**HOUSING PRESERVATION AND DEVELOPMENT**

■ PUBLIC HEARINGS

PLEASE TAKE NOTICE that a public hearing will be held on September 19, 2023, at City Hall at 1:00 P.M., or as soon thereafter as the matter may be reached on the calendar, at which time and place those wishing to be heard will be given an opportunity to be heard concerning the proposed disposition of the real property identified below.

Pursuant to Section 576-a(2) of the Private Housing Finance Law, the Department of Housing Preservation and Development ("HPD") of the City of New York ("City") has proposed the sale of the following City-Owned property (collectively, "Disposition Area") in the Borough of Manhattan:

Address	Block/Lot
244 East 106th Street	1655/ p/o 29 (Tentative New Lot 129)

The Disposition Area is a vacant portion of privately-owned Lot 29. The City previously conveyed the entirety of Lot 29 (formerly Lot 29 and Lot 128) to a housing development company for a rehabilitation project, pursuant to accelerated UDAAP approved by the City Council on May 16, 1995 (Resolution No. 1009) and by the Mayor on May 25, 1995 (Calendar No. 58). Rehabilitation was completed for the existing building, but the vacant portion remained underutilized. HPD will re-acquire and dispose of the Disposition Area to facilitate the proposed project.

Under the Supportive Housing Loan Program, HPD funds the rehabilitation or new construction of buildings which provide supportive housing for the homeless, people with special needs, and other persons of low income. HPD works with the Department of Homeless Services, the Department of Health and Mental Hygiene, the Human Resources Administration's HIV/AIDS Services Administration, and other public agencies to ensure that the completed projects receive appropriate building security and social services.

Under the proposed project, the City will sell the Disposition Area to Ascendant 244 Housing Development Fund Corporation ("Sponsor") for the nominal price of one dollar per tax lot. The Sponsor will also deliver an enforcement note and mortgage for the remainder of the appraised value ("Land Debt"). The Sponsor will then construct one building containing a total of approximately 32 units for occupancy by homeless and low-income persons, plus one unit for a superintendent. The Land Debt or City's capital subsidy may be repayable out of resale or refinancing profits for a period of at least thirty (30) years following completion of construction. The remaining balance, if any, may be forgiven at the end of the term.

The appraisal and the proposed Land Disposition Agreement and Project Summary are available for public examination by emailing Margaret Carey at [careym@hpd.nyc.gov](mailto:careym@hpd.nyc.gov) on business days during business hours.

The hearing location is accessible to individuals using wheelchairs or other mobility devices. For further information on accessibility or to make a request for accommodation, such as sign language interpretation services, please contact Nicole Benjamin at [EEOOfficer@council.nyc.gov](mailto:EEOOfficer@council.nyc.gov) or (212) 788-6936.

82623B0082-BEDC - CSO-GC-SFS-OH-CP2 GOWANUS CANAL EXCAVATION AND FOUNDATION - Competitive Sealed Bids - PIN# 82623B0082 - Due 10-31-23 at 10:00 A.M.

CSO-GC-SFS-OH-CP2: Second construction phase (CP2) in the overall construction of the OH-007 Gowanus Canal CSO Facility. During this CP2 phase, the below grade substructure of this facility will be constructed. In order to accomplish this, a cement-bentonite support-of-excavation groundwater-cutoff slurry wall will be constructed around the perimeter of the new facility along with braces across the footprint of the Facility. This will be followed by the excavation of soil within this perimeter where the new substructure will be built. Due to past industrial use of the site, the soil to be excavated is contaminated with hazardous materials. Therefore, soil testing will be required to determine how to dispose of it, treat it, or reuse it. Air emissions will need to be closely monitored using a Community Air Monitoring Program to ensure that hazardous air contaminants are not released into the surrounding community during the excavation process. Additionally, a construction water treatment system will need to be constructed in order to treat and discharge groundwater that may be contaminated. Following excavation the water-retaining substructure will be constructed using cast-in-place concrete to provide durability, watertightness, and structural integrity. The substructure will include a screening area, five storage cells, an effluent channel, and a pump wet well to pump the stored CSO back to the main interceptor sewer in the area. This new substructure will have the capacity to store four million gallons of CSO. This Competitive Sealed Bid ("RFx") is being released through PASSPort, New York City's online procurement portal. Responses to this RFx should be submitted via PASSPort. PROCUREMENT

■ VENDOR LIST

Goods and Services

PRE-QUALIFIED LIST (PQL) PROGRAM FOR VARIOUS TRADES

NYCHA is currently accepting applications for Pre-Qualified List (PQL) program for various trades.

A PQL is a tool that NYCHA will use to qualify vendors and contract goods or services for its developments, streamlining the process for both vendors and NYCHA. NYCHA will publish contracting opportunities, and the PQL will predominantly be used to procure goods or services for those contracts. Vendors who apply to those bids must pre-qualify according to specific criteria, and vendors who are admitted to the PQL can bid on contracts.

Currently NYCHA has established four (4) PQL lists for the Closed-Circuit Television (CCTV), Carpentry, Painting and Lead Based Paint (Assessment and Abatement, Inspection and Assessment & Lab Analysis).

All vendors interested in NYCHA's PQLs must follow two (2) important steps:

First, vendors must prepare and submit applications to the PQL: To pre-qualify, vendors must meet the minimum requirements listed on

the Request for Qualification of the select PQL. Applications will be evaluated by NYCHA on a rolling basis.

Second, vendors who are admitted to the PQL can then bid on solicitations for services on the PQL. Vendors must bid on each contract award, as these are not guaranteed.

For more information regarding PQLs and to obtain applications, please visit NYCHA's website at: <https://www.nyc.gov/site/nycha/business/nycha-pql.page>.

**What laws govern the rulemaking process?** DSNY must meet the requirements of Section 1043 of the City Charter when creating or changing rules. This notice is made according to the requirements of Section 1043 of the City Charter.

**Statement of Basis and Purpose**

DSNY rules currently allow for all commercial establishments to set out their waste and recyclable materials within one hour of closing, provided that the scheduled collection occurs before the establishment next reopens for business and only if such materials are placed out for collection in receptacles with tight-fitting lids. Those establishments that place materials out for collection in bags, regardless of the time they close, may place such materials at the curb no earlier than 8:00 p.m.

DSNY recently adopted rules that require all food-related businesses and commercial establishments that are a part of a chain of stores to set out any putrescible solid waste, including refuse and organic waste, at the curb for private carter collection in rigid receptacles with tight-fitting lids. This new proposed rule would amend this recent rule and expand this requirement to include all commercial establishments regardless of whether such establishments are food-related businesses or are part of a chain of stores.

These changes are a part of the City's commitment to cleaning up New York City streets and reducing food sources for rats. Businesses are generators of putrescible waste, including organics, and bags of waste set out for collection on the curb, even when in compliance with existing waste set out requirements, attract rats and vermin and are unsightly. Requiring these businesses that produce any amount of food waste to place their putrescible waste in sealed containers will meaningfully limit potential food sources for vermin while also helping to keep our sidewalks free of unattractive piles of black bags.

These changes align with other City initiatives to increase the use of containers for waste storage and collection, creating cleaner, more livable, and more vibrant streets and neighborhoods across New York City.
