PETITIONS AND COMMUNICATIONS.

No. 1787.

Invitation from the Commissioners of the Palisades Interstate Park for a Trip Through Palisades Interstate Park.

Commissioners of the Palisades Interstate Park, Office of the Secretary, 61 Broadway, New York City, July 16, 1917.

Hon. FRANK L. DOWLING, President of the Board of Aldermen, City Hall, New York: My Dear Mr. Dowling—May I ask you to invite the Board of Aldermen to be my guests on a week from next Sunday on a trip through the Palisades Interstate Park.

The Park has now reached a point of development where it is being used by a great many people from the City of New York, not only for picnic purposes under the Palisades proper, but also for camping at the north end of the Park. We have now over twenty camp centers in the north end of the Park where people from the City are camping. Each borough of the city has a center for groups of Boy Scouts and there are various other city activities represented up there. We have built roads and a number of lakes, restaurants and the like and I believe your Board should now see what we are doing and learn of our future plans and purposes.

If the Board decide to accept the invitation, I will ask you to send me a list of the names and addresses of such members as can do so and I will inform them as to arrangements for transportation, etc. It will be an all-day trip, leaving New York about nine or nine-thirty in the morning and getting back about six or six-thirty in the afternoon. We will go part of the way by train, part of the way by boat and part of the way by automobile.

Sincerely yours,

GEORGE W. PERKINS.

Which was accepted.

Honorable FRANK L. DOWLING, President of the Board of Aldermen, City of New York:

Dear Sir—Pursuant to the provisions of Section 383 of The Greater New York Charter and opinion of the Corporation Counsel, dated January 15, 1908, based thereon, I have designated James Butler, Assistant Commissioner of Public Works, to act as Member of the Board of Aldermen of the City of New York, in and for the President of the Borough of Queens, at a meeting of the Board of Aldermen, advertised to be held in the City Hall, Borough of Manhattan, New York City, on this date at 1.30 p. m.

Yours very truly, MAURICE E. CONNOLLY, President of the Borough of Queens.

Which was ordered on file.

The President laid before the Board the following communication from the Commissioner of Street Cleaning:

Commissioner of Street Cleaning—Request for Special Revenue Bonds, \$8,377.50, to Meet Increases in Wages of Mechanics.

Department of Street Cleaning, Municipal Building, New York City, July 11th, 1917.

Hon. FRANK L. DOWLING, President, Board of Aldermen, City of New York:

1. Machinists, from \$4.50 to \$5 per day, as recommended by the Board of Estimate and Apportionment on February 16th, 1917, and approved by the Board of Aldermen on February 27th, 1917.

The President laid before the Board the following communication from the Commissioner of Street Cleaning:

No. 1791.

Commissioner of Street Cleaning—Request for Authority to Purchase Six Special Crane Carriages and Other Equipment Without Public Letting.

Department of Street Cleaning of The City of New York, July 16, 1917.

Hon. FRANK L. DOWLING, President of the Board of Aldermen:

Sir—I hereby request permission, pursuant to section 419 of the Charter, to purchase in the public market, without public letting, six (6) special crane carriages and other equipment necessary for the installation of cranes which form part of the equipment of the two new motorized districts. The cost of this equipment is not to exceed the sum of eighteen thousand dollars (\$18,000).

The reason for this request is that the unusual condition of the steel and labor markets to-day make it necessary for the department to act more promptly than is possible under the usual contract conditions, if the various structures required in the motorized districts are to be made available for use when the equipment arrives. It is also made necessary by the fact that the decision of the Board of Estimate and Apportionment not to remove the cover from the West 77th Street Dump, makes it necessary to use a different type of carriage for the cranes. Yours respectfully,

J. T. FETHERSTON, Commissioner.

In connection with the foregoing communication, Alderman McCann offered the following resolution, and moved that the same be made a Special Order for the day:

Which was adopted.

Resolved, That, in pursuance of the provisions of section 419 of the Greater New York Charter, the Commissioner of Street Cleaning be and he is hereby authorized and empowered to purchase in the open market without public letting, six special crane carriages and other equipment necessary for the installation of cranes which form part of the equipment of the two new motorized districts, at a cost not to exceed eighteen thousand dollars (\$18,000).

The President put the question whether the Board would agree with said resolution.

Which was unanimously decided in the affirmative by the following vote:

Affirmative—Aldermen Bassett, Burns, Burden, Browne, Carroll, Cassidy, Cole, Collins, Colne, Cox, Crane, Cunningham, Curley, Daly, Delaney, Diemer, Dixon, Donnelly, Dostal, Dunn, Drescher, Eagan, Farley, Ferguson, Ferrand, Friedlander, Gaynor, Gilmore, Glennon, Goetz, Gutman, Hatch, Haubert, Heyman, Hilkemeier, Hogan, Kenneally, Kenney, McCann, McCourt, McGarry, McGillick, McKee, Martin, Molen, Moore, Mullen, O'Rourke, Palitz, Post, Quinn, Roberts, Robitzek, Ryan, Schmitz, Schweickert, Shields, Silberstein, Smith, Squiers, Stapleton, Stevenson, Tolk, Trau, Walsh, Wirth, Wise; the Vice-Chairman—68.

The President laid before the Board the following communication from the Commissioner of Parks, Manhattan and Richmond:

No. 1792.

Commissioner of Parks, Boroughs of Manhattan and Richmond—Request for Passage of an Ordinance Prohibiting Meetings, Pushcart Traffic, Etc., on Streets Adjoining Parks.

City of New York, Department of Parks, Boroughs of Manhattan and Richmond, Municipal Building, 18th Floor, July 10, 1917.

To the Honorable the Board of Aldermen, City Hall, New York:

Gentlemen—I have received from Mr. P. J. Scully, City Clerk, copy of resolution adopted on July 3rd, 1917, as follows:

"Resolved, That the Park Board be, and is hereby requested to provide regulation of land within its jurisdiction against use by the many who gather in the name of public assemblage, under the guise of which addresses are made for the sale of books, patent medicines and other wares, and too frequently for seditious purposes."

I desire to call to the attention of your Honorable Board sections 11 and 12 of article I, chapter 17 of the Code of Ordinances, as adopted by the Park Board, which read as follows:

"11. Public meetings. No person shall erect any structure, stand or platform, or hold any meeting, or perform any ceremony or make a speech, address or harangue in any park without a permit from the commissioner having jurisdiction.

"12. Permits for sales, exhibitions, etc. No person shall exhibit, sell, or offer for sale anything whatsoever, or take any photograph, or perform any personal service for hire in any park or parkway, or in any street, square or public place under the jurisdiction of the department of parks, except under a permit from the commissioner of parks of the borough in which such park or parkway, street, square, or public place is situated or otherwise than in accordance with the terms of such permit, provided, however, that the provisions of this section shall not apply to public hack stands maintained in streets adjacent to public parks, pursuant to section 99, article 8, chapter 14 of the Code of Ordinances."

This Department has no control over the objectionable meetings on streets adjoining parks, such as those opposite the Metropolitan Life tower, next to the lunch wagon in the plaza, immediately east of Madison Square Park. These meetings at which patent medicines and books on the White Slave Traffic, and anti-militaristic literature are sold, are entirely without the jurisdiction of this Department. The streets adjoining some of our best parks, such as Central Park, are thronged with peddlers, snap shot photographers, push cart peddlers, basket venders, who annoy the public and prevent the best use of the parks on which the City has expended so many thousands of dollars.

I would, therefore, suggest to your Honorable Board the passage of an ordinance to prohibit meetings, push cart traffic, basket vending, snap shot photography and boot blacking on streets adjoining parks. I am aware that your Board has restricted several residential streets against push carts, etc., and I believe it should restrict streets adjoining parks. Very truly yours,

CABOT WARD, Commissioner of Parks.

The President laid before the Board the following communication from the Board of Education:

No. 1793.

Board of Education—Certified Copy of Report and Resolution Approving Action of the Committee on Supplies in Requesting Permission to Purchase Coal Without Public Letting.

Department of Education, City of New York, Board of Education, Park Avenue and 59th Street, New York, July 13, 1917.

Hon. FRANK L. DOWLING, President, Board of Aldermen:

Dear Sir—I transmit herewith a certified copy of a report and resolution adopted by the Board of Education at a meeting held on July 11, 1917, approving the action of the Committee on Supplies in requesting permission from the Board of Aldermen to purchase such coal as may be necessary up to 100,000 tons, without public letting, in order that the schools may be kept open during the coming winter and spring.

Respectfully yours, A. E. PALMER, Secretary, Board of Education.

To the Board of Education:

The Committee on Supplies respectfully reports that at its meeting held on July 9, 1917, it approved the action of the Acting Chairman and the Superintendent of School Supplies in sending the following communication to the President of the Board of Aldermen, under date of July 6, 1917:

"Dear Sir:

"The Superintendent of School Supplies advertised for bids on coal for use in the Public Schools for the coming Winter and Spring. Bids were opened on July 5th.

"One bid was received for the Borough of Manhattan, and the prices exceed those paid for the previous contract by \$100,270.00.

"One bid was received for the Borough of Brooklyn, and the prices exceed those paid for the previous contract by \$179,718.30.

"No bids were received for the Boroughs of Bronx, Queens and Richmond. Investigation shows that the coal handlers in these Boroughs are not willing to submit a bid for a yearly contract. One coal man in the Borough of Bronx stated that he would be willing to furnish coal on open market orders.

"The Committee on Supplies has refrained in the past from asking for permission to purchase in the open market, and would not do so now, were it not that one million children may have to be kept from school unless coal is furnished.

"The custom that has prevailed in the Department of Education for years, has been to fill up the schools during the months of July to November. This is absolutely essential because of the wide territory to be covered, and the number of schools to be supplied.

"It is estimated that the coal which will be required for Winter and Spring will represent about 100,000 tons, and permission is asked that the Superintendent of School Supplies be permitted to purchase such quantity up to 100,000 tons, as may not be covered by contract after advertising.

"The Committee wishes to assure you that if it can possibly avoid availing itself of the privilege sought, it will do so, but because of the urgency of the occasion, and because your Committee on Public Letting and the Board of Aldermen may not be in session during the Summer months, you are respectfully asked to accord us this permission, so that the children will not be kept out of school during the coming Winter and Spring."

The Committee requests that its action as hereinabove stated be approved, and submits for adoption the following resolution:

Resolved, That the action of the Committee on Supplies in requesting the Board of Aldermen to grant permission to the Superintendent of School Supplies to purchase such coal as may be necessary, up to 100,000 tons, without public letting, in order that the schools may be kept open during the coming winter and spring, be, and the same is hereby approved and ratified.

A true copy of a report and resolution adopted by The Board of Aldermen on July 11, 1917.

A. E. PALMER, Secretary, Board of Education.

In connection with the foregoing communication, Alderman McCann offered the following resolution and moved that the same be made a Special Order for the day.

Which was adopted.

Resolved, That, in pursuance of the provisions of section 419 of the Greater New York Charter, the Superintendent of School Supplies, Board of Education, be and hereby is authorized and empowered to purchase such coal as may be necessary up to 100,000 tons, in the open market, without public letting, in order that the schools may be kept open during the coming winter and spring.

The President put the question whether the Board would agree with said resolution.

The President laid before the Board the following communication from the Commissioner of Public Charities:

No. 1794.

Department of Public Charities—Request for Permission to Purchase Groceries Without Public Letting.

Department of Public Charities of The City of New York, Municipal Building, Tenth Floor, July 16, 1917.

Re Groceries.

To the Honorable the Board of Aldermen, City Hall, New York:

Gentlemen—I hereby request permission to purchase in the open market, without public letting, groceries for the balance of the year amounting to approximately \$20,000.

This request is necessary owing to the fact that the available funds in the Food Code of this Department are not sufficient to permit us to enter into a contract for this class of supplies.

In view of these facts I would request that your Honorable Board take early and favorable action on same. Very truly yours,

HENRY C. WRIGHT, Acting Commissioner.

In connection with the foregoing communication, Alderman McCann, offered the following resolution, and moved that the same be made a Special Order for the day.

Which was adopted.

Resolved, That, in pursuance of the provisions of section 419 of the Greater New York Charter, the Commissioner of Public Charities be and he is hereby authorized and empowered to purchase groceries for the remainder of the year 1917 in the open market, without public letting, to an amount approximating twenty thousand dollars (\$20,000).

The President put the question whether the Board would agree with said resolution.

Which was unanimously decided in the affirmative by the following vote:

Affirmative—Aldermen Bassett, Burns, Burden, Browne, Carroll, Cassidy, Cole, Collins, Colne, Cox, Crane, Cunningham, Curley, Daly, Delaney, Diemer, Dixon, Donnelly, Dostal, Dunn, Drescher, Eagan, Farley, Ferguson, Ferrand, Friedlander, Gaynor, Gilmore, Glennon, Goetz, Gutman, Hatch, Haubert, Heyman, Hilkemeier, Hogan, Kenneally, Kenney, McCann, McCourt, McGarry, McGillick, McKee, Martin, Molen, Moore, Mullen, O'Rourke, Palitz, Post, Quinn, Roberts, Robitzek, Ryan,

Resolution Relative to the Independence of Bohemia.

By Alderman Burden—
Whereas, President Wilson declared that by entering war "we shall fight for the things which we have always carried nearest our hearts—for democracy, for the right of those who submit to authority to have a voice in their own governments, for the rights and liberties of small nations, for a universal dominion of right by such a concert of free peoples as shall bring peace and safety to all nations and make the world itself at last free"; and

Whereas, the man who is now our President, writing about the Bohemians many years ago, stated that "no lapse of time, no defeat of hopes, seems sufficient to reconcile the Czechs of Bohemia to incorporation with Austria. Pride of race and memories of a notable and distinguished history keep them always at odds with the Germans within their gates and with the government set over their heads"; and

Whereas, the Powers with which our country is now allied in its fight against dynasties ruling by divine grace have declared the liberation of Czechs (Bohemians) and Slovaks from foreign domination to be one of the conditions of future peace; therefore, be it

Resolved, by the Board of Aldermen of the City of New York, that Bohemia ought to be of right free and independent; be it further

Resolved, that this Board appeal to the President and to the Congress of the United States to insist on Bohemian independence as an essential part of any just and democratic reconstruction at the end of the war; and be it further

Resolved, that the City Clerk (Clerk of this Board) transmit copies of these resolutions to the President of the United States, to the Vice-President as presiding officer of the Senate, to the Speaker of the House of Representatives, to the Chairmen of the Committees on Foreign Affairs of both Houses of Congress, to the United States Senators from the State of New York, and to the representatives in Congress for the City of New York

No. 1801.

