STATE INDUSTRIAL COMMISSION—DEPARTMENT OF LABOR.

Public Notices.

Whereas, the Harlem Independent Hygeia Ice Co. has made application for exemption of two engineers and two firemen from the provisions of Section 8-a of the Labor Law, and

Whereas, an investigation shows that the manufacture of the product of this company, artificial ice, is necessarily a continuous one, and

Whereas, the engineers and firemen for whom exemption is asked now work eleven hours per day, from 6 A. M. to 6 P. M. and from 6 P. M. to 6 A. M. with one hour for lunch, and

Whereas, it appears that if the request for exemption is approved by the Industrial Commission the employees affected thereby will secure a greater period of rest and will work under less irksome conditions than are attendant upon the present schedule, therefore be it

Resolved, that the Harlem Independent Hygeia Ice Co. at foot of East 108th St., New York City, be granted exemption from the provisions of section 8-a for two engineers and two firemen, with the proviso that the employees affected by the exemption shall not be required or permitted to work more than eight hours per day and that the exemption shall be for the months of June, July, August and September, 1916, only.

I, HENRY D. SAYER, Secretary of the State Industrial Commission of the State of New York, DO HEREBY CERTIFY that I have compared the foregoing copy of a resolution with the original thereof, duly adopted by the State Industrial Commission on the 28th day of March, 1916, and duly filed in the office of said Commission, and that the same is a true and correct copy and transcript of said resolution and of the whole thereof.

IN WITNESS WHEREOF, I have hereunto set my hand and affixed the seal of the State Industrial Commission this 31st day of March, 1916.

Whereas, Cannella & Gallo 60 Graham Ave., Brooklyn, N. Y., have filed a petition dated January 6th, 1916, for a variation from the provisions of Section 79-a-2, re required exits, and 79-a-3, re enclosure of stairways and extension of stairways to roof, on the proposed building 2372 Pacific St., Brooklyn, N. Y., and

Whereas, a public hearing has been held on

the 3rd day of March, 1916, at 230 Fifth Ave., N. Y. C., and opportunity for all interested persons to be heard thereon having been given, and

Whereas, an examination of the plans of the said proposed building has been made and a report of such examination is on file in the office of the Commission, from which examination it appears that the said proposed building will be of non-fireproof construction, approximately 26' 9" x 24' 6" and two stories high, will be occupied by one tenant and used for the manufacture of clothing, with a stated occupancy of not more than ten persons above the ground floor. Exits shown consist of one unenclosed interior stairway and one exterior screened stairway, both terminating at top floor; and there appearing from such examination and public hearing that there are practical difficulties and unnecessary hardship in carrying out the strict provisions of the law or the rules and regulations of the Industrial Code on the said proposed building, and that in the granting of a variation on said proposed building the spirit of the law and rules and regulations will be observed and public safety secured;

Be it resolved by the State Industrial Commission that variation to permit an unenclosed interior stairway be not granted. That an exterior screened stairway not less than 3' 0" wide and conforming to the provisions of Section 79-f-10 of the Labor Law be permitted as one of the required means of exit. That both stairways terminate at top floor.

PUBLIC NOTICE IS HEREBY GIVEN PURsuant to law that at a meeting of the Board of Estimate and Apportionment, held March 10, 1916, the following petition was received:

Board of Estimate and Apportionment of The City of New York.

Petition in the matter of the application of The Long Island Railroad Company for the consent of The City of New York to the construction and operation of a branch of its railroad, to be known as the Creedmoor-Flushing Branch, across certain streets, avenues or highways in the Borough of Queens, in The City of New York.

To the Honorable the Board of Estimate and Apportionment of the City of New York:

The Long Island Railroad Company, the petitioner herein, alleges as follows:

I. That it is a domestic railroad corporation organized and existing under and pursuant to the provision of Chapter 178 of the Laws of 1834, the acts amendatory thereof and supplementary thereto, and the Railroad Law of the State of New York.

