##### PETITIONS AND COMMUNICATIONS.

No. 809 (Ord. No. 88).

The City Club of New York—Communication Transmitting Proposed Ordinance to Amend Section 240 of Article 17, of Chapter 23 of the Code, Relating to Vaults.

The City Club of New York, 55 West 44th Street, September 25, 1918.

Hon. ALFRED E. SMITH, President of the Board of Aldermen of The City of New York, City Hall:

Sir—The City Club having examined the present City practice with respect to vault rentals and the practice suggested in the report of the Commission on New Sources of City Revenue, begs to suggest for your consideration the following:

Present Ordinance—Persons desiring to construct vaults apply to the Borough President for permits, and in making application are obliged to state the number of square feet of ground desired and the dimensions. A charge of not less than 30 cents nor more than \$2 per square foot of ground is made by the Borough President. This is not an annual charge but is levied only once. Provisions are included for refund of overcharge and a penalty of double the amount is charged whenever the vault exceeds the dimensions specified in the permit. Other provisions relate to construction, protection of openings, railing and covers.

Mr. Lewis' Report—In a report made in 1909, Mr. Nelson P. Lewis, Chief Engineer of the Board of Estimate, examined eighteen vaults typical of those in use in Manhattan. These vaults for which permits were issued between 1857 and 1906 have yielded the City a total of \$18,742.08 on the initial payments and have paid no revenue or rental since the issuance of the permits. Mr. Lewis proposed a charge which should be the sum obtained by multiplying the number of square feet in the vault by 5 per cent. of the value of the average square foot of the abutting land. On this basis he estimates that the City would receive an annual rental of \$108,014.51 from these eighteen vaults.

Objections to Mr. Lewis' Method—Our feeling is that his charge would be unjustly levied in that differences in depth of lot vitally affect the sum and would provide different rentals for identical vaults side by side. The Commission itself recognizes this fact on page 24 of its report in the following language:

"It has been suggested, and might be contended with merit, that the value of vaults is reflected by the value of frontage of the abutting property and the depth of such lots is of no consequential consideration in the determination of the same. If such be the case, it follows that the basis of rental should be upon the frontage value of the abutting property and not upon the value of the entire lot. A specific illustration that would more forcibly bring out this point is a case where there are two adjoining lots, both of the same frontage dimensions, but of different depths, vaults adjoining these lots and of the same measurements, all other things being equal, would be of the same value, and yet rentals based upon the average value per square foot of the abutting property would subject these vaults to additional sums of rental.

"The system prevailing in Chicago, wherein the depth of the proposed vault effects the rental is worthy of mention. In some instances the sub-surface space extends to the depth of several floors and utilized by the abutting property owner for commercial as well as pecuniary advantage, it is not unfair to exact a proportionate increase for such additional use."

The Commission therefore in its recommendations suggests an annual rental determined by multiplying the area of the vault by one-half of one per cent. of the value of the average square foot of the abutting property when computed on the basis of a standard inside lot 100 feet in depth. On this basis the eighteen typical vaults cited in the Lewis report would yield annual rentals of \$6,092.77 as against the Chief Engineer's estimated \$108,014.51.

Application—On this basis the City Club's coal bin, for example, would yield about \$38.75, a sum which we would be glad to pay annually to the City. The bin occupies a space approximately 10 by 20 feet. The assessed value of the Club's plot, which is an inside lot 100 feet in depth is \$155,000. The value of the average square foot is, therefore, \$38.75. One-half of one per cent. of this multiplied by the area of the vault also equals \$38.75. This may be high rental for a coal bin, but we have the space and it is not the City's fault that we choose to use it for that purpose. Practically all the big department stores have basements extending under the sidewalks in which to retail goods. Horn & Hardart's restaurant at 42d street near 5th avenue is almost entirely beneath the sidewalk. Haan's restaurant in Park row has three or more small dining rooms below the sidewalk. On this publicly owned space these concerns make a substantial return for which they make no regular payment—

the initial payment in most cases being little more than three times the estimated annual rental and the vaults in most cases being relatively permanent.

**Supporting Data**—We are submitting as an appendix to this report certain supporting data furnished by the various Borough Presidents in reply to our requests for information.

**Recommendation**—Here is a source of revenue that should yield the City a substantial annual return. We suggest that the Board of Aldermen enact an ordinance somewhat along the lines of the draft which is submitted herewith to secure for the public an adequate annual rental from sub-surface privileges.

Respectfully submitted, THE CITY CLUB OF NEW YORK, RICHARD C. HARRISON, Secretary.

