DEPARTMENT OF HEALTH.

REPORT FOR THE WEEK ENDING MARCH 21, 1914.

CHANGE IN DATING AND PAGING THE WEEKLY BULLETIN.

Attention is called to the fact that this number of the *Weekly Bulletin*, No. 11, is dated March 21, 1914. This, the date of publication, will hereafter appear on the title page. The vital statistics are those for the preceding week, in this case for the week ending March 14th.

In order to facilitate reference to items appearing in the *Weekly Bulletin*, the paging will hereafter be continuous, and inasmuch as ten numbers, each of eight pages, have already been issued, the present number will be found to commence with page 81.

CO-OPERATION BETWEEN INSTITUTIONS AND THE DEPARTMENT OF HEALTH.
In its dealings with the various institutions with which its work brings the Department of Health into contact, unfavorable criticism often arises from a misunderstanding of the department's regulations or of the reasons which prompted them. Moreover, since none of us are infallible, it is possible that regulations may now and then be adopted, the strict enforcement of which work unnecessary hardship on officers of institutions sincerely anxious to co-operate with the public health authorities in every way. In order to promote mutually helpful relations between the Department of Health and the institutions in this City, the Commissioner invites criticisms and suggestions concerning the Department's attitude in any matter affecting the institutions and promises that all such communications will be given careful consideration.

NOTIFICATION OF VENEREAL DISEASES.

A resolution of the Board of Health, adopted February 20th, 1912, requires officers in charge of hospitals, dispensaries, clinics, homes, asylums and charitable institutions, to report the name of every patient under observation suffering from syphilis in every stage, chancre, or gonorrhoeal infection of every kind.

When this order was originally promulgated, a report form was furnished by the Department, the preparation of which involved considerable clerical work. The performance of this additional clerical labor was found burdensome, and in order to simplify the work of the reporting institutions, a venereal disease journal was prepared and delivered to such institutions; this journal is to be kept in the office of the institution and inspectors of the Bureau of Infectious Diseases are instructed to call at regular intervals for the purpose of copying the journal entries.

Following these steps to facilitate the work of the several institutions, the Department now expects literal compliance with the resolution of February 20th. No institution which fails to comply can properly certify to its compliance with the rules and regulations of the Board of Health, as required annually by the State Board of Charities. The next visit of the inspector of the Bureau of Infectious Diseases will be made on or about April 1st. Subsequent visits will be made monthly and the venereal disease journal should be found in proper order when these visits are made.

The attention of dispensary officers and others who may be interested is called to the fact that the Department of Health provides facilities for the free bacteriological examination of discharges for the diagnosis of gonorrhoeal infections and provides, without charge, vaccines for the treatment of such infections. It also makes, without charge, the Wassermann test for the diagnosis of syphilis and examines specimens for treponema. These diagnostic and therapeutic facilities are extended only when the data required for the registration of the case are furnished by the physician or institution treating the patient.

ISOLATION FACILITIES IN HOSPITALS, HOMES, ASYLUMS, ETC.

A request was recently received by the Department for the transfer of a child suffering from a contagious disease from a large country institution outside of New York to the Willard Parker Hospital. In response to this request, a letter was written, the substance of which is reproduced here as indicating the present policy of the Department:

"My Dear Sir:

"I regret that I am unable to comply with your request to have cases of contagious diseases removed from to the Willard Parker Hospital. I am informed that the Department has made such transfers in the past, but I cannot believe that the matter ever received very serious consideration. As an act of courtesy to your institution, compliance with your request is doubtless indicated; as a matter of justice to the children concerned, it is clearly contraindicated.

"The Sanitary Code prescribes that all hospitals and homes in this City shall have suitable facilities for the isolation of contagious cases. The principle is one which applies with equal force, whether in the City or country, and this Department will now use its power and influence to hinder rather than to facilitate the transfer of contagious cases, whenever and wherever such transfer involves a long journey with its attendant risks to the patient.

"I feel quite sure that upon careful consideration you will assent to the proposition that all institutions which care for considerable numbers of children should have suitable facilities for isolation. Yours truly,

"S. S. GOLDWATER, Commissioner."

ARE YOU BUYING CLEAN FOOD?

For the last two months the Department of Health has been conducting a quiet, clean-up campaign directed particularly against places in the City where food is being handled. During the course of this campaign, almost twenty thousand inspections were

made, and in approximately half of these conditions were unsatisfactory. As a result of the Department's activities most of the dirty places have been closed up, only a very small number having to be summoned to the Magistrates' Courts. It is believed that the work will be practically completed by the middle of March.

The food clean-up campaign was inaugurated because of the many circumstantial complaints sent to the Commissioner of Health just prior to and during the Christmas holidays. The Commissioner instructed an Inspector, in whom he had great confidence, to make careful inspections in various parts of the City in order that these serious complaints might be confirmed or disproved and, much to his chagrin, found that the conditions were almost universally bad. In the majority of instances, the places complained of were merely dirty by reason of carelessness or lack of knowledge on the part of the proprietors. In other instances, structural defects also existed. Despite the small force of Food Inspectors available, the Commissioner formed a special "clean-up squad" by drafting Inspectors from the other bureaus and directed that a thorough tour of inspection of all places in the City where food was handled be at once undertaken. The City was divided into small districts and each Inspector required to make careful inspections of all places where food was handled.