An Ordinance to Repeal Subdivision 5 of Section 92 of Article 9 of Chapter 23 of the Code of Ordinances, Relating to Streets, and Particularly to "Restrictions, Borough of Richmond."

By the President—

AN ORDINANCE to repeal subdivision 5 of section 92 of article 9 of chapter 23 of the Code of Ordinances, relating to streets, and particularly to "restrictions, Borough of Richmond."

Be it Ordained by the Board of Aldermen of The City of New York, as follows:

Section 1. Subdivision 5 of section 92 of article 9 of chapter 23 of the Code of Ordinances, relating to streets, and particularly to "restrictions, Borough of Richmond," adopted June 26, 1917, and effective July 10, 1917, be and the same is hereby repealed.

Sec. 2. This ordinance shall take effect immediately.

In connection with the foregoing ordinance, the President submitted the following opinion of the Corporation Counsel:

City of New York, Law Department, Office of the Corporation Counsel, New York, July 10, 1917.

Hon. FRANK L. DOWLING, Acting Mayor:

Dear Sir—I am advised that the Board of Aldermen has passed Ordinance No. 1711, entitled:

"AN ORDINANCE to amend section 92 of article 9 of chapter 23 of the Code of Ordinances, relating to streets, and particularly to 'restrictions, Borough of Richmond.'"

I find that this ordinance would give the President of the Borough of Richmond exclusive control over the issuance of permits for laying gas and steam mains, taking all such powers away from the Commissioner of Water Supply, Gas and Electricity.

I am of opinion that this may not be done because of the provisions of subdivision 5 of section 469 of the Charter, which reads in part as follows:

"The commissioner of water supply, gas and electricity shall have jurisdiction, charge and control:

"5. Of the making and performance of contracts when duly authorized in accord with the provisions of this act, and for the execution of the same in the matter of furnishing the city, or any part thereof, with gas, electricity or any other illuminant or of steam; of the selecting, locating and removing and changing of lights for the use of the city; the inspecting and testing of gas and electricity used for light, heating and power purposes, electric meters, electric wires and of all lights furnished to said city; and of the use and transmission of gas, electricity, pneumatic power and steam for all purposes, in, upon, across, over and under all streets, roads, avenues, parks, public places and public buildings; of the construction of electric mains, conductors and subways in any such streets, roads, avenues, parks and public places, and the granting of the permission to open streets, when approved by the borough president, and to open the same for the purpose of carrying on therein the business of transmitting, conducting, using and selling electricity, steam or for the service of pneumatic tubes. This section shall not be construed to empower the said commissioner to grant permission to open or use the streets except by persons or corporations otherwise duly authorized to carry on business of the character above specified." (As amended by L. 1916, ch. 601, sec. 1.)"

This section has been twice construed by the Courts; the contentions of this Department were sustained, and the co-ordinate jurisdiction of the Commissioner of Water Supply, Gas and Electricity, and the Borough Presidents was upheld. The first of these cases is *The City of New York vs. the Woodhaven Gas Light Company*, 96 Misc., 52, affirmed 163 N. Y. Supp., 112; no opinion. At Special Term, an opinion was written, in which the sections of the Charter referring to the Borough President and the Commissioner of Water Supply, Gas and Electricity were examined, and a co-ordinate jurisdiction sustained.

The Court, at page 53 in this case, said:

"The duties and powers of the borough president and of the commissioner in question are clear and separate. Neither can restrict nor circumscribe the other. The borough president has the power to issue permits to open the streets. Greater New York Charter, sections 383, 391; *Rapid Transit Subway Con. Co. vs. Coler*, 121 App Div., 250, 253. The commissioner has the power to regulate and

control the laying of gas mains, etc. Greater New York Charter, section 469; *Ghee vs. Northern Union Gas Co.*, 158 N. Y., 510, 522, 535.

"In order to lay its mains, the defendant must get the permission of the borough president to open the street, and it must also get the permission of the commissioner as to the location and manner of laying the pipes. Either permission without the other serves no purpose. Both must be secured before the work can legally be done. *People ex rel Q. B. G. & El. Co. vs. Connolly*, 89 Misc. Rep., 555; *Ghee vs. Northern Union Gas Co.*, 158 N. Y., 510, 525. The orderly way would seem to be for the gas company first to get the commissioner's permission and then the permission of the borough president. The permit from the latter alone is ineffective, and the mains cannot be laid under it without the permission of the commissioner. Nor can either the borough president or the commissioner prescribe the conditions upon which the other may grant his permission.

"The commissioner, having the power to regulate and control the laying of gas mains, can properly impose any reasonable condition, and inspection is one. *Schumacher vs. City of New York*, 166 N. Y., 103, 108, 109; *Rapid Transit Subway Con. Co. vs. Coler*, 121 App. Div., 250, 255. The requirement that the gas company pay the reasonable cost of the inspection is a reasonable condition to impose."

These views were affirmed in the Appellate Division, Second Department.

The second case, involving the same questions, was *City of New York vs. New York and Richmond Gas Company*, Law Journal, May 8, 1917. The Court again affirmed the position of the Law Department as to the dual control of the Commissioner of Water Supply, Gas and Electricity and the Borough President.

In view of the section in question, and the two opinions construing it, I am of the opinion that the Board of Aldermen may not limit the power of the Commissioner of Water Supply, Gas and Electricity in the way contemplated by this ordinance.

Respectfully yours, LOUIS H. HAHLO, Acting Corporation Counsel.

In further connection with the foregoing ordinance, Alderman O'Rourke submitted the following memorandum:

Memorandum, Re Repeal of Subdivision 5 of Section 92, Article 9, Chapter 23, of the Ordinances of the City of New York.

The ordinance in question was legally adopted by the Board of Aldermen, and not having been disapproved by the Mayor within ten days after having been presented and certified to him, took effect as though approved.

Section 40 of the Charter, among other things states:

"If he does not return it with such approval within the time above specified, it shall take effect as if he had approved it."

Powers of Board.

Section 42 of the Charter provides that except as otherwise provided in the Act, all the powers and duties which were conferred or charged on the common council, or the mayor, aldermen and commonalty of the City of New York, or the Board of Aldermen thereof, or upon the common council of the City of Brooklyn or of Long Island City, or upon any board, body or officer of any of the municipal and public corporations or parts thereof, consolidated with The City of New York, and all the powers and duties of the municipal assembly of said City, shall be exercised and performed by the Board of Aldermen of the City of New York, as at present constituted.

Section 43 of the Charter provides, among other things, that the Board of Aldermen shall have power to make and establish ordinances as they may deem necessary and proper for the good government, order and protection of persons and property, and for the protection of the public health, peace and prosperity of said city and its inhabitants.

Section 44 of the Charter provides, among other things, that no enumeration of powers in this act shall be held to limit the legislative power of the Board of Aldermen except as in this act specifically provided and the Board of Aldermen in addition to all enumerated powers may exercise all of the powers vested in The City of New York by this act, or otherwise, by proper ordinances, rules, regulations and by-laws not inconsistent with the provisions of this act, or with the constitution or laws of the United States or of this state. And further provides that such ordinances, rules, &c., may be applicable to the whole of said City or applicable only to specified portions thereof.

The term "Laws" as used in this Section means statutes adopted by congress or the state legislature, and not to common or court made law.

Section 50, in enumerating the powers of the Board of Aldermen to regulate, provides as follows: "To regulate the opening of street surfaces for purposes authorized by law."

Section 388 of the Charter, among other things, provides that all the powers and duties of the commissioner of highways of the City of New York, of within the County of Richmond in any way relating to the regulating, construction and repair of streets and roads, the relaying of pavements removed for any cause, are hereby vested in The City of New York, and as a matter of administration devolved upon the Borough Presidents.

Section 391 of the Charter provides that "No removal of the pavement or disturbance of the surface of any street for the purpose * * * of laying down gas and water pipes, steam pipes and electric wires, * * * shall be made until a permit is first had from the president of the borough where the work is to be done; * * *. But nothing herein contained shall be deemed to prohibit said borough president from demanding, before issuing said permit, and as a condition thereof, the deposit of such sum of money or other security as, in his judgment, may be necessary to pay the cost of properly relaying the pavement so removed, together with the expense of the inspection thereof and the expenses incidental to the issuing of said permit and the making of refunds therefrom."

The only authority which the Commissioner of Water Supply, Gas and Electricity has in the matter, is contained in Section 469 of the Charter, as follows:

"The commissioner of water supply, gas and electricity shall have jurisdiction, charge and control:

"5. * * * of the inspecting and testing of gas and electricity used for light, heating and power purposes, electric meters, electric wires and of all lights furnished to said city; and of the use and transmission of gas, electricity, pneumatic power and steam for all purposes in, upon, across, over and under all streets, roads, avenues, parks, public places and public buildings;"

—and of the granting, when approved by the Borough President, of permission to construct electric mains, conduits, conductors and subways, and to open streets for such purpose.

No other power or authority of the Commissioner of Water Supply, Gas and Electricity over the opening of streets is in the Charter. His permit is for the opening of streets for the laying of electric mains &c., only.

For the laying of gas and water mains, the only permit required is that of the Borough President.

The ordinance in question is designed to prevent a dual inspection and a dual charge therefor. Under the Charter and the ordinances, the Borough President must issue a permit for the opening of the streets, and the cost of the inspection of such work must be done under his supervision, by Civil Service Inspectors.

The Commissioner of Water Supply assumed the right to appoint another person, not from any list, but capriciously without regard to fitness, to do the same work done by the Borough President's qualified, examined and trained inspector.

Section 90 of Article 9, Chapter 23 of the Ordinances, provides for the obtaining of a permit from the Borough President. The following Section provides for the payment of the cost of inspection and restoration of pavement.

And Section 92, as applicable to the Borough of Richmond, was amended by the addition of subdivision 5, to eradicate the evil of dual inspection and dual cost. No valid argument exists in favor of the contention of the Commissioner. It is a matter of home rule, which the Board owes to the Borough of Richmond.

The ordinance in question is clearly constitutional and legal. Within the City of New York and upon subjects over which it has authority, the enactments of the Board of Aldermen have the force of acts of the State Legislature. That the courts have decided that the Commissioner of Water Supply has the authority to appoint inspectors in the Borough of Queens, where there is no local ordinance, does not preclude this Board of Aldermen from passing an ordinance and legislating on the subject.

It is elementary, that if there is any power in a local community, and such power is not expressly vested in any particular officer or board, the local legislative

body is the recipient of such power. And until the Board of Aldermen of this City limit the power of the Commissioner of Water Supply, it may be that he has the right to appoint as many inspectors as he chooses, and designate such salaries as he sees fit.

There is no doubt of the power of the Board to enact the ordinance in question. The ordinance in question is not unconstitutional. If it is, then it is for the Courts to say so. If it is unconstitutional, it has no force or effect.

"An unconstitutional law is absolutely void, and therefore no law at all. It is the same as if the law had never been passed."

Cleveland v. City of Watertown, 165 N. Y. Supplement, 308.

This was a case in the Supreme Court, decided in February, 1917.

That laws are often passed to obviate the effect of a court decision is well known, and the best known instance is one which is right at home. The Court of Appeals in the case of the Third Avenue Railroad Company against the Public Service Commission, decided that the Railroad Company could incorporate with the same amount of capital that it had before it went into the hands of a receiver. The next session of the State Legislature enacted a statute amending the Public Service Commission's Law, vesting the Commission with the power to pass upon and fix the capitalization of all public service corporations, thus nullifying the decision of the Court of Appeals, as a precedent, but not affecting the Third Avenue Railroad Company, and no lawyer of any standing would claim that the legislature did not have the right to pass such a law.

There is no provision of the constitution which the ordinance offends against, and if it is so claimed, the chapter and verse should be stated. That a court has made a decision as between litigants, cannot prevent the Board of Aldermen or the State Legislature from passing laws which destroy the effect of the decision. The Court only applies the law as it finds it. That the law making power would be precluded from thereafter legislating because of a court decision, is childish and puerile.

As new conditions arise, the Board of Aldermen, keeping up to date, has made new enactments. Five years ago, it was not lawful for storage warehousemen to store food products for any length of time; now the Board of Aldermen has provided for an extreme of ten months for all foods except butter, which may be kept for twelve months. The keeping of garages, and the enactment of lengthy regulations as to the storage of motor cars and gasoline affords another instance in which the Board provided new ordinances where none existed before. Many other instances might be cited where the Board has made ordinances regulating certain industries, and has made provision for the use of the streets, not theretofore known. And because of some court decision, it could not be claimed that the power of the board was gone. Early in the use of the automobile, a court decided that it was a vehicle and entitled to all of the privileges any other vehicle upon the public highways had. But this Board of Aldermen has made ordinances regulating the use of the streets by automobiles, regulating their rate of speed, and providing other conditions which other vehicles are not required to observe, and no one has had the temerity to question the legality of such ordinances.

The ordinances in question is a valid exercise of the power of the Board, is demanded by the local representatives of the Borough of Richmond, is a home rule measure, is just and should not be repealed.

The President then put the question whether the Board would agree with said ordinance.

Which was decided in the affirmative by the following vote:

Affirmative—Aldermen Burden, Browne, Carroll, Cassidy, Collins, Colne, Grane, Cunningham, Curley, Delaney, Diemer, Dixon, Donnelly, Dostal, Dunn, Drescher, Eagan, Farley, Ferguson, Ferrand, Friedlander, Gaynor, Gilmore, Glennon, Goetz, Gutman, Hatch, Haubert, Heyman, Hilkemeier, Hogan, Kenneally, Kenney, McCann, McCourt, McGillick, McKee, Martin, Moore, Mullen, Palitz, Post, Robitzek, Ryan, Schmitz, Schweickert, Silberstein, Smith, Stevenson, Tolk, Trau, Wise; President Connolly, by James Butler, Assistant Commissioner of Public Works; President Mathewson, by John G. Borgstede, Commissioner of Public Works; President Marks; the Vice-Chairman—56.

