September 30, 1906. }

Hon. FRANCIS J. LANTRY, Commissioner:

Sir—I herewith most respectfully submit the quarterly report for this institution for the months of July, August and September, 1906, regarding the work done by prisoners, outside of that performed by mechanics in the completion of contracts in course of fulfillment.

The more able bodied of the men have been actively employed in excavating earth for the foundation of the new ice plant building, which material has been carted to the narrowest part of the island for filling in and enlarging the area; a large quantity of sand has also been dug and carted, to be used for building purposes.

The carpenters have laid 15,000 feet of yellow pine flooring, made 20 new benches 16 feet long, put in 29 new sashes and 66 new sash cords, put new beams in toilet room, made 6 new doors, repaired stoops and ventilators, repaired ice house doors and stalls in stable, besides other necessary repairs where required.

Made one 12-foot ladder, two wheelbarrows, six ironing boards, one clothes closet, three cutting tables, 12 feet long each.

Three barges laden with ice, two (2) with brick, two (2) with lumber, and one (1) with cement have been unloaded, and the material carted to the requisite points.

On the farm, the operations usual for the season have been carried on, and men have been constantly employed in digging and storing vegetables. Besides the usual burying of the dead in the City Cemetery, new trenches have been dug for current needs and also in readiness for the coming winter.

The roads throughout the island have been kept in good repair, and extensions made for the better accommodation of traffic.

The work of loading and unloading freight, carting supplies, tending horses and all the general service required has been rendered as usual by the prisoners.

The inmates less capable of work have been kept busy in the stone shed or in the trimming of lawns and grounds.

The female prisoners have been employed in the laundry (particulars of the work being shown among the accompanying tables) or in the cleaning out of the different buildings of the institution.

Appended are tables of statistics for quarter.

Respectfully,

DANIEL D. TOOHER, Warden.

New York City Reformatory,
Harts Island,
New York, October 1, 1906.

Hon. FRANCIS J. LANTRY, Commissioner of Correction:

Dear Sir—I respectfully submit herewith report of transactions connected with the New York City Reformatory of Misdemeanants, for third quarter, ending September 30, 1906.

On July 1 we had a total census of one hundred and sixty-one (161) inmates. There were twenty (20) commitments during the month of July and thirty-five (35) released on parole; during the month of August there were forty-three (43) commitments and thirty-six (36) released on parole; and during the month of September there were twenty-two (22) commitments and twenty-five (25) released on parole, leaving a total census September 30 of one hundred and fifty (150) inmates.

The spiritual welfare and scholastic education of the inmates was provided for same as during the previous quarter. In fact, their industrial work has been the same, except that we now have a school in tailoring, which was but recently established, and in this employment eight inmates have cut and made 146 nightshirts and repaired 150 pair of pants.

Inmates engaged in painting have painted entire outside of Warden Tooher's residence with two coats of white paint and two coats of white enameling; also all doors, windows, piazzas, roof and chimneys and three inside rooms; two rooms and windows in Keeper Bartell's house, and bathroom and tub in Keeper Barrett's house; Dormitory No. 4, entire exterior of building with one coat each of red metallic and Venetian red, also roof and all windows and three rooms and kitchen with three coats of paint each.

In Branch Workhouse Annex—Doctor's room, Teacher's room, three sleeping rooms, laboratory, two halls and three toilet rooms.

Inmates have also laid 2,940 square feet of cosmocrete sidewalks, 945 square feet of curb and gutters and 3,773 square feet of cement flooring in basement of workshop.

Individual motors were installed to machines during this quarter, and 561 pairs of men's shoes and 150 pairs of women's shoes have been made, and 291 pairs of women's uppers have been cut, sewed and prepared for lasting.

We have not accomplished much in the knitting industry, owing to the fact that most of the machines are out of order, but with what were in condition we have made 275 dozen pairs of socks and stockings.

Many of the inmates have been engaged in hauling sand, stone and cement; also in excavating for flooring in basement of workshop.

With these different branches of industry we have been able to keep all the inmates employed in some kind of work during this quarter, and the effect has been quite perceptible in their merit marks.

Respectfully submitted,

JOHN E. VAN DE CARR, Overseer.

PROPOSALS FOR BIDS AND ESTIMATES FOR THE CITY OF NEW YORK.

NOTICE TO CONTRACTORS.

GENERAL INSTRUCTIONS TO BIDDERS.

The person or persons making a bid or estimate for any services, work, materials or supplies for The City of New York, or for any of its departments, bureaus or offices, shall furnish the same in a sealed envelope, indorsed with the title of the supplies, materials, work or services for which the bid or estimate is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date, and hour named in the advertisement for the same, at which time and place the estimates received will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid or estimate shall contain the name and place of residence of the person making the same, and names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making an estimate for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money to the amount of five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