Out of some twenty thousand places inspected, 6,134 were merely dirty; 2,021 had structural defects; in a little over 1,000 places, structural defects and filth existed side by side. It is gratifying to know 5,000 of the 6,000 dirty places have already been reinspected and of this number less than fifty had disregarded the instructions of the Department. These were summoned to the Magistrates' Courts where, in every instance, fines were imposed in accordance with the gravity of the offense.

If the store you patronize is not kept clean, notify the Department of Health.

EXEMPT POSITIONS VACANT.

The attention of physicians is called to the fact that a vacancy in the position of Attending Physician to the Tuberculosis Clinic exists in Stapleton Clinic, Borough of Richmond. The position requires attendance at the Clinic on Tuesday, Thursday and Saturday from two to four p. m. for the examination and treatment of tuberculosis patients, together with such visits to these patients in their homes as may be necessary. The Physicians attached to this service receive a compensation of \$600 per annum and are required to conform to all the rules and regulations of the Department of Health governing its employees.

Candidates for the position should make application to Dr. John S. Billings, Director, Bureau of Infectious Diseases, No. 149 Centre st., New York City, and should include in their applications a statement concerning their special qualifications for the position.

ALMOST LOST A CORONET.

A few years ago a young lady socially prominent in this city became engaged to a foreign nobleman. In order that the marriage should be recognized as valid in his country, it was necessary for the bride to attach to the various required papers a transcript of the official record of her birth. As she was born in this city some thirty years previously, the family communicated with the Department of Health requesting the necessary transcript. To their dismay, they found that the attending physician had neglected to register the birth, and there was no record whatever at the Department of Health. After much difficulty, the physician who had officiated at the birth, and who was now over eighty years of age, was located and a certificate of birth obtained from him. A blank petition to allow this certificate to be filed was then forwarded to the parents, with instructions to fill out the same and make the necessary affidavits before the American Consul in their city. On the receipt of the petition, affidavits and certificate of birth, the matter was presented to the Board of Health, which thereupon consented to record the delayed certificate, thus enabling another of America's fair daughters to realize her fond dream of wearing a coronet. It is not hard to imagine what the young lady and her family thought of the physician's failure to file the certificate at the time of birth.

FILE YOUR BIRTH CERTIFICATE PROMPTLY.

It is estimated that fully ninety-eight per cent. of all births occurring within the city limits are filed with the Department of Health and that ninety-five per cent. of the returns are received within ten days after the dates of birth. This almost complete compliance with the law has been obtained within the past few years, and then only as a result of disciplinary action on the part of the Board of Health, fines being imposed ranging from ten to one hundred dollars, the amount depending upon the extent of the violations and the record of the individual in this regard.

The Department, by reason of this satisfactory condition, is now in a position to measure its infant mortality (that is, the mortality under one year of age)—on each one thousand births reported, enabling comparisons to be made between the rate of this City with that of the large foreign cities and with a few of the large domestic ones.

The uses to which the birth records are put at the present time are many and important and may be divided into five classes:

1. Scholastic; 2. Commercial; 3. Legal; 4. Social, and 5. Statistical.

1. The child seeking admission to the public schools must present a record of its birth, certified by the Department of Health.

2. The law governing the issuance of employment certificates to children between fourteen and sixteen years of age, compels the applicant to furnish evidence of age, as contained in the certificate on file with the Department of Health.

3. Furnishing proof of age is often required in securing legacies, pensions, etc. Very often in criminal cases the prosecution of persons charged with abduction or rape depends upon the evidence on record as to the age of complainant.

4. In Continental Europe marriages may not be contracted unless certain formalities are complied with and one of these is the filing of certified transcripts of official records of birth of the contracting parties.

5. The gauge of infant mortality is best expressed by the number of deaths per thousand births reported and is used entirely by English and Continental statisticians in their reports on vital statistics and will undoubtedly come into general use in the country when births are recorded in their entirety.

A word may be said as to the advisability of physicians and midwives complying strictly with the provision of the law which compels the filing of a certificate of birth within ten days after its occurrence. It is our experience that the observance of the law is far more complete where medical attendants are held to a strict compliance with the ten-day provision than if laxity as to the date of filing prevailed. The Department of Health therefore urges physicians not to wait beyond the seventh or eighth day for parents to make up their minds as to the given name of the infant, but to send in the certificate without the given name, which latter may be added to the certificate at the future convenience of the parents. Another important procedure for the medical attendant to follow is to insist upon an acknowledgment by the Department of Health within three or four days of the receipt of certificates mailed to it.

MORTALITY FOR WEEK ENDING MARCH 14, 1914.

