CONSTRUCTION OF AN ENTRANCE PATH AND FENCING AT SHERMAN CREEK – Competitive Sealed Proposals/Pre-Qualified List – PIN# 84613B0021001 – AMT: \$370,936.80 – TO: Tristate Construction and Masonry Corp., 2922 Brighton 12th Street, Brooklyn, NY 11235. Located at 10th Avenue, North of Dyckman Street, Manhattan, known as Contract #M300-106MA.

DPR has determined that it is in the best interests of the City to procure vendors for Non-complex general construction site work, by utilization of a pre-qualified list of general contractors. DPR's portfolio of capital projects involves a high volume of often repetitive procurements which would benefit from a reduction of paper work and the delays associated with the award of contracts.

DPR is also complying with the Mayoral "Compete To Win" Initiative announced February 15, 2012, to increase business opportunities for women and minority enterprises. Procurement via the pre-qualified list has been structured to encourage participation of women and minority firms as general contractors and to increase subcontracting opportunities for this group.

NOTICE OF PUBLIC HEARING

Subject: Opportunity to comment on the proposed amendment to the Department of Homeless Services rules related to homeless shelters for single adults.

Date/Time: Monday, July 22, 2013, at 1:30 P.M.

Location: 89-111 Porter Avenue, Brooklyn, New York 11237

Contact: Gloria Langlais
New York City Department of Homeless Services
33 Beaver Street, 17th Floor
New York, NY 10004
Phone: (212) 361-7993
Fax: (212) 361-8010

Proposed Rule Amendment

Pursuant to the authority granted to the Commissioner of the New York City Department of Homeless Services (DHS or the "Department") by §§ 56, 61, and 134-a of the New York Social Services Law, §§ 350.4 and 351.1 of Title 18 of the New York Codes, Rules and Regulations, and §§ 612 and 1043(b) of the New York City Charter, the Department is proposing a rule related to homeless shelters for single adults. This rule was not included in the Department's regulatory agenda because it was not anticipated at the time.

Instructions

- Prior to the hearing, individuals interested in pre-registering to speak at the hearing should notify Ms. Langlais by mail by 5:00 P.M. on **Thursday, July 18, 2013**. Please include a telephone number where you may be reached during business hours. Although day-of registration will be accepted at the door until 9:30 A.M., preference will be given to those who pre-register. Speakers will have five (5) minutes each.

- Prior to the hearing, individuals may submit written comments about the proposed amendment to Ms. Langlais by mail, fax, through email at publichearing@dhs.nyc.gov or online at NYC Rules at www.nyc.gov/nycrules, by 5:00 PM on **Monday, July 22, 2013**.
- Written comments and a summary of the oral comments received at the hearing will be available within a reasonable time after the hearing, between the hours of 9:00 A.M. and 5:00 P.M. at the office noted above.

STATEMENT OF BASIS AND PURPOSE

The Department of Homeless Services ("DHS" or the "Department") provides temporary emergency shelter to homeless New York City residents in accordance with State and local law, implementing regulations, and court orders, with the goal of moving shelter residents back into permanent housing in the community as soon as possible.

DHS proposes to amend Title 31 of the Rules of the City of New York by adding Chapter 3, which pertains to single adults who return to shelter in the adult services system after an extended absence. Currently, if a single adult shelter client returns to the system within 365 days, the client must return to his or her official shelter (i.e., the shelter where he or she had been previously assigned), where he or she will receive a bed. If a client returns more than 365 days later, the client is sent to a single adult intake center to reapply for shelter, at which point he or she undergoes a new resource assessment and is assigned to a new official shelter.

Through years of experience and practice, DHS has found

that many single adult shelter clients exit the system and return after an extended absence (a period of at least thirty consecutive days), but within 365 days. Although it may be beneficial under certain circumstances for some of these clients to return directly to their official shelters, DHS seeks to provide other clients who return after an extended absence with a new resource assessment to identify alternative housing options they may have identified, utilized, or secured during their absence, and to connect them to resources or benefits that may alleviate their need for shelter and help them avoid re-entry into the system. Such alternative housing options can provide clients with long term housing stability, and assist in seeking benefits, employment, or other social services in the community. Importantly, even if no alternatives are immediately available, or if a client chooses not to utilize those alternatives at that time, the resource assessment will provide helpful information to the client and shelter staff at the client's official shelter placement for on-going case management work.

