permit allowing it to maintain a conduit eight inches in diameter across said Ittner place, from its building to the building known as the annex, and that your said Honorable Board of Estimate and Apportionment hereby grant the said Tremont Mills such permit.

TREMONT MILLS,
By E. LOUIS JACOBS, Secretary.

County of New York, ss.:

E. Louis Jacobs, being duly sworn, deposes and says that he has read the foregoing petition and the same is true to his own knowledge except as to the matters therein alleged to be stated on information and belief, and as to those matters he believes it to be true. That the reason this verification is not made by the petitioner herein is that said petitioner is a corporation, and that your deponent is one of the officers thereof, to wit, the Secretary.

E. LOUIS JACOBS.

Sworn to before me this 12th day of October, 1905.

LOUIS FRANKEL, Notary Public, New York County.

CITY OF NEW YORK—DEPARTMENT OF FINANCE,
COMPTROLLER'S OFFICE,
October 24, 1905.

Hon. EDWARD M. GROUT, Comptroller:

SIR—The Tremont Mills, a corporation engaged in the manufacture of silk ribbons and silk products, and located at the southwest corner of Ittner place and Park avenue, in the Borough of The Bronx, through its secretary, E. Louis Jacobs, in a verified petition to the Board of Estimate and Apportionment, dated October 12, 1905, requests permission to maintain under and across Ittner place, Borough of The Bronx, a conduit, eight inches in diameter, in which is to be incased two cables, one a two-inch, for the purpose of supplying light, and the other a three-inch, for the purpose of supplying power, from its building on the southwest corner of Ittner place and Park avenue, to its building on the northwest corner of Ittner place and Park avenue, and to connect said buildings, as more fully shown on a map marked "Map or plan showing the proposed conduit across Ittner place, Borough of The Bronx, connecting property of Tremont Mills, to accompany the application to the Board of Estimate and Apportionment for a permit to maintain the same." Signed, Tremont Mills, by E. Louis Jacobs, Secretary.

The light and power are to be used exclusively by the petitioner in the building directly opposite, which is leased by the petitioner for a term of five (5) years, with the privilege of renewal for a like term. The consent should cease and determine upon the termination of the lease.

The distance between curb lines at this point is 30 feet 6 inches, and in accordance with the schedule adopted by the Board of Estimate and Apportionment July 29, 1903, for determining the compensation to be paid for pipe-line privileges, the charge for the privilege should be fixed at \$61 per annum, and such fee for opening the street as may be determined by the Borough President.

As the conduit has already been installed, under a permit, as I am informed, of the President of the Borough of The Bronx, the compensation should commence from October 1, 1905.

I see no objection to the request, and would recommend that same be granted, revocable at the pleasure of the Board of Estimate and Apportionment or its successor in authority.

The petitioner should be obliged to deposit with the Comptroller the sum of \$100 for the faithful performance of the conditions of the permit.

Attached hereto is the usual form of resolution adopted by the Board in such matters.

Respectfully,

HARRY P. NICHOLS, Principal Assistant Engineer.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn and The Bronx—14.

In the matter of the application of the firm of John Wanamaker for permission to construct and maintain a tunnel under and across East Ninth street, Borough of Manhattan, which was presented to the Board at meeting of October 13 and laid over until this date.

The Secretary presented the following:

CITY OF NEW YORK—DEPARTMENT OF FINANCE,
COMPTROLLER'S OFFICE,
October 16, 1905.

Hon. EDWARD M. GROUT, Comptroller:

SIR—The firm of John Wanamaker, under date of September 20, 1905, has made application to the Board of Estimate and Apportionment for the right to construct and maintain a tunnel under and across East Ninth street, between Broadway and Fourth avenue, in the Borough of Manhattan, to connect with the property controlled by the said firm on either side of the said street.

The location of the tunnel with all dimensions, etc., is shown upon a map signed by John Wanamaker, which accompanies the application.

The firm at the present time has connection by tunnel under Ninth street between the two properties, and by this application it proposes to enlarge its tunnel from 9 feet in width to 39 feet.

Since the original permit was given the Board of Estimate and Apportionment has adopted a basis of compensation for tunnel, pipe and track privileges, which is dependent upon the assessed valuation of the abutting property, and the annual charge made varies between 4 and 12 per cent. of such assessed valuation, dependent upon the use to be made of the privilege.