There were 1,705 deaths and a death rate of 15.93 per 1,000 of the population reported during the past week as against 1,848 deaths and a rate of 17.94 during the corresponding week in 1913, an absolute decrease of 143 deaths and a relative decrease of 215 deaths, equivalent to a lowering in the weekly death rate of 2.01 point.

The following causes showed material decreases: measles, scarlet fever, diphtheria and croup, whooping cough, typhoid fever, cerebro-spinal meningitis, diarrhoeal diseases under five years of age, other digestive diseases, lobar pneumonia, broncho pneumonia, Bright's disease and nephritis; the causes showing an increased mortality were: organic heart diseases, influenza. The number of deaths reported from all forms of tuberculosis remained the same.

Viewed from the point of age grouping, the mortality of infants under one year of age showed a decrease of 24 deaths, between one and five years of age 67 deaths, between five and sixty-five years of age 25 deaths, and at sixty-five years and over 27 deaths. It is thus seen that the greatest saving was among the children under five years of age, due to the diminished prevalence of the infectious diseases and their sequelae.

The death rate for the first eleven weeks of 1914 was 15.45 per 1,000 of the population as against a rate of 15.79 for the corresponding period of 1913, a decrease of .34 of a point.

BUDGET FOR 1914.

Resolved, That, pursuant to the provisions of section 226 of the Greater New York Charter, the Board of Estimate and Apportionment makes this, the Budget of The City of New York for the year one thousand nine hundred and fourteen, the total amount appropriated being:

Second—The amount estimated to be the deficiency on January 1, 1913, in the product of taxes theretofore levied, deemed to be uncollectible and not otherwise provided for, as required by chapter 209 of the Laws of 1906, being section 248 of the Greater New York Charter:

Two million five hundred thousand dollars (\$2,500,000).

Third—The amounts estimated to be required to pay the assessments levied against the Boroughs of Manhattan and Brooklyn for the year one thousand nine hundred and fourteen:

Fourth—The amounts estimated to be required to pay the charges and expenses of the Counties of New York, Bronx, Kings, Queens and Richmond for the year one thousand nine hundred and fourteen:

Six million six hundred and thirty thousand one hundred and sixty-five dollars and sixty-six cents (\$6,630,165.66).

Resolved, That this, the Budget of The City of New York, as hereby made in pursuance of section 226 of the Greater New York Charter, shall be administered under the following terms and conditions:

First—

- That no transfers shall be made from appropriations or schedules of "Salaries Regular Employees," to any other appropriation or schedule than "Salaries Regular Employees."
- That no transfers shall be made from appropriations or schedules of "Salaries Temporary Employees," to any other appropriation or schedule than "Salaries Temporary Employees."
- That no transfers shall be made from appropriations or schedules of "Wages Regular Employees," to any other appropriation or schedule than "Wages Regular Employees."
- That no transfers shall be made from appropriations or schedules of "Wages Temporary Employees," to any other appropriation or schedule than "Wages Temporary Employees."
- That no transfers shall be made from or to appropriations classified as "Hire of Horses and Vehicles with Drivers," "Hire of Horses and Vehicles without Drivers" or "Hire of Automobiles," except to or from an appropriation classified as "Hire of Horses and Vehicles with Drivers," "Hire of Horses and Vehicles without Drivers," or "Hire of Automobiles."
- That no transfers shall be made from appropriations or schedules of "Fees and Commissions," to any other appropriation or schedule than "Fees and Commissions."
- That no transfers shall be made from any of the appropriations made herein under any classification other than "Personal Service," to any appropriation classified as "Personal Service," except in cases where the title of appropriation specifically provides for transfers herein forbidden, or in cases where appropriations were made under the classification of "General Repairs," if, upon the written statement of the Department Head, the Board of Estimate and Apportionment finds that the repair work can be done more economically by departmental labor.
- That no transfers shall be made from any of the appropriations made herein under any classification where the title of the appropriation prohibits such transfer or when the appropriation is made conditional upon the purchase of some stated article or articles or for the payment of insurance or taxes, although otherwise the transfer might be proper under the Budget resolutions in the Budget for 1914.

Second—That no change shall be made by any Board or head of an Office, Bureau or Department in the City or County governments in the schedules of "Salaries Regular Employees," "Salaries Temporary Employees," "Wages Regular Employees," "Wages Temporary Employees," "Fees and Commissions," herein contained, except when authorized thereto by twelve (12) votes of the Board of Estimate and Apportionment, and that no requests for changes shall be considered except as follows:

- In the case of schedules or appropriations of "Salaries Regular Employees," where the proposed change will not increase the amounts expendable in any month to more than one-twelfth of the total amount herein appropriated for "Salaries Regular Employees."
- In the case of schedules or appropriations of "Wages Regular Employees," where the proposed change will not increase the amounts expendable in any week to more than the pro rata of the number of working days in such week to the total number of working days provided for such schedule line for the whole year.