Negative—Aldermen O'Rourke and Walsh—2.

Whereas, The City of New York is justly indebted to the members thereof for the services they are rendering in this the Nation's greatest crisis; and

Report of the Committee on Departments—

No. 1436.

Report of the Committee on Departments, in Favor of Adopting Resolution to Name the Rivington Street Public Bath in Honor of Dr. Simon Baruch.

The Committee on Departments, to which was referred on April 3, 1917 (Minutes, page 3), the annexed communication from the President, Borough of Manhattan, in relation to naming the Rivington Street Public Bath in honor of Dr. Simon Baruch, respectfully

REPORTS:

That this request is in token of a compliment to one Dr. Simon Baruch, a pioneer in the movement for free public baths, and the one to make the first plea for such institutions in this country.

It therefore recommends the adoption of the accompanying resolution.

Resolved, That the Rivington Street Public Bath, in the Borough of Manhattan, be and the same is hereby named "The Dr. Simon Baruch Public Bath," and shall hereafter be known as such.

FRANK T. DIXON, Chairman; WILLIAM J. DALY, WILLIAM K. WALSH, LOUIS F. CARDANI, EDWARD W. COX, GEORGE HILKEMEIER, Committee on Departments.

City of New York, Borough of Manhattan, Municipal Building, March 29, 1917.

Hon. FRANK L. DOWLING, President, Board of Aldermen, City Hall, Manhattan:

Dear President Dowling: Enclosed permit me to hand you a little memorandum regarding the work of Dr. Simon Baruch, who is known throughout the country as the "Father of Public Baths in New York." He is a great authority on the curative power of water. Since 1889 he has been actively working for the development of public baths, and, through his individual efforts, the Rivington Street Public Bath was established.

My purpose in writing to you is to ask your co-operation in naming this Rivington Street Bath "The Dr. Simon Baruch Public Bath," or in some way connecting his name with the institution.

Dr. Baruch is quite an old man and I would like to see this honor given to him before it is too late.

If you personally feel that it is not a proper thing to do, kindly withhold action, as I would not like him to be subjected to any slight.

With very best wishes, cordially yours,

MARCUS M. MARKS, President, Borough of Manhattan.

The Rivington Street Bath, Constructed Through the Effort and Work of Dr. Simon Baruch.

(Excerpt from the Report on Public Baths Made by Mrs. J. Wells Wentworth, August 7th, 1911.)

The first plea for the public rain or shower baths in this country was made by Dr. Simon Baruch of New York in an editorial of the Times and Register, a medical journal, dated August 24th, 1889. Dr. Baruch had investigated the operation of the public baths of Germany, and, upon his return, earnestly urged the adoption of this type of bath. He was at that time Chairman of the Committee of Hygiene of the New York County Medical Society and he made a lengthy report upon the subject to the Society, in which he described this type of bath and set forth fully the advantages to be gained by its adoption here.

Like all progressive ideas, this one that aimed to supply a great civic need required a battle royal to bring it to fruition. But the Doctor had the courage of his conviction and a large hearted foresight as well, so, like the good soldier that he is, he went valiantly to work.

Dr. Baruch's idea was called "a dream," "a chimera," "a utopian plan." "The people won't bathe," said one of New York's Mayors. The fallacy of this view has been amply proved, and, not only that, but an incident that occurred shortly after the establishment of the Tenement House Department shows that if proper means are not provided, those nearest at hand will be utilized. A complaint against the quality of the water supply in a certain tenement house caused the Department to send an inspector to investigate. It was a warm, sunny day, and, as the inspector climbed to the roof to inspect the water tank, shouts of revelry and glee greeted his ears. He arrived just in time to see an impish youngster, clothed in nature's garb, dive head first into the tank to the great delight of several others, who eagerly awaited their turn at the improvised swimming pool.

The history of this modern crusader's fight for the free public baths began in 1889, when, through newspaper editorials, addresses before Medical and Scientific Societies, and wherever he could get a hearing, the Doctor drove home with unanswerable logic the necessity for this great reform, until he gradually created a public sentiment in its favor. He said:

"It is the duty of the municipality to prevent immorality. I believe that money spent for public baths, where people can go and get clean, will do more towards raising the standard of health and morality than a much larger sum spent in any other way."

"The chief advances of modern hygiene have been made by the recognition of cleanliness as the essence of true sanitation."

"How to secure the needy classes, among whom diseases arising from and encouraged by lack of cleanliness are most rife, access to baths which will not repel them by expensiveness, loss of time and lack of conveniences, is a subject that has been practically investigated and demonstrated."

"The baths should be located in the very heart of the overcrowded districts."

"The people especially who literally 'eat their bread by the sweat of their brow' should find, without delay or trouble, in their own vicinity, a comfortable place where they may rid themselves of the filth accumulated upon their person by their daily labor."

In 1896 a canvass of the then Fifteenth Assembly District of New York (Hell's Kitchen) revealed an average of one bathtub to every 79 families, while in some blocks the proportion was as low as one bath tub to each 440.3 families.

But, notwithstanding this fact, Dr. Baruch's tireless energy and practical experience and knowledge as scientific physician, could not convince anyone of the three Mayors to whom he appealed for the boon of the free public bath for working people of its utility. But he persisted. For nearly ten years he labored incessantly, devoting time, money, energies of persuasion, threats, prayers and the sarcasm and power of his pen towards the accomplishment of the great idea. At last, in 1895, an Act was passed by the State Legislature, providing that "All Cities of the first and second classes shall establish and maintain such number of free public baths as the Local Board of Health may deem to be necessary. Each bath shall be kept open not less than fourteen hours for each day and both hot and cold water shall be provided."

Dr. Baruch ascribes to the Hon. Goodwin Brown of Albany the honor of introducing this bill and getting it passed. This Act remained without effect. Mayor Strong, however, in accordance with the promises made during the Reform Campaign by his party, had another Act passed (chapter 122 of the Laws of 1896), which included Comfort Stations. It became a Law March 25th, 1896.

Mayor Strong's Committee on Public Baths reported adversely to the erection of Public Baths through a misunderstanding of paragraph 4, erroneously assuming that this Act demanded the use of the public parks for bath purposes. This paragraph authorizes and empowers the Commissioner of Public Works to "locate any or all of the structures for the promotion of public comfort in any public park of the City of New York, but makes no reference whatever to public baths. (Pp. 42 and 210, Report of the Mayor's Committee on Public Baths and Public Comfort Stations, transmitted to the Legislature, April 9th, 1897.)

Dr. Baruch, finding all his past work in danger of being nullified by this report, went before the Board of Health, consisting of President Wilson, Commissioner Fowler and their Attorney, and convinced them that this was an erroneous construction of paragraph 4. Then, at this instance, the New York Academy of Medicine passed a resolution to appoint a committee to wait upon the Mayor and urge him that he execute the mandatory Bath Act.

Dr. Baruch, as Chairman of the Committee, together with his colleagues, Health Commissioner Fowler and Doctor Van Sandvoord, called upon the Mayor on the following day and obtained his promise to build the Rivington Street Bath. Steps were taken immediately towards the building of the bath, but it required four years more of urging and constant vigilance on the part of the Doctor to bring it to completion. Finally, in 1901, four years after, this, the first free public shower bath in New York City, was opened to the public. If anyone doubts the utility or popularity of these baths, let him go down there some evening and see the crowds of men and women patiently waiting their turn to get in and note the disappointment of those who are "too late." Two thousand five hundred or 3,000 is not an unusual attendance on a busy day. Today we have 13 large and commodious bath houses in full operation.

Report of the Committee on Finance, in Favor of Filing Resolution for Special Revenue Bonds, \$7,000, to Reimburse Persons Officially Connected Who Suffered Losses by a Fire on Blackwell's Island.

The Committee on Finance, to which was referred on March 20, 1917 (Minutes, page 759), the annexed resolution for special revenue bonds, \$7,000, to reimburse persons officially connected who suffered losses by a fire on Blackwell's Island, respectfully

REPORTS:

That, having examined the subject, the Committee believes this is a claim against the City and should be made to the Comptroller for settlement.

It therefore recommends the resolution be placed on file.

Resolved, That, in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue special revenue bonds to the amount of seven thousand dollars (\$7,000), the proceeds whereof to be used by the Commissioner of Correction for the purpose of reimbursing clergymen, physicians and others officially connected with the Department of Correction for personal losses suffered by the fire at the Workhouse on Blackwell's Island on March 17, 1917.

No. 1397—Resolution to Provide for an Issue of Special Revenue Bonds to the Amount of \$7,000 for the purpose of Reimbursing Clergymen, Physicians and Others Who Suffered Losses by a Fire on Blackwell's Island.

Hon. FRANCIS P. KENNEY, Chairman, Finance Committee, Board of Aldermen:

Sir—The Bureau of Contract Supervision to which this request has been referred, reports thereon as follows:

On March 17, 1917, the main portion of the centre wing of the Workhouse on Blackwell's Island was badly damaged by fire, the amount of the personal losses claimed to have been sustained by the several residents is shown by a list compiled by the Warden, sworn to by the individuals, and transmitted to the Commissioner of Correction, as follows:

1. Frank W. Fox (Warden) and wife	\$4,116 50
2. Nora J. Cronin (Warden's Housekeeper)	420 00
3. Thomas J. McManus (Deputy Warden) and wife	2,888 00
4. Rev. L. P. F. Vauthier (Protestant Chaplain)	1,082 50
5. Rev. J. H. Sorrentino (Catholic Chaplain)	1,188 00
6. Margaret A. Slattery (Head Matron)	194 00
7. Dr. T. F. Joyce (Resident Physician)	62 10
8. Dr. R. J. Gillespie (Medical Staff)	63 50
9. Dr. F. E. Donnelly (Medical Staff)	43 50
10. Winifred P. Whelpley (Housekeeper)	63 00
11. Mary B. Harris (Superintendent of Women)	168 00

\$10,289 10

A communication dated March 28, 1917, from Warden Fox to the Deputy Commissioner of Correction stated in part:

"In regard to my own loss, I would say that my insurance was only \$2,000. Heretofore I had carried \$5,000, but the Company refused to renew it, and I had to try three other companies before I could get any of them to insure us at all. I have settled with the Insurance Company for \$1,400, which could be deducted from the present list herewith enclosed.

"The list under the name of Nora J. Cronin, is that of my housekeeper, who is paid by me. If the City would not allow her list, I certainly feel that it would be my duty to replace them."

No inventory can be found which was compiled previous to the fire, and I have been unable to find a precedent showing that special revenue bonds were issued to

cover a similar loss in any other institution under the jurisdiction of The City of New York.

I recommend that the request be denied and the items thereof entered as claims for investigation by the Division of Law and Adjustment of the Department of Finance, to determine the extent of the loss and the amount which should be reimbursed. After such determination has been arrived at, the Comptroller is empowered under the Charter to issue special revenue bonds to pay such claims.

Respectfully,

TILDEN ADAMSON, Director.

REPORTS:

That having examined the subject and acting on two items contained therein, the Committee believes no emergency exists as to the other matters, and recommends the request be placed on file.

City of New York, Board of Estimate and Apportionment, Office of the Secretary, Municipal Building, April 16, 1917.

To the Honorable the Board of Aldermen:

Gentlemen—I transmit herewith certified copy of resolution adopted by the Board of Estimate and Apportionment on April 13, 1917, requesting that the Board of Aldermen recommend the issue of special revenue bonds in the amounts and for the purposes specified in said resolution, for various departments.

I also transmit copy of report of the Committee on Corporate Stock Budget relative thereto.

Respectfully,

JOSEPH HAAG, Secretary.

The City of New York, Board of Estimate and Apportionment, Municipal Building, Bureau of Contract Supervision, April 11, 1917.

To the Board of Estimate and Apportionment:

Gentlemen—Among the requests for authorization of corporate stock now pending before the Committee on Corporate Stock Budget, are the following:

Armory Board.

- (1) January 19, 1917—For the completion of fire exits and alterations to theatre at the 71st Regiment Armory..... \$36,000 00
- (2) January 17, 1917—For equipment for the Outpatient Department, Gouverneur Hospital 17,500 00
- (3) February 6, 1917—For new equipment and for removing and relocating present equipment, Kings County Hospital Laundry..... 30,000 00
- (4) February 9, 1917—For alterations and modifications to the Kings County Hospital Power House 136,594 00
- (5) March 20, 1917—For the development of site at First Avenue and 68th street for use as a playground..... 36,000 00

- (6) April 12, 1917—To construct a bridge across Gouverneur Slip connecting Gouverneur Hospital with the new Outpatient Department
- The Bureau of Contract Supervision, to which these requests were referred, reports thereon as follows:

"(1) Fire Prevention Work, 71st Regiment Armory—

"This armory is used about forty-five times each year for reviews, social functions and public school games, at which time it is filled to capacity.

"Pursuant to orders of the Fire Department, temporary exits have been provided. It is necessary to make these permanent, to provide additional exits from the second balconies and to enlarge the present exits. All the necessary work, it is estimated, can be done for \$19,000.

"There is available approximately \$13,000 in two corporate stock funds for the construction and for the alteration of this building. It is necessary that \$6,000 additional be provided for this purpose.

"(2) Equipment, Outpatient Department, Gouverneur Hospital—

"The building is practically completed and the necessary equipment must be provided if it is to be operated. The sum requested includes two items as follows: Engineer's equipment, \$4,000; clothing and bedding, \$5,000.

"The Bureau of Contract Supervision has recommended to the Board of Trustees that the boiler plant in this building be not operated, but that a tunnel be constructed to the main hospital and that power service be obtained from the plant in the latter building. Although no action on this suggestion has come to the knowledge of the Bureau, it is fair to assume that, as it is very economical in effect it will be adopted. There will therefore be no need of furnishing equipment for an engineer. If the building is conducted for the purpose intended in its authorization, there will be no need of furnishing bedding.