The usual charge for a pipe tunnel has been 4 per cent. of such assessed valuation, but the purpose for which this tunnel is proposed to be used is entirely different. It will not only form means of connection between the stores, but will also presumably be used in the same manner as the existing tunnel connection with the subway, wherein the space is utilized purely as an enlargement of store space, and where goods are exposed for sale.

Under these circumstances I am of the opinion that the Board should fix the annual charge at 12 per cent. of the assessed valuation of the property to be used for tunnel purposes. This would make an annual charge for the first term of five years of \$2,735, which sum should be increased in the usual manner 5 per cent. each five years, which would produce the following amounts:

For the second term of five years.....	\$2,875 00
For the third term of five years.....	3,020 00
For the fourth term of five years.....	3,170 00
For the fifth term of five years.....	3,325 00

I would recommend that the consent be given for a period not exceeding twenty-five years, but revocable by the Board of Estimate and Apportionment upon six months' notice in writing to the firm, and the sum of \$2,500 should be deposited with the Comptroller for the faithful performance of the terms and conditions of the consent.

Copies of the application and of the map were sent to the President of the Borough of Manhattan and to the Commissioner of Water Supply, Gas and Electricity, with a request that they have the application examined by the respective bureaus in their departments, and report to the Board if there were any objections to the granting of such permit, and suggest any special conditions which should be imposed in the form of resolution. The replies received are herewith attached and conditions have been inserted in the resolution proposed, covering the suggestions made, otherwise the resolution is in the usual form heretofore employed by the Board.

Respectfully,

HARRY P. NICHOLS, Principal Assistant Engineer.

The following was offered:

Resolved, That the consent of the Corporation of The City of New York be and the same is hereby given to the firm of John Wanamaker, the owner of certain land on the northerly and southerly sides of Ninth street, Borough of Manhattan, City of New York, to construct a tunnel under and across the roadway of said Ninth street, between Broadway and Fourth avenue, the westerly side of the westerly wall of said tunnel being distant 66 feet 3 inches from the easterly side of said Ninth street, in accordance with the map marked:

"Plan and sections of proposed tunnel under Ninth street, between Broadway and Fourth avenue, Borough of Manhattan," signed by John Wanamaker, and dated September 20, 1905;

—a copy of which is annexed hereto and made a part hereof, upon the following terms and conditions:

First—Said consent shall be for a term not exceeding twenty-five years from the granting of said consent; provided, however, that the same may be canceled and annulled upon six months' notice in writing to the firm of John Wanamaker, its successor or assigns, by the Board of Estimate and Apportionment, or its successor in authority, and thereupon all the rights of the said firm of John Wanamaker, its successor or assigns, in and upon said Ninth street shall cease and determine.

Second—The firm of John Wanamaker, its successor or assigns, shall pay into the Treasury of The City of New York the following sums of money:

During the first five years the annual sum of \$2,735.
During the second five years the annual sum of \$2,875.
During the third five years the annual sum of \$3,020.
During the fourth five years the annual sum of \$3,170.
During the fifth five years the annual sum of \$3,325.

Such sums shall be paid into the Treasury of The City of New York on November 1 in each year; provided, however, that the first payment shall be only that proportion of \$2,735 as the time between the approval of this consent and November 1 following shall bear to the whole year.

Third—Upon the revocation or termination by limitation of this consent the said firm of John Wanamaker, its successors or assigns, shall, at its cost, cause the tunnel to be removed and all that portion of Ninth street affected by this permission to be restored to its proper and original condition, if required so to do by The City of New York or its duly authorized representatives. If the tunnel to be constructed by the firm of John Wanamaker under this permit shall not be required to be removed, it is agreed that the said tunnel shall become the property of The City of New York.

Fourth—The consent hereby given shall not be assigned, either in whole or in part, or leased or sublet in any manner, nor shall title thereto, or right, interest, or property therein, pass to or vest in any other person or corporation whatsoever, either by the acts of the firm of John Wanamaker, its successor or assigns, or by operation of law, whether under the provisions of the statutes relating to the consolidation or merger of corporations or otherwise, without the consent of The City of New York, acting by

the Board of Estimate and Apportionment, or its successor in authority, evidenced by an instrument under seal, anything herein contained to the contrary thereof in anywise notwithstanding, and the granting, giving or waiving of any one or more of such consents shall not render unnecessary any subsequent consent or consents.