Third—That in case of modifications of schedules or transfers within appropriations classified as "Personal Service," where one of the appropriations is a Tax Levy part appropriation, the full amount of cash necessary to pay the total salaries or wages of the incumbents transferred for the balance of the year 1914 shall be transferred to the appropriation to which the incumbents are transferred.

Fourth—

- That the heads of the several Boards, Offices, Bureaus and Departments of the City and County governments shall prepare their several payrolls for audit by the Department of Finance in accordance with the items of the aforesaid schedules, entitled "Salaries Regular Employees," "Salaries Temporary Employees," "Wages Regular Employees," "Wages Temporary Employees," "Fees and Commissions," or in case these items have been changed by twelve (12) votes of the Board of Estimate and Apportionment, in accordance with the items of the schedules as changed, and that no payroll shall be passed by the Department of Finance unless the incumbents and the rate of individual compensation agree with such schedule lines as originally adopted or as hereafter modified by the Board of Estimate and Apportionment.
- That each and every payroll shall be accompanied by a recapitulation showing the exact amount expended to and including said payroll for every item appearing on the schedules supporting any of the appropriations against which all or any part of the moneys involved in said payrolls is to be charged, and that this recapitulation shall contain the full schedule supporting any such appropriations or in case these schedules have been changed by twelve (12) votes of the Board of Estimate and Apportionment, the full schedules as changed.
- That each payroll of any Department, in addition to any other departmental number, shall be numbered during the year serially, beginning with number one for each specific account, and such payroll shall bear a certificate signed by a person cognizant of the fact, stating that the recapitulation attached thereto is the correct recapitulation for the payroll bearing said number.
- That in all instances where changes in schedule items have been made by twelve (12) votes of the Board of Estimate and Apportionment, all sums which have been expended against such schedule items as are changed shall

be apportioned against the new lines in the same ratio as the new totals of the schedule items bear to the old totals.

(e) That on all payrolls against schedules entitled, "Salaries Regular Employees," and "Wages Regular Employees," there shall be set forth the monthly or weekly pro rata expenditures against such schedules, or in case the items on such schedules have been changed by twelve (12) votes of the Board of Estimate and Apportionment, the monthly or weekly pro rata expenditures against such schedules as changed.

(f) That there shall be affixed to all payrolls a certificate made by the person preparing such payroll to the effect that there is a time record on file in said Board, Office, Bureau or Department, certified by the person or persons having knowledge of the facts, showing the character of service and the exact time of employment of such person or persons, except heads of departments, and excepting bureau and division heads relieved by the head of their department from the duty of keeping such record on said payrolls, and that the distribution or division of the time of such person or persons as shown on such payrolls is in accordance with such time record.

—Be it further

Resolved, That wherever an appropriation under the classification of "Supplies," "Purchase of Equipment," "Materials," "Contract or Open Order Service," "Contingencies" or "Fixed Charges and Contributions" is supported by a schedule, all expenditures against such appropriation shall be made in accordance with such schedule and no voucher shall be passed by the Department of Finance for a sum exceeding the amount shown in said schedule, except when such schedule shall have been changed by twelve (12) votes of the Board of Estimate and Apportionment, and that the heads of the several Boards, Offices, Bureaus and Departments of the City and County Governments shall transmit to the Department of Finance on the first day of each month, or as soon thereafter as possible, a statement showing, firstly, the aggregate liabilities incurred against such schedules for which vouchers have been transmitted to the Department of Finance, and, secondly, all additional liabilities incurred against such schedules for which vouchers have not as yet been transmitted.

—Be it further

Resolved, That wherever an appropriation under the classification of "Supplies," "Purchase of Equipment," "Materials," "Contract or Open Order Service," "Contingencies" or "Fixed Charges and Contributions" is supported by a schedule, such schedule shall be conclusive as to the amount allowed for each function or subdivision, and the heads of departments shall submit to the Department of Finance on the first day of each month, or as soon thereafter as possible, a statement showing the amounts consumed the previous month chargeable against each supporting schedule line of the appropriation, which monthly amount, in the aggregate, shall not exceed the amount specified in the schedule, unless modified by twelve (12) votes of the Board of Estimate and Apportionment.

—Be it further

Resolved, That all appropriations under a classification other than "Personal Service," to any Board, Office, Bureau or Department of the City or County Governments, made in this Budget, be made under the following conditions:

First—That, in so far as practicable, all contracts and open market orders for purchases to be charged against such appropriation shall be based upon specifications which are definite and certain as to character and quality, and which conform with standard specifications for the various classes of supplies, materials, fuel and forage already approved or hereafter to be approved by this Board.

Second—That, in so far as such standard specifications may be established by this Board, the Comptroller at the time of certifying to the sufficiency of appropriations out of which such contracts are to be paid shall also certify that the specifications for such supplies or materials, fuel or forage or other articles for which standard specifications have been prescribed, are in conformance with such standard specifications.

Third—That all open market orders issued by any Department for supplies and materials, for which standard specifications shall have been prescribed, shall contain a description of the goods ordered, conforming with such standard specifications.