#### Supporting Data.

##### Manhattan—

"Vault permits have been issued by The City of New York since 1794. The record of those issued between the above year and 1857 is not complete. We would, therefore, not be able to advise the total number of permits issued, but information from the last year mentioned to the present time can be given, but this would entail considerable clerical work, cover a long time to do it and interfere generally with current office business.

"The maximum, minimum and average price per square foot at which these permits were issued prior to 1881 was 15c. per square foot, and, beginning with the Civil War, 30c. per square foot. Some years later ordinances provided for a varying charge between 30c. and \$2.00 per square foot and at the present time in the Borough of Manhattan the charge varies between \$1.00 and \$2.00.

"Total income received from this source of revenue during 1917 was \$132,276.70, representing income from 265 permits."

##### Brooklyn—

1. Total number of permits issued .....	1,450
2. Aggregate area, square feet .....	308,593
3. Article 17, section 240, Ordinances of The City of New York, provides for a maximum and minimum rate of from 30c. to \$2.00 per square feet for vault space. The rate is then charged according to the assessed valuation of the land upon which the vaults abut. This ordinance did not go into effect, however, until November, 1908. Prior to that date the rate was a fixed one of 10c. per square foot. Under the present rates, since 1906 the total number of permits issued was .....	520
Aggregate area, square feet .....	142,804
For which the City received .....	\$100,063 34
At the average rate of about, per square foot .....	\$0 70
4. The money received for vault space, year 1917 .....	\$3,392 84

#### PROPOSED ORDINANCE. THE CITY OF NEW YORK. In the Board of Aldermen. AN ORDINANCE.

Int. No. Ord. No.

Introduced by 1918.  
AN ORDINANCE to amend section 240 of article 17 of chapter 23 of the Code of Ordinances relating to vaults and cisterns.

Be it Ordained by the Board of Aldermen of The City of New York, as follows:  
Section 1. Section 240 of article 17 of chapter 23 of the Code of Ordinances relating to vaults and cisterns is hereby amended to read as follows:  
Sec. 240. General Provisions.

1. Definitions. Whenever used in this article, the term vault shall be deemed to mean every description of opening below the surface of the street in front of any shop, store, house or other building, if covered over; except openings which are used exclusively as places for descending to the cellar floor of any building or buildings, by means of steps.

2. Jurisdiction. Each borough president is empowered to issue permits in the manner hereinafter specified for the construction of vaults or cisterns in the streets within his jurisdiction.

3. Permits. No person shall cause or procure any vault or cistern to be constructed or made in any streets, without a permit from the borough president having jurisdiction thereof. Every application for a permit to erect such vault or cistern shall be in writing, signed by the person making the same, and shall state the number of square feet of ground which is required for the same, and the intended length and width of the same.

4. Compensation. Upon receiving such permit for a vault not exceeding 15 feet in depth below the surface of the street, the applicant therefore shall forthwith pay to the borough president for such permission such sum as he shall certify in the permit to be [a just compensation to the city for such privilege, calculated at the rate of not less than 30 cents nor more than \$2 per foot], the rental value of such vault for the remainder of the calendar year, computed at the annual rate of one-half of one per cent (.005) of the value per square foot of the abutting property as shown by the last preceding assessment for taxation calculated on the basis of a normal inside lot 100 feet in depth, for each square foot of ground mentioned as required for such vault or cistern. Whenever such vault adjoins or is to adjoin property fronting on two or more intersecting streets the borough president shall certify in the permit such additional sum as shall in his discretion be a just compensation to the city for such permission.

When such vault extends or is to extend more than 15 feet below the surface of the street, the borough president in issuing such permit shall, add to the rental certified, for each additional 12 feet or fraction thereof an additional sum equal to one-half of the sum computed as above for the first 15 feet of depth. All vault permits outstanding at the time of the enactment of this ordinance are hereby revoked, such revocation to take effect December 31, 1918. Holders of such permits may upon application to the borough president having jurisdiction and in his discretion have their permits extended upon the payment of the rental for the ensuing calendar year as computed above. In the case of permits issued since January 1, 1910, for which the compensation paid is in excess of the sum which such permit holder would have been obliged to pay on the basis of an annual rental, the borough president in his discretion may grant a permit, without further compensation to the city for such period as the permit holder would by such initial payment be entitled to on the basis of an annual rental.

Upon and after the enactment of this ordinance all permits shall be for the calendar year unless sooner revoked and compensation paid to the city for the use of vaults or cisterns shall be upon the basis of an annual rental computed and certified by the borough president having jurisdiction, as hereinbefore provided.

