### HHS ACCELERATOR PREQUALIFICATION

To respond to human services Requests for Proposals (RFPs), in accordance with Section 3-16 of the Procurement Policy Board Rules of the City of New York (“PPB Rules”), vendors must first complete and submit an electronic HHS Accelerator Prequalification Application using the City’s PASSPort system. The PASSPort system is a web-based system maintained by the City of New York for use by its Mayoral Agencies to manage procurement. Important business information collected in the Prequalification Application is required every three years. Documents related to annual corporate filings must be submitted on an annual basis to remain eligible to compete. Prequalification applications will be reviewed to validate compliance with corporate filings and organizational capacity. Approved organizations will be eligible to compete and would submit electronic proposals through the PASSPort system. The PASSPort Public Portal, which lists all RFPs, including HHS RFPs that require HHS Accelerator Prequalification, may be viewed, at [https://passport.cityofnewyork.us/page.aspx/en/rfp/request\\_browse\\_public](https://passport.cityofnewyork.us/page.aspx/en/rfp/request_browse_public). All current and prospective vendors should frequently review information listed on roadmap to take full advantage of upcoming opportunities for funding. For additional information about HHS Accelerator Prequalification and PASSPort, including background materials, user guides and video tutorials, please visit <https://www1.nyc.gov/site/mocs/systems/about-go-to-passport.page>.

**GENETEC SECURITY SYSTEM SOFTWARE UPGRADE**

- Negotiated Acquisition - Other - PIN# 82023N0001 - Due 1-13-23, at 5:00 A.M.

Software upgrade for the existing security system.

Because OATH has an existing maintenance contract with SecureWatch24 LLC, for its Genetec Security System, it is neither practical nor advantageous to seek the software upgrade via a competitive sealed bid, or competitive sealed proposal. The upgrade services naturally fall within the duties of the maintenance contract vendor. The advantages of negotiating with SecureWatch24 LLC, clearly outweigh the disadvantages of a lack of competition.

#### **Statement of Basis and Purpose of Proposed Rule**

The Commissioner of the New York City Department of Transportation (DOT) is authorized to issue rules regarding parking and traffic operations in the City, pursuant to Section 2903(a) of the New York City Charter. The rules that DOT is seeking to amend are contained within Chapter 4 of Title 34 of the Rules of the City of New York, relating to its “Traffic Rules.”

The growth of e-commerce deliveries and for-hire vehicle trips throughout the city has changed the way New Yorkers use curbs. Nearly 90% of goods in New York City are delivered by trucks and, with the growth of e-commerce and demand for frequent home deliveries, the amount of goods that move through NYC is estimated to grow by 68% in the next 20 years. As demand for the City’s limited curb space continues to grow, trucks, delivery vehicles, cargo bikes, and personal vehicles need safe ways to access the curbs without blocking traffic, including bus routes and bike lanes. These proposed rules would provide dedicated curb space for loading and unloading activities during daytime and evening hours, which would help to reduce double parking as well as other unwanted standing behaviors, creating a safer and more efficient environment for all road users. For example, Neighborhood Loading Zones (NLZ), a program that provides curb space for commercial deliveries, active loading and unloading, and pick-up and drop-off activity, reduces double parking by up to 70% while creating a safer and more efficient environment.

The proposed rule would update Section 4-08 of the Traffic Rules for the purpose of establishing “Loading Only” dedicated use signage. The signage would make clear, to the public that the purpose of a “Loading Only” zone is for the expeditious pick-up and drop-off of goods and passengers from commercial vehicles, for-hire vehicles, and personal vehicles. The signage would also include a set time limit for the vehicle to utilize the space. Vehicles displaying agency-authorized or single use permits would also be prohibited from utilizing the dedicated space.

Specifically, the proposed amendments are as follows:

- Section 4-08(a)(3)(i) would be amended to include “Loading Only” as a dedicated use sign.
- Section 4-08(c) would be amended to define “Loading Only” zones with a detailed description of the intended use of the regulation.
- Section 4-08(o)(3)(ii) would be amended to include “Loading Only” as a prohibited area for agency-authorized parking.
- Section 4-08(o)(4)(iii) would be amended to include “Loading Only” as a prohibited area for single-use permits.

New material is underlined.

[Deleted material is in brackets.]

#### **Section 1. Subparagraph (i) of Paragraph (3) of Subdivision (a) of Section 4-08 of Chapter 4 of Title 34 of the Rules of the City of New York is amended to read as follows:**

These include but are not limited to: (1) Data analysis support related to customer, routing, generation, or financial data; (2) Staff training for DSNY employees on current and historical data for carters, customers, waste generation, safety records, financials; (3) Support during the transition period for the implementation of Commercial Waste Zones, to be rolled out over two years. Arcadis will support data collection, analysis and compliance reporting to assist DSNY in assessing compliance with transition period requirements. This will include, but is not limited to: (1) ongoing analysis of customer signups, customer registers and route schedules, to ensure that all covered establishments are represented in carter customer agreements; ensuring that all covered customers are reported as receiving the minimum required service frequencies for refuse, recycling and organics; (2) ongoing analysis of carter finances, to ensure that carters have sufficient assets to complete the transition period and begin full operation in awarded zones; (3) ongoing analysis of commercial waste generation, to ensure minimum service and compliance with recycling and organics laws. The New York City Commercial Waste Zones program is required by Local Law 199 of 2019. The Department of Sanitation is responsible for implementing this program. Implementation is expected to begin in FY24 and roll out citywide over FY24 and FY25. Commercial carters are submitting proposals for 20 geographic zones, with three carters to be awarded in each zone, plus five citywide containerized awards, for a total of 65 city contracts covering approximately 100,000 commercial establishments. Carters will provide covered commercial establishments with waste collection services for refuse, recycling and organics. DSNY is

responsible for enforcing zone compliance as well as additional regulations required by Local Law 199. Each zone will have a transition period of approximately four months to allow the awarded carters to scale up their provided services, end service with existing customers, begin service with customers in awarded zones, and achieve full compliance with the required regulations. The transition period has specific requirements that must be met by the carters before DSNY can approve the carter to fully operate in the awarded zone or zones. All regulations for the transition period as well as the awards, including published Rules, the Commercial Waste Zones RFP, and Local Law 199 are accessible on the DSNY commercial waste website, at nyc.gov/commercial waste.