Fourth—That the Comptroller shall, in auditing claims for goods delivered on open market orders, determine, through inspection or otherwise, whether the goods delivered conform to such standard specifications.

—Be it further

Resolved, That the Board of Estimate and Apportionment hereby recommends to the Board of Aldermen, in accordance with section 56 of Greater New York Charter:

First—That the positions and grades of positions appearing in the schedules under the classification "Personal Service," and entitled "Salaries Regular Employees," supporting the appropriations made to the different Boards, Offices, Bureaus and Departments of the City or County Governments in the Budget of The City of New York for the year one thousand nine hundred and fourteen be established in the different Boards, Offices, Bureaus and Departments of the City or County Governments for the number of incumbents shown in said schedules, except that in all cases where a position or grade of position has previously been established for an unlimited number of incumbents, or for a number of incumbents greater than the number shown in said schedule, nothing in this resolution contained shall be deemed to reduce the number of incumbents previously authorized.

Second—That the positions and grades of positions appearing in the schedules under the classification "Personal Service," and entitled "Wages Regular Employees," "Salaries Temporary Employees," "Wages Temporary Employees" and "Fees and Commissions," supporting the appropriations made to the different Boards, Offices, Bureaus and Departments of the City or County Governments in the Budget of The City of New York for the year one thousand nine hundred and fourteen be established in the different Boards, Offices, Bureaus and Departments of the City or County Governments.

Third—Nothing in this resolution contained shall be deemed to nullify or abolish any position or grade of position in the different Boards, Offices, Bureaus and Departments of the City or County Governments which has been previously established, but which does not appear in the schedules entitled "Salaries Regular Employees," "Salaries Temporary Employees," "Wages Regular Employees," "Wages Temporary Employees" and "Fees and Commissions," supporting the appropriations made to the different Boards, Offices, Bureaus and Departments of the City or County Governments in the Budget of The City of New York for the year one thousand nine hundred and fourteen.

—Be it further

Resolved, That all departments of City and County Government, for which appropriations for food supplies have been made in the Budget for 1914, shall make an inventory on January 1, 1914, to determine the number of units of each article of food in stock, either in stores or in the institution and the cost value thereof, and shall thereafter keep an accurate record showing the cost price per unit, the number of units purchased and the total cost of all articles of food purchased in each month; that such departments shall keep an accurate record of the quantities of food supplies consumed by patients or inmates, such record to be entirely separate and distinct from the consumption of food supplies by employees or persons other than patients and inmates; and such departments shall keep an accurate record of the number of units of food supplies and the cost thereof consumed by the employees, such record to be entirely distinct from the record of food consumption by patients and inmates and such departments are directed to submit to the Comptroller at the first of each month, a statement on budget accounting forms to be submitted by the Comptroller showing the stock on hand at the beginning of the preceding month, the number of units and price per unit and cost amount of the supplies delivered to the department within the preceding month, the number of units and cost amount of food supplies consumed by patients or inmates within the preceding month, the number of units and cost amount of food supplies consumed by employees within the preceding month, the aggregate number of patients or inmate days within the preceding month, the aggregate number of employee days within the preceding month, the daily per capita consumption of food supplies in pounds and the cost amount thereof by patients or inmates in the preceding month, the daily, per capita, consumption of food supplies in pounds and the cost thereof by employees in the preceding month, and the total number of units consumed and the cost thereof within the preceding month, the stock on hand at the end of the month and such other information as may be required upon the budget accounting forms, provided, however, that this resolution shall not apply to administrative departments to which food supply appropriations have been made to be used in payment for meals of employees properly entitled to such meals by reason of overtime work.

Resolved, That all departments receiving appropriations for wearing apparel in the 1914 Budget shall make an inventory on January 1, 1914, to determine the number

of units of each article of wearing apparel in stock or available for use in the institutions and shall keep a record thereafter of all wearing apparel purchased and delivered to the department; and shall keep a record showing the name of each patient, inmate and employee receiving wearing apparel, the character and cost of the wearing apparel issued to each employee, patient or inmate and a record showing in each case whether the wearing apparel issued was taken away from the institution or was returned to be reissued to other patients, inmates or employees; that such information shall be submitted to the Comptroller at the end of each quarter upon budget accounting forms furnished by the Comptroller.

Resolved, That the several boards, departments, offices and bureaus of the City and County Government are hereby directed to keep records showing the number of units and the cost amount of stock on hand at the beginning of each quarter, the cost price per unit, the number of units purchased and the total and cost of the number of units, the price per unit and the cost amount of all articles of equipment, supplies and materials purchased in 1914 and charged against appropriations made in this budget and such boards, departments, offices and bureaus are directed to submit to the Comptroller at the end of each quarter a statement of stock on hand, purchases, deliveries and consumption, with the number of units, cost price per unit and the cost amount of all articles of equipment, supplies and materials purchased, delivered and consumed within the quarter, provided, however, that this resolution shall not apply to appropriations for food supplies and wearing apparel.