Fifth—The tunnel constructed under this consent shall be maintained for the convenience of the patrons of the said firm of John Wanamaker, and for the display of the goods, wares and merchandise of the said firm, and for no other purpose, and no compensation shall be charged by said firm to anyone desiring to use said tunnel.

Sixth—The tunnel shall be constructed in the latest improved manner, and solely upon the terms and conditions hereafter to be approved by the President of the Borough of Manhattan. The said firm of John Wanamaker shall submit a working plan of construction to the said President of the Borough of Manhattan, which shall include and show in detail the method of construction of said tunnel and the mode of protection of all subsurface constructions now in Ninth street.

Seventh—Said tunnel and all pipes and conduits laid therein shall be constructed, maintained and operated subject to the supervision and control of the proper authorities of The City of New York; and said tunnel shall be open at all times to the inspection of all the authorities who have jurisdiction in such matters under the Charter of The City of New York; and all fees now required to be paid to any Department of The City of New York shall be paid by said firm of John Wanamaker.

Eighth—Said firm of John Wanamaker, its successor or assigns, shall allow a right of way through any part of the tunnel constructed under the permission hereby granted to be used by The City of New York for any and all subsurface constructions now or hereafter placed by it in that portion of Ninth street occupied by said tunnel, and agrees to reimburse the City for any expense other than the ordinary which it may incur in any subsurface construction, including the laying of pipes, conduits, sewers or like structures, in any street or avenue by reason of the presence of the tunnel to be constructed under this permit.

Ninth—Said firm of John Wanamaker shall be liable for all damages to persons or property, including the street and subsurface structures therein, by reason of the construction, or operation, or maintenance of said tunnel, and it is a condition of this consent that The City of New York assumes no liability to either person or property on account of this consent.

Tenth—This consent is granted on the further and express condition that all laws or ordinances now in force, or which may hereafter be adopted, shall be strictly complied with.

Eleventh—Said firm of John Wanamaker, its successor or assigns, shall commence the construction of said tunnel under this consent and complete the same within ninety days from the day of the approval of this consent by the Mayor, otherwise this consent shall be forfeited forthwith, and without any proceedings, either at law or otherwise, for that purpose; provided, however, that such time may be extended by the Board of Estimate and Apportionment for a period not exceeding sixty days.

Twelfth—This consent is upon the express condition that the said firm of John Wanamaker, within thirty days after its approval by the Mayor and before anything is done in exercise of the rights conferred hereby, shall deposit with the Comptroller of The City of New York the sum of twenty-five hundred dollars (\$2,500), either in money or in securities to be approved by him, which fund shall be security for the performance of the terms and conditions of this consent, especially those which relate to the payment of the annual charge for the consent and the repairs of the street pavement. In case of default in the performance by said firm of John Wanamaker of such terms and conditions, The City of New York shall have the right to cause the work to be done and the materials to be furnished for the performance thereof after due notice, and shall collect the reasonable cost thereof from the said firm without legal proceedings, or after default in the payment of the annual charges shall collect the same with interest from such fund after ten days' notice in writing to the said firm of John Wanamaker.

In case of any drafts so made upon the security fund, the said firm of John Wanamaker shall, upon thirty days' notice in writing, pay to the Comptroller of The City of New York a sum of money sufficient to restore the said fund to the original amount of twenty-five hundred dollars (\$2,500); and in default thereof the consent hereby given may be canceled and annulled at the option of the Board of Estimate and Apportionment of The City of New York, acting on behalf of said City. No action or proceedings or rights under the provisions of this section shall affect any other legal rights, remedies or causes of action belonging to The City of New York.

Thirteenth—The drainage system from the property of the firm of John Wanamaker shall be so changed and rearranged as to drain into the sewer in Ninth street, west of the proposed tunnel, and such rearrangement shall be made at the sole cost and expense of the said firm.