"Owing to increases in costs about \$10,000 will be necessary for the purposes of the request.

"(3) Equipment of Kings County Hospital Laundry—

"In 1913, \$75,000 was authorized for the construction and equipment of a laundry at Kings County Hospital. It was originally proposed to construct a building that would be adequate only for the reasonable needs of the staff work at this hospital, but after an investigation it was decided that a new general laundry could be provided for but a small additional sum, \$5,000, and plans were accordingly prepared for a laundry, designed not only to accommodate Kings County Hospital, including both staff and general, but of sufficient size to do the entire laundry work for all the hospitals under the jurisdiction of the Department of Public Charities in Brooklyn.

"A contract for the erection of a laundry building, for the purposes as outlined above, was approved by your Board, contracted for and is now nearing completion.

"In order to equip this building for the purposes intended an additional appropriation of \$30,000 is requested. The increased cost for completing this building is due primarily to the advance in prices in labor, material and equipment, since it was first projected.

"It will be necessary to purchase some new equipment and provide for the moving and relocating of old equipment from the existing laundries, which can be used in the new building.

The estimated cost has been examined by items by the Bureau and the entire amount requested found to be necessary.

"The new central laundry will effect the discontinuance of the laundries, now part of the following institutions: Greenpoint Hospital, Cumberland Street Hospital, Coney Island Hospital, and will be adequate to take care of the needs of the proposed Bradford Street Hospital, East New York Clinic.

"(4) Alterations to Kings County Hospital Power House.

"The proposed expenditure of \$136,594 includes the installation of additional boilers and the construction of an extension to the boiler house; the installation of a new electric generating unit; construction of a service tunnel to Kingston Avenue Hospital; the installation of a three-wire electric feeder system and steam and hot water systems between the two institutions. The object was the discontinuance of the operation of the present power plant at Kingston Avenue Hospital and to provide cheaper electric current of a proper voltage for these institutions.

"The changes are desirable both from an operating and economic standpoint.

"Owing to the extent of the work involved and the high cost of labor and materials, especially in mechanical and electrical work, the time is inopportune for making all the improvements herein contemplated and for which funds have been requested. In place thereof, this Bureau recommends that the following equipment only be provided for at this time:

"1st—For a complete three-wire feeder distribution system between the buildings of the Kings County Hospital and the Kingston Avenue Hospital.

"2nd—For the modification of the switchboard in the power house of the Kings County Hospital to properly connect the feeders and distribute the load.

"3rd—For the removal of one 50-K.W., 125-volt generating unit and foundation.

"4th—For the installation of one new 200-K.W., 250-volt generator unit, and two balancer sets.

"5th—For the substitution of two 125-K.W., 250-volt generators in place of the present 125-volt generators.

"This installation should be made as soon as possible, not only on account of the saving which will be effected in the cost of current at both institutions, which will approximate \$2,500 per annum, but also because of the following facts:

"The present generating plant at the Kings County Hospital produces current at 110 volts, and owing to the new extensions to this institution it is found that it is no longer economical to produce current at that voltage, and further that the increased demands for light and power will be such that it will be necessary to increase the size of the plant, by installing 250-volt generators and balancer sets. Further, the new electric machinery in the new central laundry, at the Kings County Hospital, which is now nearing completion, was designed to operate on 250 volts, direct current, in anticipation that this new generating equipment would be installed and ready to supply current at that voltage for power purposes when required. Also the new electric equipment in the Kingston Avenue Hospital, which is also nearing completion, was designed for 250 volts on the same supposition.

"The estimated cost of the recommended work is \$25,000. There is at present a balance approximating \$9,800 in the corporate stock fund entitled "C. C. H.—26D, Additional Electric Lighting Facilities at Kings County Hospital," which is properly chargeable to this work, leaving a balance of approximately \$15,000 to be provided.

"Improvement of Site for Playground, 68th Street—

"This site is a plot 200 feet by 300 feet, located on First avenue, between 67th and 68th streets.

"The adjoining neighborhoods are densely populated and three schools are nearby, and although a small playground is located at 59th street and another at 77th street, there appears to be need for this improvement.

"It is proposed to grade the entire site, construct walks and fences, surface playground sections, provide mould and sod for grass borders, construct water supply and drainage, a comfort station and shelters and to plant trees.

"This work is estimated to cost at least \$36,000."

"6th Bridge Across Gouverneur Slip—

"The construction of this bridge is necessary in order to permit the transfer of convalescent patients from the hospital proper to a proposed roof ward on the Outpatient Building, for the immediate transfer of cases between the buildings and to permit better access for Doctors and Nurses during inclement weather. The Bridge will cost, approximately, \$7,000."

The Committee has considered the above requests and believes that the sums recommended as necessary should be provided for the purposes stated, but from the proceeds of special revenue bonds instead of corporate stock.

We therefore recommend the adoption of the attached resolution requesting the Board of Aldermen to ask this Board for authorizations of special revenue bonds in the amounts and for the purposes recommended above, and directing the Secretary to present such requests, when made by the Board of Aldermen, to this Board for action, without further report. Respectfully,

WM. A. PRENDERGAST, Comptroller; FRANK L. DOWLING, President, Board of Aldermen; LEWIS H. POUNDS, President, Borough of Brooklyn; SAMUEL J. BURDEN, President, Borough of The Bronx, Corporate Stock Budget Committee.

Resolved, That the Board of Aldermen is hereby requested to recommend to the Board of Estimate and Apportionment authorizations of special revenue bonds for the following purposes:

For Fire Prevention Work at the 71st Regiment Armory, under the jurisdiction of the Armory Board.....	\$6,000 00
For Equipment for the Out-patient Department Gouverneur Hospital, under the jurisdiction of the Board of Trustees of Bellevue and Allied Hospitals	10,000 00

Re Issuance of Special Revenue Bonds in the Sum of \$26,000.

To the Honorable the Board of Aldermen, City Hall, New York:

Gentlemen—Request is hereby made for issuance of special revenue bond funds in the sum of \$26,000, to meet an anticipated deficiency in Code 1989, "Donations to Spanish War Veterans."

Early in April your Honorable Board authorized the issuance of special revenue bond funds in the sum of \$20,000, to be used in making donations to Spanish War Veterans. It was our original intention to request the sum of \$46,000, but this amount was reduced on the advice that the Commissioner of Accounts would conduct an investigation into the matter with a view of seeing if any reductions could be made in the donations given to beneficiaries. I do not think this investigation has been completed as yet.

The balance in the account at the present time will be sufficient to last until about the middle of July. This request is being made at this time in order that funds may be provided before our present account is exhausted. Very sincerely yours,

HENRY C. WRIGHT, Acting Commissioner.

City of New York, Board of Estimate and Apportionment, Municipal Building, Bureau of Personal Service, July 13, 1917.

Hon. FRANCIS P. KENNEY, Chairman, Committee on Finance, Board of Aldermen:

Dear Sir—Replying to your communication of July 12, 1917, regarding the request of the President of the Borough of Manhattan for revenue bonds to the amount of \$1,270 for cleaning and attendance at the 1st District City Magistrate's Court, 108 White St., Manhattan, I inform you as follows:

Under the terms of the lease of these premises the City is responsible for janitorial services, etc., in connection therewith. A bid of 28 cents was presented in writing by the parties who clean the remainder of this building to do the work.

Inasmuch as it appears that the work is necessary and that it can be done by the City at less cost than by contract, I recommend that the funds, in the sum of \$1,270, be provided as requested. Yours very truly,

GEORGE TIRRELL, Director.

No. 1737.

Report of the Committee on Finance, in Favor of Adopting Resolution Requesting Board of Education to Include in the Budget for 1918 Provision for Establishment and Maintenance of Camps for Anemic Children.

The Committee on Finance, to which was referred on June 26, 1917 (Minutes, page 629), the annexed resolution requesting Board of Education to include in the Budget for 1918 provision for establishment and maintenance of camps for anemic children, respectfully

REPORTS:

The Committee having heard Alderman Palitz, the introducer of this request, Dr. John Brannan of Bellevue and Allied Hospitals; Dr. Crampton of the Board of Education, and Mr. Brown of the Association for Improving the Conditions of the Poor, who unanimously favored the idea as being one of the best projects ever presented for the benefit of children.

It, therefore, recommends the adoption of the accompanying resolution.

Whereas, there are 2,125 pupils at present in classes for anaemic children in our public schools; and

Whereas, the Bureau of Child Hygiene has stated that accommodations for 3,000 more anemic children should be included in the Budget for 1918; and

Whereas, according to the same authority there are many more anaemic children in our public schools whose educational progress and physical welfare are seriously handicapped by this pathological condition, thus entailing increase of present expenditures for educational purposes, decrease of educational efficiency, and holding forth the certain result of future economic loss to the city and the State; and

Whereas, there are many thousand acres of land belonging to the State Reserve which would afford most excellent camping sites where these anemic children could be placed for open air instruction and physical upbuilding during the summer months under proper supervision.

Resolved, that the Board of Aldermen requests the Board of Education to include in the School Budget for 1918 an amount sufficient to equip adequately camps to be erected on sites to be determined hereafter for the housing, maintenance, and instruction of anemic children of our public schools during the summer months, and to afford suitable recreational facilities for the same.

No. 1756.

Report of the Committee on Finance, in Favor of Adopting Resolution Authorizing an Issue of Special Revenue Bonds, \$40,000, to Meet Anticipated Deficits in the Appropriations for 1917, Bellevue and Allied Hospitals.

The Committee on Finance, to which was referred on July 3, 1917 (Minutes, page 19), the annexed request of the Board of Trustees of Bellevue and Allied Hospitals, for Special Revenue Bonds, \$56,650, to meet anticipated deficits in the appropriations for 1917, respectfully

It therefore recommends the adoption of the accompanying resolution.

Resolved, That, in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue Special Revenue Bonds to the amount of forty thousand dollars (\$40,000), the proceeds whereof to be used by the Board of Trustees of Bellevue and Allied Hospitals for the purpose of meeting anticipated deficits in the appropriations for 1917.

Bellevue and Allied Hospitals, Office of the Board of Trustees, First Avenue and 26th Street, New York, July 2, 1917.

Hon. FRANK DOWLING, President, Board of Aldermen, City Hall, New York:

Sir—The Trustees of Bellevue and Allied Hospitals under date of May 26th requested the Board of Aldermen to authorize an issue of special revenue bonds in the sum of \$360,750 to meet the anticipated deficits in the appropriations for 1917. As the Finance Committee of the Board of Aldermen has informed us that owing to the lack of funds over which the Board of Aldermen has jurisdiction, the Comptroller has decided that any supplemental requests for appropriations caused by the present emergency due to the war will be filled by issues of revenue bonds under the provisions of sub-division 7 of section 188 of the charter, application was thereupon made for funds to the Comptroller. Under date of June 23d, we were informed that as far as the following items are concerned application should be made for an issue of special revenue bonds under sub-division 8 of section 188 of the charter and that if the Board of Aldermen is not disposed to authorize any further issue of revenue bonds recourse must be had to transfers from other accounts:

Code		
2075	Laundry, cleaning and disinfecting supplies.....	\$7,000 00
2076	Refrigerating supplies	1,200 00
2077	Botanical and agricultural supplies	450 00
2078	Motor vehicle supplies	1,000 00

2082	Medical and surgical equipment	12,000 00
2084	Wearing apparel	10,000 00
		<hr/> \$46,650 00

As the department has no funds from which transfers can be made, we urgently request your Board for favorable consideration of the foregoing request.

The Trustees also apply for an issue of special revenue bonds in the sum of \$10,000 to meet the deficits in the appropriation code No. 2085, General Plant Equipment, the appropriation for which is insufficient to meet the requirements of the department for the year 1917. Respectfully,

J. K. PAULDING, Secretary, Board of Trustees.

City of New York, Board of Estimate and Apportionment, Municipal Building, Bureau of Contract Supervision, July 9, 1917.

No. 1756, Bellevue and Allied Hospitals—Request for issue of special revenue bonds, \$360,750, to meet anticipated deficits in appropriations for 1917, and \$10,000 to meet deficit in appropriation for General Plant Equipment.

Hon. FRANCIS P. KENNEY, Chairman, Finance Committee, Board of Aldermen:

Sir—As requested in your communication of recent date, I have caused an examination to be made into the additional appropriations which are asked for by Bellevue and Allied Hospitals. Owing to the short time available, the examination was necessarily not very exhaustive.

The facts relating to each of the items of the request are as follows:

Code 2075, Laundry, Cleaning and Disinfecting Supplies, \$7,000.

Of the amount provided, \$9,900, in the 1917 budget for these supplies there appears to be no balance available. The need for an additional appropriation is due to the increased cost of all articles used for cleaning purposes. White castle soap, which could be purchased a year ago at 9½ cents per pound, now costs 14½ cents, and brown, chip and window cleaning soap, which were bought at 4.6 cents, 6½ cents and 7.7 cents per pound, respectively, now cost 7.9 cents, 12.35 cents and 8 cents per pound. To meet the requirements of these articles alone an additional sum of \$3,300 is required. Cleaning and disinfecting powders have also increased in cost, particularly those requiring a considerable amount of chemicals, for example, blueing, which cost a year ago \$2.41 a pound, now costs \$9.10 a pound. An additional sum of \$6,800 appears necessary if present prices prevail for the balance of the year.

Code 2076, Refrigerating Supplies, \$1,200.

There is at present a balance of about \$2,000 in this fund, which should be sufficient to meet all requirements until the late fall. There appears to be no immediate necessity for additional funds for these supplies.

Code 2077, Botanical and Agricultural Supplies, \$450.00.

There was provided for these supplies in the 1917 budget the sum of \$1,500, all of which has been expended with \$100 in outstanding obligations, for which there are at present no available funds. The sum of \$300 appears to be necessary to liquidate these obligations and to permit the purchase of bulbs and other plants necessary for fall planting.