—Be it further

In all other respects such accounts and records shall be in the form required by the Comptroller of The City of New York, and as far as practicable, such accounts shall be kept on an income and expense basis.

2. All payments made to charitable institutions in pursuance of the said appropriations shall be used by such institutions only for expenses incurred by the institution for the care, support, maintenance and education of inmates duly committed by the courts or the Commissioner of Charities or accepted by said Commissioner as public charges, but they shall not include any expense for improvements or additions to plant or equipment, except as stated, or any payments on account of principal of mortgages. 3. All institutions receiving funds by appropriation from The City of New York and their books of record and account, so far as they relate to institutional activities, shall be open at reasonable times to the visitation, inspection and examination of the Board of Estimate and Apportionment, the Department of Finance and the Department of Public Charities, by their duly authorized Commissioners, officers or inspectors, excepting, however, that the accounts pertaining to the activities of any religious order which may be in charge of any such institution shall be segregated from the other accounts and shall not be subject to this regulation.

4. Upon the determination of said board that such payments shall terminate, the right of any such institution to receive payment from any such appropriations shall thereupon end.

6. The names and ages of inmates with a statement of the period for which payment is claimed must be placed on all bills rendered by such institutions for their care, support and maintenance prior to the presentation of such account for payment to the Department of Finance. The certificate of the Commissioner of Public Charities under regulation two hereof must also be attached to such bills. Except in emergency cases the Commissioner of Public Charities shall not accept as proper charges persons capable of paying for their own support or for whose care adequate provision can be made in the public hospitals. No case shall be regarded as an emergency case unless there shall have been made a certificate to that effect by a properly authorized and informed representative of the institution by which such case was received.

7. The City shall not be liable for any claim by any charitable institution which shall be in excess of the amount apportioned to such institution in this budget, notwithstanding the acceptance of the Commissioner of Public Charities of any per capita rates of payment that may have been fixed for various classes of inmates thereof.

8. No money shall be paid to any institution which pays any salary to, gives any consideration for services (financial or otherwise) by, has any business dealing with, or secures goods or merchandise (directly or indirectly) from any officer or trustee or member of its board of managers, or where any such person otherwise receives any pecuniary profit from the operation of such institution.

9. Child-caring institutions not sending their inmates to the public schools, and not sharing in the corporate school fund, and not receiving teachers and school supplies from the Board of Education, but giving in their own buildings secular education to the children resident in the institution for five (5) hours daily for a period equal to the public school year, shall be paid a per capita of 7 cents per day for five (5) school days in the week, for each child of five years of age and over receiving such instruction except that for abnormal or atypical children a special rate in excess of this amount may be made by the Comptroller. Institutions receiving a per capita allowance for the education of their inmates shall be under the general supervision of the Board of Education, as required by the general conditions relating to institutions receiving corporate school money, provided in section 1154 of the Charter of The City of New York.

10. No dependent child under 16 years of age shall be accepted as a proper charge upon the City, and no money shall be paid for the care, support, maintenance or education of such child unless it shall have been lawfully committed to a suitable private charitable institution having its own plant and equipment for the proper protection and care of children and being under the supervision of the State Board of Charities and which has been placed in this budget by the Board of Estimate and Apportionment.

11. The Department of Health shall maintain in all child-caring institutions receiving funds by appropriation from The City of New York for each inmate accepted as a public charge under the rules of the State Board of Charities, and as herein provided, a complete physical and health record in which shall be recorded the name, age, sex, height and weight, time of admission, general physical condition, including the presence or absence of defects in eyesight, breathing, teeth or any organic defect, in a manner to conform as nearly as practicable with the records maintained by the Department of Health for children in the public schools in The City of New York. It shall also record the dietary actually employed in such institutions for the feeding of its inmates. Such statistics and records shall be made and revised by the Board of Health once in each six months.

12. Each institution shall give to the Comptroller on forms prescribed by him notice of the reception or discharge of any person for whose care City or county funds are to be received within twenty-four hours after his arrival at or discharge from the institution.

13. The rates of payments to private charitable institutions, unless otherwise specifically provided for, are fixed for the various classes of inmates as follows: Provided that where the Comptroller finds, after proper investigation, that any per capita rate hereinafter stated is too high, he is hereby authorized, on the approval of the Board of Estimate and Apportionment, to reduce such per capita rate for any or all institutions.

PUBLIC SERVICE COMMISSION.

Proposals.

INVITATION TO CONTRACTORS.

Part of the Broadway-Fourth Avenue Rapid Transit Railroad.

THE PUBLIC SERVICE COMMISSION FOR THE First District (hereinafter called the "Commission") invites proposals to construct Section No. 1 of Route No. 33, a part of the Broadway-Fourth Avenue Rapid Transit Railroad.