5. Measurement. In the case of a new vault, before the arching or covering thereof shall be commenced, the person to whom the permit for such vault shall have been granted shall cause the same to be measured by a city surveyor who shall deliver to the borough president granting the permit a certificate signed by the surveyor, specifying the dimensions of the vault which shall be accompanied by a diagram showing the square-foot area of the vault, including its sustaining walls, and indicating its location relative to the building and curb lines and to the nearest intersecting street corner. In the case of an existing vault, the person claiming

the right to the use thereof shall furnish a like certificate and diagram in respect thereof, but in such case the measurement shall exclude the sustaining walls.

6. Refundments. If, from subsequent measurements, it shall appear that less space has been taken than that paid for, the permittee shall be entitled to receive a certificate from the borough president who issued the permit, showing the difference. Upon the presentation of said certificate of difference to the comptroller, he shall pay a rebate to the permittee, the amount of which shall be the difference in money between the square feet originally paid and the fee for space actually taken; provided the surveyor's certificate was filed on or after the 1st day of March, 1913.

7. Unauthorized encroachments. If it shall appear that the vault occupies a greater number of square feet than shall have been paid for as aforesaid, the owner thereof shall, in addition to the penalty imposed by this article, forfeit and pay twice the sum previously paid for each square foot of ground occupied by the vault or cistern, over and above the number of square feet paid for as aforesaid.

8. Limitation. No person shall erect or build, or cause or permit any vault to be made, which shall extend further than the line of the sidewalk or curbstone of any street.

9. Responsibility. The master builder who shall complete or begin the construction of a vault, and the owner or person from whom the same shall be excavated or constructed shall be liable to the provisions, payments and penalties of this article, severally and respectively.

Section 2. This ordinance shall take effect immediately.

New matter in italics; old matter in brackets.

Which was referred to the Committee on General Welfare.

The Vice-Chairman laid before the Board the following communications from the Central Purchase Committee:

No. 813.

**Central Purchase Committee—Request for Authority to Purchase Muslin Without Public Letting.**

City of New York, Central Purchase Committee, Municipal Building, September 28, 1918.

Honorable Board of Aldermen, Municipal Building, New York City:

Dear Sirs—Would respectfully request your permission to purchase in the open market, without public letting, 8,000 yards of 4-4 unbleached muslin at 23 cents per yard, amounting to \$1,840.

As the U. S. Government has commandeered the output of all the mills, this Committee has experienced difficulty in purchasing muslin at different times.

As the present market value of muslin is 27 cents per yard, and this 8,000 yards can be purchased for immediate delivery at 23 cents, effecting a total saving to the City of \$320.

I trust your honorable Board can see a way clear to grant the above request. Yours very truly,

JOHN J. DALY, Acting Director.

Approved: JAMES A. HAMILTON, Chairman; DAVID HIRSHFIELD, Secretary.

Which was referred to the Committee on Public Letting.

No. 814.

**Central Purchase Committee—Request for Authority to Purchase Butter for Various Departments Without Public Letting.**

City of New York, Central Purchase Committee, Municipal Building, September 30, 1918.

To the Honorable Board of Aldermen, City Hall, N. Y.:

Gentlemen—Would respectfully request your permission to purchase in the open market, without public letting, butter for the Departments of Public Charities, Correction, Health and Bellevue and Allied Hospitals for the month of October in an amount not to exceed \$38,129.

On September 18, 1918, the Central Purchase Committee held an advertised bid opening for supplying, through contract, butter for the above named departments. Only two bids were received at this opening, which were as follows:

\$0.584 and \$0.64 per pound.

As the successful bidder proposed to furnish storage butter, having written same on his bid, the bid was declared informal and therefore rejected, and steps taken to prepare a new contract.

Due to the United States Government taking over 60 per cent. of the supply of butter for the use of the Army and Navy, no doubt it will be impossible for this Committee to contract for it during the month of October except at an exorbitant price. The commodity being scarce on the market, makes it impossible for any one

concern to guarantee delivery in any large quantity, thereby preventing them from entering into a contract.

We know it will be to the advantage of the City to purchase our supply of butter weekly, as this will enable us to watch the market conditions and purchase quantities of butter from any dealer or dealers according to the supply they might have on hand. By doing this it will enact quite a saving to the City rather than by having the butter contracted for.

In view of the above facts, I trust that your honorable Board will see their way clear to grant this request. Respectfully,

JOHN J. DALY, Acting Director.

Approved: JAMES A. HAMILTON, Chairman; DAVID HIRSHFIELD, Secretary.

Which was referred to the Committee on Public Letting.