Code 2078, Motor Vehicle Supplies, \$1,000.

The allowance of \$3,700 for these supplies, which was about the same amount as requested, appears to be insufficient to the extent of about \$1,000. The need for more funds appears to be due almost entirely to the increased cost of gasoline, the budget allowance being at the rate of 20 cents per gallon, whereas the average cost for the first 4½ months was 22.24 cents per gallon. The estimate for the balance of the year is on a basis of 23 cents per gallon.

Code 2079, General Plant Supplies, \$5,000.

Of the amount provided in the 1917 budget for these supplies, \$7,150, which was about the same sum as requested, there is at present a balance of \$2,850. The need in this fund appears to be due partly to an increased census of the various institutions of this department and to the increased cost of these supplies, which range from 10 to 50 per cent. over a year ago. Instances of increased cost are reflected in the price of sheet muslin, which cost 14 cents a yard a year ago, now costs 21 cents; toilet paper, which was purchased at \$5.30 per 100 rolls, now costs \$6.25, and toilet brushes, which formerly cost 39.5 cents per dozen, now cost 46¼ cents. The increased cost of these three items alone, not including the many others purchased from this appropriation, amounts to about \$2,500. There appears to be a necessity of an additional appropriation of about \$5,000.

Code 2081, Household Equipment, \$10,000.

The sum provided in the budget, \$25,000, for this code has been entirely expended with considerable liabilities outstanding, for which there are no available funds. The depletion of this fund is partly attributed to equipping of additional wards, for which no funds were provided, estimated at \$4,000. A list of over fifty items of furniture, rugs, crockery and other equipment estimated at \$8,215, has been submitted. It is difficult to determine the urgency of all these items in such a short time. Some additional funds are necessary, but to what extent it is difficult to determine at this time.

Code 2082, Medical and Surgical Equipment, \$12,000.

The sum of \$13,658, provided for in this code, has been expended and there are in addition outstanding obligations amounting to about \$500. A list of over 600

items of needed equipment has been submitted, but it is difficult to determine the necessity of all these items in such a short time. There is no question but additional funds are necessary, but to what extent, it cannot be determined at this time.

Code 2084, *Wearing Apparel*, \$10,000.

There was provided in the 1917 budget for wearing apparel the sum of \$33,900, all of which has been expended. The deficit in this appropriation appears to be due to the increased number of insane persons committed to the State Institutions, and also to the increased costs of these outfits. Under the state law, it is necessary to give to each such person committed to the state institutions a new outfit. These outfits for males have increased \$2.78 in cost and for females 86 cents in cost, or a total of about \$5,100. The census for male insane for 1916 was 1,429 and female 1,400. From January 1, 1917, to June 30, 1917, the census for male was 956 and female 811. From this it would appear that the total for 1917 will be considerably in excess of 1916. On a basis of 371 additional insane males, an additional \$5,400 would be necessary, not taking into consideration what is necessary for other patients or for some articles required for the help of the institutions. The sum of \$10,000 appears necessary at this time.

Code 2085, *General Plant Equipment*, \$10,000.

The \$11,100 provided for these supplies has been entirely expended, with additional outstanding obligations of approximately \$1,000. The deficit in this fund is due largely to the increased cost of nearly all the items purchased, such as brushes, brooms, pails, and sundry utensils. The Fire Department recently condemned a considerable amount of hose now used in these hospitals and of the amount now requested approximately \$3,000 will be required for the purchase of new hose. There appears a necessity at this time for a considerable sum, but, like all equipment items, it is difficult in the short time available to determine even an approximate amount.

In all the appropriations already referred to the deficiency can be attributed to the increased census over last year. From the period from January 1 to June 30, 1916, the average census was 2,078 and for the same period in 1917 the average census was 2,281, or an increase of over ten per cent. Respectfully,

TILDEN ADAMSON, Director.

REPORTS:

That, having examined the subject, and basing its conclusions on the annexed report of the Bureau of Contract Supervision, the Committee recommends the adoption of the accompanying resolution.

Resolved, That, in pursuance of the provisions of subdivision 8 of section 188 of the Greater New York Charter, the Board of Estimate and Apportionment be and it is hereby requested to authorize the Comptroller to issue special revenue bonds to the amount of forty-one thousand nine hundred dollars (\$41,900), the proceeds whereof to be used by the Fire Commissioner for the purpose of meeting deficits in various accounts; all obligations contracted for hereunder to be incurred on or before December 31, 1917.

Fire Department of The City of New York, July 2, 1917.

Hon. FRANK L. DOWLING, President, Board of Aldermen:

Sir—It is requested that your Board authorize an issue of revenue bonds in the sum of \$76,747.54, which sum will be required in addition to the regular appropriation, for other than personal services, to conduct the department during the current year.

The average increase in cost on practically all kinds of supplies is conservatively estimated at 30%, which means that \$145,500, in addition to the budget allowance, will be required to purchase the quantity of supplies which the Board of Estimate and Apportionment fixed as the requirement of this department for the year 1917. By skimping to the utmost and purchasing less than these fixed quantities, the amounts asked for, in addition to the \$22,000 which has been allowed for coal, will be made to meet requirements.

The number and titles of accounts in the allowance for 1917, encumbered to June 6th, unencumbered balances and additional amounts required are as follows:

Total Request

\$76,747 54

As a further evidence of the rigid economy practiced and the effort being made to effect savings, I might add that since April 17th nine new fire companies have been organized.

The initial cost of equipment, such as bedding, beds, desks, chairs, tables, etc., and maintenance supplies, including cleaning material, coal, gasoline, brooms, brushes, oils, greases, etc., will average \$1,500 for each company, an additional expense of \$13,500 not provided for in the budget which this department had to meet.

It is urged, therefore, that prompt and favorable action be taken on this request. Respectfully, CLARENCE H. FAY, Deputy and Acting Fire Commissioner.

City of New York, Board of Estimate and Apportionment, Municipal Building, July 9, 1917.

No. 1758—Fire Department—Requesting Issue of Special Revenue Bonds, \$76,747.54, for Other than Personal Service, to Conduct the Department During Current Year.

Hon. FRANCIS P. KENNEY, Chairman, Finance Committee, Board of Aldermen: Sir—On July 2, 1917, the Acting Fire Commissioner addressed a communication to your Board requesting the authorization of special revenue bonds in the sum of \$76,747.54 to meet anticipated deficits in the following accounts:

1674 Food Supplies	\$1,112 85
1675 Forage and Veterinary Supplies	29,540 30
1677 Gasoline	5,250 00
1678 Office Supplies	1,000 00
1679 Laundry, Cleaning and Disinfecting Supplies.....	1,082 68
1681 General Plant Supplies	4,164 02

1683 Office Equipment	537 50
1686 Household Equipment	9,560 19
1689 General Plant Equipment	8,000 00
1691 Materials	14,000 00
1699 General Plant Service	1,000 00
1700 Contingencies	1,500 00
	<hr/>
	\$76,747 54

At your request I have caused an examination to be made into this request, and report thereon as follows:

Code No. 1674, Food Supplies.

This allowance is for the purpose of providing for the reimbursement of expenditures for suppers for Fire Marshal and Assistant Fire Marshals, which were necessitated by overtime work in connection with the detection of crime. Based upon the experience of 1916 and 1917, the amount requested is necessary. However, there is available for transfer to this Code from Code No. 1695 the amount of \$300. An allowance in the amount of \$800 is sufficient.

Code No. 1675, Forage and Veterinary Supplies.

The deficit in this account is entirely due to the increased prices of forage over what was allowed in the Budget. An examination of the Budget allowance, the amount delivered or contracted for to date, the requirements during the remainder of the year on the average price of 1917, less the unencumbered balance in this account, discloses the necessity of an allowance in the amount of \$29,400.

Code No. 1677, Gasoline.

The Budget allowance for gasoline for 1917 was based upon the necessity for the purchase of 175,000 gallons at the rate of 20 cents per gallon. Due to increased prices the average price for the year 1917 will be 23 cents per gallon, which necessitates an additional allowance in the amount requested, namely, \$5,250.

Code No. 1678, Office Supplies.

The expenditure from this account, as disclosed by the fund ledgers in the Department of Finance, up to date have been \$2,582.20, leaving an unencumbered balance of \$2,402.80, which appear to be sufficient for the requirements of the department during the remainder of the year. No additional allowance appears to be necessary.

Code No. 1679, Laundry, Cleaning and Disinfecting Supplies.

This account is depleted owing to the increase in prices over what was allowed at the time of the preparation of the Budget. To enable the purchase of necessary requirements an allowance in the amount of \$1,050 is necessary, which will provide for the purchase of those items which were allowed in the Budget.

Code No. 1681, General Plant Supplies.

The unencumbered balance in this account is \$1,511.05. A contract for kerosene and lubricating oils in the amount of \$3,037.50 has been forwarded to the Department of Finance for temporary registration under Code No. 1677, which, however, is a proper charge against this code. To provide for the proper registration of this contract, and for other requirements of the department during the remainder of the year, an allowance in the amount of \$4,000 is necessary. The depletion of this account is almost entirely due to increased prices.

Code No. 1683, Office Equipment.

The request for special revenue bonds for this account is to enable the liquidation of a bill of John Wanamaker in the amount of \$519 for desks, tables and chairs, which are now in use by the Bureau of Fire Prevention. The unencumbered balance in this account is \$74.06, which is insufficient for the purpose. Inasmuch as this large obligation was contracted for where no appropriation was available, it is suggested that the additional allowance be denied and that the department forward the bill to the Comptroller for settlement under section 246 of the Charter.

Code No. 1686, Household Equipment.

The depletion of this account is partly due to increased prices, and to the organization of nine new fire companies. A contract for chairs, toweling, etc., which is about to be registered, leaves an unencumbered balance in this account of only \$567.08. An open market order in the amount of \$770 for brooms is awaiting issuance pending the transfer of available funds. The requirements of the department based upon a detailed analysis, which was made at the time of the preparation of the budget, discloses the necessity of an allowance in the amount requested. However, there is now pending a request for transfer of funds to this account in the amount of \$770, which reduces the amount necessary to be met by an issuance of revenue bonds to \$8,800.

Code No. 1689, General Plant Equipment.

The unencumbered balance in this account is \$777.03, the depletion of the account being due to increased prices. There is now pending a transfer of funds in the amount of \$925 to this account. Based upon a detailed analysis of the requirements of the department which was made at the time of the preparation of the budget allowance, an allowance in the amount of \$7,000 appears to be sufficient.

Code No. 1691, Materials.

The unencumbered balance in this account, out of a total appropriation of \$51,957 is now only \$5,750.68. Owing to increased prices, an allowance in the amount requested is necessary.

Code No. 1699, General Plant Service.

The unencumbered balance in this account is \$500.46. The main reasons for the depletion of this account are the increased cost of the removal of manure from \$480, the amount allowed in the budget, to \$900, the contract price, and to laundrying costs on account of the detention of employees, making it necessary to provide sleeping accommodations. An allowance in the amount requested appears to be necessary.

Code No. 1700, Contingencies.

Further investigation is to be made for this item of the request, which is for the expenditure of funds for special services rendered to the Fire Marshal in connection with the detection of crime of firebugs, and for other minor incidental expenses. It is intended that the needs will then be provided by transfer.

Summarizing, allowance as follows, appears to be sufficient for the requirements of the department for the remainder of the year:

Code No. 1689 General Plant Equipment	\$7,000 00
Code No. 1674 Food Supplies	800 00
Code No. 1675 Forage and Veterinary Supplies	29,400 00
Code No. 1677 Gasoline	5,250 00
Code No. 1679 Laundry, Cleaning and Disinfecting Supplies	1,050 00
Code No. 1681 General Plant Supplies	4,000 00
Code No. 1686 Household Equipment	8,800 00
Code No. 1691 Materials	14,000 00
Code No. 1699 General Plant Service	1,000 00

Reports of the Committee on Buildings—

No. 1504(b)

Report of the Committee on Buildings, in Favor of Adopting a Substitute Ordinance to Amend the Code of Ordinances Relating to Requirements for Means of Egress in Buildings of a Public Character.

The Committee on Buildings, to which was referred on April 17, 1917 (Minutes, page 131), the annexed ordinance to amend article 23 of chapter 5 of the Code of Ordinances, relating to requirements for means of egress in buildings of a public character, respectfully

REPORTS:

Your Committee is of the opinion that the Fire Commissioner should direct the arrangement of the halls, doors, stairways, seats, passageways and aisles in buildings of a public character in order to facilitate egress in case of fire or accident, but it does not believe that the ordinance should be made applicable only to existing buildings nor that the Superintendent of Buildings should be eliminated and the Fire Commissioner substituted, as proposed in section 492. This Committee recommends the adoption of the following substitute ordinance in order to effect the purposes above referred to. The substitute ordinance meets the requirements of and is acceptable to the Fire Commissioner.

Real Estate Board of New York, 217 Broadway, New York, July 3, 1917.

Hon. FRANK L. DOWLING, President, Board of Aldermen, City Hall, New York City: Dear Sir—This is to advise you that the Real Estate Board of New York has considered ordinance Int. 1659 (Ord. 289) on which there was a hearing recently before the Committee on General Welfare.

Real estate owners generally have for a long while approved the principles embodied in this ordinance, and the Board approves the ordinance. It would relieve a condition under which removals are frequently made by tenants who fail to pay their rent and cannot be traced. In some cases, they not only move without paying rent but also take with them valuable fixtures and even pier glasses from apartments.

The Board hopes you will give the ordinance your approval.

Very truly yours, RICHARD O. CHITTICK, Executive Secretary.

Report of the Committee on General Welfare, in Favor of Adopting an Ordinance to Amend the Code of Ordinances Relating to Bonding Inspectors of Weights and Measures.