Considering the value of this assessment, the proposed Chapter 3 provides for referral of a single adult shelter client returning to shelter after an extended absence to a diversion office (located at a DHS single adult intake center) to participate in a Single Adult Resource Assessment ("Assessment") conducted by diversion staff. This Assessment will determine where a client resided during his or her extended absence from the adult services system, identify alternative housing options, and connect the client to resources or benefits to avoid re-entry into shelter. If none of these options are available or if the client does not wish to utilize any available options, the client will be referred back to his or her official shelter in the adult services system.

The Department notes that it does not believe that requiring a client returning after an extended absence to participate in a resource assessment must be promulgated as a rule pursuant to the City Administrative Procedure Act ("CAPA"), and believes that it may implement such a procedure outside of CAPA.

However, in the exercise of caution and in light of the Court's decision in *Callahan v. Carey* and *Council of the City of New York v. Department of Homeless Services of the City of New York*, 2012 N.Y. Misc. LEXIS 758 (Sup. Ct., N.Y. Co. 2012), the Department proposes to promulgate this procedure as a rule.

New material is underlined.

"Shall" and "must" denote mandatory requirements and may be used interchangeably in the rules of this Department, unless otherwise specified or unless the context clearly indicates otherwise.

Chapter 3
Single Adult Homeless Shelter

§3-01 Single Adult Resource Assessment

(a) **Definitions**

- (1) Official shelter: The single adult shelter to which an adult shelter client has been assigned, following intake and assessment.
- (2) Extended absence: An exit from the single adult shelter system lasting at least 30 consecutive days.
- (3) Returnee: An adult shelter client who returns to a single adult shelter after an extended absence and within 365 days.
- (4) Single Adult Resource Assessment: An assessment to identify alternative housing options available to a Returnee and to connect a Returnee to resources or benefits to avoid re-entry into shelter.
- (5) Diversion services: Services offered at a single adult intake center directed at finding non-shelter housing alternatives and resources.
- (6) Diversion office: An office located at a single adult intake center that provides diversion services.

(b) Upon a Returnee's return to the adult shelter system, shelter staff must determine whether, based on the entirety of the Returnee's circumstances, the Returnee will return to his or her official shelter or be referred to a diversion office for a Single Adult Resource Assessment. Factors whose presence would allow the Returnee to return to his or her official shelter and not be referred for a Single Adult Resource Assessment include but are not limited to:

- (1) The Returnee has a mental or physical disability;
- (2) Either the Returnee, or the primary tenant of the residence where the Returnee had been living prior to returning to shelter, has been evicted;
- (3) A vacate order has been issued for the residence where the Returnee had been living during his or her extended absence;
- (4) The Returnee was recently discharged from a prison, hospital, residential treatment facility, or other institution;
- (5) The Returnee is a victim of domestic violence; and
- (6) The Returnee has been living on the street.

If one or more of these factors are present, the Returnee must be assigned a bed at his or her official shelter. If a bed at the official shelter is unavailable, the Returnee must be given alternate

placement until a bed at the official shelter becomes available. If none of these factors are present, shelter staff must refer the Returnee to a diversion office for a Single Adult Resource Assessment.

- (c) If shelter staff determines that the Returnee must be referred for a Single Adult Resource Assessment, the Returnee must appear in person at a diversion office. DHS must provide transportation services or MetroCards to transport the Returnee to a diversion office. No Returnee will be transported at a time, or in a manner, that would be unsafe for the Returnee due to illness or intoxication.
- (d) Single Adult Resource Assessment.
 - (1) Upon the Returnee's arrival at a diversion office during regular business hours for conducting Single Adult Resource Assessments, diversion staff must conduct a Single Adult Resource Assessment with the Returnee.
 - (2) If the Returnee arrives at a diversion office after regular business hours for conducting Single Adult Resource Assessments, he or she must be temporarily assigned a bed and provided meals and shower facilities at the diversion office until a Single Adult Resource Assessment can be conducted the next business day.
- (e) Following the Single Adult Resource Assessment, if the Returnee does not have an alternative housing option, or has such an option but does not wish to return to or utilize the option, he or she must be referred back to his or her official shelter as soon as a bed is available. If a bed at the official shelter is unavailable, the Returnee must be given alternate placement until a bed at the official shelter becomes available.
- (f) For a Returnee who is not referred to a diversion office for a Single Adult Resource Assessment, diversion staff may, at their discretion, conduct such an assessment over the phone with the Returnee at his or her official shelter.