The Vice-Chairman laid before the Board the following communication from the Commissioner, Department of Street Cleaning:

No. 815.

**Commissioner of Street Cleaning—Request for Authority to Purchase Two Four-Cylinder Stutz Automobiles Without Public Letting.**

Department of Street Cleaning of the City of New York, Office of the Commissioner, Municipal Building, New York City, October 1, 1918.

Hon. ALFRED E. SMITH, President, Board of Aldermen, City Hall, New York:

Dear Sir—Pursuant to section 419 of the Greater New York Charter, I respectfully request permission to purchase in the open market, without public letting, two new four-cylinder Stutz automobiles, 1918 model, fully equipped, at an expense not to exceed \$6,000 for both, delivered in New York City.

These machines are needed for use of the Deputy Commissioners. The car now used by the Deputy Commissioner of The Bronx is owned by him, and the car used by the Deputy Commissioner of the Borough of Manhattan is a second-hand car and is now unserviceable. Respectfully yours,

A. B. MACSTAY, Commissioner.

**Board of Elections—Request for Authority to Contract for Voting Booths Without Public Letting.**

Board of Elections of the City of New York, General Office, Municipal Building, Manhattan, New York, October 1, 1918.

Hon. ALFRED E. SMITH, President, Board of Aldermen of the City of New York, City Hall, New York City:

Dear Sir—I hereby transmit copy of a resolution unanimously approved by the Board of Elections of the City of New York at a meeting held this day, and respectfully request its unanimous adoption by the Board of Aldermen of the City of New York:

"Resolved, That, in pursuance of the provisions of section 419 of the Greater New York Charter, the Board of Elections of the City of New York be and it is hereby authorized and empowered to enter into contract, without public letting, for the supply and delivery in this City, at a cost not to exceed four thousand eight hundred dollars (\$4,800), of twelve wooden, collapsible, portable, street voting booths, for use as polling places for the coming registration, occurring on October 7, 1918."

This resolution is asked for in view of the fact that the Board finds it impossible to secure school houses, public buildings or stores in various localities, and it is absolutely necessary for it to erect street booths.

It is respectfully urged that consent to the above request be given at this meeting of your Board. Respectfully,

JOHN R. VOORHIS, President.

Hon. ALFRED E. SMITH, President, Board of Aldermen, City Hall, New York:

Dear Sir—The Board of Estimate and Apportionment, at a meeting held September 27th, adopted a resolution transferring \$2,500 from "Accruals" to the City Court account, "Purchase of Equipment." The object of this transfer was to provide funds to purchase linoleum for the floors of the trial parts of the City Court. The present covering of these floors being in an extremely bad condition, and the Fall Term of the Court opening October 7th, I am directed by the Justices of the City Court to request permission from the Board of Aldermen to purchase at once, without public letting, and at a cost not to exceed \$2,500, sufficient linoleum to cover the floors of the respective trial parts of the court. FRANCIS P. KENNEY, JOHN S. GAYNOR, B. E. DONNELLY, JOHN DIEMER, JOHN J. O'ROURKE, MICHAEL STAPLETON, EDWARD V. GILMORE, WM. P. KENNEALLY, Committee on Finance.

The City of New York, Department of Docks and Ferries, Office of the Commissioner, Pier A, North River, September 20, 1918.

Hon. ALFRED E. SMITH, President, Board of Aldermen, City Hall, New York City:

Dear Sir—The Thomas Ward Coal Company is the occupant under a permit from this Department of the bulkhead between West 79th and West 80th streets, North River, Borough of Manhattan. The Chief Engineer of this Department reports that the depth of water in front of said bulkhead is only about 8 feet at mean low water, whereas in order to provide the coal company the proper facilities for which it pays a substantial rental a depth of at least 15 feet should exist at mean low water. This will necessitate dredging to the extent of about 1,500 cubic yards.

As this Department has no funds available at the present time with which to do this essential work, and as it is estimated that at the present market price the cost of doing this dredging will amount to about \$1,800, I respectfully request that the Board of Aldermen adopt a resolution recommending to the Board of Estimate and Apportionment the issuance of special revenue bonds in the sum of \$1,800.

Yours respectfully,

MURRAY HULBERT, Commissioner of Docks.

Which was laid over.

That the Committee agrees with the recommendations of the Board of Estimate and Apportionment. One is a well deserved increase for the present incumbent, the other provides for the prevailing rate for Painters.

Your Committee recommends the adoption of said resolution.