The Committee on General Welfare, to which was referred on July 3, 1917 (Minutes, page 19), the annexed communication from the Comptroller recommending an amendment to the Code of Ordinances relative to the bonding of Inspectors of Weights and Measures, respectfully

REPORTS:

That the Committee, having heard Commissioner Hartigan, of the Bureau of Weights and Measures in support of this ordinance, who stated that at the present time there are about forty-one inspectors bonded at a fixed charge to the city of \$5 each per annum, and that the conditions of his office do not warrant the bonding

of Inspectors, as they do not handle any funds. He suggested that the only man to be bonded should be the Chief Clerk, as he handles all the funds of the office, and that a security bond of \$1,000 would be sufficient to cover his services. No one appearing in opposition and as this matter was presented to the Board by the Comptroller of the City of New York, who is responsible for the finances of the City, the Committee recommends the adoption of the accompanying substitute ordinance.

SUBSTITUTE.

Be it Ordained by the Board of Aldermen of The City of New York, as follows:

Article 14, Section 270, is hereby amended so as to eliminate therefrom the requirement that each inspector of weights and measures is to execute a bond to the City in the sum of two thousand dollars for the faithful performance of his duty.

City of New York, William A. Prendergast, Comptroller, Department of Finance, June 22, 1917.

Hon. FRANK L. DOWLING, President, Board of Aldermen:

Sir—Section 270 of the Code of Ordinances provides that a bond for \$2,000 shall be required from each Inspector of Weights and Measures.

Because of changed conditions this bond is no longer necessary and the Commissioner of the Mayor's Bureau of Weights and Measures agrees with this office that the cost of the annual premiums thereon should be saved.

In order to carry out this purpose, I would request that you cause a resolution to be submitted to the Board of Aldermen amending Section 270 of the Code of Ordinances so as to eliminate the requirement of a bond for each Inspector of Weights and Measures leaving as it is now the provision as to the bond of the Commissioner.

I enclose a proposed form of resolution for adoption. Yours very truly,
E. D. FISHER, Deputy Comptroller.

"It shall be unlawful for any person, firm or corporation procuring the removal of any of the properties herein described, or receiving the same, to give to the owner or operator of any vehicle employed to remove such property a fictitious name or refuse to give the correct name of the owner or the party in possession of said property, or wilfully deceive him as to the same. Any public cartman upon conviction by the Commissioner of Licenses for a violation of this ordinance shall be punished by suspension or the revocation of his license or the imposition of a fine not to exceed \$10 for each offense.

"Sec. 2. This ordinance shall take effect immediately.

"Note—New matter in italics."

By section 51 of the Charter, the Board of Aldermen is vested with power "to provide for the licensing and otherwise regulating the business * * * public cartmen, * * *"

While one or more of the provisions of this proposed ordinance may possibly be open to legal objection, yet on the whole, in view of certain decisions of our courts, I am of the opinion that the ordinance would be held to be within the powers of the Board of Aldermen.

Respectfully yours,
LOUIS H. HAHLO, Acting Corporation Counsel.

REPORTS:

Report of the Committee on Public Letting, in Favor of Filing Request of the President, Borough of Manhattan, for Amendment to Resolution of Authority to Enter Into Contract, Without Public Letting, for the Construction of the Foundations for Park Ave. Viaduct by Increasing the Amount from \$48,000 to \$65,000.

The Committee on Public Letting, to which was referred on May 15, 1917 (Minutes, page 357), the annexed request of the President, Borough of Manhattan, for amendment to resolution of authority to contract, without public letting, for the construction of the foundations for the Park Avenue Viaduct, by increasing the amount from \$48,000 to \$65,000, respectfully

REPORTS:

That the Committee in its report on this matter (Int. No. 1274, April 3, 1917), recommended the work to be done without public letting at a cost of not to exceed \$48,000, which was \$12,000 in excess of the amount recommended in a report of the Bureau of Contract Supervision. The Committee believes this a most liberal allowance, and that if not acceptable to the Borough authorities, it suggests the work be done by public letting.

It therefore recommends the request be placed on file.

JOHN McCANN, WM. P. McGARRY, PETER SCHWEICKERT, JAMES J. BROWNE, JOHN F. McCOURT, EDWARD W. COX, ALEXANDER S. DRESCHER, MICHAEL J. HOGAN, C. AUGUSTUS POST, Committee on Public Letting.

City of New York, Borough of Manhattan, Municipal Building, May 15th, 1917.

Hon. FRANK L. DOWLING, President, Board of Aldermen, City Hall, New York:

Sir—At the meeting of the Board of Aldermen held April 3d the following resolution was adopted:

"Resolved, That, in pursuance of the provisions of section 419 of the Greater New York Charter, the President of the Borough of Manhattan be and he is hereby authorized and empowered to enter into a contract, without public letting, for the construction of the foundations for the Park Avenue Viaduct, to be located in Park Avenue and 40th Street, and to connect with the Grand Central Station, on a cost, plus percentage, basis to an amount not to exceed forty-eight thousand dollars (\$48,000)."

In accordance with the terms of this resolution the contract was prepared and the form approved by the Corporation Counsel and submitted to the Interborough Rapid Transit Company for their consideration.

The contract form provides for the control by the Borough President of the force to be employed, the material to be purchased, the wages to be paid and the percentage of profit and overhead charges. This contract form, however, requires the completion of the work in its entirety in accordance with the plans and specifications on a cost plus percentage basis, but also requires that the work shall be completed at a cost not exceeding \$48,000.

The Interborough Company take the position that from their experience on

work of this kind at this particular location the work cannot be performed for less than \$65,000, and therefore decline to enter into the contract with the limitation of \$48,000. They maintain that with this limitation in the contract the City receives all the benefits should the cost of the work be less than \$48,000, and that the Interborough Company sustains all of the loss should the work exceed \$48,000. They claim that this contract is not equitable.

I would therefore respectfully request that the resolution of the Board of Aldermen of April 3d, 1917, hereinbefore mentioned, be amended so as to increase the amount from \$48,000 to \$65,000. Yours very truly,

RALPH FOLKS, Acting President, Borough of Manhattan.

Report of the Committee on Public Letting, in Favor of Adopting Resolution Authorizing the Commissioner of Public Charities to Contract, Without Public Letting, for Waterproofing Certain Sections of the Basement of Eight Cottage Dormitories.

The Committee on Public Letting, to which was referred on July 3, 1917 (Minutes, page 7), the annexed request of the Commissioner of Public Charities for authority to enter into contract for the waterproofing of certain sections of the basement of eight cottage dormitories without public letting, respectfully

REPORTS:

That the object of this request is to give this work to a contractor now constructing the building, as it would be impracticable to do otherwise. The Committee recommends the adoption of the accompanying resolution.

Resolved, That, in pursuance of the provisions of section 419 of the Greater New York Charter, the Commissioner of Public Charities be and he is hereby authorized and empowered to enter into a contract, without public letting, for the waterproofing of certain sections of the basements of eight cottage dormitories now under construction on Randall's Island, to the amount of fourteen thousand four hundred and fifty-six dollars (\$14,456).

Department of Public Charities of The City of New York, Municipal Building, Tenth Floor, June 29, 1917.

Re Waterproofing Portion of Basement, Cottage Dormitories, Randalls Island.

To the Honorable the Board of Aldermen, City Hall, New York City:

Gentlemen—I respectfully request the privilege of entering into a contract without public letting, for the waterproofing of certain sections of the basement of eight cottage dormitories now under construction on Randall's Island, to the amount of \$14,456.

The work to be done is described in a letter to the Board of Estimate and Apportionment of this same date, requesting the privilege of expending the above amount of money from C-CH-57E. The amount indicated is the aggregate of the bids of the contractors now constructing the buildings, namely, Emerson Building Company and John H. Parker Company.

I have made this request immediately upon the receipt of modification from the Architects that this work is necessary. I regret that it could not have been transmitted to your Honorable Board for action at an earlier date.

Inasmuch as the work must be let to the contractors above indicated, and must be performed before the work above the first story of the buildings can proceed, I sincerely trust that you can grant this request at your meeting on Tuesday, July 3.

Very truly yours,

HENRY C. WRIGHT, First Deputy and Acting Commissioner.

Report of the Committee on Public Letting, in Favor of Adopting Resolution Authorizing the Board of Education to Contract, Without Public Letting, for the Furnishing of Materials and Labor Necessary to Build a Brick Wall to Replace a Retaining Wall at Public School 4, The Bronx.

The Committee on Public Letting, to which was referred on July 3, 1917 (Minutes, page 12), the annexed request of the Board of Education for authority to enter into contract for the furnishing of materials and labor necessary to build a brick wall to replace a retaining wall at Public School 4, The Bronx, without public letting, respectfully

REPORTS:

That in the course of construction of an addition to this school it was found necessary to remove this wall and replace it with another by order of the Building Superintendent of the Bronx, and as the contractor doing the work on the addition to the building is in a better position to do the work at a more reasonable figure than if let by public letting, the Committee accordingly recommends the adoption of the accompanying resolution.

Resolved, That, in pursuance of the provisions of section 419 of the Greater New York Charter, the Board of Education be and hereby is authorized and empowered to enter into contract, without public letting, with the T. A. Board of Education, Park Avenue and 59th Street, New York, June 29, 1917.

Hon. FRANK L. DOWLING, President, Board of Aldermen:

Dear Sir—I transmit herewith a certified copy of a report and resolution adopted by the Board of Education at a meeting held on June 27, 1917, requesting the Board of Aldermen to authorize and empower the Board of Education to enter into a contract with T. A. Clarke Company, in the sum of \$12,832, for furnishing materials and labor necessary to build a brick wall to replace the present retaining wall without public letting.

Respectfully yours,

A. E. PALMER, Secretary, Board of Education.

To the Board of Education:

The Committee on Buildings and Sites respectfully reports that it has considered a communication from the Superintendent of School Buildings, under date of June 25, 1917, reading as follows:

"The contract for the construction of the addition to Public School 4, 173d street and 3d avenue, The Bronx, contemplated the use of a bearing wall on lower story, the retaining wall along the 3d avenue front, which we had reason to believe was sufficiently substantial for the purpose. Subsequent examinations indicated otherwise, and we have been refused permission by the Superintendent of Buildings for the Borough of The Bronx to use this wall. The work of T. A. Clarke Company, contractors for general construction, being so intimately related with the wall in question, there was no way possible of holding back their work and letting a contract for this wall independently, so that it was necessary for us to proceed to obtain an estimate for the furnishing of materials and labor necessary to build a brick wall to replace the stone wall. This estimate amounts to \$12,832, which I believe to be reasonable, and would therefore respectfully request approval thereof.

"I would also respectfully request that a resolution be prepared for adoption by the Board of Education to be presented to the Board of Aldermen to allow this Board to enter into a contract for this work, without public letting, to the amount of \$12,832."

Your Committee is of the opinion that it is for the public interest that the estimate of T. A. Clarke Company, in the sum of \$12,832, for carrying out the work

referred to in the above-quoted communication, should be accepted, and recommends that the Board of Aldermen be requested to empower the Board of Education to enter into a contract with the said T. A. Clarke Company without public letting. Accordingly there is submitted for adoption the following resolution:

Resolved, That, in pursuance of the provisions of Section 419 of the Greater New York Charter, as amended, the Board of Aldermen be, and it is hereby requested to authorize and empower the Board of Education to enter into a contract with T. A. Clarke Company, in the sum of \$12,832, for furnishing materials and labor necessary to build a brick wall to replace the present retaining wall referred to in the foregoing report, without public letting.

A true copy of a report and resolution adopted by the Board of Education on June 27, 1917.

A. E. PALMER, Secretary, Board of Education.

Which, on motion of Alderman McCann, was made a Special Order for the day. The President put the question whether the Board would agree with said report and adopt such resolution.

No. 1676—Commissioner of Correction—Request for Special Revenue Bonds, \$18,350, to Meet Certain Deficiencies.

Hon. FRANCIS P. KENNEY, Chairman, Finance Committee, Board of Aldermen:

Sir—The Bureau of Contract Supervision, to which this request has been referred, reports thereon as follows:

The request is made to meet anticipated deficiencies in certain Codes in the budget appropriation for 1917, as follows:

Code	Title of Code.	Amount.
2654	Forage and Veterinary Supplies.....	\$8,000 00
2657	Laundry, Cleaning and Disinfecting Supplies.....	2,500 00
2661	General Plant Supplies	2,000 00
2671	Shoeing and Boarding Horses	750 00
2674	Telephone Service	2,000 00
2675	General Plant Service	3,100 00

Total \$18,350 00

The facts in connection with each code are as follows:

Code No. 2654, Forage and Veterinary Supplies, \$8,000.

The 1917 budget request was \$15,000, which was based upon feeding 102 horses and 12 cows. The examiners recommended \$13,316.47, based upon feeding 95 horses and 12 cows. The amount recommended was subsequently reduced by the department to \$12,000, which amount was finally allowed in the budget. The unencumbered balance as of July 1, 1917, was \$1,320.08. The department, at the instance of the Mayor, has placed under cultivation more than double the acreage used last year. More chickens and pigs have also been purchased and 18 additional horses have been procured to carry out this extensive agricultural program.

It is estimated that at present prices the per capita cost of feeding a horse is 68 cents per day, at which rate it would require \$13,908.04 to feed the horses now in the department to the end of the year. The unencumbered balance in the fund, stock on hand and the farm produce which may be obtained in the latter part of the year, it is believed, will make up the difference between this amount and the sum requested.

Code No. 2657—Laundry, Cleaning and Disinfecting Supplies, \$2,500.

Since making application for revenue bonds to replenish this code, the department has procured the necessary funds by transfer from salary and wage accruals.

Code No. 2661—General Plant Supplies, \$2,000.

The budgetary allowance was \$5,800. The unencumbered balance is \$385.

The depletion of this account has been brought about solely by the abnormal increase in the cost of grease, cottonwaste, matches, toilet paper, electric lamps and similar supplies, which have been purchased.

A transfer of \$500 to this account was made in the latter part of June. Therefore a similar amount should be deducted from the request and \$1,500 allowed.

Code No. 2671—Shoeing and Boarding Horses, \$750.

The budget allowance was \$3,076 and the unencumbered balance is \$1,352.95.

It was agreed at the time the budget was made that horses of the Department of Correction would be shod at the stable of the Department of Street Cleaning. This arrangement was not carried out because the Horseshoers' Union refused to sanction it. An increase of \$10 per month for boarding four horses and the increase in the number of horses to be shod makes the amount requested necessary.