HUMAN RESOURCES ADMINISTRATION

NOTICE

Notice of Concept Paper

The New York City Human Resources Administration (HRA) intends to issue a Request for Proposals (RFP) for Home Care Services.

New York State is in the process of restructuring its Medicaid Program, including how non-institutional long term care services are provided. In advance of the release of the RFP, HRA is issuing a concept paper which outlines the program model that HRA developed in light of the significant reductions in the HRA home care client population due to New York State Medicaid Redesign. This will affect approximately 4,000 to 5,000 HRA Home Care Services Program clients who are currently exempt from enrollment in mandatory managed care and managed long term care programs.

The concept paper has been posted on the Agency's website at www.nyc.gov/hra/contracts

HOUSING RECOVERY OPERATIONS

NOTICE

Office of Management and Budget (OMB)
Final Notice and Public Explanation of a Proposed Activity in a 100-Year Floodplain

To: All interested Agencies, Groups, and Individuals

This publication gives notice that New York City has conducted an evaluation of the proposed NYC Houses Rehabilitation and Reconstruction (NYC Houses) program, also known as NYC Build it Back, as required by Executive Order 11988 in accordance with HUD regulations 24 CFR 55.20 Subpart C Procedures for Making Determinations on Floodplain Management. This evaluation is made to determine the potential affect that proposed activities in the floodplain will have on the human environment. Through the "Disaster Relief Appropriations Act, 2013" (Public Law 113-2, January 29) NYC will receive federal Community Development Block Grant (CDBG)-Disaster Recovery (DR) funding from HUD in the amount of \$306,000,000 to execute NYC Houses. This funding was allocated by HUD to help it address unmet housing needs as a result of Hurricane Sandy that impacted the City in October 2012. The CDBG Funding (January 29, 2013) and The City's Partial Action Plan A for CDBG-DR (April 2013) establish an outline of eligibility requirements, recovery priorities, and the method of distribution for the rehabilitation and reconstruction activities to be executed under NYC Houses. The assistance provided under NYC Houses is restricted to eligible NYC residents.

NYC has considered the following alternatives and mitigation measures to be taken to minimize adverse impacts and to restore and preserve natural and beneficial values of its floodplains:

Action Outside the Floodplain: It is anticipated that some percentage of applicants eligible for NYC Houses did not occupy homes on properties situated within the 100-year floodplain at the time of Hurricane Sandy, and will be eligible for assistance. For applicants with properties situated in vulnerable floodplain and/or in a sensitive coastal management zone who seek relocation outside these vulnerable areas, another NY State-funded program is planning to offer a limited property buyout opportunity.

☛ j20

Proposed Action in the Floodplain: The City expects many NYC Houses applicants will elect to return to their properties situated in or adjacent to the floodplain. Alternative approaches to protecting properties in these areas have been considered for the City's CDBG-DR housing programs. For NYC Houses, action will include elevation of structures to comply with the City's National Flood Insurance Program, and FEMA's Advisory Base Flood Elevation + 1 foot freeboard (ABFE+1), or the Preliminary Flood Insurance Rate Maps (P-FIRM) plus 2 foot freeboard when they are issued +2 feet. Additional measures to meet the City-adopted Enterprise Green Community Standards and to enhance resiliency of homes to future storms will be incorporated into the design of projects. The owners of properties situated in the floodplain will be required to purchase and maintain flood insurance for a specified number of years.