II. That on April 29th, 1839, an act to amend the Charter of The Long Island Railroad Company was passed by the legislature of the State of New York and subsequently became Chapter 277 of the Laws of 1839. That the third section of said act reads as follows:

"Section 3. The said corporation are hereby authorized to construct such branch railroads in any part of Long Island as they may deem expedient and necessary in cases where the landholders may offer the land required for those purposes, free of expense; but no branch road shall be constructed at the expense of the said corporation until they shall have completed and ready to put into operation the main track of their said road."

III. That on April 21st, 1862, an act to amend said Chapter 277 of the Laws of 1839 was passed by the legislature of the State of New York and subsequently became Chapter 413 of the Laws of 1862. That said act reads as follows:

"Section 1. The third section of the act entitled 'An Act to Amend the Charter of the Long Island Railroad Company,' passed April twenty-ninth, eighteen hundred and thirty-nine, is hereby amended so as to read as follows:

"The said corporation are hereby authorized to construct such branch railrod in any part of Long Island, except the County of Kings, as they may deem expedient and necessary, subject to the provisions of the general railroad law, provided that no such branch railroad be constructed west of the eastern boundary of the village of Jamaica.

"Section 2. This act shall take effect immediately."

III. That on January 27th, 1916, the Public Service Commission of the State of New York for the First District made an order dated on that day granting to The Long Island Railroad Company the permission and approval of said Commission to the construction of a branch line of railroad from the end of its tracks at Creedmoor to a point west of Lawrence Street, Flushing, all within The City of New York, and to the exercise of such franchise or right as it may possess under the provisions of Section 3 of Chapter 277 of the Laws of 1839 as amended by Chapter 413 of the Laws of 1862. By the terms of said order such permission and approval was conditioned upon and was not to take effect until the said Railroad Company should have obtained from The City of New York the franchise or right to cross certain existing streets, avenues or highways hereinafter named. That the terms of said order, a copy of which is attached hereto, marked "Schedule A," were accepted by the said The Long Island Railroad Company.

IV. That on January 31st, 1916, the Public Service Commission of the State of New York for the First District made an order, dated on that day, by the terms of which it determined the manner in which the aforesaid proposed Creedmoor-Flushing Branch of the Long Island Railroad should cross the said streets, avenues or highways within The City of New York above mentioned and hereinafter enumerated. That the terms of said order, a copy of which is attached hereto, marked "Schedule B," are acceptable to The Long Island Railroad Company.

V. That the petitioner herein, The Long Island Railroad Company, desires to construct and operate the aforesaid proposed Creedmoor-Flushing Branch of its railroad in accordance with the authority conferred upon it by its charter as amended by the acts hereinabove specifically enumerated, as well as the Railroad Law of the State of New York, and in accordance with the provisions of the aforesaid orders of the Public Service Commission of the State of New York for the First District, dated respectively January 27th and January 31st, 1916. That the streets, avenues or highways within The City of New York required to be crossed by said branch railroad are Springfield Boulevard (Rocky Hill Road), Black Stump Road, Queens Road, North Hempstead Turnpike, Lawrence Road, Fresh Meadow Road, Underhill Avenue (Jamaica Avenue), Jagger Avenue (Remsen Road), Hammell Avenue (Hillside Drive), and Lawrence Street. That the location of said streets, avenues or highways with respect to the proposed branch railroad of the petitioner and the manner of crossing as determined by the said Public Service Commission are shown upon a blue print accompanying this petition, marked "Schedule C," which blue print is similar to that referred to in the aforesaid order of the Public Service Commission dated January 31st, 1916, as having been received in evidence by the said Public Service Commission on October 28th, 1915, and marked "Exhibit 4," and entitled "The Long Island Railroad Company, Creedmoor-Flushing Branch."

Wherefore, your petitioner prays that the consent of The City of New York may be granted it through your Honorable Board to the construction and operation of the aforesaid proposed Creedmoor-Flushing Branch of its railroad across the above named streets, avenues or highways, in the Borough of Queens, in The City

of New York, in the manner provided by, and in accordance with the determination by the aforesaid order of the Public Service Commission dated January 31st, 1916.