The points within The City of New York between which the said part is to run and the route or routes to be followed are briefly as follows:

Section No. 1. Beginning at a point under Trinity place, in the Borough of Manhattan, about fifty (50) feet north of the northerly building line of Morris street, thence extending southerly under Trinity place to the southerly building line of Morris street, thence extending southerly and southeasterly through private property in the block bounded by Morris street, Broadway, Battery place and Greenwich street to Broadway, thence extending southeasterly under Broadway and Bowling Green to Whitehall street, thence extending southerly under Whitehall street to a point about twelve (12) feet south of the northerly building line of South street.

The general plan of construction calls for a subway railroad having two and three tracks. The Contractor will not be required to provide or lay tracks, ties or ballast, nor to do station finish work.

The work under the contract will include the care and support of buildings, vaults, sewers, pipes, railroads and other surface, subsurface and overhead structures, the maintenance of traffic and the restoration of pavements and other surfaces.

The method of construction, unless otherwise permitted by the Commission, will be partly by tunneling and partly by trench excavation under cover.

Bidders must examine the form of contract and the specifications and contract drawings; must visit the location of the work and inform themselves of the conditions along the line of the work and make their own estimates of the facilities and difficulties attending the execution of the work.

A fuller description of the work and other requirements, provisions, details and specifications are given in the form of contract and in the contract drawings therein referred to, which are to be deemed a part of this Invitation. Copies of the form of contract, contract drawings, bond and contractor's proposal may be inspected and purchased at the office of the Commission, No. 154 Nassau street, Borough of Manhattan, New York City.

Partial payments to the Contractor will be made monthly as the work proceeds.

The Contractor must complete the work within thirty-two (32) months from the delivery of the contract.

At the time of the delivery of the contract the Contractor must furnish security to the City by depositing a bond, cash or securities in the sum of two hundred thousand dollars (\$200,000). As further security fifteen (15) per centum of the amounts certified from time to time to be due to the Contractor will be deducted until the amounts so deducted and retained shall equal ten (10) per centum of the total estimated amount to be paid to the Contractor under the contract. Thereafter there shall be so deducted and retained for such purpose ten (10) per centum of the amounts certified from time to time to be due to the Contractor.

Sealed bids or proposals will be received at the office of the Commission at No. 154 Nassau street, Borough of Manhattan, City of New York, until the 14th day of April, 1914, at twelve fifteen (12:15) o'clock p. m., at which time, or at a later date to be fixed by the Commission, the proposals will be publicly opened.

Proposals must be in the form prescribed by the Commission.

A statement based upon the estimate of the Chief Engineer of the Commission of the quantities of the various classes of the work and of the nature and extent as near as practicable of the work is to be found in the schedule in the form of contractor's proposal. The quantities given in such schedule are approximate only, being given as a basis for the uniform comparison of bids, and no claim is to be made against the City on account of any excess or deficiency, absolute or relative, in the same, except as provided in the specifications and form of contract.

Every proposal must when submitted be enclosed in a sealed envelope endorsed "Proposal for Constructing Part of Rapid Transit Railroad, Route No. 33, Section No. 1" and must be delivered to the Commission or its Secretary; and in the presence of the person submitting the proposal, it will be deposited in a sealed box in which all proposals will be deposited. No proposal will be received unless accompanied by a separate certified check for twenty-five thousand dollars (\$25,000) payable to the order of the Comptroller of the City and drawn upon a National or State bank or trust company having its principal office in the City of New York, and satisfactory to the Commission. Such check must not be enclosed in the envelope containing the proposal.

The Unit Prices must not be improperly balanced, and any bid which the Commission considers detrimental to the City's interests may be rejected.

No proposal, after it shall have been deposited with the Commission, will be allowed to be withdrawn for any reason whatever.

The award of the contract will be made by the Commission as soon as practicable after the opening of the proposals.

Deposits made by bidders whose proposals are not accepted will be returned within five (5) days after the contract is executed and delivered. The deposit of the successful bidder will be returned when the contract is executed and its provisions in respect of the bond or deposit are complied with.

The right to reject any and all bids is reserved.

PUBLIC SERVICE COMMISSION FOR THE FIRST DISTRICT.

INVITATION TO CONTRACTORS.

For the Supply of Track Materials for Use in the Construction of Rapid Transit Railroads.

THE PUBLIC SERVICE COMMISSION FOR THE First District (hereinafter called the "Commission") invites proposals to supply track materials for use in the construction of rapid transit railroads, to wit: Tie Plates, Felt Pads and Ballast.

A fuller description of the materials and other requirements, provisions, details and specifications are stated in the form of contract, which is to be deemed a part of this Invitation. Copies of the form of contract, bond and contractor's proposal may be inspected and purchased at the office of the Commission, No. 154 Nassau street, Borough of Manhattan, New York City. Copies of contract drawings T-1016 and T-1002 for Felt Pads may be inspected and purchased at the same office. Copies of drawings T-1015 and T-1016, showing the general nature of the Tie Plates desired, may be inspected and purchased at the same office, but bidders for the supply of Tie Plates must submit with their proposals competitive drawings showing the details of the Tie Plates which they propose to furnish, and the drawings so submitted will, if the proposal be accepted, be made part of the contract.