Code No. 2674—Telephone Service, \$2,000.

At the time the requirements of this service were studied by the examiners for the 1917 budget, it was found that \$6,500 would be required, and this amount was recommended. The amount finally allowed in the budget was \$5,000. A study at this time indicates the necessity for the amount originally recommended. Any excess over this amount should be provided by transfer within the departmental appropriation after the end of the year.

Code No. 2675—General Plant Service, \$3,100.

Since making application for revenue bonds to replenish this account the department has been granted a transfer from salary and wage accruals which will provide for the necessary expenditures from this code, except for dry cleaning the winter suits of the inmates, for which \$1,000 is requested. The purpose of this request is fully set forth in the communication to your Board. Investigation by this Bureau showed that the goods of which the inmates' winter clothing is now made shrinks to such an extent when washed in the ordinary way that they are rendered unfit for further use. The department has about 2,000 of these suits, which, if properly cleaned, will be available next winter, thus materially reducing the expenditures for clothing. This sum, \$1,000, should be granted.

A summary of the request and the amounts necessary in each code is as follows:

Code Number.	Amount Requested.	Amount Necessary.
2654	Forage and Veterinary Supplies.....	\$8,000 00
2657	Laundry, Cleaning and Disinfecting Supplies.....	2,500 00
2661	General Plant Supplies.....	2,000 00
2671	Shoeing and Boarding Horses.....	750 00
2674	Telephone Service	2,000 00
2675	General Plant Service (Dry Cleaning).....	1,000 00
	General Plant Service	2,100 00
	Total.....	\$18,350 00
		\$12,750 00

Respectfully,

TILDEN ADAMSON, Director.

The President put the question whether the Board would agree with said report and adopt such resolution.

Which was decided in the affirmative by the following vote:

Affirmative—Aldermen Bassett, Burns, Burden, Browne, Carroll, Cassidy, Cole, Collins, Colne, Cox, Crane, Cunningham, Curley, Daly, Delaney, Diemer, Dixon, Donnelly, Dostal, Dunn, Drescher, Eagan, Farley, Ferguson, Ferrand, Friedlander, Gaynor, Gilmore, Glennon, Goetz, Gutman, Hatch, Haubert, Heyman, Hilkemeier, Hogan, Kennelly, Kenney, McCann, McCourt, McGarry, McGillick, McKee, Martin, Molen, Moore, Mullen, O'Rourke, Palitz, Post, Quinn, Roberts, Robitzek, Ryan, Schmitz, Schweickert, Shields, Silberstein, Smith, Squiers, Stapleton, Stevenson, Tolk, Trau, Walsh, Wirth, Wise; President Connolly, by James Butler, Assistant Commissioner of Public Works; President Mathewson, by John G. 1976	Materials	10,000 00
1983	General Plant Service	1,000 00

Total \$103,000 00

Several of the above accounts are completely exhausted at the present time. This condition is due mainly to the high cost of practically all commodities.

I shall appreciate it if you will give this matter your early and favorable attention. Very sincerely yours,

HY. C. WRIGHT, Acting Commissioner.

City of New York, Board of Estimate and Apportionment, Municipal Building, July 9, 1917.

No. 1683—Commissioner of Public Charities—Requesting Issue of Special Revenue Bonds, \$103,000 to Meet Deficiencies and Anticipated Deficiencies in Various Accounts for 1917.

Hon. FRANCIS P. KENNEY, Chairman, Finance Committee, Board of Aldermen:

Sir—The Bureau of Contract Supervision, to which this request has been referred, reports thereon as follows:

The request is to replenish certain codes in the budget appropriation for 1917, as follows:

Code.	Title of Code.	Amount.
1951	Forage and Veterinary Supplies.....	\$5,000 00
1953	Office Supplies	500 00
1954	Medical and Surgical Supplies.....	23,000 00
1958	Laundry, Cleaning and Disinfecting Supplies.....	6,000 00
1961	Botanical and Agricultural Supplies.....	1,000 00
1962	Motor Vehicle Supplies	5,000 00
1963	General Plant Supplies	7,000 00
1966	Medical and Surgical Equipment.....	4,500 00
1972	Motor Vehicle and Equipment	7,000 00
1973	Wearing Apparel	30,000 00
1975	General Plant Equipment	3,000 00
1976	Materials	10,000 00
1983	General Plant Service.....	1,000 00

Total..... \$103,000 00

A complete study of the requirements of the department to the end of the year is now being made, but pending the completion of this study the department has requested that a report be submitted to your Board upon such parts of the request as represent immediate needs and for which funds must be procured to operate the department during the months of July, August and September. These needs are as follows:

Code 1958, Laundry, Cleaning and Disinfecting Supplies, \$6,000.

The 1917 budget allowance is \$25,689. The unencumbered balance is \$790. Unfilled requisitions for soap, disinfectants, bug exterminators and similar supplies, together with an amount for current monthly expenditures indicated a need for \$2,000.

Code 1961, Botanical and Agricultural Supplies, \$1,000.

The 1917 budgetary allowance in this code is \$5,000; the unencumbered balance \$176. The full amount requested is necessary to enable the department to transfer orders temporarily charged against the food supply accounts for seed potatoes and other seeds to the proper code. The orders were issued, I am informed, in order that there would be no delay in planting.

Code 1963, General Plant Supplies, \$7,000.

The 1917 budget allowance in this code is \$14,000. The unencumbered balance is \$96. The budget allowances were based upon the annual consumption of such supplies at prices current at the time the budget was made. The depletion of the account is due almost entirely to increased costs, as shown by comparison as follows:

Budget Unit Cost.	Prices Paid.
Matches, 47 cents per gross.....	75 cents per gross.
Large Paper Bags, \$1.04 per 1,000.....	\$2.40 per thousand.
Toilet Paper, 4½ cents per roll.....	8½ cents per roll.
Wrapping Paper, 5 cents per pound.....	10 cents per pound.

It is estimated that \$2,500 will provide a fund sufficient to last until the end of September.

Code 1972, Motor Vehicles and Equipment, \$7,000.

The 1917 budget allowance is \$14,000, of which \$5,500 was for the purchase of new equipment, leaving a balance of \$8,500. A transfer of \$1,000 within budgetary appropriation to this account, made in June, makes a total of \$9,500 as the amount available for the automobile tire tubes and other equipment for the year.

This account is depleted, which indicates an average expenditure for the first six months of the year of \$1,500 per month. The Department estimates that the monthly cost for maintaining the equipment of the Department for the remainder of the year will average \$1,000 each month.

On this basis it is estimated that the needs of the department when stock on hand is considered can be met for the next three months by the authorization of \$2,500.

Code 1975—General Plant Equipment, \$3,000.

The 1917 budget allowance in this code is \$19,000; the balance on hand, \$229.

The early depletion of this account is due primarily to increased cost. Contracts have also been let for certain equipment upon a yearly basis which has resulted in an overstock in some institutions of the department, while the stock at other institutions is exhausted. The department will be able to meet most of its requirements in General Plant Equipment for the next three months by a redistribution of stock on hand. Certain emergency purchases must be provided for, however, for which it is estimated \$1,000 will be sufficient.

Code 1976—Materials, \$10,000.

The 1917 Budget allowance in this code is \$53,627.00; the unencumbered balance, \$26.00. Expenditures from this account have been made in the same manner as from Code 1975, General Plant Equipment. The average emergency expenditures from this code are, however, much greater than from Code 1975, and are approximately \$2,000 per month. Such materials, coffin boards, valves, pipe fittings for the upkeep of the power equipment in the institution must be obtained. It is estimated that \$5,000 will be required for such expenditures until October.

Code 1983—General Plant Service, \$1,000.

The 1917 budget allowance in this code is \$3,940; the unencumbered balance is \$1,267. The amount allowed in this code included \$1,500 for band concerts in the Home of the Aged and Infirm in both Manhattan and Brooklyn, and all of the balance in this code will be required for this purpose. It was believed at the time the budget was made that changes in the water supply system at Kings County Hospital would be completed by the end of May, so that water from the new Catskill water supply could be obtained, and the purchase of water from independent companies could be discontinued. The changes contemplated have not been made and it will be necessary to provide for the purchase of water for the next three months. It is estimated that \$1,000 will be necessary to meet expenditures from this code for that period.

Code 1953—Office Supplies, and Code 1962—Motor Vehicle Supplies, have sufficiently large balances, which, with stock on hand, will be ample for all requirements as far as can be determined at this time, and it is not apparent that further funds will be necessary in these codes.

Codes 1951, Forage and Veterinary Supplies; 1954, Medical and Surgical Supplies; 1956 Medical and Surgical Equipment, and 1973, Wearing Apparel—all will require additional funds. It is believed, however, that funds for such commodities as are necessary and indispensable to the operation of the department may be obtained from other sources.

A summary of the additional amounts necessary for you to recommend in order to meet the requirements of the department for the next three months is as follows:

Code 1958 Laundry, Cleaning and Disinfecting Supplies.....	\$2,000 00
Code 1961 Botanical and Agricultural Supplies.....	1,000 00
Code 1963 General Plant Supplies.....	2,500 00
Code 1972 Motor Vehicles and Equipment.....	2,500 00
Code 1975 General Plant Equipment.....	1,000 00
Code 1976 Materials.....	5,000 00
Code 1983 General Plant Service.....	1,000 00
	\$15,000 00

Very truly yours,

TILDEN ADAMSON, Director.

Report of the Committee on Public Letting in Favor of Adopting Resolution Authorizing the Commissioner of Public Charities to Contract for Placing of Fire Alarm Systems in Certain Institutions Without Public Letting.

The Committee on Public Letting, to which was referred on June 12, 1917 (Minutes, page 503), the annexed request of the Commissioner of Public Charities for authority to contract for placing of fire alarm systems in certain institutions, respectfully

REPORTS:

That the reasons for this request are fully set forth in the letter of application. The Committee realizing that as much of the work as funds will permit should be installed without further delay, recommends the adoption of the accompanying resolution.

Resolved, That, in pursuance of the provisions of section 419 of the Greater New York Charter, the Commissioner of Public Charities be and he is hereby authorized and empowered to enter into contracts, without public letting, for the placing of fire alarm systems in certain of the institutions under his jurisdiction, as follows: Jandous Electric Equipment Co., thirteen thousand seven hundred and

twenty-five dollars (\$13,725), for the City Hospital, and Croker Fire Protection Engineering Co., twenty thousand eight hundred dollars (\$20,800), for the Metropolitan Hospital.

JOHN McCANN, JOHN F. McCOURT, ALEXANDER S. DRESCHER, EDWARD W. COX, MICHAEL J. HOGAN, PETER SCHWEICKERT, Committee on Public Letting.

Department of Public Charities of The City of New York, Municipal Building, Tenth Floor, June 12, 1917.

To the Honorable, the Board of Aldermen, City Hall, New York:

Gentlemen—Through the Board of Estimate we made a request to your Honorable Board to allow us to contract without public letting for the placing of fire alarm systems in certain of the institutions of the Department. Our request was made owing to the fact that we had received bids on public proposals which exceeded the amount we had in hand for the complete project. During the time the matter was before your Board, the price of material and labor advanced so that the lowest bidder would not take the contract. Accordingly it became necessary for your Board to act, and we rejected the bids.

We again advertised and received public bids this day. There were three responsible bidders for the work. The amount bid for all of the buildings is \$117,035. We have on hand but \$46,000, and it is highly important that fire alarms be placed in the hospitals on Blackwell's Island as the fire hazard is very great. We accordingly ask the privilege to contract without public letting with Jandous Electric Equipment Co., \$13,725, for the City Hospital, and Croker Fire Protection Engineering Co., \$20,800, for the Metropolitan Hospital.

If fire should once thoroughly start in any one of the buildings there would be serious loss of life, as it would be impossible to remove the patients from them.

I believe it would be wise to install these fire alarms as early as possible and trust that your Honorable Board will take prompt and favorable action on this request. Very truly yours,

HENRY C. WRIGHT, Deputy and Acting Commissioner.

Report of the Committee on Public Letting in Favor of Adopting Resolution Authorizing the Commissioner of Docks to Contract for the Removal and Sale of Remaining Portion of Pier at Foot of West 45th Street, North River, Manhattan, Without Public Letting.

The Committee on Public Letting, to which was referred on July 3, 1917 (Minutes, page), the annexed request of the Commissioner of Docks and Ferries for authority to contract for the removal and sale of remaining portion of pier at foot of W. 45th Street, North River, Manhattan, without public letting, respectfully

REPORTS:

That it is necessary to remove the remaining portion of this old pier to make way for improvement work. The Dock Department is desirous of taking advantage of a very low price for the work without the delay and cost of advertising.

It therefore recommends the adoption of the accompanying resolution.

Resolved, That, in pursuance of the provisions of section 419 of the Greater New York Charter, the Commissioner of Docks be and he is hereby authorized and empowered to enter into contract with the Riverside Contracting Company, without public letting, for the removal of the remainder of the old pier at the foot of West 45th street, North River, for the sum of two thousand seven hundred and eighteen dollars (\$2,718).

The City of New York, Department of Docks and Ferries, Office of the Commissioner, Pier A, North River, June 27, 1917.

Hon. FRANK L. DOWLING, President, Board of Aldermen, City Hall, Manhattan:

Sir—On April 13, 1917, this Department requested the Commissioners of the Sinking Fund to have sold and removed the remaining portion of the pier at the foot of West 45th Street, North River, Borough of Manhattan, about 395 feet in length and 60 feet in width. The Commissioners of the Sinking Fund at meeting held May 3, 1917, directed the sale and removal of the structure.

The Comptroller states that the old pier was offered for sale on May 31, 1917, but no bids were received.

It is necessary that this old pier be removed in connection with the improvement work at West 46th Street, North River, in order that the slip space adjoining the pier will be available for use. This Department addressed a communication to seventeen contractors requesting bids for the removal of the structure. The lowest bid is from the Riverside Contracting Company, said company offering to do the work for the sum of \$2,718. Two other bids were received, one at \$3,500 and another at \$5,900.