Whereas, The Board of Estimate and Apportionment adopted the following resolution at a stated meeting held July 19, 1918:

Resolved, That the Board of Estimate and Apportionment, pursuant to the provisions of section 56 of the Greater New York Charter, hereby recommends to the Board of Aldermen the establishment in the Police Department of the grades of positions, in addition to those heretofore established, as follows:

#### NOTICE TO BIDDERS AT SALES OF OLD BUILDINGS, ETC.

TERMS AND CONDITIONS UNDER WHICH BUILDINGS, ETC., WILL BE SOLD FOR REMOVAL FROM CITY PROPERTY.

THE BUILDINGS AND APPURTENANCES thereto will be sold to the highest bidder, who must pay cash or certified check, drawn to the order of the Comptroller of The City of New York, and must also give a certified check or cash in half the amount of the purchase price as security for the faithful performance of the terms and conditions of the sale. Where the amount of the purchase price does not equal or exceed the sum of \$50, the sum of \$50 will be the amount of the security to be deposited. This security may at any time after the expiration of the contract period be applied by the City to the cost of completing any of the work required under the contract, but unfinished at the expiration of the contract period.

The purchaser shall not lease, occupy, cause or permit the building or buildings, etc., purchased by him to be used or occupied for any purpose other than that of their speedy removal, nor shall he collect any rental or other revenue for the use of either the land or the buildings, etc., situated thereon. The breach of either or any of these conditions shall forthwith void the sale and cause immediate forfeiture of the purchase money and the security deposited for the faithful performance of the conditions of the sale. The placing therein or permitting the occupancy of any such building by any tenant free, for rent or otherwise, excepting the necessary watchman or the workmen engaged in the actual demolition thereof, shall of itself be a breach of the above conditions of sale.

The sale will be as of the condition of the property on date of delivery thereof to the purchaser. The City of New York will not be responsible for any change or loss which may occur in the condition of the buildings, or their appurtenances between the time of the sale thereof and the time of delivering possession to the purchaser, after being properly vacated of all tenants. The sale and delivery to purchaser will be made as nearly together as the circumstances of vacating the structures of their tenants will permit.

All the material of buildings, sheds, walks, structures and cellars of whatsoever nature, with their exterior and interior fixtures, appurtenances and foundations of all kinds, except the exterior walls of the buildings and their foundations, and the sidewalks and curb in front of said buildings, extending within the described area, shall be torn down and removed from the premises. None of the dirt, debris or waste resulting from the demolition shall be allowed to remain on the premises, except old mortar or plaster only, which may be left, but not higher at any point than two feet below the curb opposite that point. The exterior walls and their foundations shall be taken down only to a plane whose elevation shall be the level of the curb in front of the building. Where there is no curb the elevation of the surrounding ground shall be considered curb level. All wells, cesspools, sinks, etc., existing on the property must be filled to the level of the surrounding ground with clean earth.

The purchaser at the sale shall also withdraw and remove all abandoned water taps and old service mains and in place thereof cause to be inserted a brass plug in the main water pipe in the street, in compliance with the rules and regulations of the Department of Water Supply, Gas and Electricity, and furnish the Department of Finance with a certificate from the Department of Water Supply, Gas and Electricity that this has been performed.

The purchaser at the sale shall also remove all house sewer connections to the main sewer in the street, and the openings of the main sewer in street shall be properly closed in compliance with the directions of the Bureau of Sewers in the Borough in which the buildings are situated, and furnish the Department of Finance with a certificate from the Bureau of Sewers that the work has been properly performed.

The permit for all openings in the street to be obtained by and at the expense of the purchaser of the building.

Failure to remove said buildings, appurte-

nances, or any part thereof, within thirty days from the day of possession will work forfeiture of ownership of such buildings, appurtenances or portions as shall then be left standing, together with all moneys paid by said purchaser on account thereof at the time of the sale, and the bidder's assent to the above conditions being understood to be implied by the act of bidding, and The City of New York will, without notice to the purchaser, cause the same to be removed and the cost and expense thereof charged against the security above mentioned.

The work of removal must be carried on in every respect in a thorough and workmanlike manner, and must be completed within thirty days from the date of possession, and the successful bidder will provide and furnish all materials or labor and machinery necessary thereto, and will place proper and sufficient guards and fences and warning signs by day and night for the prevention of accidents, and will indemnify and save harmless The City of New York, its officers, agents and servants, and each of them, against any and all suits and actions, claims and demands of every name and description brought against it, them or any of them, and against and from all damage and costs to which they or any of them be put by reason of injury to the person or property of another, resulting from negligence or carelessness in the performance of the work, or in guarding the same, or from any improper or defective materials or machinery, implements or appliances used in the removal of said buildings.