No Action: This alternative does not achieve the City goals of restoring the health and safety of hurricane-damaged housing for its residents, nor does it promote planning and implementation of resilience measures to mitigate damage from future weather extremes. Residents would continue to be displaced from their homes located in the floodplain, live in damaged, unsafe, and unsanitary housing within the hurricane-damaged neighborhoods or seek shelter elsewhere. Poor structural integrity of hurricane-damaged homes within the floodplain and wetland would put residents at a greater risk should a flood event occur, especially if homes do not meet current elevation requirements. Abandoned structures may not be demolished, posing a lingering health and safety risk, with possible storm-debris field hazards affecting water quality if subject to flood conditions. Storm debris fields on residential properties would potentially remain unaddressed, also posing a threat to public health and water quality.

Tier I Environmental Review of the Proposed Action for NYC Houses indicates there would be no adverse effect to the environmental conditions that existed across the City prior to Hurricane Sandy. This is primarily because neither land use nor densities are changing, and replacement structures will be comparable to pre-disaster housing, and less vulnerable to flood and other certain hazards. Minor possible adverse effects were identified for ambient noise levels, air quality, socioeconomic conditions related to population displacement, solid waste, storm water runoff, and traffic volume. These possible temporary impacts were determined to be limited to the period of construction activity and appropriate minimization and mitigation measures will be employed. As low to moderate income households most heavily impacted by Hurricane Sandy represent the priority population targeted for receipt of NYC Houses assistance, environmental justice concerns are addressed by offering safe, affordable, energy efficient homes to at least 50% of eligible applicants from these income categories. These results indicate a finding of no significant impact on the human environment from the proposed NYC Houses. Site-specific review will help determine potential environmental impacts, beyond the possible temporary ones to the target property, for the following impact categories: historic and cultural resources, the floodplain, wetlands, threatened and endangered species, and other environmental hazards. The impacts for these categories are expected to be minor given the environmental mitigation measures to be implemented.

The City determined that implementation of NYC Houses does not substantially change the prior land uses and serves to meet unmet housing needs in the aftermath of Hurricane Sandy in October 2012 and no practicable alternative exists other than to conduct the proposed action. This NYC Houses will have no significant impact on the environment because the action area and target properties will already have been either State or locally determined suitable for residential development. Since NYC Houses will conduct construction activities on existing residential developed sites and or existing structures with appropriate site-specific mitigation; no impacts to the floodplain are anticipated as a result of the proposed action.

This notice is required by Section 2(a)(4) of Executive Order 11988 for Floodplain Management and is implemented by HUD Regulations found at 24 CFR 55.20 Subpart C Procedures for Making Determinations on Floodplain Management. The 8-Step Decision Making Process includes public notices and the examination of practicable alternatives to building in the floodplain. The confirmation of address locations is in progress, but initial estimates indicate applications from households impacted by Hurricane Sandy will include those for properties situated in the 100-year floodplain and thus potentially considered for rehabilitation or reconstruction.

Additional project information including floodplain maps of the affected sites are contained in the Environmental Review Record currently on file with: Calvin Johnson, Assistant Director, 255 Greenwich Street, 8th Floor, New York, NY 10007 and may be examined from 10:00 A.M. to 5:00 P.M. To review the floodplain maps of the affected sites, visit www.region2coastal.com. This posting can be found by using the following link <http://www.nyc.gov/builditback> and then clicking on "Reports and Public Notices". The City is interested in alternatives and public perceptions of possible adverse impacts that could result from the project as well as potential mitigation measures.

All interested persons, groups and agencies are invited to submit written comments regarding the proposed use of federal funds to support a project located in a floodplain. Comments must be received in writing by mail to the above address or submitted via email to CDBGDR-enviro@omb.nyc.gov. The minimum 7 calendar day comment period will begin the day after the publication and end on the 8th day after the publication. All comments should be received by OMB on or before June 21, 2013.

