Benefits of Direct Deposit Banking

Keep More of What You Earn

- Banking accounts that are part of the NYC Direct Deposit program are less expensive than using check cashers. Cashing paychecks at a check casher can cost on average \$475 in fees annually.
- With a banking account you can take advantage of free services such as online bill pay and transfers to other accounts.

Convenience

- Your money is automatically in your account on payday without any extra effort.
- Your account’s ATM/debit card also gives you easy access to your money and can be used to make purchases at most stores.

Safety

- Money kept in the form of cash can be lost, stolen, or accidentally destroyed. Your banking account is federally insured up to \$250,000 even in a financial crisis.

Worried that your account could be frozen or your money taken to repay debts?

In most cases New York State law protects up to \$1,740 in your account from being seized or frozen.