I request that a resolution be adopted by the Board of Aldermen authorizing me to issue an order for this work to the Riverside Contracting Company at a cost of \$2,718 without public letting. Yours respectfully,

RICHARD C. HARRISON, Acting Commissioner of Docks.

Report of the Committee on Salaries and Offices in Favor of Adopting Resolution to Establish the Position of Deputy Assistant District Attorney for Three Incumbents, Kings County.

The Committee on Salaries and Offices, to which was referred on June 26, 1917 (Minutes, page 615), the annexed request of the District Attorney of Kings County for the establishment of the position of Deputy Assistant Attorney, for three incumbents, respectfully

REPORTS:

That having examined the subject and hearing District Attorney Harry E. Lewis, of Kings County, it believes the positions necessary for the proper conduct of the business of the office, and recommends the adoption of the resolution, as contained in the accompanying communication.

Resolved, that, pursuant to the provisions of section 12, subdivision 5, of the County Law, and of section 1586 of the Greater New York Charter, the Board of Aldermen hereby establishes the position of Deputy Assistant District Attorney for three incumbents, at a salary to be fixed by the District Attorney, but not to exceed thirty-five hundred dollars each per annum, in the office of the District Attorney of Kings County.

CHARLES DELANEY, JOHN J. O'ROURKE, JAMES J. MOLEN, FRANCIS P. BENT, W. W. COLNE, STEPHEN F. ROBERTS, EDWARD V. GILMORE, Committee on Salaries and Offices.

District Attorney's Office, County of Kings, Brooklyn, New York, June 22nd, 1917.

Board of Aldermen of the City of New York, City Hall, Borough of Manhattan, New York City:

Sirs—I respectfully request that in pursuance of the County Law, Section 12, Subdivision 5, and of Section 1586 of the Greater New York Charter, you adopt the following resolution:

"Resolved, that pursuant to the provisions of Section 12, Subdivision 5, of the County Law and of Section 1586 of the Greater New York Charter, the Board of Aldermen hereby establishes the position of Deputy Assistant District Attorney for three incumbents, at a salary to be fixed by the District Attorney but not to exceed thirty-five hundred dollars each per annum, in the office of the District Attorney of Kings County."

The District Attorney heretofore under date of April 14, 1917, requested that the Board of Estimate and Apportionment pass a resolution pursuant to the provisions of Section 56 of the Greater New York Charter, recommending to your honorable body the establishment of the three positions in accordance with the foregoing resolution now requested of your honorable body. The board of Estimate and Apportionment by its action apparently on June 8th, of which action this office was advised on the 20th, denied the District Attorney's request apparently on the sole ground that it had no jurisdiction, for the reason that the Board of Aldermen alone had the power to create these places. The circumstances of the denial by the Board of Estimate and Apportionment are briefly these: The Bureau of Personal Service of the Board of Estimate and Apportionment made a report that the power to create these places was solely in the Board of Aldermen, under the provisions of Section 12, Subdivision 5 of the County Law and of Section 1586 of the Greater New York Charter. This it declared, notwithstanding the fact that on June 24, 1910, the Board of Estimate and Apportionment, by resolution, recommended to the Board of Aldermen the establishment under Section 56 of the Greater New York Charter of the grade of position of Deputy Assistant District Attorney, at two thousand dollars per annum, in the office of the District Attorney of Kings County. That action was approved by your honorable body on July 19, 1910. Notwithstanding this action, the Bureau of Personal Service in its report declares:

"However, it is the opinion of this bureau that the request of the District Attorney should properly be made to the Board of Aldermen and acted upon by that board, under the foregoing cited provisions of law, without any action by the Board of Estimate and Apportionment being taken or necessary."

With respect to this office there were other instances where positions have been created by the recommendation of the Board of Estimate and approval of your body. This includes the establishment of the position of Process Server for seven incumbents by the resolution of the Board of Estimate adopted December 22, 1910 and approved by the Board of Aldermen on January 10, 1911. This also includes the establishment of the position of Telephone Operator by resolution of the Board of Estimate of April 2, 1909, which was approved by the Board of Aldermen on April 13, 1909.

With respect to the merits of the District Attorney's application, the Bureau of Personal Service approved it only to the extent of two places and called attention to the unavailability of funds, its report saying:

"If the District Attorney had another Assistant assigned to the Magistrates' Courts, and one in the Appeals and office preparation work, or a total of two additional positions, the needs of the office would be amply provided for. The duties of the requested positions fall within Grade 2 of the lawyers' group of the standard specifications, with a salary range from \$1500 to \$2280 per annum, inclusive. There are no funds available within the 1917 budget appropriations to the office, and an issue of special revenue bonds in the necessary sum would have to be authorized to provide for the purposes of the request."

Acting upon this report of the Bureau of Personal Service, the Committee on Salaries and Grades of the board made the following recommendation:

"In view of the above report, the Committee recommends denial of the request of the District Attorney of Kings County for three additional positions of Deputy Assistant District Attorneys, on the ground that the request should properly be made to the Board of Aldermen, as the Board of Estimate and Apportionment is without jurisdiction."

Acting upon such report and recommendation, the Board of Estimate itself adopted the following resolution:

"That the Board of Estimate and Apportionment hereby denies the request of the District Attorney of Kings County, dated April 14, 1917, for the establishment of the position of Deputy Assistant and District Attorney for three incumbents, at a salary to be fixed by the District Attorney, but not to exceed \$3,500 per annum each, but without prejudice to its presentation to the 1918 Budget Committee."

In view of the fact that the Board of Estimate has abandoned any claim of power with respect to the establishment of these places, and in view of the merit of the application and the present office need for these places, you are earnestly urged to adopt the resolution first set out in this communication. The reasons for it are of great weight. For some years past the office of the District Attorney of Kings County has administered the criminal work of this county with a force of twelve assistants and one deputy assistant. In New York County during the same period of time there has been a force of twelve assistants and thirty-eight deputy assistant district attorneys, the pay of the deputy assistants ranging from five thousand dollars down to fifteen hundred dollars per annum; although the work done in New York County is not more than two and one-half times the amount of work done in this county. There are throughout the year continuous sittings of the courts in this county for the trial of criminal cases. During the year assignments must be made of assistants to try cases in the Court of Special Sessions, in three and four parts of the County Court, and in a Criminal Term of the Supreme Court. Owing to the amount of preparation necessary to be conducted in the office and the number of Trial Terms of courts to be regularly cared for, it has been impossible during this period to assign more than one man to the ten

City Magistrates' Courts in this county. The experience in the past few years has shown that it is impossible for one man to cover the ten courts six days each week and get results. A fair trial of the system has been made by having regular days each week for the attendance of the assistant in each court and urging that the more important cases, such as felonies, be adjourned to the District Attorney's day. In the light of this experience, it seems unwise to any longer continue this system, and the need has become exceedingly plain for three men to cover the Magistrates' Courts each week, assist in the necessary work of preparation and appeals. It is thought that if three deputy assistants were to devote their time exclusively to the Magistrates' Courts and the work of preparation, the citizens of this county would be given an increased service that would enable every complainant to have his charge fully cared for with every assistance possible by this office, and that sound charges will thus be properly prepared for future trial and disposition and the worthless charges winnowed out and dismissed in the Magistrates' Courts.

I should be pleased to furnish your honorable body with any further information desired showing the assignments of the various men in this office, the amount of work done, the total number of cases cared for in all courts, and especially the great number of cases cared for in the Appellate Courts and the time and labor necessarily devoted by our Appeal Bureau to the appeal work and the general law questions constantly arising in the office.

Accordingly, you are respectfully urged to adopt the foregoing resolution.

Truly yours,

HARRY E. LEWIS, District Attorney.

The President put the question whether the Board would agree with said report and adopt such resolution.

Which was decided in the affirmative by the following vote:

Affirmative—Aldermen Burns, Burden, Browne, Carroll, Cardani, Cassidy, Cole, Collins, Colne, Cox, Crane, Cunningham, Curley, Daly, Delaney, Diemer, Donnelly, Dostal, Dunn, Drescher, Eagan, Farley, Ferguson, Ferrand, Friedlander, Gaynor, Gilmore, Glennon, Goetz, Gutman, Hatch, Haubert, Heyman, Hilkemeier, Hogan, McCann, McCourt, McGillick, Martin, Molen, Moore, O'Rourke, Post, Quinn, Roberts, Robitzek, Ryan, Schmitz, Schweickert, Shields, Silberstein, Smith, Squiers, Stapleton, Stevenson, Trau, Walsh, Wirth, Wise; President Mathewson, by John G. DEPARTMENT OF FINANCE.

WARRANTS MADE READY FOR PAYMENT IN DEPARTMENT OF FINANCE WEDNESDAY, JULY 18, 1917.

Below is a statement of warrants made ready for payment on the above date, showing therein the Department of Finance voucher number, the dates of the invoices or the registered number of the contract, the date the voucher was filed in the Department of Finance, the name of the payee and the amount of the warrant.

Where two or more bills are embraced in the warrant, the dates of the earliest and latest are given, excepting that, when such payments are made under a contract, the registered number of the contract is shown in the place of the second invoice date.

Where the word "final" is shown after the name of the payee, payment will not be made until thirty days after the completion and acceptance of the work, but all of the other warrants mentioned will be forwarded through the mail unless some reason exists why payment is to be made in person, in which event written notice will be promptly given to the claimant.

In making a written or verbal inquiry at this office for any of the above mentioned warrants, it is requested that reference be made by the Department of Finance voucher number.

WILLIAM A. PRENDERGAST, Comptroller.

Upon the recommendation of the Acting Chief Examiner in a report dated June 6, it was

A report dated June 6 was presented from the Acting Chief Examiner, recommending that the plan of organization of city departments for purposes of promotion be amended as far as it affects the Department of Health as follows: Bureau of Public Health Education, Bureau of Food and Drugs, Bureau of Laboratories, Bureau of Hospitals; and the following, to be subdivided into boroughs lists: General Administration, Records, Child Hygiene, Preventable Diseases, Sanitation.

The report stated that if at any time the best interests of the City would be served by extending eligibility for examination for promotion to certain positions to persons serving in several bureaus, this might be done in accordance with present practice; also that the recommendation was not intended to cover existing eligible lists, but to be effective only in cases of future examinations. The report was approved.

A report dated June 6 was presented from the Application Clerk, stating that Denis Sullivan, 368 E. 152nd st., Bronx, a candidate on the eligible list of Fireman, had passed a physical examination by the Commission's physicians. The Secretary was instructed to inform the Department of Education that the Commission was of the opinion that the department was without power to fine an employee an amount exceeding 30 days' pay, and to note on the records the reassignment of the said employee.

A communication dated June 2 was presented from the Commissioner of Parks, Manhattan and Richmond, relative to the employment of William Keegan as Horse-shoer Fireman in his department. NOTICE TO BIDDERS AT SALES OF OLD BUILDINGS, ETC.

TERMS AND CONDITIONS UNDER WHICH BUILDINGS, ETC., WILL BE SOLD FOR REMOVAL FROM CITY PROPERTY.

THE BUILDINGS AND APPURTENANCES thereto will be sold to the highest bidder, who must pay cash or certified check, drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of \$50, the sum of \$50 will be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances, between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstances of vacating the structures of their tenants will permit.

All the material of buildings, sheds, walks, structures and cellars of whatsoever nature, their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations, and the sidewalks and curb in front of said buildings, extending within the described area, shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street and the openings of the main sewer in street shall be properly closed in compliance with the directions of the Bureau of Sewers in the Borough in which the buildings are situated, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any part thereof, within thirty days

from the day of possession will work forfeiture of ownership of such buildings, appurtenances or portions as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the date of possession, and the successful bidder will provide and furnish all materials or labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants and each of them against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beam holes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs and adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the Contractor.

NOTICE TO CONTRACTORS.

GENERAL INSTRUCTIONS TO BIDDERS ON WORK TO BE DONE FOR, OR SUPPLIES TO BE FURNISHED TO THE CITY OF NEW YORK.

The person or persons making a bid for any service, work, materials or supplies for The City or New York, or for any of its departments, bureaus or officers, shall furnish the same in a sealed envelope, endorsed with the title of the supplies, materials, work or services for which the bid is made, with his or their name or names and the date of presentation to the President or Board or to the head of the Department at his or its office, on or before the date and hour named in the advertisement for the same, at which time and place the bids will be publicly opened by the President or Board or head of said Department and read, and the award of the contract made according to law as soon thereafter as practicable.

Each bid shall contain the name and place of residence of the person making the same, and the names of all persons interested with him therein, and, if no other person be so interested, it shall distinctly state that fact; also, that it is made without any connection with any other person making a bid for the same purpose, and is in all respects fair and without collusion or fraud, and that no member of the Board of Aldermen, head of a department, chief of a bureau, deputy thereof, or clerk therein, or other officer or employee of The City of New York is, shall be or become interested, directly or indirectly, as contracting party, partner, stockholder, surety or otherwise in or in the performance of the contract, or in the supplies, work or business to which it relates, or in any portion of the profits thereof. The bid must be verified by the oath, in writing, of the party or parties making the bid that the several matters stated therein are in all respects true.

No bid will be considered unless as a condition precedent to the reception or consideration of such bid, it be accompanied by a certified check upon one of the State or National banks or trust companies of The City of New York, or a check of such bank or trust company signed by a duly authorized officer thereof, drawn to the order of the Comptroller, or money or corporate stock or certificates of indebtedness of any nature issued by The City of New York, which the Comptroller shall approve as of equal value with the security required in the advertisement to the amount of not less than three nor more than five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

All bids for supplies must be submitted in duplicate.

The certified check or money should not be inclosed in the envelope containing the bid, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid.

For particulars as to the quantity or quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter as surety or otherwise, upon any obligation of the City.

The contract must be bid for separately.

The right is reserved in each case to reject all bids if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids in addition to inserting the same in figures.

Bidders are requested to make their bids upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done or the supplies are to be furnished. Plans and drawings of construction work may be seen there.