**Office of Management and Budget (OMB)
New York City Housing Authority (NYCHA)
Final Notice and Public Explanation of a Proposed
Activity in a 100-Year Floodplain**

To: All interested Agencies, Groups, and Individuals

This publication gives notice that New York City has conducted an evaluation of the proposed NYCHA Public Housing Rehabilitation and Resilience (NYCHA Public Housing) program, also known as NYC Build it Back, as required by Executive Orders 11988 and 11990, in accordance with HUD regulations 24 CFR 55.20 Subpart C Procedures for Making Determinations on Floodplain Management and Protection of Wetlands, respectively. These evaluations are made to determine the potential effects that proposed activities in the floodplain and wetland associated with will have on the human environment. NYC will receive federal Community Development Block Grant (CDBG)-Disaster Recovery (DR) funding from HUD in the amount of \$108,000,000 to execute the NYCHA Public Housing program. This funding was allocated by HUD to help it address unmet housing needs as a result of Hurricane Sandy that impacted the City in October 2012. The *CDBG Funding* (January 29, 2013) and *The City's Partial Action Plan A for CDBG-DR* (April 2013) establish an outline of eligibility requirements, recovery priorities, and the method of distribution for the rehabilitation resilience activities under the NYCHA Public Housing program.

NYC has considered the following alternatives and mitigation measures to be taken to minimize adverse impacts and to restore and preserve natural and beneficial values of its floodplains:

Action Outside the Floodplain: NYCHA has considered a limited action alternative that restricts CDBG-funded action only to Hurricane Sandy-damaged public housing facilities outside the 100-year floodplain and wetlands. Under this approach, NYCHA's housing facilities located in the 500-year floodplain would be targeted for rehabilitation and resilience measures. Therefore, emergency power generation systems would only be provided to its public housing facilities outside the 100-year floodplain and wetlands, which did not experience damage to their building systems, and where low-income tenant families did not experience extraordinary disruption of utility services during or following Hurricane Sandy. This approach, if applied toward NYCHA's housing facilities located in FEMA's revised 500-Year floodplain, would signify the application of resiliency measures for buildings potentially vulnerable to extreme flooding. Remaining funds could therefore be applied toward further building system resilience measures systems serving these same properties, improve community centers situated in the 500-year floodplain, and facilitate relocation of the Emergency Operations Center (EOC). However, this alternative would still leave thousands of low-income families at risk for extraordinary disruption in their utility services should flooding again damage the power systems in the housing facilities where they live in the 100-year floodplain. The City thus considers that the potential risk for cyclic and costly emergencies for NYCHA is unacceptable, particularly given the large residential population it serves and the current understanding of how climate change conditions may produce future extreme storm events.

Proposed Action in the Floodplain: The City proposes to use CDBG-DR funds to fully restore building systems and service functions to NYCHA's residential facilities, and rehabilitating the City's Community Centers in the 100-year floodplain, while preserving these critical investments by making them more resilient to future storm forces. Funds will be applied toward the purchase of energy efficient standby generators, electrical and mechanical systems or alternate heating generating systems, as appropriate, to reduce vulnerability to the loss of critical services during emergency conditions. These measures will help avoid disruption to thousands of NYCHA's tenant families during future storm events. Other critical vulnerable building systems would also be targeted for resilience measures. These systems will be sustainably designed, and installed above the base flood elevation as required by FEMA for NYCHA participation in the NFIP, thus making these and the buildings they serve more resilient, as well as promoting the preservation of the City's vital public housing assets. A portion of the funds would help establish a new EOC with a standard Incident Command Structure.

Flood hazard prevention and mitigation measures for NYCHA facilities situated in the floodplain include the installation of new mechanical systems. The relocation of vulnerable building systems will comply with floodplain management requirements. The City's intention is to use the Preliminary Flood Insurance Rate Maps (P-FIRM) for NYC when they are issued, and require these CDBG-funded projects meet P-FIRM elevation plus freeboard to protect investments in these facilities. Freeboard is one or two feet, and depends on applicable building occupancy and flood zone. Additional measures to protect wetlands will be incorporated into construction plans and include standard construction Best Management Practices to minimize effects on water quality and wetland habitat from construction activities that could otherwise be impacted by uncontrolled stormwater runoff from project sites.

No Action: This alternative does not achieve the City goals of restoring Hurricane Sandy-damaged housing for its residents, nor does it promote planning and implementation of resilience measures to mitigate damage from future weather extremes. Under the no-action alternative, neither permanent repairs nor resiliency measures would be funded by CDBG-DR or implemented for NYCHA residential facilities as described in the proposed action alternative, unless or until alternative funding could be arranged. Without the permanent repairs NYCHA residential facilities would remain in varying degrees of disrepair, potentially posing health and safety hazards as well as continued disruption to tenant families. These important residential buildings and NYCHA community centers would remain

vulnerable to future storm forces, continue to deteriorate, thus becoming less functional for the City's low-income population served.