The Ballast is to be bid upon in five separate lots. Four of these lots shall be for approximately ten thousand (10,000) cubic yards each and the fifth lot shall be for approximately twelve thousand (12,000) cubic yards. The first lot (of approximately ten thousand (10,000) cubic yards) is to be delivered between May 1, 1914, and July 1, 1914; the second lot (of approximately ten thousand (10,000) cubic yards) is to be delivered between June 1, 1914, and August 1, 1914; the third lot (of approximately ten thousand (10,000) cubic yards) is to be delivered between July 1, 1914, and September 1, 1914; and the fifth lot (of approximately twelve thousand (12,000) cubic yards) is to be delivered between August 1, 1914, and October 1, 1914; except as provided in the form of contract.

Bidders for Ballast may submit proposals in either or both of two ways. In the first place a bidder may submit a proposal for supplying any one or more of the separate lots to be delivered as above stated, specifying in his proposal by lot number or numbers the particular lot or lots which he proposes to furnish, in which event such proposal will be considered as for the particular lot or lots so specified and not for any other lot. In the second place a bidder may, without specifying any particular lot or lots, submit a proposal for supplying any one or more lots which the Commission may elect to award to him, in which event the Commission shall have the right to award any of the lots above stated to the successful bidder, and in which event, also, in case any bidder shall propose to furnish more than one lot, the Commission may award the full number of lots which such bidder offers to furnish or any lesser number. In case any bidder shall so submit a proposal for supplying any one or more lots without specifying any particular lot or lots to which he desires to restrict his bid, the Commission may award to him any of the lots above stated to be delivered within the periods above named. The award of the contract or contracts, if made, will in any case, however, be made for the lots above described separately.

Ballast is to be either trap rock or hard limestone, and proposals will be received for either kind of Ballast. The award of the contract or contracts, if made, for each lot will be for one or the other kind of Ballast as the Commission may in its discretion elect. The Contractor will not have the option under the contract of furnishing either kind of Ballast, but must furnish the kind for which the proposal is submitted and the contract awarded.

Proposals may be submitted for any one or more of the different types of Tie Plates, and the award of the contract or contracts, if made, will be for each type separately.

Bidders for Tie Plates and Felt Pads shall specify in their proposals the rate of delivery and times of first and last delivery of the material. In view of the necessity for prompt deliveries, the times of delivery as set forth in the Contractor's Proposal as well as the prices contained therein will be considered in awarding the contract.

Proposals must be in the form prescribed by the Commission.

Sealed bids or proposals will be received at the office of the Commission at No. 154 Nassau street, Borough of Manhattan, City of New York, until the 26th day of March, 1914, at twelve fifteen (12:15) o'clock p. m., at which time, or at a later date to be fixed by the Commission, the proposals will be publicly opened.

Every proposal must, when submitted, be enclosed in a sealed envelope endorsed "Proposal for Supplying Track Materials for use in the construction of Rapid Transit Railroads," and must be delivered to the Commission or its Secretary; and in the presence of the person submitting the proposal it will be deposited in a sealed box, in which all proposals will be deposited.

Every proposal must be accompanied by a certified check in a sum not less than ten (10) per centum of the amount of the bid, except that a minimum deposit of two hundred dollars (\$200) will be required with all bids and that a deposit of two thousand dollars (\$2,000) will be sufficient to entitle bidders to bid on any or all of the different materials. Certified checks submitted with proposals must be payable to the order of the Comptroller of The City of New York and must be drawn upon a National or State bank or trust company satisfactory to the Commission and having its principal office in New York City.

Deposits made by bidders whose proposals are not accepted will be returned within five (5) days after the contract is executed and delivered. The deposit of the successful bidder will be returned when the contract is executed and its provisions in respect of the bond or deposit are complied with.

No proposal, after it shall have been deposited with the Commission, will be allowed to be withdrawn for any reason whatever.

The award of the contract will be made by the Commission as soon as practicable after the opening of the proposal.

The right to reject any and all bids is reserved.

NOTICE TO BIDDERS AT SALES OF OLD BUILDINGS, ETC.

TERMS AND CONDITIONS UNDER WHICH BUILDINGS, ETC., WILL BE SOLD FOR REMOVAL FROM CITY PROPERTY.

THE BUILDINGS AND APPURTENANCES thereto will be sold to the highest bidder, who must pay cash or certified check, drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of \$50, the sum of \$50 shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstances of vacating the structures of their tenants will permit.

All the material of the buildings, sheds, walks, structures and cellars of whatever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations and the sidewalks and curb in front of said buildings, extending within the described area shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street, and the opening of the main sewer

in street shall be properly closed in compliance with the directions of the Bureau of Sewers in the Borough in which the buildings are situated, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all opening in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any part thereof, within thirty days from the day of possession will work forfeiture of ownership of such buildings, appurtenances, or portion as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed, and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the day of possession, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furnishings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting beams, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs and adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the Contractor.

The Comptroller of The City of New York 1. serves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids; and it is further

Resolved, That, while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.