Fourteenth—The firm of John Wanamaker shall build, when required so to do by the proper authorities, two shallow basins at the westerly corners of Fourth avenue and Ninth street, for the purpose of carrying the surplus water from said corner by proper drain pipes over the tunnel to the sewer on the westerly side of the same. Said work to be done under the supervision of the Borough President and at the sole cost and expense of the said firm.

Fifteenth—The firm of John Wanamaker shall notify the Comptroller upon the commencement of the work, and shall also inform said Comptroller when it has completed all the work authorized by this permit.

Sixteenth—This consent shall not become operative until said firm of John Wanamaker shall duly execute an instrument in writing wherein said firm of John Wanamaker shall promise, covenant and agree on its part to conform to and abide by and perform all the terms and conditions and requirements in this consent fixed and contained, and file the same in the office of the Comptroller of The City of New York within thirty days after the approval of this consent by the Mayor.

And said firm of John Wanamaker shall promise, covenant and agree in said instrument to hold The City of New York harmless from all damages to persons or property which may result from the construction, use, maintenance or operation of the tunnel hereby authorized.

Seventeenth—The compensation herein reserved shall commence from the date of the approval of this resolution by the Mayor.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn and The Bronx—14.

Atlantic Telephone Company.

In the matter of the application of the Atlantic Telephone Company for a franchise to lay, erect, construct and maintain its wires and appurtenances within the five boroughs of The City of New York for the purpose of carrying on a general telephone, telegraph and teleautograph business, and upon which report was presented to the Board at the meeting held October 13, 1905, from the Bureau of Franchises, and which was laid over until this date:

The Secretary presented the following:

CITY OF NEW YORK—DEPARTMENT OF FINANCE,
COMPTROLLER'S OFFICE,
October 24, 1905.

Hon. EDWARD M. GROUT, Comptroller:

SIR—At a meeting of the Board of Estimate and Apportionment, held October 13, 1905, a report from the Bureau of Franchises upon the application of the Atlantic Telephone Company for the right to operate within the five boroughs of The City of New York, was laid over for two weeks, in order that the members of the Board might familiarize themselves with the subject matter and determine whether such report should be considered the investigation of the Board and adopted as such.

In view of the fact that there are two other applications for franchises of identically similar nature from the Star Telephone Company and Commonwealth Telephone Company, I would suggest that the matter be held in abeyance until I am enabled to report upon these other applications, when it may be possible to hold a common hearing on all three.

Respectfully,

HARRY P. NICHOLS, Principal Assistant Engineer.

The Chair stated that without objection the matter would be laid over for two weeks. There being none, it was so ordered.

Union Railway Company of New York City.

The Comptroller presented the following report from the Bureau of Franchises on the status of the franchise granted to the Union Railway Company of New York City, by ordinance approved by the Mayor September 14, 1903:

CITY OF NEW YORK—DEPARTMENT OF FINANCE,
COMPTROLLER'S OFFICE,
October 4, 1905.

Hon. EDWARD M. GROUT, Comptroller:

SIR—I beg to call your attention to a violation on the part of the Union Railway Company of New York City of the terms of the franchise which was granted to the said company by ordinance approved by the Mayor September 14, 1903.

The extension to the route of the Union Company, authorized by this ordinance, is described as follows:

"Commencing at the intersection of Jerome and Sedgwick avenues at the terminus tracks of this company's Jerome avenue line; thence upon and along the westerly approach known as the Sedgwick avenue approach, formerly called Ogden avenue approach to Central or Macomb's Dam Bridge; thence southerly upon and along said bridge and the One Hundred and Fifty-fifth street viaduct and Macomb's Dam road to the terminus of the railway of the Eighth Avenue Railroad Company, between West One Hundred and Fifty-fourth and West One Hundred and Fifty-fifth streets. * * *

The ordinance contains the following provision:

"Section 5. The said railway company shall commence construction within ten days from the date when it has obtained complete legal authority to begin construction, including necessary permits from the City officials and departments, and shall complete construction within ninety days thereafter; otherwise this grant shall be forfeited. Provided, that such time may be extended under and for causes specified in section 99 of the Railroad Law, and that the City officials or departments who or which shall at the time of such construction have authority over the said bridge and viaduct, may extend said time for a period or periods not exceeding ninety days further, if reasonable, in their judgment, by reason of requirements as to the manner of construction imposed by the City officials."