NOTICE TO BIDDERS AT SALES OF OLD BUILDINGS, ETC.

TERMS AND CONDITIONS UNDER WHICH BUILDINGS, ETC., WILL BE SOLD FOR REMOVAL FROM CITY PROPERTY.

THE BUILDINGS AND APPURTENANCES thereto will be sold to the highest bidder, who must pay cash or certified check, drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of $50, the sum of $50 shall be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchmen or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstances of vacating the structures of their tenants will permit.

All the material of the buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations and the sidewalks and curb in front of said buildings, extending within the described area, shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains, and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street and the openings of the main sewer in street shall be properly closed in compliance with the directions of the Bureau of Sewers in the Borough in which the buildings are situated, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all openings in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurtenances, or any part thereof, within thirty days from the day of possession will work forfeiture of ownership of such buildings, appurtenances or portions as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed, and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the day of possession, and the successful bidder will provide and furnish all materials of labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which it, they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.

Where party walls are found to exist between buildings purchased by different bidders, the materials of said party walls shall be understood to be equally divided between the separate purchasers.

Party walls and fences, when existing against adjacent property not sold, shall not be taken down. All furrings, plaster, chimneys, projecting brick, etc., on the faces of such party walls are to be taken down and removed. The walls shall be made permanently self-supporting, beam holes, etc., bricked up, and the wall pointed and made to exclude wind and rain and present a clean exterior. The roofs and adjacent buildings shall be properly flashed and painted and made watertight where they have been disturbed by the operations of the Contractor.

"No buildings, parts of buildings, fixtures or machinery sold for removal under these terms and conditions shall in any case be re-located or re-erected within the lines of any proposed street or other public improvement, and if any such buildings, parts of buildings, fixtures or machinery, etc., shall be re-located or re-erected within the lines of any proposed street or other public improvement, title thereto shall thereupon become vested in The City of New York and a resale at public or private sale may be made in the same manner as if no prior sale thereof had been made."

The Comptroller of The City of New York reserves the right on the day of sale to withdraw from sale any of the buildings, parts of buildings and machinery included therein, or to reject any and all bids; and be it further

Resolved, That while the said sale is held under the supervision of the Commissioners of the Sinking Fund, the Comptroller is authorized to cause the sale to be advertised and to direct the sale thereof as financial officer of the City.

The bid or estimate must be verified by the oath, in writing, of the party or parties making the estimate that the several matters stated herein are in all respects true.

No bid or estimate will be considered unless as a condition precedent to the recepion or consideration of any proposal, it be accompanied by a certified check upon one of the State or National banks of The City of New York, drawn to the order of the Comptroller, or money or corporate stock or certificates of indebtedness of any nature issued by The City of New York, which the Comptroller shall approve as of equal value with the security required in the advertisement to the amount of not less than three nor more than five per centum of the amount of the bond required, as provided in section 420 of the Greater New York Charter.

The amount shall be as specified in the proposals or instructions to bidders and shall not be in excess of 5 per cent.

The certified check or money should not be inclosed in the envelope containing the bid or estimate, but should be either inclosed in a separate envelope addressed to the head of the Department, President or Board, or submitted personally upon the presentation of the bid or estimate.

For particulars as to the quantity and quality of the supplies, or the nature and extent of the work, reference must be made to the specifications, schedules, plans, etc., on file in the said office of the President, Board or Department.

No bid shall be accepted from or contract awarded to any person who is in arrears to The City of New York upon debt or contract, or who is a defaulter, as surety or otherwise, upon any obligation of the City.

The contract must be bid for separately.

The right is reserved in each case to reject all bids or estimates if it is deemed to be for the interest of the City so to do.

Bidders will write out the amount of their bids or estimates in addition to inserting the same in figures.

Bidders are requested to make their bids or estimates upon the blank forms prepared and furnished by the City, a copy of which, with the proper envelope in which to inclose the bid, together with a copy of the contract, including the specifications, in the form approved by the Corporation Counsel, can be obtained upon application therefor at the office of the Department for which the work is to be done. Plans and drawings of construction work may also be seen there.