This **FINAL NOTICE FOR PUBLIC REVIEW OF A PROPOSAL TO SUPPORT ACTIVITY IN A 100 - YEAR FLOODPLAIN** is required by Section 2(a)(4) of Executive Orders 11988 and 11990, respectively for Floodplain Management and Protection of Wetlands and is implemented by HUD Regulations found at 24 CFR 55.20 Subpart C Procedures for Making Determinations on Floodplain Management. The 8-Step Decision Making Process includes public notices and the examination of practicable alternatives to building in the floodplain or wetland. NYCHA proposes to use CDBG-DR funds for rehabilitation and resilience activities at residential facilities housing units located within the 100-year floodplain.

Additional project information including floodplain maps of the affected sites are contained in the Environmental Review Record currently on file with: Calvin Johnson, Assistant Director, 255 Greenwich Street, 8th Floor, New York, NY 10007 and may be examined from 10:00 A.M. to 5:00 P.M. OFFICE OF MANAGEMENT AND BUDGET

■ NOTICE

**COMMUNITY DEVELOPMENT BLOCK GRANT PROGRAM
FLOOD NOTICE OF EARLY PUBLIC REVIEW**

Regulations promulgated under Executive Order 11988 require that the public be provided the opportunity for early review as soon as it is determined that a federally-funded project is proposed to be located in a federally-designated floodplain as defined by the respective Executive Order. This announcement constitutes such notice. This notice is not related to the Community Development Block Grant Disaster-Recovery Program.

BRONX RIVER PROJECT

The Bronx River Project continues its efforts to restore the river and create a continuous greenway along its length. The program has several funding sources including City Tax Levy, private grants, and other federal grants. Community Development (CD) funds are used to purchase education and outreach materials, office supplies, field equipment, and restoration supplies; for maintenance of a website (www.bronxriver.org); and for the support of program consultants and ecological restoration personnel. The CD funding also fully covers the Bronx River Conservation Manager position and two assistant crew leader positions. The Calendar Year 2013/CD 39 program allocation is \$190,000. The Department of Parks and Recreation coordinates closely with the Bronx River Alliance to implement the following programs along the river.

- Education: The Education Program provides hands-on outdoor learning opportunities for thousands of students and educators in communities along the river. The program has three components: Bronx River Classroom, the Bronx River Stewards Volunteer Monitoring Program, and the Wade into the Bronx River series, which includes free lectures, walks, and workshops on educational topics related to the River.
- Community Outreach Program: The Outreach Program draws thousands of people to the river through public events, including the Amazing Bronx River Flotilla, the Bronx River Festival, and dozens of other activities including volunteer-led walks, clean-ups, restoration projects, movies nights and performing arts programs along the river.
- Ecology Program: The Ecological Restoration and Management Program works to protect, restore, and manage the Bronx River corridor through field work and policy leadership. Guided by an Ecology Team (comprised of scientists and community and agency representatives), the Ecology Program addresses the most pressing ecological issues. The Conservation Crew plants river-appropriate trees, shrubs, and plants. It also removes garbage and river blockages.
- Greenway Program: The Greenway Program develops open spaces, restores existing parks, and integrates them into a series of continuous parks and trails along the river – the Bronx River Greenway. When complete, the greenway will form a 23-mile ribbon of parkland along the river from the Kensico Reservoir to the East River.

Additional information, including a copy of the flood map of the affected site, is available and can be obtained at the Office of Management and Budget, Community Development Unit, 255 Greenwich Street, 8th Floor, New York, New York 10007, between 10:00 A.M. and 5:00 P.M., Monday through Friday. Please call (212) 788-6177 for a copy of the project information or to arrange to view the file. All interested persons, groups and agencies are invited to submit written comments regarding the proposed use of federal funds to support a project located in a floodplain. Such comments should be received at the Office of Community Development on or before July 1, 2013.