The ordinance also contains the following:

"Section 2. Sixteenth—In case of any violation or breach or failure to comply with any of the provisions herein contained, this grant may be forfeited by a suit brought by the Corporation Counsel, on notice of ten days to the said railway company."

"Section 6. This grant is upon the express condition that the Union Railway Company, within thirty days after this ordinance takes effect, and before anything is done in exercise of the rights conferred thereby, shall deposit with the Comptroller of The City of New York the sum of two thousand five hundred dollars, either in money or in securities to be approved by him, which fund shall be security for the performance by such company of the terms and conditions of this grant, especially those which relate to the payment of the annual charge for the franchise, the repairs of the street pavement and the removal of snow and ice, and the quality of construction of the railroad, and in case of default in the performance by said company of such terms and conditions, The City of New York shall have the right to cause the work to be done and the materials to be furnished for the performance thereof, after due notice, and shall collect the reasonable cost thereof from the said fund without legal proceedings, or after default in the payment of the annual charges shall collect the same, with interest, from such fund, after ten days' notice in writing to the said company. Or in case of failure to keep the said terms and conditions of the grant relating to the roadway of cars, fenders and wheel guards and the heating of the cars, the said company shall pay a penalty of \$50 a day for each day of violation, and the further sum of \$10 a day for each car which shall not properly be heated or supplied with fenders and wheel guards in case of the violation of the provisions relating to those matters. In case any penalty shall be incurred by the railway company, or its successor, either under the provisions of this section or under the provisions of subdivision eighth of section 2 hereof, or in any other manner under the terms of the ordinance, such penalty, with interest thereon from the date of penalty, may be collected from the fund hereby provided, upon ten (10) days' notice in writing to the said railway company, or its successor. In case of any drafts so made upon this security fund the said company shall, upon thirty days' notice, in writing, pay to the Comptroller of The City of New York a sum of money sufficient to restore the said fund to the original amount of two thousand five hundred dollars, and in default thereof the grant hereby made may be canceled and annulled at the option of the Comptroller of The City of New York, acting on behalf of said City. No action or proceeding or rights under the provisions of this section shall affect any other legal rights, remedies or causes of action belonging to The City of New York."

"Section 8. This grant shall not become operative until said railway company shall duly execute, under its corporate seal, an instrument in writing wherein said company shall promise, covenant and agree on its part and behalf to conform to and abide by and perform all the terms and conditions and requirements in this ordinance fixed and contained, and file the same in the office of the Comptroller of The City of New York within thirty days after the signing of this ordinance by the Mayor."

Under date of September 17, 1903, the company filed with the Comptroller, pursuant to section 8, as above, an acceptance in writing, under seal, reading in part as follows:

"And said Union Railway Company of New York City hereby promises, covenants and agrees on its part and behalf, to pay the compensation and to conform to and abide by a performance of the conditions and requirements in said ordinance fixed and contained."

This instrument was approved as to form by the Corporation Counsel on September 24, 1903; thereafter, on October 14, 1903, the company deposited with the Comptroller the sum of \$2,500, pursuant to the provisions of section 6, as above.

The portion of the extensions authorized by the ordinance referred to herein and described at the beginning of this report has not been constructed, but the Union Company has constructed and put in operation all of the remaining portion of the route authorized, and has complied, according to the best information obtainable by me, with all the terms and conditions of the ordinance.

The Union Company received a permit from the Department of Bridges on October 29, 1903, to "lay tracks, erect poles and do other necessary work" on Macomb's Dam Bridge. On February 26, 1904, it received permission from the Bureau of Highways to construct its road "beginning at the west end of the swing span of the Central or Macomb's Dam Bridge, * * * and along the One Hundred and Fifty-fifth street viaduct and Macomb's Dam road to One Hundred and Fifty-fourth street." This latter permit was accepted by the company on February 27, 1904, and was filed, according to the rules of the Bureau of Highways on that day.

It is obvious, therefore, that the Union Company has failed to comply with the terms and conditions of this ordinance, and the City, acting through the Board of Estimate and Apportionment, is now free to take such action as it deems advisable, and for its best interests.

