Brooklyn Bridge.

A thorough inspection of the cables, suspenders, truss members, floor system, etc., has been completed, and the points requiring attention have been taken up and the work done in addition to the routine repairs.

The speed of trains has been carefully observed and the attention of the operating company was especially called to the violations of the Commissioner's orders not to exceed a speed of fifteen miles per hour, and in only a few instances has the speed been over the prescribed limits.

Routine work of inspecting repairs to roadways, sweeping and cleaning was continued without interruption during the quarter.

On June 24, 1912, night work was begun on the roadway planking in order to avoid delays to traffic, and about thirty per cent. more work has been accomplished at night on the laying of some of the roadway planking than would have been done during the day.

Plans and specifications for the Manhattan Terminal Subway Connection were approved by the Board of Estimate and Apportionment, and after the bids were received, the contract was awarded to the North Eastern Construction Company.

Studies were made of the proposed reconstruction of the Manhattan Terminal Building and special attention given to the layout of trolley loops and roadway traffic and clearances. Studies of the layout of repair shops and stores under the Brooklyn Approach were being rapidly pushed to completion by the Architect.

Williamsburg Bridge.

During the quarter the detailed account of progress on contracts at the Williamsburg Bridge is as follows:

Strengthening End Spans.

Manhattan—Surface cleaned off and pneumatic chambers sealed and the foundation completed of the northerly pneumatic caisson for panel point No. 20, on May 4, 1912. Working chamber sealed and southerly pneumatic caisson completed May 24, 1912. This completes the pneumatic caisson work on this contract.

Placing concrete for foundations and setting of granite for both piers under panel point No. 10 completed, and additional granite for piers under panel point 15 completed during the quarter. Masonry work on the Manhattan side is practically complete.

Brooklyn—Setting granite for northerly pier under panel point No. 20 completed and the masonry work on the Brooklyn side of the structure completed May 9, 1912, and the contractor removed the entire plant to the Manhattan side.

Steelwork—Contractor started erecting additional steel for strengthening of the trusses at the end span of the Brooklyn side of the structure and approximately 155 tons of steel work was added to the trusses on the Brooklyn side.

Manhattan Steelwork—Erection of steel work on the new tower under panel point 10 started on June 13 and continued with good progress until at present about eighty-five per cent. of the steel work on the towers is now completed in place. Approximately 1,610 tons of steel for the new towers have been delivered to the site, and about 670 tons erected in place on both sides of the structure.

Final arrangements were made with the operating companies to improve the bridge local service, and congestion on the plaza relieved owing to a new schedule.

Observations of electrical conditions on the structure, and especially in the subway station were made, and conditions, such as defective cross bonds, contact of running rail with structure, bare copper jumpers, etc., have been remedied.

The contract drawing for furnishing the steel required for strengthening the main span were completed and checked, and studies were made of the plan required for the erection of this steel.

All other maintenance requirements were met.

Queensboro Bridge.

Inspection platforms and ladders are being constructed at the top of each tower, to provide access to the tower shoes for inspection, cleaning and painting.

The work of painting the bridge is rapidly progressing.

Studies were made and estimate prepared for the construction of vehicular and passenger elevators connecting the roadway of the bridge with Blackwells Island.

Contract plans and specifications were prepared for the completion of the masonry attics on the main piers of the bridge.

Plans were prepared and parking of the layout under the bridge approaches completed.

Studies were made of the track layout at the Manhattan entrance of the bridge and on the Queensboro Plaza.

Manhattan Bridge.

Traffic over this bridge has been maintained without interruption. Final arrangements were completed with Engineers of the Fire Department for the installation of the armored telephone cable for that department, and cable was also purchased for a fire alarm signal for use by this Department on the Bridge. The same will be installed within a short time.

The roadway of the temporary approaches was widened.

The contract for installing the feeder cables on the westerly tracks of the upper arch was completed.

The progress of construction work on this bridge is as follows:

Westerly Subway and Bayard St. Retaining Wall—Retaining Wall: Completed setting granite and depositing concrete for backing; also waterproofing along the rear of the wall and laying of brick protection for same. Completed sidewalk along Bayard st., adjacent to the wall and the sidewalk on top of wall from stairway to abutment and the erection of the temporary railing from the stairway to the abutment. Westerly Subway: Completed both concrete retaining walls and the granite coping from existing subway walls to the abutment. Completed the track work from the Bowery, at Canal st., to abutment, and also ladders, cable racks, etc., in the splicing chamber. This entire contract was completed on June 10, 1912, and in accordance with the plans and specifications.

Electrical Feeder Cables—Completed the splicing, anchoring, straining and adjusting all cables on the westerly tracks of the structure. Completed the replacing of angles with anchor strain insulators, in accordance with extra order dated April 16, 1912.

The Department of Water Supply, Gas and Electricity made insulation test and inspected installation of cables, and pronounced them satisfactory. This contract was completed May 14, 1912.

Observations for movement, settlement, etc., on the towers and anchorages have been taken during the past quarter, but no perceptible change has been noted.

Contract drawings for the improvement of the Manhattan Plaza were completed and maps were prepared showing the necessary changes in the sewers, water pipes and pavements, and submitted to the several Bureaus having jurisdiction over the streets affected. Specifications for this work were completed and the checking of the contract drawings is progressing.

Municipal Building.

The superstructure of the building was advanced eight per cent. toward completion, to 91 per cent. complete.

The contract for the installation of the elevators was awarded by the Board of Estimate and Apportionment on May 24 to Robert Wetherill & Co., Inc., of Chester, Pa. The contract for the interior finish of the building was awarded to the lowest bidder, Thompson-Starrett Company.

On June 12 and 26, 1912, the Commissioner of the Sinking Fund allotted the space for the various Departments and offices to be located in this building.

NOTICE TO BIDDERS AT SALES OF OLD BUILDINGS, ETC.

TERMS AND CONDITIONS UNDER WHICH BUILDINGS, ETC., WILL BE SOLD FOR REMOVAL FROM CITY PROPERTY.

THE BUILDINGS AND APPURTENANCES thereto will be sold to the highest bidder, who must pay cash or certified check, drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of \$50, the sum of \$50 shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstance of vacating the structures of their tenants will permit.

All the material of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations and the sidewalks and curb in front of said buildings, extending within the described area shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street, and the opening of the main sewer in street shall be properly closed in compliance with the direction of the Bureau of Sewers in the Borough in which the buildings are situated, and furnish the Department of Finance with a

certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any part thereof, within thirty days from the day of possession will work forfeiture of ownership of such buildings, appurtenances or portion as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding and The City of New York will, without notice to the purchaser, cause the same to be removed and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the day of possession, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beam-holes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs and adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the contractor.

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids, and it is further

Resolved, That, while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.

The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

Each bid or estimate shall be accompanied by the consent, in writing, of two householders or freeholders in The City of New York, or of a guaranty or surety company duly authorized by law to act as surety, and shall contain the matters set forth in the blank forms mentioned below.

No bid or estimate will be considered unless, as a condition precedent to the reception or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money or corporate stock or certificates of indebtedness of any nature issued by The City of New York, which the Comptroller shall approve as of equal value with the security required in the advertisement, to the amount of not less than three nor more than five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation to the City.

The contract must be bid for separately. The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application thereto at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