Such action may take the form either of rescinding so much of the ordinance which granted the Union Company permission to construct the portion which it has failed to complete, or penalizing the company in accordance with section 6, above quoted, in any sum up to \$2,500, as damages for the company's failure to construct its road, or the City, acting through the Board of Estimate and Apportionment, may not only penalize the company in a sum not to exceed \$2,500, as above stated, but also pass a resolution directing it to complete the construction of its road within, say, ninety (90) days from the date of the resolution.

The Union Railway Company of New York City was organized in 1892 by the consolidation of the Harlem Bridge, Morrisania and Fordham Railway Company, the Melrose and West Morrisania Railroad Company, and the North Third Avenue and Fleetwood Park Railroad Company; and has since that date obtained franchises in August and December, 1892, to construct various extensions.

The three companies above named had franchises which, at the time of merger, had not then been constructed, but which the Union Company, I am informed, still claims to be valid. The Union Company also claims as valid the unconstructed portions of the extensions authorized in 1892.

I shall shortly make a report to you more fully covering the subject, but I merely desire to call your attention at this time to the fact that the invariable attitude of the Union Company has been to ask for such rights as it deems profitable to construct at the time of application, and which it intends immediately to construct, and also to secure franchises for streets upon which it does not intend immediately to construct its railroad; intending to hold the franchises until such time as it deems profitable and advisable to construct the same.

This is a practice which cannot be too strongly condemned, as it is not only a difficult matter to secure a forfeiture of such franchises, but the existence of such franchises acts as a cloud upon the City's title to its streets; and companies which might endeavor to secure franchises are deterred therefrom by the existence of these unused franchises of the Union Company.

I would suggest, therefore, that the Union Railway Company be notified that it has been penalized in the sum of two thousand five hundred dollars; that such sum will be deducted from its security deposit, at the expiration of ten days, as provided in the ordinance.

I also suggest that the company be required to construct its road from the terminus of the railway of the Eighth Avenue Railroad Company to Macomb's Dam Bridge and One Hundred and Fifty-fifth Street Viaduct; for I believe that although the distance between these two points is small, yet the construction would, nevertheless, be a convenience to passengers arriving at One Hundred and Fifty-fifth street and Eighth avenue.

I submit herewith resolutions for adoption, calling upon the Union Railway Company of New York City to complete its road between the points last above named, within ninety-days (90) days after the adoption of the resolutions.

Respectfully,

HARRY P. NICHOLS, Principal Assistant Engineer.

The following was offered:

Whereas, The Union Railway Company of New York City received a franchise from The City of New York by ordinance approved by the Mayor on September 14, 1903, for the construction and operation of a street surface railroad in the Borough of Manhattan, New York City, subject to certain terms and conditions; and

Whereas, The route described in said ordinance is as follows:

"Commencing at the intersection of Jerome and Sedgwick avenues at the terminus tracks of this company's Jerome avenue line; thence upon and along the westerly approach known as the Sedgwick avenue approach, formerly called Ogden avenue approach, to Central or Macomb's Dam Bridge; thence southerly upon and along said bridge and the One Hundred and Fifty-fifth Street Viaduct and Macomb's Dam road to the terminus of the railway of the Eighth Avenue Railroad Company, between West One Hundred and Fifty-fourth and West One Hundred and Fifty-fifth streets"; and

Whereas, The period allowed for the construction of the railroad above described has expired; and

Whereas, No railroad has been constructed upon the above-described route; and

Whereas, The Union Railway Company of New York City has deposited with the Comptroller of The City of New York the sum of two thousand five hundred dollars, pursuant to the provisions of the ordinance extending the road of the Union Railway Company of New York City; now therefore be it

Resolved, That the Secretary of this Board be directed forthwith to serve upon the said company notice to show cause on or before November 24, 1905, why it should not forfeit to The City of New York said sum of two thousand five hundred dollars as damages for its failure to comply with the terms and conditions of the ordinance approved by the Mayor September 14, 1903; and be it further

Resolved, That the Union Railway Company of New York City be required to complete the construction of its street surface railroad over the route hereinbefore described, and that it be required to have the same completed and in operation within ninety (90) days from the date of the adoption of this resolution.

Which was adopted by the following vote:

Affirmative—The Mayor, the Comptroller, the President of the Board of Aldermen and the Presidents of the Boroughs of Manhattan, Brooklyn and The Bronx—14.

GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, and names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York, is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done.
